MBIA Inc. Employee 401(k) Plan

Purchase, NY

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of the MBIA Inc. Employee 401(k) Plan (the Plan) as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes (collectively, the financial statements). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the year ended December 31, 2017, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on the Plan's financial statements based on our audits. We are a public accounting firm registered with the Public Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risk of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by the Plan's management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Supplemental Information

The supplemental information in the accompanying schedule of assets (held at end of year) as of December 31, 2017, has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but included supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as

applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

/s/ BDO USA, LLP

We have served as the Plan's auditor since 2012.

MBIA INC.

EMPLOYEE 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

1. Plan Description

General and Contributions

The MBIA Inc. Employee 401(k) Plan (the Plan) is a defined contribution plan for eligible employees of MBIA Inc. and Subsidiaries (the Company or Employer) who are at least 21 years of age. Leased employees, temporary employees and employees classified as interns are not eligible to participate in the Plan. Eligible participants may contribute up to 25% of their total eligible compensation into the Plan. The Plan offers a Roth 401(k) option. The Company matches employee contributions at the rate of 100% of each participant's contribution up to a maximum of 5%. Contributions are subject to certain limitations. Employer matching contributions are made in the form of cash, whereby participants may direct the Company match to an investment of their choice. The Plan permits eligible employees to rollover funds from a previous employer's tax-qualified plan or tax-qualified individual retirement account.

The Plan is administered by the MBIA Inc. Investment Management Committee and the Plan's assets are managed by Fidelity Management Trust Company (Fidelity), the investment advisor, trustee and custodian.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Participants should refer to the Summary Plan Description and Plan Document for specific information regarding Plan provisions.

Vesting and Forfeitures

Vesting in employer contributions begins after two years of service and full vesting is achieved after five years of service. The Plan's vesting methodology is based on an elapsed time methodology, which provides for employees to be credited with a number of years of service equal to the number of whole years (12 consecutive months) based on an employee's period of service starting with hire date with the Employer regardless of whether or not such periods of service were completed consecutively as allowed under the service spanning rule. Participants are fully vested in their salary deferred contributions at all times including Roth 401(k) contributions. Upon reaching the normal retirement date, death or becoming disabled, a participant will be entitled to receive benefit payments. Nonvested benefits remaining after termination of employment are forfeited upon the earlier of a distribution or five-year period break in service and generally may serve to pay the Plan's administrative expenses and to reduce future Company contributions. During 2017 and 2016, \$45,292 and \$167,181, respectively, of forfeitures were used to fund the Company's matching obligation pursuant to the terms of the Plan. The forfeiture balance as of December 31, 2017 and 2016 was \$8,488 and \$53,384, respectively.

Participant Accounts

Each participant has an account which is credited with the Company's contribution, participant's contribution, and net results from the investment activities of the participant's account, reduced for any withdrawal activity and fees

associated with notes receivable from participants and participant-directed brokerage accounts. Upon retirement, disability, death or termination, a participant or beneficiary can elect to receive either a lump-sum distribution or installment distributions. The benefit to which a participant is entitled is the benefit that can be provided from the participants' vested account.

Table of Contents

MBIA INC.

EMPLOYEE 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2017 AND 2016

Notes Receivable from Participants

A participant may borrow from his or her account a minimum of \$1,000 up to a maximum for all participant loans equal to the lesser of \$50,000 reduced by the excess, if any, of the highest outstanding balance of loans from the Plan during the one-year period prior to the date of the loan over the current outstanding balance of loans or 50% of their vested account balance reduced by the then outstanding balance of any other loans that a participant received from the Plan. Loan terms may range from 1 to 5 years, or longer for the purchase of a principal residence but not to exceed 10 years. The loans are collateralized by the vested account balance and bear a reasonable rate of interest as managed by Fidelity based on the interest rates charged for similar types of loans by other lenders. Principal and interest are paid ratably through semi-monthly payroll deductions or through direct payment from former employees.

2.Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes therein and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported changes in net assets available for benefits during the reporting period. Actual amounts could differ from those estimates.

Investments

The Plan s investments are stated at fair value, including the collective trust.

The Plan s shares of mutual funds are valued at quoted market prices which represent the net asset value (NAV) of shares held by the Plan at each year end. Investments in common stock, including the Company s common stock and Exchange Traded Funds (ETF), are stated at fair value based on the last reported sales price on the last business day of the year in the active market in which the security is traded. The investment in the collective trust is valued at NAV per unit, as determined by the trustee at year-end. The NAV is used as the practical expedient to estimate fair value. One of the Plan s investment options includes a participant-directed brokerage account which allows participants to establish a brokerage account and select various investments consisting of mutual funds, ETF and common stock.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of

certain financial instruments could result in a different fair value measurement at the reporting date.

Table of Contents

MBIA INC.

EMPLOYEE 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2017 AND 2016

Purchases and sales of securities are recorded on a trade-date basis. Interest income from investments is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. The Plan's net appreciation in the fair value of its investments consists of realized gains and losses and unrealized appreciation and depreciation on investments.

Contributions

Contributions from eligible participants and matching Company contributions are recorded in the month the related payroll deductions are made.

Notes Receivable from Participants

Notes receivable from participants are stated at their unpaid principal balance, plus any accrued but unpaid interest. Loans outstanding are reflected as a receivable of the Plan. Interest income is recorded on an accrual basis. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses and Revenue Credit Account

Administrative expenses, which consist primarily of investment management, recordkeeping and auditing fees, are paid directly by the Company rather than from Plan assets, and are not reflected in the Plan's financial statements. Fees charged by Fidelity relating to notes receivable from participants and fees associated with participant-directed brokerage accounts are paid from the respective participants' accounts.

