This Proxy Statement is being made available to stockholders of Kennedy-Wilson Holdings, Inc. (“we,” “us,” “our,” “Kennedy Wilson” or the “Company”) on or about May 5, 2015, and is furnished in connection with the solicitation of proxies by the Board of Directors of Kennedy Wilson for use at the 2015 annual meeting of stockholders (the “Annual Meeting”) of Kennedy Wilson to be held on Thursday, June 11, 2015 at 9:00 a.m. Pacific Time, at the Beverly Wilshire Hotel, 9500 Wilshire Boulevard, Beverly Hills, California, and at any adjournments or postponements thereof.

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING

Who can vote?

You can vote your shares of common stock if our records show that you owned the shares as of the close of business on April 30, 2015 (the “Record Date”). Persons who are not stockholders of record on the Record Date will not be allowed to vote at the Annual Meeting. As of the close of business on the Record Date, a total of 104,343,935 shares of common stock are entitled to vote at the Annual Meeting.

Each share of common stock is entitled to one (1) vote on matters presented at the Annual Meeting. Holders of common stock are not entitled to cumulate their votes for the election of directors.

How do I vote by proxy?

You may vote by proxy by simply completing, signing and returning your proxy card. If you hold your shares in street name, you may also vote by proxy over the Internet or by telephone.

What is the difference between a “Holder of Record” and a “Beneficial Owner of Shares Held in Street Name?”
Holder of Record. If your shares are registered directly in your name with the Company’s transfer agent, Continental Stock Transfer & Trust Co. (“Continental”), which includes shares you might hold by virtue of your participation in the Company’s 2009 equity participation plan, you are considered the holder (or stockholder) of record with respect to those shares. As a holder of record, you should have received this proxy statement, our Annual Report, and a proxy card from the Company via Continental.

Beneficial Owner of Shares in “Street Name.” If your shares are held in an account at a brokerage firm, bank, broker-dealer, or other similar organization acting as a nominee, then you are the beneficial owner of shares held in “street name.” The organization holding your account is considered the holder of record for purposes of voting at the Annual Meeting. As a beneficial owner, you have the right to direct that organization on how to vote the shares held in your account. Accordingly, you should have received this proxy statement, our Annual Report and a vote instruction form from that organization.

If I am a stockholder of record, how do I cast my vote?

If you are a stockholder of record, you may vote in person at the Annual Meeting. We will give you a ballot when you arrive. Stockholders of record may also vote via the Internet as set forth on the proxy card. Stockholders of record may not vote by telephone.

If you do not wish to vote in person or via the Internet, you may vote by proxy. You may vote by proxy using the enclosed proxy card. Please complete, sign and date your proxy card and return it promptly in the envelope provided.

If I hold my shares in street name, how do I cast my vote?

Many of our stockholders who hold their shares in street name through a nominee have the option to submit their proxies or voting instructions to their nominee electronically by telephone or the Internet. These stockholders should review and follow the voting instructions forwarded to them by their nominee.

You also may vote your shares at the Annual Meeting if you attend in person. If you hold your shares in street name and wish to vote in person at the Annual Meeting, you must obtain a legal proxy from your nominee.

What if other matters come up at the Annual Meeting?

The matters described in this proxy statement are the only matters we know of that will be voted on at the Annual Meeting. If other matters are properly presented at the meeting, the proxy holders will vote your shares as they see fit.

Can I change or revoke my vote after I return my proxy card?

Yes. You can revoke your proxy at any time before it is exercised at the Annual Meeting in any of three ways:

- by submitting written notice revoking your proxy card to the Secretary of the Company;
- by submitting another proxy that is later dated and, if by mail, that is properly signed; or
- by voting in person at the Annual Meeting.

Can I vote in person at the Annual Meeting rather than by completing the proxy card?

Although we encourage you to vote by proxy to ensure that your vote is counted, you can attend the Annual Meeting and vote your shares in person.

Each stockholder and proxy will be asked to present a valid government-issued photo identification, such as a driver's license or passport, before being admitted. If you hold your shares in street name and wish to vote in person at the Annual Meeting, you must obtain a legal proxy from your nominee.

How are votes counted?

We will hold the Annual Meeting if holders representing a majority of the shares of common stock issued and outstanding and entitled to vote at the Annual Meeting either submit a proxy or attend the meeting. If you submit a proxy, your shares will be counted to determine whether we have a quorum even if you abstain or fail to vote on any of the proposals listed on the proxy card.

The election of directors under Proposal 1 will be by the affirmative vote of a plurality of the shares of common stock represented in person or by proxy at the Annual Meeting. Abstentions and broker non-votes will each be counted as present for purposes of determining the presence of a quorum but will not have any effect on the outcome of the proposal.

Proposal 2 will be approved upon the affirmative vote of a majority of the votes cast at the Annual Meeting. Abstentions and broker non-votes will each be counted as present for purposes of determining the presence of a quorum but will not have any effect on the outcome of the proposal.

Broker non-votes occur when a beneficial owner of shares held in street name does not give instructions to the broker or nominee holding the shares as to how to vote on matters deemed "non-routine." Brokers holding shares of common stock in street name who do not receive instructions from the beneficial owners of those shares are entitled to vote only on "routine" proposals. The ratification of the appointment of KPMG LLP as the Company's independent registered public accounting firm for 2015 (Proposal No. 2) is considered routine under applicable rules. A broker or other nominee may generally vote on routine matters, and therefore no broker non-votes are expected to exist in connection with Proposal No. 2. The election of directors (Proposal No. 1) is considered a non-routine matter under applicable rules. A broker or other nominee cannot vote without instructions on non-routine matters, and therefore, there may be broker non-votes on Proposal No. 1.

Who pays for this proxy solicitation?

We do. In addition to sending you these materials, some of our employees may contact you by telephone, by mail, by fax, by email or in person. None of these employees will receive any extra compensation for doing this. We may reimburse brokerage firms and other custodians for their reasonable out-of-pocket costs in forwarding these proxy materials to stockholders.

What am I voting on?

Proposal No. 1: To elect three (3) directors to the Board of Directors of the Company to serve for a three year term and until their successors are duly elected and qualified.

Proposal No. 2: To ratify the appointment of KPMG LLP as the Company's independent registered accounting firm for the 2015 fiscal year.

Representatives of KPMG are expected to be present at the Annual Meeting, will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

Stockholder ratification of the selection of KPMG as the Company’s independent registered public accountants is not required by the Company’s Bylaws or otherwise. However, the Board of Directors is submitting the selection of KPMG to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the Audit Committee will reconsider whether or not to retain that firm. Even if the selection is ratified, the Audit Committee in its discretion may direct the appointment of different independent registered public accountants at any time during the year if they determine that such a change would be in the best interests of the Company and its stockholders.

The Company has entered into an engagement agreement with KPMG, that sets forth the terms by which KPMG will perform audit services for the Company.

approved by the Audit Committee prior to the completion of the audit). The Audit Committee may form and delegate authority to subcommittees of the Audit Committee consisting of one or more Audit Committee members when appropriate, including the authority to grant pre-approvals of audit and permitted non-audit services, provided that decisions of such subcommittee to grant pre-approvals are presented to the full Audit Committee at its next scheduled meeting. AUDIT COMMITTEE REPORT ⁽¹⁾

The role of the Audit Committee is to assist the Board of Directors in its oversight of the Company's financial reporting process. The Board of Directors, in its business judgment, has determined that all members of the committee are "independent" as required by applicable listing standards of the New York Stock Exchange. The Audit Committee operates pursuant to a charter that was approved by the Board of Directors. Management of the Company is responsible for the preparation, presentation and integrity of the Company's financial statements, accounting and financial reporting principles and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent auditors are responsible for auditing the Company's financial statements and expressing an opinion as to their conformity with generally accepted accounting principles in the United States.

