**IMPORTANT MESSAGE:**

- (1) The Board of Directors (the Board) and the Supervisory Committee of Sinopec Shanghai Petrochemical Company Limited (the Company or SPC) as well as its Directors, Supervisors and Senior Management warrant the truthfulness, accuracy and completeness of the information contained in this annual report, and warrant that there are no false representations or misleading statements contained in, or material omissions from, the 2014 annual report of the Company, and severally and jointly accept responsibility.
- (2) If any director fails to attend the Board meeting for approving the 2014 annual report of the Company, his name shall be set out separately:

**Name of Director**

| <b>not Attending</b> | <b>Position</b>                    | <b>Reasons for Absence</b> | <b>Name of Proxy</b> |
|----------------------|------------------------------------|----------------------------|----------------------|
| Lei Dianwu           | Director                           | Business engagement        | Wang Zhiqing         |
| Shen Liqiang         | Independent Non-executive Director | Business engagement        | Jin Mingda           |

- (3) The financial report for the year ended 31 December 2014 (the Reporting Period), prepared under the People's Republic of China (PRC or China) s Accounting Standards (CAS) as well as the International Financial Reporting Standards (IFRS), was audited by PricewaterhouseCoopers Zhong Tian LLP and PricewaterhouseCoopers, respectively, and both firms have issued standard unqualified opinions on the financial report in their auditors reports.

**Table of Contents**

- (4) Mr. Wang Zhiqing, Chairman, President and the responsible person of the Company; Mr. Ye Guohua, Director and Chief Financial Officer of the Company; and Mr. Hua Xin, Vice Financial Officer and Director of Finance hereby warrant the truthfulness and completeness of the financial statements contained in the annual report.
- (5) Plan for Profit Appropriation or Capital Reserve Capitalisation reviewed by the Board  
In 2014, the net loss attributable to equity shareholders of the Company amounted to RMB716,427,000 under CAS (net loss of RMB692,222,000 under IFRS). The board does not recommend dividend for this year, and would not carry out the capital reserve capitalization.
- (6) Forward-looking statements such as future plans and development strategies in this report do not constitute any substantive commitments of the Company to investors. The Company has alerted investors on the relevant investment risks.
- (7) There was no appropriation of funds by the controlling shareholder of the Company and its connected parties for non-operation purposes.
- (8) The Company did not provide external guarantees in violation of the required decision-making procedures.

**(2) Major Risk Warning**

Potential risks are elaborated in this report. Please refer to Report of the Directors for details of the potential future risks.

**Table of Contents**

**Company Profile**

Sinopec Shanghai Petrochemical Company Limited is one of the largest petrochemical enterprises in the People's Republic of China based on sales in 2014. It is also one of the largest PRC producers of ethylene. Ethylene is one of the most important intermediate petrochemical products used in the production of synthetic fibres, resins and plastics.

Located at Jinshanwei in the southwest of Shanghai, the Company is a highly integrated petrochemical enterprise which processes crude oil into a broad range of synthetic fibres, resins and plastics, intermediate petrochemical products and petroleum products. The Company sells most of its products within the PRC domestic market and derives most of its revenues from customers in Eastern China, one of the fastest growing regions in the PRC.

The Company's rapid development is supported by the ever-increasing demand in the PRC for petrochemical products. Relying on the competitive advantage of its high degree of integration, the Company is optimising its product mix, improving the quality and variety of its existing products, upgrading technology and increasing the capacity of its key upstream plants.

In July 1993, the Company became the first company incorporated under the laws of the PRC to make a global equity offering, and its shares were listed on the Shanghai Stock Exchange, the Hong Kong Stock Exchange and the New York Stock Exchange.

Since the listing of its shares, the Company has strived to continuously improve and enhance its operation and management efficiency with an aim to become a world-class petrochemical enterprise.

**2. Description of differences between financial statements prepared under CAS and IFRS**

For detailed differences between the financial statements prepared under CAS and IFRS, please refer to supplements to the financial statements prepared under CAS.

**Table of Contents****Principal Products**

The Group produces over 60 different types of products including a broad range of synthetic fibres, resins and plastics, intermediate petrochemical products and petroleum products. As a result of the Group's high degree of integration, many of the petroleum products and intermediate petrochemical products produced by the Group are used primarily in the production of the Group's downstream products.

The following table sets forth the net sales of the Group's major products in 2014 as a percentage of total net sales and their typical uses.

| <b>Major products sold by the Group</b> | <b>% of 2014<br/>net sales</b> | <b>Typical use</b>  |
|---|--------------------------------|---|
| <b>Manufactured products</b>            |                                |   |
| <b>Synthetic fibres</b>                 |                                |   |
| Polyester staple                        | <b>0.47</b>                    | Textiles and apparel  |
| Acrylic staple                          | <b>2.47</b>                    | Cotton type fabrics wool type fabrics delre, and acrylic top  |
| Others                                  | <b>0.18</b>                    |   |
| <b>Subtotal:</b>                        | <b>3.12</b>                    |   |
| <b>Resins and plastics</b>              |                                |   |
| Polyester chips                         | <b>2.23</b>                    | Polyester fibres, films and containers  |
| PE pellets                              | <b>5.87</b>                    | Films, ground sheeting, wire and cable compound and other injection moulding products such as housewares and toys                       |
| PP pellets                              | <b>4.78</b>                    | Extruded films or sheets, injection moulding products such as housewares, toys and household electrical appliances and automobile parts |

**Corporate Governance**

**(1) Notes for corporate governance and insider registration management**

**1. Corporate governance**

In 2014, the Company strictly complied with the Company Law and Securities Law and the Corporate Governance Principles for Listed Companies issued by the CSRC, as well as the relevant provisions and requirements of the Shanghai Stock Exchange, the Hong Kong Stock Exchange and the New York Stock Exchange. It continued to improve its corporate governance structure, develop its corporate system, streamline operations and enhance its overall corporate image.

Improving governance policies: During the Reporting Period, in accordance with the requirements of the relevant laws and regulations of the places where the Company's shares are listed, the Company amended and improved the Company's Internal Control Manual (2014 edition).

Accomplished specific corporate governance activities for listed companies in an earnest manner: During the Reporting Period, the Company was committed to ensuring the compliance of relevant regulatory rules regarding corporate governance and continued to consolidate its achievements in specific areas of corporate governance. The Company and its Directors, Supervisors, Senior Management, shareholders and the controlling company of its controlling shareholder has not been investigated by the CSRC; nor punished or publicly criticized by the CSRC, The Hong Kong Securities and Futures Commission or the U.S. Securities and Exchange Commission, nor publicly censured by the Shanghai Stock Exchange, the Hong Kong Stock Exchange or the New York Stock Exchange.

To further improve the governance structure of the Company, long-term incentive and binding for the core staff including the senior management, core business, technical and management position of the Company was executed. On 15 August 2014, the The Second meeting of the Eighth Session of the Board of Directors considered and passed resolution on the A Share Option Incentive Scheme of Sinopec Shanghai Petrochemical Company Limited (Draft) and its administrative measures. The abovementioned proposal was considered and passed at First Extraordinary General Meeting for 2014, First A Shareholders Class Meeting for 2014 and First H Shareholders Class Meeting for 2014 on 23 December 2014.

Through the continuous implementation of specific corporate governance activities and improvements to the development of its governance system, the Company further enhanced its corporate governance standards. The Company's internal system also became more robust and standardized. Under the guidance of the relevant regulatory authorities, the Company will operate in strict compliance with the relevant laws and regulations and will further strengthen the establishment of standardized and institutionalized corporate governance so as to ensure the lawful, robust and sustained development of the Company.

**Table of Contents****Corporate Governance** (continued)**2. Registration and management of persons with access to inside information**

In order to govern the registration and management of persons with access to the Company's inside information, strengthen the confidentiality of inside information and safeguard the fairness of information disclosure, the Company achieved these aims by following the System for the Registration and Management of Inside Information with a view to prevent exceptional movements in share prices due to the leakage of inside information, and legal risks arising therefrom for further regulating the operation of the Company.

**2. Disagreement from Independent Directors on relevant issues of the Company**

During the Reporting Period, none of the Independent Directors of the Company had any disagreements on any Board resolutions or other issues.

**Table of Contents**

**Corporate Governance (continued)**

**(4) Major comments and recommendations put forward by the special committees under the Board while these committees discharged their duties during the Reporting Period**

On 19 March 2015, the Board's Audit Committee reviewed with the management the accounting principles and standards adopted by the Company and studied audit, internal control and financial reporting matters, including the review of the financial statements for the year ended 31 December 2014.

On 19 March 2015, the Board's Remuneration and Appraisal Committee reviewed the remuneration of Directors, Supervisors and Senior Management in the Company's annual report for the year ended 31 December 2014.

**(5) Explanation by the Supervisory Committee on the identification of risks in the Company**

The Company's Supervisory Committee had no objections to the matters under their supervision during the Reporting Period.

**(6) Explanation by the Company on the failure to guarantee independence or maintain autonomous operational ability with its controlling shareholder in various areas including business, personnel, assets, offices and finances**

The Company is independent in various areas, including business, personnel, assets, offices and finances from the controlling shareholder. The Company's business is independent in its entirety with autonomous operational ability.

**(7) Evaluation mechanism for Senior Management as well as the establishment and implementation of incentive mechanism during the Reporting Period**

The Remuneration System for the Senior Management was considered and approved at the 2002 Annual General Meeting of the Company on 18 June 2003. In 2014, the Company continued to adopt this system as the basis of appraising and rewarding the Company's Senior Management.

During the Reporting period, the A Share Option Incentive Scheme of the Company and its administrative measures was considered and approved at the General Meeting. According to the scheme, Mr. Wang Zhiqing, Mr. Gao Jinping, Mr. Ye Guohua, Mr. Jinqiang, Mr. Guo Xiaojun and the Company Secretary Mr. Tang Weizhong are the qualified incentive targets. If the related indicators required by the scheme are completed, the abovementioned will be assigned A share stock option of the Company.

### **Internal Control**

#### **(1) Statement of Responsibility for Internal Control and the Establishment of the Internal Control System**

##### **1. Statement of responsibility for internal control**

The Board of the Company is responsible for establishing and maintaining a complete internal control system pertinent to financial reporting.

The objectives of internal control pertinent to financial reporting are to ensure that the financial information reported is true, complete and reliable and to prevent the risk of material misstatements. However, internal control has its inherent limitations and can only provide a reasonable level of assurance to achieve the objectives mentioned above.

The Board has evaluated the internal controls pertinent to financial reporting in accordance with the requirements under the Basic Standards for Enterprise Internal Control, and is of the view that such internal control was effective in the year 2014.

##### **2. Establishment of the internal control system**

###### **Overall plan of internal control establishment**

Since 2004, the Company has established and implemented a full internal control system which covers aspects such as production, operations, finance, investment, human resources and information disclosure, and has been amending the Internal Control Manual annually in accordance with domestic and overseas regulatory requirements, risk prevention needs and the internal control review recommendations from external auditors.

The Company's internal control system has been established primarily for the following basic objectives: (a) to standardize the enterprise's business operation, prevent operational and managerial risks, ensure that financial statements and relevant information are truthful and complete, improve operational efficiency and effects, and facilitate the achievement of the Company's development strategy; (b) to plug loopholes and eliminate potential hazards so as to prevent, detect and correct mistakes and fraudulent acts in a timely manner, thereby ensuring that the Company's assets are secure and integral; and (c) to ensure that the relevant state laws and regulations, the Articles of Association and internal rules and regulations are thoroughly enforced so as to fulfill the regulatory requirements for listed companies in both domestic and overseas capital markets.

**Table of Contents**

**Internal Control** (continued)

**Work plan and implementation on establishing and improving the internal control system**

The Internal Control Manual (2014 Edition) comprises 51 operation procedures in 22 categories and sets out 1,450 control points and 354 authorization control indicators. The scope of control covers the major areas of the Company's production, operations and development, as well as the key procedures of relevant business such as financial management, accounting and auditing, procurement of raw materials, product sales, capital expenditures, human resources and information management. The scope of control also includes reviewing the sufficiency of the Company's resources of accounting, financial management and reporting functions as well as employee qualifications and experience and the adequacy of the training courses attended by the employees and the relevant budget.

In 2014, the Company conscientiously enforced the Internal Control Manual approved by the Board, and conducted self-review, walk-through test on procedures and integrated inspection on internal control in accordance with the relevant rules and regulations. The external auditors of the Company also reviewed the status of the Company's internal control system. The management of the Company considers that the internal control of the Company was effective during the Reporting Period.

**Establishment of the department inspecting and supervising internal control**

The Company has established an internal control task force with the President and the Chief Financial Officer as its chief and deputy chief, respectively. As the leading organ of the Company's overall internal control system, the task force is mainly responsible for approving annual amendments to the Internal Control Manual, considering updates to the Internal Control Manual, reviewing the annual self-assessment report on internal control, handling and rectifying issues identified during an internal control review and reporting major issues to the Board for consideration and approval.

The internal control task force has an internal control office, which is a department in charge of internal control review and supervision. The office is responsible for directing or organizing daily inspections and evaluation, organizing annual comprehensive inspections and evaluation of the Company, organizing specific inspections and evaluation as needed, supervising and rectifying, drafting assessment proposals and reporting them to the internal control task force and submitting regular reports on internal control inspection and supervision to the Audit Committee of the Board.

The Company has established an internal control supervisor working network consisting of 45 members. These internal control supervisors, on behalf of their respective departments or administrative heads of second-tier units, conduct internal control work and activities within their respective supervisory scope and functionally report to the internal control office of the Company.

## **Table of Contents**

### **The Board's work arrangements for internal control**

Through the Audit Committee set up under the Board, the Board reviews reports on the establishment of the internal controls of the Company and the results of the implementation and inspection of the internal controls on a regular basis. It also considers and publishes its self-assessment report on the internal controls of the Company on an annual basis, and considers and approves the revised Internal Control Manual of the Company.

PricewaterhouseCoopers Zhong Tian LLP, the Company's external auditor, issued an auditor's report on internal control over financial reporting according to the Sarbanes-Oxley Act. PricewaterhouseCoopers Zhong Tian LLP, the Company's external auditor, issued an auditor's report on internal control over financial reporting according to Audit Guidelines for Enterprise Internal Control in 2014.

### **Improvements to the internal control system in relation to financial audit**

According to the stringent requirement of the Company as well as facilitation and operation of the integrated management system, 13 systems including outsourcing, accounts receivable, bidding management and carbon emission trading are added. It further standardized the business management including outsourcing, bidding management, accounts receivable and carbon emission trading, improving the contract management system and effectively avoiding the legal risk.

### **Defects present in internal control and relevant rectification**

The Company has conducted an assessment on its internal control work in 2014. The results of the assessment are: no material deficiencies were detected in the design or implementation of the internal control of the Company from 1 January 2014 to 31 December 2014.

## **(2) The Company's Disclosure of the Assessment Report on the Internal Control**

1. The Company has disclosed an assessment report of the Board on internal control.
2. The Company has engaged PricewaterhouseCoopers Zhong Tian LLP to conduct an audit on the effectiveness of the internal control over financial reporting of the Company as at 31 December 2014 pursuant to the requirements of Audit Guidelines for Enterprise Internal Control. An auditor's Report on Internal Control over Financial Reporting according to Audit Guidelines for Enterprises Internal Control has been issued.

## **(3) The Company's Establishment of an Accountability System for Major Errors in the Disclosure of Information in Annual Report**

The Company's Information Disclosure Management System (2012 Revised Version) defined specific regulations for the accountability for major errors in the disclosure of information in its annual report. During the Reporting Period, there were no major errors in the disclosure of information in the Company's annual report such as amendments to major accounting errors, supplements to material omission of information or amendments to results forecasts.

## **Table of Contents**

### **Corporate Governance Report**

#### **(Prepared in Accordance with the Hong Kong Listing Rules)**

The Company is committed to operating in compliance with standards by implementing stringent corporate governance measures and enhancing accountability and transparency, to deliver higher returns to shareholders. It is the Company's belief that adopting a good corporate governance system and a world-class governance model are essential to the development of the Company into a competitive international petrochemical enterprise.

### **Corporate Governance Practices**

During the Reporting Period, the Company applied and complied with all principles and code provisions set out in the Corporate Governance Code (the "Code") contained in Appendix 14 to the Rules Governing the Listing of Securities on the Hong Kong Stock Exchange except for certain exceptions from Code Provision A.2.1 as listed below.

Code provisions A.2.1: The roles of chairman and chief executive officer should be separate and should not be performed by the same individual. The division of responsibilities between the chairman and chief executive officer should be clearly established and set out in writing.

Deviation: Mr. Wang Zhiqing appointed as Chairman and President of the Company.

Reasons: Mr. Wang Zhiqing has extensive experience in the management of petrochemical production. Mr. Wong is the most suitable candidate to serve the positions of Chairman and President of the Company. For the time being, the Company has been unable to identify another person who possesses better or similar abilities and talent as Mr. Wang to serve any of the positions listed above.

Set out below are the corresponding practices of the Company in relation to the principles under the Corporate Governance Code for the reference of the shareholders.

## **A. Directors**

### **A.1 The Board**

The Board meets at least once per quarter. In 2014, six Board meetings were held. The Seventh Session of the Board of Directors held two meetings, while the Eighth Session of the Board of Directors held four meetings. Most of the directors entitled to attend the meetings had actively attended the six meetings held this year in person or by means of communication. Before each Board meeting, the Secretary to the Board would consult each Director on matters to be tabled at the relevant Board meeting. Any matters so raised by the Directors would be included on the agenda of the relevant regular Board meeting. During the year, all notices and draft agenda of all Board meetings were sent to all Directors no later than 14 days before the date of the meeting.

All Directors maintain communication with the Secretary to the Board of the Company, who is responsible for ensuring that the operations of the Board comply with the relevant procedures and advising the Board on matters concerning corporate governance and regulatory compliance. The Secretary to the Board is responsible for preparing and maintaining minutes of Board meetings and those of Board committees, and the delivery of the same to the

Directors within a reasonable period of time from the conclusion of the respective meetings. Such minutes are also open to inspection by any Director or member of the Board committees. The Directors are entitled to seek independent professional advice at the Company's expense.

## **Table of Contents**

If any substantial shareholder or Director has a conflict of interest in a material matter for which a Board meeting shall be held, the Director(s) concerned shall abstain from voting and shall not be counted towards the quorum present at the Board meeting.

The Company has purchased liability insurance against any possible legal action against its Directors.

### **A.2 Chairman and President**

Mr. Wang Zhiqing serves as the Chairman and President of the Company. The Chairman of the Company was elected by a simple majority vote of the Board. The President is appointed by the Board. The duties and responsibilities of the Chairman and the President are clearly separated and the scope of their respective duties and responsibilities is set forth in the Articles of Association.

The Chairman of the Company is responsible for providing to all Directors all information concerning the performance of Board duties. The Chairman of the Company is also committed to improving the quality of the information and timeliness of the delivery of information to the Directors. The Chairman of the Company plays an important role in promoting good corporate governance within the Company. One of the other important roles of the Chairman of the Company is to lead the Board, encourage the Directors to carry out their duties in good faith with mutual support and close cooperation, and make an active contribution to the production, operations, reform and development of the Company. The Chairman should also be responsible for determining and approving the agenda for each Board meeting.

In 2014, the Chairman of the Board and Non-executive Directors (including Independent Non-executive Directors) held a meeting without the attendance of Executive Directors, for exchanges and discussions on the Board's annual work plans and the implementation of such plans as well as the state of the Company's production and operations and its development prospects.

The Chairman is the person with the greatest responsibility for the Company's investor relations work, including presiding over and participating in major investor relations activities (including shareholder meetings, results presentations, press conferences, significant events and roadshows, important domestic and overseas capital market conferences and major financial media interviews, etc.) and maintaining contact with shareholders to ensure that the views of the shareholders can be conveyed to the entire Board.

### **A.3 Board composition**

The Company discloses the composition of its Board by position (including Chairman, Executive Directors, Independent Non-executive Directors and Non-executive Directors) in all of its correspondence. The Company has four Independent Non-executive Directors, representing one-third of its total number of Directors. To enable the shareholders to have a better understanding of our Directors and the composition of our Board, the profiles of each Board member and their respective roles and responsibilities are available on the websites of the Hong Kong Stock Exchange and the Company.

**(Prepared in Accordance with the Hong Kong Listing Rules)** (continued)

**A.4 Appointments, re-election and removal**

All of the Directors (including Non-executive Directors) are appointed for a specific term. According to the Articles of Association, Directors shall be elected by shareholders at a general meeting for a term of three years, and shall be eligible for re-election upon expiry of their terms of office. However, the term of an Independent Non-executive Director may not exceed a total of six years. Appointment of all new Directors of the Company shall be subject to approval by shareholders at the first general meeting after their appointment.

The Resolution of the General Election of the Board of Directors had been approved at the 2013 Annual General Meeting held on 18th June 2014. Directors including Mr. Wang Zhiqing, Mr. Wu Haijun, Mr. Gao Jinping, Mr. Ye Guohua and Mr. Lei Dianwu were re-elected; while Independent Non-executive Directors, including Mr. Shen Liqiang, Mr. Jin Mingda, Mr. Cai Tingji and Mr. Zhang Yimin were re-elected. Directors including Mr. Jin Qiang, Mr Guo Xiaojun and Mr. Mo Zhenlin were appointed for the first time.

**A.5 Nomination Committee**

The Company has established a nomination committee which is chaired by the Chairman of the Board and comprises two other members who are Independent Non-executive Directors.

The appointments of Executive Directors Mr. Wang Zhiqing and Independent Non-executive Directors Mr. Shen Liqiang and Mr. Jin Mingda as members of the Nomination Committee of the eighth session of the Board, among whom Mr. Wang Zhiqing is Director of the Nomination Committee, were approved.

The Nomination Committee is a special committee under the Board of the Company that is accountable to the Board, and is mainly responsible for making recommendations to the Board on the procedures and criteria for the selection and appointment of the Company's Directors and Senior Management, as well as on their qualifications to hold office.

The Rules of Procedure for the Nomination Committee is published on the websites of the Hong Kong Stock Exchange, the Shanghai Stock Exchange and the Company. It contains a clear statement on the terms of reference of the Nomination Committee.

The Company provides adequate resources to the Nomination Committee for the performance of its duties. If it needs to seek independent professional advice during the performance of its duties, it may do so at the Company's expense.

To enhance the Company's corporate governance practices and comply with the amendments about the diversity on the Company's board of directors of the code of corporate governance, the Nomination Committee adopted the Board Diversity Policy on 27th August 2013.

## **Table of Contents**

### A.6 Responsibilities of Directors

To ensure the Directors adequately understand the operations and businesses of the Company, every newly-appointed Director receives a comprehensive set of introductory materials after his/her appointment which includes an introduction to the Group's business, the duties and responsibilities of a Director and other legal requirements. Relevant on-going professional training sessions are also organized for newly-appointed Directors to help them fully understand the duties that a Director should fulfill as stipulated in the relevant requirements of the laws and regulations, including the Hong Kong Listing Rules, and to enable them to have a timely and comprehensive understanding of the operations of the Company. In addition, all Non-executive Directors would receive updated information from the management regularly, including strategic plans, business reports and analyses on economic activities and so forth. As such, the Non-executive Directors are able to perform their duties effectively. The functions of the Non-executive Directors include the following: participating in Board meetings to provide independent opinions; taking a lead at Board meetings where potential conflicts of interest arise; serving as members of the Board committees when invited; and scrutinizing the Company's performance.

The Secretary to the Board of the Company is responsible for ensuring that all Directors receive updates on the requirements of Hong Kong Listing Rules and other legal requirements.

While the Directors give opinions on matters such as external guarantees, financing and connected transactions, the Company appoints relevant independent professionals such as auditors, sponsors and lawyers to provide independent opinions to help the Directors discharge their duties.

#### (1) Training of Directors

All Directors participated in continuing professional development to upgrade their expertise and skills to ensure that they perform their duties better in contributing to the Board. Each of the Directors has provided to the Company records of their participation in the relevant training in 2014. The Company has also committed to organizing training programs for its Directors.

#### (2) Changes in part-time jobs disclosed by Directors to the Company

During the review period, there was no change in part-time jobs disclosed by Directors to the Company.

For details of the Directors' participation in Board meetings and attendance at shareholder meetings, please refer to (3) Performance of Duties by the Directors under the Section Corporate Governance of this annual report.

## **Table of Contents**

### **Corporate Governance Report**

**(Prepared in Accordance with the Hong Kong Listing Rules)** (continued)

#### A.7 Supply of and access to information

To facilitate the Directors in performing their duties more effectively and obtaining the relevant information to make informed decisions, the agenda of all meetings of the Board or Board committees, together with all relevant documents, are sent to each Board member at least three days before the date of the relevant meetings. The Directors may hold formal or informal meetings with the Senior Management before any Board meeting. The Directors and members of the Board committees are entitled to inspect the papers and minutes of meetings of the Board / the Board committees.

### **B. Remuneration of Directors and Senior Management**

#### B.1 The level and make-up of remuneration and disclosure

The Company established the Remuneration and Appraisal Committee in 2001, with two-thirds of its members being Independent Non-executive Directors. The terms of reference are set out in the Rules of Procedures for the Remuneration and Appraisal Committee of Sinopec Shanghai Petrochemical Company Limited and are posted on the websites of the Hong Kong Stock Exchange, the Shanghai Stock Exchange and the Company. In March 2003, the Remuneration and Appraisal Committee submitted to the Board proposals on the remuneration of the Directors, Supervisors and Senior Management of the Company. The proposals were implemented following approval by the shareholders at the Shareholders' General Meeting. The Committee may seek advice from independent professionals if required in accordance with the applicable procedures, and may do so at the expense of the Company.

### **C. Accountability and Audit**

#### C.1 Financial reporting

All Directors regularly receive comprehensive reports from the management covering strategic proposals, operations updates, financial objectives, plans and initiatives. The Board presents a balanced, clear and understandable assessment of the affairs and prospects of the Group in the Company's annual and interim reports, other announcements relating to inside information and other financial disclosures as required under Hong Kong Listing Rules.

During the Reporting Period, the management provided to members of the Board on monthly basis information on the Company's production and financial analysis, as well as Xinjinshan Post, a newspaper published by the Company that covers recent developments in the Company's production and operations. In addition, external Directors were also able to promptly learn about the latest updates on the Company's business and information disclosure on the Company's website.

**Table of Contents**

**C.2 Internal control**

The Company has established and continues to enhance its internal control system. The management conducts self-assessments and reviews of the effectiveness of its internal control every year. A self-assessment report is prepared and submitted to the Board for approval. For details of the internal control of the Company for the Reporting Period, please refer to *The Establishment of the Internal Control System* in Section *Internal Control* of this annual report.

The Board ensures that the internal control system of the Company is sound and proper to safeguard its shareholders investments and its assets through two reviews conducted annually by the Audit Committee of the Company's internal control system. The Audit Committee conducted these reviews of the Company's internal control for 2013 and the first half of 2014 in March and August 2014, respectively. The reviews were reported to the Board, and the recommendations provided by the Board further enhanced the Company's internal control system, thereby enhancing the effectiveness and efficiency of internal control.

**C.3 Audit Committee**

The Company established the Audit Committee in June 1999. The establishment of the Audit Committee reflects the Company's determination to improve the transparency of its financial reporting system and its financial arrangements. The Company pays close attention to the preparation of minutes by the Audit Committee. The draft of the minutes is prepared by the secretary of the meeting and dispatched to the members of the Committee within a reasonable period after the meeting. The composition and terms of reference of the Audit Committee are set out in the Rules of Procedures for the Audit Committee of Sinopec Shanghai Petrochemical Company Limited and are posted on the websites of the Hong Kong Stock Exchange, the Shanghai Stock Exchange and the Company. The Committee may seek advice from independent professionals in accordance with the applicable procedures, and may do so at the expense of the Company.

**Corporate Governance Report**

**(Prepared in Accordance with the Hong Kong Listing Rules)** (continued)

**D. Delegation of Powers by the Board**

D.1 Management functions

The Board and the management of the Company are subject to clearly defined terms of reference separately set out in the Articles of Association. The Rules of Procedure for the Board, an annex to the Articles of Association, contains detailed provisions on the terms of reference, authorization, meeting policies and rules of discussion of the Board. The Company has also developed the Work Rules for the President which contains detailed provisions on the duties and responsibilities as well as the rules of procedure for the management.

D.2 Board Committees

As at the end of the Reporting Period, the Board has three committees, namely the Audit Committee, the Remuneration and Appraisal Committee and the Nomination Committee, for which terms of reference have been prescribed. The Board committees submit minutes and resolutions and report to the Board after every meeting in respect of the progress of their work and results of discussion.

D.3 Corporate Governance functions

The terms of reference of the Board and its three special committees are set out in the Articles of Association and include the following items:

- (a) formulate and review the Company's corporate governance policies and practices and make recommendations to the Board;
- (b) review and monitor the training and continuing professional development of Directors and Senior Management;
- (c) review and monitor the policies and practices of the Company in the compliance with the relevant legal and regulatory requirements;
- (d) review the compliance with the Corporate Governance Code of the Company and the disclosures in the Corporate Governance Report.

The Board and its special committees have performed the corporate governance duties listed above in 2014.

## **Table of Contents**

### **E. Communication with Shareholders**

#### **E.1 Effective Communication**

The Board is committed to maintaining smooth communications with the Company's shareholders. The Company developed the Work System of Investor Relations and Information Disclosure Management System, which have been approved by the Board of Directors. The Chairman of the Board and a number of the Company's Directors attended the 2013 Annual General Meeting and 2014 Extraordinary General Meeting so as to be able to communicate directly with the Company's shareholders. Domestic auditors and international auditors also attended the 2013 Annual General Meeting.

The notice on convening the 2013 Annual General Meeting was dispatched to shareholders at least 45 days before the meeting.

#### **E.2 Voting by poll**

The Company regularly informs its shareholders on the procedures of voting by way of a poll. The procedures for demanding a poll are contained in the notice of general meeting and the enclosed circular. Explanation of the relevant procedures is also provided at the general meeting. An external auditor is retained as the scrutinizer at each general meeting.

During the 2013 Annual General Meeting and 2014 Extraordinary General Meeting, the Chairman of the meeting explained the detailed procedures of voting by way of a poll at the meeting and answered all questions from the shareholders regarding voting by way of a poll.

### **F. Company Secretary**

The Company Secretary plays a major role in supporting the Board by ensuring that there is good communication and healthy exchanges between the members of the Board and that the Board complies with the rules of procedure. The Company Secretary is responsible for providing advice to the Board through the Chairman of the Board and the President on governance matters and organizing the relevant training and professional development for Directors.

The Company Secretary is an employee of the Company and is familiar with the day-to-day affairs of the Company. The selection, appointment or dismissal of the Company Secretary should be considered and approved at a Board meeting held on-site. The Company Secretary reports to the Chairman of the Board and the President and provides professional advice and services to all Directors to ensure that the Board procedures are in compliance with all applicable laws, regulations and policies.

## **Table of Contents**

### **Corporate Governance Report**

**(Prepared in Accordance with the Hong Kong Listing Rules)** (continued)

#### **Directors Securities Transactions**

For details, please refer to the Model Code for Securities Transactions under the Directors, Supervisors, Senior Management and Employees section of this annual report. The Company is not aware of any information that would reasonably indicate that the Directors and Supervisors were not in compliance with the requirements of the Model Code for Securities Transactions during the Reporting Period.

