On the record date, there were 24,682,318 shares of common stock outstanding. You may vote your shares (1) over the telephone by calling a toll-free number, (2) by using the Internet, or (3) by mailing in your proxy card. All valid, unrevoked proxies will be voted at the meeting.

Election of Directors (Proposal I)

Under our articles of incorporation, our directors are divided into three classes, Class I, Class II and Class III. At our 2001 annual meeting, Class I directors were elected for a one-year term, Class II directors were elected for a two-year term and Class III directors were elected for a three-year term. Thereafter, each year, a different class of directors is elected at the annual meeting for a three-year term. At our 2002 annual meeting, Class I directors were elected for a three-year term.

Nominees and Directors

Two directors, of the six directors currently constituting the Board of Directors, are Class II directors and consequently are to be elected at this annual meeting to hold office until the 2006 annual meeting and until their successors are elected and qualified.

2

In February 2003, Roger L. Pringle was elected by the Board of Directors as a Class I director to fill the vacancy created by the retirement of A. Jean de Grandpré.

In April 2003, Helena Mattila was elected by the Board of Directors as a Class III director to fill the vacancy created by the resignation of Henri Harmia. Mr. Harmia was a designee of Sonera Media Holding B.V. pursuant to an Investment Agreement dated as of February 2, 2001 between Metro One and Sonera Media Holding B.V., the obligations of which have been assumed by Sonera Holding B.V. Ms. Mattila has been designated by Sonera Holding B.V., an indirect subsidiary of TeliaSonera AB, as a replacement for Mr. Harmia. See Principal Shareholders. Mr. Harmia had been designated by Sonera to replace Heikki Jämsänen.

In accordance with Oregon law, the term of a director elected by the Board of Directors to fill a vacancy expires at the next annual meeting at which directors are elected. Therefore, Mr. Pringle will stand for election as a Class I director to serve for the remaining two-year term of the vacancy, and until his successor is elected and qualified, and Ms. Mattila will stand for election as a Class III director for the remaining one-year term of the vacancy, and until her successor is elected and qualified.

It is not anticipated that the nominees will decline or be unable to serve as directors. If, however, that should occur, the proxy holders will vote the proxies in their discretion for any nominee designated to fill the vacancy by the present Board of Directors.

The following table sets forth the names of the current members of the Board of Directors. The table also includes each director's age, class, the periods during which each has served as a director and the positions currently held by him or her.

Board Recommendation; Vote Required

The Board of Directors recommends a vote FOR the election of each of its nominees for directors. If a quorum is present, a plurality of the votes cast by the shares entitled to vote is required for the election of a director. Abstentions and broker non-votes are counted for purposes of determining whether a quorum exists but have no effect on the determination of whether a plurality exists with respect to a given nominee.

Board and Committee Meetings

During 2002, the Board of Directors held five meetings. Except for Mr. Olkkonen, each incumbent director attended at least 75% of the aggregate of the total number of meetings held and the total number of meetings held by all committees of the Board on which he served during the period that he served.

The Compensation Committee of the Board of Directors currently consists of Messrs. Olkkonen, Pringle and Usdan. Mr. Usdan is the Chairman. The Compensation Committee met two times in 2002. It reviews executive compensation, makes recommendations to the full Board regarding changes in compensation and administers Metro One's stock option plan and employee stock purchase plan.

The Audit Committee of the Board of Directors currently consists of Messrs. Olkkonen, Pringle and Williams. Mr. Pringle is the Chairman. The Audit Committee met four times in 2002. It reviews Metro One's annual audited financial statements and quarterly unaudited financial statements and discusses certain matters with the independent auditors, including issues relating to their independence. We believe that each of Messrs. Olkkonen, Pringle and Williams is independent as defined in the current listing standards of the National Association of Securities Dealers, Inc. The Board of Directors has adopted a written charter for the Audit Committee.