In the performance of the oversight of the Company's financial reporting process, the Audit Committee has reviewed and discussed the audited financial statements with management, the internal auditors and the independent auditors. The Audit Committee has discussed with the independent auditors the matters required to be discussed by Statement of Auditing Standards No. 16, Communications with Audit Committees, as amended, as adopted by the Public Company Accounting Oversight Board ("PCAOB") in Rule 3200T. Finally, the Audit Committee has received written disclosures and a letter from the independent auditors, as required by applicable requirements of the PCAOB, regarding the independent accountant's communications with the Audit Committee concerning independence, and has discussed with the independent accountant the independent accountant's independence.

Based upon the reports, review and discussions described in this report, and subject to the limitations on the role and responsibilities of the Audit Committee referred to in the Audit Committee charter, the Audit Committee recommended to the Board of Directors that the audited financial statements as of and for the year ended December 31, 2014 be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, as filed with the SEC.

THE AUDIT COMMITTEE

Norman Creighton (Chairman)

Cathy Hendrickson

David Minella

The material in the Audit Committee report is not soliciting material, is not deemed filed with the SEC and is not incorporated by reference in any filing of the Company under the Securities Act of 1933, as amended (the ⁽¹⁾"Securities Act"), or the Exchange Act, whether made before or after the date of this proxy statement and irrespective of any general incorporation language in such filing.

CORPORATE GOVERNANCE AND BOARD MATTERS

Director Independence

Our common stock is listed on the New York Stock Exchange (the "NYSE"). A majority of the members of our Board of Directors must be independent under Section 303A.01 of the listing standards of the NYSE. Section 303A.02 of the NYSE listing standards provides that no director can qualify as independent unless the Board of Directors affirmatively determines that the director has no material relationship with the listed company. Our Board of Directors has adopted the following standards in determining whether or not a director has a material relationship with the Company and these standards are contained in our Corporate Governance Guidelines which can be found on our website at www.kennedywilson.com and will be made available in print free of charge to any stockholder who requests it:

No director who is an employee or a former employee of the Company can be independent until three years after termination of such employment.

No director who is, or in the past three years has been, affiliated with or employed by the Company's present or former independent auditor can be independent until three years after the end of the affiliation, employment or auditing relationship.

No director can be independent if he or she is, or in the past three years has been, part of an interlocking directorship in which an executive officer of the Company serves on the compensation committee of another company that employs the director.

No director can be independent if he or she is receiving, or in the last three years has received, more than \$120,000 during any 12-month period in direct compensation from the Company, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service).

Directors with immediate family members in the foregoing categories are subject to the same three-year restriction.

No director can be independent if he or she is a current employee, or an immediate family member is a current executive officer, of a company that has made payments to, or received payments from, the Company for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million, or 2% of such other company's consolidated gross revenues.

Based on these independence standards and all of the relevant facts and circumstances, our Board of Directors determined that none of the following directors had any material relationship with the Company and, thus, are independent under Section 303A.02 of the listing standards of NYSE: Norman Creighton, Cathy Hendrickson, David Minella, Jerry Solomon and Stanley R. Zax. In accordance with NYSE rules, a majority of our Board of Directors is independent.

Board Leadership Structure and Role in Risk Oversight

The Board of Directors is responsible for risk oversight of the Company. Risks facing the Company include competitive, economic, operational, financial, accounting, liquidity, tax, regulatory, foreign country, safety, employment, political and other risks. Risks are reported to the Board of Directors through the Company's executive officers, who are responsible for the identification, assessment and management of the Company's risks. The Board of Directors regularly discusses the risks reported by the Company's executive officers and reviews with management strategies and actions to mitigate the risks and the status and effectiveness of such strategies and actions.

Our Chief Executive Officer also serves as Chairman of our Board of Directors. Our Board of Directors believes that our Chief Executive Officer is best situated to serve as Chairman because he is the director that is most familiar with our business and industry, possesses detailed and in-depth knowledge of the issues, opportunities and challenges facing us and is therefore best positioned to develop agendas that ensure that the Board's time and attention are focused on the most important matters. Our independent directors bring experience, oversight and expertise from outside the Company and industry, while our Chief Executive Officer brings Company-specific experience and expertise. Our Board of Directors believes that the combined role of Chairman and Chief Executive Officer facilitates information flow between management

and the Board, which we believe is critical to effective governance. We do not currently have a lead independent director.

To efficiently oversee the Company's risks, the committees of the Board of Directors are tasked with oversight responsibility for particular areas of risk. For example, the Audit Committee oversees management of risks related to accounting, auditing and financial reporting and maintaining effective internal controls for financial reporting. The Nominating Committee oversees risks related to the effectiveness of the Board of Directors. The Compensation Committee oversees risks related to the Company's executive compensation policies and practices.

Meetings of the Board of Directors

In 2014, the Board of Directors held eleven meetings and no director attended less than 75% of the aggregate number of meetings of the Board of Directors and any committee of which the director was a member. It is our policy to invite our directors and director nominees to attend our Annual Meetings. Six members of our Board of Directors attended our 2014 Annual Meeting.

Board Committees

Our Board of Directors has a Compensation Committee, a Nominating Committee and an Audit Committee.

Compensation Committee

The members of the Compensation Committee are Norman Creighton (chairman), Cathy Hendrickson and David Minella. The Compensation Committee met seven times during 2014. Each of the current members of the Compensation Committee is considered "independent" under Section 303A.02 of the listing standards of the NYSE, as determined by our Board of Directors. The Compensation Committee operates under a written charter. The Compensation Committee charter can be found on our website at www.kennedywilson.com and will be made available in print free of charge to any stockholder who requests it.

The Compensation Committee has overall responsibility for evaluating and approving the Company's compensation plans, policies and programs. The Compensation Committee evaluates the performance of the Chief Executive Officer and other executive officers and, based on such evaluation, reviews and approves the compensation of the Chief Executive Officer and other executive officers. The Compensation Committee may consult with the Chief Executive Officer regarding the amount or form of the compensation for the other executive officers. The Compensation Committee may also form and delegate responsibilities to subcommittees. The Compensation Committee also reviews and recommends to the full Board of Directors compensation of directors. The Compensation Committee administers our Amended and Restated 2009 Equity Participation Plan.

Nominating Committee

The purpose of the Nominating Committee is to, among other things, discharge the responsibilities of our Board of Directors relating to the appropriate size, functioning and needs of our Board of Directors, including, but not limited to, recruitment and retention of high quality board members and the composition and structure of committees of the Board of Directors. The Nominating Committee met one time during 2014.

The members of the Nominating Committee are Cathy Hendrickson (chairperson), Norman Creighton and David Minella. Each of the above-listed Nominating Committee members is considered "independent" under Section 303A.02 of the listing standards of the NYSE, as determined by our Board of Directors.

The Nominating Committee operates under a written charter. The Nominating Committee charter can be found on our website at www.kennedywilson.com and will be made available in print free of charge to any stockholder who requests it.

