SOLARCITY INCENTIVE PLANS

Overview

On November 21, 2016, Tesla acquired SolarCity. Pursuant to the Merger Agreement, we agreed to assume certain outstanding options with respect to shares of common stock of SolarCity held by former employees of SolarCity. Those stock options were issued by SolarCity pursuant to the (1) SolarCity Corporation Amended and Restated 2012 Equity Incentive Plan (the 2012 Plan) or (2) the SolarCity Corporation 2007 Stock Plan (the 2007 Plan, and together with the 2012 Plan, the Plans).

Upon the effective date of the Merger, each such stock option (excluding certain founder options granted in 2015 to Messrs. Lyndon Rive and Peter Rive, which were cancelled for no consideration as of the effective time of the Merger) was converted into an option (each, an Adjusted Option) to purchase, on the same terms and conditions, the number of shares of Tesla Common Stock (rounded down to the nearest whole share) equal to the product obtained by multiplying (i) the total number of shares of SolarCity Common Stock subject to such SolarCity option immediately prior to the effective time of the Merger by (ii) the Exchange Ratio, at a per-share exercise price (rounded up to the nearest whole cent) equal to the quotient obtained by dividing (A) the exercise price per share of SolarCity Common Stock at which such SolarCity option was exercisable immediately prior to the effective time of the Merger by (B) the Exchange Ratio.

This prospectus supplement discusses only the treatment of the stock options held by former employees of SolarCity that were assumed by Tesla under the Merger Agreement.

The SolarCity Corporation 2007 Stock Plan

The 2007 Plan was terminated in connection with SolarCity's initial public offering in 2012. No further awards may be granted under the 2007 Plan; however, the terms and conditions of the 2007 Plan continue to govern the terms and conditions of the outstanding awards previously granted thereunder, including the Adjusted Options.

Prior to its termination, the 2007 Plan permitted the grant of incentive stock options to SolarCity's employees and any of SolarCity's parent and subsidiary corporations' employees, and for the grant of nonstatutory stock options, stock appreciation rights, restricted stock, and restricted stock units to SolarCity's employees, directors and consultants and SolarCity's parent and subsidiary corporations' employees and consultants.

Authorized Shares

The maximum aggregate number of shares of Tesla Common Stock issuable under the 2007 Plan upon exercise of Adjusted Options is 150.

Administration

Following the Merger, the 2007 Plan is administered by the Tesla Board of Directors (the Board), which, at its discretion or as legally required, may delegate such administration to its compensation committee and/or one or more additional committees (referred to as the Administrator). Subject to the provisions of the 2007 Plan and prior to its termination, the SolarCity Board of Directors (the SolarCity Board) or its designated committee (the SolarCity Administrator) had the power to determine the terms and conditions of awards, including the recipients, the exercise price of the options, the number of shares subject to each award, the fair market value of a share of SolarCity common stock, the vesting schedule applicable to the awards, together with any vesting acceleration, the form of consideration,

if any, payable upon exercise of the award, and the terms of the award agreement for use under the 2007 Plan, among other powers. The Administrator also has the authority, subject to the terms of the 2007 Plan, to institute an exchange program under which the exercise price of an outstanding award is increased or reduced, participants would have the opportunity to transfer outstanding awards to a financial institution or other person or entity selected by the Administrator or outstanding awards

S-6

may be surrendered or cancelled in exchange for awards that may have different exercise prices and terms and to prescribe rules and to construe and interpret the 2007 Plan and awards granted under the 2007 Plan. The Administrator's decisions, determinations and interpretations will be final and binding on all participants.

Adjusted Options

As noted above, the 2007 Plan terminated in 2012 and SolarCity did not grant any additional awards under the 2007 Plan following its initial public offering in December 2012.

