To Shareholders, Board of Directors and Officers

Telefônica Brasil S.A.

São Paulo - SP

We have reviewed the individual and consolidated interim financial information of Telefônica Brasil S.A., ("Company"), contained in the Quarterly Information Form (Informações Trimestrais - ITR) for the quarter ended on June 30, 2016, which comprise the balance sheet as of June 30, 2016 and the related statements of income and of comprehensive income for the three-month and six-month period ended on June 30, 2016, and changes in equity and of cash flows for the six-month period then ended, including other explanatory information.

Management is responsible for the preparation of the individual and consolidated interim financial information in accordance with Accounting Standard CPC 21 (R1) Interim Financial Reporting (*Demonstração Intermediária*) issued by *Comitê de Pronunciamentos Contábei*s - CPC and with IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the presentation of this information in conformity with the standards issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of Quarterly Information Form (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Review Engagements (NBC TR 2410 - *Revisão de Informações Intermediárias Executada pelo Auditor da Entidade* and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual and consolidated interim financial information

A free translation from Portuguese into English of Independent Auditor's Report on interim financial information prep

Based on our review, nothing has come to our attention that causes us to believe that the individual and consolidated interim financial information included in the Quarterly Information Form (ITR) referred to above were not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34 applicable to the preparation of the Quarterly Information Form (ITR), and presented consistently with the rules issued by the Brazilian Securities and Exchange Commission (CVM).

Statements of value added

We have also reviewed the individual and consolidated interim Value Added Statement for the six-month period ended on June 30, 2016, prepared under management's responsibility, whose presentation in the interim financial information is required by the rules issued by the Brazilian Securities and Exchange Commission (CVM) applicable to preparation of the Quarterly Information Form (ITR), and as supplementary information under IFRS, which do not require Value Added Statement presentation. This statement has been subject to the same review procedures previously described and, based on our review, nothing has come to our attention that causes us to believe that it is not fairly presented, in all material respects, in relation to the overall accompanying interim financial information.

1) THE COMPANY AND ITS OPERATIONS

a) Background Information

Telefônica Brasil S.A. ("Company" or "Telefônica Brasil"), is a publicly-traded corporation operating in telecommunication services and in the performance of activities that are necessary or useful in the rendering of such services, in conformity with the concessions and authorizations it has been granted. The Company, headquartered at Avenida Engenheiro Luiz Carlos Berrini, No. 1376, in the city and State of São Paulo, Brazil, is a member of the Telefónica Group ("Group"), the telecommunications industry leader in Spain, also present in several Europe and Latin America countries.

At June 30, 2016 and December 31, 2015, Telefónica S.A. ("Telefónica"), the Group holding company based in Spain, held a total direct and indirect interest in the Company of 73.58%, including treasury shares (Note 22).

The Company is listed in the Brazilian Securities and Exchange Commission ("CVM") as a Publicly-Held company under Category A (issuers authorized to trade any marketable securities), and has shares traded on the São Paulo Stock Exchange ("BM&FBovespa"). The Company is also listed in the US Securities and Exchange Commission ("SEC"), of the United States of America, and its American Depositary Shares ("ADSs") are classified in level II, backed only by preferred shares, and traded in the New York Stock Exchange ("NYSE").

b) Operations

The Company is primarily engaged in rendering land-line telephone and data services in the State of São Paulo, under Fixed Switched Telephone Service (“STFC”) concession agreement, and Multimedia Communication Service (“SCM”, data communication, including broadband internet) authorization, respectively.

The Company is the grantee on an STFC concession to render land-line services in the local network and national long distance calls originated in sector 31 of Region III, which comprises the state of São Paulo (except for cities within sector 33) and has authorization for land-line calls originated in Regions I and II, as established in the General Concession Plan (“PGO”).

The Company is also authorized to render other telecommunications services, such as SMP (Personal Communication Services) and SEAC (Conditional Access Audiovisual Services), especially by means of DTH and cable technologies.

With the incorporation of GVT Part. (note 1c)), the Company started to operate in the provision of STFC, SCM and pay TV ("SEAC") throughout the Brazilian territory.

In accordance with the service concession agreement, every two years, during the agreement’s 20-year term, the Company shall pay a fee equivalent to 2% of its prior-year STFC revenues, net of applicable taxes and social contribution taxes (Note 21). The Company’s current STFC concession agreement is valid until December 31, 2025.

In accordance with the SMP authorization agreements, every two years, after the first renewal of these agreements, the Company shall pay a fee equivalent to 2% of its prior-year revenues, net of applicable taxes and social contribution taxes, related to the application of Basic and Alternative Services Plans (Note 21). These agreements can be extended only once for a term of 15 years.

Service concessions and authorizations are granted by ANATEL, under the terms of Law No. 9472 of July 16, 1997 - General Telecomunication Law (“Lei Geral das Telecomunicações” - LGT), amended by Laws No. 9986, of July 18, 2000, and No. 12485, of September 12, 2011. Operation of such concessions is subject to supplementary regulations and plans.

To the preparation of interim financial statements, the contract these radio had not yet been signed between the Company and ANATEL

The information on the operation areas (regions) and due dates of the radiofrequency authorizations for SMP services is the same of Note 1b) Operations as disclosed in the financial statements for the year ended December 31, 2015.

c) Corporate Restructuring

In the Special Shareholders' Meeting ("SSM") held on April 1, 2016, approved the Corporate Restructuring in accordance with the terms and conditions proposed of March 14, 2016, as described below.

GVT Holdings SA ("GVTPart.") Was the parent company of Global Village Telecom S.A. ("GVT"), companies which were controlled by the Company from May 28, 2015 to April 1, 2016 (Note 3). GVT was the direct controlling company of POP Internet Ltda. ("POP"), and indirect controlling company of Innoweb Ltda. ("Innoweb"), Brazil-based.

POP is a provider of free Internet access. Innoweb (subsidiary of POP) provides telephone services using VoIP technology, which allows calls using the Internet at lower costs than those using conventional telephone technology, using dedicated circuits.

The Corporate Restructuring involved the Company and its wholly-owned subsidiary, GVTPart. (holding company whose business purpose is to hold interest in other national or foreign companies, as shareholder), preceded by restructuring involving its subsidiaries; namely GVT (whose business purpose is to render land-line telecommunication services, including pay-TV services in all regions of Brazil) and POP.

The corporate structure, considering only the companies involved in the Corporate Restructuring March 31, 2016 was as follows:

The Corporate Restructuring aims at standardizing the services provided by the companies involved in this process by (i) concentrating the rendering of telecommunication services on one single company, that is, the Company; and (ii) migration of activities that were provided by GVT, specifically those that were not related to telecommunications services for POP.

As such, the simplification of the corporate structure and the concentration of telecommunication services on the Company will lead to a converging environment, facilitating consolidation and confluence of the offering of telecommunication services and service packages; optimizing administrative and operating costs; and standardizing the operations of the companies involved in the Corporate Restructuring.

(In thousands of *Reais*, unless otherwise stated)

The Corporate Restructuring was approved by ANATEL through Ruling No. 50169, of January 22, 2016, which was published in the Federal Official Gazette ("DOU") on January 28, 2016 with the conditions provided therein.

The Corporate Restructuring occurred on the same date and as follows: (i) GVT was spun off and involving assets, rights and obligations related to the telecommunications activities, its net assets relating to property, rights and obligations connected to telecommunications activities was absorbed by GVTPart., while other net assets relating to property, rights and obligations connected to activities other than telecommunications was absorbed by POP; and (iii) the net assets of GVTPart. (after the merger of GVT's net assets, item (i)) was merged into the Company.

After the intended Corporate Restructuring, the corporate structure considering only the companies involved in the Corporate Restructuring it is started to be as follows:

Given that the merger of GVTPart. into the Company does not require capital increase or change in shareholders' interest in the Company, since GVTPart. was a wholly-owned subsidiary of the Company, the replacement of shares held by the shareholders in GVTPart. with shares in the Company is not applicable. Consequently, there are no minority interests to be considered and, therefore, according to the CVM's position in similar prior cases, and on the terms of CVM Resolution No. 559/08, the provisions of article 264 of Law No. 6404/76 and its further amendments do not apply either.

Additionally, in relation to the transaction that precedes the merger of GVTPart into the Company, the replacement of shares is not applicable, since GVT is a subsidiary of GVTPart. and of the Company itself, thus there are no minority shareholders.

On the terms of article 137 of Law No. 6404/76 and its further amendments, the Corporate Restructuring does not entitle Company's shareholders the right of withdrawal. Furthermore, considering that there are no minority shareholders of GVTPart., since it is a wholly-owned subsidiary of the Company, there is no question of right to withdrawal and exercise of the right to withdraw of non-controlling shareholders of GVTPart., as provided for in article 136, item iv, and article 137 of Law No. 6404/76 and its further amendments.

