SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2013

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 000-33067

MIDWEST ENERGY EMISSIONS CORP.
(Exact name of Registrant as Specified in its Charter)

Delaware
(State or other jurisdiction of incorporation
or organization)

87-0398271
(I.R.S. Employer Identification No.)

500 West Wilson Bridge Road, Suite 140
Worthington, Ohio
(Address of principal Executive offices)

43085
(Zip Code)

(614) 505-6115
(Registrant's Telephone Number, Including Area Code)

(Former Name, Former Address and Former Fiscal Year, if Changed Since Last Report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer,

Edgar Filing: Midwest Energy Emissions Corp. - Form 10-Q

or a smaller reporting company. See the definition of “large accelerated filer”, “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	<input type="radio"/>	Accelerated filer	<input type="radio"/>
Non-accelerated filer	<input type="radio"/>	Smaller reporting company	<input checked="" type="radio"/>

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act).
Yes No

State the number of shares outstanding of each of the Issuer’s classes of common stock, as of the latest practicable date: Common, \$.001 par value per share; 33,458,345 outstanding as of May 14, 2013.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains “forward-looking statements,” as defined in Section 21E of the Securities Exchange Act of 1934, as amended, that are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and reflect our current expectations regarding our future growth, results of operations, cash flows, performance and business prospects, and opportunities, as well as assumptions made by, and information currently available to, our management. Forward-looking statements are generally identified by using words such as “anticipate,” “believe,” “plan,” “expect,” “intend,” “will,” and similar expressions, but these words are not the exclusive means of identifying forward-looking statements. Forward-looking statements in this report are subject to risks and uncertainties that could cause actual events or results to differ materially from those expressed in or implied by the statements. These statements are based on information currently available to us and are subject to various risks, uncertainties, and other factors, including, but not limited to, those discussed under the caption “Risk Factors in the Company’s 2012 Form 10-K”. In addition, matters that may cause actual results to differ materially from those in the forward-looking statements include, among other factors, the gain or loss of a major customer, change in environmental regulations, disruption in supply of materials, a significant change in general economic conditions in any of the regions where our customer utilities might experience significant changes in electric demand, a significant disruption in the supply of coal to our customer units, the loss of key management personnel, failure to obtain adequate working capital to execute the business plan and any major litigation regarding the Company. Except as expressly required by the federal securities laws, we undertake no obligation to update such factors or to publicly announce the results of any of the forward-looking statements contained herein to reflect future events, developments, or changed circumstances or for any other reason.

Midwest Energy Emissions Corp. and Subsidiaries
(A Development Stage Company)
Notes to Condensed Consolidated Financial Statements

Note 1 – Organization

Midwest Energy Emissions Corp.

Midwest Energy Emissions Corp. (the “Company”) was organized under the laws of the State of Utah on July 19, 1983 under the name of Digicorp. Pursuant to shareholder approval, on October 6, 2006, the Board of Directors of the Company approved and authorized the Company to enter into an Agreement and Plan of Merger by and between the Company and Digicorp, Inc., a Delaware corporation and newly formed wholly-owned subsidiary of the Company that was incorporated under the Delaware General Corporation Law for the purpose of effecting a change of domicile. Effective February 22, 2007, the Company changed its domicile from Utah to Delaware with the name of the surviving corporation being Digicorp, Inc.

Pursuant to a Certificate of Amendment to our Certificate of Incorporation filed with the State of Delaware, which took effect as of October 16, 2008, the Company's name changed from "Digicorp, Inc." to "China Youth Media, Inc."

Reverse Merger

On June 21, 2011, the Company entered into an Agreement and Plan of Merger (the “Merger Agreement”) with Midwest Energy Emissions Corp., a North Dakota corporation (“Midwest Energy Emissions”) pursuant to which at closing China Youth Media Merger Sub, Inc., the Company’s wholly-owned subsidiary formed for the purpose of such transaction (the “Merger Sub”), merged into Midwest Energy Emissions, the result of which Midwest Energy Emissions would become the Company’s wholly-owned subsidiary (the “Merger”). The Merger closed on June 21, 2011 (the “Closing”). As a result of the Closing and the Merger, the Merger Sub merged with and into Midwest Energy Emissions with Midwest Energy Emissions surviving. Effective at the time of the Closing, Midwest Energy Emissions changed its name to MES, Inc. For accounting purposes, the Merger was treated as a reverse merger and a recapitalization of the Company. See Note 4 for further discussion.

Pursuant to a Certificate of Amendment to our Certificate of Incorporation filed with the State of Delaware and effective as of October 7, 2011, the Company (i) changed its corporate name from “China Youth Media, Inc.” to “Midwest Energy Emissions Corp.”, and (ii) effected a reverse stock split of all the outstanding shares of our common stock at an exchange ratio of one for one hundred ten (1:110) (the “Reverse Stock Split”) and changed the number of our authorized shares of common stock, par value \$.001 per share, from 500,000,000 to 100,000,000.

Midwest Energy Emissions Corp (now known as MES, Inc.)

