Item 1.01 Entry into a Material Definitive Agreement.

On May 21, 2013, PDC Energy, Inc. ("PDC" or the "Company"), Riley Natural Gas, a subsidiary of the Company as guarantor, the lenders party thereto ("Lenders") and JPMorgan Chase Bank, N.A., as administrative agent, entered into a Third Amended and Restated Credit Agreement (the "Credit Facility"). The Credit Facility, which will expire in 2018, amends and restates the credit agreement dated November 5, 2010. The Credit Facility is a five-year senior secured credit facility and provides for a maximum of \$1,000,000,000 in borrowing capacity, subject to a borrowing base the amount of which will depend on a number of factors, including projected cash flows from PDC's proven oil and gas assets. The initial borrowing base is \$450 million. The borrowing base for the Credit Facility will be based on, among other things, the loan value assigned to the proved reserves attributable to PDC's interests in its oil and gas assets. The borrowing base will be redetermined on a semi-annual basis, based upon an engineering report delivered by the Company, and is also subject to special redeterminations from time to time. The Credit Facility is available for working capital requirements, capital expenditures, acquisitions, general corporate purposes, and to support letters of credit.

The Company may, from time to time, borrow, repay and re-borrow principal amounts under the Credit Facility. Outstanding principal amounts bear interest at a varying interest rate that fluctuates with an alternate base rate (equal to the greatest of the prime rate, the Federal funds rate plus a premium and 1-month libor plus a premium), or at the election of the Company, at a rate equal to the rate for dollar deposits in the London interbank market, plus a premium, for certain time periods. Additionally, commitment fees, interest margin and other bank fees vary with PDC's utilization of the facility.

The Credit Facility is secured by a pledge of the stock of certain of the Company's subsidiaries, mortgages of certain oil and gas properties and substantially all of the Company's and such subsidiaries' other assets, and contains customary affirmative and negative covenants such as a minimum liquidity ratio and a maximum leverage ratio.

Item 2.03 Creation of a Direct Financial Obligation.

The information set forth in Item 1.01 is incorporated by reference herein.