2) BASIS OF PREPARATION AND PRESENTATION OF THE QUARTERLY FINANCIAL STATEMENTS

2.1) Statement of Compliance

A free translation from Portuguese into English of Independent Auditor's Report on interim financial information prep

The individual (Company) and consolidated quarterly financial statements were prepared and are presented in accordance with the accounting practices adopted in Brazil, which comprise CVM deliberations and CPC (Accounting Pronouncements Committee) pronouncements, guidelines and interpretations issued by the International Financial Accounting Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB). All significant information in the financial statements, and solely such information, are disclosed and correspond to that used by management in its administration.

The quarterly financial statements were prepared pursuant to the accounting principles, practices and criteria consistent with those adopted in preparing the financial statements for the year ended December 31, 2015 (Note 3 – "Summary of Significant Accounting Practices"), and must be analyzed jointly with the referred financial statements.

The consolidated IFRS (Consolidated) have been prepared and are presented in accordance with CPC 21 (R1) Interim Statements and IAS 34 - Interim Financial Reporting issued by the IASB and standards established as Resolution nº 739 of the CVM.

(In thousands of *Reais*, unless otherwise stated)

The accounting standarts adopted in Brazil require the presentation of the Statement of Value Added ("DVA"), individual and consolidated, while IFRS does not require submission. As a result, under IFRS standards, the DVA is being presented as supplementary information, without prejudice to all of these quarterly financial statements.

2.2) Bases of Preparation and Presentation

The quarterly financial statements are presented in thousands of reais (except when otherwise indicated), which is the Company's functional currency have been prepared assuming the normal continuity of the Company and comparing for the six-month periods ended June 30, 2016 and 2015, except for the balance sheet comparing the positions on June 30, 2016 to December 31, 2015.

The Board of Directors authorized the issuance of these quarterly financial statements at the meeting held on July 25, 2016.

For comparability of the consolidated interim financial statements (income statement, statements of comprehensive income, statements of value added and statements of cash flows) for the six months ended June 30, 2016 and 2015, must consider the effects of consolidating GVTPart. from 1 May 2015.

In compliance with CVM Instruction No. 565, of June 15, 2015, the Company reports, in Note 35, a *pro-forma* consolidated income statements (not audited or reviewed) for the six-month period ended June 30, 2015, and for the year ended December 31, 2015.

Some figures on the notes to the quarterly financial statements were reclassified to allow comparability between the information for the six-month periods ended June 30, 2016 and 2015, where applicable.

The quarterly financial statements were prepared pursuant to the accounting principles, practices and criteria consistent with those adopted in preparing the financial statements for the year ended December 31, 2015, as well as the new pronouncements, interpretations and amendments that had been published, as described below:

IFRS 5 Non-current Assets Held for Sale and Discontinued Operations, revision: The amendments to this standard provide a guidance regarding the accounting treatment to be adopted upon the reclassification of an asset (or group of assets) from the “held for sale” category to the “distribution to shareholders” category (or conversely). This standard is applicable as from the year beginning on January 1, 2016. The Company does not have plans for asset sales or distribution to shareholders and, does not expect any significant impacts on its financial position.

IFRS 7 Financial Instruments: Disclosures, revision: The amendments to this standard provide a guidance regarding the disclosure of the accounting policies that form the measurement base (or bases) used in the preparation of the financial statements, and other accounting policies used that are relevant to allow understanding the financial statements. This standard is applicable as from the year beginning on January 1, 2016. The Company already discloses significant accounting practices in its financial statements.

IFRS 11 Accounting for Acquisitions of Interests in Joint Operations, revision: The amendments to this standard require that joint investors, which record the acquisition of equity interest in joint operations that is a business apply the relevant IFRS 3 principles applicable to business combination. The amendments further clarify that the interest previously held in joint operations is not remeasured upon acquisition of additional interest in the same joint operation, while the joint control is held. Additionally, a scope exclusion was added to IFRS 11 in order to specify that the amendments are not applicable when the parties sharing joint control, including the reporting entity, are under the common control of the main controlling party. The amendments are applicable to both, the acquisition of final interest in a joint operation and the acquisition of any additional interest in the same joint operation, and are effective prospectively as from the year beginning on January 1, 2016. The Company did not acquire interest in joint operations fitting into this standard.

(In thousands of *Reais*, unless otherwise stated)

IFRS 14 Regulatory Deferral Accounts, issue: This standard is optional and allows companies whose activities are subject to regulated fees to continue applying most part of its accounting policies on regulatory deferral accounts balances upon the first-time adoption of IFRS. The companies that adopt IFRS 14 must present regulatory deferral accounts separately in the balance sheet and in the other comprehensive income. This standard requires disclosures on the nature and risks associated with company's regulated fees, and the effects of such regulation on the financial statements. This standard is applicable as from the year beginning on January 1, 2016. The Company does not expect any significant impact on its financial position, since it has already been preparing its financial statements based on the effective IFRS.

IAS 1 Disclosure Initiative, revision: This standard addresses changes in the overall financial statements of a company. This standard is applicable as from year beginning on or after January 1, 2016. The model for disclosure of the Company's financial information is compliant with this standard, and the Company does not expect impacts on its financial disclosures.

IAS 16 and IAS 38 Clarification of Acceptable Methods of Depreciation and Amortization, revision*:* The amendments clarify the depreciation and amortization methods subject to the alignment to the concept of future economic benefits expected from the use of assets over its economic useful life. This standard is applicable as from the year beginning on January 1, 2016. The Company does not expect any significant impact on its financial position.

IAS 19 Employee Benefits, revision: The amendments to this standard require that the Company disclosure information about the rates used to discount obligations with post-employment benefits, determining by reference market earnings at the end of the reference period of the obligations of high-quality institutions. For currencies for which there is no active market in such obligations of high-quality institutions, there shall be use of market earnings (at the end of the period of disclosure) of government securities denominated in that currency. The currency and term of the obligations of the companies or of government obligations must be consistent with the currency and term expected of obligations with post-employment benefits. In Brazil, there is no confirmed high-quality securities market, and that is the reason why the Company and its actuaries have been using Brazilian Government securities for many years, mainly NTN-Bs (National Treasury Notes – B series), with terms equivalent to the average duration of each plan for purposes of present value discount of the actuarial liabilities. The currency used for the payment of the benefits and for NTN-Bs valuation is the Real.

Amendments to IAS 27 Equity Method in Separate Financial Statements, revision: The amendments to this standard allow the Company to use the equity pick-up method for investments in subsidiaries, joint ventures and affiliates in its individual financial statements. This standard is applicable as from the year beginning on January 1, 2016. This amendment did not generate any impact on the individual financial statements of the Company, since the equivalent Brazillian accounting standards (CPC-35-R2) already provided the use of this method.

IAS 34 Interim Financial Reporting, revision: The amendments to this standard require that the Company disclose in its interim financial statements must include the following information: (i) declaration of policies and calculation methods compared to the most recent annual financial statements; (ii) comments about seasonality; (iii) nature and quantity of unusual items that affect assets, liabilities, equity, revenues or cash flows due to their nature, dimension or occurrence; (iv) nature and number of changes in estimates of amounts disclosed in the comparative periods; (v) issues, repurchases and refunds of securities; (vi) dividends paid (aggregated or per share), separated by common and other shares; (vii) complete information by segment; (viii) events subsequent to the current period, which have not been reflected in the interim reports; and (ix) effects from changes in the Company's corporate structure during the interim financial statements reporting period, among others. This standard is applicable as from the year beginning on January 1, 2016. The Company does not expect impact on its interim financial statements, since it already includes this information in the preparation of its quarterly financial statements.

On the date of preparation of these quarterly financial statements, the following IFRS amendments had been published, however, their application was not compulsory:

(In thousands of *Reais*, unless otherwise stated)

Standards and Amendments to the Standards	**Effective as of:**
IFRS 9 Financial Instruments, issue of final version.	January 1, 2018
IFRS 10, 12 and IAS 28 Investment Entities: Applying the Consolidation Exception, review.	TBD
IFRS 15 Revenue from Contracts with Customers, issue.	January 1, 2018
IFRS 16 Leases, issue.	January 1, 2019
IAS 7 Cash Flow, review.	January 1, 2017
IAS 12 Income Taxes, review.	January 1, 2017

The Company does not early adopt any pronouncement, interpretation or amendment that has been issued, whose application is not compulsory. Based on the analyses performed by the Company, the adoption of most of these standards, will not significantly impact the consolidated financial statements in the period of its first-time adoption. However, IFRS 15 may impact the period and amount of revenue recognition in relation to certain revenue transactions. The Telefónica Group is currently evaluating the impact of the application of this standard. In addition, the amendments introduced by IFRS 9 will affect financial instruments and operations with financial instruments performed on or after January 1, 2018. Additionally, IFRS 16 requires that the Company inform all assets and liabilities subject to leases (except short-term leases and leases of nominal amount). Therefore, the amendments introduced by IFRS 16 may have a significant impact on the Company's financial statements.