On December 17, 2008, Midwest Energy Emissions (a corporation in the development stage) was incorporated in the State of North Dakota. Midwest Energy Emissions is engaged in the business of developing and commercializing state of the art control technologies relating to the capture and control of mercury emissions from coal fired boilers in the United States and Canada.

Dissolution of subsidiaries

Pursuant to the terms of the Merger Agreement, during the year ended December 31, 2012 the Company has dissolved the following foreign entities:

- Youth Media (BVI) Ltd.
- Youth Media (Hong Kong) Limited
- Youth Media (Beijing) Limited

The Company is in the process of dissolving Rebel Crew Films, Inc.

The operations and cash flows of these subsidiaries have been eliminated from the accounts of the Company's ongoing operations and major classes of assets and liabilities related thereto have been segregated. The gains and losses from discontinued operations, including the impairment of certain assets of discontinued operations and gains from forgiveness of liabilities, have been reflected in the condensed consolidated financial statements. The Company does not expect to derive any revenues from the discontinued operations in the future and does not expect to incur any significant ongoing operating expenses.

Note 2 – Summary Of Significant Accounting Policies

Basis of Presentation

The accompanying condensed consolidated financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in the United States of America ("GAAP").

Development Stage Company

The Company is considered to be in the development stage as defined by Accounting Standards Codification ("ASC") 915 Development Stage Entities. The Company has devoted substantially all of its efforts to the corporate formation, the raising of capital and attempting to generate customers for the sale of the Company's products.

Use of Estimates

The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments and other short-term investments with maturity of three months or less, when purchased, to be cash equivalents. The Company maintains its operating cash in two accounts with one financial institution, which at times may exceed federally insured limits.

Inventory

Inventories are stated at the lower of cost (first-in, first-out basis) or market (net realizable value).

Property and Equipment

Property and equipment are stated at cost. When retired or otherwise disposed, the related carrying value and accumulated depreciation are removed from the respective accounts and the net difference less any amount realized from disposition, is reflected in earnings. For financial statement purposes, property and equipment are recorded at cost and depreciated using the straight-line method over their estimated useful lives of 3 to 5 years.

Expenditures for repairs and maintenance which do not materially extend the useful lives of property and equipment are charged to operations. Management periodically reviews the carrying value of its property and equipment for impairment.

The Company capitalizes interest cost on borrowings incurred during new construction or upgrade of qualifying assets. Capitalized interest is added to the cost of the underlying assets and is amortized over the useful lives of the assets.

Recoverability of Long-Lived and Intangible Assets

The Company has adopted ASC 360-10, Property, Plant and Equipment (“ASC 360-10”). ASC 360-10 requires that long-lived assets and certain identifiable intangibles held and used by the Company be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Events relating to recoverability may include significant unfavorable changes in business conditions, recurring losses or a forecasted inability to achieve break-even operating results over an extended period. The Company evaluates the recoverability of long-lived assets based upon forecasted undiscounted cash flows. Should impairment in value be indicated, the carrying value of the Long-Lived and or intangible assets would be adjusted, based on estimates of future discounted cash flows. Impairment charges of zero and \$400,000 were recognized for the quarters ended March 31, 2013 and 2012, respectively. Due to the short-term idling of both power plant units at the Company’s commercial customer, the Company evaluated the recoverability of the carrying value of the Company’s equipment at that site. Based on a review of the discounted expected cash flows associated with the value contract with the customer, an impairment charge was recorded during the quarter ended March 31, 2012 against the value of the equipment. ASC 360-10 also requires assets to be disposed of be reported at the lower of the carrying amount or the fair value less costs to sell.

Stock-Based Compensation

The Company accounts for stock-based compensation awards in accordance with the provisions of ASC 718, Compensation—Stock Compensation (“ASC 718”), which requires equity-based compensation, be reflected in the condensed consolidated financial statements over the period of service which is typically the vesting period based on the estimated fair value of the awards.

Fair Value of Financial Instruments

The Company’s financial instruments include cash and cash equivalents, accounts receivable, accounts payable, accrued expenses, advances payable from related parties and debt. The fair value of these financial instruments approximate their carrying values due to their short maturities.

Foreign Currency Transactions

The Company's functional currency is the United States Dollar (the "US Dollar"). Transactions denominated in currencies other than the US Dollar are re-measured to the US Dollar at the period-end exchange rates. Any associated transactional currency re-measurement gains and losses are recognized in current operations.

Revenue Recognition

The Company records revenue from sales in accordance with ASC 605, Revenue Recognition (“ASC 605”). The criteria for recognition are as follows:

1. Persuasive evidence of an arrangement exists;
2. Delivery has occurred or services have been rendered;
3. The seller’s price to the buyer is fixed or determinable; and
4. Collectability is reasonably assured.

Determination of criteria (3) and (4) will be based on management's judgments regarding the fixed nature of the selling prices of the products delivered and the collectability of those amounts. Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments will be provided for in the same period the related sales are recorded.

