On October 13, 2005, Allied Capital Corporation (the "Company") issued \$261 million of five-year, unsecured notes and \$89 million of seven-year, unsecured notes in a private placement. The five-year notes have a fixed interest rate of 6.15% and the seven-year notes have a fixed interest rate of 6.34%. Interest on the notes will be due semiannually on April 13 and October 13, commencing on April 13, 2006. The Company may prepay the notes, in whole or in part, at any time at a price equal to 100% of the principal amount being prepaid, plus accrued and unpaid interest and a "make-whole" prepayment premium.

The proceeds from the issuance of the notes will be used to repay \$125 million of existing unsecured long-term notes that mature on October 15, 2005, as well as to fund new portfolio investments and for general corporate purposes.

The note agreement contains customary events of defaults (with grace periods where customary), including, among other things, failure to pay any principal or interest when due, failure to pay material indebtedness or another default thereunder and failure to comply with certain customary financial and operating covenants. In the event that the Company defaults under certain provisions of the note agreement, it will be prohibited from paying cash distributions to its stockholders.

The foregoing description of the note agreement does not purport to be complete and is qualified in its entirety by reference to the full text of the note agreement attached hereto as Exhibit 10.1.