#### **Board of Directors**

##### **1. Composition of the Board**

The Board consists of 12 Directors, including six Executive Directors, two Non-executive Directors and four Independent Non-executive Directors, among whom there is one Chairman and two Vice-Chairman. The personal particulars and terms of office of the Directors are set out in the Directors, Supervisors and Senior Management and Employees section of this annual report.

##### **2. Functions of the Board**

The Board is primarily responsible for formulating and supervising the strategic development of the Company; determining the objectives, strategies, policies and business plans of the Company; reviewing and monitoring the Company's operations and financial performance; as well as formulation of the appropriate risk management policies, thereby ensuring the achievement of the Company's strategic objectives.

Subject to the Articles of Association, the Board shall convene at least four regular meetings every year. The Chairman serves as the convener of the Board meetings and is responsible for determining the topics to be considered. In practice, the Board convenes a minimum of four meetings each year. Six Board meetings were held in 2014.

The particulars for Directors' attendance at the Board meetings and Annual General Meeting have been included in the Corporate Governance section of this annual report.

##### **3. Qualifications and Independence of the Independent Directors**

The four Independent Non-executive Directors of the Company possess extensive experience as well as academic and professional qualifications in various areas that include management, accounting and finance, respectively, thereby ensuring the Board's ability to protect the interests of the Company's shareholders as a whole. During the Reporting Period, the Independent Directors contributed significantly in improving the Company's corporate governance structure and protecting the interests of the Company's minority shareholders. For example, Independent Non-executive Director Mr. Cai Tingji is a fellow of the Hong Kong Institute of Certified Public Accountants. He is highly familiar with financial reporting and accounting given his years of experience in auditing. The Company

confirms that it has received from each Independent Non-executive Director confirmation of his independence pursuant to Rule 3.13 of the Hong Kong Listing Rules, confirming to the Company his independence on an annual basis. The Company considers all of its Directors to be independent.

## **Table of Contents**

### **Board Committees**

As at the end of the Reporting Period, three committees were set up under the Board, namely the Audit Committee, the Remuneration and Appraisal Committee and the Nomination Committee. Specific rules of procedure for each committee stipulating their terms of reference have been set out. The meetings of these committees are conducted with reference to the procedures of the Board meetings (including requirements on the issue of meeting notices, minutes and records).

#### **1. The Remuneration and Appraisal Committee**

##### **(i) Role and Functions of the Remuneration and Appraisal Committee**

The principal duty of the Remuneration and Appraisal Committee is to formulate and review the remuneration policies and proposals for the Directors and Senior Management, set performance appraisal standards and conduct performance appraisals of the Directors and Senior Management of the Company.

##### **(ii) Members of the Remuneration and Appraisal Committee**

The Remuneration and Appraisal Committee of the Eighth Session of the Board comprises three Directors, two of whom are Independent Non-executive Directors and one who is Executive Director.

Chairman: Jin Mingda, Independent Non-executive Director

Members: Jin Mingda, Independent Non-executive Director, Shen Liqiang, Independent Non-executive Director and Ye Guohua, Executive Director

Note: The appointment of the Eighth Session of the Remuneration and Appraisal Committee was approved on the first meeting of the Eighth Session of the Board of Directors on 18 June 2014. The members of the Seventh Session of the Remuneration and Appraisal Committee were Jin Mingda, the Chairman, Shen Liqiang, member, and Ye Guohua, member.

**Table of Contents****Corporate Governance Report****(Prepared in Accordance with the Hong Kong Listing Rules)** (continued)

## (iii) Meetings of the Remuneration and Appraisal Committee

The Remuneration and Appraisal Committee convenes at least one meeting each year. In 2014, the Remuneration and Appraisal Committee convened two meeting with a record of attendance as follows:

| <b>Members of Remuneration and Appraisal Committee</b> | <b>Attendance</b> |                 |                        |
|--|-------------------|-----------------|------------------------|
|  | <b>in Person</b>  | <b>by Proxy</b> | <b>% of Attendance</b> |
| Jin Mingda   | 2                 | 0               | 100%                   |
| Ye Guohua  | 1                 | 1               | 100%                   |
| Shen Liqiang   | 2                 | 0               | 100%                   |

## (iv) Procedures and Basis for the Determination of Remuneration of Directors and Senior Management

Allowances for Independent Directors are determined by the Board and the resolution of the same to be submitted to the general meeting for consideration and approval. Remuneration for other Directors, Supervisors and Senior Management are determined according to the Remuneration System for Directors, Supervisors and Senior Management which were passed at the 2002 Annual General Meeting.

The Remuneration and Appraisal Committee reviews the implementation of the remuneration evaluation every year. It also appraises the annual performance of the Company's Directors and Senior Management, and determines their remuneration according to the results of the appraisal.

## (v) Work Report of the Remuneration and Appraisal Committee for the Reporting Period

During the Reporting Period, the Remuneration and Appraisal Committee reviewed the remuneration policy of the Directors and conducted annual appraisals with the Directors and the Senior Management. The committee also reviewed the remuneration situation of the Directors, Supervisors and Senior Management. For the Stock Option Incentive Plan, the Committee reviewed the relevant management measures.

**Table of Contents****2. The Audit Committee****(i) Role and Functions of the Audit Committee**

The Audit Committee is principally responsible for advising the Board on the appointment and dismissal, remuneration and terms of engagement of external auditors; supervising the Company's internal audit system and its implementation; reviewing the financial information of the Company and its disclosure, including verifying the completeness of financial statements, annual reports and interim reports of the Company; reviewing the major opinions stated in the financial reports of the Company's statements and reports; reviewing the financial control, internal control and risk management systems of the Company; and examining material connected transactions of the Company.

**(ii) Members of the Audit Committee**

The Audit Committee of the Eighth Session of the Board comprises three Independent Non-executive Directors.

Chairman: Cai Tingji, Independent Non-executive Director (accounting expert)

Members: Cai Tingji, Independent Non-executive Director, Shen Liqiang, Independent Non-executive Director, and Jin Mingda, Independent Non-executive Director

Note: The appointment of the Eighth Session of the Audit Committee was approved on the first meeting of the Eighth Session of the Board of Directors on 18 June 2014. The members of the Seventh Session of the Audit Committee were Cai Tingji, the Chairman, Shen Liqiang, member, and Jin Mingda, member.

**(iii) Meetings of the Audit Committee**

The Audit Committee convenes at least two meetings each year. In 2014, the Audit Committee convened two meetings with a record of attendance as follows:

| <b>Members of Audit Committee</b> | <b>Attendance<br/>in<br/>Person<br/>(no. of times)</b> | <b>Attendance<br/>by<br/>Proxy<br/>(no. of times)</b> | <b>% of<br/>Attendance</b> |
|-----------------------------------|--|---|----------------------------|
| Cai Tingji                        | 2  | 0   | 100%                       |
| Shen Liqiang                      | 2  | 0   | 100%                       |
| Jin Mingda                        | 1  | 1   | 100%                       |

**Table of Contents**

**Corporate Governance Report**

**(Prepared in Accordance with the Hong Kong Listing Rules)** (continued)

(iv) Work Report of the Audit Committee during the Reporting Period

During the Reporting Period, the Audit Committee reviewed with the management the accounting principles and standards adopted by the Company and discussed matters regarding auditing, internal control and financial reporting, including reviews of the annual report for the 12 months ended 31 December 2013, and the interim report for the period ended 30 June 2014.

**3. The Nomination Committee**

(i) The role and functions of the Nomination Committee

The Nomination Committee is a special committee under the Board of the Company that is accountable to the Board, and is mainly responsible for making recommendations to the Board on the procedures and criteria for the selection and appointment of Directors and Senior Management of the Company and on their qualifications to hold office.

(ii) Members of the Nomination Committee

The Nomination Committee of the Eighth Session of the Board comprises three Directors, including one Executive Director and two Independent Non-executive Directors.

Chairman: Wang Zhiqing, Executive Director

Members: Wang Zhiqing, Executive Director, Jin Mingda, Independent Non-executive Director and Shen Liqiang, Independent Non-executive Director

Note: The appointment of the Eighth Session of the Nomination Committee was approved at the first meeting of the Eighth Session of the Board of Directors on 18 June 2014. The members of the Seventh Session of the Committee were Wang Zhiqing, the Chairman, Shen Liqiang, member, and Jin Mingda, member.

**Table of Contents**

## (iii) Meetings of the Nomination Committee

The Nomination Committee convenes at least one meeting each year. In 2014, the Nomination Committee convened one meeting with a record of attendance as follows:

| <b>Name of Committee member</b> | <b>Position</b> | <b>Number of meetings held during the Reporting Period</b> | <b>Number of attendance in person</b> |
|---------------------------------|-----------------|--|---------------------------------------|
| Wang Zhiqing                    | 1               | 0  | 100%                                  |
| Jin Mingda                      | 1               | 0  | 100%                                  |
| Shen Liqiang                    | 1               | 0  | 100%                                  |

## (iv) The work of the Nomination Committee in the Reporting Period

During the Reporting Period, the Nomination Committee of the Board of Directors reviewed the structure of the Seventh Session of the Board of Directors, number of members and formation of the Board of Directors. It also reviewed the independence of the Independent Non-executive Director and considered Independent Non-executive Director and Executive Director candidates, based on objective criteria whilst, having due regard to the benefits of board diversity (including but not limited to gender, age, culture and educational background, professional experience, skill, knowledge and length of service) and commitment shown towards board responsibilities. Recommendations and nominations were made to the Board of Directors.

**Supervisory Committee**

The Company's Eighth Session of the Supervisory Committee comprises six members, including three Staff Supervisors, two External Supervisors and one Independent Supervisors, one of whom serves as Chairperson of the Committee. The particulars and terms of office of each Supervisor are set out in the Directors, Supervisors, Senior Management and Employees section of this annual report. The appointment of the four non-staff supervisors of the Eighth Session of the Supervisory Committee was approved on the 2014 Annual General Meeting on 18 June 2014. The Company's Seventh Session of the Supervisory Committee comprises seven members, including three Staff Supervisors, two External Supervisors and two Independent Supervisors

In addition, Mr. Zhou Yunnong, the Independent Supervisor, applied to the Supervisory Board to resign from his position as supervisor on 10 July 2014, while Mr. Chen Xinyuan, the Independent Supervisor, applied to the Supervisory Board to resign from his position as supervisor on 9 December 2014. Pursuant to the Articles of Association of the Company, the resignations of Mr. Zhou Yunnong and Mr Chen Xinyuan came into effect on 10 July 2014 and 9 December 2014 respectively when their resignation reports were delivered to the Supervisory Committee of the Company. The appointment of Mr. Zheng Yunrui as an independent supervisor of the eighth session of the Supervisory Committee of the Company had been approved at the First Extraordinary General Meeting for 2014.

**Table of Contents****Corporate Governance Report****(Prepared in Accordance with the Hong Kong Listing Rules)** (continued)

In 2014, the Supervisory Committee of the Company convened seven meetings with a record of attendance as follows:

| Name of Supervisor | Position                                    | Attendance |          |                 | Remarks   |
|--------------------|---|------------|----------|-----------------|---|
|                    |   | in Person  | by Proxy | % of attendance |   |
| Zhang Jianbo       | Staff Supervisor and Chairperson            | 7          | 0        | 100%            |   |
| Zuo Qiang          | Staff Supervisor                            | 7          | 0        | 100%            |   |
| Li Xiaoxia         | Staff Supervisor                            | 7          | 0        | 100%            |   |
| Zhai Yalin         | External Supervisor                         | 5          | 2        | 100%            |   |
| Wang Liquan        | External Supervisor                         | 6          | 1        | 100%            |   |
| Chen Xinyuan       | Independent Supervisor (January - December) | 7          | 0        | 100%            |   |
| Zhou Yunnong       | Independent Supervisor (January - July)     | 3          |          | 100%            | Three Meetings of the Supervisory Committee were held during his term of service    |
| Zheng Yunduan      | Independent Supervisor (December)           |            |          |                 | Meetings of the Supervisory Committee have not been held during his term of service |

During the Reporting Period, the Company's Supervisory Committee established and refined the check-and-balance system of the Company and promoted and regulated the corporate governance structure in accordance with the relevant laws and regulations, including the Company Law and the Code of Corporate Governance for Listed Companies. The Supervisory Committee discharged its supervisory duties and exercised supervision over the management's compliance with the relevant laws and regulations, including the Company Law and the Code of Corporate Governance for Listed Companies. It also supervised the enforcement of the resolutions passed at Shareholders' General Meetings and Board meetings, compliance with decision-making procedures and the implementation of the internal control system, in addition to examining the financial system and the financial situation of the Company in a conscientious manner, thereby ensuring the normal operations of the Company and safeguarding shareholders' legitimate interests.

## **Table of Contents**

### **Directors Responsibilities in relation to the Financial Statements**

The following statement, which should be read in conjunction with the domestic and international auditors' reports on pages 195 to 196 and pages 102 to 103, respectively, sets out the responsibilities of the Directors in relation to the Company's financial statements.

#### Annual reports and accounts

The Directors acknowledge their responsibilities in preparing the financial statements which give a true and fair view of the state of affairs of the Company for each financial year.

#### Accounting policies

During the preparation of the financial statements of the Company, the Directors shall adopt appropriate accounting policies, namely the CAS issued by the Ministry of Finance of the PRC, and the IFRS and IAS. The Directors shall also ensure that the financial statements are in line with all applicable accounting standards.

#### Accounting records

The Directors are responsible for ensuring that the Company keeps accounting records which reflect with reasonable accuracy the financial positions of the Company and which enable the preparation of financial statements in accordance with the Companies Ordinance of Hong Kong and the applicable accounting standards.

#### Going concern

The Directors, having made the appropriate enquiries, consider that the Company has adequate resources to continue in operational existence for the foreseeable future and that, for this reason, it is appropriate to adopt the going concern basis in preparing its financial statements.

### **Company Secretary**

The Company Secretary is elected by the Board, and his/her responsibilities are set out in the Articles of Association. The appointment of Mr. Tang Weizhong to be the Company Secretary was approved at the first meeting of the Eighth Session of the Board of Directors on 18 June 2014. Mr. Tang Weizhong, a member of the Hong Kong Institute of Chartered Secretaries, received professional training for a total of 31.5 class hours organized by the institute in 2014. At the same time, Mr. Zhang Jingming finished his term of service and stepped down from the position. He received professional training for a total of 16 class hours organized by the Hong Kong Institute of Chartered Secretaries before June 2014.

**Table of Contents****Corporate Governance Report****(Prepared in Accordance with the Hong Kong Listing Rules)** (continued)**Auditors Remuneration**

At the 2013 Annual General Meeting of the Company, approval was given for the international and domestic auditors of the Company for the year of 2014 to be PricewaterhouseCoopers and PricewaterhouseCoopers Zhong Tian LLP, respectively. It was also authorized that the audit fees would be determined by the Board.

| <b>Item</b>                     | <b>Amount</b>  | <b>Auditor</b>                       |
|---------------------------------|----------------|--------------------------------------|
| Audit Fees for the year of 2014 | RMB3 million   | PricewaterhouseCoopers               |
| Audit Fees for the year of 2014 | RMB4.8 million | PricewaterhouseCoopers ZhongTian LLP |

**Shareholders Rights**

The Company maintains normal communications with its shareholders. The Company's major communications channels include Shareholders' General Meetings, the Company's website, email account and fax and telephone numbers of the Secretary Office of the Board. Through the use of the communication channels listed above, the shareholders may adequately express their opinions or exercise their rights. Shareholders' question and answer session were arranged at all general meetings held in 2014, allowing direct communications between the shareholders, the Directors and the management.

For details of the procedures and voting and proxy arrangements of the Shareholders' General Meetings of the Company, please refer to the Articles of Association published on the websites of the Hong Kong Stock Exchange, the Shanghai Stock Exchange and the Company.

The rights of shareholders of the Company holding ordinary shares are also set out in the Articles of Association. Once these shareholders provide the Company written documents on the class and numbers of shares of the Company held by them, and after their shareholder identities are verified by the Company, they are entitled to access relevant information as permitted by law, administrative regulations and the Articles of Association.

According to the Articles of Association, the Board shall convene an extraordinary general meeting within two months of the following circumstances:

- (i) the number of directors does not meet the number required by the Company Law or less than two-thirds as required by the Articles of Association;
- (ii) the uncovered losses of the Company's capital reach one-third of the Company's paid-up share capital;

- (iii) upon written requisition by the shareholders individually or jointly holding ten percent, (10%) or more of the issued and outstanding voting shares of the Company;
- (iv) when deemed necessary by the Board or proposed by the Supervisors;
- (v) in other circumstances as required by the law, administrative regulations, departmental rules or the Articles of Association.

**Table of Contents**

**Investor Relations**

During the Reporting Period, the Company continued to strengthen the management of investor relations, implement in good faith the Work System of Investor Relations, engage in active interaction and communications with investors and submit investors' opinions and suggestions to the Company's management in a timely manner.

In principle, the Company convenes results briefings every six months after the release of its annual and interim results. In 2014, the Company held two large-scale results briefings and press conferences in Hong Kong, while several one-to-one meetings were held within and outside China. The Company has also welcomed hundreds of domestic and foreign investors to its headquarters, and conscientiously replied to telephone queries and letters from investors, intermediaries and fund managers. In addition, the Company also actively attended capital market meetings organized by securities research companies and investment banks and so forth.

The information on the Company's website is updated regularly to keep the Company's investors and the public informed of the Company's latest developments.

**Report of the Directors**

**Management's Discussion and Analysis**

(Unless otherwise specified, the financial information included in this Management's Discussion and Analysis section has been extracted from the financial statements prepared under IFRS.)

**1. General - Review of the Company's operations during the Year Ended 31 December 2014 (the Reporting Period )**

The world economy experienced a slower-than-expected recovery in 2014. The US economy delivered strong performance, while the Eurozone and Japan were basically sluggish and the growth of emerging economies further slowed down. The Chinese economy entered into a three periods pile-up situation , which is a gears shifting period of growth pace, a throes period of structural adjustment and digestion period of stimulus at the early stage, and the Chinese economy operating generally presented a trend of continuously slowing down. The Chinese government adopted a series of macro control measures and reforms, and was able to keep its economy stable on the whole, with annual GDP growth of 7.4%. The economic growth rate, however, further slowed down. Affected by factors such as greater downward pressure of the domestic economy, slower growth of demand, over capacity and constantly low prices, the petroleum and petrochemical industry remained in a weak position, and earnings of companies fell.

The Group came under great market pressure in 2014. With a focus on economic returns, it stepped up its effort in environmental protection and intensified its system optimization to cost reduction and increase efficiency. It also actively promoted structural adjustment and development and was able to maintain stable production and operations as a whole.

---

**Table of Contents****(i) Production and operation remained safe and stable**

In 2014, the Group further strengthened assessment of its safety and environmental responsibility system for all staff, enhanced its on-site operation procedure management, as a result, achieved the goal of "Seven Zero" which stand for no staff dead from or serious injured in industrial accidents, no big fire and explosion, no major environmental pollution accident, no major occupational hazard accident, no major traffic accident in working area, no major accident of negligence. Overall production and operation remained stable. Of the 102 major technical and economic indicators covered in the assessment, 55 exceeded those last year and 31 reached advanced-industry level, representing 53.92% progressive rate year-on-year and 30.39% industry advance rate, respectively.

In 2014, the Group's physical production volume plunged as a result of sluggish domestic petroleum and petrochemical industry and of the Company's planned turnaround. The total volume of goods amounted to 13,570,600 tons, down 13.03% over the previous year. During the year, the Group processed 14,170,200 tons of crude oil (including 1,274,800 tons of crude oil processed on a sub-contract basis), representing a decrease of 9.56% as compared with the previous year. Total production output of refined oil products such as gasoline, diesel and jet fuel amounted to 8,424,300 tons, down 7.15%, with the Group producing 2,870,500 tons of gasoline, at par with the previous year, and 4,065,300 tons of diesel, down 17.56%. The Group also produced 1,488,500 tons of jet fuel, up 17.21%. The Group produced 804,400 tons of ethylene, 510,200 tons of propylene and 105,600 tons of butadiene, down 15.62%, 16.61% and 18.46%, respectively. The Group produced 347,500 tons of benzene and 680,600 tons of paraxylene, down 18.16% and 27.53%, respectively. The Group also produced 1,042,300 tons of synthetic resins and copolymers (excluding polyesters and polyvinyl alcohol), down 7.75%; 705,900 tons of synthetic fibre monomers, down 19.52%; 417,000 tons of synthetic fibre polymers, down 20.34%; and 232,400 tons of synthetic fibres, down 8.07%.

In 2014, the Group's turnover reached RMB102.126 billion, down 11.57% over the previous year. Its output-to-sales ratio and receivable recovery ratio were 100.06% and 100.00%, respectively. The Group continued to maintain a premium level of quality in its products.

**(ii) Market demand for petroleum and petrochemical products slowed down, and their prices underwent continuous decline**

With the Chinese economy under greater downward pressure in 2014, the domestic petroleum and petrochemical market performed poorly overall. In domestic market, over capacity of refinery intensified. The growth rate of refined oil consumption slowed down, of which diesel consumption recorded negative growth rate. The continued expansion of production capacity of bulk petrochemicals led to a constantly low level of market demand, resulted in the prices of petrochemical products underwent continuous decline. As at 31 December 2014, the weighted average prices (VAT excluded) of the Group's synthetic fibres, resins and plastics, intermediate petrochemical products, and petroleum products fell by 1.54%, 0.19%, 13.10% and 4.20%, respectively, over the previous year.

---

**Table of Contents****Report of the Directors (continued)****(iii) International crude oil prices experienced continuous fall, volume of crude oil processed decreased**

In 2014, the world economy continued to grow at a slow pace and the demand for crude oil was generally weak. The shale gas renovation in the US significantly boosted supply of oil. The quantitative easing monetary policy came to an end in the US with the USD starting to appreciate. OPEC countries maintained their production volume of crude oil to fight for market share, all these factors as well as geographical factors resulted in the great fluctuation of international crude oil prices. During the first half of the year, international crude oil prices fluctuated at high levels. After June, the prices fell consistently and sharply. The average WTI crude oil price on the New York Mercantile Exchange in 2014 was US\$93.14/barrel, representing a 4.90% decrease from the average of US\$97.94/barrel in 2013. The average price of Brent crude oil on the London Intercontinental Exchange was US\$98.95/ barrel, a decrease of 8.92% from US\$108.64/barrel in 2013. The average price of crude oil in Dubai was US\$96.66/barrel, down by 8.34%, compared with US\$105.45/ barrel in 2013.

For the year ended 31 December 2014, the Group processed a total of 14,170,200 tons of crude oil (including 1,274,800 tons processed on a subcontract basis), down 1,497,600 tons, or 9.56%, over the previous year. In 2014, the average unit cost of crude oil processed (for its own account) was RMB4,618.68 per ton (2013: RMB4,819.11 per ton), down 4.16% over the previous year. The Group's total cost of processing crude oil in 2014 was RMB59.56 billion, down 16.81% compared with RMB71.593 billion for the previous year, representing 64.11% of the total cost of sales.

**(iv) Making efforts to further improve system optimization, enhancing cost reduction and profit enhancement movement**

In 2014, the Group leveraged its competitive edge in the integration of its refinery and petrochemical segments, and increased the refining volume of high-sulfur crude oil by taking full advantage of the high degree of adaptability of its refinery plants. The Group applied the PIMS system to estimate the cost-to-performance ratio for crude oil and further centralized crude oil procurement. Procurement volume for major sources of oil with a relatively higher cost-to-performance ratio accounted for 96.6% of the total procurement for the year.

To maximize its overall economic return, the Group carried out a series of optimization adjustments, such as optimization of ethylene feedstock, optimization of natural gas and fuel gas structure, optimization of hydrogen system, minimizing the flare gas emission, and maximizing the output of gasoline and jet fuel, as well as optimizing the processing flow of naphtha, residual oil and wax oil. The Group provided high-octane gasoline blending components to increase its gasoline production by reducing its paraxylene production. Through adopting measures such as transformation from diesel hydrogenation to jet fuel hydrogenation and quality upgrade of 3.30 million tons of diesel hydrogenation, the structure of refined oil was further enhanced with an annual diesel-to-gasoline proportion of 1.42:1. The Group reinforced the marginal contribution tracking on its plants and upheld rolling estimations on the effectiveness of each product on a daily basis, to keep track of changes in the effectiveness and make adjustments to the load of plants and the respective commencement/suspension plan in a timely manner. Priority for production was given to products with effectiveness and marketability.

---

**Table of Contents**

The Group made continuous efforts to broaden and innovate its methods for fund raising and financing, and achieved success in the implementation of offshore financing, including overseas agency payments and risk participation. During the year, only two medium-to-long-term USD and RMB borrowings were obtained from banks, saving interest expenses of almost RMB20 million. By adopting measures such as key contracting and monthly appraisal, the Group tightened its expense control. The Company strived to reduce its use of capital and recorded a reduction in total capital reserves of over RMB60 million for the year as compared with the previous year.

**(v) Further progress made in energy conservation and emissions and discharge reduction**

In 2014, the Group continued to carry out various measures in energy conservation, emissions and discharge reduction, in accordance with the relevant requirements in China. During the year, the Group achieved all related targets set by the government. In 2014, the Company's overall level of energy consumption per RMB10,000 of product value was 0.851 ton of standard coal. As compared with the previous year, the total volume of COD declined by 26.07%, the discharge volume of sulfur dioxide declined by 25.11%, nitrogen oxides declined by 23.51%, solid wastes declined by 67%, and that of flare gas emission declined by approximately 80%, while the standard meeting ratio of waste water, waste solid and waste gas reached 100%, the average heat efficiency of heaters improved by 0.18 percentage points to 92.42% over the previous year. The Group proactively commenced carbon emission statistics examination and carbon emission trading works, and completed the sales of carbon quota for 2013, which signaled the normalization of its carbon emission transactions.

**(vi) Steady implementation of construction and development, R&D and IT projects**

In 2014, the Group developed its medium-to-long-term development plan and preliminary integrated refinery plan through further planning and research on development. The Group proactively participated in the strategic planning of industrial development at the north coast of Hangzhou Bay, which laid a solid foundation for the Company to minimize its development costs and risks, while providing more area and space for its expansion. In terms of project construction, the Group mainly focused on the commencement of upgrade of diesel quality at No.3 diesel hydrogenation plant project and the 100,000 ton/year EVA plant project, and invested RMB1,089 million during the year.

At the same time, the Group also strived to make progress in major R&D projects. Along with the passing of inspection of the High Technology Commercialization Model Project with Annual Production of 3,000 tons of PAN Based raw filament yarn for carbon fiber, a specialized project for high technology industrialization governed by the National Development and Reform Commission, Phase I of the reform of the Technology Development and Industrial Application Project for Production of High Quality Needle Coke from Low Quality Slurry Oil concluded successfully.

During the year, the Group produced 306,400 tons of new products, as well as 748,200 tons of new synthetic resins products and specialized polyolefin materials with a differentiation rate of 64.51%. The Group also submitted 53 patent applications, with four authorizations granted. In terms of IT construction, the Group completed the online launch of the analysis and monitoring system for production and operations, office platform for general affairs and mobile office system.

**Table of Contents**

**Report of the Directors (continued)**

**(vii) Enhancing efforts in corporate management and reform**

In 2014, the Group continued to upgrade its application of the integrated management system by gradual enlarging the scope of the Group's system certification. With its laboratory proficiency passing onsite assessment, the Group commenced to add energy management system to the integrated system. Additionally, it continued to optimize its organizational structure and adjusted the functions and responsibilities of certain department. The Group also vigorously fostered the centralized management for the electrical speciality and commenced pilot programs on procedural management. In addition to strengthening the management of contractors, it tightened the policies on construction risk deposits as well. In seeking to leverage the innovative financing platform in the Shanghai Free Trade Pilot Zone and the preferential policies, the Group set up Shanghai Jinshan Trading Corporation ( ) at the Zone. The Group explored the use of innovative incentive schemes, adopting the A Share Option Incentive Scheme for senior management and core employees.

As at 31 December 2014, the Group reduced its headcount by 814 people, including voluntary redundancies and staff retirements. This accounted for 5.76% of the total workforce of 14,127 on the payroll as at the start of the year.

**(viii) Brief analysis of main factors leading to loss in operating results for the year**

The main reasons for the loss in the Group's operating results during the Reporting Period were:

- a. Demand in the petroleum and petrochemical markets remained sluggish, which weakened the market prices of products and led to the loss in the aromatics and polyester business during the year. In the second half of 2014, the plunge in crude oil prices was accompanied by a continuous drop in prices of refined oil products. Due to the longer procurement cycle for imported crude oil and the relatively higher cost of the Group's crude oil in transit and in storage, the refining sector recorded a loss subsequent to the third quarter.
- b. The total volumes of major products, including refined oil and petrochemical products, saw varying levels of decline, which dragged down profitability. These declines were due to the fall in crude oil processing volume as compared with 2013, the change of catalysts and unstable operations of certain production plants.
- c. The Group recorded a sharp decrease in profit for external investments. This is mainly due to the significant loss recorded by the Group's associates Shanghai Secco Petrochemical Company Limited, resulting in a decrease of RMB73 million in profits on investment.
- d. In the second half of 2014, crude oil prices plunged in the international market and depressed the prices of the Group's oil products and petrochemical products. Provision for decline in the value of inventories amounted RMB295 million, up by RMB194 million.

- e. The Group's net finance costs were RMB360 million in 2014, up RMB482 million compared with the net finance income of RMB122 million in 2013. The reversal was mainly due to the increase in net exchange losses during the Reporting Period resulting from the depreciation of the RMB against the US Dollar.

## **Table of Contents**

### **2. Accounting judgments and estimates**

The Group's financial condition and the results of its operations are sensitive to accounting methods, assumptions and estimates that underlie the preparation of the financial statements. The management of the Group bases the assumptions and estimates on historical experience and on various other assumptions that it believes to be reasonable and which form the basis for making judgments about matters that are not readily apparent from other sources. On an on-going basis, the management evaluates its estimates. Actual results may differ from those estimates as facts, circumstances and conditions change.

The selection of critical accounting policies, judgments and other uncertainties affecting the application of those policies and the sensitivity of reported results to changes in conditions and assumptions are factors to be considered when reviewing the financial statements. The principal accounting policies are set forth in the financial statements. The Company's management believes that the following critical accounting policies involve the most significant judgments and estimates used in the preparation of the financial statements.

#### **(i) Impairments for long-lived assets**

Assets, that have an indefinite useful life, must be tested annually for impairment. Long term assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. In determining the value in use, expected cash flows generated by the asset or the cash-generating unit are discounted to their present value. Management uses all readily available information in determining an amount that is a reasonable approximation of recoverable amount, including estimates based on reasonable and supportable assumptions and projections of sale volume, selling price and amount of operating costs.

#### **(ii) Depreciation**

Property, plant and equipment depreciate on a straight-line basis over the estimated useful lives of the assets, after taking into account the estimated residual value. The management reviews the estimated useful lives of the assets annually in order to determine the amount of depreciation expenses to be recorded during any reporting period. The useful lives are based on the Group's historical experience with similar assets, taking into account anticipated technological changes. The depreciation expenses for future periods is adjusted if there are significant changes from previous estimates.

#### **(iii) Impairment for bad and doubtful debts**

Management estimates impairment losses for bad and doubtful debts resulting from the inability of the customers to make the required payments. Management bases the estimates on the ageing of the accounts receivable balance, customer credit-worthiness and historical write-off experience. If the financial condition of the customers were to deteriorate, actual impairment losses would be higher than the estimate.