The Company generated revenues of \$55,446 and \$85,540 for the quarters ended March 31, 2013 and 2012, respectively. The Company generated revenue for the quarters ended March 31, 2013 and 2012, respectively by delivering product to its first commercial customer for use in the system operations. Revenues were curtailed in February 2013 and 2012 as the units were shut down due to reduced load demand and low natural gas prices. The Company anticipates that these units will remain idle until the third quarter 2013.

Income Taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the condensed consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets, including tax loss and credit carryforwards, and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Deferred income tax expense represents the change during the period in the deferred tax assets and deferred tax liabilities. The components of the deferred tax assets and liabilities are individually classified as current and non-current based on their characteristics. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

The recognition, measurement and disclosure of uncertain tax positions recognized in an enterprise's condensed consolidated financial statements is based on a more-likely-than-not recognition threshold. The Company did not have any unrecognized tax benefits at March 31, 2013 or 2012. When necessary, the Company would accrue penalties and interest related to unrecognized tax benefits as a component of income tax expense.

The Company or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction and three state jurisdictions. The Company is no longer subject to U.S. federal examinations for years prior to 2009 or state tax examinations for years prior to 2008. Prior to the reverse merger, the MES, Inc. was taxed as an S corporation and income and losses were passed through to the stockholders.

Basic and Diluted Loss Per Common Share

Basic net loss per common share is computed using the weighted average number of common shares outstanding. Diluted loss per share reflects the potential dilution from common stock equivalents, such as stock issuable pursuant to the exercise of stock options and warrants. There were no dilutive potential common shares as of March 31, 2013, because the Company incurred net losses and basic and diluted loss per common share were the same.

Concentration of Credit Risk

Financial instruments that subject the Company to credit risk consist of cash and equivalents on deposit with financial institutions and accounts receivable. The Company's excess cash as of March 31, 2013 is on deposit in a non-interest-bearing transaction account that is fully covered by FDIC deposit insurance. For the quarters ended March 31, 2013 and 2012, respectively, 100% of the Company's revenues related to one customer.

Contingencies

Certain conditions may exist which may result in a loss to the Company, but which will only be resolved when one or more future events occur or fail to occur. The Company's management assess such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company, or unasserted claims that may result in such proceedings, the Company's legal

counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, the estimated liability would be accrued in the Company's condensed consolidated financial statements. If the assessment indicates that a potentially material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, the nature of the contingent liability, together with an estimate of the range of possible loss if determinable and material, would be disclosed.

Loss contingencies considered remote are generally not disclosed unless they arise from guarantees, in which case the guarantees would be disclosed.

Recently Issued Accounting Standards

In February 2013, the FASB issued ASU No. 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. The update does not change the current requirements for reporting net income or other comprehensive income in financial statements. However, the update requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under U.S. GAAP that provide additional detail about those amounts. The amendments are effective prospectively for reporting periods beginning after December 15, 2012. The adoption of this amendment in the quarter ended March 31, 2013 did not have a material impact on our condensed consolidated financial statements.

Reclassification

Certain amounts in the prior year have been reclassified to conform to the current presentation.

Note 3 – Going Concern

The accompanying condensed consolidated financial statements as of March 31, 2013 have been prepared assuming the Company will continue as a going concern. From the period of inception (December 17, 2008) through March 31, 2013, the Company has experienced a net loss, negative cash flows from operations and has an accumulated deficit of \$14,993,071. These factors raise substantial doubt about the Company's ability to continue as a going concern. The Company intends to raise near term financing to fund future operations through a restricted stock or convertible debt-to-equity offering. The Company intends to raise additional equity or debt financing to fund future operations. There is no assurance that its plan can be implemented; or that the results will be of a sufficient level necessary to meet the Company's ongoing cash needs. No assurances can be given that the Company can obtain sufficient working capital through borrowings or that the continued implementation of its business plan will generate sufficient revenues in the future to sustain ongoing operations.

The accompanying condensed consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that may result from the possible inability of the Company to continue as a going concern.

Note 4 – Property And Equipment, Net

Property and equipment at March 31, 2013 and December 31, 2012 are as follows:

	March 31 2013	December 31 2012
Equipment & Installation	\$717,918	\$717,918
Office equipment	23,941	23,941
Computer equipment	11,985	11,985
Total Equipment	753,844	753,844
Less: accumulated depreciation	452,888	410,260
Property and equipment, net	\$300,956	\$343,584

The Company uses the straight-line method of depreciation over 3 to 10 years. During the year ended December 31, 2011, the Company installed equipment with a total cost of \$1,499,080 at the site of its first commercial customer in Centralia, Washington. This equipment is subject to a bargain purchase option on January 1, 2015 and the Company also bears the cost of asset retirement at the end of the commercial contract should the customer not exercise the purchase option. The Company believes that if required to retire, the scrap value of the equipment would offset the cost of removal. Due to the short-term idling of both power units at the Company's commercial customer, the Company recorded an impairment charge of \$400,000 against the value of the equipment in the quarter ended March 31, 2012. The Company recorded an additional impairment charge of \$400,000 in the quarter ended December 31, 2012 after further review of the expected revenues from the customer prior to the bargain purchase option date of January 1, 2015. During the quarters ended March 31, 2013 and 2012, respectively, depreciation expense charged to operations was \$42,628 and \$131,775.