2.3) Bases for consolidation

The Company had the following interests in the following companies and their bases dates:

This transaction was subject to obtaining the applicable corporate and regulatory approvals, including from the Administrative Council for Economic Defense (CADE) and ANATEL, further to other conditions usually applicable to this type of transaction. The transaction was approved by ANATEL under Act No. 448 of January 22, 2015, and published in the Official Federal Gazette ("DOU") on January 26, 2015, and by CADE at the 61st ordinary session of its Trial Court, held on March 25, 2015, published in the Official Federal Gazette ("DOU") on March 31, 2015.

Under IFRS 3 (R)/CPC 15 (R1) – Business Combinations, business acquisitions are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the fair value of assets transferred, of liabilities assumed at the acquisition date from the acquiree's shareholders and equity interests issued in exchange for control over the acquiree.

The acquisition price was as follows:

Gross consideration in cash (4.663 billion euros)	15,964,853
(-) Contractual Adjustments (Net Debt)	(7,060,899)
Total consideration in cash, net	**8,903,954**
(+) Contingent Consideration	344,217

(In thousands of *Reais*, unless otherwise stated)

(4) This includes the allocation of deferred taxes on contingent liabilities (R$174,300).

(5) This refers to goodwill recorded on the acquisition of GVTPart. based on expected synergies resulting from the business combination. This amount may be used for tax purposes.

As part of the Stock Purchase Agreement and Other Covenants executed by the Company and Vivendi for the acquisition of GVT Part-issued shares, a contingent consideration was defined for the court deposits made by GVT for the monthly installments of deferred income and social contribution taxes on the amortization of goodwill arising from the corporate restructuring process completed by GVT in 2013. In September 2014, GVT filed for a cancellation of the judicial review and the return of the amounts deposited with the courts.

If GVT succeeds in receiving (being reimbursed, refunded of or netting) these funds, they will be returned to Vivendi, as long as they are obtained in a final unappeasable decision. The period for returning such amount is of up to 15 years. The fair value of the contingent consideration on the acquisition date was R$344,217, recorded in the Company's non-current liabilities as "Loans, financing, financial lease and contingent consideration" (Note 20), which is subject to monthly monetary adjustments based on the Selic rate.

The balance of cash and cash equivalents on the acquisition date was R$390,255 (R$376,479, net of transaction costs).

On the date of preparation of these quarterly financial statements, the Company concluded had already completed revisions the review of the adjustments to the determination of the fair value of GVTPart. for identifiable assets acquired and liabilities assumed.

(1) This refers to the amounts recorded which, in accordance with Brazilian tax legislation, may be offset to the limit of 30% of the tax bases computed for the following years, with no expiry date.

(2) This refers to tax benefits arising from corporate restructuring of goodwill for expected future profitability, which tax use follows the limit set forth in tax legislation.

(3) Amounts will be realized upon payment of provisions, effective impairment losses of trade accounts receivable, or realization of inventories, as well as upon reversal of other provisions.

(4) These refer to deferred taxes (IR and CS) arising from business combinations, R$610,873 being of GVTPart. (Note 3) and R$6,789 of TGLog.

(5) These refer to deferred taxes arising from other temporary differences, such as deferred income, derivative transactions, renewal of licenses burden, subsidy on the sale of mobile phones, among others.

As of June 30, 2016, the amount of R$3,170 (R$481,203 as of December 31, 2015) in deferred tax credits (income tax on tax losses and social contribution on negative base) was not recognized for direct and indirect on the books of subsidiaries, as it is not probable that future taxable income will be available for these entities to benefit from such tax credits.

The table below presents deferred income and social contribution taxes for items charged or credited directly in equity on June 30, 2016 and 2015.

8) JUDICIAL DEPOSITS AND GARNISHMENTS

In some situations, in connection with a legal requirement or presentation of guarantees, judicial deposits are made to secure the continuance of the claims under discussion. These judicial deposits may be required for claims whose likelihood of loss was analyzed by the Company and its subsidiaries, grounded on the opinion of their legal advisors, as probable, possible or remote loss.

On June 30, 2016, the Company and its subsidiaries had a number of tax-related judicial deposits in the consolidated amount of R$3,586,169 (R$3,374,764 on December 31, 2015). In Note 18, we provide further details on issues arising from the main judicial deposits.

Below is a brief description of the main tax-related judicial deposits:

• Contribution tax on gross revenue for Social Integration Program (PIS) and for Social Security Financing (COFINS)

The Company and TData are involved in disputes related to: (i) claim filed for credits arising from overpayment of tax, not recognized by tax authorities; (ii) tax debt arising from underpayment due to differences in ancillary statements (Federal Tax Debt and Credit Return – DCTF); and (iii) disputes referring to changes in rates and increase in tax bases introduced by Law No. 9718/98.

At June 30, 2016, the consolidated balance of judicial deposits amounted to R$35,853 (R$35,272 at December 31, 2015).

- Social Contribution Tax for Intervention in the Economic Order (CIDE)

The Company is involved in legal disputes for the exemption of CIDE levied on offshore remittances of funds arising from agreements for the transfer of technology, brand and software licensing etc.

At June 30, 2016, the consolidated balance of judicial deposits amounted to R$170,602 (R$164,482 on December 31, 2015).

- Telecommunications Inspection Fund (FISTEL)

ANATEL collects the Installation Inspection Fee (TFI) on the extension of licenses granted and on radio base stations, mobile stations and radio links. Such collection results from the understanding of ANATEL that said extension would be a triggering event of TFI, and that mobile stations, even if owned by third parties, are also subject to TFI. The Company and TData are challenging the aforesaid fee in court.

At June 30, 2016, the consolidated balance of judicial deposits amounted to R$1,050,646 (R$1,008,771 at December 31, 2015).

- Withholding Income Tax (IRRF)

The Company is involved in disputes related to: (i) exemption of IRRF payment on offshore remittances for out-coming traffic; (ii) exemption of IRRF payment on interest on equity; and (iii) IRRF levied on earnings from rent and royalties, wage labor and fixed-income investments.

At June 30, 2016, the consolidated balance of judicial deposits amounted to R$71,291 (R$67,996 at December 31, 2015).

(In thousands of *Reais*, unless otherwise stated)

- Corporate Income Tax (IRPJ) and Social Contribution Tax on Net Income (CSLL)

The Company is involved in disputes related to: (i) debts stemming from offsetting of IRPJ overpayments not recognized by the Brazilian IRS; (ii) requirement of IRPJ estimates and lack of payment of debts in the Integrated System of Economic and Tax Information (SIEF); (iii) underpaid IRPJ amounts; and (iv) right to write off the monthly amortize goodwill arising from the acquisition of GVTPart. by Vivendi on deducted IRPJ and CSLL amounts (Note 3).

At June 30, 2016, the consolidated balance of judicial deposits amounted to R$417,551 (R$410,412 at December 31, 2015).

- Contribution to Empresa Brasil de Comunicação (EBC)

On behalf of its members, Sinditelebrasil (Union of Telephony, and Mobile and Personal Services) is challenging in court payment of the Contribution to Foster Public Radio Broadcasting to EBC, introduced by Law No. 11652/2008. The Company and its subsidiaries, as union members, made court deposits referring to that contribution.

At June 30, 2016, the consolidated balance of judicial deposits amounted to R$991,216 (R$858,630 at December 31, 2015).

- Social Security, Work Accident Insurance (SAT) and Funds to Third Parties (INSS)

The Company is involved in disputes related to: (i) SAT and funds to third parties (National Institute of Colonization and Agrarian Reform - INCRA and Brazilian Micro and Small Business Support Service -

SEBRAE); (ii) joint responsibility for contract labor; (iii) difference in SAT rate (from 1% to 3%); (iv) premiums; and (v) social security contribution collection (employers' contributions), SAT and funds to third parties on the following events: maternity leave, legally ensured 1/3 vacation pay bonus, and first 15 days' leave due to illness or accident.

Labor provisions and contingencies involve labor claims filed by former employees and employees at outsourced (the latter alleging subsidiary or joint liability) claiming for, among other issues, overtime, salary equalization, post-retirement benefits, allowance for health hazard and risk premium, and matters relating to outsourcing.

The Company is also a defendant in labor claims filed by retired former employees who are covered by the Retired Employees Medical Assistance Plan (“PAMA”), who among other things are demanding the cancellation of amendments to this plan. Most of these claims await a decision by the Regional Labor Court of São Paulo and the Superior Labor Court. Based on the opinion of its legal counsel and recent decisions of the courts, management considers the risk of loss in these cases as possible. No amount has been allocated for these claims, since is not possible to estimate the cost to the Company in the event of loss.

Additionally, the Company is party to Public Civil Actions filed by the Labor Public Prosecutor’s Office, mainly in relation to the determination that the Company must cease the engagement of intermediaries to carry out its core activities. No amounts were allocated to the possible degree of risk in these Public Civil Actions in the above table, since at this stage of the proceedings it is not possible to estimate the cost to the Company in the event of loss.

Municipal Taxes

The Company and/or its subsidiaries are parties to various administrative and judicial proceedings, at the municipal level, which are awaiting decisions in different court levels.