The Nominating Committee will consider director candidates recommended by security holders based upon the policies set forth in the Nominating Committee charter. Stockholders who wish to recommend to the Nominating Committee a candidate for election should send a letter to Kennedy-Wilson Holdings, Inc., 9701 Wilshire Blvd., Suite 700, Beverly Hills, CA 90212, ATTN: Nominating Committee. The letter must set forth certain biographical information regarding the

nominees as specified in the Nominating Committee charter. Recommendations by security holders must be received no later than thirty (30) days after the end of the Company's fiscal year.

Candidates will be reviewed in the context of the current composition of the Board of Directors, the operating requirements of the Company and the long-term interests of the Company's stockholders. Although there are no specific minimum qualifications or any specific qualities or skills that the Nominating Committee believes that the potential nominees must have, the Nominating Committee considers and evaluates each candidate based upon an assessment of certain criteria as set forth in the Nominating Committee charter. Although diversity may be a consideration in the nomination process, the Nominating Committee does not have a formal policy with regard to the consideration of diversity in identifying director nominees.

The Nominating Committee does not have a formal procedure for identifying or evaluating director nominees except as set forth in the Nominating Committee charter. A potential director nominee recommended by a security holder will not be evaluated any differently than any other potential nominee. Although it has not done so in the past, the Nominating Committee may retain search firms to assist in identifying suitable director candidates.

Audit Committee

The Audit Committee operates under a written charter. The Audit Committee charter can be found on our website at www.kennedywilson.com and will be made available in print free of charge to any stockholder who requests it.

The Audit Committee charter states that the responsibilities of the Audit Committee shall include, among other things, to assist the Board of Directors in monitoring (i) the integrity of the annual, quarterly and other financial statements of the Company, (ii) the independent auditor's qualifications and independence, (iii) the performance of the Company's internal audit function and independent auditor and (iv) the compliance by the Company with legal and regulatory requirements. The Audit Committee also reviews and approves all related-party transactions (defined as transactions with an executive officer, director, beneficial owner of more than 5% of our outstanding common stock, or any of such persons' immediate family members in which the amount involved exceeds \$120,000, and in which any such persons had or will have a direct or indirect material interest) and prepares the report required by the rules of the Securities and Exchange Commission, or the SEC, to be included in the Company's annual proxy statement.

Pursuant to its charter, the Audit Committee meets at least quarterly. The Audit Committee met seven times during 2014. The Company does not limit the number of audit committees of other Companies on which its Audit Committee members can serve.

The members of the Audit Committee are Norman Creighton (chairman), Cathy Hendrickson and David Minella. Each of the above-listed Audit Committee members is considered "independent" under Section 303A.02 of the listing standards of the NYSE, as determined by our Board of Directors.

Our Board of Directors has determined that we have at least one audit committee financial expert, as defined in the Securities Exchange Act of 1934, as amended (the "Exchange Act"), serving on our Audit Committee. Norman Creighton is the "audit committee financial expert" and is an independent member of our Board of Directors.

Executive Sessions

Under the NYSE listing company manual, our non-management directors are required to hold regular executive sessions. The chairperson of the executive sessions is Norman Creighton. Interested parties may communicate directly with the presiding director of the executive session or with the non-management directors as a group, by directing such written communication to the Secretary of the Company, c/o Kennedy-Wilson Holdings, Inc., 9701 Wilshire Boulevard, Suite 700, Beverly Hills, CA 90212.

Process for Sending Communications to the Board of Directors

The Board of Directors maintains a process for stockholders to communicate with the Board of Directors. Stockholders wishing to communicate with the Board of Directors or any individual director must mail a communication addressed to the Secretary of the Company, c/o Kennedy-Wilson Holdings, Inc., 9701 Wilshire Boulevard, Suite 700, Beverly

Hills, CA 90212. Any such communication must state the number of shares of common stock beneficially owned by the stockholder making the communication. All of such communications will be forwarded to the full Board of Directors or to any individual director or directors to whom communication is directed unless the communication is clearly of a marketing nature or is inappropriate, in which case we have the authority to discard the communication or take appropriate legal action regarding the communication.

Code of Ethics

Our Board of Directors has adopted a code of ethics that applies to our directors, officers and employees. A copy of the code of ethics can be found on our website at www.kennedywilson.com and will be made available in print free of charge to any stockholder who requests it.

Section 16(A) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our officers, directors and persons who own more than 10% of a registered class of our equity securities to file reports of ownership and changes in ownership with the SEC. Based solely upon our review of the Forms 3 and 4 and amendments thereto furnished to us during the fiscal year ended December 31, 2014, and Forms 5 and amendments thereto furnished to us with respect to the fiscal year ended December 31, 2014, we believe that, during the fiscal year ended December 31, 2014, all Section 16(a) filing requirements applicable to our officers, directors and greater than 10% beneficial owners were met in a timely manner.

The following discussion sets forth certain information regarding our executive compensation. Unless specifically noted or the context provides otherwise, as used throughout this section, “we,” “our,” “us” or the “Company” and the disclosures relating to executive compensation refer to Kennedy-Wilson Holdings, Inc. and its subsidiaries.

William J. McMorrow	Chairman and Chief Executive Officer

I. Executive Summary

We are a vertically integrated global real estate investment and services company with over \$18.1 billion in assets under management. Founded in 1977, we have owned and operated real estate related investments for over 37 years on behalf of our stockholders and our clients. We have over 450 employees in 25 offices throughout the United States, the United Kingdom, Ireland, Jersey, Spain and Japan and manage and work with over 4,000 operating associates. We focus on adding value for our stockholders through sourcing global opportunistic investment opportunities. Also, our services business creates additional value through fee generation and strategic investment management. For definitions of certain terms used in this section, see Appendix A.

Our business strategy has resulted in a strong track record of creating both asset and entity value for the benefit of our stockholders and partners over various real estate cycles. Since our initial public offering on November 13, 2009 through December 31, 2014, the annualized total rate of return (including dividends) of our common stock (NYSE: KW) was 24.3% compared to the return of the S&P 500 index of 13.8% during the same period. Past stock price performance is not necessarily indicative of future stock price performance.

In June 2014, we provided stockholders an advisory (non-binding) vote to approve the compensation of our named executive officers (the say-on-pay proposal). At our 2014 Annual Meeting of Stockholders, our stockholders approved the compensation of our named executive officers, with approximately 67% of the votes cast in favor of the say-on-pay proposal. The Compensation Committee believes this affirms the stockholders’ support of our approach to executive compensation, and did not change its approach in 2014. The Compensation Committee will continue to consider the outcome of our say-on-pay votes when making future compensation decisions for the named executive officers. In addition, when determining how often to hold future say-on-pay proposals to approve the compensation of our named executive officers, the Board took into account the strong preference for a triennial vote expressed by our stockholders at our 2011 Annual Meeting, with over 71% of the votes cast in favor of a triennial vote. Accordingly, the Board determined that we will hold a say-on-pay proposal to approve the compensation of our named executive officers every three years, and we expect that our next say-on-pay proposal will be submitted to our stockholders for an advisory vote at our 2017 annual meeting.