Note 5 – License Agreement

On January 15, 2009, the Company entered into an "Exclusive Patent and Know-How License Agreement Including Transfer of Ownership" with the Energy and Environmental Research Center Foundation ("EERC"), a non-profit entity. Under the terms of the Agreement, the Company has been granted an exclusive license for the technology to develop, make, have made, use, sell, offer to sell, lease, and import the technology in any coal-fired combustion systems (power plant) worldwide and to develop and perform the technology in any coal-fired power plant in the world. The patent "Sorbents of Oxidation and Removal of Mercury" was filed by EERC on August 22, 2005 and granted on October 14, 2008. In addition, the Company has the same rights to other related patents in Canada, China and Europe.

The Company paid \$100,000 in 2009 for the license to use the patents and at the option of the Company can pay \$1,000,000 for the assignment of the patents after January 15, 2011 or pay the greater of the license maintenance fees or royalties on product sales for continued use of the patents. The license maintenance fees are \$100,000 due January 1, 2010, \$150,000 due January 1, 2011 and \$200,000 due January 1, 2012 and each year thereafter. The running royalties are \$100 per one megawatt of electronic nameplate capacity and \$100 per three megawatt per hour for the application to thermal systems to which licensed products or licensed processes are sold by the Company, associate and sublicensees. Running royalties are payable by the Company within 30 days after the end of each calendar year to the licensor and may be credited against license maintenance fees paid.

The Company is required to pay the licensor 35% of all sublicense income received by the Company, excluding royalties on sales by sublicensees. Sublicense income is payable by the Company within 30 day after the end of each

calendar year to the licensor.

License costs capitalized as of March 31, 2013 and December 31, 2012 are as follows:

	2013	2012
License	\$ 100,000	\$ 100,000
Less: accumulated amortization	25,000	23,529
License, net	\$ 75,000	\$ 76,471

The Company is currently amortizing its patents over their estimated useful life of 17 years when acquired. Amortization expense charged to cost and expenses was \$1,471 during the quarters ended March 31, 2013 and 2012. Estimated amortization for each of the next five years is approximately \$5,900.

Note 6 – Convertible Note Payable of Discontinued Operations

On March 30, 2011, the Company entered into an agreement with an unrelated third party pursuant to which such party agreed to assist the Company to effect a reverse merger or similar transaction with an operating business to be identified as the parties shall mutually agree. Such party agreed to immediately loan the Company the principal amount of \$50,000 which shall be due and payable in one year, bear interest at the rate of 8.0% per annum, and be convertible into shares of common stock of the Company at the rate of \$0.44 per share at the option of such party at any time following an exclusivity period granted to such party and until the maturity date of the loan. Interest expense for the quarters ended March 31, 2013 and 2012, respectively was \$1,000 and \$997.

Note 7 – Notes Payable

On September 13, 2011, the Bank of North Dakota New Venture Capital Program provided a working capital loan to the Company in exchange for a promissory note in the amount of \$125,000. It is a demand note, but if no demand is made, the Company shall make quarterly interest payments beginning December 31, 2011 at a fixed interest rate of 6% and continuing on a quarterly basis until maturity. The loan matures on September 30, 2014. \$75,000 has been advanced on the loan as of March 31, 2013. Interest expense for the quarters ended March 31, 2013 and 2012, respectively was \$1,125 and \$1,138.

On September 13, 2011, the Bank of North Dakota Development Fund, Inc. provided a working capital loan to the Company in exchange for a promissory note in the amount of \$125,000. It is a demand note, but if no demand is made, the Company shall make quarterly interest payments beginning December 31, 2011 at a fixed interest rate of 6% and continuing on a quarterly basis until maturity. The loan matures on September 30, 2014. \$75,000 has been advanced on the loan as of March 31, 2013. Interest expense for the quarters ended March 31, 2013 and 2012, respectively was \$1,125 and \$1,138.

Note 8 – Advances Payable – Related Party

As of March 31, 2013, the Company had advances payable totaling \$951,034, to Richard MacPherson, a director of the Company. These advances bear interest at 9% per annum, have no fixed terms of repayment and are unsecured. Accrued interest on these advances at March 31, 2013 and December 31, 2012 was \$195,497 and \$174,099, respectively. Interest expense for the quarters ended March 31, 2013 and 2012 was \$21,398 and \$21,664, respectively.

Note 9 – Advances Payable-Related Party of Discontinued Operations

As a result of the reverse merger, the Company assumed \$169,894 of advances payable due to Jay Rifkin, a current director who is also a former officer of the Company. These advances bear interest at 9% per annum, have no fixed terms of repayment and are unsecured. Accrued interest on these advances at March 31, 2013 and December 31, 2012 was \$27,493 and \$23,668, respectively. Interest expense for the quarters ended March 31, 2013 and 2012, was \$3,825 and \$3,867, respectively.