The most important of these proceedings are: (i) ISS on non-core activity, value-added and supplementary services; (ii) ISS withholding at source; (iii) IPTU; (iv) land use tax; (v) various municipal charges; (vi) charge for use of mobile network and lease of infrastructure; (vii) advertising services; (viii) services provided by third parties; (ix) advisory services in corporate management provided by Telefónica International; (x) ISS on calls identification and mobile phone licensing services; and (xi) ISS on full-time services, provisions, returns and cancelled tax receipts.

At June 30, 2016, consolidated amounts involved totaled R$847,246 (R$769,113 at December 31, 2015).

ANATEL

Universal Telecommunications Services Fund ("FUST")

Injunctions for recognition of the right not to include charges for interconnection and industrial use of dedicated lines (EILD) in the calculation base for FUST, as provided for under Precedent No. 7, of December 15, 2005, for non-compliance with the provisions of Article 6, sole paragraph, of Law No. 9.998/00, awaiting a decision in the court of appeal.

Various delinquency notices were issued by ANATEL in the administrative level to collect charges on interconnections, EILD and other revenues not earned from the provision of telecommunication services.

At June 30, 2016, consolidated amounts involved totaled R$3,995,234 (R$3,647,291 at December 31, 2015).

Fund for Technological Development of Telecommunications ("FUNTTEL")

The Company and/or its subsidiaries are parties to administrative and judicial proceedings, awaiting judgment in the lower administrative court and court of appeal. These proceedings concern the collection of a contribution to FUNTTEL on other revenues (not from telecommunications), and income and expenses transferred to other operators (interconnection).

At June 30, 2016, consolidated amounts involved totaled R$1,066,537 (R$911.836 at December 31, 2015).

Telecommunications Inspection Fund ("FISTEL")

ANATEL collects TFI in the event of extension of the validity periods of licenses to use telephone exchanges for fixed switched telephone services and of the right to use radiofrequencies for personal mobile phone services.

This collection is based on ANATEL's understanding that such extensions trigger a liability to TFI. The Company understands that this collection is improper, and is challenging the charge in court.

At June 30, 2016, consolidated amounts involved totaled R$2,719,485 (R$2,455,229 at December 31, 2015), excluding the corresponding court deposits..

Public Charge for Management of Numbering Resources ("PPNUM")

The Company, along with other mobile operators in Brazil, has filed a challenge to the collection of PPNUM by ANATEL, which is in the nature of a charge. The Company made a judicial deposit referring to the amounts due. On April 23, 2009 the court ruled in favor of the operators, and the case is now awaiting judgment in the court of appeal.

Provisions for probable civil contingencies

- The Company and/or its subsidiaries are parties to proceedings involving rights to the supplementary amounts from shares calculated on network expansion plans since 1996 (share supplement proceedings). These proceedings are at different stages: 1st level court, court of justice and superior court of justice. At June 30, 2016, consolidated provisions totaled R$235,026 (R$190,004 at December 31, 2015).

- The Company and/or its subsidiaries are parties to various civil proceedings related to consumers at the administrative and judicial level, referring to failure to supply services and/or products sold. At June 30, 2016, consolidated provisions totaled R$441,796 (R$435,782 at December 31, 2015).

• The Company and/or its subsidiaries are parties to various civil proceedings of non-consumer at administrative and judicial level, all arising in the ordinary course of business. At June 30, 2016, consolidated provisions totaled R$422,837 (R$384,570 at December 31, 2015).

Provisions for probable regulatory contingencies

The Company and GVTPart. are parties to administrative proceedings against ANATEL, filed based on alleged failure to meet sector regulations, and to judicial proceedings to discuss sanctions applied by ANATEL at the administrative level. At June 30, 2016, consolidated provisions totaled R$735,122 (R$642,695 at December 31, 2015).

Possible civil contingencies

Management and its legal counsel understand that losses are possible in the following civil proceedings:

• A Public Civil Action involving the Company related to the Community Telephone Plan ("PCT"), on possible rights to indemnify acquirers of expansion plans and did not receive shares in return for its financial investments, in the municipality of Mogi das Cruzes. The total consolidated amount approximates to R$471,756 at June 30, 2016 (R$421,085 at December 31, 2015). The Court of Justice of São Paulo ("TJSP") overturned the decision and judged the case inadmissible. The Mogi das Cruzes Municipal Telephony Association ("plaintiff" or "Association") filed a special appeal against the decision of the TJSP. On December 7, 2015, the Association's appeal was turned down by the Superior Court of Justice. The Association has sought an Amendment of Judgment which were not known by the Superior Court on March 17, 2016. On April 15, 2016, transitioned decision became final, not allowing more resources.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

(In thousands of *Reais*, unless otherwise stated)

- A Class Action filed by the Association of Participants in SISTEL ("ASTEL") in the State of São Paulo, challenging changes made in the Company's Retired Employees' Medical Assistance Plan ("PAMA") and, briefly summarized, claim for the reestablishment of the prior status quo ante. The process is still in the appeal stage, waiting for Interlocutory Appeal judgment filed by Company against admissibility decision of the special and extraordinary appeals filed in the face as the 2nd degree decision, which reversed the dismissal sentence. The value is inestimable and the requests illiquid for its unenforceability, considering that involves returning the conditions of the previous plan.

- Civil Public Actions filed by ASTEL in the State of São Paulo and by the National Federation of Associations of Retired Employees, Pensioners and Members of Pension Funds in the Telecommunications Sector ("FENAPAS"), both against Sistel, the Company and other operators, in order to annul the spin-off of a PBS private pension plan, alleging, in brief, the "*dismantling of the Sistel Foundation's supplementary pension system*", which had originated a number of specific minor PBS plans mirroring, corresponding to allocation of funds arising from a technical surplus and tax contingency existing at the time of the spin-off. The amount cannot be estimated and the claims are gross because they are unenforceable, given that they involve a return to the spun-off assets of Sistel consisting of the telecommunications operators belonging to the former Telebrás System.

- The São Paulo State Prosecutor's Office filed a public civil action claiming indemnity for moral and material damage suffered by all users of telecommunications services from 2004 to 2009 due to the poor quality of service and failures in the communications system. The Prosecutor's Office suggested that a fine of R$1 billion should be imposed. The decision handed down on April 20, 2010 was for an indemnity to be paid for damage suffered by all users registering as parties to the action. Company filed an appeal that on April,13, 2015 was judged, and by unanimous vote retired the first degree sentence to reject the demand. The prosecution appealed against the judgment of the Appeal, filed a special and extraordinary appeal. Present counterarguments to the special and extraordinary appeals. The special and extraordinary appeals were not admitted, awaiting intimation about possible an appeal by prosecutors.

Alternatively, if the number users registering within a year were not compatible with the extent of the damage caused, the judge determined an amount of R$60 million to be deposited in the Special Expense Fund to Indemnify Damage to Collective Interests. It is not possible to estimate the number of consumers that may apply for individual registration, or the amounts that they may claimed. The parties have appealed. The effects of the sentence are suspended. No value has been assigned in the above table on the possible risk from this public civil action because, at present, it is not possible to estimate the cost to the Company in the event of loss, and it is equally not possible to set up a provision. On April 13, 2015, the Company's appeal was judged, and the court unanimously overturned the lower court's conviction of the Company to pay the moral and material damage supposedly suffered by all the consumers affected by the "problems" in the services provided. The Prosecutor's Office filed a special and extraordinary appeal and we have filed counterarguments.

- The Company is a party to civil proceedings in various levels, in which individual users, consumer rights associations or PROCON are making demands related to services supplied, and to other cases involving miscellaneous issues in the normal course of business. At June 30, 2016, consolidated provisions totaled R$2,388,649 (R$2,146,850 at December 31, 2015).

- TGLog is a party to a civil execution action in the 3rd Civil Court of Barueri (SP) alleging lack of payment of trade bills for transportation services. TGLog's defense is that it made legitimate deductions from the trade bills for breaches of contract and losses caused by damage to its customers' goods transported by the plaintiff, which is also the subject of another lawsuit. At June 30, 2016, the amount was R$1,138 (R$1,022 at December 31, 2015).

- The Company has received tax assessment notices related to noncompliance with the Customer Service Decree ("SAC"). We are currently litigating several cases (administrative and judicial proceedings). At June 30, 2016 the consolidated amount was R$14,047 (R$12,881 at December 31, 2015).

- Intelectual Property: On November 20, 2001, Lune Projetos Especiais Telecomunicação Comércio e Ind. Ltda ("Lune"), a Brazilian company, filed an action on against 23 telecommunications operators of mobile services, claiming to own the patent for caller identifier and the "Bina". The purpose of that lawsuit was to interrupt provision of such service by operators of mobile services and to seek indemnification equivalent to the amount paid by consumers for using the service.

