Notes to Condensed Consolidated Financial Statements

NOTE 1. BASIS OF PRESENTATION

For purposes of this report, any reference to “Potlatch,” “the company,” “we,” “us,” and “our” means Potlatch Corporation and all of its wholly-owned subsidiaries, except where the context indicates otherwise.

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission pertaining to interim financial statements; certain disclosures normally provided in accordance with generally accepted accounting principles in the United States have been omitted. This Quarterly Report on Form 10-Q should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2015, as filed with the Securities and Exchange Commission on February 12, 2016. We believe that all adjustments necessary for a fair statement of the results of such interim periods have been included and all such adjustments are of a normal recurring nature.

NOTE 2. RECENT ACCOUNTING PRONOUNCEMENTS

In February 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-02, Leases, which, among other things, requires lessees to recognize most leases on the balance sheet. We have operating leases covering office space, equipment, land and vehicles expiring at various dates through 2028, which would require a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, to be recognized in the statement of financial position. Lease costs would generally continue to be recognized on a straight-line basis. The future minimum payments required under our operating leases totaled \$9.6 million at December 31, 2015. The ASU is effective for us on January 1, 2019.

In March 2016, the FASB issued ASU No. 2016-09, Improvements to Employee Share-Based Payment Accounting, which changes several aspects of the accounting for share-based payment award transactions, including accounting for income taxes, classification of excess tax benefits on the statement of cash flows, forfeitures and minimum statutory tax withholding requirements. This ASU is effective for us on January 1, 2017. The adoption of this guidance is not expected to have a significant effect on our consolidated financial statements.

NOTE 3. EARNINGS PER SHARE

The following table reconciles the number of shares used in calculating basic and diluted earnings per share:

(Dollars in thousands, except per share amounts)	Quarter Ended	
	2016	2015
Net income	\$157	\$ 5,656
Basic weighted-average shares outstanding	40,875,407	40,780,993
Incremental shares due to:		
Performance shares	69,297	70,187
Restricted stock units	15,204	12,936
Diluted weighted-average shares outstanding	40,959,908	40,885,116
Basic net income per share	\$—	\$ 0.14
Diluted net income per share	\$—	\$ 0.14

For the three months ended March 31, 2016, there were 90,272 stock-based awards that were excluded from the calculation of diluted earnings per share because they were anti-dilutive. For the three months ended March 31, 2015, there were 55,987 anti-dilutive stock-based awards. Anti-dilutive stock-based awards could be dilutive in future periods.

NOTE 4. CERTAIN BALANCE SHEET COMPONENTS
INVENTORIES

(Dollars in thousands)	March 31, 2016	December 31, 2015
Inventories:		
Logs	\$276	\$ 9,920
Lumber, plywood and veneer	16,096	16,932
Materials and supplies	8,656	8,310
Total inventories	\$25,028	\$ 35,162

PROPERTY, PLANT AND EQUIPMENT

(Dollars in thousands)	March 31, 2016	December 31, 2015
Property, plant and equipment	\$248,496	\$248,750
Less: accumulated depreciation	(174,436)	(173,465)
Total property, plant and equipment, net	\$74,060	\$75,285

NOTE 5. DEBT

In February 2016, we amended our term loan agreement to provide an additional loan in the amount of \$27.5 million. This additional tranche refinanced \$27.5 million of long-term debt that matured in December 2015 and February 2016. It matures in 2026 and carries a rate equal to 3-month LIBOR plus 2.15% per annum. At March 31, 2016, our term loan debt includes nine tranches totaling \$349.5 million.

NOTE 6. DERIVATIVE INSTRUMENTS

From time to time, we enter into derivative financial instruments to manage certain cash flow and fair value risks. Derivatives designated and qualifying as a hedge of the exposure to changes in the fair value of an asset or liability to a particular risk, such as interest rate risk, are considered fair value hedges. We have seven fair value interest rate swaps to convert interest payments on fixed-rate debt to variable-rate 3-month LIBOR plus a spread.