2014 Financial Performance

2014 was a historic year for Kennedy Wilson and also marked the fifth anniversary of the Company's initial public offering in November 2009. As discussed below, the Company reached record levels across every major performance category, including record adjusted EBITDA, net income, and assets under management. During 2014, the Company focused on growing its investments in high quality assets that produce recurring operating distributions while maintaining appropriate leverage levels. The Company also focused on the continued growth of its international operations through the launch of Kennedy Wilson Europe Real Estate, plc and also through strategic acquisitions of investments sourced from financial institutions as they continued the deleveraging process in the European banking system. Accomplishments for 2014 included, among other things, the following:

In its capacity as external manager, Kennedy Wilson is entitled to receive management fees equal to 1% of KWE's adjusted net asset value (reported by KWE to be approximately \$2.1 billion as of December 31, 2014) and certain performance fees. During 2014, Kennedy Wilson earned approximately \$14.0 million in management fees and no performance fees.

The Company and its equity partners completed approximately \$4.3 billion of investment transactions (our largest year of investment activity).

The Company invested \$600.7 million in \$3.2 billion of acquisitions and received \$184.9 million from \$1.1 billion of dispositions.

*For definitions of adjusted EBITDA and adjusted net income, and reconciliations of these figures to their most directly comparable GAAP measure, net income, see Appendix A.

In addition, since our initial public offering in 2009, we have been able to generate consistent growth in the below key performance areas. In 2014, Kennedy Wilson achieved a record level in every category set forth below. Past performance is not necessarily indicative of future performance, and you should not unduly rely on the historical metrics shown below. The graphs below are as of December 31 of the applicable year.

Total Stockholder Return (“TSR”)

We believe that true value creation produced from an investment in real estate should be assessed over a long-term horizon and our strategy has focused on long-term value creation for our stockholders. The graph below compares the cumulative total return on our common stock over the past five years to the cumulative return of comparable indices assuming a \$100 investment on December 31, 2009 and all dividends being reinvested. A \$100 investment in the Company would have increased to \$298 on December 31, 2014 and would have outperformed a \$100 investment in the S&P 500 index or the S&P 500 Financials index over the same period as detailed below.

In addition, as shown in the chart below, we have consistently provided our stockholders with above-market returns, outperforming the S&P 500 index and the S&P 500 Financials index over the one-, three- and five-year periods ended December 31, 2014 as follows:

Amounts based on annualized total rate of return as calculated by SNL Financial LC.

Compensation Highlights

The objective of our executive compensation program is to pay and retain our high caliber executive officers in a competitive market. The compensation program is designed to align management and stockholder interests by tying compensation to, among other things, the achievement of performance goals that promote the creation of stockholder value, the performance of underlying business units and individual accomplishments.

Consistent with this focus, our compensation program includes the following key components:

Pay Element	Compensation Type	Objective and Key Features
		Salaries are set to attract and retain executive talent taking into consideration competitive market conditions with respect to peer companies.
Base Salary	Fixed, Cash	NEOs' base salaries were increased in 2014 based upon each individual's current and sustained performance results and the competitive market conditions. Designed to incentivize management to achieve the Company's strategic financial goals with a bonus pool created utilizing a formulaic calculation based on the Company's performance during the applicable year, with downwards adjustments at the Compensation Committee's discretion (pay-for-performance).
Annual Bonus	Variable, Cash	The overall size of our bonus pool is determined based on an overall Company performance metric and then a portion of such pool is allocated to our executive officers based on their relative levels of contribution as determined by the Compensation Committee in its sole discretion. Structured to support the retention of senior management and encourage long-term performance, while subjecting recipients to the same market fluctuations as stockholders and thereby motivate management to create long-term stockholder value (pay-for-performance).
Restricted Stock Awards	Variable, Equity	Provide periodic grants to our executive officers in the form of performance-based restricted stock. Earned over a five-year period if the Company exceeds return on equity goals, subject to continued employment.

Good Governance

In furtherance of our objective of implementing policies and practices that are mindful of the concerns of our stockholders, the Compensation Committee is comprised solely of independent directors, and the Compensation Committee retained an independent compensation consultant to provide it with advice on matters related to executive compensation and non-employee director remuneration.

In addition, we consider best practices in designing our executive compensation. Consistent with such best practices, we:

- do not provide supplemental retirement benefits to our executive officers;

- maintain incentive compensation plans that do not encourage undue risk taking and are intended to align executive rewards with annual and long-term performance; and
- do not provide tax gross-up payments under Section 280G of the Internal Revenue Code of 1986, as amended (the “Tax Code”) on severance and change in control pay for any executive officers.

II. Executive Compensation Philosophy and Review Process

Compensation Philosophy

Our core compensation philosophy has been to:

Pay competitively—Pay our executive officers a competitive level of compensation that best reflects individual performance, overall role and responsibility, and our performance and the performance of our business units;

Pay-for-performance—The majority of our NEOs' compensation is at-risk subject to the Company's achievement of pre-established performance goals. Consistent with this focus, our compensation program provides our executive officers with long-term incentive compensation and annual bonuses that are subject to the attainment of Company performance goals. We encourage our executives to take a long-term approach by compensating them in restricted equity that vests over five years if the Company exceeds return on equity goals, subject to continued employment; and

Alignment with stockholders—Provide long-term incentive compensation that is strongly aligned with the long-term interests of our stockholders and encourages retention. We align the interests of our executives with those of our stockholders by paying a significant portion of compensation to our executive officers in equity. As of April 24, 2014, our directors and executive officers beneficially owned approximately 19.4% of our outstanding common stock.

Role of the Compensation Committee

Our Compensation Committee determines the compensation of all of the NEOs. In this process it receives input as necessary and appropriate from Company management, including the Chief Executive Officer and the Chief Financial Officer, other than with respect to their own compensation, and the Compensation Committee's compensation consultant, as discussed below. Our Chief Executive Officer makes certain recommendations to the Compensation Committee on the compensation of executive officers who report to him based on his assessment of the achievement of the Company's strategic plans, the executive's individual performance and a variety of other factors (such as compensation history, tenure, responsibilities, market data and retention concerns). The Compensation Committee considers these recommendations together with input of our independent compensation consultant. All final decisions affecting NEO compensation, executive compensation philosophy, policies and plan designs are made by the Compensation Committee.

Role of the Compensation Consultants

The Compensation Committee has retained an independent compensation consultant to advise it in connection with its responsibilities. During part of 2014, the Compensation Committee retained Frederic W. Cook & Co., Inc. ("Cook") who provided advice to the Compensation Committee with respect to several executive compensation issues, including consulting with respect to long-term incentives, the structure of the annual bonus program applicable to executive officers and employment agreements. In late 2014, the Compensation Committee ended its engagement with Cook and retained FTI Consulting, Inc. ("FTI Consulting") to provide peer group compensation data and market practices and advice with respect to the compensation and annual bonus program applicable to executive officers and employment agreements going forward.

The Compensation Committee has determined that each of Cook and FTI Consulting is independent and that there was no conflict of interest between Cook and Company or FTI Consulting and the Company during 2014. In reaching these conclusions, the Compensation Committee considered the factors set forth in Rule 10C-1(b) of the Securities Exchange Act of 1934, as amended and the NYSE listing standards.