The court issued an unfavorable judgment determining that the Company should refrain from selling mobile phones with caller identifier service ("Bina"), subject to daily fine of R$10,000.00 in case of noncompliance. In addition, the Company must pay indemnification for royalties to be calculated in settlement.. All parties filed motions for clarification and Lunes' sought injunctive relief as appropriate at this stage of the proceedings. Lunes filed an interlocutory appeal in relation to this decision, which granted suspensive effect to the injunctive relief and suspended the effects of the unfavorable decision until final judgment of the Appeal. that was approved on June, 30, 2016 by the 4th Chamber of the Court of Justice of the Federal District, to annul the first instance decision and refer the case to the first instance to perform a new skill. pending trial. The extent of any liability that may arise from this claim cannot be determined at this point in time.

- The Company and other wireless telecommunications operators, are defendants in several lawsuits filed by public prosecutors and consumer protection associations challenging imposition of a period in which prepaid minutes may be used. The complainants claim that prepaid minutes should not expire after a specific period of time. Contradictory decisions have been made by the courts, although we believe that our criteria for imposing a period determination comply with ANATEL regulations. Based on the opinion of our legal advisors, we understand the probability of the class actions having an unfavorable outcome is remote.

<u>Possible Regulatory contingencies</u>

Management and its legal advisors understand that the chances of losing the following cases involving regulatory matters may be rated 'possible':

- The Company and GVTPart. are parties to administrative proceedings filed by ANATEL alleging noncompliance with the obligations set forth in industry regulations, as well as legal claims which discuss the sanctions applied by ANATEL at the administrative sphere. At June 30, 2016, the consolidated amount was R$4,401,836 (R$3,716,106 for the Company at December 31, 2015).

- Administrative and judicial proceedings discussing payment of 2% charge on interconnection services revenue arising from the extension of right of use of SMP related radio frequencies. Under clause 1.7 of the authorization term that grant right of use of SMP related radio frequencies, the extension of right of use of such frequencies entails payment every two years, during the extension period (15 years) of a 2% charge calculated on net revenues from the service provider's Basic and Alternative Plans of the service company, determined in the year before that of payment.

However, ANATEL determined that in addition to revenues from Service Plans, the charge corresponding to 2% should also be levied on interconnection revenues and other operating revenues, which is not stipulated in clause 1.7 of referred Authorization Term.

Based on the provisions of the Authorization Term, the interconnection services revenues should not be included in the calculation of the 2% charge for radiofrequency use right extension, the Company filed administrative and legal proceedings challenging these charged, based on ANATEL's position.

18.4) Guarantees

The Company and its subsidiaries provided guarantees for tax, civil and labor proceedings, as follows:

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Six-month period ended June 30, 2016

(In thousands of *Reais*, unless otherwise stated)

The balance of this agreement at June 30, 2016 was R$45,033 (R$45,095 at December 31, 2015).

Resolution 4131

From November 10 to December 23, 2015 , foreign currency (USD) loans were obtained based on the Central Bank of Brazil's Resolution 4131. The amount of US$285 million was taken out from the financial institutions Scotiabank at annual interest rates of 2.05% and Libor and Bank of America at annual interest rates of 2,00% and maturity within up to two years. For each of these transactions, derivatives were taken out by the Company for hedge against currency exchange-rate risk associated with this debt and since these were effective hedges, the hedge accounting methodology was adopted. On June 30, 2016, therefore, risk covered by these derivatives was recognized in the balance at their fair value on that date.

20.a.2) Financing - Suppliers

Through bilateral agreements with suppliers, the Company obtained up to 365 days rescheduled payment terms at a cost based on the CDI fixed rate for the respective periods, at average net cost equivalent to 109.8% of the CDI rate.

20.a.3) Financial Lease

Financial lease agreements, through which the Company and its subsidiaries obtained the risks and benefits associated with ownership of the leased items, are capitalized on the lease inception date at the fair value of the asset leased or, if lower, at the present value of the minimum payments of lease agreement. If applicable, the initial direct costs incurred in the transaction are added to costs.

Agreements classified as financial lease agreements in the condition of lessee related to: (i) lease of towers and rooftops arising from sale and financial leaseback transactions; (ii) lease of Built to Suit ("BTS") sites to install antennas and other equipment and transmission facilities; (iii) lease of information technology equipment and; (iv) lease of infrastructure and transmission facilities associated with the power transmission network connecting cities in the North and Midwest regions of Brazil. The net book value of the assets has remained unchanged until sale thereof, and a liability recognized corresponding to the present value of mandatory minimum installments of the agreement.

The amounts recorded in property, plant and equipment are depreciated over the estimated useful lives of the assets or the lease term, whichever is shorter.

The balances of payables related to the abovementioned transactions include the following effects:

20.a.4) Contingent consideration

As part of the Stock Purchase Agreement and Other Covenants signed by the Company to acquire all Vivendi´s GVTPart shares, a contingent consideration was agreed in relation to the court deposit made by GVT for monthly installments of income and social contribution taxes on the amortization of goodwill arising from the corporate restructuring concluded by GVT in 2013. In September 2014, GVT filed to cancel the judicial appeal and return the amount deposited.

If GVT succeeds in obtaining (reimbursing, repaying, offsetting) this amount, it will be returned to Vivendi, provided there is a final and non-appealable judgment (res judicata). Reimbursement will be made within 15 years.

The amount calculated on the effective date of acquisition of control of GVTPart (Note 3) is R$344,217, recorded as "Judicial deposits, non-current" in GVT. This amount is subject to monthly restatement by GVT and the Company at the SELIC rate.

20.b) Debentures

(1) This refers to the Company's share of responsibility under the contract signed with ANATEL, whereby the operators winning this auction set up EAD, the company responsible for isonomic operation of all TV channel and RTV redistribution procedures and for solving problems arising from interference in radio communication systems.

(2) This refers to the loan made to holders of the remaining stock (common and preferred) resulting from reverse split and fractioning of the shares of the Company and the merged companies.

(3) This refers to the cost of renewing STFC and SMP licenses.

(4) This refers to payroll withholdings and taxes withheld from pay-outs of interest on equity and on provision of services.

(5) Fiber optic exchange: refers to fiber optic cable installed in Brazil's South region. The original amount was recorded in Property, Plant and Equipment. This liability is to be met by providing services in the 17-year contractual period as of 2002 and is not subject to interest charges on the remaining balance. The total balance payable at June 30, 2016 was R$6,367 (R$7,717 at December 31, 2015).

Public Price for Radio Frequency Right of Use (PPDUR): Under the telecommunications legislation, the price paid for a Mirror License included the right to use any frequencies required to meet the 20-year expansion targets at no additional cost. However, ANATEL's bidding procedure for Region II Mirror Companies established that if the price paid by the winner was below the price for using frequencies, the difference should be paid by the winner. In November 2014, after legal discussions between GVT and ANATEL, a back-tax agreement or REFIS was granted and deferred with a discount of R$16,217 for a final outstanding balance to pay of R$18,530, of which 15% (R$2,780) was paid and the remainder agreed to be paid in 30 installments. The balance payable at June 30, 2016 totaled R$6,231 (R$10,843 at December 31, 2015).

22) EQUITY

a) Capital

Company's capital at June 30, 2016 and December 31, 2015 was R$63,571,416. Subscribed and paid-in capital was represented by non-par value shares as follows:

According to its bylaws, the Company is authorized to increase its share capital up to 1,850,000,000 (one billion, eight hundred fifty million) shares. The Board of Directors is the competent body to decide on any increase and consequent issue of new shares within the authorized capital limit.

Nevertheless, under the Brazilian Corporation Law (Law 6404/76, Article 166, IV) - establishes that capital may be increased by a resolution voted at a Special Shareholders' Meeting convened to decide on amendments to the bylaws, if authorization for the capital increase limit has expired.

Capital increases do not necessarily observe the proportion between the number of shares of each class to be maintained, however the number of non-voting or restricted-voting preferred shares must not exceed 2/3 of total shares issued.

Preferred shares are non-voting, except for the cases set forth in Articles 9 and 10 of the bylaws, but have priority in the event of reimbursement of capital, without premium, and are entitled to dividends 10% higher than those paid on common shares, as per article 7 of the Company's bylaws and item II, paragraph 1, article 17 of Law No. 6404/76.

Preferred shares are also entitled to full voting rights if the Company fails to pay the minimum dividend to which they are entitled for three consecutive fiscal years and this right will be kept until payment of this dividend.

b) Premium on acquisition of equity interest

Under the accounting practices adopted in Brazil previously to the adoption of the IFRS/CPC, goodwill was recorded when shares were acquired at higher value than their carrying amount, the premium generated by the difference between the carrying amount value of shares acquired and their fair value. As of the adoption of IAS 27R (IFRS 10 since 2013)/ CPCs 35 and 36, the effects of all acquisitions of shares from non-controlling shareholders have been recorded in equity if the controlling shareholding remains unaltered. Therefore these transactions no longer generate goodwill or income and previous goodwill premiums on acquisitions by non-controlling shareholders were debited from the Company’s equity.