Note 10 – Convertible Promissory Notes Payable

From April 26, 2012 to January 24, 2013, the Company sold convertible notes to unaffiliated accredited investors totaling \$2,675,244. The notes have a term of three years, bear interest at 12% per annum, and are convertible into units, where each unit consists of: (i) one share of common stock of the Issuer, par value \$0.001 per share, and (ii) a warrant to purchase 0.25 shares of common stock of the Issuer at an exercise price of \$1.25 per share. The initial conversion ratio shall be equal to \$1.00 per unit. The notes may be converted at any time and from time to time in whole or in part prior to the maturity date thereof. These securities were sold in reliance upon the exemption provided by Section 4(2) of the Securities Act and the safe harbor of Rule 506 under Regulation D promulgated under the Securities Act. On January 1, 2013, \$134,975 of accrued interest was converted to principal by the Company. Accrued interest at March 31, 2013 and interest expense for the quarter ended March 31, 2013 and year ended December 31, 2012 on these notes was \$83,416 and \$134,975, respectively.

Note 11 – Commitments and Contingencies

As discussed in Note 5, the Company has entered in an “Exclusive Patent and Know-How License Agreement Including Transfer of Ownership” that requires minimum license maintenance costs. The Company is planning on using the intellectual property granted by the patents for the foreseeable future. The license agreement is considered expired on the October 14, 2025, the date the patent expires. Future minimum maintenance fee payments are as follows:

Twelve months ended March 31,	
2013	\$ 125,000
2014	200,000
2015	200,000
2016	200,000
2017	200,000
2018	200,000
Thereafter	1,400,000
	\$ 2,525,000

Property Leases

On June 1, 2011, the Company entered into a 36 month lease for warehouse space in Centralia, Washington, commencing August 1, 2011. The lease provides for the option to extend the lease on a month to month basis. Rent is \$1,900 monthly throughout the term of the lease.

On October 18, 2011, the Company entered into a 39-month lease for office space in Worthington, Ohio, commencing November 15, 2011. The lease provides for the option to extend the lease under its current terms for three additional years. Rent is abated for the first three months of the lease. Rent is \$1,933 per month for months four through fifteen, \$1,968 for months 16 through twenty-seven and \$2,002 for months twenty-eight through thirty-nine.

Future minimum lease payments under these non-cancelable leases are approximately as follows:

2014	\$46,447
2015	29,624
	\$76,071

The Company also leases office space in Grand Forks, ND, which has a renewable annual term and requires quarterly rental payments of \$1,259.

Rent expense was approximately \$17,000 and \$13,000 for the quarters ended March 31, 2013 and 2012, respectively.

Fixed Price Contract

The Company's contract with its customer contains a fixed price for product over three years beginning January 1, 2102. This contract exposes the company to the potential risks associated with rising material costs during that same period.

Note 12 – Equity

The Company has two classes of stock, common stock – 100,000,000 shares authorized at a par value of \$0.001 and preferred stock – 2,000,000 shares authorized at a par value of \$0.001.

Note 13 – Stock Based Compensation

Effective July 20, 2005, the Board of Directors of the Company approved the 2005 Stock Option and Restricted Stock Plan (the “2005 Plan”). The 2005 Plan reserves 15,000,000 (approximately 136,364 post Reverse Stock Split) shares of common stock for grants of incentive stock options, nonqualified stock options, warrants and restricted stock awards to employees, non-employee directors and consultants performing services for the Company. Options and warrants granted under the 2005 Plan have an exercise price equal to or greater than the fair market value of the underlying common stock at the date of grant and become exercisable based on a vesting schedule determined at the date of grant. The options expire 10 years from the date of grant whereas warrants generally expire 5 years from the date of grant. Restricted stock awards granted under the 2005 Plan are subject to a vesting period determined at the date of grant.

On May 6, 2009, the Board of Directors adopted, subject to stockholder approval, which was obtained at the annual stockholders meeting held on June 19, 2009, an amendment to the 2005 Plan that increased the number of shares subject to the Stock Plan from 15,000,000 shares to 50,000,000. The total number of shares subject to the Stock Plan was revised to 454,545 shares by the Reverse Stock Split.

The Company accounts for stock-based compensation awards in accordance with the provisions of ASC 718, which addresses the accounting for employee stock options which requires that the cost of all employee stock options, as well as other equity-based compensation arrangements, be reflected in the condensed consolidated financial statements over the vesting period based on the estimated fair value of the awards.

A summary of stock option activity for the quarter ended March 31, 2013 is presented below:

	Outstanding Options				
	Shares Available for Grant	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (years)	Aggregate Intrinsic Value
December 31, 2012	169,087	285,458	14.44	6.3	-
Grants	-	-	-	-	-
Cancellations	-	-	-	-	-
March 31, 2013	169,087	285,458	14.44	6.1	-
Options exercisable at:					
December 31, 2012		285,458	14.44	6.3	
March 31, 2013		285,458	14.44	6.1	

The Company utilized a Black-Scholes options pricing model.