Derivatives designated and qualifying as a hedge of the exposure to variability in the cash flows of a specific asset or liability that is attributable to a particular risk, such as interest rate risk, are considered cash flow hedges. We have one interest rate swap to convert variable-rate debt, comprised of 3-month LIBOR plus a spread, to fixed-rate debt. Our cash flow hedge is expected to be highly effective in achieving offsetting cash flows attributable to the hedged interest rate risk through the term of the hedge. Therefore, changes in the fair value of the interest rate swap are recorded as a component of other comprehensive income and will be recognized in earnings when the hedged interest rate affects earnings. The amounts paid or received on this interest rate hedge will be recognized as adjustments to interest expense. As of March 31, 2016, the amount of net losses expected to be reclassified into earnings in the next 12 months is \$0.3 million.

The following table presents the gross fair values of derivative instruments on our Condensed Consolidated Balance Sheets:

(Dollars in thousands)	Location	Assets		Location	Liabilities	
		March 31, 2016	December 31, 2015		March 31, 2016	December 31, 2015
Derivatives designated as hedging instruments:						
Interest rate contracts	Other assets, current	\$—	\$ 7	Long-term debt	\$ 269	\$ —
Interest rate contracts	Other assets, non-current	1,523	574			
Total derivatives designated as hedging instruments		\$1,523	\$ 581		\$ 269	\$ —

The following tables detail the effect of derivatives on our Consolidated Statements of Income:

(Dollars in thousands)	Location	Quarter Ended March 31,	
		2016	2015
Derivatives designated in fair value hedging relationships:			
Realized gain on interest rate contracts ¹	Interest expense	\$242	\$379

(Dollars in thousands)	Location	Quarter Ended March 31,	
		2016	2015
Derivatives designated in cash flow hedging relationships:			
Gain (loss) recognized in OCI on derivative, net of tax of \$(105) and \$ - (effective portion)	Other Comprehensive Income	\$(164)	\$ —
Gain (loss) reclassified from AOCI into income (effective portion)	Interest expense	\$—	\$ —

¹ Realized gain on hedging instruments consists of net cash settlements and interest accruals on the interest rate swaps during the periods. Net cash settlements are included in the supplemental cash flow information within interest, net of

amounts capitalized in the Condensed Consolidated Statements of Cash Flows.

NOTE 7. FINANCIAL INSTRUMENTS

The following table presents the estimated fair values of our financial instruments:

(Dollars in thousands)	March 31, 2016		December 31, 2015	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Cash and short-term investments (Level 1)	\$7,824	\$7,824	\$7,925	\$7,925
Derivative asset related to interest rate swaps (Level 2)	\$1,523	\$1,523	\$581	\$581
Derivative liability related to interest rate swaps (Level 2)	\$269	\$269	\$—	\$—
Long-term debt, including fair value adjustments related to hedging instruments (Level 2)	\$627,709	\$647,587	\$603,881	\$626,021
Company owned life insurance asset (COLI) (Level 3)	\$1,122	\$1,122	\$687	\$687

For cash and short-term investments, the carrying amount approximates fair value due to the short-term nature of these financial instruments.

The fair value of the interest rate swaps were determined by discounting the expected cash flows of each derivative.

The analysis reflects the contractual terms of the derivatives, including the period to maturity and uses observable market-based inputs, including interest rate forward curves.

The fair value of our long-term debt is estimated based upon the quoted market prices for the same or similar debt issues, or estimated based on average market prices for comparable debt when there is no quoted market price.

The contract value of our COLI, the amount at which it could be redeemed, is used as a practical expedient to estimate fair value because market prices are not readily available.

NOTE 8. PENSION AND OTHER POSTRETIREMENT EMPLOYEE BENEFITS

The following table details the components of net periodic cost (benefit) of our pension plans and other postretirement employee benefits (OPEB):

(Dollars in thousands)	Quarter Ended March 31,			
	Pension		OPEB	
	2016	2015	2016	2015
Service cost	\$1,507	\$1,530	\$5	\$7
Interest cost	4,252	4,259	355	383
Expected return on plan assets	(4,766)	(5,191)	—	—
Amortization of prior service cost (credit)	130	151	(2,220)	(2,328)
Amortization of actuarial loss	3,917	4,408	428	558
Net periodic cost (benefit)	\$5,040	\$5,157	\$(1,432)	\$(1,380)

During the three months ended March 31, 2016 and 2015, we paid non-qualified supplemental pension benefits of \$0.4 million and \$0.4 million.

