RAND CAPITAL CORPORATION AND SUBSIDIARY
CONSOLIDATED SCHEDULE OF PORTFOLIO INVESTMENTS

June 30, 2016 (Continued)

(Unaudited)

Notes to the Consolidated Schedule of Portfolio Investments

- (a) At June 30, 2016, restricted securities represented 100% of the fair value of the investment portfolio. Restricted securities are subject to one or more restrictions on resale and are not freely marketable.
- (b) The Date Acquired column indicates the year in which the Corporation first acquired an investment in the company or a predecessor company.
- (c) Each equity percentage estimates the Corporation's ownership interest in the applicable portfolio investment. The estimated ownership is calculated based on the percent of outstanding voting securities held by the Corporation or the potential percentage of voting securities held by the Corporation upon exercise of warrants or conversion of debentures, or other available data. If applicable, the symbol <1% indicates that the Corporation holds an equity interest of less than one percent.
- (d) The Corporation's investments are carried at fair value in accordance with Accounting Standards Codification (ASC) 820 Fair Value Measurements and Disclosures, which defines fair value and establishes guidelines for measuring fair value. At June 30, 2016, ASC 820 designates 100% of the Corporation's investments as Level 3 assets. Under the valuation policy of the Corporation, unrestricted publicly held securities are valued at the average closing bid price for these securities for the last three trading days of the month. Restricted securities are subject to restrictions on resale, and are valued at fair value as determined by the management of the Corporation and submitted to the Board of Directors for approval. Fair value is considered to be the amount that the Corporation may reasonably expect to receive for portfolio securities when sold on the valuation date. Valuations as of any particular date, however, are not necessarily indicative of amounts which may ultimately be realized as a result of future sales or other dispositions of securities and these favorable or unfavorable differences could be material. Among the factors considered in determining the fair value of restricted securities are the financial condition and operating results, projected operations, and other analytical data relating to the investment. Also considered are the market prices for unrestricted securities of the same class (if applicable) and other matters which may have an impact on the value of the portfolio company (see Note 3 Investments to the Consolidated Financial Statements).
- (e) These investments are non-income producing. All other investments are income producing. Non-income producing investments have not generated cash payments of interest or dividends including LLC tax-related distributions within the last twelve months, or are not expected to do so going forward.
- (f) As of June 30, 2016, the total cost of investment securities was approximately \$30.3 million. Net unrealized depreciation was approximately \$2.6 million, which was comprised of \$2.8 million of unrealized appreciation of investment securities and (\$5.4) million of unrealized depreciation of investment securities. At June 30, 2016, the aggregate gross unrealized gain for federal income tax purposes was \$3.0 million and the aggregate gross unrealized loss for federal income tax purposes was (\$5.1) million. The net unrealized loss for federal income tax purposes was \$2.1 million based on a tax cost of \$29.8 million.
- (g) Rand Capital SBIC, Inc. investment.
- (h)

Reduction in cost and value from previously reported balances reflects current principal repayment. There were no principal repayments during the three months ended June 30, 2016.

- (i) Represents interest due (amounts over \$50,000 net of reserves) from investment included as interest receivable on the Corporation's Statement of Financial Position.
- (j) Non-Control/Non-Affiliate Investments are investments that are neither Control Investments nor Affiliate Investments.
- (k) Affiliate Investments are defined by the Investment Company Act of 1940, as amended (1940 Act), as those Non-Control investments in companies in which between 5% and 25% of the voting securities are owned by the Corporation.
- (l) Control Investments are defined by the 1940 Act as investments in companies in which more than 25% of the voting securities are owned by the Corporation or where greater than 50% of the board representation is maintained.
- (m) Payment in kind (PIK) represents earned interest that is added to the cost basis of the investment.

This schedule should be read in conjunction with the Corporation's Consolidated Financial Statements, including the Consolidated Schedule of Portfolio Investments and Notes to the Consolidated Financial Statements.

- (1) Gross additions include increases in the cost basis of investments resulting from new portfolio investment, follow on investments, capitalized interest and the accretion of discounts. Gross additions also include net increases in unrealized appreciation or net decreases in unrealized depreciation, and the movement of an existing portfolio company into this category and out of another category.
- (2) Gross reductions include decreases in the cost basis of investments resulting from principal repayments, sales, note conversions, net increases in unrealized depreciation, net decreases in unrealized appreciation, the exchange of existing securities for new securities and the movement of an existing portfolio company

out of this category and into another category.

- (3) Represents the total amount of interest, fees or dividends credited to income for the portion of the period an investment was included in Control or Affiliate categories, respectively.

RAND CAPITAL CORPORATION AND SUBSIDIARY
CONSOLIDATED SCHEDULE OF PORTFOLIO INVESTMENTS

December 31, 2015 (Continued)

Notes to the Consolidated Schedule of Portfolio Investments

- (a) At December 31, 2015, restricted securities represented 100% of the fair value of the investment portfolio. Restricted securities are subject to one or more restrictions on resale and are not freely marketable. Freed Maxick CPAs P.C. has not audited the business descriptions of the portfolio companies.
- (b) The Date Acquired column indicates the year in which the Corporation acquired its first investment in the company or a predecessor company.
- (c) Each equity percentage estimates the Corporation's ownership interest in the applicable portfolio investment. The estimated ownership is calculated based on the percent of outstanding voting securities held by the Corporation or the potential percentage of voting securities held by the Corporation upon exercise of warrants or conversion of debentures, or other available data. If applicable, the symbol <1% indicates that the Corporation holds an equity interest of less than one percent.
- (d) The Corporation's investments are carried at fair value in accordance with Accounting Standards Codification (ASC) 820 Fair Value Measurements and Disclosures, which defines fair value and establishes guidelines for measuring fair value. At December 31, 2015, ASC 820 designates 100% of the Corporation's investments as Level 3 assets. Under the valuation policy of the Corporation, unrestricted publicly held securities are valued at the average closing bid price for these securities for the last three trading days of the month. Restricted securities are subject to restrictions on resale, and are valued at fair value as determined by the management of the Corporation and submitted to the Board of Directors for approval. Fair value is considered to be the amount that the Corporation may reasonably expect to receive for portfolio securities when sold on the valuation date. Valuations as of any particular date, however, are not necessarily indicative of amounts which may ultimately be realized as a result of future sales or other dispositions of securities and these favorable or unfavorable differences could be material. Among the factors considered in determining the fair value of restricted securities are the financial condition and operating results, projected operations, and other analytical data relating to the investment. Also considered are the market prices for unrestricted securities of the same class (if applicable) and other matters which may have an impact on the value of the portfolio company (see Note 3 Investments to the Consolidated Financial Statements).
- (e) These investments are non-income producing. All other investments are income producing. Non-income producing investments have not generated cash payments of interest or dividends including LLC tax-related distributions within the last twelve months, or are not expected to do so going forward.
- (f) As of December 31, 2015, the total cost of investment securities was approximately \$27.5 million. Net unrealized appreciation was approximately \$9.4 million, which was comprised of \$14.1 million of unrealized appreciation of investment securities and (\$4.7) million related to unrealized depreciation of investment securities. At December 31, 2015, the aggregate gross unrealized gain for federal income tax purposes was \$10.2 million and the aggregate gross unrealized loss for federal income tax purposes was (\$4.4) million. The net unrealized gain for federal income tax purposes was \$5.8 million based on a tax cost of \$31.0 million.
- (g) Rand Capital SBIC, Inc. investment.
- (h) Reduction in cost and value from previously reported balances reflects current principal repayment.

