CNH GLOBAL N.V.

Form 6-K for the month of October 2012

On May 30, 2012, the Board of Directors of CNH Global received a proposal (the Proposal) from Fiat Industrial to enter into a combination transaction. The Board of Directors of CNH Global appointed a special committee of unconflicted directors to evaluate the Proposal in consultation with independent financial and legal advisors retained by the special committee. Following such evaluation, the special committee announced on October 15, 2012 that, based on information made available to it, as well as the opinions of its financial advisors, the special committee had unanimously concluded the Proposal was inadequate and would not be in the best interests of CNH Global and CNH Global's shareholders and that the special committee had unanimously determined not to recommend the Proposal. In that same announcement, the special committee stated that it remains available to evaluate any alternatives to the Proposal should Fiat Industrial elect to advance any such alternatives. A Fiat Industrial announcement of that same date provided that its advisors had been asked to meet with the advisors to the special committee to explore whether the parties can reach agreement on revised terms for a merger transaction on a basis broadly consistent with that of the Proposal and that Fiat Industrial desires to move forward with a transaction promptly.

The Special Committee remains available to evaluate any alternatives to the Proposal should FI elect to advance any such alternatives.

Press Release

Fiat Industrial responds to CNH Global Special Committee

October 15, 2012 Fiat Industrial S.p.A. has been advised that the special committee of the Board of CNH Global N.V. has determined not to recommend the strategic combination of Fiat Industrial and CNH on the terms proposed by Fiat Industrial on May 30, 2012 (the Proposal).

Fiat Industrial has asked its advisors to meet with the advisors to the Special Committee to determine the basis for this decision and explore whether the parties can reach agreement on revised terms for a merger transaction on a basis broadly consistent with that of the Proposal, including the need to maintain appropriate credit ratings for the Group, attract a wider range of international investors and provide an appropriate platform from which to pursue future growth opportunities. Fiat Industrial has further reiterated to the CNH Board that Fiat Industrial desires to move forward with a transaction promptly and, accordingly, will seek to reach agreement within the next several weeks.

Sergio Marchionne, Fiat Industrial's Chairman, reiterated that FI remains committed to the strategic and financial benefits of the merger, which would simplify the Group's capital structure by creating a single class of liquid stock listed in New York and build a true peer in scale and in capital market position to the major North American-based global capital goods companies, enhancing the Group's appeal to international investors, improving the credit profile of both companies and providing an attractive platform for future growth opportunities.