During the three months ended March 31, 2016 and 2015, we paid OPEB benefits of \$1.3 million and \$1.3 million.

The following tables detail the pension and OPEB changes in accumulated other comprehensive loss (AOCL):

(Dollars in thousands)	Quarter Ended March 31, 2016		
	Pension	OPEB	Total
Balance at January 1	\$128,244	\$(13,741)	\$114,503

Actuarial loss	(2,689)	(340)	(3,029)
Total reclassification for the period	(2,781)	1,080	(1,701)
Balance at March 31	\$131,480	\$(14,789)	\$116,691

¹ Amortization of prior service credit (cost) and amortization of actuarial loss are included in the computation of net periodic cost (benefit).

NOTE 9. EQUITY-BASED COMPENSATION

As of March 31, 2016, we had two stock incentive plans under which performance shares, restricted stock units (RSUs) and deferred compensation stock equivalent units were outstanding. These plans have received shareholder approval. We were originally authorized to issue up to 1.6 million shares and 1.0 million shares under our 2005 Stock Incentive Plan and 2014 Stock Incentive Plan, respectively. At March 31, 2016, approximately 1.1 million shares were authorized for future use. We issue new shares of common stock to settle performance shares, restricted stock units and deferred compensation stock equivalent units.

The following table details compensation expense and the related income tax benefit:

(Dollars in thousands)	Quarter Ended	
	March 31, 2016	2015
Employee equity-based compensation expense:		
Performance shares	\$754	\$872
Restricted stock units	200	205
Total employee equity-based compensation expense	\$954	\$1,077
Deferred compensation stock equivalent units expense	\$200	\$119
Total tax benefit recognized for share-based expense	\$66	\$74

PERFORMANCE SHARES

The following table presents the key inputs used in the Monte Carlo simulation to calculate the fair value of the performance share awards in 2016 and 2015:

	Quarter Ended	
	March 31, 2016	2015
Stock price as of valuation date	\$25.92	\$40.00
Risk-free rate	0.88 %	1.07 %

The following table summarizes outstanding performance share awards as of March 31, 2016, and changes during the three months ended March 31, 2016:

(Dollars in thousands, except grant date fair value)	Shares	Weighted-Avg. Grant Date Fair Value	Aggregate Intrinsic Value
Unvested shares outstanding at January 1	161,049	\$ 41.26	
Granted	125,469	\$ 30.02	
Forfeited	—	\$ —	
Unvested shares outstanding at March 31	286,518	\$ 36.34	\$ 9,025

As of March 31, 2016, there was \$6.0 million of unrecognized compensation cost related to unvested performance share awards, which is expected to be recognized over a weighted-average period of 1.9 years.

RESTRICTED STOCK UNITS

The following table summarizes outstanding RSU awards as of March 31, 2016, and changes during the three months ended March 31, 2016:

(Dollars in thousands, except grant date fair value)	Shares	Weighted-Avg. Grant Date Fair Value	Aggregate Intrinsic Value
Unvested shares outstanding at January 1	44,531	\$ 40.95	
Granted	42,320	\$ 25.92	
Vested	(1,500)	\$ 38.91	
Forfeited	—	\$ —	
Unvested shares outstanding at March 31	85,351	\$ 33.07	\$ 2,689

The fair value of each RSU equaled our common share price on the date of grant. The total fair value of RSU awards that vested during the three months ended March 31, 2016 was \$0.1 million. As of March 31, 2016, there was \$1.8 million of total unrecognized compensation cost related to unvested RSU awards, which is expected to be recognized over a weighted-average period of 2.0 years.

NOTE 10. INCOME TAXES

As a real estate investment trust (REIT), we generally are not subject to federal and state corporate income taxes on income of the REIT that we distribute to our shareholders. We conduct certain activities through our taxable REIT subsidiaries (TRS), which are subject to corporate level federal and state income taxes. These taxable activities are principally comprised of our wood products manufacturing operations and certain real estate investments. Therefore, income tax expense or benefit is primarily due to income or loss of the TRS, as well as permanent book versus tax differences.