Edgar Filing: RAND CAPITAL CORP - Form 10-Q

- (i) Represents interest due (amounts over \$50,000 net of reserves) from investment included as interest receivable on the Corporation's Statement of Financial Position.
- (j) Non-Control/Non-Affiliate Investments are investments that are neither Control Investments nor Affiliate Investments.
- (k) Affiliate Investments are defined by the Investment Company Act of 1940, as amended (1940 Act), as those Non-Control investments in companies in which between 5% and 25% of the voting securities are owned by the Corporation.
- (l) Control Investments are defined by the 1940 Act as investments in companies in which more than 25% of the voting securities are owned by the Corporation or where greater than 50% of the board representation is maintained.
- (m) Gemcor II, LLC is an unconsolidated significant subsidiary as defined in SEC's Regulation S-X.
- (n) Payment in kind (PIK) represents earned interest that is added to the cost basis of the investment.

This schedule should be read in conjunction with the Corporation's Consolidated Financial Statements, including the Consolidated Schedule of Portfolio Investments and Notes to the Consolidated Financial Statements.

- (1) Gross additions include increases in the cost basis of investments resulting from new portfolio investment, follow on investments, capitalized interest and the accretion of discounts. Gross additions also include net increases in unrealized appreciation or net decreases in unrealized depreciation, and the movement of an existing portfolio company into this category and out of another category.
- (2) Gross reductions include decreases in the cost basis of investments resulting from principal repayments, sales, note conversions, net increases in unrealized depreciation, net decreases in unrealized appreciation, the exchange of existing securities for new securities and the movement of an existing portfolio company out of this category and into another category.
- (3) Represents the total amount of interest, fees or dividends credited to income for the portion of the period an investment was included in Control or Affiliate categories, respectively.

Rand Capital Corporation and Subsidiary

Notes to the Consolidated Financial Statements

For the Six Months Ended June 30, 2016 and 2015

(Unaudited)

Note 1. ORGANIZATION

Rand Capital Corporation (Rand , we , us and our) was incorporated under the laws of New York in February 1969. completed our initial public offering in 1971 as an internally managed, closed-end, diversified, management investment company. We have elected to be treated as a business development company (BDC) under the Investment Company Act of 1940, as amended (the 1940 Act). As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in qualifying assets and provide managerial assistance to the portfolio companies in which we invest. See Item 1. Business Regulation, Regulation as a Business Development Company in our Annual Report on Form 10-K for the year ended December 31, 2015.

The majority of our venture capital investments are completed through our wholly-owned subsidiary, Rand Capital SBIC, Inc. (Rand SBIC), which operates as a small business investment company (SBIC) and has been licensed by the U.S. Small Business Administration (SBA) since 2002. Rand SBIC s predecessor was organized as a Delaware limited partnership and was converted into a New York corporation on December 31, 2008, at which time our operations as a licensed SBIC were continued. Although Rand SBIC was operated as if it were a BDC, it was registered as an investment company under the 1940 Act. In 2012, the SEC granted an Order of Exemption for Rand with respect to the operations of Rand SBIC, and then Rand SBIC filed an election to be regulated as a BDC under the 1940 Act. Rand SBIC s board of directors is comprised of the directors of Rand, a majority of whom are not interested persons of Rand or Rand SBIC.

We operate as an internally managed investment company whereby our officers and employees conduct the business of the Corporation under the general supervision of our Board of Directors. We have not elected to qualify to be taxed as a regulated investment company as defined under Subchapter M of the Internal Revenue Code.

In this Quarterly Report on Form 10-Q, unless the context otherwise requires, we , the Corporation , us , and our refer to Rand Corporation and Rand SBIC.

Our corporate office is located in Buffalo, NY and our website address is www.randcapital.com. We make available free of charge on our website our annual and periodic reports, proxy statements and other information as soon as reasonably practicable after such material is filed with the Securities and Exchange Commission (SEC). Our shares are traded on the NASDAQ Capital Market under the ticker symbol RAND .

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation It is our opinion that the accompanying consolidated financial statements include all adjustments of a normal recurring nature necessary for a fair presentation in accordance with United States generally accepted accounting principles (GAAP) of the consolidated financial position, results of operations, cash flows and statement of changes in net assets for the interim periods presented. Certain information and note disclosures normally included in audited annual consolidated financial statements prepared in accordance with GAAP have been omitted; however, we believe that the disclosures made are adequate to make the information presented herein not misleading.

Our interim results for the six months ended June 30, 2016 are not necessarily indicative of the results for the full year.

Table of Contents

These statements should be read in conjunction with the consolidated financial statements and the notes included in our Annual Report on Form 10-K for the year ended December 31, 2015. Information contained in this filing should also be reviewed in conjunction with our related filings with the SEC prior to the date of this report. Those filings include, but are not limited to, the following:

| | |
|-----------|--|
| N-54A | Election to Adopt Business Development Company status |
| DEF-14A | 2016 Definitive Proxy Statement submitted to shareholders |
| Form 10-K | Annual Report on Form 10-K for the year ended December 31, 2015 |
| Form 10-Q | Quarterly Report on Form 10-Q for the quarter ended March 31, 2016 |

Principles of Consolidation The consolidated financial statements include the accounts of Rand and its wholly-owned subsidiary Rand SBIC. All intercompany accounts and transactions have been eliminated in consolidation.

Fair Value of Financial Instruments The carrying amounts reported in the consolidated statement of financial position of cash, interest receivable, accounts payable and accrued expenses approximate fair value because of the immediate or short-term maturity of these financial instruments.

