FIRST QUARTER 2008 CONSOLIDATED RESULTS

April 30, 2008 – VIVO Participações S.A. announces today its consolidated results for the first quarter 2008 (1Q08). The Company's operating and financial information, except as otherwise indicated, is presented in Brazilian reais in accordance with Brazilian Corporate Law, and the comparable figures refer to the first quarter 2007 (1Q07), except as otherwise mentioned.

In the first quarter 2008, Vivo continued to keep its leadership position on the Brazilian market in number of customers, which will be further increased after the conclusion of the purchase of Telemig Celular Participações on April 03, 2008. From now on, Vivo will definitely operate in one of the largest Brazilian states and broaden its

coverage with the best connection quality in Brazil. Around 4 million customers of Telemig Celular will be added to Vivo's customer base, making up a community of 38 million customers, which places Vivo among the 15 largest world operators. With the slogan "**What is good can become even better**", Vivo marks its arrival to Minas Gerais state.

**Market Cap R\$ 15,944 million
as of 03/31/2008**

HIGHLIGHTS

- In March, the **customer base** reached 34,323 thousand customers, ensuring its leadership with a 27.3% market share.
- The **GSM operation reached more than 14.6 million** accesses in this technology, representing more than 42% of the total customer base, a 30.4% growth over 4Q07;
- Vivo has the biggest handset distribution network, with more than **8,800 points of sale**, and more than **412 thousand recharge points** in March 2008, thus contributing to keep its leadership in its whole operational area;
- **Service Revenue** of R\$3,022.6 million, an increase of 15.8% over 1Q07 and of 1.2% over 4Q07;
- Self-supported data and VAS revenue, which grew 47.7% in relation to 1Q07, representing 10.4% of the net service revenue in 1Q08;
- **BITDA margin** in the quarter of 28.8% growing 2.3 percentage points over 1Q07. **EBITDA** reaching R\$ 961.2 million, the highest recorded in the last five quarters, representing a growth of 27.0%. In the comparison over 4Q07, the **EBITDA** grew 5.8%;
- The **operating cash flow** recorded R\$ 704.6 million, a growth of 35.1% in relation to 1Q07, evidencing the growth and capacity to generate resources to finance the development of the company;
- The **net debt** recorded the amount of **R\$2,907.7** million in 1Q08, representing a reduction of 12.0% in relation to 1Q07, as a result of the increase in available resources. The FISTEL fee was paid in this quarter, while in 2007 it was paid in the second quarter;
- For the third consecutive quarter the company recorded **Net Profit**, which reached **R\$ 89.6 million** in the quarter, reversing the negative result recorded in 1Q07 and an increase of 216.6% in relation to 4Q07.

MESSAGE FROM THE CHIEF EXECUTIVE OFFICER

The continuous good results achieved led us to our best performance in the last 5 quarters, confirming our strategy to be the best quality option for the services provided, anchored on three basic pillars: network quality, billing and recharge and customer service.

This made it possible to improve our relationship with costumers and made Vivo the company with the lowest number of complaints filed with Anatel. In addition, we were awarded a quality prize for the services provided, increased our employees' satisfaction and the confidence of our shareholders and investors.

All this has placed Vivo in a privileged condition to face the growth and stimulation of competition with the arrival of the number portability.

Edgar Filing: Vivo Participacoes S.A. - Form 6-K

The indicators reported here today are little demonstrations of trust, established on a daily basis by all the agents of a social network of which Vivo is a member. We would like to thank all these publics for their most varied contributions given to help us build what we are: a Quality Signal company.

ROBERTO LIMA
CEO

Basis for presentation of results

Figures disclosed are subject to differences, due to rounding-up procedures. Some information disclosed for 4Q07 and 1Q07 were re-classified, always as applicable. Vivo's accounting criteria kept stable.

Operating Cash Flow

Operating cash generation 35.1% higher than in 1Q07.