NOTE 11. COMMITMENTS AND CONTINGENCIES

In January 2007, the Environmental Protection Agency (EPA) notified us that we are a potentially responsible party under the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA) and the Clean Water Act for cleanup of a site known as Avery Landing in northern Idaho. We own a portion of the land at the Avery Landing site, which we acquired in 1980 from the Milwaukee Railroad. The land we own at the site and adjacent properties were contaminated with petroleum as a result of the Milwaukee Railroad's operations at the site prior to 1980. On July 5, 2011, the EPA issued an Action Memorandum for the Avery Landing site selecting contaminant extraction and off-site disposal as the remedial alternative. On May 23, 2012, we signed a consent order with the EPA pursuant to which we agreed to provide \$1.75 million in funding for EPA cleanup on a portion of our property (including the adjacent riverbank owned by the Idaho Department of Lands). The EPA cleanup was completed in October 2012. On April 4, 2013, the EPA issued a unilateral administrative order requiring us to remediate the portion of the Avery Landing site that we own. Our remediation was completed in October 2013. On September 25, 2015 the EPA sent us a letter asserting that the EPA and the Department of Transportation (the current owner of a portion of the adjacent property remediated by the EPA) (DOT) had incurred \$9.8 million in unreimbursed response costs associated with the site and that we were liable for such costs. We believe we have meritorious defenses to this claim and we intend to defend ourselves vigorously. We have reserved all of our rights to seek reimbursement for the costs of remediation from all parties potentially responsible. We have executed a tolling agreement with the EPA and DOT suspending the statute of limitations on the claim until June 2016 in order to facilitate negotiations of a final settlement and release. We accrued \$0.2 million for this matter in the first quarter of 2016. We believe that it is reasonably possible that we may incur additional charges in respect of this claim in the future that may exceed our accrual by up to \$2.5 million.

NOTE 13. SUBSEQUENT EVENTS

On April 21, 2016, we sold approximately 172,000 acres of timberlands located in central Idaho for \$114 million. The company purchased the property in 2007 and 2008 for the purpose of growing and harvesting timber and selling rural recreation parcels. The sale frees up capital without having to wait for the rural recreation real estate market in central Idaho to recover. We expect to record a loss of \$36 million after taxes in our Real Estate segment in the second quarter of 2016. Historical earnings generated by the property have been positive, but not material. The asset group was classified as held and used as of March 31, 2016. Neither a signed letter of intent, nor an approved purchase agreement were in place as of that date. Because negotiations were underway with the buyer at the balance sheet date, we believed that it was prudent to complete an undiscounted cash flow analysis to determine whether the asset group was impaired. Given the long period of time over which cash flows would be generated in the hold scenario and management's belief that the likelihood that a sale would be completed was 20%, the undiscounted cash flows significantly exceeded the book basis of the asset group. Therefore, management concluded that the asset group was not impaired as of March 31, 2016.

On April 11, 2016, the company's Board of Directors authorized management, at its discretion, to repurchase up to \$60 million of common stock with the proceeds from the sale of the central Idaho timberlands. Share repurchases may be executed through various means, including, without limitation, open market transactions, privately negotiated transactions or otherwise. The share repurchase program does not obligate Potlatch to purchase any shares, and expires in two years. The authorization for the share repurchase program may be terminated, increased, or decreased by the company's Board of Directors in its discretion at any time.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Information

This report contains, in addition to historical information, certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including without limitation, effectiveness of the cash flow hedge, recognition of compensation costs relating to our performance shares and RSUs, real estate demand and pricing, log prices, lumber demand and prices, business conditions for our business segments, Resource segment results, Wood Products segment results, Real Estate segment results, 2016 capital spending, loss on sale of central Idaho timberlands, stock repurchase, debt repayments, reduced interest expense, and similar matters. Words such as "anticipate," "expect," "will," "intend," "plan," "target," "project," "believe," "seek," "schedule," "estimate," "could," "can," "expressions are intended to identify such forward-looking statements. These forward-looking statements reflect our current views regarding future events based on estimates and assumptions and are therefore subject to known and unknown risks and uncertainties and are not guarantees of future performance. Our actual results of operations could differ materially from our historical results or those expressed or implied by forward-looking statements contained in this report. For a nonexclusive listing of forward-looking statements and potential factors affecting our business, refer to "Cautionary Statement Regarding Forward-Looking Information" on page 1 and "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2015.