Fair Value of SBA Debentures In March 2016, the SBIC Funding Corporation completed a pooling of SBA debentures that have a coupon rate of 2.507%, excluding a mandatory SBA annual charge estimated to be 0.804%, resulting in a total estimated fixed rate for ten years of 3.311%. The carrying value of Rand's SBA debentures is a reasonable estimate of fair value because stated interest rates approximate current interest rates that are available for debt with similar terms.

Investment Classification In accordance with the provisions of the 1940 Act, the Corporation classifies its investments by level of control. Under the 1940 Act, **Control Investments** are investments in companies that the Corporation is deemed to **Control** because it owns more than 25% of the voting securities of the company or has greater than 50% representation on the company's board. **Affiliate Investments** are companies in which the Corporation owns between 5% and 25% of the voting securities. **Non-Control/Non-Affiliate Investments** are those companies that are neither **Control Investments** nor **Affiliate Investments**.

Investments - Investments are valued at fair value as determined in good faith by the management of the Corporation and approved by the Board of Directors. The Corporation invests in loan instruments, debt instruments, and equity instruments. There is no single standard for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistent valuation process. The Corporation analyzes and values each investment quarterly, and records unrealized depreciation for an investment that it believes has become impaired, including where collection of a loan or debt security or realization of the recorded value of an equity security is doubtful. Conversely, the Corporation will record unrealized appreciation if it believes that an underlying portfolio company has appreciated in value and, therefore, its equity securities have also appreciated in value. These estimated fair values may differ from the values that would have been used had a ready market for the investments existed and these differences could be material if the Corporation's assumptions and judgments differ from results of actual liquidation events.

Qualifying Assets - All of the Corporation's investments were made in privately held small business enterprises, that were not investment companies, were principally based in the United States, and represent qualifying assets as defined by Section 55(a) of the 1940 Act.

Revenue Recognition - Interest Income - Interest income is recognized on the accrual basis except where the investment is in default or otherwise presumed to be in doubt. In such cases, interest is recognized at the time of receipt. A reserve for possible losses on interest receivable is maintained when appropriate.

Table of Contents

Rand SBIC's interest accrual is also regulated by the SBA's Accounting Standards and Financial Reporting Requirements for Small Business Investment Companies. Under these rules, interest income cannot be recognized if collection is doubtful, and a 100% reserve must be established. The collection of interest is presumed to be in doubt when there is substantial doubt about a portfolio company's ability to continue as a going concern or a loan is in default for more than 120 days. Management also uses other qualitative and quantitative measures to determine the value of a portfolio investment and the collectability of any accrued interest.

After reviewing each of our portfolio companies' performance and the circumstances surrounding each investment, the Corporation ceased accruing interest income on First Wave Products Group, LLC (First Wave), Intrinsic Materials Inc. (Intrinsic) and a portion of the Mercantile Adjustment Bureau, LLC (Mercantile) outstanding loans in 2015 and G-TEC Natural Gas Systems in 2004.

The Corporation holds debt securities in its investment portfolio that contain payment-in-kind (PIK) interest provisions. PIK interest, computed at the contractual rate specified in each debt agreement, is periodically added to the principal balance of the debt and is recorded as interest income. Thus, the actual collection of this interest may be deferred until the time of debt principal repayment.

Revenue Recognition - Dividend Income The Corporation may receive distributions from portfolio companies that are limited liability companies or corporations and these distributions are classified as dividend income on the consolidated statement of operations. Dividend income is recognized on an accrual basis when it can be reasonably estimated.

The Corporation holds preferred equity securities that contain cumulative dividend provisions. Cumulative dividends are recorded as dividend income, and any dividends in arrears are added to the balance of the preferred equity investment. The actual collection of these dividends in arrears may be deferred until such time as the preferred equity is redeemed.

Revenue Recognition - Fee Income - Consists of the revenue associated with the amortization of financing fees charged to the portfolio companies upon successful closing of Rand SBIC financings and income associated with portfolio company board attendance fees. The income associated with the amortization of financing fees was \$9,096 and \$9,000 for the six months ended June 30, 2016 and 2015, respectively. The board fees were \$2,000 and \$5,000 for the six months ended June 30, 2016 and 2015, respectively.

Realized Gain or Loss and Unrealized Appreciation or Depreciation of Investments - Amounts reported as realized gains and losses are measured by the difference between the proceeds from the sale or exchange and the cost basis of the investment without regard to unrealized gains or losses recorded in prior periods. The cost of securities that have, in management's judgment, become worthless are written off and reported as realized losses when appropriate. Unrealized appreciation or depreciation reflects the difference between the fair value of the investments and the cost basis of the investments.

Original Issue Discount Investments may include original issue discount or OID income. This occurs when the Corporation purchases a warrant and a note from a portfolio company simultaneously, which requires an allocation of a portion of the purchase price to the warrant and reduces the note or debt instrument by an equal amount in the form of a note discount or OID. The note is reported net of the OID and the OID is accreted into interest income over the life of the loan. The Corporation recognized \$4,998 and \$7,746 in OID income for the six months ended June 30, 2016 and 2015, respectively. OID income is estimated to be approximately \$5,000 for the remainder of 2016 and \$8,350 for 2017.

Deferred Debenture Costs - The Financial Accounting Standards Board (FASB) issued an Accounting Standard Update 2015-03 (ASU) that required the debt issuance costs be presented as a direct deduction from the related debt liability. Therefore, the SBA debenture origination and commitment costs are presented as a direct deduction from the debt liability (see Note 6). As a result \$199,627 was reclassified from other assets to debentures guaranteed by the SBA in the accompanying consolidated statement of financial position as of December 31, 2015. As of June 30, 2016, the balance in debt issuance costs was \$185,927.

Table of Contents

These costs are amortized ratably over the terms of the SBA debentures and are expensed when the debt is repaid early. Amortization expense was \$13,700 for each of the six months ended June 30, 2016 and 2015. Amortization over the next five years is estimated to be approximately \$27,000 per year.

SBA Debenture - The Corporation had \$8,000,000 in outstanding SBA debentures at June 30, 2016 and December 31, 2015 with a weighted average interest rate of 3.54% as of June 30, 2016. The debentures are presented net of deferred debenture costs (see Note 6). The \$8,000,000 in outstanding SBA leverage matures from 2022 through 2025.

The Corporation has consented to the exercise by the SBA of all rights of the SBA under 13 C.F.R. 107.1810(i) SBA remedies for automatic events of default and has agreed to take all actions that the SBA may so require, which may include our automatic consent to the appointment of SBA or its designee as receiver under Section 311(c) of the Small Business Investment Act of 1958.