On March 16, 2011, Midwest Energy Emissions issued 50 shares to a consultant for a value of \$125,000. The shares were valued at \$2,500 per share upon Midwest Energy Emissions' then most recently completed equity financing transactions. These shares were converted into Series B Convertible Preferred Stock upon completion of the Merger on June 21, 2011.

In connection with the transactions contemplated by the Merger Agreement, and pursuant to Midwest Energy Emissions' obligations under a Business Consulting Agreement dated March 18, 2011, on July 6, 2011, the Company issued 45,455 shares of our common stock to Eastern Sky, LLC as compensation for consulting services rendered in connection with the transaction. The shares were valued at \$77,500.

On July 6, 2011, the Company issued 18,258 shares of our common stock to The Lebrecht Group, APLC as compensation for legal services rendered in connection with the Merger Agreement. The shares were valued at \$31,130.

On January 2, 2013, the Company issued Jana Stover 68,468 shares to settle accrued consulting services performed in 2011. Compensation of \$106,125 was recognized in 2011 related to the services performed.

Effective as of June 29, 2012 the Company and Ken Rifkin entered into a Consulting Agreement. Ken Rifkin is the brother of Jay Rifkin, a company director. With Mr. Rifkin's performance of consulting services over a three month period ending on September 29, 2012 the Company will issue to Mr. Rifkin 100,000 shares of the Company's unregistered common shares after January 1, 2013, upon receipt of the appropriate stock grant agreement from Mr. Rifkin, as compensation for his service pursuant to the agreement. Compensation of \$135,000 was recognized in 2012 related to this agreement and the shares were issued on March 5, 2013.

On July 1, 2012, the Company and R. Alan Kelley entered into an amended employment agreement (the “New Kelley Employment Agreement”) that replaced and terminated the then existing employment agreement between Mr. Kelley and the Company, dated November 1, 2011. Pursuant to the terminated employment agreement, Mr. Kelley was to receive 500,000 unvested shares of common stock as a signing bonus. These shares were to have vested on November 1, 2012 and are valued at \$525,000 in accordance with FASB ASC Topic 718. Under the New Kelley Employment Agreement, the Company will issue to Mr. Kelley 650,000 shares of common stock upon the earlier of a change in control of the Company or January 1, 2014 (the “Stock Grant”) provided that Mr. Kelley remains an employee of the Company on January 1, 2014. In addition, the Company will make the Stock Grant to Mr. Kelley if his employment is terminated without cause, if he resigns for good reason, or on his death or disability. The Stock Grant is valued at \$1,300,000 in accordance with FASB ASC Topic 718, and the difference from the previous valuation will be amortized from the date of the agreement through grant date. Compensation expense for the quarter ended March 31, 2013 and year ended December 31, 2012 on the New Kelley Employment Agreement was \$129,000 and \$258,000, respectively.

On July 1, 2012, the Company and Johnny F. Norris, Jr. entered into an amended employment agreement (the “New Norris Employment Agreement”) that replaced and terminated the then existing employment agreement between Mr. Norris and the Company, dated October 17, 2011. Pursuant to the terminated employment agreement, Mr. Norris was to receive 1,500,000 unvested shares of common stock as a signing bonus. These shares were to have vested 1/3 on October 1, 2012, 1/3 on October 1, 2013 and 1/3 on October 1, 2014 and are valued at \$2,805,300 in accordance with FASB ASC Topic 718. Under the New Norris Employment Agreement, the Company will issue to Mr. Norris 1,500,000 shares of common stock upon the earlier of a change in control of the Company or January 1, 2014 (the “Stock Grant”) provided that Mr. Norris remains an employee of the Company on January 1, 2014. In addition, the Company will make the Stock Grant to Mr. Norris if his employment is terminated without cause, if he resigns for good reason, or on his death or disability. The Stock Grant is valued at \$3,000,000 in accordance with FASB ASC Topic 718, and the difference from the previous valuation will be amortized from the date of the agreement through grant date. Compensation expense for the quarter ended March 31, 2013 and year ended December 31, 2012 on the New Norris Employment Agreement was \$ 32,000 and \$65,000, respectively.

On July 1, 2012, the Company and Richard H. Gross entered into an amended employment agreement (the “New Gross Employment Agreement”) that replaced and terminated the then existing employment agreement between Mr. Gross and the Company, dated September 19, 2011. Pursuant to the terminated employment agreement, Mr. Gross was to receive 50,000 unvested shares of common stock as a signing bonus. These shares were to have vested on October 10, 2012 and are valued at \$93,500 in accordance with FASB ASC Topic 718. Under the New Gross Employment Agreement, the Company will issue to Mr. Gross 100,000 shares of common stock upon the earlier of a change in control of the Company or January 1, 2014 (the “Stock Grant”) provided that Mr. Gross remains an employee of the Company on January 1, 2014. In addition, the Company will make the Stock Grant to Mr. Gross if his employment is terminated without cause, if he resigns for good reason, or on his death or disability. The Stock Grant is valued at \$200,000 in accordance with FASB ASC Topic 718, and the difference from the previous valuation will be amortized from the date of the agreement through grant date. Compensation expense for the quarter ended March 31, 2013 and year ended December 31, 2012 on the New Gross Employment Agreement was \$18,000 and \$36,000, respectively.