The Nominating Committee of the Board of Directors selects and recommends nominees for election as directors of Metro One at the annual meeting. The Nominating Committee currently consists of Messrs. Olkkonen, Pringle and Rutherford. Mr. Rutherford is the Chairman. The Nominating Committee met once during 2002 to consider nominees for director to fill the vacancy created by the retirement of A. Jean de Grandpré. Roger L. Pringle was nominated by the Committee and elected by the Board of Directors to fill that vacancy. The Board of Directors will consider nominees recommended by shareholders if submitted to the Board in accordance with the procedures specified in Metro One's bylaws. The bylaws provide that a shareholder seeking to nominate a candidate for election as a director at a meeting of shareholders must provide notice to Metro One's secretary of such nomination in writing not less than 60 nor more than 90 days prior to the meeting, and such notice must provide Metro One with certain information regarding the nominee.

The Corporate Governance Committee of the Board of Directors oversees the development and implementation of corporate governance guidelines and related matters. The Corporate Governance Committee currently consists of Messrs. Pringle, Rutherford and Williams. Mr. Pringle is the Chairman. The Board of Directors formed the Corporate Governance Committee and appointed its current members in 2003.

Director Compensation

Generally, directors who are not employees or Board members by virtue of an investment agreement receive \$20,000 as an annual fee, \$3,000 plus expenses for each meeting attended in person and \$1,000 plus expenses for each Board meeting attended by telephone. Committee chairpersons and committee members receive \$1,000 and \$750, respectively, for each meeting attended. Mr. Rutherford also receives \$3,000 per month for his service as Chairman of the Board. This director compensation structure was recommended by the Compensation Committee and

Edgar Filing: METRO ONE TELECOMMUNICATIONS INC - Form DEF 14A

approved by the Board and effective in February 2003. Previously, the annual director fee was \$7,500, the Board meeting fees were \$2,500 for attendance in person and \$500 for attendance by telephone, the committee meeting fee was \$250 for each committee meeting attended, and the Chairman of the Board received \$2,000 per month in addition to the annual fee.

Generally, directors who are not employees or Board members by virtue of an investment agreement are granted non-qualified options to purchase 15,000 shares of common stock at the time of recruitment and 15,000 shares of common stock in October of each year. On July 31 of each year, the non-employee Chairman of the Board is also granted a non-qualified option to purchase 21,428 shares of common stock. All of these grants are vested and exercisable at the time of the grant and have exercise prices equal to the fair market value of our common stock on the date of grant.

Amendment of Articles of Incorporation to Change the Range of the Number of Authorized Directors (Proposal II)

At the meeting, you are being asked to approve an amendment to Metro One's articles of incorporation to increase the number of authorized directors to a range of not less than three nor more than nine. The number of authorized directors of Metro One is set by its articles of incorporation. Article VIII, Section A of the articles of incorporation currently provides that the number of directors shall be not less than three nor more than seven, and within such limits, the exact number is fixed and increased or decreased by resolution of the Board of Directors. The amendment, if approved, would provide that the number of authorized directors shall be not less than three nor more than nine, and within such limits, the exact number shall be fixed and increased or decreased by resolution of the Board of Directors. The articles of incorporation provide that any change in the number of directors be apportioned as nearly as possible among the classes as to make all classes as nearly equal as possible.

The Sarbanes-Oxley Act of 2002, the related rules of the Securities and Exchange Commission and the proposed amendments to the rules pertaining to listing on Nasdaq have significantly changed the governance requirements applicable to Metro One. These changes will affect, among other things, the functioning of the Board of Directors and the composition and responsibilities of various committees of the Board. The proposed amendments pertaining to Nasdaq listing require that the audit committee be composed of independent directors and that, with certain exceptions, the compensation and nominating committees be composed of independent directors. In addition, certain matters must be approved either by one of these committees or by a majority of independent directors. The extent to which the Sonera designees will be considered independent may not be clear until the rules are finalized. In any event, the Board believes it would be appropriate to increase the range of the authorized number of directors so that additional independent directors might be elected in the future. This would minimize the number of independent directors that would be required to serve on more than one committee and more evenly distribute the responsibilities among the directors. If the proposed amendment is approved, the Board anticipates that it will maintain the exact number of directors at seven for the time being. It will, however, have the ability to increase the exact number and fill any resulting vacancies without approval of the shareholders, provided that the term of any director so elected will expire at the next annual meeting of shareholders.