Use of Peer Group Data

During 2014, FTI Consulting provided the Company with peer group compensation data in order for the Compensation Committee to understand the reasonableness of the Company's pay level and structure as compared to the market. Reflecting the Compensation Committee's view that the Company is not readily comparable to other companies of a similar size in the real estate industry (due, in part, to the Company's diverse line of businesses, revenue streams and investment type), in determining the overall amounts of compensation to be awarded to the NEOs and the relative portion of compensation to be divided between base pay, bonus, and long-term incentives, the Compensation Committee does not adhere to a specific formula or aim to set compensation at a specified level as compared to specific benchmarking or survey data. Please see the discussion in "Elements of Compensation" below.

In reviewing the reasonableness of our executive compensation program, the peer group included a composite of a diverse set of companies that on a blended basis reflect the Company's unique business and included the following constituents:

Ares Management L.P.	iStar Financial Inc.
American Capital, Ltd.	NorthStar Asset Management Group, Inc.
Apollo Global Management, LLC	Och-Ziff Capital Management Group LLC
Cohen & Steers, Inc.	PennyMac Financial Services, Inc.
Douglas Emmett, Inc.	SL Green Realty Corp.
Fifth Street Asset Management, Inc.	Virtus Investment Partners, Inc.
Fortress Investment Group LLC	W.P. Carey Inc.

III. Elements of Compensation

With respect to the Company's NEOs, the three primary elements of compensation are base salary, annual bonuses and long-term incentives. In 2014, the Compensation Committee adjusted base pay levels based on the Compensation Committee's conclusions as to what constituted appropriate levels of base pay taking into account the Compensation Committee's conclusions as to competitive levels of base pay and a desire to set levels of base pay that were internally equitable. Similarly, as explained below, 2014 bonus levels were set by first determining an appropriate overall bonus pool for Company employees and then allocating that pool among the NEOs in a manner that reflected their relative levels of contribution as determined by the Compensation Committee in its sole discretion.

A. Base Salary

Base salary is set to attract and retain executive talent taking into consideration competitive market conditions with respect to comparable companies. Base salary is determined by the level of the position within the Company and the individual's current and sustained performance results. Base salary for all NEOs, is set by the Compensation Committee, taking into account input as appropriate from the Chief Executive Officer, other than with respect to the Chief Executive Officer's own base salary.

In determining the appropriate level of base salary for NEOs, a number of considerations may be taken into account. Historically, the following are some of the most important factors that have been considered: the number of employees supervised by the officer; the effort expended by the officer in soliciting and bringing new business or capital investments to his or her business unit; the extent to which the officer's business unit generated new business or new capital; the travel demands placed upon the officer; and the extent to which the officer engaged in investor relation activities. While these factors are critical to our success, many of them cannot be evaluated quantitatively, so a portion of the evaluations by the Compensation Committee are subjective.

Effective August 6, 2014, the Compensation Committee increased Mr. McMorrow's base salary to \$1,500,000 from \$950,000. This was the first increase in Mr. McMorrow's base salary since the Company's initial public offering in 2009.

In addition, effective August 6, 2014, the Compensation Committee, based, in part, upon a recommendation from the Chief Executive Officer, increased Ms. Ricks' base salary to \$1,000,000 from \$750,000. Also, in connection with the execution of their respective employment agreements on December 29, 2014, the Compensation Committee, based upon recommendations from the Chief Executive Officer, increased Mr. Enbody's base salary to \$600,000 from \$500,000, Mr. Windisch's base salary to \$600,000 from \$500,000 and Mr. Mouton's base salary to \$800,000 from \$650,000. These increases were awarded to the NEOs due to their individual performance and their role in the Company's growth.

B. Annual Bonus

Our Compensation Committee believes that annual bonuses should play a significant role in motivating executives to undertake efforts that provide increases in stockholder value and that executive officers should be potentially eligible for bonuses that are a significant percentage of base pay and, in the case of the most senior officers, may be a multiple of base pay. The Compensation Committee believes that individual contributions and the financial performance of an NEO's business unit should be a critical component of his or her bonus calculation and overall Company performance should be factored into the bonus methodology for all NEOs. For 2014, the Compensation Committee determined that

overall company results

22

would be used to determine the size of a bonus pool and the bonus pool would be allocated among all employees by taking into account their individual contributions and the success of their business units.

As the first step in implementing this concept, the Compensation Committee awarded cash-based performance units under our Amended and Restated 2009 Equity Participation Plan in March 2014 to Messrs. McMorrow, Windisch and Mouton and Ms. Ricks. The performance units were intended to qualify as “performance-based” compensation for purposes of Section 162(m) of the Tax Code (performance units were not awarded to Mr. Enbody because, as our Chief Financial Officer, he was not expected to be subject to Section 162(m) for 2014). Pursuant to the performance units awarded to Messrs. McMorrow, Windisch and Mouton and Ms. Ricks, such NEOs were eligible to earn an amount in cash equal to a specified percentage of a bonus pool equal to 15% of the Company’s adjusted EBITDA, only if the Company’s adjusted EBITDA was \$25 million or more. During 2014, Messrs. McMorrow, Windisch and Mouton and Ms. Ricks were eligible to earn cash amounts up to 40%, 15%, 15% and 30%, respectively of aggregate bonus pool. These allocations represented the maximum bonus payable, with the Compensation Committee retaining complete discretion to decrease (but not increase) the bonus awarded to each participant to such lesser number as it considered appropriate. The maximum bonus payable to each NEO under the cash-based performance units was further capped at \$10 million during 2014.

In February 2015, the Compensation Committee met to review Company performance, compute the final size of the bonus pool and determine bonuses for the NEOs and other corporate employees. Based on the Company’s adjusted EBITDA of \$317.8 million for 2014, the aggregate size of the Company’s historical bonus pools and an overall review of 2014 Company performance, the Compensation Committee determined the aggregate size of the 2014 bonus pool to equal approximately \$43 million, or approximately 13.5% of the Company’s adjusted EBITDA.

The Compensation Committee then determined the portion of this pool to be paid to the NEOs and the bonus amounts for each NEO. In the case of Messrs. McMorrow, Windisch and Mouton and Ms. Ricks, each of whom were awarded performance units, the maximum bonus amounts payable pursuant to the original terms of their performance units were reduced to be equal to the amounts finally determined by the Compensation Committee in its sole discretion. In the case of Mr. Enbody, the bonus amount payable was determined entirely by the Compensation Committee in its sole discretion. In deciding upon the amount of bonuses to be paid each NEO, the Compensation Committee did not focus on one particular factor, but, consistent with the rationale for using an overall bonus pool, initially focused on overall Company performance and then evaluated each NEO’s contribution to that performance. In this regard, the Compensation Committee determined that 2014 was an extremely successful year for the Company.

As discussed in more detail in the “2014 Financial Performance” section above, the particular factors that the Compensation Committee took into account in this regard with respect to 2014 performance were:

- expansion of our international operations through the launch of KWE and various strategic acquisition and investment activity;
- significantly strengthened balance sheet;
- improved operating metrics;
- success in 2014 in raising capital;
- robust acquisition program;
- successful access to investment-level debt financing; and
- significant expansion of the Company’s service businesses.

Based on these factors and the Compensation Committee’s qualitative evaluation of the NEO’s contributions to these factors, as well as their individual performance and, where applicable, the performance of their business units, the Compensation Committee awarded the following bonuses, Mr. McMorrow—\$10.0 million; Ms. Ricks—\$7.0 million; Mr. Windisch—\$2.3 million; Mr. Mouton—\$2.3 million; and Mr. Enbody—\$1.5 million. In addition to Mr. McMorrow’s annual bonus for 2014, Mr. McMorrow also received a one-time discretionary bonus of \$1.0 million. This bonus was in recognition of his exemplary performance in 2014 and his role in the Company’s success during the same period.

C. Long-Term Incentive Compensation

Long-term incentives through the grant of shares of the Company’s restricted stock are a crucial part of the overall compensation program. We believe that this component of the compensation program strongly aligns our NEO’s interests with the long-term interests of our stockholders and also encourages retention of our highly-skilled

employees.

Material Vesting Terms of 2014 Restricted Stock Awards. The Company granted its NEOs performance-based restricted stock awards in 2014, which reflect a periodic grant that is designed to cover a multi-year period, as our last grant

23

to all NEOs was in 2012. Under the terms of the 2014 restricted stock awards granted to our NEOs, the restricted shares are scheduled to vest according the following schedule:

20% of the restricted shares will vest upon the occurrence of both (i) the grantee being an employee of the Company or its subsidiaries (or, in the case of a consultant, the grantee continuing to provide services) as of April 15, 2015, and (ii) our Return on Equity (as defined below) equaling or exceeding 9% for our fiscal year ending December 31, 2014;

20% of the restricted shares will vest upon the occurrence of both (i) the grantee being an employee of the Company or its subsidiaries (or, in the case of a consultant, the grantee continuing to provide services) as of April 15, 2016, and (ii) our Return on Equity equaling or exceeding 9% for our fiscal year ending December 31, 2015;

20% of the restricted shares will vest upon the occurrence of both (i) the grantee being an employee of the Company or its subsidiaries (or, in the case of a consultant, the grantee continuing to provide services) as of April 15, 2017, and (ii) our Return on Equity equaling or exceeding 9% for our fiscal year ending December 31, 2016;

20% of the restricted shares will vest upon the occurrence of both (i) the grantee being an employee of the Company or its subsidiaries (or, in the case of a consultant, the grantee continuing to provide services) as of April 15, 2018, and (ii) our Return on Equity equaling or exceeding 9% for our fiscal year ending December 31, 2017; and

20% of the restricted shares will vest upon the occurrence of both (i) the grantee being an employee of the Company or its subsidiaries (or, in the case of a consultant, the grantee continuing to provide services) as of April 15, 2019, and (ii) our Return on Equity equaling or exceeding 9% for our fiscal year ending December 31, 2018.

The award agreements further provide that, if the grantee remains employed until a vesting date, but the performance goal target is not met, the shares will nevertheless become vested if the Performance Goal target is met as of a subsequent vesting date; provided, that if any of the vesting requirements are not satisfied as of April 15, 2019, all unvested restricted shares will be immediately forfeited as of such date.

Notwithstanding the foregoing, if the employment of a grantee who is an employee or the status or engagement of a grantee who is a consultant of the Company or its subsidiaries is terminated by the Company or its subsidiaries without "Cause" or by the grantee for "Good Reason" (each as defined in the award agreement) (a "Qualifying Termination"), the Compensation Committee may, in its sole discretion, provide that the requirement that the grantee be employed by or rendering services to the Company or its subsidiaries as of each vesting date shall no longer apply going forward, so that, assuming the Performance Goal target is met as of a particular vesting date, all restricted shares subject to vesting as of such vesting date shall thereupon become fully vested; provided, however, that such vesting provision shall apply automatically upon a termination by reason of the grantee's death or disability. In the event of a Change of Control of the Company (as defined in the Amended and Rested 2009 Equity Participation Plan), all then-unvested restricted shares will vest in full as of the date of the Change in Control, subject to the executive's continued employment until at least immediately prior to the Change of Control.

The award agreements provide the grantee with the right to receive any dividends declared on the common stock with respect to the restricted shares.

For purposes of the award agreements:

"Cause" has the meaning set forth in the grantee's employment agreement or similar agreement with the Company or its subsidiaries, or if no such agreement exists, then "Cause" means the occurrence of any of the following events: (A) intentional failure to perform reasonably assigned duties, (B) dishonesty or willful misconduct in the performance of the grantee's duties, (C) involvement in a transaction which is materially adverse to the Company or its subsidiaries, (D) breach of fiduciary duty involving personal profit, (E) willful violation of any law, rule, regulation or court order (other than misdemeanor traffic violations and misdemeanors not involving misuse or misappropriation of money or property), (F) commission of an act of fraud or intentional misappropriation or conversion of any asset or opportunity of the Company or its subsidiaries, or (G) material breach of any provision of the 2009 Equity Participation Plan or the restricted stock award agreement or any other written agreement between the grantee and the Company or its subsidiaries, in each case as determined in good faith by the Board, the determination of which shall be final, conclusive and binding on all parties.

“Good Reason” means the voluntary termination of the engagement of the grantee with the Company or its subsidiaries within 6 months of the Company or the Company’s subsidiaries: (1) instructing the grantee to provide services full-time or substantially full-time at any location not acceptable to the grantee (other than the Company’s main headquarters) that is more than 50 miles from the grantee’s principal place of work and more than 50 miles from the grantee’s principal residence; (2) eliminating or materially reducing the grantee’s duties with the Company or the Company’s subsidiaries or (3) materially reducing the grantee’s base pay (or base compensation).

“Return on Equity” means the ratio of Adjusted EBITDA (as defined in the Company’s Annual Report on Form 10-K filed with the Securities and Exchange Commission) to tangible book equity (calculated as stockholders’ equity less goodwill in accordance with generally accepted accounting principles) for the applicable fiscal year ending December 31.

D. Other Executive Benefits

NEOs are entitled to employee benefits generally available to all full time employees (subject to fulfilling any minimum service period). These employee benefits include, among other things, vacation and health and welfare benefits generally available to all employees. We believe these benefits are generally competitive with those offered by similar companies in the markets in which we operate.

The Company’s employees, including the NEOs participate in a tax-qualified 401(k) plan, pursuant to which the Company may match a certain portion of employee contributions. The Company may annually match 50% of employee contributions to the plan, limited to employee contributions equal to 4% of compensation, but not to exceed \$1,500 for any participant.

The Chief Executive Officer receives certain additional benefits, which include an annual car allowance of \$18,000 and the use of a club membership that is maintained by the Company for business purposes only. Further details regarding these benefits are contained in the summary compensation table and accompanying footnotes. These benefits are provided because the Compensation Committee has concluded that they are generally competitive with those provided to comparable executives or provide benefits to the Company which are appropriate in light of their cost.

E. Employment Agreements

During 2014, the Company was a party to employment agreements with all of the NEOs. Additional information regarding the employment agreements of the NEOs may be found under the subheadings below “Termination and Change in Control Benefits.”

Mr. McMorrow. The Company and Mr. McMorrow entered into an amendment to Mr. McMorrow’s employment agreement on August 6, 2014 which extended the term of the employment agreement to August 6, 2021 and increased Mr. McMorrow’s annual base salary to \$1,500,000. This was the first increase to Mr. McMorrow’s base salary since the Company’s initial public offering in 2009. Under the amended agreement, Mr. McMorrow will be entitled to receive an annual performance bonus and equity compensation in amounts solely approved by the Compensation Committee, and insurance coverage and other benefits generally available to all other officers.