Operating cash flow (EBITDA-CAPEX) of R\$ 704.6 million in the quarter, representing a growth of 35.1% in relation to 1Q07 and reverting the negative result recorded in 4Q07, evidences the generation of resources from operations. The operating cash flow plus the change in working capital recorded an expense of R\$ 296.4 million in 1Q08 as a result of cash consumption for payment of the Fistel Fee in March, in the amount of R\$ 463.8 million.

Capital Expenditures (CAPEX)

Investments were concentrated in enhancing the Network capacity and quality

Vivo has continued to expand its coverage in order to meet the increase in the customer base and expansion of the GSM network, covering 2,324 municipalities, already exceeding the number of municipalities served by CDMA network. For achieving this goal, it invested R\$ 256.6 million in 1Q08, which represents 7.7% of its net revenue. This investment made it possible for Vivo to keep its coverage leadership and achieve Anatel's quality goals.

OPERATING HIGHLIGHTS

Signal and coverage quality, besides leadership and pioneering activity, contributed to the growth of the customer base.

VIVO launched the first handset with exclusive software for visually disabled people.

- The customer base at the end of the 1Q08 reached 34,323 thousand customers, of which more than 14.6 million in GSM/EDGE technology, representing an increase of 18.2% in relation to 1Q07 and 2.5% in relation to the previous quarter. The competitive positioning, quality leadership and the portfolio of plans and handsets contributed to such growth.
- Net additions in 1Q08 totaled 839 thousand new customers, with a market share of net additions of 22.2% in its operational area, keeping its market leadership, reverting the scenario in 1Q07 when Vivo started its GSM operations. Once again the activations of GSM/EDGE technology, which represents 83% of the total, contributed to the steady and consistent growth.
- In an innovating action on the Brazilian market, Vivo launched in March a handset accessible for visually disabled people – Nokia E65 Talks model, which is provided with Talks (vocalizer) software already installed in the cell phone. Being available to consumers in the whole operational area of the company, the handset is offered on a free-of-charge license basis for use of the referred software. This initiative strengthens Vivo's commitment to making its products

and services accessible to visually disabled people.

SAC reduction of 7.8% in relation to 4Q07.

- **SAC** of R\$ 95 in the 1Q08 decreased by 5.0% in relation to 1Q07 and by 7.8% in relation to 4Q07 as a result of lower expenses with customer acquisition subsidies and a greater participation of handsets and SIM CARDS in the GSM technology, which have a lower cost. There was also a reduction in advertising and commission expenses due to the period's seasonality and since no relevant campaign was launched.

Churn remained stable in relation to 1Q07.

- **Churn** of 2.6% in the quarter, stable in relation to the same period of last year, showing that actions implemented with focus on customer loyalty and activation of the customer base were efficient, despite the intense commercial activity recorded between the two periods. In relation to 4Q07, the variation recorded was due to seasonality. The reward program has continued to contribute to customer loyalty, renewal of customer handsets and increased satisfaction with services rendered.

Quality of the customer base increased the outgoing ARPU

- The **ARPU** of R\$ 29.8 in the quarter was practically stable in relation to 1Q07, despite the 5.3 million customers increase in the period. As it can be seen, the outgoing ARPU increased by 2.5%, which is an evidence of better customer mix. The reduction recorded in relation to 4Q07 reflects particularly the seasonality in the quarter as well as the existence of less working days. The increase in the outgoing revenue is due mainly to higher adoption of data and voice services.

ON-NET traffic increase through specific campaigns.

- The **Blended MOU** remained stable in 1Q08 in relation to 1Q07. However, the outgoing MOU increased by 7.7%, a growth that resulted from higher outgoing traffic through usage incentive campaigns. In comparison with 4Q07 results, there was a 6.3% reduction because of the period seasonality.

Sustained growth of the outgoing traffic.

- The **total traffic recorded a 15.9% growth in 1Q08** in relation to 1Q07, emphasizing the 24.0% growth in the outgoing traffic. In the comparison between 1Q08 and 4Q07, the total traffic was reduced by 1.1% due to the drop in the inbound traffic as a result of the period seasonality. The consistent evolution of the outgoing traffic since the first quarter of 2007 has contributed to keep use at the current levels.