7

Board Recommendation; Vote Required

The Board of Directors recommends a vote FOR the amendment to Metro One's articles of incorporation to increase the range of the number of authorized directors. Article VIII, Section C of the articles of incorporation provides that the provisions of Article VIII may not be amended unless such action is approved by the affirmative vote of not less than 75% of the votes then entitled to be cast for election of directors. Consequently, if a quorum is present, the affirmative vote of at least 75% of the shares entitled to vote at the annual meeting is required to approve this proposal. Abstentions and broker non-votes are counted for purposes of determining whether a quorum exists but are treated as no votes in determining whether the proposal is approved.

Amendment of 1999 Employee Stock Purchase Plan (Proposal III)

At the meeting, you are being asked to approve an amendment of Metro One's 1999 Employee Stock Purchase Plan (the "ESPP") to increase the number of shares of common stock initially authorized for purchase under the ESPP by 250,000 shares, from 225,000 to 475,000 shares of common stock. In addition, the amendment provides that the number of authorized shares automatically increases on January 1, 2004 and January 1 of each year thereafter until and including January 1, 2013 (unless the ESPP is terminated earlier in accordance with plan provisions) by the lesser of (i) 1% of the number of shares of common stock outstanding on that date, or (ii) a lesser number determined by the Compensation Committee prior to such January 1; provided, however, that the total number of shares of common stock available for issuance under the ESPP shall not exceed 3% of the number of shares of common stock outstanding on that date.

The plan was initially approved by the Board of Directors on December 9, 1998 and by the shareholders on June 29, 1999. As of April 1, 2003, a total of 209,186 shares have been purchased by employees under the ESPP leaving 15,814 shares available for future purchase. The purpose of the ESPP is to attract and retain qualified employees essential to the success of Metro One, and to provide such persons with an incentive to perform in the best interests of the company. Because the number of Metro One employees who are eligible participants in the ESPP has tripled since the ESPP was adopted in 1999, the Board of Directors believes that it is important that the number of shares available for purchase under the ESPP be increased to accommodate the increase in eligible participants and to enhance opportunities to attract, retain and motivate the best available personnel for the successful conduct of our business. Consequently, the Board approved and adopted, subject to shareholder approval, the proposed amendment.

The principal terms and provisions of the ESPP are summarized below. The summary is not intended to be a complete description of all the terms of the ESPP. A copy of the ESPP, as amended, will be furnished to any shareholder upon written request to Metro One's secretary at our corporate offices.

Description and Summary of the Employee Stock Purchase Plan

The ESPP is administered by the Compensation Committee of the Board of Directors. The Compensation Committee has the power to make and interpret all rules and regulations it deems necessary to administer the ESPP and has broad authority to amend the ESPP, subject to certain amendments requiring shareholder approval.

All regular employees of Metro One and its subsidiaries, including Metro One officers, are eligible to participate in the ESPP if they: (i) are employed in a position with regular hours of 20 or more hours a week and (ii) are employed more than five months in any calendar year. Eligible employees may elect to contribute from 1% to 10% of their cash compensation during each pay period. The ESPP provides for two annual six-month offering periods, beginning on May 1 and November 1 each year. During the offering periods, participants accumulate funds in an account via payroll deduction. At the end of each six-month offering period, the purchase price is determined and the accumulated funds are used to automatically purchase shares of common stock. The purchase price per share is equal to 85% of the lower of the fair market value of the common stock (i) on the beginning date of the offering period or (ii) the end of the offering period. Unless a participant files a withdrawal notice before the beginning of the next offering period, such participant will automatically be re-enrolled for the next offering period.