On March 1, 2013, the Company and Marc Sylvester entered into an amended employment agreement (the “New Sylvester Employment Agreement”) that replaced and terminated the then existing employment agreement between Mr. Sylvester and the Company, dated July 25, 2011. Under the New Sylvester Employment Agreement, the Company will issue to Mr. Sylvester 250,000 shares of common stock upon the earlier of a change in control of the Company or January 1, 2014 (the “Stock Grant”) provided that Mr. Sylvester remains an employee of the Company on January 1, 2014. In addition, the Company will make the Stock Grant to Mr. Sylvester if his employment is terminated without cause, if he resigns for good reason, or on his death or disability. The Stock Grant is valued at \$100,000 in accordance with FASB ASC Topic 718. Compensation expense for the quarter ended March 31, 2013 on the New

Sylvester Employment Agreement was \$10,000.

On March 7, 2013, the Company and Lytham Partners entered into a representation agreement. The agreement has a twelve month term and is cancelable after September 30, 2013. The Company will issue Lytham Partners 25,000 common shares per month for each month of the agreement. Compensation expense for the quarter ended March 31, 2013 was \$11,000 and the 50,000 shares were issued on May 7, 2013.

Note 14 – Warrants

As a result of the reverse merger, the Company has warrants outstanding from September 2008, in which China Youth Media, Inc. entered into subscription agreements with Year of the Golden Pig, LLC and with Mojo Music, Inc., in which the Company issued an aggregate of 4 Units, with each Unit consisting of a \$100,000 principal amount of a 12% Convertible Promissory Note due three years from its issuance and 3,182 Common Stock Purchase Warrants outside of its 2005 Plan, with each Warrant entitling the holder thereof to purchase at any time beginning from the date of issuance through five years thereafter one share of Common Stock at a price of \$9.90 per share. These notes were settled in connection with the Merger.

On May 11, 2009, the Company granted a consultant, as consideration for services on behalf of the Company, a vested warrant with a term of 7 seven years to purchase 11,364 shares of common stock with an exercise price of \$3.30 per share. The issuance of this warrant was exempt from registration requirements pursuant to Section 4(2) of the Securities Act of 1933, as amended.

On October 24, 2011, the Company granted Global Maxfin Capital Inc. (“Global”), as consideration for fund raising services on behalf of the Company, a vested warrant with a term of five years to purchase 24,000 shares of common stock with an exercise price of \$1.00 per share. The issuance of this warrant was exempt from registration requirements pursuant to Section 4(2) of the Securities Act of 1933, as amended. Using a Black-Sholes Valuation model these warrants had a value of \$18,139 which was recorded as syndication costs and deducted from the proceeds of the funds raised by Global.

The following table summarizes information about common stock warrants outstanding at March 31, 2013:

Exercise Price	Outstanding			Exercisable	
	Number Outstanding	Weighted Average Remaining Contractual Life (years)	Weighted Average Exercise Price	Number Exercisable	Weighted Average Exercise Price
\$9.90	7,955	0.41	\$9.90	7,955	\$9.90
9.90	4,773	0.50	9.90	4,773	9.90
3.30	11,364	3.12	3.30	11,364	3.30
1.00	24,000	3.57	1.00	24,000	1.00
1.00 - \$9.90	48,092	2.64		48,092	

Note 15 – Tax

For the quarter ended March 31, 2013, the Company had a net operating loss carryforward offset by a valuation allowance and, accordingly, no provision for income taxes has been recorded. In addition, no benefit for income taxes has been recorded due to the uncertainty of the realization of any tax assets. At March 31, 2013, the Company’s net operating loss carryforward was approximately \$16,851,000. Our deferred tax asset primarily related to accrued compensation and net operating losses. A 100% valuation allowance has been established due to the uncertainty of the utilization of these assets in future periods. As a result, the deferred tax asset was reduced to zero and no income tax benefit was recorded. The net operating loss carryforward, if not utilized, will begin to expire in 2025.

Section 382 of the Internal Code allows post-change corporations to use pre-change net operating losses, but limit the amount of losses that may be used annually to a percentage of the entity value of the corporation at the date of the

ownership change. The applicable percentage is the federal long-term tax-exempt rate for the month during which the change in ownership occurs.

Note 16 – Discontinued Operations

Pursuant to the Merger Agreement, on June 21, 2011, the Company ceased operations of the following entities: Youth Media (BVI) Limited, Youth Media (Hong Kong) Limited, Youth Media (Beijing) Limited and Rebel Crew Films, Inc. Accordingly, the results of operations of these entities are reported as losses from discontinued operations in the condensed consolidated statements of operations.

