MEDTRONIC PROFIT FORECAST

November 20, 2014

Dear Covidien Shareholder

On June 15, 2014, Medtronic, Inc. (*Medtronic*) and Covidien plc (*Covidien*) announced that they had entered into a definitive agreement pursuant to which Medtronic Holdings Limited, a new holding company incorporated in Ireland that will be renamed Medtronic plc (*New Medtronic*), will acquire Covidien and Medtronic (the *Transaction*). On November 20, 2014, New Medtronic filed with the U.S. Securities and Exchange Commission (the *SEC*) Amendment No. 5 to its registration statement on Form S-4 in connection with the Transaction, which included a joint proxy statement of Medtronic and Covidien that also serves as a prospectus of New Medtronic (the *Joint Proxy Statement/Prospectus*). The Form S-4 was declared effective on November 20, 2014, and the Joint Proxy Statement/Prospectus is included along with this letter.

As Covidien is an Irish incorporated company, the Transaction is subject to the Irish Takeover Panel Act, 1997, Takeover Rules 2013 (the *Irish Takeover Rules*). In accordance with the Irish Takeover Rules, where Medtronic or Covidien gives earnings guidance (known as a *profit forecast* under the Irish Takeover Rules), that profit forecast must be repeated in the proxy statement sent to Covidien shareholders and certain attestations to that profit forecast must also be provided.

As Medtronic and Covidien have previously publicly disclosed profit forecasts for the financial years ending April 24, 2015 and September 26, 2014 respectively, these profit forecasts have been repeated in the Joint Proxy Statement/Prospectus on pages 473 through 476. The Medtronic profit forecast is also repeated in this letter. The Covidien profit forecast is set out in a separate document which has been issued by Covidien and which accompanies this document.

In addition, included with this letter are reports required by the Irish Takeover Rules from Medtronic's reporting accountants, the Irish firm of PricewaterhouseCoopers, confirming that the Medtronic profit forecast has been properly compiled on the basis of the assumptions set forth in the profit forecast and the basis of accounting used is consistent with the accounting policies of Medtronic, and Medtronic's financial advisor, Perella Weinberg Partners LP, confirming that the Medtronic profit forecast has been prepared with due care and consideration.

Very truly yours,

Gary Ellis

Chief Financial Officer

Medtronic, Inc.

Medtronic Cautionary Statement Regarding Forward-Looking Statements

Statements contained in this communication that refer to New Medtronic's and/or Medtronic's estimated or anticipated future results, including estimated synergies, or other non-historical facts are forward-looking statements that reflect Medtronic's current perspective of existing trends and information as of the date of this communication. Forward looking statements generally will be accompanied by words such as anticipate, believe, plan, could, should, expect, forecast, outlook, guidance, intend, may, might, will, possible, potential, predict, words, phrases or expressions. It is important to note that Medtronic's goals and expectations are not predictions of actual performance. Actual results may differ materially from Medtronic's current expectations depending upon a number of factors affecting New Medtronic's business, Medtronic's business, Covidien's business and risks associated with the proposed transactions. These factors include, among others, the inherent uncertainty associated with financial projections; restructuring in connection with, and successful close of, the Covidien acquisition; subsequent integration of the Covidien acquisition and the ability to recognize the anticipated synergies and benefits of the Covidien acquisition; the risk that the required regulatory approvals for the proposed transactions are not obtained, are delayed or are subject to conditions that are not anticipated; the anticipated size of the markets and continued demand for Medtronic's and Covidien's products; the impact of competitive products and pricing; access to available financing (including financing for the acquisition or refinancing of Medtronic or Covidien debt) on a timely basis and on reasonable terms; the risks of fluctuations in foreign currency exchange rates; the risks and uncertainties normally incident to the medical device industry, including competition in the medical device industry; product liability claims; the difficulty of predicting the timing or outcome of pending or future litigation or government investigations; variability of trade buying patterns; the timing and success of product launches; the difficulty of predicting the timing or outcome of product development efforts and regulatory agency approvals or actions, if any; potential for adverse pricing movement; costs and efforts to defend or enforce intellectual property rights; difficulties or delays in manufacturing; reduction or interruption in supply; product quality problems; the availability and pricing of third party sourced products and materials; risks associated with self-insurance and commercial insurance; successful compliance with governmental regulations applicable to New Medtronic's, Medtronic's and Covidien's facilities, products and/or businesses; changes in the laws and regulations, affecting among other things, pricing and reimbursement of pharmaceutical products; health care policy changes; risks associated with international operations; changes in tax laws or interpretations that could increase New Medtronic's or Medtronic's consolidated tax liabilities, including, if the Transaction is consummated, changes in tax laws that would result in New Medtronic being treated as a domestic corporation for United States federal tax purposes; the loss of key senior management or scientific staff; and such other risks and uncertainties detailed in Medtronic's periodic public filings with the Securities and Exchange Commission, including but not limited to Medtronic's Annual Report on Form 10-K for the fiscal year ended April 25, 2014 and from time to time in Medtronic's other investor communications. Except as expressly required by law, each of New Medtronic and Medtronic disclaims any intent or obligation to update or revise these forward-looking statements.