Neither payroll deductions credited to a participant's account nor any rights with regard to the purchase of shares under the ESPP may be assigned, transferred, pledged or otherwise disposed of in any way by the participant. Upon termination of a participant's employment for any reason the payroll deductions credited to the participant's account will be returned to the participant. Any remaining balances will be returned to the participant, or his or her beneficiary. As of April 1, 2003, approximately 5,200 Metro One employees were eligible to participate in the ESPP.

The ESPP is intended to qualify as an employee stock purchase plan within the meaning of Section 423 of the Internal Revenue Code of 1986, which provides that no taxable income is recognized by the participant with respect to shares purchased under the ESPP either at the time of enrollment or at any purchase date within an offering period.

If a participant disposes of shares purchased pursuant to the ESPP more than two years from the enrollment date and more than one year from the date on which the shares were purchased, the participant will recognize ordinary income equal to the lesser of (i) the excess of the fair market value of the shares at the time of disposition over the purchase price, or (ii) 15% of the fair market value of the shares on the enrollment date. Any gain on the disposition in excess of the amount treated as ordinary income will be capital gain. Metro One is not entitled to take a deduction for the amount of the discount in circumstances indicated above.

If a participant disposes of shares purchased pursuant to the ESPP within two years after the enrollment date or within one year after the purchase date, the employee will have ordinary income to the extent that the fair market value of the shares on the date of purchase exceeded the purchase price, even if the sale price (or fair market value on the date of any other disposition) is less than the purchase price. If such disposition is a sale, any difference between the sale price and the fair market value of the shares on the date of purchase will be capital gain or loss and will be long-term if the shares have been held for more than one year. Metro One is entitled to a deduction from income equal to the amount the employee is required to report as ordinary compensation income.

Edgar Filing: METRO ONE TELECOMMUNICATIONS INC - Form DEF 14A

The federal income tax rules relating to employee stock purchase plans qualifying under Section 423 of the Internal Revenue Code of 1986 are complex. Therefore, the foregoing outline is intended to summarize only certain major federal income tax rules concerning qualified employee stock purchase plans.

Board Recommendation; Vote Required

The Board of Directors recommends you vote FOR the amendment of Metro One's employee stock purchase plan to increase the number of shares authorized for purchase. The proposal must be approved by the holders of at least a majority of the shares of common stock present or represented by proxy at the Annual Meeting. Abstentions are counted for purposes of determining whether a quorum exists but are treated as no votes in determining whether the proposal is approved. Broker non-votes are counted for purposes of determining whether a quorum exists but are not counted and have no effect in determining whether the proposal is approved.

Ratification of Selection of Independent Auditors (Proposal IV)

The Audit Committee has recommended to the Board of Directors, and the Board of Directors has selected, Deloitte & Touche LLP as independent auditors for the year ending December 31, 2003. Deloitte & Touche LLP has served as our independent auditors since 1995. It is expected that representatives of Deloitte & Touche LLP will be present at the meeting, will have the opportunity to make a statement if they so desire, and will be available to respond to appropriate questions.

Board Recommendation; Vote Required

The Board has decided to ask the shareholders to ratify the selection and recommends that the shareholders vote FOR approval, although the selection of auditors is not required to be submitted to a vote of the shareholders. If a quorum is present, the proposal will be adopted if the votes cast favoring the proposal exceed the votes cast opposing the proposal. Abstentions are counted for purposes of determining whether a quorum exists but are treated as no votes in determining whether the proposal is approved. Broker non-votes are counted for purposes of determining whether a quorum exists but are not counted and have no effect in determining whether the proposal is approved.

Audit Fees

For 2002, the aggregate fees billed by our principal accounting firm, Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu and their respective affiliates (Deloitte & Touche) for professional services rendered for the audit of our annual financial statements and for the review of the financial statements included in our quarterly reports totaled approximately \$126,500. We paid approximately \$90,000 for these services for 2001.

Audit-Related Fees

We paid Deloitte & Touche approximately \$5,300 in fees for assurance and related services by Deloitte & Touche that were related to the performance of the audit and review of our financial statements for 2002. We paid no fees for these services for 2001.

