STEALTHGAS INC. REPORTS SECOND QUARTER AND SIX MONTHS

2007 RESULTS AND ANNOUNCES QUARTERLY CASH DIVIDEND OF \$0.1875 PER COMMON SHARE

ATHENS, GREECE,

August 14, 2007. STEALTHGAS INC. (NASDAQ: GASS), a ship-owning company serving the liquefied petroleum gas (LPG) sector of the international shipping industry, announced today its unaudited financial and operating results for the quarter and six months ended June 30, 2007.

Second Quarter 2007 Results:

For the quarter ended June 30, 2007, net revenues amounted to \$19.9 million and net income was \$5.7 million an increase of \$2.7 million or 15.7% and an increase of \$1.1 million or 23.9% respectively from net revenues of \$17.2

million and net income of \$4.6 million for the quarter ended June 30, 2006.

Earnings per share, basic and diluted, calculated on 14,400,000 weighted average number of shares outstanding, were \$0.40 for the quarter ended June 30, 2007 as compared to earnings per share of \$0.33, basic and diluted, calculated on 14,000,000 weighted average number of shares outstanding for the second quarter of 2006.

Adjusted EBITDA for the second quarter of 2007 was \$11.7 million, an increase of \$2.8 million or 31.5%, from \$8.9 million for the same period of 2006. A reconciliation of Adjusted EBITDA to Net Income and to Net Cash provided by operating activities is set forth below.

For the second quarter of 2007, the Company reported an unrealized, non-cash gain of \$0.3 million on two previously disclosed interest rate swap arrangements as compared to the second quarter 2006 where the company reported a non-cash gain of \$0.7 million. Before this non-cash item, net income was \$5.4 million, or \$0.37 per share, basic and diluted for second quarter 2007 as compared to \$3.9 million, or \$0.28 per share, basic and diluted for the second quarter of 2006.

An average of 29.3 vessels were owned and operated in the second quarter of 2007, earning an average time-charter-equivalent rate of approximately \$7,075 per day as compared to 25.1 vessels and earning an average of \$6,922 per day for the same period of 2006.

First Half 2007 Results:

For the six months ended June 30, 2007, net revenues amounted to \$40.6 million and net income was \$12.3 million an increase of \$6.4 million or 18.7% and a increase of \$0.7 million or 6% respectively from net revenues of \$34.2 million and net income of \$11.6 million for the six months ended June 30, 2006.

Earnings per share, basic and diluted, calculated on 14,400,000 weighted average number of shares outstanding, were \$0.85 for the six months ended June 30, 2007 as compared to earnings per share of \$0.83, basic and diluted, calculated on 14,000,000 weighted average number of shares outstanding for the six months of 2006.

Adjusted EBITDA for the period ended June 30, 2007 was \$24.0 million, an increase of \$5.0 million or 26.3%, from \$19.0 million for the same period of 2006. A reconciliation of Adjusted EBITDA to Net Income and to Net Cash provided by operating activities is set forth below.

For the six months of 2007, the Company reported an unrealized, non-cash gain of \$0.3 million on two previously disclosed interest rate swap arrangements as compared to the first half of 2006, where the Company reported a non-cash gain of \$1.3 million. Before this non-cash item, net income was \$12.0 million, or \$0.83 per share, basic and diluted for six months ended June 30, 2007 as compared to \$10.3 million, or \$0.73 per share, basic and diluted for the first half of 2006.

An average of 29.9 vessels were owned and operated in the six months of 2007, earning an average time-charter-equivalent rate of approximately \$7,308 per day as compared to 23.8 vessels and earning an average of \$7,377 per day for the same period of 2006.

Management Commentary:

CEO Harry Vafias commented: "The second quarter of 2007 was on an overall basis satisfactory. We continued to expand our fleet and kept our operating expenses under very tight control. The quarter was marred by the unfortunate incident involving the M/V Gas Shanghai, that has been reported previously, for which we deeply regret the loss of life involved. The loss of revenue from this incident coupled with the seasonal softening of the spot market led to the \$0.9 million decline in revenues compared to the first three months of the year. However, year on year, we have produced improved EBITDA, Net Income and Earnings Per Share and with some 92% of our fleet days fixed for the remainder of 2007, about 63% for 2008 and 22% for 2009, along with our successful follow on offering in July, we look forward with confidence to the remainder of this year and beyond.

We firmly believe that the fundamentals for our sector are very positive going forward. We believe that the recent re-hiring of three of our vessels by their current charterers, some six months ahead of the expiration of their existing contracts, and at rates about 25% higher than their current rates, is a testament to the favorable outlook for our sector.

Finally I am pleased to confirm that we will be paying our seventh consecutive dividend since we went public in October 2005. This dividend will also include our recently expanded shareholder base further to our follow on offering. We would like to thank both our previously existing and our new shareholders for their support and faith in our Company. We look forward to continuing to expand our Company and proving that your faith has been well placed.

CFO Andrew Simmons commented: With the proceeds from our upsized follow-on offering the Company now has the resources to continue its growth cementing its #1 position in the Handysize LPG sector, while at the same time continuing to have a prudently structured balance sheet along with the strong period coverage as highlighted by Harry. This strategy enables us to generate stable and predictable cash flows sustaining our profitability and dividend policy. Continuing our policy of having circa 50% of our debt on a fixed rate basis at all times, in June of this year, we entered into an additional \$25 million five year interest rate swap. We are also pleased to note that in the period since the conclusion of our follow-on offering the daily trading volume of our stock has increased significantly.

Quarterly Dividend:

At today's meeting, the Company's Board of Directors declared a quarterly cash dividend of \$0.1875 per common share, payable on August 31, 2007 to shareholders of record on August 24, 2007.