**Table of Contents**

**Report of the Directors (continued)**

**(iv) Allowance for diminution in value of inventories**

If the costs of inventories exceed their net realizable values, an allowance for diminution in value of inventories is recognized. Net realizable value represents the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Management bases the estimates on all available information, including the current market prices of the finished goods and raw materials, and historical operating costs. If the actual selling prices were to be lower or the costs of completion were to be higher than estimated, the actual allowance for diminution in value of inventories could be higher than the estimate.

**(v) Income Tax**

In June 2007, the State Administrative of Taxation issued a tax circular (Circular No.664) to the local tax authorities requesting that the relevant local tax authorities rectify the applicable enterprise income tax ( EIT ) for nine companies listed in Hong Kong, which included the Company. After the notice was issued, the Company was required by the relevant tax authority to settle the EIT for 2007 at a rate of 33%. To date, the Company has not been requested by the tax authorities to pay additional EIT in respect of any years prior to 2007. There were no further developments on this matter during the year ended 31 December 2014. No provisions were made in the financial statements as at 31 December 2014 for this uncertainty because the management believes it is not probable for the Group to be required to pay additional EIT for years prior to 2007.

**(vi) Recognition of deferred tax assets**

There are many transactions and events for which the ultimate tax determination is uncertain during the ordinary course of business. Significant judgment is required from the Group in determining the provision for income taxes in each of these jurisdictions. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Deferred tax assets are recognized in respect of temporary deductible differences and the carrying forward of unused tax losses. Management recognizes deferred tax assets only to the extent that it is probable that future taxable profit will be available against the assets which can be realized or utilized. At the end of each Reporting Period, the management assesses whether previously unrecognized deferred tax assets should be recognized. The Group recognizes a previously unrecognized deferred tax asset to the extent that it is probable that future taxable profit will allow the deferred tax asset to be utilized. In addition, management assesses the carrying amount of deferred tax assets that are recognized at the end of each Reporting Period. The Group reduces the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available for the deferred tax asset to be utilized.

**Table of Contents**

In making the assessment of whether it is probable the Group will realize or utilize the deferred tax assets, management primarily relies on the generation of future taxable income to support the recognition of deferred tax assets. In order to fully utilize the deferred tax assets recognized at 31 December 2014, the Group would need to generate future taxable income of at least RMB 3,660 million, of which RMB 2,371 million is required to be generated by the Company by 2017, prior to the expiration of the unused tax losses generated 2012. In addition, further taxable income of RMB 833 million is required to be generated by the company by 2019, prior to the expiration of the unused tax losses generated in 2014. Based on the estimated forecast and historical experience, management believes that it is probable that the Group will generate sufficient taxable income before the unused tax losses expire.

**3. Comparison and Analysis of Results of the Company's Operations (Prepared under IFRS)****3.1 Summary**

The following table sets forth the Group's sales volumes and net sales (net of sales taxes and surcharges) for the years indicated :

|   | For the Years ended 31 December    |                                  |               |                                    |                                   |               |                                    |                                   |               |

## **Table of Contents**

### **3.2 Comparison and Analysis**

The year ended 31 December 2014 compared to the year ended 31 December 2013.

#### **3.2.A Results of operations**

##### **(1) Net sales**

In 2014, net sales of the Group amounted to RMB92,725million, representing a decrease of 12.11% from RMB105,503.2 million over the previous year. For the year ended 31 December 2014, among the Group's synthetic fibres, resins and plastics, intermediate petrochemicals and petroleum products, the weighted average prices (excluding tax) of synthetic fibres, resins and plastics, intermediate petrochemical products and petroleum products decreased by 1.54%, 0.19%, 13.10% and 4.20% over the previous year, respectively.

##### **(i) Synthetic fibres**

In 2014, the Group's net sales for synthetic fibres amounted to RMB2,891.5 million, representing a decrease of 10.22% compared with RMB3,220.5 million in the previous year. The decrease in net sales was due to continued sluggish downstream demand and under-performing initiatives in raw material procurement. Sales volume for synthetic fibres fell 8.81% compared with the previous year, while weighted average sales price fell 1.54%. In particular, the weighted average sales price of the principal products of synthetic fibres of the Group acrylic fibre increased by 0.84%, while the weighted average sales price of polyester fibre decreased by 11.68% over the previous year. Sales of acrylic fibre and polyester fibre accounted for 79.15% and 14.95% of the total sales of synthetic fibres, respectively.

Net sales of synthetic fibre products accounted for 3.1% of the Group's total net sales in 2014, remaining approximately the same as compared to the previous year.

##### **(ii) Resins and plastics**

The Group's net sales of resins and plastics amounted to RMB12,489.4 million in 2014, representing a decrease of 12.47% as compared with RMB14,268.4 million over the previous year. The decrease in net sales is mainly attributable to the decrease in sales volume of polyester products. The sales volume for resins and plastics decreased by 12.30%, while weighted average sales price fell 0.19%. In particular, the weighted average sales price of polyethylene increased by 2.65%, the weighted average sales price of polypropylene increased by 1.53%, and the weighted average sales price of polyester pellet decreased by 13.82%. Sales of polyethylene, polypropylene and polyester pellet accounted for 43.58%, 35.52% and 16.56% of the total sales of resins and plastics, respectively.

Net sales of resins and plastics accounted for 13.5% of the Group's total net sales in 2014, remaining approximately the same as compared to the previous year.

**Table of Contents**

**Report of the Directors (continued)**

(iii) Intermediate Petrochemicals

The Group's net sales of intermediate petrochemical products amounted to RMB12,391.0 million in 2014, representing a decrease of 32.77% as compared with RMB18,430.8 million in 2013. This is mainly due to the weak sales of aromatics, including benzene and paraxylene, along with the decrease in downstream demand, the suspension of the production of No.1 ethylene plant, significant decrease in sales of olefins, leading to a plunge in net sales of petrochemical products and a decrease of 22.64% in sales volume. The weighted average sales price of intermediate petrochemical products decreased by 13.10% over the previous year. Among the intermediate petrochemical products, the weighted average sales prices of paraxylene, butadiene and ethylene oxide decreased by 18.83%, 14.29% and 2.92%, respectively, while weighted average sales price of benzene and glycol decreased by 9.07% and 11.32%, respectively. Sales of paraxylene, butadiene, ethylene oxide, benzene and glycol accounted for 29.07%, 6.33%, 18.74%, 18.56% and 6.11% of the total sales of intermediate petrochemical products, respectively.

Net sales of intermediate petrochemicals accounted for 13.4% of the Group's total net sales in 2014, representing a decrease of 4.1 percentage points compared with the previous year.

(iv) Petroleum products

The Group's net sales of petroleum products amounted to RMB49,259.5 million in 2014, representing a decrease of 14.21% as compared with RMB57,419.8 million in the previous year, with the weighted average sales price decreasing by 4.20%, while sales volume decreased by 10.45%. The decrease in net sales is mainly attributable to a continuous drop in prices of refined oil products and a decrease in crude oil processing volume.

Net sales of petroleum products accounted for 53.1% of the Group's total net sales in 2014, representing a decrease of 1.3 percentage points compared with the previous year.

(v) Trading of petrochemical products

The Group's net sales of the trading of petroleum products amounted to RMB14,791.0 million in 2014, representing an increase of 32.56% as compared with RMB11,157.6 million in the previous year. This was mainly attributable to the establishment of the subsidiary Shanghai Jinshan Trading Corporation in 2014, which enhanced intermediary trades, enabling the Group to expand its trading segment and increase net sales.

Net sales of trading of petrochemical products accounted for 15.9% of the Group's total net sales in 2014, representing an increase of 5.3 percentage points compared with the previous year.

**Table of Contents**

(vi) Others

The Group's net sales of other products amounted to RMB902.6 million in 2014, representing a decrease of 10.29% as compared with RMB1,006.1 million in the previous year. This decrease in net sales was mainly attributable to the decreased asset rental business.

Net sales of other products accounted for 1.0% of the Group's total net sales in 2014, representing an increase of 0.1 percentage point as compared with the previous year.

(2) Operating expenses

The Group's operating expenses comprise cost of sales, selling and administrative expenses, other operating expenses and other operating income.

Operating expenses of the Group slightly decreased from RMB103,310.9 million in 2013 to RMB93,312.9 million in 2014. The operating expenses involving synthetic fibres, resins and plastics, intermediate petrochemicals, petroleum products and others were RMB3,473.4 million, RMB12,820.9 million, RMB12,259.2 million, 49,288.8 million and 745.7 million representing decreases of 9.15%, 14.72%, 29.41%, 10.78% and 5.76% respectively. The operating expenses involving trading of petrochemicals amounted to RMB14,724.9 million, representing an increase of 33.23% compared with the previous year.

The Group's operating expenses involving trading of petrochemical products in 2014 increased by 33.23% compared with the previous year, primarily due to an increase in the Group's trading volume of the petrochemicals compared with the previous year.

The Group's operating expenses involving synthetic fibres, resins and plastics, intermediate petrochemicals, petroleum products and others decreased primarily due to the slight decreases in the Group's volume of the relative products compared with the previous year.

**Cost of sales**

The Group's cost of sales amounted to RMB92,910.1 million in 2014, decreasing by 9.99% from RMB103,225.9 million in 2013. Cost of sales accounted for 100.20% of net sales for 2014. The decrease in cost of sales is due to the decrease in crude oil processing volume.

**Selling and administrative expenses**

The Group's selling and administrative expenses amounted to RMB564.2 million in 2014, representing a decrease of 18.35% as compared with RMB691.0 million in the previous year, mainly due to a decrease in the cost of loading and unloading transports.

**Table of Contents**

**Report of the Directors (continued)**

**Other operating income**

The Group's other operating income amounted to RMB261.6 million in 2014, representing a decrease of 61.15% compared with RMB673.4 million in the previous year. The decrease in other operating income was mainly attributable to the receipt of refunds relating to local education surcharge of RMB124 million in 2014, compared with RMB465 million in net income generated from the asset transfer involving the Chenshan oil depot and foreign exchange gain of RMB67.3 million from China Jinshan Associated Trading Corporation in 2013.

**Other operating expenses**

The Group's other operating expenses were RMB100.2 million in 2014, representing an increase of 48.66% compared with RMB67.4 million in the previous year. This was mainly due to the exchange loss of RMB49.8 million as a result of the depreciation of the RMB against the US dollar, and the loss on fixed assets disposal of RMB18.8 million as a result of the disposal of No.1 Ethylene Plant.

(3) (Loss) / profit from operations

The Group's loss from operations amounted to RMB587.9 million in 2014, representing a decrease in RMB2,780.2 million compared with a profit from operations of RMB2,192.3 million in the previous year. In 2014, demand for petrochemicals in China remained sluggish and petrochemical prices weakened. Profit margin for the Group's petrochemical products declined significantly and the petrochemical sector recorded a loss. In the second half of 2014, especially in the fourth quarter, the price of crude oil in the international market saw a continuous and significant decline, resulting in a significant decrease in the price of the Group's oil products and petrochemical products. Given that imported crude oil has a long procurement cycle and the cost of the Group's crude oil in transit and in storage is relatively high, the profit margin of the refining sector and the petrochemical sector has been further reduced, with the refining sector recording a loss.

(i) Synthetic fibres

In 2014, the Group's operating loss for synthetic fibres amounted to RMB581.9 million, representing a decrease compared with the operating loss of RMB602.9 million in the previous year. As the synthetic fibres industry is currently in the doldrums with selling price of the products remaining at low levels, the Group limited production for some of the products, resulting in lower sales which led to net sales for synthetic fibres falling 10.22%. Meanwhile, selling costs fell by 9.15%, narrowing the operating loss of synthetic fibres.

**Table of Contents**

(ii) Resins and plastics

In 2014, the Group's operating loss for resins and plastics amounted to RMB331.5 million, representing a decrease of 56.74% compared with the operating loss of RMB766.3 million the previous year. This was mainly attributable to a 12.47% decrease in net sales caused by the fall in sales volume of resins and plastics, while selling costs fell by 14.72%, narrowing the operating loss.

(iii) Intermediate petrochemical products

In 2014, the Group's operating profit for intermediate petrochemical products amounted to RMB131.8 million, representing a decrease of 87.61% compared with RMB1064.0 million the previous year. This was mainly attributable to a decrease of 32.77% in net sales of intermediate petrochemical products, while selling costs only fell by 29.41%, narrowing the operating profit compared with the previous year.

(iv) Petroleum products

In 2014, the Group's operating loss for petroleum products amounted to RMB29.3 million, representing a decrease of 101.35% as compared with the operating profit of RMB2,177.2 million in 2013. This was mainly attributable to the decrease of 14.21% in net sales of petroleum products, while selling costs only fell by 10.78%, resulting in the operating loss compared with the previous year.

(v) Trading of petrochemical products

In 2014, the Group's operating profit for trading of petrochemical products amounted to RMB66.1 million, representing a decrease of 37.35% compared with RMB105.5 million the previous year. This was mainly attributable to an increase of 32.56% in net sales of the trading business, while the costs increased by 33.23%, decreasing the operating profit compared with the previous year.

(vi) Others

In 2014, the Group's operating profit of other products amounted to RMB156.9 million, representing a decrease of 26.96% compared with RMB214.8 million the previous year. This was mainly attributable to a decrease of 10.29% in net sales of other products, while costs fell by 5.76%, lowering the operating profit compared with the previous year.

(4) Net finance (costs) / income

The Group's net finance costs were RMB359.7 million in 2014, compared with a net finance income of RMB121.7 million in 2013. The reversal was mainly due to RMB49.8 million of net foreign exchange loss during the Reporting Period caused by the depreciation of RMB against US Dollars as compared with RMB407.9 million of net foreign exchange gains caused by the appreciation of RMB against US Dollars in the previous year.

**Table of Contents**

**Report of the Directors (continued)**

(5) (Loss) / profit before taxation

The Group's loss before taxation was RMB889.9 million in 2014, representing a decrease in profit of RMB3,334.6 million as compared with the profit before taxation of RMB2,444.7 million in the previous year.

(6) Income tax

The Group's income tax benefit amounted to RMB214.2 million in 2014, while the Group's income tax expense was RMB379.2 million in the previous year. The change was primarily attributable to the deferred tax assets recognized as the Company recorded losses in 2014.

In accordance with the PRC Enterprise Income Tax Law (amended) which took effect from 1 January 2008, the income tax rate of the Group in 2014 was 25% (2013: 25%).

(7) (Loss) / profit for the year

The Group's loss for the year was RMB675.8 million, representing a decrease in profit of RMB2,741.3 million compared with profit for the year of RMB2,065.5 million in the previous year.

**3.2.B Liquidity and Capital Sources**

The Group's primary sources of capital are operating cash flows and loans from unaffiliated banks. The Group's primary uses of capital are costs of goods sold, other operating expenses and capital expenditures.

(1) Capital Sources

(i) Net cash flow generated from operating activities

The Group's net cash inflows from operating activities amounted to RMB3,662.4 million in 2014, representing a decrease in cash inflows of RMB1,436.1 million as compared with net cash inflows of RMB5,098.5 million in the previous year. In particular, due to 1) the Group recorded loss during the Reporting Period, net cash outflows from loss before taxation (net of depreciation and impairment losses on property, plant and equipment) amounted to RMB1,049.8 million in 2014, representing a decrease of RMB3,504.7 million in cash inflows as compared with net cash inflows of RMB4,554.5 million in the previous year, 2) the Group's decreased inventory balance leading to an increase in operating cash flow of RMB3,108.5 million in 2014 (compared with a decrease in operating cash flow of RMB101.2 million in the previous year due to increased inventory balance at the end of the previous year).

**Table of Contents**

(ii) Borrowings

The total borrowings of the Group at the end of 2014 amounted to RMB5,710.9 million, representing a decrease of RMB2,010.9 million compared with the end of the previous year, of which short-term borrowings decreased by RMB3,015.8 million and long-term borrowings increased by RMB1,004.9 million.

The Group managed to maintain its liability-to-asset ratio at a safe level by enhancing controls over both liabilities (including borrowings) and financing risks. The Group generally does not experience any seasonality in borrowings. However, due to the nature of the Group's capital expenditure plan, long-term bank loans can be arranged in advance of expenditures while short-term borrowings are used to meet operational needs. The terms of the Group's existing borrowings do not restrict its ability to pay dividends on its shares.

(2) Liability-to-asset ratio

As at 31 December 2014, the Group's liability-to-asset ratio was 45.73% (2013: 50.89%). The ratio is calculated using this formula: total liabilities/total assets.

**3.2.C Research and Development, Patents and Licenses**

The Group includes a number of technology development units, including the Petrochemical Research Institute, the Plastics Research Institute, the Polyester Fibre Research Institute, the Acrylic Fibre Research Institute and the Environmental Protection Research Institute. These units are charged with various research and development tasks with respect to new technology, new products, new production processes and equipment and environmental protection. The Group's research and development expenditures for the years ended 2012, 2013 and 2014 were RMB72.2 million, RMB67.3 million and RMB43.6 million, respectively. Due to a reduction in expenses related to market research and travelling allowance, research and development expenditure fell in 2014.

The Group was not, in any material aspect, dependent on any patents, licenses, industrial, commercial or financial contracts, or new production processes.

**3.2.D Off-Balance Sheet Arrangements**

Please refer to note 30 to the financial statements prepared under IFRS in this annual report for details of the Group's capital commitments. The Group did not provide any guarantee to outside parties during the Reporting Period.

**Table of Contents****Report of the Directors** (continued)**3.2.E Contractual Obligations**

The following table sets forth the Group's obligations to repay loan principal in future as at 31 December 2014:

|                               | As at 31 December 2014<br>payment due by period |                            |  |

None of the subsidiaries has issued any debt securities.

## **Table of Contents**

The Group's equity interests in its associates comprised an equity interest of 38.26%, amounting to RMB1,043.3 million, in Shanghai Chemical Industry Park Development Co., Ltd., a company incorporated in the PRC; and an equity interest of 20%, amounting to RMB1,497.7 million, in Shanghai Secco Petrochemical Company Limited, a company incorporated in the PRC. The principal business of Shanghai Chemical Industry Park Development Co., Ltd. includes planning, developing and operating the Chemical Industry Park in Shanghai, while the principal business of Shanghai Secco Petrochemical Company Limited is the production and distribution of petrochemicals.

In 2014, Shanghai Golden Conti Petrochemical Co. Ltd, a subsidiaries controlled by the Group, had an effect of more than 10% on the net profit of the Group. The increase in loss of the subsidiary is mainly attributable to the continuous decrease in the price of international liquefied gas, which led to a decrease in the selling price of the products.

### **3.2.G Major Suppliers and Customers**

The Group's top five suppliers in 2014 were China International United Petroleum & Chemical Co., Ltd., Sinochem Oil Co., Ltd., CNOOC-SINOPEC United International Trading Co., Ltd, Sinochem industries Co., Ltd., and Shanghai Secco Petrochemical Company Limited. Total procurement costs involving these suppliers, which amounted to RMB53,892.9 million, accounted for 78.88% of the total procurement costs of the Group during the year ended 31 December 2014. The procurement costs from the largest supplier amounted to RMB30,931.6 million, representing 45.27% of the total costs of purchases by the Group during the year ended 31 December 2014.

The Group's top five customers in 2014 were East China Branch of Sinopec Sales Company Limited, Sinopec Petrochemical Sales Company Limited, Jiaxing Petrochemical Company Limited, Sinopec Refinery Product Sales Company and Shanghai Chlor-alkali Chemical Co., Ltd. Total sales to these customers amounted to RMB62,005.1 million, representing 60.68% of the Group's total turnover during the year ended 31 December 2014. Sales to the Group's largest customer amounted to RMB51,404.1 million, representing 50.31% of the Group's total turnover during the year ended 31 December 2014.

To the knowledge of the Board, in relation to the suppliers and customers listed above, none of the Directors (or their associates) or shareholders of the Company had any interest in Sinochem Oil Co., Ltd., Sinochem industries Co., Ltd., Jiaxing Petrochemical Company Limited and Shanghai Chlor-alkali Chemical Co.,Ltd.

China International United Petroleum & Chemical Co. Ltd., East China Branch of Sinopec Sales Company Limited, Sinopec Petrochemical Sales Company Limited and Sinopec Refinery Product Sales Company are subsidiaries of China Petroleum & Chemical Corporation, the controlling shareholder of the Company. China International United Petroleum & Chemicals Co., Ltd owns a 40% equity interest in CNOOC-SINOPEC United International Trading Co., Ltd. China Petroleum & Chemical Corporation and the Company own 30% and 20% equity interests in Shanghai Secco Petrochemical Company Limited, respectively.

**4.1.B Operating Income****(1) Analysis of Changes in Operating Income**

The weighted average prices (VAT excluded) of the Group's synthetic fibres, resins, plastics, intermediate petrochemical products and petroleum products fell by 1.54%, 0.19%, 13.10% and 4.20% respectively. At the same time, sales growth saw a slight decrease in 2014 compared with the previous year, resulting in a lower operating income in 2014 compared with the previous year.

**(2) Major Customers**

Please refer to 3.2.G for details of major customers of the Group.

**Table of Contents****Report of the Directors** (continued)**4.1.C Operating Costs**

## (1) Analysis of Operating Costs

Operating costs of the Group amounted to RMB90.0469 billion in 2014, representing a decrease of 10.38% as compared with RMB100.477 billion in 2013, which was mainly due to a decrease in the price of raw materials and Group's sales volume.

The following table sets forth the details of the operating costs during the Reporting Period:

|                               | For the years ended 31 December |               | 2013                  |               | Change<br>(%) |

| Long-term borrowings                       | 1,632,680              | 5.24              | 627,800                | 1.70              | 160        | Long-term borrowings to improve cash flow due to the increased loss recorded in this Year                   |

**Table of Contents**

**5. Others**

**(1) Group's employees**

Please refer to Directors, Supervisors, senior management and employees for details of employees.

**(2) Purchase, Sale and Investment**

Save and except as disclosed in this annual report, there was no material purchase or sale of the Group's subsidiaries or associates or any other material investments in 2014.

**(3) Pledge of assets**

As at 31 December 2014, no fixed asset was pledged by the Group (31 December 2013: RMB Nil)

**6. Status of Holding Foreign Currency Financial Assets and Financial Liabilities**

As at 31 December 2014, the Group held foreign-currency denominated bank deposits and loans and borrowings, equivalent to RMB33,408,000 and RMB2,654,457,000, respectively.

**7. Analysis of core competitiveness**

As one of the largest integrated petrochemical enterprises in China with an integrated refinery and petrochemical capacity, the Company possesses competitive business scale and strength, which make it a major manufacturer of refined oil, intermediate petrochemical products, synthetic resins and synthetic fibers. It also has self-owned utilities and environmental protection systems, as well as sea transport, inland shipping, rail transport and road transport ancillary facilities.

The Company's major competitive advantages include quality, brand name, geographical location and its vertically integrated production. The Company has over 40 years of petrochemical production and management experience, and has accumulated extensive resources in the petrochemical industry, which has garnered multiple quality product awards from the central and local governments. Located at the core region of Yangtze River Delta, the most economically active region in China with a strong demand for petrochemical products, the Company built a comprehensive logistics system and supporting facilities to tap its geographic proximity with most of its clients and the convenient coastal and inland shipping. This gave it a competitive edge in terms of transportation costs and timely delivery. The Company has leveraged its advantages in integrated refinery and petrochemical capacity to actively strengthen product structure, while continuously improving products quality and variety. It has also improved production technology and boosted capacity of key upstream equipment to maximize the use of its corporate resources, and is therefore able to achieve strong and sustainable development.

**8.2 Analysis of Performance and Results of the Companies in Which the Company Has Controlling Interests or Investment Interests during the Reporting**

Period Please refer to 3.2.F Analysis of Performance and Results of the Companies in Which the Company Has Controlling Interests or Investment Interests during the Reporting Period in this section for details.

**8.3 Major Projects from Non-raised Capital**

In 2014, the capital expenditure of the Group amounted to RMB1,089 million, representing a decrease of 17.31% compared with RMB1,317 million in 2013. Major projects include the following:

**Project**

|  | <b>Total project investment<br/>in RMB million</b> | <b>Project progress<br/>as at<br/>31 December 2014</b> |
|--|--|--|
| Diesel quality up-grading on 3# Diesel Hydrogenation plant                         | 75   | Completed  |
| Denitration & Dedusting Project for 1#&2# Furnaces of the Thermal Power Division   | 108  | Completed  |
| Second phase Project for advanced treatment and recycling of discharge waste water | 117  | Completed  |
| The EVA Project with a capacity of 100,000 tons/year                               | 1,132  | Preliminary  |

The Group's capital expenditure for 2015 is estimated at approximately RMB1,600.0 million.

**Table of Contents**

**9. Company Outlook on Future Development (Business Prospects)**

**9.1 Development trends and market competition in the industry**

The global economy will remain volatile following the financial crisis as the generally weak rebound is expected to largely continue in 2015. Amid the reindustrialization of the US economy, which is hoped to stimulate the economy and in turn improve the world's economy, the exit of QE monetary policy of the US will impose pressure on emerging markets. Against the adversities in the global economy resulting from high level of debt in developed countries and slowing of potential growth in major economies, the enhanced efforts in economic structural adjustment by emerging economies will promote economic development.

China's economic development faces uncertainties in the recovery of the global economy. While the steady economic growth is driven by the country's general conditions and reform policy, factors such as difficulties in boosting domestic and foreign demand significantly, as well as sharp structural contradictions, will hamper and constrain economic growth. As such, there remains multiple challenges in maintaining steady economic growth.

Ample supply is expected in the international crude oil market. In the meantime, demand for crude oil will be suppressed by the pessimistic outlook for global economic growth. As long as the supply of crude oil remains abundant, the fundamentals will continue to subdue the price of crude oil. Looking ahead to 2015, it is expected that the price of crude oil will fluctuate at a low level.

In this context, the domestic petroleum and petrochemical markets will face a tougher external business environment with market competition intensifying due to the slowdown in market demand, over capacity of refineries in the country and impact from imported petrochemical products. Stricter regulations in relation to environment and resources brought greater challenges to business operations and development.

**9.2 Company Development Strategies**

The Company has been focusing on its goal of establishing a refining and petrochemical enterprise which is "Take the lead in China, Be the First-class in the world". Taking into account the development status and trend of the global petrochemical industry, as well as the development trend of domestic, especially East China region, oil and chemical products market, we define our development strategy as follows: giving consideration to both cost-leadership and differentiation, paying equal attention to scale and specialty, laying special emphasis on cost-leadership and scale in the plants of up-stream, and high value-added and refined product in the plants of down stream. The Company aimed to improve its competitiveness by leveraging its strengths in broad product chain, product diversification and geographical proximity to the market. In view of this development strategy, the Company adopted the development concept of "further expand refining business, take the lead in petrochemical industry, and be excellent in particular fine chemicals" in combining the resource optimization and development planning of enterprises in the Shanghai region, to further consolidate the three existing processing chains of refining, olefin and aromatic. The Company has also created a new development model of integrated refinery and petrochemical by using the concept of molecular refinery and molecular petrochemical to further boost its economic returns.

**Report of the Directors (continued)**

**9.3 Business plans for 2015**

Under the prolonged nature of the challenging production and operation environment, the Group will continue its efforts in safety and environmental protection. It will also maintain stable production and operations when focusing on industrial structure adjustment and improvement of products in 2015. The Group will further strengthen its internal management and endeavour to maximize economic benefits for sustainable growth.

To achieve its business objectives in 2015, the Group will work hard in the following areas:

(i) Further implement QHSE management

The Group will implement QHSE management in a comprehensive manner, prioritize the safety supervision in direct operating and further enhance the management and assessment system in relation to safety and environmental. Meanwhile, the Group is committed to green and low carbon operations, energy saving and emission reduction, as well as clean production. Hence, it will tighten control of waste water, waste solid and waste gas at the source, and maintain a 100% properly treatment ratio. In addition, it will strictly supervise and evaluate the performance of contractors to raise their awareness in enhancing HSE management. The Group upholds the quality standard of

*Making Every Drop Count* and promotes stronger oversight in every production procedure, thereby putting in place stringent controls on outgoing products.

(ii) Enhance management of production and operations

The Group will pursue more refined management of its production system and strictly comply with the reporting system in relation to major production events, with an aim to minimize non-scheduler short-term sudden production disruptions. It will also strengthen the management of production technology and increase supervision and evaluation of the progress in attaining technical and economic indicators. In addition, the Group will also strengthen its management of facilities operations and fully leverage the advantages of quantifying inspection and platform for processing malfunction and repair requests. Through its major efforts in HSE-based detection and rectification of potential hazards in facilities, the Group's management of facilities will be effectively improved.

(iii) Deepen the movement of potential, trapping by full process optimization and cost/expenditure reduction

The Group will continue to adopt cost-to-performance ratio as its primary basis for crude oil purchases by focusing on the selection of ideal sources of crude oil and cost control. When optimizing and adjusting the structure of refined oil, it will continue to enhance the proportion and output of high-grade refined oil products. With a view to promoting the structural adjustment of petrochemical products, the Group will adhere to the implementation of dynamic optimization by using the main product optimization model, strengthening the marginal contribution tracking for chemical plants and adjusting the load of plants in a timely manner. The Group will also step up its efforts in minimizing expenditure to further reduce finance expenses. In addition, the Group will continue to adhere to its strategy of optimizing its inventory level. It will ensure the safety and stability of production and business operations, while minimizing its exposure to operating risks. To reduce transportation costs, the Group will continue to improve and delineate its sales

area in a prudent manner.

## **Table of Contents**

### (iv) Foster transformation, scientific research and development and informatization

Riding on the development opportunities brought by the production base in the north coast of Hanzhou Bay, the Group will further adjust and optimize its refinery/petrochemical integration plan. The Group will proactively facilitate the integration of its refinery with petrochemical plane while swiftly commencing certain projects with relatively strong competitive edges when appropriate. While ramping up scientific research and development, the Group will also focus efforts on the implementation of key scientific research projects such as carbon fibre and needle coke project, while exploring external sales model for technical services to tap a new source of profit for the Company. The Group will proactively foster industrial and informatization integration, expand the application of APC system as well as facilitate the construction of informatization projects, including the comprehensive statistics information system.

### (v) Strive to enhance internal management

The Group will further optimize its corporate management systems and processes while fostering an integrated, procedural and informatization-driven organic combination. This will realize its transition from function-driven to operations-driven, and functional management to process management. On-site management will be escalated for production area and operation. The Group will continue to strengthen its management structure and steadily re-align management duties, while emphasizing professional and central management over meters. By downsizing its structure, excessive staff will be eliminated. The Group will improve its management of performance appraisal, and establish and strengthen its performance-oriented performance management system.

## **9.4 Risk exposure in the Company's future development**

### (i) The cyclical characteristics of the petroleum and petrochemicals market and price volatility in crude oil and petrochemical products may have an adverse impact on the Group's operations.

A large part of the Group's operating income is derived from the sales revenue of refined oil and petrochemical products. Historically, such products have been cyclical in nature and relatively sensitive to macroeconomic changes. In addition to regional and global economic conditions, productivity and output, prices and supply of raw materials, consumer demand and prices and supply of substitutes also have an effect. From time to time, these factors have a major impact on the prices of the Group's products in regional and global markets. Given the reduction of tariffs and other import restrictions as well as China's relaxed control over the distribution and pricing of products, many of the Group's products will increasingly be subject to the impact of the petrochemical cycle in regional and global markets. In addition, the prices of crude oil and petrochemical products will remain volatile, and uncertain. Higher crude oil prices and lower petrochemical products prices are likely to have an adverse impact on the Group's business, operating results and financial condition.