Tax Fees

For 2002, we paid Deloitte & Touche approximately \$27,000 in fees related to tax compliance and tax research services. We paid approximately \$6,700 for these services for 2001.

All Other Fees

We paid no fees to Deloitte & Touche relating to financial information systems design and implementation for 2001 or 2002. We paid Deloitte & Touche approximately \$1,000 in other non-audit fees for 2002, and we did not pay any other non-audit fees for 2001. After considering these matters, the Audit Committee does not believe the rendering of these services to be incompatible with maintaining the independence of Deloitte & Touche as our principal accounting firm.

Compensation Committee Report

Compensation Philosophy. The Compensation Committee of the Board of Directors, which is responsible for reviewing and evaluating the compensation of Metro One's executive officers, approves and recommends to the Board of Directors compensation and award levels for executive officers. With regard to compensation actions affecting Mr. Timmins, all of the members of the Board of Directors except for Mr. Timmins act as the approving body.

Metro One's executive compensation program has been designed to:

Support a pay-for-performance policy that is tied to corporate and individual performance;

Motivate executive officers to achieve strategic business initiatives and reward them for their achievement;

Provide compensation opportunities which are comparable to those offered by similarly-sized telecommunications and technology-based companies; and

Align the interests of executives with the long-term interests of shareholders through award opportunities that can result in ownership of common stock.

The executive compensation program is comprised of a base salary and long-term incentive opportunities in the form of stock options, along with benefits offered to all Metro One employees.

Base Salaries. The 2002 base salaries of Metro One's executive officers were established by the Board of Directors effective January 2002, except for that of Mr. Timmins, which until December 31, 2002 was established by employment contract in 1995 (as amended in March 2000) and which currently is established by employment contract effective January 2003. In approving those salaries, the Compensation Committee considered information about salaries paid by companies of comparable size in the telecommunications outsourcing industry, individual performance, position, and internal comparability considerations. While all of these factors were considered, the Compensation Committee did not assign specific weights to any of these factors.

Edgar Filing: METRO ONE TELECOMMUNICATIONS INC - Form DEF 14A

Stock Plans. The long-term, performance-based compensation of executive officers takes the form of option awards under Metro One's 1994 Stock Incentive Plan, which is designed to align a significant portion of the executive compensation program with long-term shareholder interests. The plan permits the granting of several different types of stock-based awards. The Compensation Committee believes that equity-based compensation ensures that Metro One's executive officers have a continuing stake in the long-term success of the company. All options granted by Metro One have been granted with an exercise price equal to the market price of its common stock on the date of grant and, accordingly, will only have value if Metro One's stock price increases. In granting options under the stock incentive plan, the Compensation Committee generally takes into account each executive's performance, responsibilities, relative position and past grants.

Chief Executive Officer Compensation. Metro One originally entered into an employment agreement with Mr. Timmins in 1995, which agreement was amended in 2000. The agreement and subsequent amendment provided for a base annual compensation and increases based upon achievement of certain corporate goals and upon a formula tied to Metro One's profitability. The amendment also provided for a base salary for Mr. Timmins of \$200,000 and an annual bonus based on increased total net income of Metro One. This agreement expired on December 31, 2002.

In March 2003, and effective as of January 1, 2003, Metro One entered into a new two-year employment agreement with Mr. Timmins. This agreement provides for an annual base salary of \$180,000, reflecting a 10% voluntary reduction in the base annual compensation that was provided for in Mr. Timmins' previous employment contract, and also provides for discretionary bonuses to be awarded based on factors determined and approved by the Board of Directors or the Compensation Committee. In developing its recommendations regarding Mr. Timmins' compensation, the Committee considered a number of factors, including analyses of compensation in similarly-sized companies in the telecommunications outsourcing industry, analyses of compensation levels in similar companies in Metro One's local geographic area and Metro One's revenue and net income results over the past several years.