This is the seventh consecutive quarterly dividend since the company went public in October 2005. Since then, STEALTHGAS has declared quarterly dividends aggregating \$1.3125 per common share.

Completion of Follow-on Offering:

In July 2007, the Company concluded a follow-on offering of 7,660,105 shares of common stock, including 460,105 over-allotment shares, resulting in net proceeds, after deducting the underwriting discounts and commissions and the estimated offering expenses, of approximately \$129.6 million. The shares were sold to the public at a price of \$18.00 per share. The final number of shares offered represented an increase of 1,200,000 shares from the originally proposed offering size.

Citigroup Global Markets Inc. and Cantor Fitzgerald & Co. acted as the joint bookrunning managers in the offering. Johnson Rice & Company L.L.C., Morgan Keegan & Company, Inc., DVB Capital Markets LLC and Scotia Capital (USA) Inc. acted as co-managers.

The Company has used a portion and intends to use the remaining net proceeds of the offering to pay the remaining balance of the purchase price for five LPG carriers which it had previously agreed to acquire (three of which have now been delivered to the Company), repay outstanding indebtedness incurred to acquire certain vessels in its current fleet, and for general corporate purposes.

Fleet Developments:

During the second quarter 2007, the Company took delivery of four LPG Carriers it had previously agreed to acquire, the M/V M/V Sea Bird II on May 18, 2007, the M/V Gas Renovatio on May 29, 2007, the M/V Gas Icon on June 27, 2007, and the M/V Chiltern on June 28, 2007, expanding its fleet to 33 vessels, with a carrying capacity of 141,912 cbm.

On August 10, 2007, the Company announced that it took delivery of three PLG carriers it had previously agreed to acquire, the M/V Gas Evoluzione on July 23, 2007, M/V Gas Kalogeros on July 27, 2007, and the M/V Gas Sikousis

on August 3, 2007, thereby expanding its current fleet to 36 vessels, with a carrying capacity of 153,929 cbm.

As previously announced, the Company has also agreed to acquire three additional LPG carriers, the M/V Gas Haralambos, a 2007 built new building resale 7,000 cbm Fully Pressurized (F.P.) vessel, the M/V Gas Sophie, a 1995 built 3,500 Fully Pressurized (F.P.) vessel, both with expected delivery in October 2007 and the M/V Gas Premiership, a 2001 built, 7,200 cbm Fully Pressurized (F.P.) vessel with expected delivery in February 2008. Once these acquisitions are complete, the Company's fleet will be composed of 39 LPG carriers with a total capacity of 171,629 cubic meters (cbm).

1) Average number of vessels is the number of vessels that constituted our fleet for the relevant period, as measured by the sum of the number of days each vessel was a part of our fleet during the period divided by the number of calendar days in that period.

2) Total calendar days are the total days the vessels were in our possession for the relevant period including off-hire days associated with major repairs, drydockings or special or intermediate surveys.

3) Total voyage days for fleet reflect the total days the vessels were in our possession for the relevant period net of off-hire days associated with major repairs, drydocks or special or intermediate surveys.

4) Fleet utilization is the percentage of time that our vessels were available for revenue generating voyage days, and is determined by dividing voyage days by fleet calendar days for the relevant period.

5) Total time charter days for fleet are the number of voyage days the vessels in our fleet operated on time charters for the relevant period.

6) Total spot market charter days for fleet are the number of voyage days the vessels in our fleet operated on spot market charters for the relevant period.

7) Time charter equivalent, or TCE, is a measure of the average daily revenue performance of a vessel on a per voyage basis. Our method of calculating TCE is consistent with industry standards and is determined by dividing voyage revenues (net of voyage expenses) by voyage days for the relevant time period. Voyage expenses primarily consist of port, canal and fuel costs that are unique to a particular voyage, which would otherwise be paid by the charterer under a time charter contract, as well as commissions. TCE is a standard shipping industry performance measure used primarily to compare period-to-period changes in a shipping company's performance despite changes in the mix of charter types (i.e., spot charters, time charters and bareboat charters) under which the vessels may be employed between the periods.

8) Vessel operating expenses, which include crew costs, provisions, deck and engine stores, lubricating oil, insurance, maintenance and repairs is calculated by dividing vessel operating expenses by fleet calendar days for the relevant time period.

9) Total operating expenses, or TOE, is a measurement of our total expenses associated with operating our vessels. TOE is the sum of vessel operating expenses and general and administrative expenses. Daily TOE is calculated by dividing TOE by fleet calendar days for the relevant time period.

Adjusted EBITDA Reconciliation:

Adjusted EBITDA represents net earnings before interest, taxes, depreciation, amortization and amortization of fair value of acquired time charters. Adjusted EBITDA does not represent and should not be considered as an alternative to net income or cash flow from operations, as determined by the accounting standards generally accepted in the United States of America, and our calculation of Adjusted EBITDA may not be comparable to that reported by other companies in the shipping or other industries.

Adjusted EBITDA is included herein because it is a basis upon which we assess our financial performance and liquidity position and because we believe that it presents useful information to investors regarding a company's ability to service and/or incur indebtedness.

Forward-Looking Statement

Matters discussed in this release may constitute forward-looking statements. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in our records and other data available from third parties. Although STEALTHGAS INC. believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, STEALTHGAS INC. cannot assure you that it will achieve or accomplish these expectations, beliefs or projections. Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and currencies, general market conditions, including changes in charterhire rates and vessel values, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled drydocking, changes in STEALTHGAS INC.'s operating expenses, including bunker prices, dry-docking and insurance costs, or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists.

Risks and uncertainties are further described in reports filed by STEALTHGAS INC. with the US Securities and Exchange Commission.
