Global Business Announcement

Questions and Answers

October 21, 2014

1. Why are we changing the structure of the Medical Supplies, Respiratory & Monitoring Solutions and Venous Solutions businesses under one leader?

This organizational structure enables us to better coordinate how we approach customers across the continuum of care from pre-hospital and hospital settings to rehab and home care. It will allow us to collaborate more efficiently in exploring and pursuing growth opportunities. Together, we can also strategically leverage investments in new solutions and technologies across the entire portfolio.

2. Why are we changing the structure of Advanced Surgical Technologies (AST) and General Surgical Products (GSP) under one leader?

We can better serve our customers by bringing these two surgical businesses under one leader. We will continue to invest in both GSP and AST separately and will continue to focus on the strategies developed by both businesses. While the portfolios are different in many ways, both are critical to Covidien. This change will provide us with a two-part global surgical portfolio, allowing for better integration within the regions and affording us the ability to make global market decisions more efficiently.

3. How will this approach benefit customers, patients and employees?

The new structure will allow us to offer our customers a broad portfolio of products across the full continuum of care from pre-hospital and hospital settings to rehab and home care. Together, we can strategically leverage investments in new solutions and technologies. It also enables us to further reduce internal bureaucracy and streamline decision-making. By having a faster, more nimble organization it will improve the operations of the business and benefit all employees.

4. How will the businesses interact with the regions?

The Covidien Group will have regional leaders who will interact with our businesses. This is planned for announcement in the mid-November time frame.

5. When does this new structure become effective do I report through my new leader or the previous one?

The new structure will become effective upon close of the transaction. Although Steve and Chris won't officially begin serving in their new roles until then, they will immediately begin working together with the existing leaders on detailed transition plans, including the structure and leadership teams for the new organization. Our goal is to cause as little disruption as possible and continue to serve our customers flawlessly.

6. Why are you only announcing these two changes?

Transitioning these businesses is highly complex, so it is critical that Chris and Steve begin work immediately with current leaders to develop the organizational structures, teams and strategies they will need to be successful.

7. How do I develop my FY15 goals?

Please work with your manager to set goals based on our current business plans. It is essential that we have a strong start to FY15 and remain focused on executing our current business plans.

8. When will we know more about the rest of Covidien Group organizational structure and leadership? What about Early Technologies and the functions?

We plan to address the majority of the remaining organization structure, including Early Technologies, Functions and Regions, in conjunction with the Medtronic leadership announcements in mid-November.

Covidien Cautionary Statement Regarding Forward-Looking Statements

Statements contained in this communication that refer to Covidien's estimated or anticipated future results, including estimated synergies, or other non-historical facts are forward-looking statements that reflect Covidien's current perspective of existing trends and information as of the date of this communication. Forward-looking statements generally will be accompanied by words such as anticipate, believe, plan, could, should, estimate, expect, outlook, guidance, intend, may, might, will, possible, potential, predict, project, or other similar expressions. It is important to note that Covidien's goals and expectations are not predictions of actual performance. Actual results may differ materially from Covidien's current expectations depending upon a number of factors affecting Covidien's business, Medtronic's business and risks associated with the proposed transactions. These factors include, among others, the inherent uncertainty associated with financial projections; the timing to consummate the proposed transactions; the risk that a condition to closing of the proposed transactions may not be satisfied; the risk that the required regulatory approvals for the proposed transactions are not obtained, are delayed or are subject to conditions that are not anticipated; New Medtronic's ability to achieve the synergies and value creation contemplated by the proposed transactions; the anticipated size of the markets and continued demand for Medtronic's and Covidien's products; New Medtronic's ability to promptly and effectively integrate Medtronic's and Covidien's businesses; the diversion of management time on transaction-related issues; competitive factors and market conditions in the industry in which Covidien operates; Covidien's ability to obtain regulatory approval and customer acceptance of new products, and continued customer acceptance of Covidien's existing products; and the other risks identified in Covidien's periodic filings including its Annual Report on Form 10-K for the fiscal year ended September 27, 2013, and from time to time in Covidien's other investor communications. We caution you that the foregoing list of important factors is not exclusive. In addition, in light of these risks and uncertainties, the matters referred to in Covidien's forward-looking statements may not occur. Covidien undertakes no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as may be required by law.