SolarCity stock options granted to former employees of SolarCity under the 2007 Plan represented a right to purchase shares of SolarCity Common Stock at a price equal to or greater than the fair market value of the shares on the date of grant on terms and conditions determined by the SolarCity Administrator and was evidenced by an award agreement setting forth such terms and conditions. The terms under which the stock options may be exercised, including the manner of payment of the exercise price, and the effect of a participant's termination of employment or service, whether with or without cause, or as a result of death, disability or retirement, on a stock option were determined by the SolarCity Administrator and set forth in the applicable award agreement.

Each such stock option was converted on the effective date of the Merger into an Adjusted Option.

Transferability of Awards

Unless the Administrator provides otherwise, the 2007 Plan generally does not allow for the transfer of the Adjusted Options other than by will or by the laws of descent or distribution, and only the recipient of an Adjusted Option may exercise such an award during his or her lifetime.

Certain Adjustments

In the event of certain changes in Tesla's capitalization, to prevent diminution or enlargement of the benefits or potential benefits available under the 2007 Plan, the Administrator will make proportional adjustments to the number and price of shares covered by each outstanding award. In the event of Tesla's liquidation or dissolution, each award will terminate immediately prior to the consummation of such action unless otherwise determined by the Administrator.

Merger or Change in Control

The 2007 Plan provides that in the event of a corporate transaction, as defined under the 2007 Plan, each outstanding award will be assumed or substituted by the successor corporation or its parent or subsidiary, except that if a successor corporation or its parent or subsidiary does not assume or substitute an equivalent award for any outstanding award, then such award will fully vest and all performance goals or other vesting criteria applicable to such award will be deemed achieved at 100% of target levels and such award will become fully exercisable for a period of time determined by the Administrator in its sole discretion. The award will then terminate upon the expiration of such period.

Plan Amendment, Termination

The Tesla Board has the authority to amend, alter, or suspend the 2007 Plan provided such action does not impair the existing rights of any participant. As noted above, the 2007 Plan terminated in 2012.

The SolarCity Corporation Amended and Restated 2012 Equity Incentive Plan

The 2012 Plan permits the grant of incentive stock options, to SolarCity's employees and any of SolarCity's parent and subsidiary corporations' employees, and for the grant of nonstatutory stock options, stock appreciation rights, restricted stock, restricted stock units, performance units, performance shares, dividend equivalents, and deferred stock units to SolarCity's employees, directors and consultants and SolarCity's parent and subsidiary corporations' employees and consultants.

S-7

Table of Contents

Authorized Shares

The maximum aggregate number of shares of Tesla Common Stock that may be issued under the 2012 Plan upon exercise of Adjusted Options is 45,629.

Administration

Following the Merger, the 2012 Plan is administered by the Administrator. Subject to the provisions of the 2012 Plan, the Administrator has the power to determine the terms of awards, including the recipients, the exercise price, if any, the number of shares subject to each award, the fair market value of a share of SolarCity common stock, the vesting schedule applicable to the awards, together with any vesting acceleration, the form of consideration, if any, payable upon exercise of the award and the terms of the award agreement for use under the 2012 Plan. The Administrator also has the authority, subject to the terms of the 2012 Plan, to institute an exchange program under which the exercise price of an outstanding award is increased or reduced, participants would have the opportunity to transfer outstanding awards to a financial institution or other person or entity selected by the Administrator, or outstanding awards may be surrendered or cancelled in exchange for awards that may have different exercise prices and terms and to prescribe rules and to construe and interpret the 2012 Plan and awards granted thereunder. The Administrator's decisions, determinations and interpretations will be final and binding on all participants.

Adjusted Options

SolarCity stock options granted to former employees of SolarCity under the 2012 Plan represented a right to purchase shares of SolarCity Common Stock at a price equal to or greater than the fair market value of the shares on the date of grant on terms and conditions determined by the SolarCity Administrator and was evidenced by an award agreement setting forth such terms and conditions. The terms under which the stock options may be exercised, including the manner of payment of the exercise price, and the effect of a participant's termination of employment or service, whether with or without cause, or as a result of death, disability or retirement, on a stock option were determined by the SolarCity Administrator and set forth in either the 2012 Plan or the applicable award agreement.