Mr. Enbody. The Company entered into an employment agreement with Mr. Enbody on December 29, 2014. The agreement provides for a term of five years, expiring on December 29, 2019 and an annual base salary of \$600,000. Under the agreement, Mr. Enbody will be entitled to receive an annual performance bonus and equity compensation in amounts solely approved by the Compensation Committee, and insurance coverage and other benefits generally available to all other officers. Prior to this employment agreement, Mr. Enbody was not a party to an employment agreement with the Company.

Ms. Ricks. The Company and Ms. Ricks entered into an amendment to Ms. Ricks’ employment agreement on August 6, 2014 which extended the term of the employment agreement to August 6, 2021 and increased Ms. Ricks’ annual base salary to \$1,000,000. Under the amended agreement, Ms. Ricks will be entitled to receive an annual performance bonus and equity compensation in amounts solely approved by the Compensation Committee, and insurance coverage and other benefits generally available to all other officers.

Simultaneously with entering into the amendment described above, Ms. Ricks, Kennedy Wilson UK Limited and the Company entered into a letter of understanding, which provides for a short-term employment assignment located in London for approximately seven months which commenced on August 6, 2014. The term of the assignment has since

been extended. Pursuant to the letter of understanding, in addition to the base salary described above, Ms. Ricks was provided with an annual reimbursement for UK housing expenses, a monthly reimbursement of \$15,000 for US property management

25

expenses, an annual cost of living allowance of £60,000, and tax equalization. Tax equalization is used to neutralize the tax impact of an international assignment when tax rates differ between an employee's host and home country. As part of the Company's tax equalization policy, a hypothetical tax, or the estimated 'stay-at-home' tax Ms. Ricks would have paid had she not gone on assignment, is calculated and withheld during each payroll cycle. Any actual United States or United Kingdom taxes are funded by the Company. Upon completion of Ms. Ricks' annual income tax returns, a tax equalization calculation is prepared to compare the estimated hypothetical tax retained during the year with her final theoretical 'stay-at-home' tax liability resulting in a balance owed either to the Company or Ms. Ricks. The additional tax equalization cost of Ms. Ricks' international assignment to the Company in 2014 was \$927,763.

Mr. Windisch. The Company entered into an employment agreement with Mr. Windisch on December 29, 2014. The agreement provides for a term of five years, expiring on December 29, 2019 and an annual base salary of \$600,000. Under the agreement, Mr. Windisch will be entitled to receive an annual performance bonus and equity compensation in amounts solely approved by the Compensation Committee, and insurance coverage and other benefits generally available to all other officers. Prior to this employment agreement, Mr. Windisch was not a party to an employment agreement with the Company.

Mr. Mouton. The Company entered into an employment agreement with Mr. Mouton on December 29, 2014. The agreement provides for a term of five years, expiring on December 29, 2019 and an annual base salary of \$800,000. Under the agreement, Mr. Mouton will be entitled to receive an annual performance bonus and equity compensation in amounts solely approved by the Compensation Committee, and insurance coverage and other benefits generally available to all other officers. Prior to this employment agreement, Mr. Mouton was not a party to an employment agreement with the Company.

IV. Tax and Accounting Considerations

As a general matter, the Compensation Committee takes into account the various tax and accounting implications of the compensation vehicles employed by the Company.

A. Tax Code Section 162(m)

Section 162(m) of the Tax Code limits the deductibility of compensation paid to certain of our executive officers. To qualify for deductibility under Section 162(m), compensation in excess of \$1,000,000 paid to our named executive officers (other than our chief financial officer who is not subject to Section 162(m)) during any fiscal year generally must be "performance-based" compensation as determined under Section 162(m). Compensation generally qualifies as performance-based if, among other requirements, it is payable only upon the attainment of pre-established, objective performance goals based on performance criteria that have been approved by our stockholders, and the committee of our Board that establishes and certifies the attainment of such goals consists only of "outside directors." All members of our Compensation Committee qualify as outside directors.

The Compensation Committee takes into account Section 162(m) in establishing compensation of our executive officers to preserve deductibility to the greatest extent possible. While the tax impact of any compensation arrangement is one factor to be considered, such impact is evaluated in light of the Compensation Committee's overall compensation philosophy and objectives. The Compensation Committee will consider ways to maximize the deductibility of executive compensation, while retaining the discretion it deems necessary to compensate officers competitively and in a manner commensurate with performance. In addition, the Compensation Committee reserves the right to use its judgment to award compensation to our executive officers that may be subject to the deduction limit when the Compensation Committee believes that such compensation is appropriate, consistent with the Compensation Committee's philosophy and in our and our stockholders' best interests.

B. ASC Topic 718

Accounting Standards Codification Topic 718, Compensation-Stock Compensation ("ASC Topic 718") requires us to recognize an expense for the fair value of equity-based compensation awards. Grants of stock-based compensation are accounted for under ASC Topic 718. The Compensation Committee regularly considers the accounting implications of significant compensation decisions, especially in connection with decisions that relate to equity compensation awards. As accounting standards change, we may revise certain programs to appropriately align the cost of our equity awards with our overall executive compensation philosophy and objectives.

Compensation Committee Report

The Compensation Committee reviewed and discussed the foregoing Compensation Discussion and Analysis with the Company's management. Based on this review and discussion with management, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement and incorporated by reference into the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

Committee

Notwithstanding anything to the contrary set forth in any Company filings under the Securities Act or the Exchange Act that incorporate other filings, including this proxy statement, in whole or in part, the foregoing Compensation Committee Report shall not be incorporated by reference into any such filings.

Compensation Committee Interlocks and Insider Participation

The Compensation Committee was established on November 13, 2009 and consists of Norman Creighton (Chairman), Cathy Hendrickson and David Minella. Mr. Minella served as predecessor's Chief Executive Officer and Chairman of Prospect Acquisition Corp. prior to the consummation of the merger between its wholly owned subsidiary and Kennedy-Wilson, Inc. on November 13, 2009. No other member of the Compensation Committee is (or ever was) an officer or employee of the Company or any of its subsidiaries. There are no Compensation Committee interlocks as defined by applicable SEC rules.

Compensation Policies and Practices As They Relate to the Company's Risk Management

In connection with the implementation of its compensation philosophy, the Compensation Committee periodically evaluates the Company's compensation practices in order to determine if the risks arising from such practices are reasonably likely to have a material adverse impact on the Company. The Compensation Committee conducted such an evaluation in 2014 and concluded that the practices were not reasonably likely to have such an impact. In reaching this conclusion, the Compensation Committee considered the structure of the Company's short and long-term incentive compensation plans (both of which are described above) and noted, among other factors, the fact that restricted stock grants to senior executives tie a significant portion of compensation to the long-term success of the Company, and that the annual bonus plan is not mechanical in nature because, after the Compensation Committee has determined the overall size of any bonus pool, the portion of such pool allocated to an employee is based on both a quantitative and qualitative evaluation of that employee's achievements in the sole discretion of the Compensation Committee. The Company believes that its compensation policies and practices for all employees, including executive officers, do not create risks that are reasonably likely to have a material adverse effect on the Company.

As discussed above, the restricted stock grants have a five-year vesting schedule and are dependent on the achievement of certain performance measures. In order to assist in understanding the compensation actually received by the NEOs each year, the Company prepared the second supplemental table on the previous page which shows the value of the amount of restricted stock that vested in the corresponding year based on the closing stock price on the applicable vesting date (rather than the full grant date value of the restricted stock grants made during such year).