R\$ million	1 Q 08	4 Q 07	Δ%	1 Q 07	Δ%
Subscription and Usage	1,367.3	1,390.0	-1.6%	1,192.4	14.7%
Data revenue plus VAS	315.4	285.7	10.4%	213.6	47.7%
Network usage	1,312.4	1,286.6	2.0%	1,184.6	10.8%
Other services	27.5	24.1	14.1%	18.7	47.1%
Net service revenues	3,022.6	2,986.4	1.2%	2,609.3	15.8%
Net handset revenues	309.4	385.8	-19.8%	241.5	28.1%
Net Revenues	3,332.0	3,372.2	-1.2%	2,850.8	16.9%

OPERATING REVENUE

Consistent growth in the revenue from the outgoing traffic.

Total net revenue grew 16.9% over 1Q07, due to the growth of 15.8% in the **service revenue**, which represents growth in all components. In relation to 4Q07, the total net revenue was reduced by 1.2%, especially due to the drop in the revenue from sales of handsets and for a lower commercial activity, slightly offset by the increase in the service revenue.

Growth of data revenue and VAS.

The increase of 14.7% in "**franchising and usage revenue**", when compared to 1Q07, is mainly due to the increase in the total outgoing revenue, which was due to the growth in the total outgoing traffic, by the incentive to usage and promotions, segmented campaigns and, especially, to the increase in the average recharge value per customer of 6.5%. When compared to 4Q07, there was 1.6% reduction due to seasonality.

Data revenue plus VAS accounted for 10.4% of the service revenue in 1Q08, a 47.7% nominal increase over 1Q07. In the comparison between 1Q08 and 4Q07, it recorded an increase of 10.4%. The main reasons for this growth were: strong increase in the service revenue from Play, Java, SMS, as well as an increase in the base of Zap, Flash/Desk

Modem, Black Berry and Smart Mail customers; increase in the use of person-to-person SMS, as a consequence of the increase of recharges with services and activations of post-paid plans with data advantages; incentive promotion for the usage of SMS Contents (interactivity actions on the TV and other media), and new partnerships with contents providers.

Total operating costs	(3,034.3)	(3,185.6)	-4.7%	(2,664.8)	13.9%

OPERATING COSTS

Structural costs stability.

The 17.3% increase in the **cost of the services rendered** in 1Q08, in comparison with 1Q07, is the result of a 23.2% increase in the interconnection costs caused by an increase in the total outgoing traffic, higher third party's service expenses, particularly for the plant maintenance, besides an increase in the Fistel fee. In comparison with 4Q07, the 6.4% increase was due mainly to the increase in third party's service costs, such as those related to plant maintenance and public services, besides the Fistel fee, rents, insurance and condominiums, partially offset by a reduction in the leased lines and interconnection costs.

Better commercial and operational efficiency

The **cost of goods sold** shows a 42.9% increase in 1Q08 in relation to the 1Q07 figures, which is partially due to the higher number of gross activations which represents a 55.9% growth. When compared to the 4Q07 it shows a reduction of 17.9%, due to greater business activities during the Christmas season. This variation is directly proportional to that of the revenue of goods sold.

In the 1Q08, the **selling expenses** showed a 12.6% increase over 1Q07, reflecting the increase in third parties' service expenses, such as: advertising, publicity, donations, commissions, outsourced labor, besides the increased customer loyalty costs, partially offset by the provision for bad debt reduction. In a comparison with the 4Q07 figures, the commercial expenses showed a 10.0% reduction, particularly because of a decrease in third parties' service expenses, especially those related to sales support, which were partially affected by an increase in the provision for bad debt and customer loyalty.

Provision for bad debt control.