The Plan may elect to allocate the revenue credit received from Fidelity, on a quarterly basis, to eligible participants' accounts based on a defined formula. The amount allocated for the years ended December 31, 2017 and 2016 was \$71,567 and \$69,414, respectively.

Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under the Financial Accounting Standards Board, Accounting Standards Codification Topic 820, Fair Value Measurement are described as follows:

Level 1 Valuations based on unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Table of Contents

MBIA INC.

EMPLOYEE 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2017 AND 2016

Level 2 Valuations based on: a) quoted prices for similar assets or liabilities in active markets, b) quoted prices for identical or similar assets or liabilities in inactive markets, c) inputs other than quoted prices that are observable for the asset or liability, and d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Valuations based on inputs that are unobservable and supported by little or no market activity and that are significant to the overall fair value measurement.

To the extent that the valuation is based on inputs that are less observable or unobservable, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is more significant for the investments categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety. Estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had the securities been readily marketable. The Plan's policy is to recognize transfers in and transfers out of levels as of the date of the event or change in circumstances that caused the transfer. The Plan has no level 3 investments. There have been no changes in the valuation methodologies or inputs used to value Plan assets at December 31, 2017 and 2016. Refer to Note 5, Investments, for information regarding the fair value of Plan investments.

Subsequent Events

The Plan's management has evaluated subsequent events through May 15, 2018, the date the financial statements were available to be issued, and there were no subsequent events requiring adjustments to the financial statements or disclosures, as stated herein.

3. Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

4. Plan Termination

The Company has not expressed any intent to discontinue its contributions or terminate the Plan. However, it reserves the right to temporarily suspend contributions to or amend or terminate the Plan. Upon termination of the Plan, the

accounts of all affected participants shall become fully vested, and the net assets of the Plan shall be distributed among the participants and beneficiaries of the Plan in proportion to their respective account balances, subject to the provisions of ERISA.

Table of Contents**MBIA INC.****EMPLOYEE 401(k) PLAN****NOTES TO FINANCIAL STATEMENTS (Continued)****DECEMBER 31, 2017 AND 2016**

In the second quarter of 2017, Standard & Poor's Financial Services LLC downgraded the financial strength rating of National Public Finance Guarantee Corporation (National), a wholly owned subsidiary of MBIA Inc. As a result of the downgrade, National ceased efforts to actively pursue writing new financial guarantee business and immediately initiated cost savings measures related to the cessation of new business, which included reducing headcount. The Plan determined that the reduction in headcount resulted in a partial termination. All affected Plan participants were fully vested in their accounts as a result of their termination.

5. Investments

The Plan's investment assets recorded at fair value have been categorized based upon a fair value hierarchy, as described in Note 2. The following tables present information about the Plan's assets measured at fair value as of December 31, 2017 and 2016:

Assets at Fair Value as of December 31, 2017

	Level 1	Total
Mutual funds	\$ 104,581,219	\$ 104,581,219
Participant-directed brokerage account	3,259,317	3,259,317
Common stock	2,314,470	2,314,470
Total investments at fair value	110,155,006	110,155,006
Collective trust measured at NAV*		5,041,971
Total investments	\$ 110,155,006	\$ 115,196,977

Assets at Fair Value as of December 31, 2016

	Level 1	Total
Mutual funds	\$ 89,730,814	\$ 89,730,814
Participant-directed brokerage account	3,055,064	3,055,064
Common stock	4,070,620	4,070,620
Total investments at fair value	96,856,498	96,856,498
Collective trust measured at NAV*		5,175,528
Total investments	\$ 96,856,498	\$ 102,032,026

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

Table of Contents**MBIA INC.****EMPLOYEE 401(k) PLAN****NOTES TO FINANCIAL STATEMENTS (Continued)****DECEMBER 31, 2017 AND 2016**

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2017 and 2016, respectively.

	Fair Value 12/31/17	Fair Value 12/31/16	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Collective trust <i>Collective Trust</i>	\$ 5,041,971	\$ 5,175,528	N/A	Daily	12 months

The Plan has a collective trust investment, the Fidelity Managed Income Portfolio Fund (the MIP). Under the terms of the MIP's Declaration of Trust, withdrawals directed by the Plan Sponsor must be preceded by a 12 month written notice to the MIP.

6. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated June 5, 2015, that the Plan constitutes a qualified plan under Section 401(a) of the Internal Revenue Code (the IRC) and is therefore exempt from federal income taxes under provisions of Section 501(a) of the IRC. The Plan Administrator believes that the Plan is currently designed and being operated in accordance with the IRC.

GAAP requires that Plan management evaluate each tax position taken by the Plan and recognize a liability (or asset) if the Plan has taken an uncertain tax position that more-likely-than-not (i.e. a likelihood of more than 50 percent), based on the technical merits, would not be sustained on examination. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017 there are no uncertain tax positions taken or expected to be taken. Accordingly, the Plan has recognized no interest and penalties associated with any liability for unrecognized tax benefits. The Plan's policy is to record such amounts, if any, as income tax expense. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

7. Related Party and Party-In-Interest Transactions

Certain Plan investments and shares of the Company's common stock are managed by Fidelity, the investment advisor, trustee and custodian for the Plan. The investments with MBIA Inc. common stock were \$2,314,470 and \$4,070,620 at December 31, 2017 and 2016, respectively. The Company's common stock comprises approximately 2% and 4% of the net assets available for benefits for the years ending December 31, 2017 and 2016, respectively. These transactions qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.