Each such stock option was converted on the effective date of the Merger into an Adjusted Option.

Transferability of Awards

Unless the Administrator provides otherwise, the 2012 Plan generally does not allow for the transfer of Adjusted Options other than by will or by the laws of descent or distribution and Adjusted Options may be exercised by the participant only during his or her lifetime.

Certain Adjustments

In the event of certain changes in Tesla's capitalization, to prevent diminution or enlargement of the benefits or potential benefits available under the 2012 Plan, the Administrator will make adjustments to one or more of the number and class of shares that may be delivered under the plan and/or the number, class and price of shares covered by each outstanding award and the numerical share limits contained in the plan. In the event of Tesla's proposed liquidation or dissolution, the Administrator will notify participants as soon as practicable prior to the proposed transaction and all awards will terminate immediately prior to the consummation of such proposed transaction to the extent not previously exercised.

Merger or Change in Control

The 2012 Plan provides that in the event of a merger or change in control, as defined under the 2012 Plan, each outstanding award will be treated as the Administrator determines, except that if a successor corporation or its parent or subsidiary does not assume or substitute an equivalent award for any outstanding award, then such

S-8

Table of Contents

award will fully vest, all restrictions on such award will lapse, all performance goals or other vesting criteria applicable to such award will be deemed achieved at 100% of target levels and such award will become fully exercisable, if applicable, for a period of time determined by the Administrator in its sole discretion. The award will then terminate upon the expiration of the specified period of time. If an outside director's awards are assumed or substituted for and his or her service as an outside director is terminated on or following a change in control, other than pursuant to a voluntary resignation, his or her options and stock appreciation rights, if any, will vest fully and become immediately exercisable, all restrictions on his or her restricted stock and restricted stock units will lapse, and all performance goals or other vesting requirements for his or her performance shares and units will be deemed achieved at 100% of target levels, and all other terms and conditions met.

Plan Amendment; Termination

The Administrator has the authority to amend, alter, suspend or terminate the 2012 Plan provided such action does not impair the existing rights of any participant. The 2012 Plan will automatically terminate in 2026, unless it is terminated sooner.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a brief summary of the principal U.S. federal income and employment tax consequences of the Adjusted Options to participants and Tesla. It is based upon an interpretation of present federal income tax laws and regulations and may be inapplicable if such laws and regulations are changed. This summary is not intended to be exhaustive or constitute tax advice and does not describe state, local or foreign tax consequences. The Plans are not subject to the Employee Retirement Income Security Act of 1974, as amended, and are not intended to be qualified under Section 401(a) of the Internal Revenue Code of 1986, as amended (the "Code"). If you have any questions as to the federal, state or other tax consequences of participating in the Plans, you are advised to consult your personal legal or tax advisors.

Adjusted Options

In general, a participant who holds an Adjusted Option that is an incentive stock option will realize no taxable income upon exercise of an incentive stock option. The exercise of an incentive stock option, however, may result in an alternative minimum tax liability to the participant.

With certain exceptions, a disposition of shares of Tesla Common Stock purchased under an incentive stock option within two years from the date of grant or within one year after exercise produces ordinary income to the participant (and a deduction for us) equal to the value of the shares at the time of exercise less the exercise price.

Any additional gain recognized in the disposition is treated as a capital gain for which Tesla is not entitled to a deduction. If a participant does not dispose of the shares until after the expiration of these one- and two-year holding periods, any gain or loss recognized upon a subsequent sale is treated as a long-term capital gain or loss for which we are not entitled to a deduction.