The **Provision for Bad Debt** in 1Q08 showed a reduction of 23.9%, an amount of R\$ 81.7 million, representing 1.8% of the total gross revenue, a drop of 0.9 percentage points in relation to the 1Q07, which recorded 2.7% of the total gross revenue. When compared to 4Q07, which recorded R\$ 76.7 million, there was a slight increase of

6.5%, remaining almost stable in relation to the percentage of the gross revenue, which was 1.6% in 4Q07. This result evidences the strict control exercised over new customers, improvement of the credit policy and on debt collection.

The **general and administrative expenses** showed a 7.2% increase in 1Q08 in relation to the 1Q07 figures, particularly because of an increase in third parties' service expenses, especially those related to technical assistance. In a comparison with 4Q07, there was a 5.6% reduction which resulted from a decrease in the expenses incurred with third parties' services, particularly outsourced labor, which were partially affected by an increase in the data processing and technical assistance expenses.

Other Operating Revenue / Expenses recorded expenses of R\$ 31.7 million. The drop of 69.0% in relation to 1Q07 arises from the reduction in the provision for contingencies, the reduction in the expenses with taxes, charges and contributions, in addition to the increase in the revenue from recovered expenses. The variation in comparison with 4Q07 which recorded a revenue of R\$ 40.6 million was due to the increase in the revenue from recovered expenses, as a result of the reversal of PIS and COFINS due to the final and non-appealable judgment (Law 9718/98), which recorded R\$ 49 million.

EBITDA

EBITDA recorded an increase of 27.0% in the 1Q08.

The **EBITDA** (earnings before interests, taxes, depreciation and amortization) in the 1Q08 was R\$ 961.2 million, an increase of 27.0% in relation to 1Q07, resulting in an EBITDA Margin of 28.8%. When compared to 4Q07, the EBITDA recorded a 5.8% increase, with an EBITDA Margin 1.9 percentage points higher. Such result recorded in 1Q08, the highest result in the last five quarters, reflects the revenue growth due to the increase in the customer base and to the strict cost control. This result was also achieved due to the cost of goods sold, which is explained by the sales of GSM handsets at lower acquisition cost.

DEPRECIATION AND AMORTIZATION

Depreciation and amortization expenses recorded an increase of 16.2% when compared to 1Q07, in line with investments made in the period. In the comparison with the previous quarter, it recorded an 8.1% reduction, since the 4Q07 is impacted by accelerated depreciation in the TDMA technology.

Reduction of 40.6% in financial expenses in the 1Q08 over the 1Q07

VIVO Participações' **net financial expenses** in the 1Q08 was reduced by R\$ 40.9 million in relation to 4Q07. This variation is mainly explained by the extraordinary effect of the assessment of PIS/COFINS (R\$ 22.8 million in the 4Q07) on the allocation of Interest on Own Capital, the extinguishment of the CPMF tax assessment (R\$ 15.2 million in the 4Q07), besides a reduction in interest rates effective in the period (2.53% in the 1Q08 and 2.58% in the 4Q07).

In comparison with the 1Q07, there was also a reduction of R\$ 48.2 million in the net financial expense, due to the drop in the net debt, benefited by generation of operational cash by the Company, as well as lower interest rate effective in the period (2.53% in 1Q08 and 3.03% in 1Q07), in addition to extinguishment of CPMF assessment in 2008 (R\$ 14.3 million in 1Q07).

(**) UMBND - prepared by the BNDES, it is a basket of foreign currencies unit, US dollar predominant

Reduction in net debt by 12.0% in the comparison between 1Q08 and 1Q07

On March 31, 2008, VIVO's loans and financing amounted R\$ 4,803.4 million (R\$ 4,057.2 million at March 31, 2007), 45.0% of which is denominated in foreign currency. The Company has executed hedge contracts thus protecting 100% of its financial debt against foreign exchange volatility, so that the final cost (debt and swap) is Reais-referenced. This debt was offset by the Company's available cash and financial investments, R\$ 2,236.0 million (R\$1,241.6 million at March 31, 2007), as well as by derivative assets and liabilities of R\$ 340.3 million (R\$ 489.5 million at March 31, 2007) payable, finally resulting in a net debt of R\$ 2,907.7 million. Additionally, the Company has entered into "swap" transactions – CDI Post x Pre fixed, in order to partially protect it against fluctuations in domestic interest rates. Covered transactions totaled R\$ 109.5 million. (R\$ 871.0 million at March 31, 2007).