**Table of Contents**

**Report of the Directors (continued)**

- (ii) The Group may be exposed to risks associated with the procurement of imported crude oil and may not be able to pass on all increased costs due to rising crude oil price.

At present, the Group consumes a significant amount of crude oil for the production of petrochemical products. More than 90% of the crude oil required is imported. In recent years, crude oil prices have been subject to significant fluctuations due to a variety of factors, and the Group cannot rule out the possibility of any major unexpected event which may cause a suspension in crude oil supply. The Group has attempted to mitigate the effects of increased costs from rising crude oil prices by passing them on to customers, but the ability to do so is limited by market conditions, and government control over the pricing of refined oil products. Since there is a time-lag between increases in crude oil prices and increases in petrochemical product prices, higher costs cannot be totally offset by raising the selling prices. In addition, the State also imposes control over the distribution of some petroleum products within China. For instance, some of the Group's petroleum products are required to be sold to designated customers (such as subsidiaries of Sinopec Corp). Hence, when crude oil prices are high, the higher costs cannot be totally offset by raising the selling prices of the Group's petroleum products. This has created, and will continue to create, a significant impact on the Group's financial condition, operating results or cash flow.

- (iii) Substantial capital expenditures and financing requirements are required for the Group's development plans, presenting a number of risks and uncertainties.

The petrochemical industry is a capital-intensive industry. The Group's ability to maintain and raise income, net income and cash flows is closely connected with ongoing capital expenditures. The Group's estimated capital expenditures is estimated to amount to approximately RMB1,600 million in 2015, which will be met by financing activities and by internal funding. The Group's real capital expenditures may vary significantly due to the Group's ability to generate sufficient cash flow from operations, investments and other factors that are beyond its control. Furthermore, there is no assurance as to the completion, cost or success of the Group's capital projects.

The Group's ability to secure external financing in the future is subject to a number of uncertainties which include the Company's operating results, financial condition and cash flow in the future; China's economic conditions and the market conditions for the Group's products; financing costs and conditions of the financial market, and availability of government approval documents, as well as other risks associated with the development of infrastructure projects in China and so forth. The Group's failure to secure sufficient financing required for its operations or development plans may have an adverse impact on the Group's business, operating results and financial condition.

**Table of Contents**

- (iv) The Group's business operations may be affected by existing or future environmental protection regulations.

The Group is governed by a number of environmental protection laws and regulations in China. Waste products (waste water, waste gas and waste residue) are generated during the Group's production operations. Currently the Group's operations fully comply with all applicable Chinese environmental protection laws and regulations. However, the Chinese government has already enforced and may further enforce stricter environmental standards, and the Group cannot assure that the central or local governments will not issue more regulations or enforce certain stricter regulations which may cause the Group to incur additional expenses on environmental protection measures.

- (v) Changes in the monetary policy and fluctuations in the value of Renminbi may have an adverse impact on the Group's business and operating results.

The exchange rate of the Renminbi against the US Dollar and other foreign currencies may fluctuate and is subject to alterations due to changes on the Chinese political and economic scenes. In July 2005, the PRC government overhauled its policy of pegging the value of the Renminbi to the US dollar by permitting the Renminbi to fluctuate within a certain band against a basket of certain foreign currencies. Since the adoption of this new policy, the value of the Renminbi against the US dollar has fluctuated daily. In addition, the Chinese government has been under international pressure to further ease its exchange rate policy, and may as a result further change its currency policy. A small portion of our cash and cash equivalents is denominated in foreign currencies, including the US dollar. Any increase in the value of Renminbi against other currencies, including the US dollar, may decrease the Renminbi value of our cash and cash equivalents that are denominated in foreign currencies. On the other hand, most of our revenue is denominated in Renminbi, but a major part of our procurement of crude oil, certain equipment and certain debt repayments are denominated in foreign currencies. Any devaluation of Renminbi in the future will increase our costs and jeopardize profitability. Any devaluation of Renminbi may also have an adverse impact on the value of dividends payable in foreign currencies by the Group for H shares and American Depository Shares.

- (vi) Connected transactions may have an adverse impact on the Group's business and economic efficiency.

The Group will, from time to time, continue to conduct transactions with the Group's controlling shareholder Sinopec Corp, as well as other connected parties (subsidiaries or associates). These connected transactions include: provision of raw materials purchases, the agency sale of petrochemical products, construction, installation and engineering design services, petrochemical industry insurance services and financial services; and the Group's sale of petroleum and petrochemical products to Sinopec Corp. and its connected parties. These connected transactions and services conducted by the Group are carried out under normal commercial terms and in accordance with the relevant agreements. However, if Sinopec Corp. and Sinopec Group refuse to conduct such transactions or revise the agreements between the Group and itself in a manner unfavorable to the Group, the Group's business and business efficiency will be adversely impacted. Furthermore, Sinopec Corp. has an interest in certain sectors that are directly or indirectly competing with or which may compete with the Group's business. Since Sinopec Corp. is the controlling shareholder of the Group and its own interests may conflict with those of the Group, it may act for its own benefit regardless of the Group's interests.

**Table of Contents**

**Report of the Directors (continued)**

(vii) Risks associated with control by the majority shareholder.

Sinopec Corp., the controlling shareholder of the Company, owns 5,460,000,000 shares of the Company, which represents 50.56% of the total number of shares of the Company and gives it an absolute controlling position. Sinopec Corp. may, by using its controlling position, exercise influence over the Group's production operations, funds allocations, appointment or removal of senior staff and so forth, thereby adversely impacting the Group's production operations as well as minority shareholders' interests.

**Plan for Profit Appropriation or Capital Reserve Capitalization**

**1. Disclosure of the Cash Dividend Policy and its Stipulation, Implementation or Amendment**

In 2013, the Company made amendments to its cash dividend policy in the Articles of Association. The proposed amendments to the Articles of Association and its appendices were considered and approved at the 2013 Second Extraordinary General Meeting held on 11 December 2013 and approved by the State-owned Assets Supervision and Administration Commission of the State Council on 26 January 2014. According to Article 205 of the amended Articles of Association:

- (i) The Company should place emphasis on delivering reasonable returns on investments to the investors. The Company shall pay due attention to the opinions of minority shareholders through various channels when allocating its profits. The profits distribution policy of the Company shall be durative and stable, taking into account the long-term interests of the Company, the overall interests of all shareholders and the Company's sustainable development.

- (ii) The Company may distribute dividends in the following forms: cash, shares or other forms approved by laws, administrative rules, regulations of competent authorities and regulatory provisions in the place where the Company's shares are listed. The Company shall give priority to the distribution of dividends in cash. The Company may distribute interim dividends.

---

**Table of Contents**

- (iii) The Company shall distribute cash dividends when the parent company's net profit and retained earnings, in separate financial statement, are positive and the Company has adequate cash flow for normal operations and sustainable development. The Company should pay dividends in cash. The total cumulative cash dividend for the most recent three years should not be less than thirty (30) percent of the total distributable profit of the Company for the most recent three years.
- (iv) The Company may adjust its profits distribution policy referred to in sub-paragraphs (2) and (3) of this Article in case of war, natural disasters or other force majeure events, or where changes to the external environment of the Company result in material impact on the production and operations of the Company, where there are significant changes in the Company's own operations or financial conditions, or where the Company's board of directors considers it necessary. Independent directors shall issue independent opinions on the adjustment of the profits distribution policy whilst the board of directors shall discuss the rationale of such adjustment in detail, and form a resolution which shall be submitted to a shareholders meeting for approval by special resolution. The convening of the shareholders meeting shall comply with regulatory provisions in the place where the Company's shares are listed.
- (v) The management of the Company shall formulate the annual profits distribution plan and submit such a plan to the board of directors for consideration. Independent directors shall issue independent opinions on such a plan and the board of directors shall form a resolution which shall be submitted for approval by shareholders meeting. If the conditions for the distribution of cash dividends have been satisfied and the Company does not propose a cash dividends distribution plan or does not propose such a plan in compliance with sub-paragraph (3) of this Article, independent directors shall issue independent opinions whilst the board of directors shall give a specific explanation regarding such an arrangement and form a resolution which shall be submitted to shareholders meeting for approval and make relevant disclosures. The plan for half-yearly dividend distribution of the Company shall comply with Article 213 of the Articles of Association.

**2. Plan for Profit Appropriation or Capital Reserves Capitalization for the Reporting Period**

In 2014, net loss attributable to equity shareholders of the Company amounted to RMB716.427 million under CAS (net loss of RMB 692.222 million under IFRS). The Board proposed not to distribute dividend or capitalize capital reserves.

**3. The Group should disclose detailed reasons and the usage of the undistributed profits and plan when the Company records profits and the undistributed profits is positive without proposing a cash dividend distribution plan.**

Not applicable.

Shareholders Class Meeting for 2014 were convened. Share Option Incentive Scheme (Draft) and relevant resolutions of the Company were considered and passed. uploaded to the websites of Shanghai Stock Exchange, The Stock Exchange of Hong Kong and the Company.

---

**Table of Contents****Major Events** (continued)**2. Introduction to the Share Option Incentive Scheme**

On 15 August 2014, the Share Option Incentive Scheme and the related proposals were reviewed and adopted at the Second Meeting of the Eighth Session of the board of directors of the Company. The Company's Independent Non-executive Directors expressed their independent opinions on the Share Option Incentive Scheme (Draft) of the Company, and Beijing Haiwen & Partners issued a legal opinion on the aforesaid proposals. The Supervisory Committee convened the Second Meeting of the Eighth Session on the same day to review the aforesaid proposals and verified the list of participants set out in the Share Option Incentive Scheme (Draft). After that, Share Option Incentive Scheme (Draft) of the Company was approved by the SASAC by approval document (Guo Zi Fen Pei No. [2014]1006), and was put on record CSRC without dissent. On 23 December 2014, the Company convened the 2014 First General Meeting and the 2014 First A Shareholders Class Meeting through a combination of on-site voting, online voting (applicable to A shareholders) and solicitation of votes by Independent Non-executive Directors, and convened the 2014 First H Shareholders Class Meeting through a combination of on-site voting and solicitation of votes by Independent Non-executive Directors. At the above meetings, Share Option Incentive Scheme (Draft) and its related proposals were reviewed and approved. The Share Option Incentive Scheme of the Company officially became effective.

**Summary of Share Option Incentive Scheme**

## a. Purpose of the Scheme

The Purpose of the Share Option Scheme is to: Further establish and improve its operational mechanism; establish and improve its incentive mechanism for members of the senior management; advocate the concept of sustainable development jointly achieved by the Company, its management team and key personnel; effectively incentivise its management team and key personnel; attract and retain talents; enhance its competitive position in the industry and its core competitiveness and ensure the realisation of its development strategy and operational objectives.

## b. Scope of Participants Eligible Participants

The eligible participants shall include the Directors, senior management members and key business personnel of the Company. The Participants of the proposed initial Grant under the Scheme shall include: i. Directors and senior management members; and ii. key business personnel holding core positions. Such aforesaid Participants of the proposed initial Grant shall exclude independent non-executive Directors, supervisors and Directors who do not concurrently hold senior management positions in the Company, substantial shareholders holding more than 5% of the Shares and the de facto controllers of the Company, together with their respective spouses and immediate family members.

**Table of Contents**

- c. Total number of shares to be granted and percentage of the total share capital

Under the Share Option Scheme, the total number of Underlying Shares to be granted shall neither exceed 10% of the total share capital of the Company (10,800 million shares) nor exceed 10% of the total A-share capital of the Company (7,305 million shares). Under the proposed initial Grant, the number of Share Options to be granted by the Company to the Participants shall be no more than 41,030,000, with the corresponding Underlying Shares representing 0.38% of the total share capital of the Company (10,800 million shares).

- d. Maximum Entitlement of each participant

Unless approved by the Shareholders as a special resolution at a general meeting of the Company, the aggregate number of A Shares to be acquired by each Grantee through the Share Option Scheme and other effective share option schemes of the Company (if any) at any time shall not exceed 1% of the total A-share capital of the Company. The number of Share Options to be granted to each Participant was determined on the basis that the estimated benefit upon exercise of the Share Options will not exceed 30% of his/her total emolument level (including the estimated benefit upon exercise of the Share Options) at the Grant Date.

- e. Validity Period

The exercisable period for the share options shall be three years, commencing from the expiry of the two-year period after the grant date. Please refer to the following table for the details of the arrangement for the the Share Option Scheme:

| Stage                              | Arrangement  | Exercise Ratio Cap |
|------------------------------------|--|--------------------|
| Grant Date                         | determined by the board of directors upon fulfillment of the conditions for grant under the Share Option Incentive Scheme  |                    |
| 1 <sup>st</sup> Exercisable Period | commencing on the first trading day after the expiry of the 24-month period following the grant date and ending on the last trading day preceding the expiry of the 36-month period following the grant date | 40%                |
| 2 <sup>nd</sup> Exercisable Period | commencing on the first trading day after the expiry of the 36-month period following the grant date and ending on the last trading day preceding the expiry of the 48-month period following the grant date | 30%                |

|                                    |   |     |
|------------------------------------|---|-----|
| 3 <sup>rd</sup> Exercisable Period | commencing on the first trading day<br>after the expiry of the 48-month period<br>following the grant date and ending on<br>the last trading day preceding the<br>expiry of the 60-month period<br>following the grant date | 30% |
|------------------------------------|---|-----|

If a Participant is also a Director or member of senior management of the Company, at least 20% of the total Options granted to him/her shall not be exercisable until such Participant passes the appraisal during his/her term of office.

**Table of Contents**

**Major Events** (continued)

f. Vesting Period

The vesting period for each Grant under the Scheme shall be no less than two years.

g. Requirement of fund to apply or accept stock option (if applicable) and allotted time of payment or notice of payment or allotted time of credit payment for application of stock options

N/A

h. Exercise Price

(1) The Exercise Price under the initial Grant

The Exercise Price under the initial Grant shall not be lower than the highest of the followings:

- I. the closing price of the A shares of the Company on the trading day immediately before the date of announcement on the summary of the draft Scheme, which was RMB3.29 per share;
- II. the average closing price of the A shares of the Company for the 30 trading days immediately before the date of announcement on the summary of the draft Scheme, which was RMB3.27 per share; and
- III. RMB4.20 per share. In June 2013, the Sinopec Corp. undertook in the Company's equity division reform plan that it would propose to the Board a share option scheme which complies with the relevant systems of the SASAC and the CSRC, with an initial Exercise Price of the Share Options no lower than RMB6.43 per share (if there is occurrence of any ex-dividend event before the release of the draft share option scheme, the price shall be adjusted accordingly). As the Company carried out its 2013 half-year cash dividend plan, capitalisation of capital funds and surplus reserves plan in December 2013, and 2013 annual cash dividend plan in July 2014, the aforesaid initial Exercise Price of the Share Options, i.e. no less than RMB6.43 per share, is adjusted into RMB4.20 per share.

Accordingly, the Exercise Price under the initial Grant shall not be lower than RMB4.20 per share.

(2) The Exercise Price under Further Grant

The Exercise Price under each proposed Grant (other than the initial Grant) shall be the higher of the followings:

- I. the closing price of the A shares of the Company on the trading day immediately before the date of announcement on the summary of the draft proposal for each Grant; and

**Table of Contents**

II. the average closing price of the A shares of the Company for the 30 trading days immediately before the date of announcement on the summary of the draft proposal for each Grant. The Shareholders' general meeting shall authorise the Board to determine the Exercise Price under each of the further Grants in accordance with the Share Option Scheme.

i. Expiry date

The expiry date of the scheme is 22 December 2024.

**(6) Major connected transactions of the Company during the Reporting Period**

1. Connected Transactions in Relation to Daily Operations

During the Reporting Period, pursuant to the Mutual Product Supply and Sales Services Framework Agreement entered into with the controlling shareholder of the Company, Sinopec Corp., and the actual controller, Sinopec Group the Company purchased raw materials from, sold petroleum products and petrochemicals and leased properties to Sinopec Group, Sinopec Corp. and their associates. Sinopec Corp. and its associates provided agency sales services for petrochemical products. Pursuant to the Comprehensive Services Framework Agreement entered into with the company's actual controller Sinopec Group, the Company obtained construction and installation, project design, petrochemical industry insurance and financial services provided by Sinopec Group and its associates. The abovementioned transactions under the Mutual Product Supply and Sales Services Framework Agreement and the Comprehensive Services Framework Agreement constituted continuing connected transactions under Chapter 14A of the Hong Kong Listing Rules and constituted ongoing connected transactions under the Shanghai Listing Rules. The Company disclosed the two agreements and the respective connected transactions under the agreements in an announcement dated 25 October 2013 and a circular dated 1 November 2013. These two agreements and the respective connected transactions under the agreements together with the associated annual caps from 2014 to 2016 were considered and approved at the Second Extraordinary General Meeting for 2013 held on 11 December 2013.

During the Reporting Period, the relevant connected transactions were conducted in accordance with the terms of the Mutual Product Supply and Services Framework Agreement and the Comprehensive Services Framework Agreement. The transaction amounts of the relevant connected transactions did not exceed the caps in relation to the continuing connected transactions approved at the Second Extraordinary General Meeting for 2013.

The prices of the continuing connected transactions conducted by the Company with Sinopec Group, Sinopec Corp. and their associates were determined, upon negotiations between both parties, on the basis of (i) state tariffs, (ii) state guidance prices; or (iii) market prices. Such connected transactions were entered into in line with the Company's production and operational needs. Accordingly, the aforementioned connected transactions did not have a significant adverse impact on the Company's independence.

**Major Events** (continued)

**(7) Material contracts and the performing of obligations**

1. Trust, sub-contract and lease arrangements

The Company had no trusts, sub-contracts or lease arrangements that produced 10% or more (including 10%) of the profit of the Company for the Reporting Period.

2. Guarantees

There were no guarantees provided by the Company during the year.

3. Other material contracts

There were no other material contracts during the year.

**(8) Performance of undertakings**

The Company disclosed The Explanatory Memorandum for the Share Reform Proposal of the Company (the Revised Draft) on 20 June 2013, in which the Company's controlling shareholder Sinopec Corp. has undertaken that:

1. Sinopec Corp. shall not, within 12 months from the date on which its non-circulating shares of Company acquire the right to circulate in the market (meaning the first trading day after the implementation of the A-share reform proposal), deal in or transfer such shares through the stock exchanges. Also, after the expiration of the aforesaid undertaking, the amount of existing non-circulating shares to be disposed by Sinopec Corp through trading on the stock exchange shall not represent more than 5% of the total amount of shares held by Sinopec Corp. within the next 12 months, and not more than 10% within the next 24 months.
2. Sinopec Corp. shall, within 12 months from the date on which its non-circulating shares of Company acquire the right to circulate in the market (meaning the first trading day after the implementation of the A-share reform proposal), submit a stock option incentive scheme to the Board that complies with the relevant rules of the SASAC and the China Securities Regulatory Commission, under which the initial exercise price for the stock options under the scheme shall not be lower than the closing price of the Company's shares on 30 May 2013 (being RMB6.43 per share) (in case of ex-rights or ex-dividends prior to the announcement of the draft of the stock option incentive scheme, the exercise price of the options shall be adjusted accordingly).

**Table of Contents**

3. Sinopec Corp. shall continue to support the subsequent development of the Company upon the completion of the A-share reform scheme, and shall use this as a platform for the development of related businesses in future.

For details, please refer to The Explanatory Memorandum for the Share Reform Proposal of the Company (the Revised Draft)(Full Version) published in the Shanghai Securities News and China Securities Journal, and the relevant announcements uploaded to the websites of the Shanghai Stock Exchange, the Hong Kong Stock Exchange and the Company on 20 June 2013.

The Reform Scheme was approved at the relevant shareholders meeting in the A-share market held on 8 July 2013. After the implementation of the proposal on 20 August 2013, the Company's A shares resumed trading, and non-circulating shares previously held by non-circulating shares shareholders were obtained for circulation. For details on the implementation of Reform Scheme, please refer to The Implementation Report on Sinopec Shanghai Petrochemical Company Limited Share Reform Scheme published in the issues of Shanghai Securities News and China Securities Journal dated 14 August 2013 and uploaded on the websites of the Shanghai Stock Exchange and the Hong Kong Stock Exchange,

With regard to the second undertaking mentioned above, in accordance with the stock option incentive scheme submitted by Sinopec Corp. which complies with the relevant rules of SASAC and the CSRC, the Board of Directors of the company has held the second Meeting of the Eighth Session of the Board on 15 August 2014, at which the resolution on Stock Option Incentive Plan has been discussed and approved. The proposal was also considered and approved at the first A Shareholder Class Meeting for 2014, the first H Shareholder Class Meeting for 2014 and the first Extraordinary General Meeting for 2014 held on 23 December 2014.

With regard to the other two undertakings, the Company did not notice any conditions that violated the undertakings mentioned above or any unfulfilled matters during the required period.

**(10) Disciplinary actions upon the Company and its Directors, Supervisors, Senior Management, shareholders and controlling company of the controlling shareholder**

In 2014, the Company and its Directors, Supervisors, Senior Management, shareholders and controlling company of the controlling shareholder were not investigated, administratively punished or publicly criticized by the CSRC or publicly censured by the stock exchanges.

**Table of Contents****Major Events** (continued)**(11) Effect of the application of new accounting standards on consolidated financial statements**

In 2014, The Ministry of Finance issued CAS No. 39 - Fair value measurement, CAS No. 40 - Joint venture arrangements, CAS No. 41 - Disclosure of equity in other entity, revised CAS No. 2 - Long-term equity investment, CAS No. 9 - Employee benefits, CAS No. 30 - Financial statement presentation, CAS No. 33 - Consolidated financial statements and CAS No. 37 - Financial instrument presentation in 2014. These new and amended standards are required to implement on 1 July 2014 except that CAS No. 37 - Financial instrument presentation is required to implement in the financial statements for the year ended 31 December 2014.

The Group has decided to adopt these standards in preparing the financial statements for the year ended 31 December 2014.

Except CAS No. 30 - Financial statement presentation and CAS No. 41 - Disclosure of equity in other entity, other amendments on the standards do not have significant impact on the financial statement of the Group.

| Details and reasons for changes   | Affected items in statements and affected amounts                    |
|---|--|
| Several items in the financial statement have been listed and reported according to the above accounting standards. The comparative figures are adjusted accordingly. | Please refer to the next table for the details                       |
| The information disclosure related to the Group's equity in other entity has been adjusted in accordance with CAS No. 41 - Disclosure of equity in other entity.      | Please refer to Note 6 of the financial statement prepared under CAS |
| As of 31 December 2013, items in statements and the related amounts affected by the first change in the accounting standards mentioned above include:                 |  |

|                               | Before restatement | After restatement |
|-------------------------------|--------------------|-------------------|
| Deferred revenue              |                    | 180,000           |
| Other non-current liabilities | 180,000            |                   |

**Effect of other changes in the standards**

Effect of other changes in the standards is set out in note 2(30) to the financial statements prepared under CAS.

**(12) Tax rate**

The charge for PRC income tax is currently calculated at the rate of 25% (2013:25%).

**(13) Deposits**

The Company did not have any entrusted deposits during the Reporting Period. As at 31 December 2014, the Group did not have any due deposits which could not be collected upon maturity.

**Table of Contents**

**(14) The execution of the 2013 Profit Appropriation Plan**

The 2013 Annual General Meeting held on 18 June 2014 has considered and approved the scheme for profit appropriation in 2013. Based on the total capital of 10,800,000,000 shares as of 31 December 2013, distributing annual dividend of RMB0.50 (VAT included) for every 10 shares. The respective announcement was published on Shanghai Securities News , China Securities Journal , and Securities Times on 19 June 2014, and was uploaded on the websites of Hong Kong Stock Exchange website, Shanghai Stock Exchange, and the Company. The Company also published an announcement 11 July 2014 regarding its profit distribution. The date of record and ex-dividend date for A-shares were 17 July 2014 and 18 July 2014 respectively. The dividend payment date for public shares of both A-shares and H-shares was 18 July 2014. The profit distribution proposal was implemented as planned.

**(15) Reserve**

Details of changes in reserves are set out in note 23 to the financial statements prepared under IFRS.

**(16) Financial summary**

A summary of the results, total assets, liabilities and shareholders' equity of the Group as at 31 December 2014 are set out on page 6 of this annual report.

**(17) Bank loans and other borrowings**

Details of bank loans and other borrowings of the Company and the Group as at 31 December 2014 are set out in note 24 to the financial statements prepared under IFRS.

**(18) Interest capitalised**

Details of interest capitalized during the year are set out in note 8 to the financial statements prepared under IFRS.

**(19) Property, plant and equipment**

Changes in property, plant and equipment during the year are set out in note 14 to the financial statements prepared under IFRS.

**(20) Purchase, sale and redemption of shares**

There were no purchases, sales or redemptions made by the Group during the Reporting Period.

**(21) Pre-emptive rights**

According to the Articles of Association and the laws of the PRC, there is no pre-emptive right which requires the Company to offer new shares to existing shareholders of the Company in proportion to their shareholding.

**(22) Other important events**

There were no other important events during the Reporting Period.

**Table of Contents**

**Report of the International Auditor**

**Independent Auditor's Report**

**To the Shareholders of Sinopec Shanghai Petrochemical Company Limited**

*(incorporated in the People's Republic of China with limited liability)*

We have audited the consolidated financial statements of Sinopec Shanghai Petrochemical Company Limited (the Company) and its subsidiaries (together, the Group) set out on pages [3] to [75], which comprise the consolidated and company balance sheets as at 31 December 2014, and the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

**Directors' Responsibility for the Consolidated Financial Statements**

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with International Financial Reporting Standards and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Notes to the Consolidated Financial Statement**

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**1 General information**

Sinopec Shanghai Petrochemical Company Limited ( the Company ), formerly Shanghai Petrochemical Company Limited, was established in the People's Republic of China ( the PRC ) on 29 June 1993 as a joint stock limited company to hold the assets and liabilities of the production divisions and certain other units of Shanghai Petrochemical Complex ( SPC ), a state-owned enterprise. The Company was under the direct supervision of China Petrochemical Corporation ( Sinopec Group ) at that time.

Sinopec Group completed its reorganisation on 25 February 2000. After the reorganisation, China Petroleum & Chemical Corporation ( Sinopec Corp. ) was established. As part of the reorganisation, Sinopec Group transferred its 4,000,000,000 of the Company's state-owned legal shares, which represented 55.56 percent of the issued share capital of the Company, to Sinopec Corp.

The Company changed its name to Sinopec Shanghai Petrochemical Company Limited on 12 October 2000, and Sinopec Corp. was the largest shareholder of the Company.

Pursuant to the Approval on matters relating to the Share Segregation Reform of Sinopec Shanghai Petrochemical Company Limited issued by the State-owned Assets Supervision and Administration Commission of the State Council (State Owned Property [2013] No.443), a General Meeting of A share shareholders was held on 8 July 2013 and passed the resolution of Share Segregation Reform of Sinopec Shanghai Petrochemical Company Limited (Amendment) ( the Share Segregation Reform Resolution ) which was published by the Company on Shanghai Stock Exchange ( SSE ) website on 20 June 2013.

According to the Share Segregation Reform Resolution, the controlling shareholder of the Company, Sinopec Corp., offered shareholders of circulating A shares 5 shares for every 10 circulating A shares they held on 16 August 2013, aggregating 360,000,000 A shares, for the purpose of obtaining the listing rights of its non-circulating shares in the A Shares market. From 20 August 2013 ( the circulation date ), all the Company's non-circulating A shares have been granted circulating rights on Shanghai Stock Exchange ( SSE ). As part of the restricted conditions, Sinopec Corp. committed that all the 3,640,000,000 A shares held were not allowed to be traded on SSE or transferred within 12 months from the circulation date ( the restriction period ). After the restriction period, Sinopec Corp. can only sell no more than 5 and 10 percent of its total shares within 12 and 24 months, respectively. The former 150,000,000 non-circulating A shares held by social legal persons were also prohibited to be traded on SSE or transferred within 12 months from the circulation date. Meanwhile, Sinopec Corp. also committed in the Share Segregation Reform Resolution that a scheme of converting surplus to share capital (no less than 4 shares for every 10 shares) will be proposed on the board of directors and shareholders meetings within 6 months after the circulation date.

The 15th meeting of the 7th term of Board of Directors was held on 28 August 2013 and the Company proposed and passed a resolution regarding interim cash dividend for the first half of 2013 and the conversion of share premium and surplus reserve to share capital. The resolution included a distribution of 5 shares and a cash dividend distribution of RMB 0.5 (tax included) for every 10 shares based on the 7,200,000 thousands ordinary shares as at 30 June 2013. Among the 5 shares distributed, 3.36 shares were converted from share premium of RMB 2,420,841 thousands and

1.64 shares were converted from surplus reserves of RMB 1,179,159 thousands. The resolution were approved by the extraordinary general meeting of shareholders, A share class shareholders meeting and H class shareholders meeting on 22 Oct 2013, respectively.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**1 General information** *(continued)*

The Company and its subsidiaries ( the Group ) are principally engaged in processing crude oil into synthetic fibres, resins and plastics, intermediate petrochemicals and petroleum products.

These consolidated financial statements are presented in thousands of Renminbi Yuan (RMB), unless otherwise stated. These financial statements have been approved for issue by the Board of Directors on 20 March 2015.

**2 Summary of significant accounting policies**

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

**2.1 Basis of preparation**

The consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by International Accounting Standards Board (IASB). The consolidated financial statements have been prepared under the historical cost convention.

The consolidated financial statements are prepared in accordance with the applicable requirements of the predecessor Companies Ordinance (Cap. 32) for this financial year and the comparative period.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4.

**2.1.1 Changes in accounting policy and disclosures**

(a) New standards, amendments and interpretations adopted by the Group

The following standards have been adopted by the Group for the first time for the financial year beginning on 1 January 2014. None of them have a material impact on the Group.

Amendment to IAS 32, Financial instruments: Presentation , on offsetting financial assets and financial liabilities;

Amendment to IAS 36, Impairment of assets , on recoverable amount disclosures for non-financial assets;

IFRIC 21, Levies , on obligation to pay a levy if that liability is within the scope of IAS 37 Provisions .

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** (continued)

**2.1 Basis of preparation** (continued)

**2.1.1 Changes in accounting policy and disclosures** (continued)

(b) New standards, amendments and interpretations not yet adopted

A number of new standards and amendments to standards and interpretations are effective for annual periods beginning after 1 January 2014, and have not been applied in preparing these consolidated financial statements. Those applicable to the Group are listed below and none of these is expected to have a significant effect on the consolidated financial statements of the Group.

IFRS 9, Financial instruments , on classification, measurement and recognition of financial assets and financial liabilities. The standard is effective for accounting periods beginning on or after 1 January 2018.

IFRS 15, Revenue from contracts with customers , on revenue recognition when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. The standard is effective for annual periods beginning on or after 1 January 2017.