The current employment agreement also provides for payment to Mr. Timmins of one additional year of base salary in the event of termination of employment upon death or for reasons other than cause, six months additional base salary due to disability, or six months additional base salary if for cause. Under the employment agreement, Mr. Timmins has been granted certain indemnification rights. In addition, the employment agreement prevents Mr. Timmins from competing with Metro One or soliciting the employment of other individuals employed by Metro One during Mr. Timmins' employment and for a period of one year thereafter. Under the employment agreement, Mr. Timmins may not disclose Metro One's confidential information to outsiders during employment and for a period of two years thereafter.

16

Significant Compensation. As a result of changes to the Internal Revenue Code adopted in 1993, publicly held corporations generally are not permitted a federal income tax deduction for compensation to be paid to certain officers to the extent that such an officer's compensation exceeds \$1 million in a taxable year. An exception may apply to certain performance-based payments that are approved in advance by a majority vote of the shareholders. The Compensation Committee has not adopted any formal policy concerning the application of this limitation when an officer merits compensation in excess of the limitation. The Compensation Committee will continue to review and monitor the issue.

Performance Graph

The following graph compares the cumulative total shareholder return on our common stock for the five-year period beginning December 31, 1997, and ending December 31, 2002, as compared with the cumulative total return on the Russell 2000 Index and our SIC Code Index (SIC Code 4899 - Communications Services). We believe that our SIC Group Index provides a broad, appropriate and indicative representation of our cumulative shareholder return.

This graph assumes an investment of \$100 on December 31, 1997 in each of our common stock, the Russell 2000 Index and our SIC Group Index, and assumes reinvestment of dividends, if any. The stock price performance shown on the graph below is not necessarily indicative of future stock price performance.

Other Business

The Board of Directors does not know of any matters other than those described in the notice of annual meeting that are to come before the meeting. **If any other matters are properly brought before the meeting or any adjournments or postponements of the meeting, the persons named in the proxy will vote the shares represented by such proxy upon such matters in accordance with their best judgment.**

Shareholder Proposals For 2004 Annual Meeting of Shareholders

Under Metro One's bylaws, nominations for election to the Metro One Board of Directors and proposals for other business to be transacted by the Metro One shareholders at an annual meeting of shareholders may be made by a shareholder (as distinct from Metro One) only if the shareholder is entitled to vote at the meeting and has given Metro One's secretary timely written notice that complies with the notice requirements of our bylaws. In addition, business other than a nomination for election to the Board must be a proper matter for action under Oregon law and Metro One's articles of incorporation and bylaws. Among other requirements, the written notice must be delivered to Metro One's secretary at Metro One's principal executive offices by not less than 60 days and not more than 90 days prior to the date of the annual meeting. However, if less than 60 days' notice or prior public disclosure of the date of the scheduled annual meeting is given or made, the notice, to be timely, must be so delivered by the close of business on the 10th day following the earlier of the day on which notice of the date of the scheduled annual meeting was mailed or the day on which such public disclosure was made.

Separate and apart from the required notice described in the preceding paragraph, rules promulgated by the Securities and Exchange Commission under the Securities Exchange Act entitle a shareholder in certain instances to require Metro One to include that shareholder's proposal (but not that shareholder's nominees for director) in the proxy materials distributed by Metro One for its next annual meeting of shareholders. Any shareholder of Metro One who wishes to present a proposal for inclusion in Metro One's proxy solicitation materials for the 2004 annual meeting must set forth the proposal in writing, file it with Metro One's secretary on or before December 26, 2003, and meet the other requirements for inclusion contained in the Securities and Exchange Commission's shareholder proposal rules.

21

Cost of Solicitation

We will bear the cost of soliciting proxies. In addition to use of the mail, proxies may be solicited personally or by telephone by our directors, officers and employees, who will not be additionally compensated for these activities. Solicitation may be made personally, or by mail, facsimile, telephone, telegraph or messenger. We will also request persons, firms and companies holding shares in their names or in the name of their nominees, which are beneficially owned by others, to send proxy materials to and obtain proxies from these beneficial owners. We will reimburse these persons for their reasonable expenses incurred in that process.