A participant will recognize ordinary income when an Adjusted Option that is a nonqualified stock option is exercised, in an amount generally equal to the excess of the fair market value of the shares of Tesla Common Stock received over the exercise price paid by the participant. Tesla is generally entitled to a tax deduction in an amount equal to the ordinary income recognized by the participant. Upon a subsequent disposition of the shares of Tesla Common Stock acquired under such an Adjusted Option, the participant will realize short-term or long-term capital gain (or loss) depending on the holding period. The capital gain (or loss) will be short-term if the shares of Tesla

Common Stock are disposed of within one year after the Adjusted Option is exercised and long-term if the shares of Tesla Common Stock were held for more than one year as of the sale date.

S-9

Table of Contents

RESTRICTIONS ON TRANSFERS AND SALES

Generally, a participant cannot sell, transfer, pledge, assign or otherwise alienate or hypothecate an Adjusted Option, other than by will or the laws of descent and distribution or a qualified domestic relations order, depending on the terms of the Plans and/or the participant's award agreement. Unless otherwise provided in the Plans and/or the applicable award agreement, during a participant's lifetime, only the participant can exercise the rights associated with an Adjusted Option.

SELLING STOCKHOLDERS

This prospectus also relates to the possible resale by certain of our stockholders, who we refer to in this prospectus as the selling stockholders, of shares of common stock. The selling stockholders originally acquired the shares of our common stock included in this prospectus through (1) private placements of our common stock or of convertible preferred stock prior to our initial public offering, with all such shares of convertible preferred stock converted into shares of our common stock in connection with our initial public offering, and (2) issuances of shares of common stock, restricted stock awards and options to acquire common stock issued to officers, directors and employees pursuant to our equity plans and certain non-plan equity awards. Information about any selling stockholders, where applicable, including their identities and the number of shares of common stock to be registered on their behalf, will be set forth in a prospectus supplement, in a post-effective amendment, in a free writing prospectus or in filings we make with the SEC under the Exchange Act that are incorporated by reference. The selling stockholders shall not sell any shares of our common stock pursuant to this prospectus until we have identified such selling stockholders and the shares being offered for resale by such selling stockholders. However, the selling stockholders may sell or transfer all or a portion of their shares of our common stock pursuant to any available exemption from the registration requirements of the Securities Act.

Table of Contents

PLAN OF DISTRIBUTION

We or the selling stockholders may sell our securities from time to time in one or more transactions. We or the selling stockholders may sell our securities to or through agents, underwriters, dealers, remarketing firms or other third parties or directly to one or more purchasers or through a combination of any of these methods. We may issue common stock as a dividend or distribution. In some cases, we or dealers acting with us or on behalf of us may also purchase our securities and reoffer them to the public. We or the selling stockholders may also offer and sell, or agree to deliver, our securities pursuant to, or in connection with, any option agreement or other contractual arrangement.

Agents whom we or the selling stockholders designate may solicit offers to purchase our securities.

We or the selling stockholders will name any agent involved in offering or selling our securities, and disclose any commissions that we will pay to the agent, in the applicable prospectus supplement.

Unless we or the selling stockholders indicate otherwise in the applicable prospectus supplement, agents will act on a best efforts basis for the period of their appointment.

Agents may be deemed to be underwriters under the Securities Act, of any of our securities that they offer or sell.

We or the selling stockholders may use an underwriter or underwriters in the offer or sale of our securities.

If we or the selling stockholders use an underwriter or underwriters, we or the selling stockholders will execute an underwriting agreement with the underwriter or underwriters at the time that we reach an agreement for the sale of our securities.

We or the selling stockholders will include the names of the specific managing underwriter or underwriters, as well as the names of any other underwriters, and the terms of the transactions, including the compensation the underwriters and dealers will receive, in the applicable prospectus supplement.

The underwriters will use the applicable prospectus supplement, together with this prospectus, to sell our securities.

We or the selling stockholders may use a dealer to sell our securities.

If we or the selling stockholders use a dealer, we will sell our securities to the dealer, as principal.

The dealer will then sell our securities to the public at varying prices that the dealer will determine at the time it sells our securities.

We or the selling stockholders will include the name of the dealer and the terms of the transactions with the dealer in the applicable prospectus supplement.

We or the selling stockholders may solicit directly offers to purchase our securities, and we or the selling stockholders may directly sell our securities to institutional or other investors. We or the selling stockholders will describe the terms of direct sales in the applicable prospectus supplement.

We or the selling stockholders may engage in at the market offerings into an existing trading market in accordance with Rule 415(a)(4) of the Securities Act.

We or the selling stockholders may indemnify agents, underwriters and dealers against certain liabilities, including liabilities under the Securities Act. Agents, underwriters and dealers, or their affiliates, may be customers of, engage in transactions with or perform services for us or our respective affiliates or the selling stockholders, in the ordinary course of business.

Table of Contents

We or the selling stockholders may authorize agents and underwriters to solicit offers by certain institutions to purchase our securities at the public offering price under delayed delivery contracts.

If we or the selling stockholders use delayed delivery contracts, we will disclose that we are using them in the prospectus supplement and will tell you when we or the selling stockholders will demand payment and when delivery of our securities will be made under the delayed delivery contracts.

These delayed delivery contracts will be subject only to the conditions that we or the selling stockholders describe in the prospectus supplement.

We or the selling stockholders will describe in the applicable prospectus supplement the commission that underwriters and agents soliciting purchases of our securities under delayed delivery contracts will be entitled to receive.

Any underwriter, agent or dealer that is a Financial Industry Regulatory Authority member is not permitted to sell our securities in an offering to accounts over which it exercises discretionary authority without the prior specific written approval of its customer.

Unless otherwise specified in connection with a particular underwritten offering of our securities, the underwriters will not be obligated to purchase offered securities unless specified conditions are satisfied, and if the underwriters do purchase any offered securities, they will purchase all offered securities.

In connection with underwritten offerings of the offered securities and in accordance with applicable law and industry practice, the underwriters in certain circumstances are permitted to engage in certain transactions that stabilize the price of our securities. Such transactions consist of bids or purchases for the purpose of pegging, fixing or maintaining the price of our securities. If the underwriters create a short position in our securities in connection with the offering (*i.e.*, if they sell more securities than are set forth on the cover page of the applicable prospectus supplement), the underwriters may reduce that short position by purchasing our securities in the open market or as otherwise provided in the applicable prospectus supplement. The underwriters also may impose a penalty bid, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if the securities sold by them are repurchased in connection with stabilization transactions. In general, purchases of a security for the purpose of stabilization or to reduce a short position could cause the price of the security to be higher than it might be in the absence of such purchases. The imposition of a penalty bid might also have an effect on the price of our securities to the extent that it were to discourage resales of our securities. The underwriters are not required to engage in these activities and may end any of these activities at any time.

We or the selling stockholders may effect sales of securities in connection with forward sale, option or other types of agreements with third parties. Any distribution of securities pursuant to any forward sale agreement may be effected from time to time in one or more transactions that may take place through a stock exchange, including block trades or ordinary broker's transactions, or through broker-dealers acting either as principal or agent, or through privately-negotiated transactions, or through an underwritten public offering, or through a combination of any such methods of sale, at market prices prevailing at the time of sale, at prices relating to such prevailing market prices or at negotiated or fixed prices.

The specific terms of the lock-up provisions, if any, in respect of any given offering will be described in the applicable prospectus supplement.

Selling stockholders may use this prospectus in connection with resales of securities they hold as described in the applicable prospectus supplement, in a post-effective amendment, in a free writing prospectus or in filings we make with the SEC under the Exchange Act that are incorporated by reference. Selling stockholders may be deemed to be underwriters under the Securities Act in connection with the securities they resell and any profits on the sales may be deemed to be underwriting discounts and commissions under the Securities Act.