(c) New Hong Kong Companies Ordinance (Cap.622)

In addition, the requirements of Part 9 Accounts and Audit of the new Hong Kong Companies Ordinance (Cap. 622) come into operation as from the Company's first financial year commencing on or after 3 March 2014 in accordance with section 358 of that Ordinance. Therefore, it has not been applied in preparing the Group's consolidated financial statements for the year ended 31 December 2014. The Group is in the process of making an assessment of expected impact of the changes in the Companies Ordinance on the consolidated financial statements in the period of initial application of Part 9 of the new Hong Kong Companies Ordinance (Cap. 622). So far it has concluded that the impact is unlikely to be significant and only the presentation and the disclosure of information in the consolidated financial statements will be affected.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** (continued)

**2.2 Subsidiaries**

**2.2.1 Consolidation**

A subsidiary is an entity (including a structured entity) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

(a) **Business combinations**

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis. Non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are measured at either fair value or the present ownership interests' proportionate share in the recognised amounts of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at their acquisition date fair value, unless another measurement basis is required by IFRS.

Acquisition-related costs are expensed as incurred.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date; any gains or losses arising from such re-measurement are recognized in profit or loss.

Any contingent consideration to be transferred by the Group is recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognized in accordance with IAS 39 either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** (continued)

**2.2 Subsidiaries** (continued)

**2.2.1 Consolidation** (continued)

(a) Business combinations (continued)

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired, is recorded as goodwill. If the total consideration transferred, non-controlling interest recognized and previously held interest remeasured is less than the fair value of the identifiable net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognized directly in the income statement.

Intra-Group transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

(b) Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions - that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying amount of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

(c) Disposal of subsidiaries

When the Group ceases to have control on an entity, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognized in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** (continued)

**2.2 Subsidiaries** (continued)

**2.2.2 Separate financial statements**

Investments in subsidiaries are accounted for at cost less impairment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

**2.3 Associates**

An associate is an entity over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss and other comprehensive income of the investee after the date of acquisition. The Group's investments in associates include goodwill identified on acquisition. Upon the acquisition of the ownership interest in an associate, any difference between the cost of the associate and the group's share of the net fair value of the associate's identifiable assets and liabilities is accounted for as goodwill.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognized in other comprehensive income is reclassified to profit or loss where appropriate.

The Group's share of post-acquisition profit or loss is recognized in the income statement, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** (continued)

**2.3 Associates** (continued)

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognizes the amount adjacent to share of profit of investments accounted for using equity method in the income statement.

Profits and losses resulting from upstream and downstream transactions between the Group and its associates are recognized in the Group's financial statements only to the extent of unrelated investor's interests in the associates. Unrealized losses are eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

**2.4 Joint arrangements**

Investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations each investor. The Group has assessed the nature of its joint arrangements and determined them to be joint ventures. Joint ventures are accounted for using the equity method.

Under the equity method of accounting, interests in joint ventures are initially recognized at cost and adjusted thereafter to recognize the Group's share of the post-acquisition profits or losses and movements in other comprehensive income. The Group's investments in joint ventures include goodwill identified on acquisition. Upon the acquisition of the ownership interest in a joint venture, any difference between the cost of the joint venture and the Group's share of the net fair value of the joint venture's identifiable assets and liabilities is accounted for as goodwill. When the Group's share of losses in a joint venture equals or exceeds its interests in the joint ventures (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint ventures), the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint ventures.

Unrealized gains on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interest in the joint ventures. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of the joint ventures have been changed where necessary to ensure consistency with the policies adopted by the Group.

## **2.5 Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the steering committee that makes strategic decisions.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** (continued)

**2.6 Foreign currency translation**

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The consolidated financial statements are presented in RMB, which is the company's functional and the Group's presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the income statement, except when deferred in other comprehensive income as qualifying cash flow hedges and qualifying net investment hedges.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the income statement within finance income or expenses. All other foreign exchange gains and losses are presented in the income statement within other operating income/(expenses).

**2.7 Property, plant and equipment**

Property, plant and equipment is stated at historical cost less depreciation and impairment losses.

Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Depreciation on property, plant and equipment is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

Edgar Filing: SINOPEC SHANGHAI PETROCHEMICAL CO LTD - Form 6-K

|                              |             |
|------------------------------|-------------|
| Buildings                    | 12-40 years |
| Plant and machinery          | 12-20 years |
| Vehicles and other equipment | 4-20 years  |

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** (continued)

**2.7 Property, plant and equipment** (continued)

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2.11).

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognized within "Other operating income/(expenses)" in the income statement.

**2.8 Construction in progress**

Construction in progress represents buildings, various plant and equipment under construction and pending installation, and is stated at cost less government grants that compensate the Company for the cost of construction, and impairment losses. Cost comprises direct costs of construction as well as interest charges, and foreign exchange differences on related borrowed funds to the extent that they are regarded as an adjustment to interest charges, during the period of construction. Construction in progress is transferred to property, plant and equipment when the asset is substantially ready for its intended use. No depreciation is provided in respect of construction in progress.

**2.9 Investment properties**

Investment properties are properties which are owned or held under a leasehold interest either to earn rental income and/or for capital appreciation.

Investment properties are stated in the balance sheet at cost less accumulated depreciation and impairment losses (Note 2.11). Depreciation is provided over their estimated useful lives on a straight-line basis, after taking into account their estimated residual values. Estimated useful life of the investment property is 30-40 years.

**2.10 Lease prepayments and other assets**

Lease prepayments and other assets mainly represent prepayments for land use rights and catalysts used in production. The assets are carried at cost less accumulated amortisation and impairment losses. Lease prepayments and other

assets are amortised on a straight-line basis over the respective periods of the rights and the estimated useful lives of the catalysts.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** (continued)

**2.11 Impairment of non-financial assets**

Intangible assets that have an indefinite useful life or intangible assets not ready to use are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

**2.12 Financial assets**

**2.12.1 Classification**

The Group classifies its financial assets in the following categories: financial assets at fair value through profit or loss, loans and receivables and available for sale. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

(a) **Financial assets at fair value through profit or loss**

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Derivatives are also categorised as held for trading unless they are designated as hedges. Assets in this category are classified as current assets if expected to be settled within 12 months; otherwise, they are classified as non-current.

(b) **Loans and receivables**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for the amounts that are settled or expected to be settled more than 12 months after the end of the reporting period. These are classified as non-current assets. The Group's loans and receivables comprise trade receivables, bills receivable and other receivables and cash and cash equivalents in the balance sheet (Note 2.16 and 2.17).

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** (continued)

**2.12 Financial assets** (continued)

**2.12.1 Classification** (continued)

(c) Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of it within 12 months of the end of the reporting period.

**2.12.2 Recognition and measurement**

Regular purchases and sales of financial assets are recognized on the trade-date - the date on which the Group commits to purchase or sell the asset. Investments are initially recognized at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognized at fair value, and transaction costs are expensed in the income statement. Financial assets are derecognized when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. Available-for-sale financial assets and financial assets at fair value through profit or loss are subsequently carried at fair value. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

Gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss category are presented in the income statement within Other operating income or expenses in the period in which they arise. Dividend income from financial assets at fair value through profit or loss is recognised in the income statement as part of other income when the Group's right to receive payments is established.

Changes in the fair value of monetary and non-monetary securities classified as available for sale are recognised in other comprehensive income.

When securities classified as available for sale are sold or impaired, the accumulated fair value adjustments recognized in equity are included in the income statement as gains and losses from investment securities.

Interest on available-for-sale securities calculated using the effective interest method is recognized in the income statement as part of other income. Dividends on available-for-sale equity instruments are recognized in the income statement as part of other income when the Group's right to receive payments is established.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** *(continued)*

**2.13 Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

**2.14 Impairment of financial assets**

(a) Assets carried at amortised cost

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a loss event) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the receivables or a group of receivables is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation, and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognized in the consolidated income statement. If a loan or held- to-maturity investment has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the reversal of the previously recognized impairment loss is recognized in the consolidated income statement.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** (continued)

**2.14 Impairment of financial assets** (continued)

(b) Financial assets classified as available for sale

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired.

For debt securities, if any such evidence exists the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss - is removed from equity and recognised in profit or loss. If, in a subsequent period, the fair value of a debt instrument classified as available for sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed through the consolidated income statement.

For equity investments, a significant or prolonged decline in the fair value of the security below its cost is also evidence that the assets are impaired. If any such evidence exists the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss - is removed from equity and recognised in profit or loss. Impairment losses recognised in the consolidated income statement on equity instruments are not reversed through the consolidated income statement.

**2.15 Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average cost method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity). It excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

**2.16 Trade receivables, bills receivable and other receivables**

Trade receivables and bills receivable are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection of trade receivables, bills receivable and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables, bills receivable and other receivables are recognized initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowance for impairment.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** *(continued)*

**2.17 Cash and cash equivalents**

In the consolidated statement of cash flows, cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. In the Group's balance sheet, bank overdrafts are shown within borrowings in current liabilities.

**2.18 Share capital**

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

**2.19 Safety production fund**

Under China's law and regulation, the Group is required to accrue safety production fund to a certain percentage of the sales of dangerous goods. The fund is earmarked for improving the safety of production. The fund is accrued from retained earnings to other reserves and converted back to retained earnings when used.

**2.20 Trade payables and other payables**

Trade payables and other payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables and other payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade payables and other payables are recognized initially at fair value and subsequently measured at amortised cost using the effective interest method.

**2.21 Borrowings**

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the income statement over the period of the borrowings using the effective interest method.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** (continued)

**2.21 Borrowings** (continued)

Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

**2.22 Borrowing costs**

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

**2.23 Current and deferred income tax**

The tax expense for the period comprises current and deferred tax. Tax is recognized in the income statement, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case the tax is also recognized in other comprehensive income or directly in equity, respectively.

(a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company's subsidiaries and joint ventures and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of

amounts expected to be paid to the tax authorities.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** (continued)

**2.23 Current and deferred income tax** (continued)

(b) Deferred income tax

Inside basis differences

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

Outside basis differences

Deferred income tax liabilities are provided on taxable temporary differences arising from investments in subsidiaries, associates and joint arrangements, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Generally the Group is unable to control the reversal of the temporary difference for associates. Only when there is an agreement in place that gives the Group the ability to control the reversal of the temporary difference not recognized.

Deferred income tax assets are recognized on deductible temporary differences arising from investments in subsidiaries, associates and joint arrangements only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference in the foreseeable future, deferred tax liability in relation to taxable temporary differences arising from the associate's undistributed profits is not recognised.

(c) Offsetting

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** (continued)

**2.24 Employee benefits**

(a) Pension obligations

The PRC employees of the Group are covered by various PRC government-sponsored defined-contribution pension plans under which the employees are entitled to a monthly pension based on certain formulas. The relevant government agencies are responsible for the pension liability to these employees when they retire. The Group contributes on a monthly basis to these pension plans for the employees which are determined at a certain percentage of their salaries. Under these plans, the Group has no obligation for post-retirement benefits beyond the contribution made. Contributions to these plans are expensed as incurred and contributions paid to the defined contribution pension plans for a staff are not available to reduce the Group's future obligations to such defined-contribution pension plans even if the staff leaves the Group.

(b) Termination benefits

Termination benefits are payable when employment is terminated by the Group before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group recognizes termination benefits at the earlier of the following dates: When Group demonstrably commits itself to terminate employment or to provide benefits as a result of voluntary redundancy by having a detailed formal plan which is without realistic possibility of withdrawal. Benefits falling due more than 12 months after the end of the reporting period are discounted to their present value.

**2.25 Provisions**

Provisions for environmental restoration, restructuring costs and legal claims are recognised when: the group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Restructuring provisions comprise lease termination penalties and employee termination payments. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the

obligation. The increase in the provision due to passage of time is recognized as interest expense.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** *(continued)*

**2.26 Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for goods supplied, stated net of discounts, returns and value added taxes. The Group recognizes revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity; and when specific criteria have been met for each of the Group's activities, as described below. The Group bases its estimates of return on historical results, taking into consideration the type of customers, the type of transactions and the specifics of each arrangement.

(a) Sales of petroleum and chemical products

Revenues associated with the sale of petroleum and chemical products are recognized in the income statement when the significant risks and rewards of ownership have been transferred to the buyer. Revenue excludes value added tax and is after deduction of any trade discounts and returns. No revenue is recognized if there are significant uncertainties regarding recovery of the consideration due to the possible return of goods, or when the amount of revenue and the costs incurred or to be incurred in respect of the transaction cannot be measured reliably.

(b) Pipeline transportation services

Revenues associated with pipeline transportation services are recognized by reference to the stage of completion (that is, when the services are rendered) of the transaction at the end of the reporting period and when the outcome of the transaction can be estimated reliably. The outcome of the transaction can be estimated reliably when the amount of revenue, the costs incurred and the stage of completion can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the Group.

(c) Rental income

Rental income from investment property is recognized in the income statement on a straight-line basis over the term of the lease.

**2.27 Interest income**

Interest income is recognized using the effective interest method. When a loan and receivable is impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original

effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loans and receivables is recognized using the original effective interest rate.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** (continued)

**2.28 Dividend income**

Dividend income is recognized when the right to receive payment is established.

**2.29 Government grants**

Government grants are recognized in the balance sheet initially when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them. Grants that compensate the Group for expenses incurred are recognized as revenue in the income statement on a systematic basis in the same periods in which the expenses are incurred. Grants that compensate the Group for the cost of an asset are deducted from the carrying amount of the asset and consequently are effectively recognized in the income statement over the useful life of the asset by way of reduced depreciation expense.

**2.30 Leases**

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight-line basis over the period of the lease.

**2.31 Dividend distribution**

Dividend distribution to the Company's shareholders is recognized as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's shareholders or directors, where appropriate.

**2.32 Research and development costs**

Research and development costs comprise all costs that are directly attributable to research and development activities or that can be allocated on a reasonable basis to such activities. Because of the nature of the Group's research and development activities, no development costs satisfy the criteria for the recognition of such costs as an asset. Both research and development costs are therefore recognised as expenses in the period in which they are incurred.

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**2 Summary of significant accounting policies** *(continued)*

**2.33 Related parties**

- (i) A person, or a close member of that person's family, is related to the Group if that person:
  - (1) has control or joint control over the Group;
  - (2) has significant influence over the Group; or
  - (3) is a member of the key management personnel of the Group or the Group's parent.
  
- (ii) An entity is related to the Group if any of the following conditions applies:
  - (1) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (2) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
  - (3) Both entities are joint ventures of the same third party.
  - (4) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - (5) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.

(6) The entity is controlled or jointly controlled by a person identified in (i).

(7) A person identified in (i)(1) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**3 Financial risk management**

**3.1 Financial risk factors**

The Group's activities exposed it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk and cash flow interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(a) Market risk

(i) Foreign exchange risk

The Group's major operational activities are carried out in Mainland China and a majority of the transactions are denominated in RMB. Nevertheless the Group is exposed to foreign exchange risk arising from the recognised assets and liabilities (mainly borrowings and trade payables), and future transactions denominated in foreign currencies, primarily with respect to USD and EUR. The Group's finance department at its headquarter is responsible for monitoring the amount of assets and liabilities, and transactions denominated in foreign currencies to minimise the foreign exchange risk.

As at 31 December 2014, if the foreign currencies had weakened/strengthened by 5% against RMB with all other variables held constant, the Group's net loss for the year would have been 107,395 thousands decreased/increased (2013: RMB 213,925 thousands increased/decreased in net profit) as a result of foreign exchange gains/losses which is mainly resulted from the translation of USD and EUR denominated short-term loans and trade payables.

(ii) Cash flow and fair value interest rate risk

The Group's interest rate risk arises from short-term and long-term interest bearing borrowings. Borrowings obtained at variable rates expose the Group to cash flow interest rate risk. Borrowings obtained at fixed rates expose the Group to fair value interest rate risk. The Group determines the relative proportions of its fixed rate and floating rate contracts depending on the prevailing market conditions. As at 31 December 2014, the Group's short-term and long-term interest bearing borrowings denominated with floating rates amounted to RMB 4,640,875 thousands (31 December 2013: RMB 7,721,826 thousands), which represented 81% of total borrowing balance.

The Group's finance department at its headquarter continuously monitors the interest rate position of the Group. Increases in interest rates will increase the cost of new borrowing and the interest expenses with respect to the Group's outstanding floating rate borrowings, and therefore could have a material adverse effect on the Group's financial

position. The Group makes adjustments timely with reference to the latest market conditions and may enter into interest rate swap agreements to mitigate its exposure to interest rate risk. During 2014 and 2013, the Group did not enter into any interest rate swap agreements.

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**3 Financial risk management** (continued)

**3.1 Financial risk factors** (continued)

(a) Market risk (continued)

(ii) Cash flow and fair value interest rate risk (continued)

As at 31 December 2014, if interest rates on the floating rate borrowings had risen/fallen by 50 basis points while all other variables had been held constant, the Group's net loss would have increased/decreased by approximately RMB 17,403 thousands (31 December 2013: RMB 28,957 thousands decreased/increased in net profit).

(b) Credit risk

Credit risk is managed on the grouping basis. It mainly arises from cash at bank, trade receivables, other receivables, bills receivable, etc.

The Group expects that there is no significant credit risk associated with cash at bank since they are deposited at state-owned banks and other medium or large size listed banks. Management does not expect that there will be any significant losses from non-performance by these counterparties.

In addition, the Group has policies to limit the credit exposure on accounts receivable, other receivables and bills receivable. The Group assesses the credit quality of and sets credit limits on its customers by taking into account their financial position, the availability of guarantee from third parties, their credit history and other factors such as current market conditions. The credit history of the customers is regularly monitored by the Group. In respect of customers with a poor credit history, the Group will use written payment reminders, or shorten or cancel credit periods, to ensure the overall credit risk of the Group is limited to a controllable extent.

(c) Liquidity risk

Cash flow forecasting is performed in the operating entities of the Group in and aggregated by Group finance. Group finance monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities from major financial institution so that the Company does not breach borrowing limits or covenants on any of its borrowing facilities to meet the short-term and long-term liquidity requirements.

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**3 Financial risk management** (continued)

**3.1 Financial risk factors** (continued)

(c) Liquidity risk (continued)

As at 31 December 2014, the Group's current liabilities exceeded its current assets by RMB 2,974,434 thousands. The liquidity of the Group is primarily dependent on its ability to maintain adequate cash inflow from operations, the renewal of its short-term bank loans and on its ability to obtain adequate external financing to support its working capital and meet its debt obligation when they become due. As at 31 December 2014, the Group had standby credit facilities with several PRC financial institutions which provided the Group to borrow up to RMB 28,696,100 thousands, within which the maturity dates of unused facility amounted to RMB 7,495,370 thousands will be after 31 December 2015 as disclosed in Note 24. Management assessed that all the facilities could be renewed upon the expiration dates. In addition, the Group had facilities up to RMB 138,210 thousands to issue letters of credit by pledging accounts receivables of RMB 76,111 thousands and bills receivables of RMB 80,669 thousands as disclosed in Note 20, of which RMB 10,983 thousands was unutilised.

Management has carried out a detailed review of the cash flow forecast of the Group for the twelve months ending 31 December 2015. Based on such forecast, management believes that adequate sources of liquidity exist to fund the Group's working capital and capital expenditure requirements, and meet its short-term debt obligations as they become due. In preparing the cash flow forecast, management has considered historical cash requirements of the Group as well as other key factors, including the availability of the above-mentioned banking facilities which may impact the operations of the Group during the next twelve-month period. Management is of the opinion that the assumptions used in the cash flow forecast are reasonable.

Surplus cash held by the operating entities over and above balance required for working capital management are transferred to the Group treasury. As at 31 December 2014, the Group held cash and cash equivalents of RMB 279,198 thousands (2013: RMB 133,256 thousands) (Note 21) and trade receivables of RMB 630,883 thousands (2013: RMB 147,807 thousands) (Note 20) that are expected to readily generate cash inflows for managing liquidity risk.

The table below analyses the Group's and the Company's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

## (d) Commodity price risk

The Group principally engages in processing crude oil into synthetic fibres, resins and plastics, intermediate petrochemicals and petroleum products. The selling price of petroleum products is periodically adjusted by government department based on the market price adjustment mechanism, and generally in connection with the crude oil price. The selling prices of synthetic fibres, resins and plastics and intermediate petrochemicals are market prices. The Group didn't have any derivative financial instrument such as commodity futures and swaps, therefore the fluctuation of crude oil price could have significant impact on the Group.

**Table of Contents****Notes to the Consolidated Financial Statement** (continued)

For the year ended 31 December 2014

(Prepared under International Financial Reporting Standards)

**3 Financial risk management** (continued)**3.2 Capital management**

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including current and non-current borrowings as shown in the consolidated balance sheet) less cash and cash equivalents. Total capital is calculated as equity as shown in the consolidated balance sheet plus net debt.

The gearing ratios at 31 December 2014 and 31 December 2013 were as follows:

|   | <b>As at 31 December</b> |                |
|---|--------------------------|----------------|
|   | <b>2014</b>              | <b>2013</b>    |
|   | <b>RMB 000</b>           | <b>RMB 000</b> |
| Total borrowings (Note 24)                | <b>5,710,875</b>         | 7,721,826      |
| Less: cash and cash equivalents (Note 21) | <b>(279,198)</b>         | (133,256)      |
| Net debt                                  | <b>5,431,677</b>         | 7,588,570      |
| Total Equity                              | <b>16,771,667</b>        | 17,991,556     |
| Total Capital                             | <b>22,203,344</b>        | 25,580,126     |
| <b>Gearing ratio</b>                      | <b>24.46%</b>            | 29.67%         |

The decrease in the gearing ratio during 2014 resulted primarily from early repayment for some bank loans before its maturity.

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**3 Financial risk management** *(continued)*

**3.3 Fair value estimation**

The Company analyses the financial instruments carried at fair value, as at 31 December 2014 by level of the inputs to valuation techniques used to measure fair value. Such inputs are categorised into three levels have been defined based on the fair value hierarchy as follows:

Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).

Inputs other than quoted prices included within level 1 that are observable for the asset or liability,

either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).

Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level3).

Financial assets and financial liabilities not measured at fair value mainly represent cash and cash equivalents, bills receivable, trade receivables and other receivables (except for the prepayments), trade and other payables (except for the advance from customers, staff salaries and welfare payables and other taxes payables) and borrowings. As at 31 December 2014, the carrying amounts of these financial assets and liabilities not measured at fair value are a reasonable approximation of their fair value.

**3.4 Offsetting financial assets and financial liabilities**

(a) Financial assets

The following financial assets are subject to offsetting arrangements:

| As at 31 December |         |
|-------------------|---------|
| 2014              | 2013    |
| RMB 000           | RMB 000 |

|   |                  |           |
|---|------------------|-----------|
| Gross amounts of recognised amounts due from related parties                            | <b>1,082,558</b> | 2,131,133 |
| Gross amounts of recognised amounts due to related parties set off in the balance sheet | <b>(47,473)</b>  |           |
| Net amounts of amounts due from related parties presented in the balance sheet          | <b>1,035,085</b> | 2,131,133 |

For the year ended 31 December 2014

(Prepared under International Financial Reporting Standards)

**3 Financial risk management** (continued)**3.4 Offsetting financial assets and financial liabilities** (continued)

## (b) Financial liabilities

The following financial liabilities are subject to offsetting arrangements:

|   | As at 31 December |           |
|---|-------------------|-----------|
|   | 2014              | 2013      |
|   | RMB 000           | RMB 000   |
| Gross amounts of recognised amounts due to related parties                                | 3,089,670         | 6,663,559 |
| Gross amounts of recognised amounts due from related parties set off in the balance sheet | (47,473)          |           |
| Net amounts of amounts due to related parties presented in the balance sheet              | 3,042,197         | 6,663,559 |

According to the offsetting arrangement entered into in October 2014 between the Company and its related party, Shanghai Secco Petrochemical Company Limited, the relevant financial assets and liabilities of each operating agreement between the Group and Shanghai Secco Petrochemical Company Limited, are settled on a net basis each month.

**4 Critical accounting estimates and assumptions**

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

**4.1 Critical accounting estimates and assumptions**

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**4 Critical accounting estimates and judgments** (continued)

**4.1 Critical accounting estimates and assumptions** (continued)

(a) Impairments for long-lived assets

Assets, that have an indefinite useful life, must be tested annually for impairment. Long term assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. In determining the value in use, expected cash flows generated by the asset or the cash-generating unit are discounted to their present value. Management uses all readily available information in determining an amount that is a reasonable approximation of recoverable amount, including estimates based on reasonable and supportable assumptions and projections of sale volume, selling price and amount of operating costs.

(b) Depreciation

Property, plant and equipment, are depreciated on a straight-line basis over the estimated useful lives of the assets, after taking into account the estimated residual value. Management reviews the estimated useful lives of the assets annually in order to determine the amount of depreciation expense to be recorded during any reporting period. The useful lives are based on the Group's historical experience with similar assets, taking into account anticipated technological changes. The depreciation expense for future periods is adjusted if there are significant changes from previous estimates.

(c) Impairment for bad and doubtful debts

Management estimates impairment losses for bad and doubtful debts resulting from the inability of the customers to make the required payments. Management bases the estimates on the ageing of the accounts receivable balance, customer credit-worthiness and historical write-off experience. If the financial condition of the customers were to deteriorate, actual impairment losses would be higher than the estimate.

(d) Allowance for diminution in value of inventories

If the costs of inventories exceed their net realisable values, an allowance for diminution in value of inventories is recognized. Net realisable value represents the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Management bases the estimates on

all available information, including the current market prices of the finished goods and raw materials, and historical operating costs. If the actual selling prices were to be lower or the costs of completion were to be higher than estimated, the actual allowance for diminution in value of inventories could be higher than the estimate.

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**4 Critical accounting estimates and judgments** *(continued)*

**4.1 Critical accounting estimates and assumptions** *(continued)*

(e) Recognition of deferred tax assets

There are many transactions and events for which the ultimate tax determination is uncertain during the ordinary course of business. Significant judgment is required from the Group in determining the provision for income taxes in each of these jurisdictions. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Deferred tax assets are recognised in respect of temporary deductible differences and the carryforward of unused tax losses. Management recognises deferred tax assets only to the extent that it is probable that future taxable profit will be available against the assets which can be realised or utilised. At the end of each reporting period, management assesses whether previously unrecognised deferred tax assets should be recognized. The Group recognises a previously unrecognised deferred tax asset to the extent that it is probable that future taxable profit will allow the deferred tax asset to be utilised. In addition, management assesses the carrying amount of deferred tax assets that are recognised at the end of each reporting period. The Group reduces the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available for the deferred tax asset to be utilised.

In making the assessment of whether it is probable the Group will realize or utilise the deferred tax assets, management primarily relies on the generation of future taxable income to support the recognition of deferred tax assets. In order to fully utilize the deferred tax assets recognized at 31 December 2014, the Group would need to generate future taxable income of at least RMB 3,660 million, of which at least RMB 2,371 million is required to be generated by the Company by 2017, prior to the expiration of the unused tax losses generated in 2012. In addition, further taxable income of RMB 833 million is required to be generated by the Company by 2019, prior to the expiration of the unused tax losses generated in 2014. Based on estimated forecast and historical experience, management believes that it is probable that the Group will generate sufficient taxable income before the unused tax losses expire.

**5 Segment information**

The Group manages its business by divisions, which are organized by business lines. In view of the fact that the Company and its subsidiaries operate mainly in the PRC, no geographical segment information is presented.

In a manner consistent with the way in which information is reported internally to the Group's chief operating decision maker for the purposes of resource allocation and performance assessment, the Group has identified the following five reportable segments. No operating segments have been aggregated to form the following reportable segments.

**Table of Contents**

**Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**5 Segment information** *(continued)*

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items mainly comprise interest in associates or joint ventures, deferred tax assets, cash and cash equivalents, investment property and related revenues (such as share of profit of associates and joint ventures, interest income and investment income), interest-bearing loans, borrowings and interest expense, and corporate assets and expenses.

The Group principally operates in five operating segments: synthetic fibres, resins and plastics, intermediate petrochemicals, petroleum products and trading of petrochemical products. Synthetic fibres, resins and plastics, intermediate petrochemicals, petroleum products are produced through intermediate steps from the principal raw material of crude oil. The specific products of each segment are as follows:

- (i) The synthetic fibres segment produces primarily polyester and acrylic fibres, which are mainly used in the textile and apparel industries.
- (ii) The resins and plastics segment produces primarily polyester chips, polyethylene resins and films, polypropylene resins and PVA granules. The polyester chips are used to produce polyester fibres, coating and containers. Polyethylene resins and plastics are used to produce insulated cable, mulching films and moulded products such as housewares and toys. Polypropylene resins are used for films, sheets and moulded products such as housewares, toys, consumer electronics and automobile parts.
- (iii) The intermediate petrochemicals segment primarily produces p-xylene, benzene and ethylene oxide. The intermediate petrochemicals produced by the Group are both served as raw materials in the production of other petrochemicals, resins, plastics and synthetic fibres, and sold to external customers.
- (iv) The Group's petroleum products segment is equipped with crude oil distillation facilities used to produce vacuum and atmospheric gas oils used as feedstock of the Group's downstream processing facilities. Residual oil and low octane gasoline fuels are co-products of the crude oil distillation process. Part of the residual oil is further processed into qualified refined gasoline and diesel oil. In addition, the Group produces a variety of fuels for transportation, industry and household heating usage, such as diesel oil, jet fuel, heavy oil and liquefied petroleum gas.

- (v) The Group's trading of petrochemical products segment is primarily engaged in importing and exporting of petrochemical products. The products are sourced from international and domestic suppliers.
  
- (vi) Other operating segments represent the operating segments which do not meet the quantitative threshold for determining reportable segments. These include rental, providing services and a variety of other commercial activities, which are not allocated to the above five operating segments.

The Group recognizes deferred tax assets only to the extent that it is probable that future taxable income will be available against which the assets can be utilized. Based on the level of historical taxable income and projections for future taxable income over the periods which the deferred tax assets will be utilized, management believes that it is probable the Group will realize the benefits of these temporary differences.

(Prepared under International Financial Reporting Standards)

**11 Income tax** (continued)

## (iii) Deferred tax assets not recognized

As at 31 December 2014, a subsidiary of the Company did not recognise the deferred tax assets in respect of the impairment losses on property, plant and equipment amounting to RMB 432,579 thousands and provision for inventories amounting to RMB 46,190 thousands (2013: RMB 432,579 thousands and provision for inventories amounting to RMB 46,190 thousands, respectively) while another subsidiary did not recognise the deferred tax assets in respect of provision for inventories amounted RMB 48,750 thousands (2013: Nil). The total unused tax losses carried forward for PRC income tax purpose of the Group amounted to RMB 353,952 thousands (2013: RMB 402,138 thousands) because it was not probable that the related tax benefit would be realized, of which RMB 71,759 thousands, RMB 79,526 thousands, RMB 68,211 thousands, RMB 63,733 thousands and RMB 70,723 thousands will expire in 2015, 2016, 2017, 2018 and 2019, respectively.

**12 (Loss)/earnings per share****(a) Basic**

Basic earnings per share is calculated by dividing the profit attributable to owners of the Company by the weighted average number of ordinary shares in issue during the year excluding ordinary shares purchased by the Company and held as treasury shares.

|  | 2014<br>RMB 000 | 2013<br>RMB 000 |
|--|-----------------|-----------------|
| Net (loss)/profit attributable to owners of the Company        | (692,222)       | 2,055,328       |
| Weighted average number of ordinary shares in issue(thousands) | 10,800,000      | 10,800,000      |
| Basic (loss)/earnings per share(RMB per share)                 | RMB (0.064)     | RMB 0.190       |

**(b) Diluted**

There were no dilutive potential ordinary shares, therefore diluted earnings per share is the same as basic earnings per share.

