**THE NOTES**

The Notes offered are our debt securities. We describe the basic features of these Notes in the sections of the accompanying prospectus called "Description of Securities We May Offer - Debt Securities" and the prospectus supplement dated February 4, 2016 called "Description of Notes," subject to and as modified by any provisions described below and in the "Summary of Terms" on the cover page of this pricing supplement. All payments on the Notes are subject to our credit risk.

**Table of Contents**

**RISK FACTORS**

*In addition to the other information contained and incorporated by reference in this pricing supplement and the accompanying prospectus and prospectus supplement including the section entitled **Risk Factors** in our Annual Report on Form 10-K filed with the SEC on January 27, 2017, as amended by our Form 10-K/A filed with the SEC on February 28, 2017, you should consider carefully the following factors before deciding to purchase the Notes.*

**Risks Associated with the Offering**

***We may redeem the Notes, in which case you will receive no further interest payments.***

We retain the option to redeem the Notes, in whole or in part, on any Optional Redemption Date on at least 5 Business Days prior notice. It is more likely that we will redeem the Notes in whole prior to their stated maturity date to the extent that the interest payable on the Notes is greater than the interest that would be payable on our other instruments of a comparable maturity, terms and credit rating trading in the market. If the Notes are redeemed, in whole or in part, prior to their stated maturity date, you will receive no further interest payments from the Notes redeemed and may have to re-invest the proceeds in a lower rate environment.

***The price at which the Notes may be resold may be substantially less than the amount for which they were originally purchased.***

The price at which the Notes may be resold prior to maturity will depend on a number of factors and may be substantially less than the amount for which they were originally purchased. Some of these factors include, but are not limited to: (i) changes in U.S. interest rates, (ii) any actual or anticipated changes in our credit ratings or credit spreads and (iii) time remaining to maturity.

***The inclusion of commissions and projected profit from hedging in the original issue price is likely to adversely affect secondary market prices.***

Assuming no change in market conditions or any other relevant factors, the price, if any, at which Jefferies LLC would be willing to purchase the Notes at any time in secondary market transactions will likely be significantly lower than the original issue price, since secondary market prices are likely to exclude commissions paid with respect to the Notes and the cost of hedging our obligations under the Notes that will be included in the original issue price. The cost of hedging includes the projected profit that our subsidiaries may realize in consideration for assuming the risks inherent in managing the hedging transactions. These secondary market prices are also likely to be reduced by the costs of unwinding the related hedging transactions. In addition, any secondary market prices may differ from values determined by pricing models used by Jefferies LLC, as a result of dealer discounts, mark-ups or other transaction costs.

***The Notes will not be listed on any securities exchange and secondary trading may be limited.***

The Notes will not be listed on any securities exchange. Therefore, there may be little or no secondary market for the Notes. Jefferies LLC may, but is not obligated to, make a market in the Notes. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the Notes easily, and any redemption by us in part but not in whole may further reduce any liquidity in the Notes that may exist at that time. Because we do not expect that other broker-dealers will participate significantly in the secondary market for the Notes, the price at which you may be able to trade your Notes is likely to depend on the price, if any, at which Jefferies LLC is willing to transact. If at any time Jefferies LLC were not to make a market in the Notes, it is likely that there would be no secondary market for the

Edgar Filing: Jefferies Group LLC - Form 424B5

Notes. You will have no right to require us to redeem the Notes prior to their maturity on July 31, 2032. Accordingly, you should be willing to hold your Notes to maturity.

**MATERIAL UNITED STATES FEDERAL INCOME TAX CONSEQUENCES**

The following discussion supplements the discussion in the prospectus supplement dated February 4, 2016 under the heading "United States Federal Taxation" and supersedes it to the extent inconsistent therewith. The following discussion (in conjunction with the discussion in the prospectus supplement dated February 4, 2016) summarizes certain of the material U.S. federal income tax consequences of the purchase, beneficial ownership, and disposition of the Notes.

In the opinion of Sidley Austin LLP, solely for purposes of determining whether the Notes are issued with original issue discount, we will be deemed to exercise our option to redeem the Notes on July 31, 2020, and, as a result, (i) all interest paid on the Notes through July 31, 2020 will be treated as qualified stated interest and will be taxable to a U.S. Holder as ordinary interest income at the time it accrues or is received in accordance with the U.S. Holder's normal method of accounting for tax purposes and (ii) interest payable on the Notes outstanding after July 31, 2020 through July 31, 2023 will be treated as qualified stated interest and will be taxable to a U.S. Holder as ordinary interest income at the time it accrues or is received in accordance with the U.S. Holder's normal method of accounting for tax purposes. The same analysis would apply to the increase in the interest rate on July 31, 2023, July 31, 2026 and July 31, 2029. Based upon the foregoing, the Notes will not be treated as having been issued with original issue discount and all interest payable on the Notes while they remain outstanding will be treated as qualified stated interest and will be taxable to a U.S. Holder as ordinary interest income at the time it accrues or is received in accordance with the U.S. Holder's normal method of accounting for tax purposes. See "United States Federal Taxation—U.S. Holders' Discount Notes—Notes Subject to Early Redemption" and "United States Federal Taxation—U.S. Holders' Discount Notes—General" in the prospectus supplement dated February 4, 2016.

Prospective purchasers are urged to consult their own tax advisors regarding the federal, state, local and other tax consequences to them of an investment in the Notes.

The discussion in the preceding paragraphs under "Material United States Federal Income Tax Consequences," and, notwithstanding anything to the contrary contained therein, the discussion contained in the section entitled "United States Federal Taxation" in the accompanying prospectus supplement dated February 4, 2016, insofar as such discussions purport to describe provisions of U.S. federal income tax laws or legal conclusions with respect thereto, constitutes the full opinion of Sidley Austin LLP regarding the material U.S. federal tax consequences of an investment in the Notes.

**SUPPLEMENTAL PLAN OF DISTRIBUTION**

Jefferies LLC, the broker-dealer subsidiary of Jefferies Group LLC and an affiliate of Jefferies Group Capital Finance Inc., will act as our Agent in connection with the offering of the Notes. Subject to the terms and conditions contained in a distribution agreement between us and Jefferies LLC, the Agent has agreed to use its reasonable efforts to solicit purchases of the Notes. We have the right to accept offers to purchase Notes and may reject any proposed purchase of the Notes. The Agent may also reject any offer to purchase Notes. We or Jefferies LLC will pay various discounts and commissions to dealers of \$        per Note depending on market conditions.

We may also sell Notes to the Agent who will purchase the Notes as principal for its own account. In that case, the Agent will purchase the Notes at a price equal to the issue price specified on the cover page of this pricing supplement, less a discount. The discount will equal the applicable commission on an agency sale of the Notes.

The Agent may resell any Notes it purchases as principal to other brokers or dealers at a discount, which may include all or part of the discount the Agent received from us. If all the Notes are not sold at the initial offering price, the Agent may change the offering price and the other selling terms.

The Agent will sell any unsold allotment pursuant to this prospectus from time to time in one or more transactions in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of time of sale, prices relating to the prevailing market prices or negotiated prices.

We may also sell Notes directly to investors. We will not pay commissions on Notes we sell directly.

The Agent, whether acting as agent or principal, may be deemed to be an underwriter within the meaning of the Securities Act. We have agreed to indemnify the Agent against certain liabilities, including liabilities under the Securities Act.

If the Agent sells Notes to dealers who resell to investors and the Agent pays the dealers all or part of the discount or commission it receives from us, those dealers may also be deemed to be underwriters within the meaning of the Securities Act.

The Agent is offering the Notes, subject to prior sale, when, as and if issued to and accepted by it, subject to approval of legal matters by its counsel, including the validity of the Notes, and other conditions contained in the distribution agreement, such as the receipt by the Agent of officers' certificates and legal opinions. The Agent reserves the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

The Agent is a member of the Financial Industry Regulatory Authority, Inc. ( FINRA ). Accordingly, the offering of the Notes will conform to the requirements of FINRA Rule 5121. See Conflict of Interest below.

The Agent is not acting as your fiduciary or advisor solely as a result of the offering of the Notes, and you should not rely upon any communication from the Agent in connection with the Notes as investment advice or a recommendation to purchase the Notes. You should make your own investment decision regarding the Notes after consulting with your legal, tax, and other advisors.

We may deliver the Notes against payment therefor in New York, New York on a date that is more than three business days following the pricing date. Under Rule 15c6-1 of the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, if the initial settlement of the Notes occurs more than three business days from the pricing

date, purchasers who wish to trade the Notes more than three business days prior to the original issue date will be required to specify alternative settlement arrangements to prevent a failed settlement.

Jefferies LLC and any of our other broker-dealer affiliates may use this pricing supplement, the prospectus and the prospectus supplements for offers and sales in secondary market transactions and market-making transactions in the Notes. However, they are not obligated to engage in such secondary market transactions and/or market-making transactions. Our affiliates may act as principal or agent in these transactions, and any such sales will be made at prices related to prevailing market prices at the time of the sale.

Accordingly, the offering is subject to the provisions of FINRA Rule 5121 relating to conflicts of interests and will be conducted in accordance with the requirements of Rule 5121. Jefferies LLC will not confirm sales of the Notes to any account over which it exercises discretionary authority without the prior written specific approval of the customer.