Forward-looking statements contained in this report present our views only as of the date of this report. Except as required under applicable law, we do not intend to issue updates concerning any future revisions of our views to reflect events or circumstances occurring after the date of this report.

Results of Operations

Our business is organized into three business segments: Resource, Wood Products and Real Estate. Our Resource segment supplies our Wood Products segment with a portion of its wood fiber needs. These intersegment revenues are based on prevailing market prices and typically represent a significant portion of the Resource segment's total

revenues. Our other segments generally do not generate intersegment revenues.

14

In our discussions of consolidated results of operations, our revenues are reported after elimination of intersegment revenues. In our discussion by business segment, each segment's revenues are presented before the elimination of intersegment revenues.

The operating results of our Resource, Wood Products and Real Estate business segments have been and will continue to be influenced by a variety of factors, including cyclical fluctuations in the forest products industry, changes in timber prices and in harvest levels from our timberlands, competition, timberland valuations, demand for our non-strategic timberland for higher and better use purposes, changes in lumber prices, the efficiency and level of capacity utilization of our wood products manufacturing operations, changes in our principal expenses such as log costs, asset dispositions or acquisitions and other factors.

Overview

In the three months ended March 31, 2016, our Resource and Wood Products segment results were affected by lower lumber prices, compared with the same period last year, resulting primarily from excess supply in the lumber markets due to several factors that occurred during 2015 and continue in 2016, including lower log and lumber volume exports from North America and a strong U.S. dollar relative to the Canadian dollar. Therefore, Resource and Wood Products revenues were lower in the first quarter of 2016, compared with the first quarter of 2015.

Consolidated Results Comparing the Quarters Ended March 31, 2016 and 2015

The following table sets forth changes in our Consolidated Statements of Income:

(Dollars in thousands)	Quarter Ended March				
	31, 2016	2015	Change		
Revenues	\$127,896	\$134,125	\$(6,229)	(5)	%

Income (loss) before income taxes	(953)	5,958	(6,911)	(116)	%
Income tax benefit (provision)	1,110	(302)	1,412	n/m	
Net income	\$157	\$5,656	\$(5,499)	(97)	%

Revenues - Revenues decreased in the first quarter of 2016, compared with the same period last year, primarily due to lower log and lumber prices, partially offset by Resource harvest volumes that increased 4% and Wood Products lumber shipments that increased 5%. Our Business Segment Results provide a more detailed discussion of our segments.

Cost of goods sold - Cost of goods sold increased in the first quarter of 2016, compared with the same period last year, primarily due to an increase in the average land basis of real estate sold. Our Business Segment Results provide a more detailed discussion of our segments.

Selling, general and administrative expenses - Selling, general and administrative expenses increased in the first quarter of 2016, compared with the same period last year, due to project costs associated with employee benefit administration and a \$0.2 million expense related to Avery Landing, as discussed in Note 11: Commitments and Contingencies.

Interest expense, net - Interest expense decreased in the first quarter of 2016, compared with the same period last year, due to a \$2.2 million patronage dividend. The patronage dividend increased as a result of the debt used to fund the acquisition of timberlands in Alabama and Mississippi in December 2014.

Income tax provision - Income taxes are primarily due to income or loss from Potlatch TRS. For the first quarter of 2016, the income tax benefit of \$1.1 million is the result of Potlatch TRS's loss before income tax of \$2.1 million and permanent book versus tax differences. For the first quarter of 2015, the income tax expense of \$0.3 million was the result of Potlatch TRS's income before income tax of \$1.3 million.

¹ Prior to elimination of intersegment fiber revenues of \$9.6 million in 2016 and \$12.2 million in 2015.

² Sawlog and pulpwood sales prices are on a delivered basis, which includes contracted logging and hauling costs.

Resource segment revenues decreased 10% in the first quarter of 2016, compared with the same period last year, primarily due to lower sawlog and pulpwood prices and a shift in mix with lower volumes in the Northern region and higher volumes in the Southern region.

Volumes in our Northern region decreased 16% in the first quarter of 2016, compared with the same period last year, due to a warm winter and early spring breakup. A significant portion of our sawlog sales in our Northern region are indexed to lumber prices on a one to three month lag. Lumber prices were lower in the fourth quarter of 2015, compared with the same period last year, resulting in lower sawlog prices in the first quarter of 2016.