Net Assets per Share - Net assets per share are based on the number of shares of common stock outstanding. We do not have any common stock equivalents outstanding.

Supplemental Cash Flow Information - Income taxes paid during the six months ended June 30, 2016 and 2015 was \$1,216,250 and \$2,344,600, respectively. Interest paid during the six months ended June 30, 2016 and 2015 was \$141,050 and \$128,650, respectively. The Corporation converted \$5,051 and \$32,669 of interest receivable into investments during the six months ended June 30, 2016 and 2015, respectively.

Accounting Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Stockholders Equity (Net Assets) - At June 30, 2016 and December 31, 2015, there were 500,000 shares of \$10.00 par value preferred stock authorized and unissued.

On October 22, 2015, the Board of Directors authorized the repurchase of up to 1,000,000 shares of the Corporation's outstanding common stock on the open market through October 22, 2016 at prices that are no greater than the then current net asset value. No shares were repurchased during the six months ended June 30, 2016 and the total treasury shares held was 534,496 shares with a total cost of \$1,447,491 at June 30, 2016. Therefore, at June 30, 2016, the Corporation had authorization to purchase up to an additional 465,504 shares of common stock.

Profit Sharing and Stock Option Plan - In 2001, the stockholders of the Corporation authorized the establishment of an Employee Stock Option Plan (the Option Plan), that provides for the award of stock options to purchase up to 200,000 common shares to eligible employees. In 2002, the Corporation placed the Option Plan on inactive status as it developed a new profit sharing plan for the Corporation's employees in connection with the formation of its SBIC subsidiary. As of June 30, 2016, no stock options had been awarded under the Option Plan. Because Section 57(n) of the 1940 Act prohibits maintenance of a profit sharing plan for the officers and employees of a BDC where any option, warrant or right is outstanding under an executive compensation plan, no stock options will be granted under the Option Plan while any profit sharing plan is in effect with respect to the Corporation.

In 2002, the Corporation established a Profit Sharing Plan (the Plan) for its executive officers in accordance with Section 57(n) of the 1940 Act. Under the Plan, the Corporation will pay its executive officers aggregate profit sharing payments equal to 12% of the net realized capital gains of its SBIC subsidiary, net of all realized capital losses and unrealized depreciation of the SBIC subsidiary, for the fiscal year, computed in accordance with the Plan and the

Corporation's interpretation of the Plan.

Table of Contents

Any profit sharing paid or accrued cannot exceed 20% of the Corporation's net income, as defined in the Plan. For purposes of the 20% profit sharing test, the Corporation interprets net income to be the total of the Corporation's net investment gain (loss) and its net realized gain (loss) on investments, prior to inclusion of the estimated profit sharing obligation. The profit sharing payments are split equally between the Corporation's two executive officers, each of whom is fully vested in the Plan.

The Corporation accrued \$1,411,659 under the Plan for the six months ended June 30, 2016. There were no amounts earned pursuant to the Plan for the six months ended June 30, 2015. Estimated payroll taxes and benefits on the profit sharing under the Plan have been accrued at June 30, 2016. The amounts accrued do not exceed the defined limits under the Plan. During the year ended December 31, 2014, the Corporation approved and accrued \$899,500 under the Plan, of which \$717,500 was paid during the six months ended June 30, 2015.

Income Taxes - The Corporation reviews the tax positions it has taken to determine if they meet a more likely than not threshold for the benefit of the tax position to be recognized in the consolidated financial statements. A tax position that fails to meet the more likely than not recognition threshold will result in either a reduction of a current or deferred tax asset or receivable, or the recording of a current or deferred tax liability. There was \$10,000 in new uncertain tax positions at June 30, 2016. There were no new uncertain tax positions at December 31, 2015.

It is the Corporation's policy to include interest and penalties related to income tax liabilities in income tax expense. There were no amounts recognized for interest or penalties related to tax expense for the six months ended June 30, 2016 or 2015.

Concentration of Credit and Market Risk The Corporation's financial instruments potentially subject it to concentrations of credit risk. Cash is invested with banks in amounts which, at times, exceed insurable limits. Management does not anticipate non-performance by such banks.

At June 30, 2016, Rheonix, Inc. (Rheonix), Outmatch (formerly Chequed Holdings, LLC) (Outmatch), Genicon, Inc. (Genicon), Social Flow, Inc. (Social Flow) and SciAps, Inc. (Sciaps) represented 11%, 8%, 8%, 7% and 7%, respectively, of the fair value of the Corporation's investment portfolio.

Reclassification Certain balances in prior years were reclassified to conform to presentations adopted in 2016.

Note 3. INVESTMENTS

The Corporation's investments are carried at fair value in accordance with Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, which defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements.

Loan investments are defined as traditional loan financings with no equity features. Debt investments are defined as debt financings that include one or more equity features such as conversion rights, stock purchase warrants, and/or stock purchase options. A financing may also be categorized as a debt financing if it is accompanied by the direct purchase of an equity interest in the company.

The Corporation uses several approaches to determine the fair value of an investment. The main approaches are:

Loan and debt securities are valued at cost when it is representative of the fair value of the investment or sufficient assets or liquidation proceeds are expected to exist from a sale of a portfolio company at its estimated fair value.

Table of Contents

The loan and debt securities may also be valued at an amount other than the price the security would command given the rate and related inherent portfolio risk of the investment.

A loan or debt instrument may be reduced in value if it is judged to be of poor quality, collection is in doubt or insufficient liquidation proceeds exist.

Equity securities may be valued using the asset approach, market approach or income approach. The asset approach involves estimating the liquidation value of the portfolio company's assets. To the extent the value exceeds the remaining principal amount of the debt or loan and all other debt securities of the portfolio company, the fair value of such securities is generally estimated to be their cost. However, where value is less than the remaining principal amount of the loan and all other debt securities, the Corporation may discount the value of such securities. The market approach uses observable prices and other relevant information generated by similar market transactions. It may include the use of market multiples derived from a set of comparables to assist in pricing the investment. Additionally, the Corporation adjusts valuations if a subsequent significant equity financing has occurred that includes a meaningful portion of the financing by a sophisticated, unrelated new investor. The income approach employs a cash flow and discounting methodology to value an investment.

ASC 820 classifies the inputs used to measure fair value into the following hierarchy:

Level 1: Quoted prices in active markets for identical assets or liabilities, used in the Corporation's valuation at the measurement date.