Bills receivable represent short-term bank acceptance receivables that entitle the Group to receive the full face amount of the receivables from the banks at maturity, which generally range from one to six months from the date of issuance. Historically, the Group had experienced no credit losses on bills receivable.

As at 31 December 2014, the Group has pledged account receivables of RMB 76,111 thousands (31 December 2013: Nil) and bills receivable of RMB 80,669 thousands (31 December 2013: Nil) for issuing letters of credit.

Accounts receivable derecognized due to the transfer of financial assets during the year amounted to RMB 352,753 thousands (2013: RMB 686,774 thousands), the relating amount recorded in finance expenses was RMB 2,372 thousands (2013: RMB 4,087 thousands).

Sales to third parties are generally on a cash basis. Subject to negotiation, credit is generally only available for major customers with well-established trading records.

The following is a summary of significant balances and transactions between the Group and its related parties except for the dividends receivable as disclosed in the forgoing Note 20 and assets sale in Chen Shan depot as disclosed in the forgoing Note 13.

- (a) Most of the transactions undertaken by the Group during the year ended 31 December 2014 have been affected on such terms as determined by Sinopec Corp. and relevant PRC authorities.

Sinopec Corp. negotiates and agrees the terms of crude oil supply with suppliers on a group basis, which is then allocated among its subsidiaries, including the Group, on a discretionary basis. Sinopec Corp. also owns a widespread petroleum products sales network and possesses a fairly high market share in domestic petroleum products market, which is subject to extensive regulation by the PRC government.

The Group has entered into a mutual product supply and sales services framework agreement with Sinopec Corp. Pursuant to the agreement, Sinopec Corp. provides the Group with crude oil, other petrochemical raw materials and agent services. On the other hand, the Group provides Sinopec Corp. with petroleum products, petrochemical products and property leasing services.

The pricing policy for these services and products provided under the agreement is as follows:

If there are applicable State (central and local government) tariffs, the pricing shall follow the State tariffs;

If there are no State tariffs, but there are applicable State s guidance prices, the pricing shall follow the

State s guidance prices; or

If there are no State tariffs or State s guidance prices, the pricing shall be determined in accordance with the prevailing market prices (including any bidding prices).

Transactions between the Group and Sinopec Corp., its subsidiaries and joint ventures were as follows:

|                                     | <b>2014</b>       | 2013       |
|-------------------------------------|-------------------|------------|
|                                     | <b>RMB 000</b>    | RMB 000    |
| Sales of petroleum products         | <b>54,017,562</b> | 61,901,684 |
| Sales other than petroleum products | <b>6,817,448</b>  | 8,768,325  |
| Purchases of crude oil              | <b>30,931,551</b> | 52,898,298 |
| Purchases other than crude oil      | <b>5,228,636</b>  | 5,847,600  |
| Sales commissions                   | <b>113,162</b>    | 152,331    |
| Rental income                       | <b>28,871</b>     | 25,602     |

## (d) Key management personnel compensation and post-employment benefit plans

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly, including directors and supervisors of the Group. The key personnel compensations are as follows:

|                              | Year ended 31 December |         |
|------------------------------|------------------------|---------|
|                              | 2014                   | 2013    |
|                              | RMB 000                | RMB 000 |
| Short-term employee benefits | 7,668                  | 6,603   |
| Post-employment benefits     | 170                    | 181     |
|                              | 7,838                  | 6,784   |

## (e) Contributions to defined contribution retirement plans

The Group participates in defined contribution retirement plans organized by municipal governments for its staff. The contributions to defined contribution retirement plans are as follows:

|                                       | Year ended 31 December |         |
|---------------------------------------|------------------------|---------|
|                                       | 2014                   | 2013    |
|                                       | RMB 000                | RMB 000 |
| Municipal retirement scheme costs     | 277,167                | 277,253 |
| Supplementary retirement scheme costs | 72,998                 | 69,735  |

At 31 December 2014 and 31 December 2013, there was no material outstanding contribution to the above defined contribution retirement plans.

## (f) Transactions with other state-owned entities in the PRC

The Group is a state-controlled enterprise and operates in an economic regime currently dominated by entities directly or indirectly controlled by the PRC government (collectively referred to as state-controlled entities ) through its government authorities, agencies, affiliations and other organisations.

Apart from transactions with related parties, the Group has transactions with other state-controlled entities which include, but are not limited to, the following:

sales and purchases of goods and ancillary materials;

rendering and receiving services;

lease of assets, purchase of property, plant and equipment;

placing deposits and obtaining finance; and

use of public utilities

**Table of Contents****Notes to the Consolidated Financial Statement** (continued)

*For the year ended 31 December 2014*

*(Prepared under International Financial Reporting Standards)*

**27 Related party transactions** (continued)

## (f) Transactions with other state-owned entities in the PRC (continued)

These transactions are conducted in the ordinary course of the Group's business on terms comparable to those with other entities that are not state controlled. The Group has established its procurement policies, pricing strategy and approval process for purchases and sales of products and services which do not depend on whether the counterparties are state-controlled entities or not.

Having considered the transactions potentially affected by related party relationships, the entity's pricing strategy, procurement policies and approval processes, and the information that would be necessary for an understanding of the potential effect of the related party relationship on the financial statements, the directors are of the opinion that the following transactions require disclosure of the related amounts.

## (i) Transactions with other state-controlled energy and chemical companies

The Group's major domestic suppliers of crude oil are China National Offshore Oil Corporation and its subsidiaries, Sinochem International Group and its subsidiaries, China Arts Huahai Import & Export Corp. Ltd., Heilongjiang United Oil & Chemicals Co., Ltd and Zhuhai Zhenrong Company which are state-controlled entities.

The aggregate amount of crude oil purchased by the Group from the above state-controlled energy and chemical companies are as follows:

|                        | <b>Year ended 31 December</b> |                   |
|------------------------|-------------------------------|-------------------|
|                        | <b>2014</b>                   | <b>2013</b>       |
|                        | <b>RMB 000</b>                | <b>RMB 000</b>    |
| Purchases of crude oil | <b>22,763,687</b>             | <b>15,134,075</b> |

No prepayments for purchases of crude oil made to the above state-controlled energy and chemical companies as at 31 December 2014 (31 December 2013: Nil).

## (ii) Transactions with state-controlled banks

The Group deposits its cash with several state-controlled banks in the PRC. The Group also obtains short-term and long-term loans from these banks in the ordinary course of business. The interest rates of the bank deposits and loans

are regulated by the People's Bank of China. The Group's interest income from and interest expense to these state-controlled banks in the PRC are as follows:

|                  | <b>Year ended 31 December</b> |                 |
|------------------|-------------------------------|-----------------|
|                  | <b>2014</b>                   | <b>2013</b>     |
|                  | <b>RMB '000</b>               | <b>RMB '000</b> |
| Interest income  | <b>12,955</b>                 | <b>15,443</b>   |
| Interest expense | <b>303,836</b>                | <b>355,935</b>  |

**Table of Contents****Notes to the Consolidated Financial Statement** (continued)

**31 Contingent liabilities**

In June 2007, the State Administrative of Taxation issued a tax circular (Circular No.664) to the local tax authorities requesting the relevant local tax authorities to rectify the applicable enterprise income tax ( EIT ) for nine listed companies, which included the Company. After the notice was issued, the Company was required by the relevant tax authority to settle the EIT for 2007 at a rate of 33 percent. To date, the Company has not been requested by the tax authorities to pay additional EIT in respect of any years prior to 2007. There is no further development of this matter during the year ended 31 December 2014. As at 31 December 2014, no provision has been made in the financial report for this uncertainty because management believes it is not probable that the Group will be required to pay additional EIT for tax years prior to 2007 (31 December 2013: nil).

**32 Subsequent event**

Pursuant to the resolution of the fifth meeting of the eighth session of the Board of Directors of the Company on 6 January 2015, the proposal regarding the adjustment of the list of participants and the number of share options under the initial grant of the share option incentive scheme and the proposal regarding the initial grant under the share option incentive scheme were approved.

According to the Company's share option incentive scheme, the grant date of share options was 6 January 2015, and there were a total of 38,760 thousand share options granted to 214 participants. Each share option has a right to purchase an ordinary A share listed in PRC on vesting date at an exercise price of RMB 4.20 under vesting conditions. The total number of underlying stock accounted for 0.359% of the Company's total share capital when granted.

**Auditor s Report**

PwC ZT Shen Zi (2015) No. 10008

(Page 1 of 2)

**To the Shareholders of Sinopec Shanghai Petrochemical Company Limited,**

We have audited the accompanying financial statements of Sinopec Shanghai Petrochemical Company Limited (hereinafter the Company ), which comprise the consolidated and company balance sheets as at 31 December 2014, and the consolidated and company income statements, the consolidated and company statements of changes in shareholders equity and the consolidated and company cash flow statements for the year ended 31 December 2014, and the notes to the financial statements.

**Management s Responsibility for the Financial Statements**

Management of the Company is responsible for the preparation and fair presentation of these financial statements in accordance with the requirements of Accounting Standards for Business Enterprises, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor s Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with China Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Notes to the Financial Statements**

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

#### **1 General information**

Sinopec Shanghai Petrochemical Company Limited ( the Company ), formerly Shanghai Petrochemical Company Limited, was established in the People's Republic of China ( the PRC ) on 29 June 1993 as a joint stock limited company to hold the assets and liabilities of the production divisions and certain other units of the Shanghai Petrochemical Complex ( SPC ), a state-owned enterprise. Shanghai Petrochemical Complex was under the direct supervision of China Petrochemical Corporation ( Sinopec Group ) in the establishment.

Sinopec Group completed its reorganisation on 25 February 2000. After the reorganisation, China Petroleum & Chemical Corporation ( Sinopec Corp. ) was established. As part of the reorganisation, Sinopec Group transferred its 4,000,000,000 of the Company's state-owned legal shares, which represented 55.56 percent of the issued share capital of the Company, to Sinopec Corp.

The Company changed its name to Sinopec Shanghai Petrochemical Company Limited on 12 October 2000. Sinopec Corp.

became the largest shareholder of the Company.

Pursuant to the Approval on matters relating to the Share Segregation Reform of Sinopec Shanghai Petrochemical Company Limited issued by the State-owned Assets Supervision and Administration Commission of the State Council (State Owned Property [2013] No.443), a General Meeting of A share shareholders was held on 8 July 2013 and passed the resolution of Share Segregation Reform of Sinopec Shanghai Petrochemical Company Limited (Amendment) ( the share segregation reform resolution ) which was published by the Company on Shanghai Stock Exchange ( SSE ) website on 20 June 2013.

According to the Share Segregation Reform Resolution, the controlling shareholder of the Company, Sinopec Corp. , offered shareholders of circulating A shares 5 shares for every 10 circulating A shares they held on 16 August 2013( the circulation date ), aggregating 360,000,000 A shares. From 20 August 2013, all the Company's non-circulating A shares have been granted circulating rights on Shanghai Stock Exchange( SSE ). As part of the restricted conditions, Sinopec Corp. committed that all the 3,640,000,000 A shares held were not allowed to be traded on SSE or transferred within 12 months from the circulation date ( the restriction period ). After the restriction period, Sinopec Corp. can only sell no more than 5 and 10 percent of the Company's total shares within 12 and 24 months, respectively. The former 150,000,000 non-circulating A shares held by social legal persons were also prohibited to be traded on SSE or transferred within 12 months from the circulation date. Meanwhile, Sinopec Corp. also committed in the Share Segregation Reform Resolution that a scheme of converting surplus to share capital (no less than 4 shares for every 10 shares) will be proposed on the board of directors and shareholders meetings within 6 months after the circulation date.

The 15th Meeting of the 7th term of Board of Directors was held on 28 August 2013 and the Company proposed and passed a resolution regarding interim cash dividend for the first half year of 2013 and the conversion of share premium and surplus reserve to share capital. The resolution included a distribution of 5 shares and a cash dividend distribution of RMB 0.5 (tax included) for every 10 shares based on the 7,200,000 thousands ordinary shares as at 30 June 2013. Among the 5 shares distributed, 3.36 shares were converted from share premium of RMB 2,420,841 thousands and 1.64 shares were converted from surplus reserves of RMB 1,179,159 thousands. The resolution were approved by the extraordinary general meeting of shareholders, A share class shareholders meeting and H share class shareholders meeting on 22 Oct 2013, respectively. The above capital reserve and surplus reserve fund conversion was verified by PricewaterhouseCoopers Zhong Tian LLP and a capital verification report (PwC ZT Yan Zi (2014) No. 131) was issued on 20 March 2015. As at 31 December 2014, total shares of the Company were 10,800,000 thousands.

**Table of Contents**

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**1 General information** *(continued)*

The Company and its subsidiaries ( the Group ) is a highly integrated entity which processes crude oil into synthetic fibres,

resins and plastics, intermediate petrochemicals and petroleum products.

Details of the Company s principal subsidiaries are set out in Note 5. A subsidiary, Shanghai Jinshan Trading Corporation, was established during the year and consolidated by the Group accordingly (Note 5(2)). Another subsidiary, Chen Shan Oil Depot Management Corporation, was closed during the year and not consolidated by the Group anymore (Note 5(1)).

These financial statements were authorised for issue by the Board of Directors on 20 March 2015.

**2 Summary of significant accounting policies and accounting estimates**

The Group determines the accounting policies and accounting estimates based on its production and management features, mainly reflecting in provision method for receivables(Notes2(10)), provision for decline in the value of inventories(Note2 (11)), depreciation of fixed assets(Note2(14)), impairment of long-term assets (Note2(19)), revenue recognition (Note2(24)) and income tax(Note2(26)) etc.

The key assumptions adopted by the Group in evaluating significant accounting policies and accounting estimate are listed

in Note 2(31).

**(1) Basis of preparation**

The financial statements are prepared in accordance with the Accounting Standard for Business Enterprises Basic Standard, and the specific accounting standards and other relevant regulations issued by the Ministry of Finance on 15 February 2006 and in subsequent periods (hereafter collectively referred to as the Accounting Standard for Business Enterprises or CAS ).

The financial statements are prepared on a going concern basis.

**(2) Statement of compliance with the Accounting Standards for Business Enterprises**

The financial statements of the Company for the year ended 31 December 2014 are in compliance with the Accounting Standards for Business Enterprises, and truly and completely present the financial position as of 31 December 2014 and the operating results, cash flows and other information for the year then ended of the Group and the Company.

**(3) Accounting period**

The Company's accounting year starts on 1 January and ends on 31 December.

**(4) Recording currency**

The recording currency is Renminbi (RMB).

**Table of Contents**

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(5) Business combinations**

(a) Business combinations involving enterprises under common control

The consideration paid and net assets obtained by the absorbing party in a business combination are measured at the carrying amount. The difference between the carrying amount of the net assets obtained from and the carrying amount of the consideration paid for the combination is treated as an adjustment to capital surplus (capital premium). If the capital surplus (capital premium) is not sufficient to absorb the difference, the remaining balance is adjusted against undistributed profits. Costs directly attributable to the combination are included in profit or loss in the period in which they are incurred. Transaction costs associated with the issue of equity or debt securities for the business combination are included in the initially recognised amounts of the equity or debt securities.

(b) Business combinations involving enterprises not under common control

The cost of combination and identifiable net assets obtained by the acquirer in a business combination are measured at fair value at the acquisition date. Where the cost of the combination exceeds the acquirer's interest in the fair value of the acquiree's identifiable net assets, the difference is recognised as goodwill; where the cost of combination is lower than the acquirer's interest in the fair value of the acquiree's identifiable net assets, the difference is recognised in profit or loss for the current period. Costs directly attributable to the combination are included in profit or loss in the period in which they are incurred. Transaction costs associated with the issue of equity or debt securities for the business combination are included in the initially recognised amounts of the equity or debt securities.

**(6) Preparation of consolidated financial statements**

The consolidated financial statements comprise the financial statements of the Company and all of its subsidiaries.

Subsidiaries are consolidated from the date on which the Group obtains control and are de-consolidated from the date that such control ceases. For a subsidiary that is acquired in a business combination involving enterprises under common control, it is included in the consolidated financial statements from the date when it, together with the Company, comes under common control of the ultimate controlling party. The portion of the net profits realised before the combination date is presented separately in the consolidated income statement.

In preparing the consolidated financial statements, where the accounting policies and the accounting periods are inconsistent between the Company and subsidiaries, the financial statements of the subsidiaries are adjusted in accordance with the accounting policies and the accounting period of the Company. For subsidiaries acquired from business combinations involving enterprises not under common control, the individual financial statements of the subsidiaries are adjusted based on the fair value of the identifiable net assets at the acquisition date.

**Table of Contents**

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(6) Preparation of consolidated financial statements** *(continued)*

All significant intra-group balances, transactions and unrealised profits are eliminated in the consolidated financial statements. The portion of subsidiaries' owners' equity and the portion of subsidiaries' net profits and losses and comprehensive incomes for the period not attributable to the Company are recognised as non-controlling interests, net profit attributed to non-controlling interests and total comprehensive incomes attributed to non-controlling interests and presented separately in the consolidated financial statements under owners' equity, net profits and total comprehensive income respectively. Unrealised profits and losses resulting from the sale of assets by the Company to its subsidiaries are fully eliminated against net profit attributable to owners of the parent. Unrealized profits and losses resulting from the sale of assets by a subsidiary to the Company are eliminated and allocated between net profit attributable to owners of the parent and non-controlling interests in accordance with the allocation proportion of the parent in the subsidiary. Unrealized profits and losses resulting from the sale of assets by one subsidiary to another are eliminated and allocated between net profit attributable to owners of the parent and non-controlling interests in accordance with the allocation proportion of the parent in the subsidiary.

If the accounting treatment of a transaction which considers the Group as an accounting entity is different from that considers the Company or its subsidiaries as an accounting entity, it is adjusted from the perspective of the Group.

**(7) Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand, deposits that can be readily drawn on demand, and short-term and highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**(8) Foreign currency translation**

Foreign currency transactions

Foreign currency transactions are translated into RMB using the exchange rates prevailing at the dates of the transactions.

At the balance sheet date, monetary items denominated in foreign currencies are translated into RMB using the spot exchange rates on the balance sheet date. Exchange differences arising from these translations are recognised in profit or loss for the current period, except for those attributable to foreign currency borrowings that have been taken out specifically for the acquisition or construction of qualifying assets, which are capitalised as part of the cost of those assets. Non-monetary items denominated in foreign currencies that are measured at historical costs are translated into RMB at the balance sheet date using the spot exchange rates at the date of the transactions. The effect of exchange rate changes on cash is presented separately in the cash flow statement.

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(9) Financial Instruments**

(a) Financial Assets

(i) Financial assets classification

Financial assets are classified into the following categories at initial recognition: financial assets at fair value through profit or loss, receivables, available-for-sale financial assets and held-to-maturity investments. The classification of financial assets depends on the Group's intention and ability to hold the financial assets.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for the purpose of selling in the short term.

Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either designated in this category or not classified in any of the other categories at initial recognition. Available-for-sale financial assets are included in other current assets on the balance sheet if management intends to dispose of them within 12 months after the balance sheet date.

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed maturity and fixed or determinable payments that management has the positive intention and ability to hold to maturity. Held-to-maturity investments with maturities over 12 months when the investments were made but are due within 12 months at the balance sheet

date are included in the current portion of non-current assets; held-to maturity investments with maturities no more than 12 months when the investments were made are included in other current assets.

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** (continued)

**(9) Financial Instruments** (continued)

(a) Financial Assets (continued)

(ii) Recognition and measurement

Financial assets are recognised at fair value on the balance sheet when the Group becomes a party to the contractual provisions of the financial instrument. In the case of financial assets at fair value through profit or loss, the related transaction costs incurred at the time of acquisition are recognised in profit or loss for the current period. For other financial assets, transaction costs that are attributable to the acquisition of the financial assets are included in their initially recognised amounts.

Financial assets at fair value through profit or loss and available-for-sale financial assets are subsequently measured at fair value. Investments in equity instruments are measured at cost when they do not have a quoted market price in an active market and whose fair value cannot be reliably measured. Receivables and held-to-maturity investments are measured at amortised cost using the effective interest method.

Gains or losses arising from change in fair value of financial assets at fair value through profit or loss are recognised in profit or loss. Interests and cash dividends received during the period in which such financial assets are held, as well as the gains or losses arising from disposal of these assets are recognised in profit or loss for the current year.

Gains or losses arising from change in fair value of available-for-sale financial assets are recognised directly in equity, except for impairment losses and foreign exchange gains and losses arising from translation of monetary financial assets. When such financial assets are derecognised, the cumulative gains or losses previously recognised directly into equity are recycled into profit or loss for the current period. Interests on available-for-sale investments in debt instruments calculated using the effective interest method during the period in which such investments are held and cash dividends declared by the investee on available-for-sale investments in equity instruments are recognised as investment income, which is recognised in profit or loss for the period.

(iii) Impairment of financial assets

The Group assesses the carrying amounts of financial assets other than those at fair value through profit or loss at each balance sheet date. If there is objective evidence that a financial asset is impaired, the Group shall determine the amount of impairment loss.

**Table of Contents**

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** (continued)

**(9) Financial Instruments** (continued)

(a) Financial Assets (continued)

(iii) Impairment of financial assets (continued)

A financial asset is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a loss event) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

The objective evidence that indicate the impairment of available-for-sale investment in equity instruments includes a significant or prolonged decline in the fair value of available-for-sale investment in equity instruments. The Group assesses all kinds of available-for-sale investments in equity instruments individually at balance sheet date. Impairment loss should be recognized if the fair value of investments in equity instruments is less than 50%(50% inclusive) of its initial investment cost or in the case that the fair value has been less than the initial investment cost for more than one year (one year inclusive). The Group will consider other relevant factors, such as the price volatility, to determine whether an impairment loss should be recognised for the equity instrument if the decline in the fair value of an equity instrument is more than 20% (20% inclusive) but less than 50% of its initial investment cost.

When an impairment loss on a financial asset carried at amortised cost has occurred, the amount of loss is provided for at the difference between the asset's carrying amount and the present value of its estimated future cash flows (excluding future credit losses that have not been incurred). If there is objective evidence that the value of the financial asset recovered and the recovery is related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed and the amount of reversal is recognised in profit or loss.

In the case of impairment of available-for-sale financial assets, the cumulative loss arising from the decline in fair value that had been recognised directly in equity is removed from equity and recognised in impairment loss. For an investment in debt instrument classified as available-for-sale on which impairment losses have been recognised, if, in a subsequent period, its fair value increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the previously recognised impairment loss is reversed and recognized in profit or loss for the current year. For an investment in an equity instrument classified as

available-for-sale on which impairment losses have been recognised, the increase in its fair value in a subsequent period is recognised in equity directly.

If an impairment loss on an available-for-sale financial asset measured at cost incurs, the amount of loss is measured at the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. The previously recognised impairment loss will not be reversed in subsequent periods.

**Table of Contents**

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** (continued)

**(9) Financial Instruments** (continued)

(a) Financial Assets (continued)

(iv) Derecognition of financial assets

A financial asset is derecognised when it meets one of the following conditions:

If the Group's contractual rights to the cash flows from the financial asset expire.

Or if the Group transfers substantially all the risks and rewards of ownership of the financial asset to another party.

Or if the Group has neither transferred nor retained substantially all of the risks and rewards of the asset, but the Group has ceased the control over the financial asset.

On derecognition of a financial asset, the difference between the carrying amount and the aggregate consideration received and the accumulative amount of the changes of fair value originally recorded in the shareholders' equity is recognised in profit or loss.

(b) Financial liabilities

Financial liabilities are classified into the following categories at initial recognition: financial liabilities at fair value through profit or loss and other financial liabilities. Financial liabilities of the Group mainly comprise of other financial liabilities, including payables and borrowings.

Payables include accounts payable, notes payable and other payables, etc, which are initially recorded at fair value and measured subsequently at amortised cost using the effective interest method subsequently.

Borrowings and notes payable are recorded initially at fair value, net of transaction costs incurred, and subsequently carried at amortised cost using the effective interest method.

Other financial liabilities with maturities no more than one year (including one year) are classified as current liabilities. Other financial liabilities with maturity over one year but are due within one year (including one year) at balance sheet date are classified as the current portion of non-current liabilities. Others are classified as non-current liabilities.

A financial liability shall be derecognised or partly derecognised when the current obligation is discharged or partly discharged. The difference between the carrying amount of the derecognised portion of the financial liability and the consideration paid shall be recognised in profit or loss.

**Table of Contents**

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** (continued)

**(9) Financial Instruments** (continued)

(c) Determination of fair value of financial instruments

The fair value of a financial instrument that is traded in an active market is determined at the quoted price in the active market. The fair value of a financial instrument that is not traded in an active market is determined by using a valuation technique which is applicable in the current situation and support with enough available data and other information. Valuation techniques mainly include market approach and income approach.

When a valuation technique is used to establish the fair value of a financial instrument, it chooses the inputs which are consistent with the asset or liability's characteristics considered by market participants in the transaction of the relevant asset or liability and makes the maximum use of relevant observable inputs. Unobservable inputs are used when it is unavailable or impracticable to obtain relevant observable inputs.

**(10) Receivables**

Receivables comprise accounts receivable and other receivables. Accounts receivable arising from sale of goods or rendering of services are initially recognised at fair value of the contractual payments from the buyers or service recipients.

(a) Receivables that are individually significant and subject to separate provision

Receivables with amounts that are individually significant are subject to separate assessment for impairment. If there exists objective evidence that the Group will not be able to collect the amount under the original terms, a provision for bad debts of that receivable is made.

Judgement basis or criteria for receivables that are individually significant is over RMB 10,000 thousands.

Provision for bad debts for receivables that are individually significant and assessed individually is made at the difference between its carrying amount and the present value of its estimated future cash flows.

(b) Receivables that are combined into certain groups and subject to provision by groups  
Receivables with amounts that are not individually significant and those receivables that have been individually assessed for impairment and have not been found impaired are classified into certain groupings based on their credit risk characteristics. The provision for bad debts is determined based on the historical loss experience for the groupings of receivables with similar credit risk characteristics, taking into consideration of the current circumstances.

**Table of Contents****Notes to the Financial Statements** (continued)

FOR THE YEAR ENDED 31 December 2014

(All amounts in thousands of Renminbi Yuan unless otherwise stated)

[English Translation for Reference Only]

**2 Summary of significant accounting policies and accounting estimates** (continued)**(10) Receivables** (continued)

(b) Receivables that are combined into certain groups and subject to provision by groups (continued)

Basis for determination of groups is as follows:

| Group Name | Criteria   |
|------------|--|
| Group 1    | Groups of receivables with similar credit risk characteristics   |
| Group 2    | Receivables for related parties except for the accounts receivables that are individually significant and subject to separate provision, |

Method for provision by groups are summarised as followed:

| Group Name | Method for provision                   |
|------------|--|
| Group 1    | Ageing analysis method                 |
| Group 2    | Percentage of bad debt provision is 0% |

Ratios of provision for bad debts used in the ageing analysis method for groups are as follows:

|                                       | Provisions as a percentage of accounts receivable | Provisions as a percentage of other receivables |
|---------------------------------------|---|---|
| Within one year                       |   |   |
| Over one year but within two years    | 30%   | 30%   |
| Over two years but within three years | 60%   | 60%   |
| Over three years                      | 100%  | 100%  |

(c) Receivables that are individually insignificant but subject to separate provision

If there exists objective evidence that the Group will not be able to collect the amount under the original terms.

The impairment loss and the provision for bad debts are determined based on the amount of the present value of the future cash flows expected to be derived from the asset below the carrying amount.

- (d) When the Group transfers the accounts receivable to the financial institutions without recourse, the difference between the proceeds received from the transaction and their carrying amounts and the related taxes is recognised in profit or loss for the current period.

**Table of Contents**

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(11) Inventories**

(a) Categories of inventories

Inventories include raw materials, work in progress, finished goods, spare parts and consumables, and are measured at the lower of cost and net realisable value.

(b) Measurement of cost of inventories

Cost is determined using the weighted average method. The cost of finished goods and work in progress comprise raw materials, direct labour and systematically allocated production overhead based on the normal production capacity.

(c) Basis for determining net realisable value of inventories and method of provision for impairment of inventories

Provision for decline in the value of inventories is determined at the excess amount of the carrying amounts of the inventories over their net realisable value. Net realisable value is determined based on the estimated selling price in the ordinary course of business, less the estimated costs to completion and estimated costs necessary to make the sale and related taxes.

(d) The Group adopts the perpetual inventory system.

(e) Amortisation methods for low-value consumables

Low value consumables are expensed upon issuance.

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(12) Long-term equity investments**

Long-term equity investments comprise the Company's long-term equity investments in its subsidiaries, and the Group's long-term equity investments in its joint ventures and associates.

Subsidiaries are the investees over which the Company is able to exercise control. A joint venture is a joint arrangement which is structured through a separate vehicle over which the Group has joint control together with other parties and only has rights to the net assets of the arrangement based on legal forms, contractual terms and other facts and circumstances. An associate is the investee over which the Group has significant influence by participating in the financial and operating policy decisions.

Investments in subsidiaries are presented in the Company's financial statements using the cost method, and are adjusted to the equity method when preparing the consolidated financial statements. Investments in joint ventures and associates are accounted for using the equity method.

(a) Initial recognition

For long-term equity investments acquired through a business combination: The initial investment cost of a long-term equity investment obtained through a business combination involving enterprises under common control is the Company's share of the carrying amount of the subsidiary's equity at the combination date. For a long-term equity investment obtained through a business combination not involving enterprises under common control, the initial investment cost is the combined cost issued by the Company, in exchange for control of the acquire.

For long-term equity investment acquired other than through a business combination, the initial investment cost is recognised at the actual consideration paid if the Group acquires the investment by cash, or at the fair value of the equity securities issued if an investment is acquired by issuing equity securities.

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** (continued)

**(12) Long-term equity investments** (continued)

(b) Subsequent measurement

Under the cost method of accounting, long-term equity investments are measured at initial investment cost, investment income is recognised in profit or loss for the cash dividends or profit distribution declared by the investee.

For long-term equity investments accounted for using the equity method, where the initial investment cost exceeds the fair value of the Group's share of the investee's identifiable net assets at the time of acquisition, the investment is initially measured at cost; Where the initial investment cost is less than the fair value of the Group's share of the investee's identifiable net assets at the time of acquisition, the difference is included in profit or loss for the current period and the cost of the long-term equity investment is adjusted upwards accordingly.

Under the equity method of accounting, the Group recognises the investment income according to its share of net profit or loss of the investee. The Group discontinues recognising its share of net losses of an investee after the carrying amount of the long-term equity investment together with any long-term interests that, in substance, form part of the investor's net investment in the investee are reduced to zero. However, if the Group has obligations for additional losses and the criteria with respect to recognition of provisions under the accounting standards on contingencies are satisfied, the Group continues recognising the investment losses and the provisions. For changes in shareholders' equity of the investee other than those arising from its net profit or loss, the Group records its proportionate share directly into capital surplus, provided that the Group's proportion of shareholding in the investee remains unchanged. The carrying amount of the investment is reduced by the Group's share of the profit distribution or cash dividends declared by an investee. The unrealised profits or losses arising from the intra-group transactions amongst the Group and its investees are eliminated in proportion to the Group's equity interest in the investees, and then based on which the investment gain or losses are recognised. For the loss on the intra-group transaction amongst the Group and its investees attributable to asset impairment, and the related unrealised loss is not eliminated.

(c) Definition of control, joint control or significant influence over the investees

Control refers to the power to govern the financial and operating policies of an investee, so as to obtain benefits from their operating activities. In determining whether the Company is able to exercise control over the investee, the effect of potential voting rights of the investee shall be considered, such as convertible debts and warrants currently exercisable.