The balance of this item was R$75,388 at June 30, 2016 and December 31, 2015.

c) Capital Reserves

c.1) Other Capital Reserves

This item includes the amount of R$63,074 in tax benefit arising from the absorption of Telefônica Data do Brasil Ltda., which will be capitalized in favor of the controlling shareholder once the tax credit has been recognized in accordance with CVM Instruction 319/99.

It also includes the amount of R$1,372,683 referring to the amount by which the issue or capital increase amount exceeds that of the basic value of the shares on the issue date, and direct costs (net of taxes) related to capital increases in the fiscal year 2015.

The balance of this item was R$1,435,757 at June 30, 2016 and December 31, 2015.

c.2) Treasury stock

The Company's shares held in treasury arising from the acquisition and merger of GVTPart. shares that ended on June 30, 2015. Those holders of the Company's common and preferred shares who have expressed their disagreement with the acquisition of GVTPart. (Note 3) and absorption of GVTPart. stock by the Company for consequent conversion of GVTPart. to a wholly owned subsidiary of the Company, have the right to withdraw from the Company and be reimbursed for the amount of the shares held by them on September 19, 2014 (including).

As a result of the Operation above, the Company paid R$87,805 to the shareholders who exercised their right to dissent, including those who requested the preparation of a special balance sheet, representing

2,290,989 shares, of which 2,290,164 common and 734 shares preferred.

The balance of this item was R$87,805 at June 30, 2016 and December 31, 2015.

d) Income Reserves

d.1) Legal reserve

This reserve is set up by allocation of 5% of the year's net income within a maximum of 20% of paid-up capital. The legal reserve may only be used to increase capital and offset accumulated losses.

The balance of this item was R$1,703,643 at June 30, 2016 and December 31, 2015.

d.2) Special Reserve for Expansion and Modernization

In accordance with Article 196 of Law 6404/76, based on the capital budget to be submitted and approved of the General Meeting of Shareholders on April 28, 2016, the Company established a special reserve of R$700,000 for expansion and modernization, which will be used to partly fund capital expenditure for the 2016 financial year.

The balance of this item at June 30, 2016 and December 31, 2015 was R$700,000.

d.3) Tax Incentives Reserve

In relation to ICMS tax paid in the states of Minas Gerais and Espírito Santo, the Company holds tax benefits in the form of credits granted by the competent bodies against investments it made to install supporting equipment for SMP services, which is fully functioning and operating in accordance with current regulations, thus ensuring that the localities listed in the procurement notice will be included in the SMP coverage area.

27) INCOME AND SOCIAL CONTRIBUTION TAXES

The Company and its subsidiaries recognize income tax and social contribution on net income on a monthly accrual basis and pay taxes on an estimated amount based on a suspension or reduction trial balance. Taxes calculated on income until quarterly financial statements are recorded in liabilities or assets, as applicable.

Reconciliation of tax expenses with standard rate

Reconciliation of the reported tax expense and the amount calculated by applying statutory tax rate of 34% (25% of income tax and 9% of social contribution) is shown below for the quarters ended June 30, 2016 and 2015.

For the six-months ended June 30, 2016 and 2015, our Directors and Officers did not receive any pension, retirement or similar benefits.

30) INSURANCE

The policy of the Company and its subsidiaries, as well as that of the Telefónica Group requires insurance coverage for all high-risk assets and liabilities of material worth in management's judgment, as per Telefónica's corporate program guidelines.

On June 30, 2016, maximum limits of claims (contractually established for each company consolidated by the Company) for the main assets, liabilities or interests covered by insurance and their respective amounts were R$1,047,826 for operational risks (including loss of profit) and R$75,000 for general civil liability (locally RCG).

31) SHARE-BASED PAYMENT PLANS

Telefónica, as the Company's parent company, has different share-based payment plans based on the share quotes, which were also offered to management and employees of its subsidiaries, including Telefônica Brasil and the latter's subsidiaries.

The fair value of these options is estimated on the grant date, based on a binomial pricing model reflecting terms and conditions of instruments granted.

The Company and its subsidiaries reimburse Telefónica for the amount of the fair value of the benefits granted to management and employees on the grant date.

The main plans in effect on June 30, 2016 and December 31, 2015 are detailed below:

a) Performance & Investment Plan (“PIP”)

Telefónica's Annual Shareholders’ Meeting held on May 18, 2011 approved a long-term program for using Telefónica stock options to reward senior management's commitment, outstanding performance and high potential globally.

Participants are not required to pay for their initial stock options and may add to the number of shares to be received at the end of the plan if they decide for a joint investment in their PIP, which requires a participant to buy the equivalent of 25% of the initial shares awarded by Telefónica and hold them until the end of the cycle, when Telefónica will add another 25% on top of the initial amount of shares in their co-investment.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Six-month period ended June 30, 2016

(In thousands of *Reais*, unless otherwise stated)

Initially, the plan is expected to remain effective for 3 years. The cycles are independent of each other. The number of shares is reported at the beginning of each cycle and will be transferred to participants 3 years after granting date if they have met their targets.

Issuance of shares is conditional upon: (i) maintenance of active employment relationship within the Telefónica Group on the cycle consolidation date; and (ii) achievement, by Telefónica, of results representing fulfillment of the objectives established for the plan.

The level of success is based on the evolution of Telefónica share earnings, including stock quotations and dividends (Total Shareholder Return - TSR) compared with the evolution of TSRs of companies in a pre-defined comparison base.

In 2014, the Company approved the extension of this program for another 3 cycles of 3 years each from October 1, 2014 to September 30, 2017. The number of shares is informed at the beginning of the cycle and three years after granting date, and shares are transferred to participants as long as TSR targets are met.

The 2012-2015 cycle was completed in June 2015, achieving the TSR targets. Sixty eight (68) of the Company's executives obtained the right to receive 258,552 Telefónica shares.

The 2013-2016 cycle takes place in June 2016 and TSR was not achieve, therefore Telefónica shares were not delivered to the Company’s executives.

The following cycles have been scheduled:

- 2014-2017 cycle: inception in September 2017, for 61 of the Company's executives (including 2 designated statutory officers), potentially being awarded 243,771 Telefónica shares.
- 2015-2018 cycle: inception in September 2018, for 105 of the Company's executives (including 3 designated statutory officers), potentially being awarded 649,198 Telefónica shares.

The maximum number of shares in ongoing cycles as of June 30, 2016 is as follows:

Cycles	Initial number of shares + Co-investment (Active Managers)	Par value in Euros - share price as of 06/30/16	Final date
4th cycle - October 1, 2014	243,771	8.46	September 30, 2017
5th cycle - October 1, 2015	649,198	8.46	September 30, 2018

b) Talent for the Future Share Plan ("TFSP")

Telefónica's 2014 Annual Shareholders' Meeting approved a long-term program to reward the commitment, outstanding performance and high potential of its executives globally by awarding Telefónica shares.

Participants are not required to pay for their initial options. Initially, the plan is expected to remain effective for 3 years. The cycle began on October 1, 2014 and it will be effective until September 30, 2017. The number of shares is reported at the beginning of the cycle and shares will be transferred to participants 3 years after granting date if their targets have been met.

Issuance of shares is conditional upon: (i) maintenance of active employment relationship within the Telefónica Group on the cycle consolidation date; and (ii) achievement, by Telefónica, of results representing fulfillment of the objectives established for the plan. The level of success is based on the evolution of Telefónica shareholder earnings, including their quotations and dividends (Total Shareholder Return - TSR) compared with the evolution of TSRs of Group companies in a pre-defined comparison base.

The maximum number of shares awarded in the first ongoing cycle as of June 30, 2016 is as follows:

2nd cycle - October 1, 2015	95,500	8.46	September 30, 2018

c) Global Employee Share Plan ("GESP")

At its Annual Shareholders' Meeting held on May 30, 2014, Telefónica approved a plan to incentivize purchases of its shares by the Group's employees at the international level, including employees of the Company and its subsidiaries. The plan offers employees the possibility of acquiring Telefónica's shares and the latter promises to transfer a certain number of its shares to participants free of charge as long as certain conditions are fulfilled.

Initially, the plan was expected to remain effective for 2 years. Employees enrolled in the plan were able to acquire Telefónica shares by making monthly contributions of 25 to 150 euros (or the equivalent in local currency) totaling at most 1,800 euros over 12 months (acquisition period).

Shares will be transferred on the plan's vesting date, as of July 31, 2017 and on these conditions: (i) remaining in the company's employment during the program's two-year duration (vesting period), subject to certain special conditions related to anybody leaving its employment; and (ii) the exact number of shares to be transferred at the end of the vesting period depends on the number of shares acquired and held by employees. Therefore, employees enrolled in the plan who have remained in the employment of Telefónica Group and have held the shares acquired for another twelve months after the end of the acquisition period will be entitled to receive an additional share free of charge for each share they have acquired and held until the end of the vesting period.

The expenses of the Company and its subsidiaries incurred for the above mentioned stock option plans, if applicable, are recorded as personnel expenses in the Costs of Services, Selling, General and Administrative Expenses groups (Note 24) and correspond to R$7,639 and R$6,045 for the quarters ended

June 30, 2016 and 2015.