Harvest volumes in our Southern region were 32% higher in the first quarter of 2016 due in large part to the contributions of the Alabama and Mississippi timberlands, which were acquired in December 2014 and were ramping up in the first quarter of 2015. Southern sawlog prices decreased 3% due to lower hardwood prices, partially offset by higher pine sawlog prices. Stumpage prices fluctuate based on the mix of pulpwood and sawlog volume.

Lower fuel costs favorably affected logging and hauling expense. Other expenses were higher primarily due to an increase in the number of acres fertilized, primarily in the Southern region.

¹ Prior to elimination of intersegment fiber costs of \$9.6 million in 2016 and \$12.2 million in 2015.

Revenues were \$6.0 million lower in the first quarter of 2016, compared with the same period last year, due to lower lumber prices, which were partially offset by a 5% increase in lumber shipments and an increase in residuals revenue. For certain residual shipments, we now arrange the freight and bill the costs to the customer.

Cost of goods sold fluctuated based on the following factors:

Fiber costs decreased \$4.1 million due to lower log costs in most of our mills.

Freight costs increased \$1.6 million for residuals that were previously the responsibility of the customer. Logging and hauling costs decreased \$1.9 million due to a lower volume of logs purchased under cutting contracts that were resold due to species or dimensional differences.

Lower manufacturing costs were the result of 11 days of downtime at our St. Maries, Idaho sawmill due to log shortages resulting from an unseasonably warm winter, as well as less maintenance expense in a few of our mills. Inventory will fluctuate based on a combination of volume and fiber and manufacturing costs. With a slowing lumber market in 2015, we built inventories. In the first quarter of 2016, the lumber market was improving and inventories declined.

In the first quarter of 2016, we sold 1,320 more acres at a higher weighted average sales price, resulting in increased revenues of \$2.5 million, compared with the same period last year. The average land basis per acre was higher than the prior year largely due to sales of recently acquired real estate in the South.

Liquidity and Capital Resources

Overview

At March 31, 2016, our financial highlights included:

- cash and short-term investments of \$7.8 million,
- credit agreement borrowing capacity of \$248.8 million, and
- long-term debt of \$627.7 million.

Net Cash from Operations

Net cash provided from operating activities was:

- \$28.9 million in 2016 and
- \$24.4 million in 2015.

Net cash from operations increased \$4.5 million for the quarter ended March 31, 2016, compared with the same period last year, primarily due to:

- a \$6.2 million decrease in inventories due to the usage of logs over deliveries, and
- a \$1.7 million cash refund from taxes partially offset by,
- a \$4.0 million decrease in cash received from customers due to lower log and lumber prices.

Net Cash Flows from Investing Activities

Net cash used in investing activities was \$3.1 million for the quarter ended March 31, 2016, compared with \$0.2 million provided in 2015. Short-term investments remained flat for the quarter ended March 31, 2016, compared with a decrease of \$7.5 million in 2015. Capital spending for property, plant and equipment and timber reforestation and roads during the quarter ended March 31, 2016 was \$4.4 million lower than the same period in 2015. 2015 included large capital project installations at each of our four lumber mills. Capital spending is expected to be \$19 million in 2016, compared with \$32.7 million in 2015.

Net Cash Flows from Financing Activities

Net cash used in financing activities was \$25.9 million and \$20.2 million for the three months ended March 31, 2016 and 2015, respectively. Net cash used in financing activities in 2016 was primarily attributable to the \$35 million repayment of borrowings and \$15.3 million of dividends to stockholders, partially offset by \$27.5 million in proceeds from the issuance of long-term debt. In 2015, net cash used for financing activities was primarily attributable to paying dividends to stockholders of \$15.3 million.

Credit and Term Loan Agreement

In February 2016, we amended our term loan agreement to provide an additional loan in the amount of \$27.5 million. This additional tranche refinanced \$27.5 million of long-term debt that matured in December 2015 and February 2016. It matures in 2026 and carries a rate equal to 3-month LIBOR plus 2.15% per annum. At March 31, 2016, our term loan debt includes nine tranches totaling \$349.5 million.

As of March 31, 2016, approximately \$1.2 million of capacity under our credit agreement was utilized by outstanding letters of credit, resulting in \$248.8 million available for additional borrowings under our credit agreement.

The following table sets forth the financial covenants in the credit and term loan agreements and our status with respect to these covenants as of March 31, 2016:

	Covenant Requirement	Actuals at March 31, 2016
Interest coverage ratio	≥3.00 to 1.00	3.25 to 1.00
Leverage ratio	≤40%	25%
Allowable acres that may be sold ¹	480,000	

¹ Actual acres sold as of March 31, 2016, were 25,683 and 16,059 under the credit and term loan agreements, respectively.

Senior Notes

The terms of our senior notes limit our ability and the ability of any subsidiary guarantors to enter into restricted transactions, which include the ability to borrow money, pay dividends, redeem or repurchase capital stock, enter into sale and leaseback transactions and create liens. However, such restricted transactions are permitted if the balance of our cumulative Funds Available for Distribution (FAD), and a FAD basket amount, provide sufficient funds to cover such restricted payments. At March 31, 2016, our cumulative FAD was \$69.9 million and the FAD basket was \$90.1 million.

Sale of Central Idaho Timberlands

On April 21, 2016, we sold approximately 172,000 acres of timberlands located in central Idaho for \$114 million. Net cash received was \$111 million.

On April 11, 2016, the company's Board of Directors authorized management to repurchase up to \$60 million of common stock over the next 24 months with the proceeds from the sale of the central Idaho timberlands.

In the second quarter of 2016, we plan to use a portion of the proceeds to repay \$42.6 million of revenue bonds originally issued in 1996. This would decrease interest expense by approximately \$2.5 million per year.

See [Note 13: Subsequent Events](#) in the [Notes to Condensed Consolidated Financial Statements](#) for more information.

As a result this sale, we have updated the number of non-core timberlands to be approximately 220,000 acres. This includes approximately 55,000 acres of HBU property, 55,000 acres of non-strategic timberland and 110,000 acres of rural recreational real estate property.

In addition, we have updated our harvest level to range between 3.8 million and 4.6 million tons each year over the next several years, depending on market conditions and other factors, assuming no significant timberland acquisitions or dispositions. Based on our current projections, which are based on constant timberland holdings,

and that take into consideration such factors as market conditions, the ages of our timber stands and recent timberland sales and acquisitions, we expect to harvest approximately 4.2 million tons in 2016.

Contractual Obligations

There have been no material changes to our contractual obligations in the three months ended March 31, 2016 outside the ordinary course of business.

Off-Balance Sheet Arrangements

We currently are not a party to off-balance sheet arrangements that would require disclosure under this section.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our exposures to market risk have not changed materially since December 31, 2015. For quantitative and qualitative disclosures about market risk, see Item 7A – “Quantitative and Qualitative Disclosure about Market Risk” in our 2015 Annual Report on Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We conducted an evaluation (pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934 (the Exchange Act)), under the supervision and with the participation of management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act) as of March 31, 2016. These disclosure controls and procedures are designed to ensure that information required to be disclosed in our reports that are filed or submitted under

the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Our disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that this information is accumulated and communicated to management, including the principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Based on the evaluation, the CEO and CFO have concluded that these disclosure controls and procedures were effective as of March 31, 2016.

There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

Internal Control over Financial Reporting

In the three months ended March 31, 2016, there were no changes in our internal control over financial reporting that occurred that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II

ITEM 1. LEGAL PROCEEDINGS

Other than the environmental proceeding described in Note 11: Commitments and Contingencies in the Notes to Condensed Consolidated Financial Statements, which is incorporated herein by reference, we believe there is no pending or threatened litigation that could have a material adverse effect on our financial position, operations or liquidity.

ITEM 1A. RISK FACTORS

There have been no material changes in the risk factors previously disclosed in "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2015.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On April 11, 2016, the company's Board of Directors authorized a stock repurchase program. See Note 13: Subsequent Events in the Notes to Condensed Consolidated Financial Statements. There were no repurchases of common stock in the first quarter of 2016.

ITEM 6. EXHIBITS

Exhibits are listed in the Exhibit Index.