Level 2: Quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active, or other observable inputs other than quoted prices.

Level 3: Unobservable and significant inputs to determining the fair value.

Financial assets are categorized based upon the level of judgment associated with the inputs used to measure their fair value.

Any changes in estimated fair value are recorded in the statement of operations as Net increase (decrease) in unrealized appreciation on investments.

Under the valuation policy, the Corporation values unrestricted publicly traded companies, categorized as Level 1 investments, at the average closing bid price for the last three trading days of the reporting period. There were no such Level 1 investments as of June 30, 2016.

In the valuation process, the Corporation values restricted securities, categorized as Level 3 investments, using financial information from these portfolio companies, which may include:

Financial information obtained from each portfolio company, including audited and unaudited statements of operations, balance sheets and operating budgets;

Current and projected financial, operational and technological developments of the portfolio company;

Current and projected ability of the portfolio company to service its debt obligations;

The current capital structure of the business and the seniority of the various classes of equity if a deemed liquidation event were to occur;

Pending debt or capital restructuring of the portfolio company;

Current information regarding any offers to purchase the investment, or recent fundraising transactions;

Current ability of the portfolio company to raise additional financing if needed;

Changes in the economic environment which may have a material impact on the operating results of the portfolio company;

Table of Contents

Internal occurrences that may have an impact (both positive and negative) on the operating performance of the portfolio company;

Qualitative assessment of key management;

Contractual rights, obligations or restrictions associated with the investment; and

Other factors deemed relevant by the Corporation's management to assess valuation.

This information is used to determine financial condition, performance, and valuation of the portfolio companies. The valuation may be reduced if a portfolio company's performance and potential have deteriorated significantly. If the factors that led to a reduction in valuation are overcome, the valuation may be readjusted.

Equity Securities

Equity Securities may include Preferred Stock, Common Stock, Warrants and Limited Liability Company Membership Interests.

The significant unobservable inputs used in the fair value measurement of the Corporation's equity investments are Earnings before interest, tax and depreciation and amortization (EBITDA) and revenue multiples, where applicable, the financial and operational performance of the business, and the senior equity preferences that may exist in a deemed liquidation event. Standard industry multiples may be used when available; however, the Corporation's portfolio companies are typically small and in early stages of development and these industry standards may be adjusted to more closely match the specific financial and operational performance of the portfolio company. Due to the nature of certain investments, fair value measurements may be based on other criteria, which may include third party appraisals. Significant changes to the unobservable inputs, such as variances in financial performance from expectations, may result in a significantly higher or lower fair value measurement. Significant changes in any of these unobservable inputs may result in a significantly higher or lower fair value estimate.

Another key factor used in valuing equity investments is a significant recent arms-length equity transaction with a sophisticated non-strategic unrelated new investor entered into by the portfolio company. The terms of these equity transactions may not be identical to the equity transactions between the portfolio company and the Corporation, and the impact of the difference in transaction terms on the market value of the portfolio company may be difficult or impossible to quantify.

When appropriate the Black-Scholes pricing model is used to estimate the fair value of warrants for accounting purposes. This model requires the use of highly subjective inputs including expected volatility and expected life, in addition to variables for the valuation of minority equity positions in small private and early stage companies. Significant changes in any of these unobservable inputs may result in a significantly higher or lower fair value estimate.

For recent investments, the Corporation generally relies on the cost basis, which is deemed to represent the fair value, unless other fair market value inputs are identified causing the Corporation to depart from this basis.

Loan and Debt Securities

The significant unobservable inputs used in the fair value measurement of the Corporation's loan and debt securities are the financial and operational performance of the portfolio company, similar debt with similar terms with other portfolio companies, as well as the market acceptance for the portfolio company's products or services. These inputs will likely provide an indicator as to the probability of principal recovery of the investment. The Corporation's loan and debt investments are often junior secured or unsecured debt securities. Fair value may also be determined based on other criteria where appropriate. Significant changes to the unobservable inputs may result in a change in fair value. For recent investments, the Corporation generally relies on the cost basis, which is deemed to represent the fair value, unless other fair market value inputs are identified causing the Corporation to depart from this basis.

Table of Contents

The following table provides a summary of the significant unobservable inputs used to determine the fair value of the Corporation's Level 3 portfolio investments as of June 30, 2016:

| Investment Type | Market Approach EBITDA Multiple | Market Approach Liquidation Seniority | Market Approach Revenue Multiple | Market Approach Transaction Pricing | Asset Approach Liquidation Method | Totals |
|--|---------------------------------|---------------------------------------|----------------------------------|-------------------------------------|-----------------------------------|----------------------|

Net realized (losses) on investments for the period included in changes in net assets \$

Table of Contents**NOTE 4. OTHER ASSETS**

At June 30, 2016 and December 31, 2015 other assets was comprised of the following:

| | June 30, 2016 | December 31, 2015 |
|--|--------------------------|------------------------------|
| Escrow receivable from BinOptics Corporation | \$ 1,504,854 | \$ 1,504,854 |
| Prepaid expenses | 52,601 | |
| Dividend receivable | | 86,724 |
| Equipment (net) | 8,684 | 11,676 |
| Operating receivables | 84,395 | 1,159 |
| Total other assets | \$ 1,650,534 | \$ 1,604,413 |

During 2014, the Corporation sold its investment in BinOptics Corporation and a portion of the proceeds are held in escrow and scheduled to be released during 2016.

Note 5. COMMITMENTS AND CONTINGENCIES

The Corporation did not have any commitments to fund any investments as of June 30, 2016.

Note 6. SBA DEBENTURES

Pursuant to Accounting Standard Update 2015-03 (ASU), the debt origination costs directly associated with the SBA debt obligations are presented as a direct deduction for the related debt liability.

| | June 30, 2016 | December 31, 2015 |
|---------------------------------------|--------------------------|------------------------------|
| Debentures guaranteed by the SBA | \$ 8,000,000 | \$ 8,000,000 |
| Less unamortized issue costs | (185,927) | (199,627) |
| Debentures guaranteed by the SBA, net | \$ 7,814,073 | \$ 7,800,373 |

Note 7. FINANCIAL HIGHLIGHTS

The following schedule provides the financial highlights, calculated based on weighted average shares outstanding, for the six months ended June 30, 2016 and the year ended December 31, 2015:

The Corporation's interim period results could fluctuate as a result of a number of factors; therefore results for any interim period should not be relied upon as being indicative of performance for the full year or in future periods.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with the consolidated financial statements and related notes included elsewhere in this report. Historical results and percentage relationships among any amounts in the consolidated financial statements are not necessarily indicative of trends in operating results for any future periods.