32) POST-RETIREMENT BENEFIT PLANS

The table below shows the plans sponsored by the Company and the corresponding types of benefits.

Defined benefit liabilities comprise different components depending on the characteristics of the pensions provided by each plan, and may include actuarial liabilities of supplementary pension liabilities, health care benefits for retirees and their dependents and death and incapacity compensation for participants. This liability is exposed to economic and demographic risks such as: (i) increased medical costs that could impact the cost of health care plans; (ii) salary increases; (iii) long-term inflation rates; (iv) nominal discount rate; and (v) life expectancy of participants and pensioners.

The fair value of the plans' assets mainly consists of fixed-income investments (NTNs, LFTs, LTNs, repos, CDBs, debentures, financial notes and holdings in receivables funds [FIDCs]) and equity investments (high liquidity blue chips and ETFs). Due to concentration of investments in fixed income and equity, the plans' assets are primarily exposed to risks inherent to the financial market and the economic scenario such as: (i) market risk for sectors in which investments in equities are concentrated; (ii) risk of events that impact economic environment and market indices in which equity investments are concentrated; and (iii) long-term inflation rates that may erode the profitability of fixed-income investments.

The administrators of the post-employment benefit plans sponsored by the Company (Visão Prev and Sistel) attempt to match the flows of assets and liabilities by acquiring fixed-income securities and other long-term assets.

Except for the underfunded CTB and healthcare plans - Law 9656/98, all other benefit plans currently have a surplus position. The economic benefit recorded in the assets of the Company and its subsidiaries does not reflect the total surplus determined for these plans. The economic benefit recognized in 'Assets' reflects only that part of surplus that may actually be recovered. The plans' surpluses may be recovered only by reducing future contributions, and since not all plans are currently receiving enough contributions to fully recover surpluses, the economic benefit recorded in assets is limited to the total that may be recovered in accordance with projected future contributions.

All income and expenses related to defined benefit plans and hybrid benefit plans, such as employer contributions, costs of current services, and interest charged on net actuarial liabilities are recognized directly in the operating results of the Company and its subsidiary.

Actuarial gains and losses relating to defined benefit plans and hybrid benefit plans, in addition to limitations on recoverability of surpluses through future refunds or reduced contributions, are immediately recognized in Other comprehensive income and do not impact the operating results of the Company or subsidiary.

Consolidated balances of both underfunded and surplus plans are shown below:

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Six-month period ended June 30, 2016

(In thousands of *Reais*, unless otherwise stated)

The changes shown in the table above were made based on assumptions and projections produced in the actuarial valuations of December 31, 2015 and 2014. With the exception of contributions and benefits paid by employers, which reflect the values effected over the periods.

Of the surplus amounts shown in the table above, the Company recognized consolidated amounts of R$9,390 and R$8,724 at June 30, 2016 and December 31, 2015, respectively (Note 10).

33) FINANCIAL INSTRUMENTS

a) Derivative Transactions

The purpose of all of the Company's transactions with derivatives is to hedge against the currency risk arising from assets and liabilities in foreign currencies, against inflation risk from its debentures and lease agreements indexed to the IPCA, and against the risk of changed in long-term interest rates risk (TJLP) on part of the debt with BNDES. Therefore any changes in risk-factors lead to adverse effects on the matching entry proposed to be hedged. Therefore, derivatives are not held for speculative purposes and any currency risks are hedged.

Management understands that the Company's internal controls for its derivatives are adequate to control risks associated with each strategy for the market. Gains/losses obtained or sustained by the Company in relation to its derivatives show that its risk management has been appropriate.

The Company calculates the effectiveness of the derivative contracts to hedge its financial liabilities and cash flows in foreign currency at the beginning of the operation and on an ongoing basis. At June 30, 2016 and December 31, 2015, the derivative instruments were effective for the objects of this coverage.

As long as these derivatives contracts qualify as hedge accounting (hedge), the risk covered may also be adjusted to fair value, offsetting the result of derivatives, according to the rules of hedge accounting. This hedge accounting applies both to financial liabilities as the probable cash flows in foreign currency

At June 30, 2016 and December 31, 2015, the Company was not holding any embedded derivatives contracts.

Derivatives Contracts includes specific penalties for breach of contract. Breach of contract provided for in agreements made with financial institutions leads to the early settlement thereof.

a.1) Fair value of derivative financial instruments

The valuation method used to calculate the fair value of financial liabilities (if applicable) and derivative financial instruments was the discounted cash flow method, based on expected settlements or realization of liabilities and assets at market rates prevailing on balance sheet date.

Fair values are calculated by projecting future inflows from transactions using BM&FBovespa yield curves discounting these flows to present value using market DI rates for *swaps* announced by BM&FBovespa.

The market values of foreign-exchange derivatives were obtained using the market exchange rates in effect on the balance sheet date and projected market rates obtained from the currency's coupon-rate yield curves. The linear convention of 360 calendar days was used to determine coupon rates of positions indexed in foreign currencies, while the exponential convention of 252 business days was used to determine coupon rates for positions indexed to CDI rates. As for the options, it is considered the change in fair value of the same in relation to the initial premium paid.

Consolidated derivatives financial instruments shown below are registered with the Brazils' OTC Clearing House ("CETIP") and classified as swaps, NDFs and options that do not require margin deposits.

For the purposes of preparing quarterly financial statements, the Company adopted the fair value hedge accounting methodology for its foreign currency swaps x CDI, IPCA x CDI, TJLP x CDI and CDI x Pre for hedging financial debt. Under this arrangement, both derivatives and hedged risk are recognized at fair value.

The ineffective portion at June 30, 2016 was R$296 (R$2,836 at December 31, 2015).

At June 30, 2016 and 2015, derivative transactions generated consolidated negative and positive income (net) of R$302,745 and R$262,223, respectively (Note 26).

a.2) Sensitivity analysis of the Company's risk variables

CVM Resolution 604/09 requires listed companies to comply with CPC 40 Financial Instruments: Disclosures (IFRS 7) by disclosing sensitivity analyses for each type of market risk that management understands to be significant when originated by financial instruments to which the entity is exposed at the end of each period, including all transactions in derivatives.

In making the above analysis, each of the transactions with derivative financial instruments was assessed and assumptions included a probable scenario and two others that could adversely impact the Company.

On the due dates of each of the transactions, the probable scenario assumed maintaining whatever trend the market had been showing through BM&FBovespa yield curves (currencies and interest rates). In the probable scenario, there is no impact on the fair value of the above-mentioned derivatives. However, the assumptions made for scenarios II and III, as per a CVM instruction, were risk variables deteriorating 25% and 50% respectively.

Since the Company only holds derivatives to hedge its foreign-currency assets and liabilities, changing scenarios are tracked by the corresponding hedged items, thus showing that effects are almost non-existent. For these transactions, the Company reported the value of each hedged item and derivative on separate lines in its sensitivity analysis tables in order to show consolidated net exposure in each of the above-mentioned three scenarios at June 30, 2016.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Six-month period ended June 30, 2016

(In thousands of *Reais*, unless otherwise stated)

The assumptions used by the Company for the sensitivity analysis on June 30, 2016 were as follows:

Risk Variable	Probable	25% depreciation	50% depreciation
US$	3.2098	4.0123	4.8147
EUR	3.5635	4.4544	5.3453
JPY	0.0312	0.0390	0.0468
IPCA	8.89%	11.11%	13.33%
IGPM	12.21%	15.26%	18.31%
IGP-DI	12.37%	15.47%	18.56%
UMBND	0.0634	0.0792	0.0950
URTJLP	1.9953	2.4941	2.9930
CDI	14.13%	17.66%	21.20%

For calculation of the net exposure for the sensitivity analysis, all derivatives were considered at market value and hedged items designated for hedge for accounting purposes were also considered at fair value.

The fair values shown in the table above are based on the portfolio position at June 30, 2016, but do not reflect an estimate for realization due to the dynamism of the market, which is constantly monitored by the Company. Using different assumptions could significantly affect estimates.

b) Fair value

The Company and its subsidiaries assessed their financial assets and liabilities in relation to market values using available information and appropriate valuation methodologies. However, both the interpretation of market data and the selection of valuation methods require considerable judgment and reasonable estimates to produce the most adequate realization value. As a result, the estimates shown do not necessarily indicate amounts that could be realized in the current market. The use of different assumptions for the market and/or methodologies may have a material effect on estimated sale values. On June 30, 2016 and December 31, 2015, neither the Company not its subsidiaries detected any significant and enduring impairment of their financial instruments.

The fair value of all assets and liabilities are categorized within the fair value hierarchy described below, based on the lowest level of information that is significant to the fair value measurement as a whole:

Level 1: quoted market prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: valuation techniques for which significant lower level of information to measure the fair value directly or indirectly observable; and

Level 3: valuation techniques for which the lowest and significant level of information to measure the fair value is not available.