**Table of Contents**

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** (continued)

**(12) Long-term equity investments** (continued)

(c) Definition of control, joint control or significant influence over the investees (continued)

Joint control is the contractually agreed sharing of control over an economic activity, and exists only when the strategic financial and operating decisions relating to the activity require the unanimous consent of the parties sharing control.

Significant influence refers to the power to participate in making decisions on the financial and operating policies of an enterprise, but not the power to control, or jointly control, the formulation of such policies with other parties.

(d) Impairment of Long-term equity investments

The carrying amount of long-term equity investments in subsidiaries, joint ventures and associates shall be reduced to the recoverable amount if the recoverable amount is below the carrying amount (Note 2(19)).

**(13) Investment properties**

Investment properties, including land use rights that have already been leased out, buildings that are held for the purpose of leasing and buildings that is being constructed or developed for future use for leasing, are measured initially at cost. Subsequent expenditures incurred in relation to an investment property are included in the cost of the investment property when it is probable that the associated economic benefits will flow to the Group and their costs can be reliably measured; otherwise, the expenditures are recognised in profit or loss in the period in which they are incurred.

The Group adopts the cost model for subsequent measurement of investment properties. Buildings and land use rights are depreciated or amortised to their estimated net residual values over their estimated useful lives. The estimated useful lives, the estimated net residual values that are expressed as a percentage of cost and the annual depreciation rates of investment properties are as follows:

| Estimated net | Annual depreciation |
|---------------|---------------------|
|---------------|---------------------|

|           | Estimated useful lives | residual values | rates       |
|-----------|------------------------|-----------------|-------------|
| Buildings | 30-40 years            | 3%              | 2.43%-3.23% |

**Table of Contents**

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(13) Investment properties** *(continued)*

When an investment property is transferred to owner-occupied properties, it is reclassified as fixed asset or intangible asset at the date of the transfer. When an owner-occupied property is transferred out for earning rentals or for capital appreciation, the fixed asset or intangible asset is reclassified as investment properties at its carrying amount at the date of the transfer.

The investment property's estimated useful life, net residual value and depreciation (amortisation) method applied are reviewed and adjusted as appropriate at each year-end.

An investment property is derecognised on disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposal. The net amount of proceeds from sale, transfer, retirement or damage of an investment property after its carrying amount and related taxes and expenses is recognised in profit or loss for the current period.

When the recoverable amount of investment properties is less than its carrying amount, a provision for impairment and an impairment loss are recognised for the amount by which the asset's carrying amount exceeds its recoverable amount (Note 2 (19)).

**(14) Fixed assets**

**(a) Recognition and initial measurement of fixed assets**

Fixed assets comprise buildings, plant and machinery, vehicles and other equipment, etc.

Fixed asset is recognized when it is probable that the associated economic benefits will flow to the Group and the related cost can be reliably measured. Fixed assets purchased or constructed by the Group are initially measured at cost at the time of acquisition. The fixed assets injected by the state-owned shareholder during the restructuring were initially recorded at the valuated amount approved by the relevant authorities managing state-owned assets.

Subsequent expenditures incurred for a fixed asset are included in the cost of the fixed asset when it is probable that the associated economic benefits will flow to the Group and the related cost can be reliably measured. The carrying

amount of the replaced part is derecognised. All the other subsequent expenditures are recognised in profit or loss in the period in which they are incurred.

**Table of Contents****Notes to the Financial Statements** (continued)

FOR THE YEAR ENDED 31 December 2014

(All amounts in thousands of Renminbi Yuan unless otherwise stated)

[English Translation for Reference Only]

**2 Summary of significant accounting policies and accounting estimates** (continued)**(14) Fixed assets** (continued)

## (b) Depreciation of fixed assets

Fixed assets are depreciated using the straight-line method to allocate the cost of the assets to their estimated residual values over their estimated useful lives. For the fixed assets that have been provided for impairment loss, the related depreciation charge is prospectively determined based upon the adjusted carrying amounts over their remaining useful lives.

The estimated useful lives, the estimated residual values expressed as a percentage of cost and the annual depreciation rates of fixed assets are as follows:

|                              | Estimated<br>useful lives | Estimated<br>residual values | Annual<br>depreciation rates |
|------------------------------|---------------------------|------------------------------|------------------------------|
| Buildings                    | 12-40 years               | 0% to 5%                     | 2.4% to 8.3%                 |
| Plant and machinery          | 12-20 years               | 0% to 5%                     | 4.8% to 8.3%                 |
| Vehicles and other equipment | 4-20 years                | 0% to 5%                     | 4.8% to 25.0%                |

The estimated useful life, the estimated net residual value of a fixed asset and the depreciation method applied to the asset are reviewed, and adjusted as appropriate at each year-end.

- (c) When the recoverable amount of fixed assets is less than its carrying amount, a provision for impairment and an impairment loss are recognised for the amount by which the asset's carrying amount exceeds its recoverable amount (Note 2 (19)).

## (d) Disposal of fixed assets

A fixed asset is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The amount of proceeds from disposals on sale, transfer, retirement or damage of a fixed asset net of its carrying amount and related taxes and expenses is recognised in profit or loss for the current period.

**Table of Contents**

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(15) Construction in progress**

Construction in progress is measured at actual cost. Actual cost comprises construction costs, installation costs, borrowing costs that are eligible for capitalisation and other costs necessary to bring the fixed assets ready for their intended use. Construction in progress is transferred to fixed assets when the assets are ready for their intended use, and depreciation begins from the following month. When the recoverable amount of construction in progress is less than its carrying amount, a provision for impairment and an impairment loss are recognised for the amount by which the asset's carrying amount exceeds its recoverable amount (Note 2 (19)).

**(16) Borrowing costs**

The borrowing costs that are directly attributable to the acquisition and construction of a fixed asset that needs a substantially long period of time for its intended use commence to be capitalised and recorded as part of the cost of the asset when expenditures for the asset and borrowing costs have been incurred, and the activities relating to the acquisition and construction that are necessary to prepare the asset for its intended use have commenced. The capitalisation of borrowing costs ceases when the asset under acquisition or construction becomes ready for its intended use and the borrowing costs incurred thereafter are recognised in profit or loss for the current period. Capitalisation of borrowing costs is suspended during periods in which the acquisition or construction of a fixed asset is interrupted abnormally and the interruption lasts for more than 3 months, until the acquisition or construction is resumed.

For the specific borrowings obtained for the acquisition or construction of a qualifying fixed asset, the amount of borrowing costs eligible for capitalisation is determined by deducting any interest earned from depositing the unused specific borrowings in the banks or any investment income arising on the temporary investment of those borrowings during the capitalisation period.

For the general borrowings obtained for the acquisition or construction of a qualifying fixed asset, the amount of borrowing costs eligible for capitalisation is determined by applying the weighted average effective interest rate of general borrowings used, to the weighted average of the excess amount of cumulative expenditures on the asset over the amount of specific borrowings. The effective interest rate is the rate at which estimated future cash flows during the period of expected duration or shorter period applied discounted to the initial amount of the borrowings.

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(17) Intangible assets**

Intangible assets include land use rights and patents, and are measured at cost. The intangible assets injected by the state-owned shareholder during the restructuring were initially recorded at the valuated amount approved by the relevant authorities managing state-owned assets.

(a) Land use rights

Land use rights are amortised on the straight-line basis over their approved use period of 30-50 years. If the acquisition costs of the land use rights and the buildings located thereon cannot be reasonably allocated between the land use rights and the buildings, all of the acquisition costs are recognised as fixed assets.

(b) Patents

Patents are amortised on a straight-line basis over the patent protection of 10-28 years as stipulated by the laws.

(c) Periodical review of useful life and amortisation method

For an intangible asset with a finite useful life, review of its useful life and amortisation method is performed at each year-end, with adjustment made as appropriate.

(d) Research and development

The expenditure on an internal research and development project is classified into expenditure on the research phase and expenditure on the development phase based on its nature and whether there is material uncertainty that the research and development activities can form an intangible asset at end of the project.

Expenditure on the research phase is recognised in profit or loss in the period in which it is incurred. Expenditure on the development phase is capitalised only if all of the following conditions are satisfied:

it is technically feasible to complete the research and development project so that it will be available for use or sale;

management intends to complete the research and development project, and use or sell it;

it can be demonstrated how the research and development project will generate economic benefits;

there are adequate technical, financial and other resources to complete the development and the ability to use or sell the research and development project; and

the expenditure attributable to the research and development project during its development phase can be reliably measured.

**Table of Contents**

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(17) Intangible assets** *(continued)*

(d) Research and development *(continued)*

Other development expenditures that do not meet the conditions above are recognised in profit or loss in the period in which they are incurred. Development costs previously recognised as expenses are not recognised as an asset in a subsequent period. Capitalised expenditure on the development phase is presented as development costs in the balance sheet and transferred to intangible assets at the date that the asset is ready for its intended use.

(e) Impairment of intangible assets

When the recoverable amount of an intangible asset is less than its carrying amount, a provision for impairment and an impairment loss are recognised for the amount by which the asset's carrying amount exceeds its recoverable amount (Note 2 (19)).

**(18) Long-term prepaid expenses**

Long-term prepaid expenses mainly include the catalyst expenditures, leasehold improvements and other expenditures that have been incurred but should be recognised as expenses over more than one year in the current and subsequent periods. Long-term prepaid expenses with the book value net of estimated residual value are amortised on the straight-line basis over the expected beneficial periods and are presented at actual expenditure net of accumulated amortisation.

Catalyst expenditures are amortized on a straight-line method within 2 to 5 years.

**(19) Impairment of long-term assets**

Fixed assets, construction in progress, intangible assets with finite useful lives, long-term prepaid expenses, investment properties measured using the cost model and long-term equity investments in subsidiaries, joint ventures and associates are tested for impairment if there is any indication that the assets may be impaired at the balance sheet

date. If the result of the impairment test indicates that the recoverable amount of an asset is less than its carrying amount, a provision for impairment and an impairment loss are recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and the present value of the future cash flows expected to be derived from the asset. Provision for asset impairment is determined and recognised on the individual asset basis. If it is not possible to estimate the recoverable amount of an individual asset, the recoverable amount of a group of assets to which the asset belongs is determined. A group of assets is the smallest group of assets that is able to generate independent cash inflows.

Once the above asset impairment loss is recognised, it will not be reversed for the value recovered in the subsequent periods.

**Table of Contents**

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(20) Safety production costs**

According to the decision of the State Council on Further Strengthening the work of production safety (Guofa No.2 2004), Shanghai Municipal Government to implement the State Council on Further Strengthening corporate safety work notice (Hufufa No.35 2010) and Safe production costs extraction and use of management practices (Caiqi No. 16 2012) issued by the Ministry of Finance and the national production safety supervision administration on 2 February 2012, The Group extracted safety production costs in a certain percentage of sales revenue from the dangerous goods in previous year, which is used for safety costs.

The safety production costs, accrued in accordance with the above regulations, shall be charged in relevant costs or profit and loss, and in the specific reserve. Safety production costs, which belong to expenses, directly offset the special reserves. If the costs formed into fixed assets, the special reserves shall be offset according to the cost forming into fixed assets, and recognize the same amount of accumulated depreciation. This fixed asset shall no longer accrue depreciation in the following period.

**(21) Employee benefits**

Employee benefits include short-term employee benefits, post-employment benefit and termination benefits provided in various forms of consideration in exchange for service rendered by employees or compensations for the termination of employment relationship.

**(a) Short-term employee benefits**

Short-term employee benefits include employee wages or salaries, bonus, allowances and subsidies, staff welfare, premiums or contributions on medical insurance, work injury insurance and maternity insurance, housing funds, union running costs and employee education costs, short-term paid absences. The employee benefit liabilities are recognised in the accounting period in which the service is rendered by the employees, with a corresponding charge to the profit or loss for the current period or the cost of relevant assets. Employee benefits which are non-monetary benefits are measured at fair value.

**(b) Post-employment benefits**

The Group classifies post-employment benefit plans as either defined contribution plans or defined benefit plans. Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into a separate fund and will have no obligation to pay further contributions; and Defined benefit plans are post-employment benefit plans other than defined contribution plans. During the reporting period, the Group's post-employment benefits mainly include basic pensions, unemployment insurance and supplemental basic pensions, all of which belong to the defined contribution plans.

**Table of Contents**

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** (continued)

**(21) Employee benefits** (continued)

(b) Post-employment benefits (continued)

Basic pensions

The Group's employees participate in the basic pension plan set up and administered by local authorities of Ministry of Human Resource and Social Security. Monthly payments of premiums on the basic pensions are calculated according to prescribed bases and percentage by the relevant local authorities. When employees retire, the relevant local authorities are obliged to pay the basic pensions to them. The amounts based on the above calculations are recognised as liabilities in the accounting period in which the service has been rendered by the employees, with a corresponding charge to the profit or loss for the current period or the cost of relevant assets.

(c) Termination benefits

When the Group terminates the employment relationship with employees before the employment contracts expire, or provides compensation as an offer to encourage employees to accept voluntary redundancy, a provision for the termination benefits provided is recognised in profit or loss when both of the following conditions are satisfied:

The Group has a formal plan for the termination of employment or has made an offer to employees for voluntary redundancy, which will be implemented shortly.

The Group is not allowed to withdraw from termination plan or redundancy offer unilaterally. Termination benefits expected to be paid in one year are listed as current liabilities.

**(22) Profit distribution**

Proposed profit distribution is recognised as a liability in the period in which it is approved by the Shareholders meeting.

**Table of Contents**

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(23) Provisions**

Provisions for contingent liabilities etc. are recognised when the Group has a present obligation, it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount of the obligation can be measured reliably.

A provision is initially measured at the best estimate of the expenditure required to settle the related present obligation. Factors surrounding a contingency, such as the risks, uncertainties and the time value of money, are taken into account as a whole in reaching the best estimate of a provision. Where the effect of the time value of money is material, the best estimate is determined by discounting the related future cash outflows. The increase in the discounted amount of the provision arising from passage of time is recognised as interest expense.

The carrying amount of provisions is reviewed at each balance sheet date and adjusted to reflect the current best estimate.

**(24) Revenue recognition**

The amount of revenue is determined in accordance with the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Group's activities. Revenue is shown net of discounts and returns.

Revenue is recognised when the economic benefits associated with the transaction will flow to the Group, the related revenue can be reliably measured, and the specific revenue recognition criteria have been met for each type of the Group's activities as described below:

(a) Sale of goods

Revenue from sale is recognised when all of the general conditions stated above and the following conditions are satisfied: the significant risks and rewards of ownership of goods have been transferred to the buyer, as well as the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold. The Group recognizes revenue when goods are sent to designated place and confirmed receipt by customers according to the terms of contract.

(b) Rendering of services

Revenue from the rendering of services is recognised using the percentage of completion method, with the stage of completion being determined based on proportion of costs incurred to date to the estimated total costs.

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(24) Revenue recognition** *(continued)*

(c) Transfer of asset use rights

Interest income is recognised on a time-proportion basis using the effective interest method.

Income from an operating lease is recognised on a straight-line basis over the period of the lease.

**(25) Government grants**

Government grants are transfers of monetary assets or non-monetary assets from the government to the Group at no consideration, including tax refund and financial subsidies etc.

A government grant is recognised when there is reasonable assurance that the grant will be received and that the Group will comply with the conditions attaching to the grant. If a government grant is in the form of a transfer of a monetary asset, it is measured at the amount that is received or receivable. If a government grant is in the form of a transfer of a non-monetary asset, it is measured at its fair value, or nominal amount when fair value not reliably measured.

A government grant related to an asset means grant that used for acquisition, construction or otherwise to form

long-term assets. A government grant related to income is grant in addition to government grant related to an asset.

A government grant related to an asset is recognised initially as deferred income and amortised to profit or loss on a straight-line basis over the useful life of the asset. A grant measured at nominal amount is recognised in profit or loss for the period immediately.

A government grant related to income that compensates the Group for expenses to be incurred in the subsequent periods is recognised initially as deferred income and recognised in profit or loss in the same periods in which the expenses are recognised. A grant that compensates the Group for expenses incurred is recognised in profit or loss immediately.

**Table of Contents**

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(26) Deferred tax assets and deferred tax liabilities**

Deferred tax assets and deferred tax liabilities are calculated and recognised based on the differences arising between the tax bases of assets and liabilities and their carrying amounts (temporary differences). Deferred tax asset is recognised for the deductible losses that can be carried forward to subsequent years for deduction of the taxable profit in accordance with the tax laws. No deferred tax liability is recognised for a temporary difference arising from the initial recognition of goodwill. No deferred tax asset or deferred tax liability is recognised for the temporary differences resulting from the initial recognition of assets or liabilities due to a transaction other than a business combination, which affects neither accounting profit nor taxable profit (or deductible loss). At the balance sheet date, deferred tax assets and deferred tax liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled.

Deferred tax assets are only recognised for deductible temporary differences, deductible losses and tax credits to the extent that it is probable that taxable profit will be available in the future against which the deductible temporary differences, deductible losses and tax credits can be utilised.

Deferred tax liabilities are recognised for temporary differences arising from investments in subsidiaries, associates and joint ventures, except where the Group is able to control the timing of reversal of the temporary difference, and it is probable that the temporary difference will not reverse in the foreseeable future. When it is probable that the temporary differences arising from investments in subsidiaries, associates and joint ventures will be reversed in the foreseeable future and that the taxable profit will be available in the future against which the temporary differences can be utilised, the corresponding deferred tax assets are recognised.

Deferred tax assets and liabilities are offset when:

the deferred taxes are related to the same tax payer within the Group and the same taxation authority;  
and

that tax payer within the Group has a legally enforceable right to offset current tax assets against current tax liabilities.

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(27) Leases**

A finance lease is a lease that transfers substantially all the risks and rewards incidental to ownership of an asset. An operating lease is a lease other than a finance lease. Lease payments under an operating lease are recognised on a straight-line basis over the period of the lease, and are either capitalised as part of the cost of related assets, or charged as an expense for the current period.

**(28) Related parties**

If a party has the power to control, jointly control or exercise significant influence over another party, or vice versa, or where two or more parties are subject to common control or joint control from another party, they are considered to be related parties. Related parties may be individuals or enterprises. Enterprises with which the Company is under common control only from the State and that have no other related party relationships are not regarded as related parties of the Group. Related parties of the Group and the Company include, but are not limited to:

- a. the Company's parent;
- b. the Company's subsidiaries;
- c. enterprises that are controlled by the Company's parent;
- d. investors that have joint control or exercise significant influence over the Group;
- e. enterprises or individuals if a party has control or joint control over both the enterprises or individuals and the Group;
- f. joint ventures of the Group, including subsidiaries of joint ventures;

- g. associates of the Group, including subsidiaries of associates;
- h. principal individual investors of the Group and close family members of such individuals;
- i. key management personnel of the Group and close family members of such individuals;
- j. key management personnel of the Company's parent company;
- k. close family members of key management personnel of the Company's parents; and
- l. other enterprises that are controlled or jointly controlled by principal individual investors, key management personnel of the Group, or close family members of such individuals.

**(28) Related parties** (continued)

In addition to the related parties stated above determined in accordance with the requirements of CAS, the following enterprises and individuals (but not limited to) are considered as related parties based on the disclosure requirements of Administrative Procedures on the Information Disclosures of Listed Companies issued by the CSRC:

- m. enterprises or individuals that act a concert, that hold 5% or more of the Company's shares;
- n. individuals who directly or indirectly hold more than 5% of the Company's shares and their close family members, supervisors of the listed companies and their close family members;
- o. enterprises that satisfied any of the aforesaid conditions in (a), (c) or (m) during the past 12 months or will satisfy them within the next 12 months pursuant to a relevant agreement;
- p. individuals who satisfied any of the aforesaid conditions in (i), (j) or (n) during the past 12 months or will satisfy them within the next 12 months pursuant to a relevant agreement; and
- q. enterprises, other than the Company and the subsidiaries controlled by the Company, which are controlled directly or indirectly by an individual defined in (i), (j), (n) or (p), or in which such an individual assumes the position of a director or senior executive.

**(29) Segment information**

The Group identifies operating segments based on the internal organisation structure, management requirements and internal reporting system, and discloses segment information of reportable segments which is determined on the basis of operating segments.

An operating segment is a component of the Group that satisfies all of the following conditions: (1) the component is able to earn revenues and incur expenses from its ordinary activities; (2) whose operating results are regularly reviewed by the Group's management to make decisions about resources to be allocated to the segment and to assess its performance, and (3) for which the information on financial position, operating results and cash flows is available to the Group. If two or more operating segments have similar economic characteristics and satisfy certain conditions, they are aggregated into one single operating segment.

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(30) Changes in significant accounting policies**

In 2014, the Ministry of Finance of the PRC issued CAS 39 Fair Value Measurement, CAS 40 Joint arrangement, CAS 41 Disclosure of Interests in Other Entities, and CAS 2 Long-Term Equity Investments (revised), CAS 9 Employee Benefits (revised), CAS 30 Presentation of Financial Statements (revised), CAS 33 Consolidated Financial Statements (revised) and CAS 37 Presentation of Financial Instrument (revised) should be applied from

1 July 2014 other than CAS 37 Presentation of Financial Instrument (revised) being required to be implemented for financial statements of annual 2014 and ever since.

The Group has adopted the above new standards to prepare the financial statements for the year ended 31 December 2014. The above new standards have no impact on the Group except for CAS 30 Presentation of Financial Statements (revised) and CAS 41 Disclosure of Interests in Other Entities, and the major impacts are as follows:

|  |                                    |
|--|------------------------------------|
| Details and reasons for changes of accounting policies | Financial statement items affected |
|--|------------------------------------|

|   |                          |
|---|--------------------------|
| Several items on the face of the financial statements have been revised or added and the comparative financial information has been adjusted accordingly in compliance with the above prescribed standards. | Refer to the table below |
|---|--------------------------|

|  |                 |
|--|-----------------|
| Disclosure in relation to the interests of the Group in other entities has been prepared under the Accounting Standard for Business Enterprises No. 41 - Disclosure of Interests in Other Entities. The financial information of the comparative period has been adjusted accordingly. | Refer to Note 6 |
|--|-----------------|

As at 31 December 2013, the influenced financial item and the related amount of the first item mentioned above is as follows:

|  |                   |                  |
|--|-------------------|------------------|
|  | Before adjustment | After adjustment |
|--|-------------------|------------------|

|                               |         |         |
|-------------------------------|---------|---------|
| Deferred income               |         | 180,000 |
| Other non-current liabilities | 180,000 |         |

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(31) Significant accounting policies and accounting estimates**

The Group continually evaluates the critical accounting estimates and key judgments applied based on historical experience and other factors, including expectations of future events that are believed to be reasonable.

The critical accounting estimates and key assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next accounting year are outlined below:

(i) Estimated useful life and residual value of fixed assets

The Group assessed the reasonableness of estimated useful life of fixed assets in line with the historical experience on the basis of similar function or characteristic for the assets. If there are significant changes in estimated useful lives and residual value from previous years, the depreciation expenses for future periods are adjusted.

The Group reviews and adjusts the useful lives and estimated residual value of the assets regularly at the end of each year end.

(ii) Impairment of long-term assets

Long-term assets are reviewed for impairment at each balance sheet date when events or changes in circumstance have indicated that their carrying amounts may not be recoverable. If any such evidence indicated that their carrying amounts may not be recoverable, the carrying amounts exceed the recoverable amounts would be recognized as impairment loss and accounted in current profit or loss.

The recoverable amount of an asset (or an asset group) is the greater of its net selling price and its present value of expected future cash flows. In assessing value in use, significant judgements are exercised over the assets (or the asset group s) production and sales, selling prices, related operating expenses and discount rate to calculate the present value. All relevant materials which can be obtained are used for estimation of the recoverable amount, including the estimation of the production, selling prices and related operating expenses based on reasonable and supportable assumptions.

(iii) Impairment for bad debts

Management estimates impairment losses for bad debts resulting from the inability of the customers to make the required payments. Management bases the estimates on the ageing of the accounts receivable balance, customer credit-worthiness, and historical write-off experience. If a change in the estimated recoverable amount, impairment losses would be adjusted.

**Table of Contents**

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**2 Summary of significant accounting policies and accounting estimates** *(continued)*

**(31) Significant accounting policies and accounting estimates** *(continued)*

(iv) Inventory provision

Any excess of the cost over the net realisable value of each item of inventories is recognised as a provision for diminution in the value of inventories. Net realisable value represents the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Management bases the estimates on all available information, including the current market prices of the finished goods and raw materials, and historical cost of sales. If the actual selling prices were to be lower or the costs of completion were to be higher than estimated, the actual allowance for diminution in value of inventories could be higher than estimated.

(v) Income taxes

There are many transactions and events for which the ultimate tax determination is uncertain during the ordinary course of business. Significant judgment is required from the Group in determining the provision for income taxes in each of these jurisdictions. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

In addition, the Group recognises deferred tax assets only to the extent that it is probable that future taxable profit will be available against the assets which can be realised or utilized. If profit forecasts deviate from original estimates, the deferred tax assets will need to be adjusted in future, which has significant impact on profit.

In making the assessment of whether it is probable the Group will realise or utilise the deferred tax assets, management primarily relies on the generation of future taxable income to support the recognition of deferred tax assets. In order to fully utilise the deferred tax assets recognised at 31 December 2014, the Group would need to generate future taxable income of at least RMB 3,660 million, of which RMB 2,371 million is required to be generated by 2017, prior to the expiration of the unused tax losses generated in 2012. In addition, further taxable income of RMB 833 million is required to be generated by the Company by 2019, prior to the expiration of the unused tax losses generated in 2014. Based on estimated forecast and historical experience, management believes that it is probable that the Group will generate sufficient taxable income before the unused tax losses expire.

**Table of Contents****Notes to the Financial Statements** (continued)

FOR THE YEAR ENDED 31 December 2014

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)**[English Translation for Reference Only]***3 Taxation**

The main categories and rates of taxes applicable to the Group are set out below:

| Category                              | Tax base   | Tax rate  |
|---------------------------------------|--|---|
| Enterprise income tax                 | Taxable income   | 25%   |
| Value added tax ( VAT ) (a)           | Taxable value added amount<br>(Tax payable is calculated using the taxable sales amount multiplied by the applicable tax rate less deductible VAT input of current year) | 6%, 11%, 13% and 17%  |
| Business tax (a)                      | Taxable turnover amount  | 5%  |
| Consumption tax                       | Taxable sales amount   | Gasoline: RMB<br>1,388~1,943 per ton;<br>Diesel oil: RMB<br>940.8~1,294 per ton |
| City maintenance and construction tax | Consumption tax payable, business tax payable and VAT payable  | 1% and 7%   |

- (a) Pursuant to the Circular on the Pilot Plan for Levying VAT in Place of Business Tax (Caishui No.110, 2011) and the Circular on the Pilot Practice of Levying VAT in Place of Business Tax for the Transportation Industry and Some Modern Service Industries in Shanghai (Caishui No.111, 2011) jointly issued by the Ministry of Finance and the State Administration of Taxation, revenue from transportation industry, modern service industries tangible assets rental income, port service and warehousing service are subject to VAT since 1 January 2012, the applicable tax rate of tangible assets rental income is 17%, revenue from transportation industry is 11%, modern service, port service and warehousing service income is 6%.

There are no collateral over the above accounts receivable with provision for bad debts.

- (d) In 2014, the Group assessed the impairment on an individual basis in accordance with the accounting policy as described in Note 2(10), and there were no provision for accounts receivable that are individually significant or insignificant but assessed for impairment individually.
- (e) In 2014, the Group had no accounts receivable with fully or substantially write-off or write-back of bad debts which had been fully or substantially provided for in prior years.
- (f) The Group had no material accounts receivable that are written off during the year.
- (g) As at 31 December 2014, the top five accounts receivable are summarized as follows:

|  | Amount    | Provision for<br>bad<br>debts | Percentage of<br>total<br>accounts receivable (%) |
|--|-----------|-------------------------------|---|
| Total amount of the top five accounts receivable | 1,154,922 |                               | 70.93%  |

- (h) Accounts receivable derecognized due to the transfer of financial assets this year amounted to RMB 352,753 thousands (2013: RMB 686,774 thousands), the relating amount recorded in financial expenses was RMB 2,372 thousands (2013: RMB 4,087 thousands).
- (i) As at 31 December 2014, the Group pledged accounts receivable with amount of RMB 76,711 thousands to issue letters of credit (31 December 2013: Nil).

FOR THE YEAR ENDED 31 December 2014

(All amounts in thousands of Renminbi Yuan unless otherwise stated)

[English Translation for Reference Only]

**4 Notes to the consolidated financial statements** (continued)**(6) Advances to suppliers**

|   | <b>31 December 2014</b> | 31 December 2013 |
|---|-------------------------|------------------|
| Amounts advance to related parties<br>(Note 8(6)) | <b>28,447</b>           | 1                |
| Amounts advance to third parties                  | <b>2,651</b>            | 5,929            |
|   | <b>31,098</b>           | 5,930            |

(a) The ageing of advances to suppliers is analysed as follows:

|                 | <b>31 December 2014</b> |                           | 31 December 2013 |                    |
|-----------------|-------------------------|---------------------------|------------------|--------------------|
|                 | <b>Amount</b>           | <b>% of total balance</b> | Amount           | % of total balance |
| Within one year | <b>31,098</b>           | <b>100%</b>               | 5,930            | 100%               |

As at 31 December 2014 and 31 December 2013, all advances to suppliers were aged within one year.

(b) As at 31 December 2014, the total amount of the top five advances to suppliers are summarized as follows:

|   | Amount | Percentage of total advances<br>to suppliers (%) |
|---|--------|--|
| Total amount of the top five advances to<br>suppliers | 29,591 | 95.16%   |

**(7) Inventories**

(a) Inventories by categories are as follows:

|                             | 31 December 2014                    |                |                  | 31 December 2013                    |                |                  |
|-----------------------------|-------------------------------------|----------------|------------------|-------------------------------------|----------------|------------------|
|                             | Provision for declines in the value |                |                  | Provision for declines in the value |                |                  |

|                                  |                                     | (11,590)                    |                                     | (14,479)                    |

## (c) Deductible temporary differences and deductible losses that are not recognised as deferred tax assets are analysed as follows:

|                                  | 31 December 2014 | 31 December 2013 |
|----------------------------------|------------------|------------------|
| Deductible temporary differences | 530,061          | 481,015          |
| Deductible losses                | 353,952          | 402,138          |
|                                  | 884,013          | 883,153          |

As accounting policies stated in Note 2(26), as it is not probable that future taxable income against which the losses can be utilised will be available in a subsidiary of the Company, Zhejiang Jinyong Acrylic Fibre Company Limited ( Jinyong ) and Shanghai Golden Conti Petrochemical Company Limited ( Jindi ). The Group has not recognised deferred tax assets in respect of Jinyong's impairment loss on fixed assets of RMB 432,579 thousands (31 December 2013: RMB 432,579 thousands), provision for decline in value of inventories of RMB 46,190 thousands (31 December 2013: RMB 46,190 thousands), and Jindi's provision for decline in value of inventories of RMB 48,750 thousands (31 December 2013: Nil).