The amounts in these columns in the first table reflect the aggregate grant date fair value of each restricted stock award computed in accordance with ASC Topic 718, based on the probable outcome of the performance conditions to which such restricted stock is subject, which is also the maximum value assuming that the highest level of performance is achieved. Information regarding the valuation assumptions used in the calculations are included in (1) Note 15 to the Company's financial statements for the fiscal year ended December 31, 2014 contained in the Company's Annual Report on Form 10-K. The amounts in these columns in the second table (supplemental table) reflect the aggregate fair value of each restricted stock award based on the closing price of the Company's stock on the date of the applicable vesting.

Includes \$18,000 in car allowance payments; \$1,500 in Company contributions to Mr. McMorrow's account in the Company's tax qualified 401(k) savings plan; and dividend payments on unvested shares of restricted stock of (2) \$192,568. The Company maintains a corporate club membership, which is made available to the Chief Executive Officer. Since all use was business use, no amount is recorded as "All Other Compensation" with respect to these memberships.

Includes \$1,500 in Company contributions to Mr. Enbody's account in the Company's tax qualified 401(k) savings plan; and dividend payments on unvested shares of restricted stock of \$23,334. (3)

(1)

Cash severance is continued base salary through the remainder of the term plus a lump-sum equal to 2X (3X for Mr. McMorrow) the average of the sum of base pay, bonus, and the value of stock awards for the three prior fiscal years, less (x) an amount equal to the executive's monthly base salary in effect as of the time of such termination multiplied by (y) the number of months remaining in the term of the employment agreement.

Cash severance represents the sum of base salary payable through the remainder of the employment term plus the (2) executive's performance bonus for the prior fiscal year (rather than any greater amount determined by the Compensation Committee in its discretion.

(3) Based on the December 31, 2014 closing stock price of \$25.30.

(4) Continued benefits consist of benefit continuation (other than continued participation in the Company's 401(k) plan) throughout the remainder of the executive's employment term.

The employment agreements provide that, in the event that any severance or change in control payments or (5) benefits would subject the executive to the excise tax imposed by Section 4999 of the Tax Code, then such payments or benefit will be reduced to the extent necessary so that no portion thereof shall be subject to the excise tax imposed by Section 4999 of the Tax Code, but only if, by reason of such reduction, the net

after-tax benefit received by the executive will exceed the net after-tax benefit received by such executive if no such reduction was made. No cutbacks are expected based on assumptions used.

These investments are generally less than 10% of the total equity of the underlying investment.

Distributions greater than \$120,000, including profits and return of capital, from our equity investments to our directors and executive officers (and their estate planning vehicles) were made to Mr. McMorrow during 2014. Such distributions totaled \$257,240 for Mr. McMorrow.

Mr. Zax is Fairfax’s Board Designee. In addition, from January 2012 to October 2012, Mr. Zax was the Non-Executive Chairman and President of Zenith National Insurance Corp., a subsidiary of Fairfax. Zenith National Insurance Corp. purchased 10,000 shares of Series A Preferred Stock in the offering. Additionally, we and Fairfax have eleven joint venture and two loan pool investments together. Appendix A

Certain Definitions and Reconciliation of Non-GAAP Financial Measures

We use certain non-GAAP measures to analyze our business, including adjusted EBITDA, consolidated EBITDA, consolidated adjusted net income and adjusted net income. We use these metrics for evaluating the success of our company and believe that they enhance the understanding of our operating results.

“Assets under management” or “AUM” generally refers to the properties and other assets with respect to which we provide (or participate in) oversight, investment management services and other advice, and which generally consist of real estate properties or loans, and investments in joint ventures. Our AUM is principally intended to reflect the extent of our presence in the real estate market, not the basis for determining our management fees. Our AUM consists of the total estimated fair value of the real estate properties and other real estate-related assets either owned by third parties, wholly owned by us or held by joint ventures and other entities in which our sponsored funds or investment vehicles and client accounts have invested. Committed (but unfunded) capital from investors in our sponsored funds is not included in our AUM. The estimated value of development properties is included at estimated completion cost.

“Adjusted EBITDA” represents consolidated EBITDA, as defined below, adjusted to exclude corporate merger and acquisition related expenses, share based compensation expense for the Company and EBITDA attributable to noncontrolling interests. Our management uses adjusted EBITDA to analyze our business because it adjusts consolidated EBITDA for items we believe do not accurately reflect the nature of our business going forward or that relate to non-cash compensation expense or noncontrolling interests. Such items may vary for different companies for reasons unrelated to overall operating performance. Additionally, we believe adjusted EBITDA is useful to investors to assist them in getting a more accurate picture of our results from operations. However, consolidated EBITDA and adjusted EBITDA are not recognized measurements under GAAP and when analyzing our operating performance, readers should use consolidated EBITDA and adjusted EBITDA in addition to, and not as an alternative for, net income as determined in accordance with GAAP. Because not all companies use identical calculations, our presentation of consolidated EBITDA and adjusted EBITDA may not be comparable to similarly titled measures of other companies. Furthermore, consolidated EBITDA and adjusted EBITDA are not intended to be a measure of free cash flow for our management’s discretionary use, as it does not remove all non-cash items (such as acquisition-related gains) or consider certain cash requirements such as tax and debt service payments. The amounts shown for consolidated EBITDA and adjusted EBITDA also differ from the amounts calculated under similarly titled definitions in our debt instruments, which are further adjusted to reflect certain other cash and non-cash charges and are used to determine compliance with financial covenants and our ability to engage in certain activities, such as incurring additional debt and making certain restricted payments.

“Adjusted net income” represents consolidated adjusted net income, as defined below, adjusted to exclude net income attributable to noncontrolling interests, before depreciation and amortization.

“Consolidated EBITDA” represents net income before noncontrolling interest income, interest expense, our share of interest expense included in income from unconsolidated investments, depreciation and amortization, our share of depreciation and amortization included in income from unconsolidated investments, loss on early extinguishment of corporate debt and income taxes for the Company. We do not adjust consolidated EBITDA for gains or losses on the extinguishment of mortgage debt as we are in the business of purchasing discounted notes secured by real estate and, in connection with these note purchases, we may resolve these loans through discounted payoffs with the borrowers. Consolidated EBITDA is not a recognized term under GAAP and does not purport to be an alternative to net earnings as a measure of operating performance or to cash flows from operating activities as a measure of liquidity. Additionally, consolidated EBITDA is not intended to be a measure of free cash flow available for management’s discretionary use, as it does not remove all non-cash items (such as acquisition related gains) or consider certain cash requirements such as interest payments, tax payments and debt service requirements. Our presentation of consolidated EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis

of our results as reported under GAAP. Our management believes consolidated EBITDA is useful in evaluating our operating performance compared to that of other companies in our industry because the calculation of consolidated EBITDA generally eliminates the effects of financing and income taxes and the accounting effects of capital spending and acquisitions. Such items may vary for different

42

companies for reasons unrelated to overall operating performance. Additionally, we believe consolidated EBITDA is useful to investors to assist them in getting a more accurate picture of our results from operations.

“Consolidated adjusted net income” represents net income before depreciation and amortization, our share of depreciation and amortization included in income from unconsolidated investments and share based compensation expense.

“Operating Associates” general refer to individuals that are employed by or affiliated with third-party consultants, contractors, property managers or other service providers that we manage and oversee on a day-to-day basis with respect to our investments and services businesses.