During the six months ended June 30, 2016, there were no transfers between fair value measurements of level 3 and level 1 and 2.

The following tables show the composition of financial assets and liabilities at June 30, 2016 and December 31, 2015.

c) Capital Management

The purpose of the Company's capital management is to ensure maintenance of a high credit rating before institutions and a good capital ratio in order to support the Company's business and maximize shareholder value.

The Company manages its capital structure by making adjustments and adapting to current economic conditions. For this purpose, the Company may pay dividends, arrange new loans, issue promissory notes and transactions with derivatives. For the year ended June 30, 2016, there were no changes in capital structure objectives, policies or processes.

In its net debt structure, the Company includes balances on loans, financing, debentures, financial leases, contingent consideration (Note 20) and transactions with derivatives (Note 33), less cash and cash equivalents (Note 4) and financial investments to secure BNB financing.

The Company’s ratio of consolidated debt to shareholders’ equity consists of the following:

	Consolidated	
	06.30.16	12.31.15
Cash and cash equivalents	5,675,712	5,336,845
Loans, financing, debentures, financial lease and contingent consideration	(8,627,332)	(10,221,290)
Derivative transactions, net	11,715	264,757

Net debt	**2,898,520**	**4,580,883**
Net equity	68,319,766	68,567,242
Net debt-to-equity ratio	**4.24%**	**6.68%**

d) Risk Management Policy

Telefônica Brasil S. A.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Six-month period ended June 30, 2016

(In thousands of *Reais*, unless otherwise stated)

The Company and its subsidiaries are exposed to several market risks as a result of their commercial operations, debts incurred to finance their business and financial instruments related to their debt.

d.1) Currency Risk

There is risk arising from the possibility that the Company may incur losses due to fluctuating exchange rates, which add to costs arising from loans denominated in foreign currencies.

At June 30, 2016, 15.5% of financial debt was foreign-currency denominated (16.5% at December 31, 2015). The Company enters into derivative transactions (currency hedge) with financial institutions to hedge against exchange rate variation affecting its total indebtedness in foreign currency (R$1,336,652 and R$1,681,968 at June 30, 2016 and 31 December 2015, respectively). Its total debt on these dates was covered by asset positions in currency-exchange hedge transactions with CDI-rate swaps.

There is also foreign exchange risk for non-financial assets and liabilities denominated in foreign currencies, which may generate a smaller amount receivable or larger amount payable depending on the exchange rate in the period.

Hedging transactions were engaged to minimize the risks associated with exchange-rate variation of non-financial assets and liabilities in foreign currencies. This balance is subject to daily changes due to the dynamics of the business. However, the Company intends to cover the net balance of these rights and obligations (US$38,814 thousand and €17,155 thousand to be paid by June 30, 2016 and US$32,030 thousand and €19,079 thousand to be paid by December 31, 2015) to mitigate its foreign exchange risks.

d.2) Interest and Inflation Risk

This risk arises because the Company may incur losses in the event of an unfavorable change in the domestic interest rate, which may adversely affect financial expenses resulting from the portion of debentures referenced to the CDI and liability positions in derivatives (currency hedge, IPCA and TJLP) geared to floating interest rates (CDI).

The debt to BNDES is indexed to the Long-Term Interest Rate (TJLP), which is set on a quarterly basis by the National Monetary Council. In March 2015, the National Monetary Council decided to increase the annual rate to 6.00% from April 1 to June 30, 2015. The TJLP rose 0.50 percentage points from the previous annual rate of 5.50%. In the course of 2015, the TJLP was raised to 6.5% for the period from July to September and to 7.0% for the period from October to December. In 2016, the TJLP was raised to 7.5% for the period from January to March and will remain at this level over the period from April to June.

Inflation risk arises from the Minas Comunica debentures of the 1st issue, which are tied to the IPCA and thus may adversely affect financial expenses in the event of an unfavorable change in this index.

To reduce exposure to the variable interest rate (CDI), the Company and its subsidiaries invested their surplus cash of R$5,485,077 on June 30, 2016 (R$5,103,103 at December 31, 2015), mostly in short-term CDI-based financial investments (Bank Deposit Certificates). The book values of these instruments approach their fair values, since they may be redeemed at short notice.

With the same purpose, at June 30, 2016, the Company had swap transactions - CDI x Pre to partially cover fluctuations in domestic interest rates, the main contractor was R$500,000

d.3) <u>Liquidity Risk</u>

Liquidity risk is the possibility of the Company or its subsidiaries not holding sufficient funds to meet their commitments due to different currencies and dates of discharging their rights and obligations.

The Company and its subsidiaries structure the maturity dates of non-derivative financial contracts, as shown in Note 20, and their respective derivatives, as shown in the schedule of payments disclosed in this note, to avoid affecting their liquidity.

Total	**10,867,912**	**3,984,753**	**3,218,647**	**825,062**	**18,896,374**

d.4) Credit Risk

The risk arises from the possibility of the Company incurring losses due to difficulty in receiving amounts billed to its customers and sales of prepaid handsets and cards that have been pre-activated for the distribution network.

The credit risk on accounts receivable is diversified and mitigated by strict control of the customer base. The Company constantly monitors the level of accounts receivable from postpaid services, and limits bad-debt risk by cutting off access to telephone lines if bills are past due. The mobile customer base predominantly uses the prepaid system, which requires loading beforehand and therefore does not pose credit risk. Exceptions are made for telecommunications services that must be maintained for security or national defense reasons.

Credit risk on sales of pre-activated prepaid handsets and cards is managed by a conservative policy for granting credit, using modern credit scoring methods, analyzing financial statements and querying commercial databases, in addition to requesting guarantees.

The Company and its subsidiaries are also subject to credit risk arising from their investments, letters of guarantee received as collateral for certain transactions and receivables from derivative transactions. The Company and its subsidiaries control the credit limits granted to each counterpart and diversify this exposure across first-line financial institutions as per current credit policies of financial counterparties.

d.5) Social and Environmental Risks

Our operations and properties are subject to various environmental laws and regulations, among other things, governing environmental licenses and records, protection of fauna and flora, air emissions, waste management and remediation of contaminated sites, among others. If we fail to meet present and future requirements, and identify and manage new or existing contamination, we will have to incur significant costs, which include cleaning costs, damages, compensation, fines, activities suspension and other penalties, investments to improve our facilities or change our processes, or interruption of operations. The identification of environmental conditions not currently identified, more stringent inspections by regulatory agencies, the entry into force of more stringent laws and regulations or other unanticipated events may occur and, ultimately, result in significant environmental liabilities and their costs. The occurrence of any of the above factors could have a material adverse effect on our business, our results of operations and our financial condition. According to Article 75 of Law No. 9605 of 1998, the maximum fine per breach of environmental law is R$50,000,000.00 (fifty million reais).

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Six-month period ended June 30, 2016

(In thousands of *Reais*, unless otherwise stated)

From the social point of view, we are exposed to contingent liabilities due to the fact that our structure provides for the hiring of outsourced service providers. These potential liabilities may involve labor claims by service providers which are treated as direct employees and claim joint liability resulting from overtime and occupational accidents. If we obtain unfavorable decision with respect to a significant portion of these contingencies and if we have not recognized a provision for these risks, our financial condition and results of operations may be adversely affected. In addition, if the labor authorities consider that outsourcing services involves core activities of the company, employment links may be characterized, which would significantly increase our costs and therefore subject the Company to administrative procedures, and the Company is obliged to pay penalties to third.

34) COMMITMENTS AND GUARANTEES (LEASES)

The Company and its subsidiaries lease equipment, facilities and several stores, administrative buildings and sites (radio base stations and towers installed), through several non-cancelable operating agreements expiring at different dates with monthly payments.

On June 30, 2016, the total amounts for full-time contracts were:

Notes to the Pro Forma Consolidated Income Statements

a) <u>Base for preparation of the Statements of Income</u>

The historical financial information for the Company and GVTPart., as used in the preparation of these statements of income, was obtained from the historical financial statements for the year ended December 31, 2015 and quarterly information for the six months ended June 30, 2015.

These pro forma financial reports should be read in conjunction with the historical quarterly information of the companies involved.

The Income Statements reflect the effects of acquiring 100% of the share capital of GVTPart. and have been prepared and presented solely for informational purposes assuming the acquisition of GVTPart. to have taken place on January 1, 2015.

The Income Statements should not be used as an indication of future consolidated quarterly reports or taken as the Company’s income statements.

b) <u>Pro forma adjustments</u>

The income statements were prepared and presented based on each company's historical quarterly financial statements and pro forma adjustments were determined based on assumptions and estimates, which we believe are reasonable.

The adjustments shown in the income statements reflect: (i) depreciation of surplus value (capital loss) of property and equipment; (ii) amortization of surplus value (capital loss) of intangible assets; (iii) amortizations of trademark; (iv) amortizations of the customer base; (v) Income tax (25%) and social contribution (9%) and (vi) inter-company eliminations as shown below:
