REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Wealth Committee of

Bryn Mawr Bank Corporation

We have audited the accompanying statements of net assets available for benefits of Bryn Mawr Bank Corporation 401(k) (the Plan) as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2013 and 2012, and the changes in its net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the Plan's basic financial statements taken as a whole. The accompanying supplemental schedule of assets (Held at End of Year) as of December 31, 2013 is presented for purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for the Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management. The information has been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

BRYN MAWR BANK CORPORATION 401(k) PLAN

Notes to Financial Statements

December 31, 2013 and 2012

(1) Description of the Plan

(a) General

The following description of the Bryn Mawr Bank Corporation 401(k) Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan s provisions.

The Plan is a defined contribution plan under which all employees of Bryn Mawr Bank Corporation (the Corporation) and its wholly owned subsidiaries, including The Bryn Mawr Trust Company (the Bank), (collectively, the Company) who meet certain service requirements are eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On October 18, 2013 the Plan was transitioned to Transamerica, a new plan Custodian and Record Keeper.

(b) Eligibility

Employees are eligible to make salary deferral contributions upon their date of hire; however, various requirements still pertain to a participant receiving the employer matching and discretionary contribution.

(c) Contributions

Employees can elect to defer through payroll deduction of their pay on a pre-tax or after-tax basis, subject to certain limitations. Such contributions are processed with each payroll and are matched quarterly dollar for dollar by the Company to a maximum of 3% of the participant s base annual pay.

In addition to above, the Board of Directors of the Corporation may, at their discretion, authorize an additional contribution based on the Corporation s profitability. Effective April 1, 2008, the Corporation began making quarterly contributions equal to 3% of gross compensation allocated as a discretionary contribution to eligible participants. The participants direct the investment of their contributions into various investment options offered by the Plan. The employer match and discretionary contributions and the salary deferral contributions are allocated among the investment options based upon the participant s investment election.

Prior to the transition to Transamerica, the Plan included an automatic increase feature. If the employee elected participation in this feature, his or her pre-tax 401(k) contribution to the Plan will automatically be increased by 1% of his or her compensation as of each January 1. In no event would more than 10% of compensation be contributed to the Plan under the automatic increase feature, although an employee may elect to contribute more than 10%. Also, automatic rate increase was available to pre-tax as well as post-tax 401(k) contributions. The 10% cap feature was removed, since a cap to automatic increases is not available on the Transamerica platform.

(e) Payment of Benefits

Upon termination, as defined by the Plan Document, or upon request for an in-service distribution, a participant may elect to receive an annuity (purchased from an insurance company) or lump-sum payment equal to the value of the participant's vested interest in their account.

A non-spouse beneficiary entitled to receive an eligible rollover distribution is permitted to make a direct trustee to trustee rollover to an IRA

(f) Vesting

Participants are immediately vested in all contributions.

(g) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Corporation's contribution (b) Plan earnings (losses), and (c) charged with a proportionate allocation of administrative expenses. Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(h) Participant Loans

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Current loan terms range from 1 to 10 years. The loans are secured by the balance in the participant's account and bear a fixed rate of interest equal to $1/2\%$ over the published prime rate in the Wall Street Journal as of the first day of the month that the loan is issued. Principal and interest is paid ratably through biweekly payroll deductions. The interest rates on loans ranged from 3.75% to 8.75% at December 31, 2013 and 2012. Effective October 18, 2013, the minimum loan amount of \$500 was increased to \$1,000.

(i) Withdrawals

Participants are 100% vested in the underlying equity in their account, including employer contributions. Participants who terminate from the Plan may choose to have all vested funds distributed to them.

Participant contributions and accumulated earnings (losses) are restricted as to withdrawal lump sum or annuity options, except in Hardship cases as defined by the *Internal Revenue Code* or the attainment of age 59 $1/2$. Hardship withdrawals will be subject to a 10% early distribution penalty to the participant if he or she is not age 59 $1/2$ at the time of distribution.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) Administrative Expenses

Cost and expenses, including record keeping, legal and accounting fees, incurred in regards to the administration of the Plan are paid by the Plan.

Notes to Financial Statements

December 31, 2013 and 2012

(c) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(d) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds are actively traded on an exchange and valued at end of day at the net asset value of shares held by the Plan at year end as reported by the applicable registered investment Company. The Corporation's common stock is valued at its closing quoted market price as reported on the NASDAQ-GS. Money Market funds are valued daily at \$1.00 per share as reported by the applicable fund provider.

Purchases and sales of investments are reflected on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Notes Receivable from Participants

Notes receivable from participants represent participant loans recorded at their unpaid principal balance plus accrued interest. Interest income generated on the notes receivable is recorded when earned and administrative expenses associated with notes receivable are expensed when incurred. A provision for doubtful accounts has not been recorded as of December 31, 2013 or 2012. Delinquent notes receivable from participants are treated as distributions based upon the terms of the Plan Document.

(3) Fair Value Measurement

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

Table of Contents**BRYN MAWR BANK CORPORATION 401(k) PLAN**

Notes to Financial Statements

December 31, 2013 and 2012

ASC 820 also establishes a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based on the lowest level input that is significant to the fair value measurement. ASC 820 establishes three levels of input that may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities;

Level 2: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Investments Measured at Fair Value on a Recurring Basis

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2013 (Level 1, 2 and 3 inputs are defined above):

	Fair Value Measurements Using			Total

(5) Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter (determination letter) dated December 11, 2013, that the Plan and related trust are designed in accordance with applicable sections of the *Internal Revenue Code*. The Plan has not been amended since receiving the December 11, 2013 determination letter. Procedural changes were made due to the conversion, however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable provisions of the *Internal Revenue Code*.

In line with generally accepted accounting principles in the United States of America, the plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(6) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

(7) Related-Party Transactions

The Plan invests in common stock of the Corporation, and therefore, these transactions qualify as related party and party-in-interest transactions. Computershare and Bank of New York were the custodians for this investment up through the conversion to Transamerica. State Street is the current custodian. Although transactions in this investment qualify as related party and party-in-interest transaction, they are exempt from the prohibited transaction rules of ERISA.

(8) Risks and Uncertainties

The Plan provides participants various investment options. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