Medtronic Profit Forecast

Profit Forecast including Bases and Assumptions

1. General

Medtronic, Inc. issued the following guidance in a public statement on November 18, 2014 within its second quarter earnings release for fiscal year 2015:

In fiscal year 2015, the company now expects revenue growth in the range of 4 to 5 percent on a constant currency basis, which is at the upper end of the company's previously stated range of 3 to 5 percent. For fiscal year 2015, the company continues to expect diluted non-GAAP EPS in the range of \$4.00 to \$4.10, which implies annual diluted non-GAAP EPS growth in the range of 7 to 10 percent after adjusting for the expected impact from foreign currency.

* Diluted EPS is a non-GAAP measure and represents GAAP diluted earnings per share adjusted for material one-time items, net of any tax impact, such as special charges, net restructuring charges, certain net litigation charges or net acquisition-related items, and certain one-time tax adjustments, in each case consistent with prior practice.

The guidance above regarding diluted earnings per share for the year ending April 24, 2015 constitutes a profit forecast (**Medtronic Profit Forecast**) for the purposes of Rule 28 of the Takeover Rules.

2. Basis of preparation

The Medtronic Profit Forecast has been prepared on a basis consistent with the accounting policies adopted by Medtronic which are in accordance with U.S. GAAP and those adopted in the preparation of the interim financial statements for the three months ended July 25, 2014, and those expected to be adopted in the financial statements for the six months ending October 24, 2014 and for the year ending April 24, 2015.

The Medtronic Profit Forecast does not take into account any effects of the proposed acquisition of Covidien plc (including any contingent success fees payable on the completion of the Transaction).

3. Assumptions

The principal assumptions upon which the Medtronic Profit Forecast is based are set out below:

The assumptions that are within Medtronic's control are:

There will be no material future acquisitions, disposals, partnerships, in-license transactions or changes to the Company's existing capital structure.

There will be no material further restructurings.

There will be no further redemption of shares after October 24, 2014 other than those approved as part of Medtronic's June 2013 share redemption programs.

The assumptions that are not within Medtronic's influence or control are:

There will be no material change in the ownership of and control of Medtronic.

No account has been taken of any contingent costs payable by Medtronic in respect of any such transaction.

There will be no material change in general trading conditions, economic conditions, competitive environment or levels of demand in the countries in which Medtronic operates or trades which would materially affect Medtronic's business.

There will be no material adverse events that affect Medtronic's key products, including adverse regulatory and clinical findings or publications, product recalls, product liability claims, any unanticipated loss of patent protection.

There will be no adverse outcome to any litigation or government investigation.

There will be no business interruptions that materially affect Medtronic, its key customers or key suppliers in any of its major markets.

There will be no material change to Medtronic customers' obligations or their ability or willingness to meet their obligations to Medtronic from that currently anticipated by the Medtronic Directors.

There will be no changes in exchange rates, interest rates, bases of taxes, tax laws or interpretations, or legislative or regulatory requirements from those currently prevailing that would have a material impact on Medtronic's operations or its accounting policies.

Basis of Preparation of the Profit Forecast

The Profit Forecast is required to be presented on a basis consistent with the accounting policies of Medtronic.

Basis of Opinion

We conducted our work in accordance with the Standards for Investment Reporting issued by the Auditing Practices Board for use in the United Kingdom and published by the Institute of Chartered Accountants in Ireland. Our work included evaluating the basis on which the historical financial information included in the Profit Forecast has been prepared and considering whether the Profit Forecast has been accurately computed based upon the disclosed assumptions and the accounting policies of Medtronic. Whilst the assumptions upon which the Profit Forecast are based are solely the responsibility of the directors of Medtronic, we considered whether anything came to our attention to indicate that any of the assumptions adopted by the directors of Medtronic which, in our opinion, are necessary for a proper understanding of the Profit Forecast have not been disclosed or if any material assumption made by the directors of Medtronic appears to us to be unrealistic.

We planned and performed our work so as to obtain the information and explanations we considered necessary in order to provide us with reasonable assurance that the Profit Forecast has been properly compiled on the basis stated.

Since the Profit Forecast and the assumptions on which it is based relate to the future and may therefore be affected by unforeseen events, we can express no opinion as to whether the actual results reported will correspond to those shown in the Profit Forecast and differences may be material.

Our work on the Profit Forecast does not constitute an audit. Our work has not been carried out in accordance with auditing standards generally accepted in the United States of America or auditing standards of the Public Company Accounting Oversight Board (United States) nor does it constitute an examination, compilation or review under those standards and accordingly, it should not be relied upon as if it had been carried out in accordance with those standards and practices.

Opinion

In our opinion, the Profit Forecast has been properly compiled on the basis of the assumptions made by the directors of Medtronic and the basis of accounting used is consistent with the accounting policies of Medtronic.

Yours faithfully