FORWARD LOOKING STATEMENTS

Statements included in this Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this report that do not relate to present or historical conditions are forward-looking statements within the meaning of that term in Section 27A of the Securities Act of 1933, as amended, and in Section 21E of the Securities Exchange Act of 1934, as amended. Additional oral or written forward-looking statements may be made by us from time to time, and forward-looking statements may be included in documents that are filed with the Securities and Exchange Commission. Forward-looking statements involve risks and uncertainties that could cause our results or outcomes to differ materially from those expressed in the forward-looking statements. Forward-looking statements may include, without limitation, statements relating to our plans, strategies, objectives, expectations and intentions and are intended to be made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Words such as believes, forecasts, intends, possible, expects, estimates, anticipates, or plans and similar are intended to identify forward-looking statements. Among the important factors on which such statements are based are assumptions concerning the state of the United States economy and the local markets in which our portfolio companies operate, the state of the securities markets in which the securities of the our portfolio companies could be traded, liquidity within the United States financial markets, and inflation. Forward-looking statements are also subject to the risks and uncertainties described under the caption Risk Factors contained in Part II, Item 1A of this report and in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2015.

There may be other factors not identified that affect the accuracy of our forward-looking statements. Further, any forward-looking statement speaks only as of the date when it is made and, except as required by law, we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which it is made or to reflect the occurrence of anticipated or unanticipated events or circumstances. New factors emerge from time to time that may cause our business not to develop as we expect, and we cannot predict all of them.

Overview

We are an internally managed investment company that invests in and lends to small and medium-sized companies primarily in connection with loans or investments made concurrently by other investors. We have elected to be treated as a business development company (BDC) under the Investment Company Act of 1940, as amended (the 1940 Act). As a BDC, we are required to comply with certain regulatory requirements. We make the majority of our investments through our wholly-owned subsidiary, Rand Capital SBIC, Inc. (Rand SBIC), which operates as a small business investment company (SBIC) and has been licensed by the U.S. Small Business Administration (SBA) since 2002. We anticipate that most, if not all, of our investments made in the next year will be originated through Rand SBIC.

Outlook

At the end of the second quarter of 2016, we had approximately \$14.4 million in cash on hand, which is available for future investment and operating needs. We believe the combination of cash on hand and prospective investment income provides sufficient capital for us to continue to add new investments to our portfolio while reinvesting in existing portfolio companies that continue to demonstrate growth potential. The following short and long-term trends

provide us with confidence in our ability to grow Rand:

Table of Contents

We expect that well run U.S. businesses will require capital to continue to grow given the low cost of capital, strong business and consumer spending, and eager reception of new technologies and service concepts. We believe Rand will be able to participate in financing these businesses.

We have sufficient cash on hand to invest in new opportunities.

Given our available cash on hand, we are able to invest larger amounts in companies, which, we believe, will provide an opportunity to accelerate our rate of growth.

We will continue to manage risk by investing with other investors, when possible.

We are actively involved with the governance and management of our portfolio companies, which enables us to support their operating and marketing efforts to facilitate their growth.

As our portfolio continues to expand, we are able to better leverage our infrastructure.

Critical Accounting Policies

We prepare our consolidated financial statements in accordance with United States generally accepted accounting principles (GAAP), which require the use of estimates and assumptions that affect the reported amounts of assets and liabilities. A summary of our critical accounting policies can be found in our Annual Report on Form 10-K for the year ended December 31, 2015 under Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations.

Table of Contents**Financial Condition**

| Overview: | 6/30/16 | 12/31/15 | Increase (Decrease) | % Increase (Decrease) |
|-------------------|----------------|-----------------|--------------------------------|----------------------------------|
| Total assets | \$ 44,573,181 | \$ 44,562,060 | \$ 11,121 | 0.0% |
| Total liabilities | 11,135,133 | 10,708,400 | 426,733 | 4.0% |
| Net assets | \$ 33,438,048 | \$ 33,853,660 | (\$ 415,612) | (1.2%) |

Net asset value per share (NAV) was \$5.28 at June 30, 2016 and \$5.35 at December 31, 2015.

Our outstanding SBA debentures at June 30, 2016 were \$8,000,000 and will mature from 2022 through 2025. Cash approximated 43% of net assets at June 30, 2016 as compared to 17% at December 31, 2015. The change is primarily due to the proceeds from the asset sale of one of our investments, Gemcor II, LLC, in March 2016.

Composition of Our Investment Portfolio

Our financial condition is dependent on the success of our portfolio holdings. We have invested substantially all of our assets in small to medium-sized companies. The following summarizes our investment portfolio at the dates indicated.

| | 6/30/16 | 12/31/15 | Increase (Decrease) | % Increase (Decrease) |
|--|----------------|-----------------|--------------------------------|----------------------------------|
| Investments, at cost | \$ 30,277,284 | \$ 27,410,742 | \$ 2,866,542 | 10.5% |
| Unrealized (depreciation) appreciation, net | (2,619,197) | 9,421,658 | (12,040,855) | (127.8%) |
| Investments at fair value | \$ 27,658,087 | \$ 36,832,400 | (\$ 9,174,313) | (24.9%) |

Our total investments at fair value, as estimated by management and approved by our Board of Directors, approximated 83% of net assets at June 30, 2016 versus 109% of net assets at December 31, 2015 with the change primarily due to the asset sale of one of our investments, Gemcor II, LLC.

The change in investments during the six months ended June 30, 2016, at cost, is comprised of the following:

| | Cost Increase (Decrease) |
|---|---|
| New investments: | |
| eHealth Global Technologies, Inc. (eHealth) | \$ 1,500,000 |
| Genicon, Inc. (Genicon) | 1,100,000 |
| Empire Genomics, LLC (Empire Genomics) | 550,000 |
| ClearView Social, Inc. (Clearview Social) | 200,000 |

Edgar Filing: RAND CAPITAL CORP - Form 10-Q

| | |
|---|---------------------|
| SciAps, Inc. (Sciaps) | 200,000 |
| BeetNPath, LLC (Beetnpath) | 150,000 |
| OnCore Golf Technology, Inc. (Oncore Golf) | 150,000 |
| Knoa Software, Inc. (Knoa) | 48,466 |
| Total of new investments | 3,898,466 |
| Other changes to investments: | |
| GoNoodle, Inc. (GoNoodle) interest conversion | 5,050 |
| Mercantile Adjustment Bureau, LLC (Mercantile) OID amortization | 4,998 |
| Total of other changes to investments | 10,048 |
| Investments repaid, sold or liquidated: | |
| Gemcor II, LLC (Gemcor) repayment | (1,041,972) |
| Total investments repaid, sold or liquidated | (1,041,972) |
| Net change in investments, at cost | \$ 2,866,542 |

Table of Contents**Results of Operations****Investment Income**

Our investment objective is to achieve long-term capital appreciation on our equity investments while investing in a mixture of loan, debenture and equity instruments, which may provide a current return on a portion of the investment portfolio. The equity investments contained in our investment portfolio are structured to realize capital appreciation over the long-term.