As accounting policies stated in Note 2(26), the Group has not recognised deferred tax assets in respect of Jinyong's accumulated losses of RMB 187,599 thousands (31 December 2013: RMB 261,381 thousands), Toufa's accumulated losses of RMB 88,034 thousands (31 December 2013: RMB 90,179 thousands), Jindi's accumulated losses of RMB 47,061 thousands (31 December 2013: RMB 25,452 thousands) and Jinshan Hotel's accumulated losses of RMB 31,258 thousands (31 December 2013: RMB 25,126 thousands). As it is not probable that future taxable profit against which the losses can be utilised will be available for the Group pursuant to latest tax laws, these accumulated losses will expire from 2015 to 2019.

## (b) Defined contribution plans payable (continued)

As stipulated by the regulations of the PRC, the Group participates in a defined contribution retirement plan organised by the Shanghai Municipal Government for its staff.

In addition, pursuant to the document Order of the Ministry of Labour and Social Security No.20 dated 6 January 2004 issued by the Ministry of Labour of the PRC, the Group has set up a supplementary defined contribution retirement plan for the benefit of employees. Employees who have served the Group for more than one year may participate in this plan. The Group and participating employees make defined contributions to their pension saving accounts according to the plan. The assets of this plan are held separately from those of the Group in an independent fund administered by a committee consisting of representatives from the employees and the Group.

The Group has no other material obligation for the payment of pension benefits associated with these plans beyond the annual contributions described above. In 2014, the Group's contribution to the above two plans amounted to RMB 277,167 thousands and RMB 72,998 thousands respectively (2013: RMB 277,253 thousands and RMB 69,735 thousands, respectively).

The Company was founded in Shanghai, PRC on 29 June 1993 with registered capital of RMB 4,000,000,000 invested by its holding company-China National Petrochemical Corporation; these shares were converted from assets of former Shanghai Petrochemical Complex.

Approved by Zheng Wei Fa No. [1993]30 issued by the State Council Securities Committee, the Company launched its Initial Public Offering ( IPO ) in July 1993 and September 1993 in Hong Kong, New York, Shanghai and Shenzhen to issue 2.23 billion shares, including 1.68 billion H shares and 550 million A shares. The 550 million A shares included 400 million individual shares (including 150 million shares issued to SPC employees) and 150 million legal person shares. H shares were listed on the Hong Kong Stock Exchange on 26 July 1993, and listed on the New York Stock Exchange in the form of American Depositary Shares at the same time; the A shares were listed on the Shanghai Stock Exchange on 8 November 1993.

After the IPO, the total quantity of shares issued by the Company was 6.23 billion, including 4 billion state-owned shares, 150 million legal person shares, 400 million individual shares, and 1.68 billion H shares.

According to the plan stated in the prospectus issued in July 1993, and approved by the China Securities Regulatory Commission, the Company issued 320 million ordinary A shares with a par value of RMB 1 each at an issuing price of RMB 2.4 each during the period from 5 April to 10 June 1994. These shares were listed on the Shanghai Stock

Exchange on 4 July 1994. By then, the total quantity of shares issued was expanded from 6.23 billion to 6.55 billion.

On 22 August 1996, the Company issued 500 million H shares to overseas investors; on 6 January 1997, another 150 million H shares were issued to overseas investors. By then, the total quantity of shares issued was expanded to 7.2 billion, including 2.33 billion H shares.

In 1998, China National Petrochemical Corporation was restructured to Sinopec Group.

Sinopec Corp. was founded on 28 February 2000 based on the approved assets restructuring of Sinopec Group. As part of the restructuring, the shares of the Company held by the Sinopec Group were injected in Sinopec Corp.; after the restructuring, the ownership of 4 billion state-owned shares of the Company held by the Sinopec Group were transferred to Sinopec Corp., and the shares were changed to state-owned legal person shares in nature.

All the A and H shares rank pari passu in all respects.

Capital verifications of the issued and paid up capital were performed by KPMG Huazhen. Capital verification reports were issued on 27 October 1993, 10 June 1994, 15 September 1996 and 20 March 1997 accordingly.

Pursuant to the Approval on matters relating to the Share Segregation Reform of Sinopec Shanghai Petrochemical Company Limited issued by the State-owned Assets Supervision and Administration Commission of the State Council (State Owned Property [2013] No.443), a General Meeting of A share shareholders was held on 8 July 2013 and passed the resolution of Share Segregation Reform of Sinopec Shanghai Petrochemical Company Limited (Amendment) (the share segregation reform resolution) which was published by the Company on Shanghai Stock Exchange (SSE) website on 20 June 2013.

According to the Share Segregation Reform Resolution, the controlling shareholder of the Company, Sinopec Corp., offered shareholders of circulating A shares 5 shares for every 10 circulating A shares they held on 16 August 2013, aggregating 360,000,000 A shares, for the purpose of obtaining the listing rights of its non-circulating shares in the A Shares market. From 20 August 2013 (the circulation date), all the Company's non-circulating A shares have been granted circulating rights on Shanghai Stock Exchange (SSE). As part of the restricted conditions, Sinopec Corp. committed that all the 3,640,000,000 A shares held were not allowed to be traded on SSE or transferred within 12 months from the circulation date (the restriction period). After the restriction period, Sinopec Corp. can only sell no more than 5 and 10 percent of its total shares within 12 and 24 months, respectively. The former 150,000,000 non-circulating A shares held by social legal persons were also prohibited to be traded on SSE or transferred within 12

months from the circulation date. Meanwhile, Sinopec Corp. also committed in the Share Segregation Reform Resolution that a scheme of converting surplus to share capital (no less than 4 shares for every 10 shares) will be proposed on the board of directors and shareholders meetings within 6 months after the circulation date.

The 15th Meeting of the 7th term of Board of Directors was held on 28 August 2013 and the Company proposed and passed a resolution regarding interim cash dividend for the first half year of 2013 and the conversion of share premium and surplus reserve to share capital. The resolution included a distribution of 5 shares and a cash dividend distribution of RMB 0.5 (tax included) for every 10 shares based on the 7,200,000 thousands ordinary shares as at 30 June 2013. Among the 5 shares distributed, 3.36 shares were converted from share premium of RMB 2,420,841 thousands and 1.64 shares were converted from surplus reserves of RMB 1,179,159 thousands. The resolution were approved by the extraordinary general meeting of shareholders, A share class shareholders meeting and H share class shareholders meeting on 22 Oct 2013, respectively. The above capital reserve and surplus reserve fund conversion was verified by PricewaterhouseCoopers Zhong Tian LLP and a capital verification report (PwC ZT Yan Zi (2014) No. 131) was issued. As at 31 December 2014, total shares of the Company were 10,800,000 thousands.

Since the implementation of share segregation reform resolution on 20 August 2013, the Company's non-circulating A shares had been granted circulating rights. As part of the restricted conditions, 540,000,000 A shares (equivalent to five percent of the total number of Sinopec Shanghai Petrochemical Company's shares) held by Sinopec Corp. and 225,000,000 A shares held by social legal persons had achieved circulation as at 31 December 2014.

**4 Notes to the consolidated financial statements** (continued)**(45) Income tax expenses**

|   | 2014             | 2013    |
|---|------------------|---------|
| Current tax expense for the year based on tax law and regulations | 16,286           | 11,177  |
| Movement of deferred tax  | (230,470)        | 367,974 |
|   | <b>(214,184)</b> | 379,151 |

The reconciliation from income tax calculated based on the applicable tax rates and total (loss)/profit presented in the consolidated financial statements to the income tax expenses is listed below:

|   | 2014             | 2013      |
|---|------------------|-----------|
| Total (loss)/profit   | (914,149)        | 2,392,870 |
| Income tax expenses calculated at applicable tax rates                                  | (228,537)        | 598,218   |
| Tax effect of share of profit of investments accounted for using the equity method      | (11,913)         | (30,167)  |
| Other non-taxable profit  | (10,913)         | (9,918)   |
| Tax effect of non-deductible expenses   | 4,266            | 4,609     |
| Under provision for income tax expense in respect of preceding years                    | 11               | 3,138     |
| Income from disposal of joint ventures and associates                                   | 3,496            |           |
| Utilisation of previously unrecognized tax losses                                       | (536)            | (202,721) |
| Temporary differences for which no deferred income tax asset was recognized in the year | 12,261           | 59        |
| Tax losses for which no deferred income tax asset was recognized in the year            | 17,681           | 15,933    |
| Income tax expenses   | <b>(214,184)</b> | 379,151   |

**Table of Contents****Notes to the Financial Statements** (continued)

FOR THE YEAR ENDED 31 December 2014

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)**[English Translation for Reference Only]***4 Notes to the consolidated financial statements** (continued)**(46) Earnings per share**

## (a) Basic earnings per share

Basic earnings per share is calculated by dividing the consolidated net (loss)/profit attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding:

|   | <b>2014</b>       | 2013       |
|---|-------------------|------------|
| Consolidated net (loss)/profit attributable to ordinary shareholders of the Company | <b>(716,427)</b>  | 2,003,545  |
| Weighted average number of the Company's ordinary shares outstanding (thousands)    | <b>10,800,000</b> | 10,800,000 |
| Basic (loss) /earnings per share  | <b>(0.066)</b>    | 0.186      |

## (b) Diluted earnings per share:

As there are no diluted ordinary shares outstanding, the diluted earnings per share equals the basic earnings per share.

**Table of Contents****Notes to the Financial Statements** (continued)

FOR THE YEAR ENDED 31 December 2014

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)**[English Translation for Reference Only]***5 Change of consolidation scope****(1) Disposal of subsidiary**

(a) Information of annual disposal of subsidiaries are summarized as follows:

| Name of subsidiary                         | Disposal amount | Disposal proportion | Disposal methods | Loss of control point | Basis for loss of control | Net assets of the subsidiary |
|--|-----------------|---------------------|------------------|-----------------------|---------------------------|------------------------------|
| Chen Shan Oil Depot Management Corporation |                 | 100%                | Closed           | 24 June 2014          | Closed                    | RMB 270 thousands            |

As the Company sold its assets located in Chen Shan depot to China Petrochemical Sales Co., Ltd. in 2013, Chen Shan Oil Depot Management Corporation was legally closed by the Company during the year. Therefore, Chen Shan Oil Depot Management Corporation was not consolidated into the Group anymore since the closing date.

**(2) Other**

As at 7 July 2014, China Jinshan Associated Trading Corporation, a subsidiary of the Company, incorporated a wholly owned subsidiary, Shanghai Jinshan Trading Corporation with registered capital of RMB 20,000 thousands. Accordingly, Shanghai Jinshan Trading Corporation was consolidated by the Group. Shanghai Jinshan Trading Corporation was incorporated in China Shanghai Pilot Free Trade Zone and was engaged in import and export of petrochemical products.

(d) Summarised financial information for immaterial associates

|   | 2014   | 2013   |
|---|--------|--------|
| Total net book value of long-term investment as at 31 December 2014 |        |        |
| Total amount calculated by proportion of shareholding               | 47,983 | 62,838 |
| Net profit (i)  | 29,226 | 10,413 |
| Other comprehensive income (i)                                      |        |        |
| Total comprehensive income  | 29,226 | 10,413 |

- (i) Net profit and other comprehensive income had considered the fair value of assets and liabilities at the acquisition date and the adjustment for differences in accounting policies between the Group and the associates.

**7 Segment information**

Segment information is presented in respect of the Group's business segments, the format of which is based on the structure of the Group's internal organisation, management requirement, and internal reporting system.

In a manner consistent with the way in which information is reported internally to the Group's chief operating decision maker for the purposes of resource allocation and performance assessment, the Group identified the following five reportable segments. No operating segments have been aggregated to form the following reportable segments.

The Group evaluates the performance and allocates resources to its operating segments on an operating income basis, without considering the effects of finance expenses, investment income, non-operating income and non-operating expenses. The accounting policies adopted by the operating segments are the same with the policies in summary of significant accounting policies and accounting estimates. The transfer price of intersegment is recognised with cost plus profit method.

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**7 Segment information** *(continued)*

The Group principally operates in five operating segments: petroleum products, intermediate petrochemicals, synthetic fibres, resins and plastics and trading of petrochemical products. Petroleum products, intermediate petrochemicals, synthetic fibres and resins and plastics are produced through intermediate steps from crude oil, the principal raw material. The specific products of each segment are as follows:

- (i) The Group's petroleum products segment is equipped with crude oil distillation facilities used to produce vacuum and atmospheric gas oils used as feedstocks of the Group's downstream processing facilities. Residual oil and low octane gasoline fuels are co-products of the crude oil distillation process. Part of the residual oil is further processed into qualified refined gasoline and diesel oil. In addition, the Group produces a variety of fuels for transportation, industry and household heating usage, such as diesel oil, jet fuel, heavy oil and liquefied petroleum gas.
- (ii) The intermediate petrochemicals segment primarily produces p-xylene, benzene and ethylene oxide. Most of the intermediate petrochemicals produced by the Group are used by the Group as raw materials in the production of other petrochemicals, resins, plastics and synthetic fibres. A portion of the intermediate petrochemicals as well as certain by-products of the production process are sold to outside customers.
- (iii) The synthetic fibres segment produces primarily polyester and acrylic fibres, which are mainly used in the textile and apparel industries.
- (iv) The resins and plastics segment produces primarily polyester chips, low-density polyethylene resins and films, polypropylene resins and PVA granules. The polyester chips are used to produce polyester fibres, coating and containers. Polyethylene resins and plastics are used to produce insulated cable, mulching films and moulded products such as housewares and toys. Polypropylene resins are used for films, sheets and moulded products such as housewares, toys, consumer electronics and automobile parts.
- (v) The Group's trading of petrochemical products segment primarily engages in importing and exporting of petrochemical products.

- (vi) All other operating segments represent the operating segments which do not meet the quantitative threshold for determining reportable segments. These include rental, providing services and a variety of other commercial activities, which are not allocated to the above five operating segments.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items mainly comprise long-term equity investments, deferred tax assets, cash and cash equivalents and its related interest income, investment properties and related depreciation expense, interest-bearing borrowings, interest expenses, and corporate assets and related expenses.

**8 Related parties and related party transactions** (continued)**(7) Commitments with related parties**

Commitments with related parties contracted for by the Group at the balance sheet date but are not yet necessary to be recognized on the balance sheet are as follows:

- (i) Construction and installation cost:

|                                    | <b>31 December 2014</b> | 31 December 2013 |
|------------------------------------|-------------------------|------------------|
| Sinopec Group and its subsidiaries | <b>65,319</b>           | 48,661           |

- (ii) Investment commitments with related parties

|  | <b>31 December 2014</b> | 31 December 2013 |
|--|-------------------------|------------------|
| Capital contribution to Shanghai Secco | <b>111,263</b>          | 122,804          |

Pursuant to the resolution of the 18th meeting of the 7th term of Board of Directors on 5 December 2013, it was approved to make capital contribution of USD 30,017 thousands (RMB 182,804 thousands equivalent) to Shanghai Secco, an associate of the Group. The capital to Shanghai Secco will be contributed in RMB by instalments. The capital contribution is mainly to meet the funding needs of the implementation of the 260,000 tons of AN-2 project ( AN-2 project ), and 90,000 tons of BEU-2 project ( BEU-2 project ).

As at 10 December 2013, the Company contributed the first instalment of RMB 60,000 thousands for AN-2 project. The Capital Verification report of the above contribution has already been issued by PricewaterhouseCoopers Zhong Tian LLP(PwC ZT Yan Zi (2013) No. 872) on 19 December 2013.

As at 5 March 2014, the Company contributed the first instalment of RMB 11,541 thousands for BEU-2 project (Note9 (b)). The Capital Verification report of the above contribution has already been issued by Shanghai Huayi Accounting Firm (Hua Yan Zi (2014) No.002) on 25 March 2014.

Except for the above, the Group and the Company had no other material commitments with related parties at 31 December 2014, which are contracted, but not included in the financial statements.

**Table of Contents****Notes to the Financial Statements** (continued)

FOR THE YEAR ENDED 31 December 2014

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)**[English Translation for Reference Only]***9 Contingent liabilities**

In June 2007, the State Administrative of Taxation issued a tax circular (Circular No.664) to the local tax authorities requesting the relevant local tax authorities to rectify the applicable enterprise income tax ( EIT ) for nine listed companies, which included the Company. After the notice was issued, the Company was required by the relevant tax authority to settle the EIT for 2007 at a rate of 33 percent. To date, the Company has not been requested by the tax authorities to pay additional EIT in respect of any years prior to 2007. There is no further development of this matter during the year ended 31 December 2014. No provision has been made in the financial statements at 31 December 2014 for this uncertainty because management believes it is not probable that the Group will be required to pay additional EIT for tax years prior to 2007(31 December 2013: Nil).

**10 Commitments**

## (1) Capital commitments

Capital expenditures contracted for by the Group at the balance sheet date but are not yet necessary to be recognised on the balance sheet are as follows:

|  | <b>31 December 2014</b> | 31 December 2013 |
|--|-------------------------|------------------|
| Purchase of fixed assets contracted but not provided for   | <b>126,941</b>          | 182,350          |
| Purchase of fixed assets authorised but not contracted for | <b>1,284,433</b>        | 784,400          |
|  | <b>1,411,374</b>        | 966,750          |

## (2) Operating lease commitments

The Group had no material commitments under operating leases as at 31 December 2014 and 2013, which are contracted, but not included in the financial statements.

**11 Events occurring after the balance sheet date**

Pursuant to the resolution of the fifth meeting of the eighth session of the Board of Directors of the Company on 6 January 2015, the proposal regarding the adjustment of the list of participants and the number of share options under

the initial grant of the share option incentive scheme and the proposal regarding the initial grant under the share option incentive scheme were approved.

According to the Company's share option incentive scheme, the grant date of share options was 6 January 2015, and there were a total of 38,760 thousands share options granted to 214 participants. Each share option has a right to purchase an ordinary A share listed in PRC on vesting date at an exercise price of RMB 4.20 under vesting conditions. The total number of underlying stock accounted for 0.359% of the Company's total share capital when granted.

FOR THE YEAR ENDED 31 December 2014

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)**[English Translation for Reference Only]***12 Financial instrument and risk**

The Group's activities expose it to a variety of financial risks: market risk (primarily currency risk and interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

**(1) Market risk****(a) Foreign exchange risk**

The Group's major operational activities are carried out in Mainland China and a majority of the transactions are denominated in RMB. Nevertheless the Group is exposed to foreign exchange risk arising from the recognised assets and liabilities, and future transactions denominated in foreign currencies, primarily with respect to US dollars. The Group's finance department at its headquarters is responsible for monitoring the amount of assets and liabilities, and transactions denominated in foreign currencies to minimise the foreign exchange risk.

As at 31 December 2014 and 31 December 2013, the carrying amounts in RMB equivalent of the Group's assets and liabilities denominated in foreign currencies are summarized below:

|  | 31 December 2014 |         |           |
|--|------------------|---------|-----------|
|  | USD              | Others  | Total     |

|   | 5,757,658        | 452    | 5,758,110 |

As at 31 December 2014, if the foreign currencies had weakened/strengthened by 5% against RMB with all other variables held constant, the Group's net loss for the year would have been 107,395 thousands decreased/ increased (2013: RMB 213,925 thousands increased/decreased in net profit) as a result of foreign exchange gains/losses which is mainly resulted from the translation of USD and EUR denominated short-term borrowings and trade payables.

## (b) Interest rate risk

The Group's interest rate risk arises from short-term and long-term interest bearing borrowings. Financial liabilities issued at floating rates expose the Group to cash flow interest rate risk. Financial liabilities issued at fixed rates expose the Group to fair value interest rate risk. The Group determines the relative proportions of its fixed rate and floating rate contracts depending on the prevailing market conditions. As at 31 December 2014, the Group's short-term and long-term interest bearing borrowings denominated with floating rates amounting to RMB 4,640,875 thousands (31 December 2013: RMB 7,721,826 thousands).

The Group's finance department at its headquarters continuously monitors the interest rate position of the Group. Increases in interest rates will increase the cost of new borrowing and the interest expenses with respect to the Group's

outstanding floating rate borrowings, and therefore could have a material adverse effect on the Group's financial position. The Group makes adjustments timely with reference to the latest market conditions and may enter into interest rate swap agreements to mitigate its exposure to interest rate risk. During the year 2014 and 2013, the Group did not enter into any interest rate swap agreements.

**Table of Contents**

**Notes to the Financial Statements** (continued)

*FOR THE YEAR ENDED 31 December 2014*

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)*

*[English Translation for Reference Only]*

**12 Financial instrument and risk** *(continued)*

**(1) Market risk** *(continued)*

(b) Interest rate risk *(continued)*

As at 31 December 2014, if interest rates on the floating rate borrowings had risen/fallen by 50 basis points while all other variables had been held constant, the Group's net loss would have increased/decreased by approximately RMB 17,403 thousands (31 December 2013: RMB 28,957 thousands decreased/increased in net profit).

**(2) Credit risk**

Credit risk is managed on the grouping basis. Credit risk mainly arises from cash at bank, accounts receivable, other receivables, notes receivable etc.

The Group expects that there is no significant credit risk associated with cash at bank since they are deposited at state-owned banks and other medium or large size listed banks. Management does not expect that there will be any significant losses from non-performance by these counterparties.

In addition, the Group has policies to limit the credit exposure on accounts receivable, other receivables and notes receivable. The Group assesses the credit quality of and sets credit limits on its customers by taking into account their financial position, the availability of guarantee from third parties, their credit history and other factors such as current market conditions. The credit history of the customers is regularly monitored by the Group. In respect of customers with a poor credit history, the Group will use written payment reminders, or shorten or cancel credit periods, to ensure the overall credit risk of the Group is limited to a controllable extent.

As at 31 December 2014, the Group has no significant overdue account receivables (2013: Nil).

**(3) Liquidity risk**

Cash flow forecasting is performed by each subsidiary of the Group and aggregated by the Group's finance department in its headquarters. The Group's finance department at its headquarters monitors rolling forecasts of the Group's

short-term and long-term liquidity requirements to ensure it has sufficient cash and securities that are readily convertible to cash to meet operational needs, while maintaining sufficient headroom on its undrawn committed borrowing facilities from major financial institutions so that the Group does not breach borrowing limits or covenants on any of its borrowing facilities to meet the short-term and long-term liquidity requirements.

At 31 December 2014, the Group's current liabilities exceeded its current assets by RMB 2,974,434 thousands. The liquidity of the Group is primarily dependent on its ability to maintain adequate cash inflow from operations, the renewal of its short-term bank borrowings and on its ability to obtain adequate external financing to support its working capital and meet its debt obligation when they become due. At 31 December 2014, the Group had standby credit facilities with several PRC financial institutions which provided the Group to borrow up to RMB 28,696,100 thousands, of which RMB 22,985,225 thousands was unutilised; the Group had facilities up to RMB 138,210 thousands to issue letters of credit, of which RMB 10,983 thousands was unutilised.

FOR THE YEAR ENDED 31 December 2014

(All amounts in thousands of Renminbi Yuan unless otherwise stated)

[English Translation for Reference Only]

**12 Financial instrument and risk** (continued)**(3) Liquidity risk** (continued)

Management has carried out a detailed review of the cash flow forecast of the Group for the twelve months ending 31 December 2015. Based on such forecast, management believes that adequate sources of liquidity exist to fund the Group's working capital and capital expenditure requirements, and meet its short-term debt obligations as they become due. In preparing the cash flow forecast, management has considered historical cash requirements of the Group as well as other key factors, including the availability of the above-mentioned banking facilities which may impact the operations of the Group during the next twelve-month period. Management is of the opinion that the assumptions used in the cash flow forecast are reasonable.

The financial assets and liabilities of the Group at the balance sheet date are analysed by their maturity date below at their undiscounted contractual cash flows:

|                                     | 31 December 2014 |              |              |              | Total      |

**Table of Contents****Notes to the Financial Statements** (continued)

FOR THE YEAR ENDED 31 December 2014

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)**[English Translation for Reference Only]***13 Fair value estimation**

The level in which fair value measurement is categorised is determined by the level of the fair value hierarchy of the lowest level input that is significant to the entire fair value measurement:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

(1) The Group does not have assets measured at fair value on a recurring or non-recurring basis.

(2) Financial assets and financial liabilities not measured at fair value but disclosed it  
Financial assets and liabilities measured at amortised cost mainly include notes receivable, trade receivables and other receivables, current portion of entrust lendings, short-term borrowings, trade and other payables, notes payable, current portion of non-current liabilities borrowings and long-term borrowings.

As at 31 December 2014, the carrying amounts of these financial assets and liabilities not measured at fair value are a reasonable approximation of their fair value.

**14 Offsetting financial assets and financial liabilities**

(a) Financial assets

The following financial assets are subject to offsetting arrangements:

|  | 31 December 2014 | 31 December 2013 |
|--|------------------|------------------|
| Gross amounts of recognised amounts due from related parties | 1,675,594        | 1,976,496        |
|  | (47,473)         |                  |

Gross amounts of recognised amounts due  
to related parties set off in the balance  
sheet

|   |                  |           |
|---|------------------|-----------|
| Net amounts of amounts due from related<br>parties presented in the balance sheet | <b>1,628,121</b> | 1,976,496 |
|---|------------------|-----------|

**Table of Contents****Notes to the Financial Statements** (continued)

FOR THE YEAR ENDED 31 December 2014

*(All amounts in thousands of Renminbi Yuan unless otherwise stated)**[English Translation for Reference Only]***14 Offsetting financial assets and financial liabilities** (continued)

## (b) Financial liabilities

The following financial liabilities are subject to offsetting arrangements:

|   | <b>31 December 2014</b> | 31 December 2013 |
|---|-------------------------|------------------|
| Gross amounts of recognised amounts due to related parties                                | <b>5,971,508</b>        | 8,851,932        |
| Gross amounts of recognised amounts due from related parties set off in the balance sheet | <b>(47,473)</b>         |                  |
| Net amounts of amounts due to related parties presented in the balance sheet              | <b>5,924,035</b>        | 8,851,932        |

For the financial assets and liabilities subject to the offsetting arrangements above, the relevant financial assets and liabilities of each operating agreement between the Group and the counterparty, Shanghai Secco Petrochemical Company Limited, are settled on a net basis.

**15 Capital management**

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Group's total capital is calculated as shareholder's equity and total liabilities as shown in the consolidated balance sheet. The Group is not subject to external mandatory capital requirements, and manages capital using gearing ratio.

The gearing ratios at 31 December 2014 and 31 December 2013 were as follows:

|  | <b>31 December 2014</b> | 31 December 2013 |
|--|-------------------------|------------------|
| Short-term borrowings (Note 4(17))                         | <b>4,078,195</b>        | 6,484,336        |
| Current portion of non-current liabilities<br>(Note 4(26)) |                         | 609,690          |
| Long-term borrowings (Note 4(28))                          | <b>1,632,680</b>        | 627,800          |
| Less: cash and cash equivalents (Note<br>4(1))             | <b>(279,198)</b>        | (133,256)        |
| Net debt   | <b>5,431,677</b>        | 7,588,570        |
| Add: total Equity  | <b>16,842,018</b>       | 18,090,679       |
| Total Capital  | <b>22,273,695</b>       | 25,679,249       |
| Gearing ratio  | <b>24.39%</b>           | 29.55%           |

- (d) As accounting policies stated in Note 2(10), the following amounts individually significant were subject to bad debt provision in this year, an accumulated bad debt provision for other receivables from the Company's consolidated subsidiary Jinyong was RMB 766,862 thousands (31 December 2013: RMB 735,912 thousands). Jinyong stopped production till now since August 2008. The additions in this year included labor cost, tax expenses and other fixed expenditures, which were paid by the Company on behalf of Jinyong. The Company provided a full bad debt provision based on the assessment on the possibility of recovery of other receivables. No provision was recognised for other receivables which were not individually significant but subject to bad debt provision.
- (e) In 2014, the Company had no other receivable with fully or substantially write-off or write-back of bad debts which had been fully or substantially provided for in prior years.
- (f) In 2014, the Company had no significant other receivable that are written off.

Basis of preparation for extraordinary profit and loss

Pursuant to Announcement [2008] Explanatory Announcement No.1 on Information Disclosure for Companies Offering Their Securities to the Public issued by China Securities regulatory commission (CSRC), extraordinary profit and loss arises in various trading and issues that have no direct relation with the normal operations of a company, or that are related with normal operations but affect the users of the statement to make reasonable judgment of the Company's operation performance and profitability due to the special and occasional nature of such trading and issues.

**2 Reconciliation between financial statements prepared under CAS and IFRS**

The Company is listed on the Stock Exchange of Hong Kong. The Group prepared financial statements under International Financial Reporting Standards (IFRS) which is audited by PricewaterhouseCoopers. There are reconciliation items in the consolidated financial report prepared under CAS and IFRS, the reconciliation items and the amount are listed as follows:

|                            | Net (loss)/profit (Consolidated) |           | Net assets (Consolidated) |                  |
|----------------------------|----------------------------------|-----------|---------------------------|------------------|
|                            | <b>2014</b>                      | 2013      | <b>31 December 2014</b>   | 31 December 2013 |
| Under CAS                  | <b>(716,427)</b>                 | 2,003,545 | <b>16,570,623</b>         | 17,831,617       |
| Adjustments under IFRS:    |                                  |           |                           |                  |

**Table of Contents****C. Supplementary Information to the Financial Statements (continued)**  
*FOR THE YEAR ENDED 31 DECEMBER 2014**(All amounts in thousands of Renminbi Yuan unless otherwise stated)**[English translation for reference only]***2 Reconciliation between financial statements prepared under CAS and IFRS (continued)**

Notes:

**(a) Government grants**

Under CAS, government subsidies defined as capital contributions according to the relevant government requirements are not considered a government grant, but instead should be recorded as an increase in capital reserves.

Under IFRS, such grants are offset against the cost of asset to which the grants are related. Upon transfer to property, plant and equipment, the grant is recognised as income over the useful life of the property, plant and equipment by way of a reduced depreciation charge.

**(b) Safety production costs**

Under CAS, safety production costs should be recognised in profit or loss with a corresponding increase in reserve according to PRC regulations. Such reserve is reduced for expenses incurred for safety production purposes or, when safety production related fixed assets are purchased, is reduced by the purchased cost with a corresponding increase in the accumulated depreciation. Such fixed assets are not depreciated thereafter. Under IFRS, expenses are recognised in profit or loss when incurred, and property, plant and equipment are depreciated with applicable methods.

**3 Return on net assets and earnings per share**

|   | Weighted average return on net assets (%) |        | (Loss)/Earnings per share |       |                |       |
|---|---|--------|---------------------------|-------|----------------|-------|
|   | 2014                                      | 2013   | Basic (RMB)               |       | Diluted(RMB)   |       |
|   | 2014                                      | 2013   | 2014                      | 2013  | 2014           | 2013  |
| Net (loss)/profit attributable to shareholders of the Company                               | <b>(4.165)</b>                            | 11.778 | <b>(0.066)</b>            | 0.186 | <b>(0.066)</b> | 0.186 |
| Net (loss)/profit attributable to shareholders of the Company excluding non-recurring items | <b>(4.686)</b>                            | 9.704  | <b>(0.075)</b>            | 0.153 | <b>(0.075)</b> | 0.153 |

**4 Additional information related to changes in accounting standards**

The Group has changed accounting policies according to the CAS 2 Long-Term Equity Investments (revised) and other eight accounting standards issued by the Ministry of Finance of the PRC. The Group has adopted the above new standards to prepare the financial statements for the year ended 31 December 2014. The above new standards have no impact on the Group except for CAS 30 Presentation of Financial Statements (revised) and CAS 41 Disclosure of Interests in Other Entities (Note 2(30)).

**Table of Contents****Written Confirmation Issued by Directors, Supervisors and Senior Management**