The 12.0% reduction in the Net Debt in the comparison between the 1Q08 and the 1Q07 was due to the generation of operating cash by the Company in the period. Considering that the TFF (Fistel Operation Fee), the annual fee assessed on the customer base and active radiobase stations at the end of the previous year 2007 (R\$ 419.7 million) was paid in April because 03/31/2007 was a Saturday; therefore, equalizing the comparison basis, the reduction in the Net Debt would have been 21.9%.

Fistel Fee increases net debt.

The increase of VIVO's net debt in 1Q08 over 4Q07 is mainly due to the payment of R\$ 463.8 million on the last day of March referring to TFF.

Net Profit of R\$ 89.6 million in the quarter, reverting the negative result recorded in 1Q07 and an increase of 216.6% in relation to 4Q07. Likewise, the operating profit (EBIT), recorded an increase of 60.1% and 59.5% when compared to 1Q07 and 4Q07, respectively, recording R\$ 297.7 million in the quarter.

Capital Market.

The shares of Vivo Participações were traded in 100% of the trading floor sessions of the São Paulo Stock Exchange and of the New York Stock Exchange in this quarter, with the common shares having devaluated by 7.7% while the preferred shares appreciated by 8.7%, always in comparison with the last trading day in the quarter.

Subsequent events

On April 03, Vivo communicated that all conditions and formalities required for the acquisition of shares in Telemig Celular Participações and, indirectly, of its controlled company Telemig Celular, as set forth in the stock purchase agreement entered into August 02, 2007 with Telpart Participações S.A., were satisfied, with the payment of the total amount of R\$1.23 billion being effected on that date, whereby it undertook the direct share control in Telemig Celular Participações.

Edgar Filing: Vivo Participacoes S.A. - Form 6-K

On April 08, Vivo published an Invitation to Bid for the Voluntary Public Offering (VTO) for acquisition of up to 1/3 of the outstanding preferred shares of Telemig Celular Participações and of Telemig Celular and in the case of Telemig Celular Participações the offering will be made to holders of ADS's in the US market. The price, which corresponds to a premium of approximately twenty-five per cent (25%) on the weighted average of the prices of Preferred Shares of the respective companies, recorded in the last thirty (30) floor sessions of the BOVESPA prior to and including August 01, 2007, will be six hundred and fifty-four reais and seventy-two cents (R\$ 654.72) per preferred share of Telemig Celular and sixty-three reais and ninety cents (R\$ 63.90) per preferred share of Telemig Celular Participações.

On April 11, the application for registration of the MTO (Mandatory Tender Offer) by Sale of the Share Control was file, for purchase of all the outstanding common shares of Telemig Celular Participações and of Telemig Celular, containing a draft invitation to bid. The actual launching of the Offering is subject to registration with and authorization by the CVM and BOVESPA, under the terms of CVM Instruction no. 361/02. As soon as the registration of such offering is granted by CVM, Vivo Part will cause a full invitation to bid to be published in the relevant newspapers, containing the final information.

On April 14, Vivo Part executed a stock purchase agreement with Vivo S.A. for acquisition of 100% of the capital stock of TCO IP S.A., with the latter becoming a wholly-owned subsidiary of Vivo Part. The acquisition was effected based on the shareholders' equity recorded in the balance sheet as of March 31, 2008, in the total amount of R\$ 146,067.11, with cash payment within up to five business days from the execution of the agreement.

More information about the transactions, public offerings of common shares and voluntary public offerings of preferred shares is available in Vivo's web site – Investor Relations (www.vivo.com.br/ri).

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating

factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