Comparison of the six months ended June 30, 2016 to the six months ended June 30, 2015

| | June 30, 2016 | June 30, 2015 | (Decrease) Increase | % (Decrease) Increase |
|--------------------------------------|--------------------------|--------------------------|--------------------------------|--------------------------------------|
| Interest from portfolio companies | \$ 301,035 | \$ 369,293 | (\$ 68,258) | (18.5%) |
| Interest from other investments | 21,709 | 15,190 | 6,519 | 42.9% |
| Dividend and other investment income | 80,797 | 961,788 | (880,991) | (91.6%) |
| Fee income | 11,096 | 14,000 | (2,904) | (20.7%) |
| Total investment income | \$ 414,637 | \$ 1,360,271 | (\$ 945,634) | (69.5%) |

Interest from portfolio companies Interest income from portfolio companies decreased during the six months ended June 30, 2016 versus the six months ended June 30, 2015 due to decreases in the principal balances on loan and debt investments with Gemcor, II, LLC (Gemcor) and Carolina Skiff, LLC (Carolina Skiff), respectively, and the timing of new debt investments in the second quarter of 2016 which should help offset these repayments.

After reviewing their performance and the circumstances surrounding our investments, we ceased accruing interest income on First Wave Products Group, LLC (First Wave), Intrinsiq Materials, Inc. (Intrinsiq), and a portion of the Mercantile Adjustment Bureau, LLC (Mercantile) outstanding loan balances during 2015.

Interest from other investments - The increase in interest from other investments is primarily due to higher average cash balances during the six months ended June 30, 2016 versus the same period in 2015.

Dividend and other investment income - Dividend income is comprised of distributions from limited liability companies (LLCs) and corporations in which we have invested. Our investment agreements with certain LLCs require those LLCs to distribute funds to us for payment of income taxes on our allocable share of the LLC's profits. These portfolio companies may also elect to make additional discretionary distributions. Dividend income will fluctuate based upon the profitability of these LLCs and corporations and the timing of the distributions or the impact of new investments or divestitures. Dividend and other investment income decreased in 2016 due to the asset sale of Gemcor II, LLC during March 2016. The dividend distributions for the respective periods were:

| | June 30, 2016 | June 30, 2015 |
|-------------------------------------|--------------------------|--------------------------|
| Carolina Skiff LLC (Carolina Skiff) | \$ 63,583 | \$ 51,512 |

Edgar Filing: RAND CAPITAL CORP - Form 10-Q

| | | |
|---|-----------|------------|
| SOMS Technologies, LLC (SOMS) | 13,464 | |
| Tilson Technology Management, Inc. (Tilson) | 3,750 | 6,917 |
| Gemcor, II, LLC (Gemcor) | | 903,359 |
| Total dividend and other investment income | \$ 80,797 | \$ 961,788 |

Table of Contents

Fee income - Fee income consists of the revenue associated with the amortization of financing fees charged to the portfolio companies upon successful closing of Rand SBIC financings and income from portfolio company board attendance fees. The financing fees are amortized ratably over the life of the instrument associated with the fees. The unamortized fees are carried on the balance sheet under the line item Deferred revenue.

The income associated with the amortization of financing fees was \$9,096 and \$9,000 for the six months ended June 30, 2016 and 2015, respectively. The income from board fees was \$2,000 and \$5,000 for the six months ended June 30, 2016 and 2015, respectively.

Operating Expenses***Comparison of the six months ended June 30, 2016 to the six months ended June 30, 2015***

| | June 30, 2016 | June 30, 2015 | Increase | % Increase |
|--------------------------|--------------------------|--------------------------|-----------------|-------------------|
| Total operating expenses | \$ 2,428,752 | \$ 825,277 | \$ 1,603,475 | 194.3% |

Operating expenses predominately consist of interest expense on outstanding SBA borrowings, compensation expense, and general and administrative expenses including stockholder and office operating expenses and professional fees.

The increase in operating expenses during the six months ended June 30, 2016 was comprised primarily of a \$1,411,659 increase in bonus and profit sharing expense, a 111%, or \$66,421, increase in employee benefits and a 62%, or \$57,546, increase in professional fees.

Our largest portfolio company, in terms of fair value, Gemcor II, LLC (Gemcor) sold its assets during March 2016 and based on our ownership percentage, we received gross cash proceeds of approximately \$13.8 million, excluding amounts that continue to be held in escrow, and recognized a realized gain, before income taxes, of approximately \$13.2 million from the sale. Related to this asset sale, we accrued \$1,411,659 under our Profit Sharing Plan for the six months ended June 30, 2016, that is payable to our executive officers. There were no amounts earned pursuant to the Profit Sharing Plan for the six months ended June 30, 2015. Estimated payroll taxes and benefits on the profit sharing amounts under our Profit Sharing Plan, in the amount of \$36,000, have been accrued at June 30, 2016 and account for the increase in the employee benefit line.

Professional fees were also higher during the six months ended June 30, 2016 versus the same period in 2015 because we incurred additional expenses in connection with implementing our long-term growth strategy. These expenses included external legal, tax consulting and other advisory expenses to support refinement of our strategy which involved assessing options relative to the complex regulatory environment in which we operate.

Realized Gains and Losses on Investments***Comparison of the six months ended June 30, 2016 to the six months ended June 30, 2015***

| June 30, 2016 | June 30, 2015 | Increase |
|--------------------------|--------------------------|-----------------|
|--------------------------|--------------------------|-----------------|

| | | | |
|--|---------------|------------|---------------|
| Realized gain on investments before income taxes | \$ 13,344,453 | \$ 262,925 | \$ 13,081,528 |
|--|---------------|------------|---------------|

During the first quarter of 2016, our portfolio company Gemcor II, LLC sold its assets, and accordingly, we received gross cash proceeds of \$13,801,313, excluding amounts that continue to be held in escrow, and recognized a realized gain, before income taxes, of \$13,176,313.

Table of Contents

In addition, we recorded a realized gain of \$168,140 during the second quarter of 2016 from the earn out provision in connection with the 2014 sale of QuaDPharma, LLC to Athenex Inc.

During the six months ended June 30, 2015, we recognized a net realized gain, before income taxes, of \$262,925 on the sale of 301,582 shares of Synacor, Inc. (Synacor). We sold our remaining shares of Synacor during the six months ended June 30, 2015.

Change in Unrealized Appreciation of Investments**Comparison of the six months ended June 30, 2016 to the six months ended June 30, 2015**

| | June 30, 2016 | June 30, 2015 | Decrease |
|---|--------------------------|--------------------------|-----------------|
| Change in unrealized appreciation before income taxes | (\$ 12,040,856) | (\$ 321,164) | (\$ 11,719,692) |

The decrease in unrealized appreciation before income taxes for the six months ended June 30, 2016 was comprised of the following:

| | June 30, 2016 |
|---|--------------------------|
| Reclassify Gemcor II, LLC (Gemcor) to a realized gain | (\$ 11,362,500) |
| Knoa Software, Inc. (Knoa) | (422,800) |
| Satisfy, Inc. (Satisfy) | (325,000) |
| Athenex, Inc. (Athenex) | 69,444 |
| Total change in net unrealized appreciation of investments before income taxes during the six months ended June 30, 2016 | (\$ 12,040,856) |

During March of 2016, our portfolio company, Gemcor II, LLC sold its assets and accordingly, we received gross cash proceeds of approximately \$13.8 million and recognized a realized gain, before income taxes, of approximately \$13.2 million. As of June 30, 2016, we continue to own 31% of Gemcor II, LLC, which is the entity that sold substantially all of its assets. After the asset sale, a contingent escrow remains on the books of Gemcor, which we valued at \$1,412,500. Once a plan of liquidation of Gemcor II, LLC is agreed to by all members of the limited liability company, this escrowed amount will be released and a gain will be realized.

The valuation of our investment in Knoa was decreased during the six months ended June 30, 2016 to value our equity holdings at a value consistent with the anticipated pricing for Knoa's future equity financing.

The valuation of our investment in Satisfy was decreased after our management reviewed the portfolio company and its financial condition and determined that a valuation adjustment was necessary.

In accordance with our valuation policy, we increased the value of our investment in Athenex based on a significant equity financing by a new non-strategic outside entity. This new financing used a higher valuation for Athenex than

had been used for its prior financing rounds.

The decrease in net unrealized appreciation before income taxes for the six months ended June 30, 2015 was comprised of the following:

| | June 30, 2015 |
|---|--------------------------|
| Athenex, Inc. (Athenex) (formerly Kinex Pharmaceuticals, Inc.) | \$ 92,592 |
| First Wave Products Group, LLC (First Wave) | (193,436) |
| Synacor, Inc. (Synacor) reclassify to a realized gain | (220,320) |
| Total change in net unrealized appreciation of investments before income taxes during the six months ended June 30, 2015 | (\$ 321,164) |

Table of Contents

In accordance with our valuation policy, we increased the value of our investment in Athenex based on a significant equity financing during 2015 by a new non-strategic outside investor, and the financing used a higher valuation for Athenex than had been used for its prior financing rounds.

The First Wave investment was revalued after our management reviewed the portfolio company and its financial condition and determined that a valuation adjustment was necessary.

Synacor, as a publicly traded stock, is marked to market at the end of each quarter. We sold our remaining shares of Synacor during the six months ended June 30, 2015.

All of these value adjustments resulted from a review by our management using the guidance set forth by ASC 820 and our established valuation policy.

Net (Decrease) Increase in Net Assets from Operations

We account for our operations under GAAP for investment companies. The principal measure of our financial performance is net (decrease) increase in net assets from operations on our consolidated statements of operations. For the six months ended June 30, 2016 and 2015, the net (decrease) increase in net assets from operations was (\$415,612) and \$322,644, respectively.

Liquidity and Capital Resources

Our principal objective is to achieve growth in net asset value per share through capital appreciation. Therefore, a significant portion of our investment portfolio is structured to maximize the potential for capital appreciation and certain portfolio investments may be structured to provide little or no current yield in the form of dividends or interest payments.

As of June 30, 2016, our total liquidity was approximately \$14.4 million in cash on hand.

Management expects that the cash on hand at June 30, 2016, coupled with the scheduled interest payments from our portfolio investments, will be sufficient to meet our liquidity needs through the next twelve months. As a result of the reduction of investment income related to the Gemcor asset sale, we will continue to look for new investments that provide interest and dividend payments so as to provide cash flow to cover operating costs. Future exits from portfolio companies may increase the amount of liquidity available for new investments, operating activities and future SBA debenture obligations.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Our investment activities contain elements of risk. Our investment portfolio consists of equity and debt securities in private companies and is subject to valuation risk. Because there is typically no public market for the equity and debt securities in which we invest, the valuation of the equity interests in the portfolio is stated at fair value as determined in good faith by our management and approved by our Board of Directors. This is in accordance with our investment valuation policy (see the discussion of valuation policy contained in Note 3.-Investments in the consolidated financial statements contained in Item 1 of this report, which is hereby incorporated herein by reference.) In the absence of readily ascertainable market values, the estimated value of the portfolio may differ significantly from the values that would be placed on the portfolio if a ready market for the investments existed. Any changes in valuation are recorded on the consolidated statement of operations as Net change in unrealized depreciation of appreciation on investments.

At times, a portion of our portfolio may include marketable securities traded in the over-the-counter market. In addition, there may be a portion of the portfolio for which no regular trading market exists. In order to realize the full value of a security, the market must trade in an orderly fashion or a willing purchaser must be available when a sale is to be made.

Table of Contents

Should an economic or other event occur that would not allow markets to trade in an orderly fashion, we may not be able to realize the fair value of our marketable investments or other investments in a timely manner.

As of June 30, 2016, we did not have any off-balance sheet arrangements or hedging or similar derivative financial instrument investments.

Item 4. Controls and Procedures

Disclosure Controls and Procedures. The Corporation maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that this information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. The Chief Executive Officer and the Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures as of June 30, 2016. Based on the evaluation of these disclosure controls and procedures, the Chief Executive Officer and Chief Financial Officer concluded that the Corporation's controls and procedures were effective as of June 30, 2016.

Changes in Internal Control over Financial Reporting. There have been no changes in our internal control over financial reporting during the Corporation's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.