Results for discontinued operations for the quarters ended March 31, 2013 and 2012 are as follows:

	2013	2012
China Youth Media, Inc.	\$ -	\$ 997
Youth Media (Hong Kong)	-	-
Youth Media (Beijing)	-	81
Net loss from discontinued operations	\$ -	\$ 1,078

Assets and liabilities of discontinued operations were comprised of the following at March 31, 2013 and December 31, 2012:

	2013	2012
Accounts payable and accrued expenses	\$ 262,032	\$ 262,032
Related party note payable	169,984	169,984
Convertible note payable	50,000	50,000
Total liabilities	\$ 482,016	\$ 482,016

Note 17 – Subsequent Events

From April 1 through May 14, 2013, the Company sold convertible notes to unaffiliated accredited investors totaling \$405,000. The notes are convertible into units, where each unit consists of: (i) 1 share of common stock of the Issuer, par value \$0.001 per share, and (ii) a warrant to purchase 0.25 shares of common stock of the Issuer at an exercise price of \$0.75 per share. The initial conversion ratio shall be equal to \$0.50 per unit. The notes may be converted at any time and from time to time in whole or in part prior to the maturity date thereof. These securities were sold in reliance upon the exemption provided by Section 4(2) of the Securities Act and the safe harbor of Rule 506 under Regulation D promulgated under the Securities Act.

On May 1, 2013, the Company entered into a letter agreement with ViewTrade Securities Inc. (“ViewTrade”) to act as the Company’s exclusive placement agent in connection with a proposed private placement of equity, debt or equity-linked securities of the Company (“Securities”) as such offering may be amended by the Board of Directors of the Company (the “Private Placement”). The terms of the Securities to be issued pursuant to the Private Placement are to be agreed to by and between the Company and ViewTrade with one or more accredited investors. The gross proceeds of the Private Placement are currently contemplated to be up to six million dollars. Under the agreement, which will remain in effect until November 20, 2013, the Company agreed to pay ViewTrade a non-refundable retainer of \$35,000, and cash commissions and fees totaling 13 percent of the gross proceeds raised in the Private Placement. The Company must also reimburse ViewTrade for out-of-pocket expenses incurred by ViewTrade in connection with the Private Placement. The Company also agreed to issue cashless warrants with an exercise period of five years to ViewTrade entitling ViewTrade to acquire an amount equal to 15% of value of the securities sold under the same terms as the Private Placement. In addition, pursuant to an agreement dated as of March 20, 2013, by and among the Company, John Simonelli and Larry Howell, upon the closing of the Private Placement, the Company is required to issue to each of Mr. Simonelli and Mr. Howell, warrants to purchase 500,000 of the Securities issued in the Private Placement, under the same terms as issued to ViewTrade under the agreement. In the event there is a minimum of four

million dollars raised in the Private Placement, the agreement contains an obligation by the Company to grant to ViewTrade the right of participation to act as the lead manager or lead placement agent or co-manager or co-placement agent with a minimum of 50% of the economics with respect to any future public or private sale of any securities of the Company or any of its subsidiaries. The agreement contains customary provisions for agreements of its type, including indemnity obligations on the part of the Company. The Company also agreed to pay \$75,000 if the Company cancels the agreement under certain conditions.

ITEM 2– MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Background

We are a Development Stage Company that develops and employs patented and proprietary technologies to remove mercury from coal-fired power plant air emissions. The U.S. EPA MATS rule requires that all coal and oil-fired power plants in the U.S., larger than 25MWs, must limit mercury in its emissions to below certain specified levels, according to the type of coal burned and the plant design. In general, MATS requires EGUs to remove about 90% of the mercury from their emissions. Our technology has been shown to be able to achieve mercury removal levels compliant with MATS and at a lower cost and plant impact than the most widely used approach of PAC or BAC injection. As is typical in this market, we are paid by the EGU based on how much of our material is injected to achieve the needed level of mercury removal. Our current client pays and we expect future clients will pay us periodically (monthly or as material is delivered) based on their actual use of our injected material. Clients will use our material whenever their EGUs operate, but they do not operate all the time. EGUs typically are not operated due to maintenance reasons or when the price of power in the market is less than their cost to produce that power. Thus, our revenues from EGU clients will not typically be a consistent stream but will fluctuate, especially seasonally as the market demand for power fluctuates.

Results of Operations

The first quarter of 2013 found the mercury emissions control market behaving much as we expected, with utilities scheduling demonstrations of technologies to find the most cost effective solution for their plant design and coal combinations. Through April of 2013 we have announced five demonstration projects contracted with us to be conducted primarily in the second quarter. We expect more demonstrations to be contracted and performed later this year. We further expect to be successful in these demonstrations and we anticipate long-term supply contracts to eventually be negotiated and signed as a result. For most such contracts we would typically anticipate three year renewable agreements for injections of our mercury emission control materials beginning in 2015 to comply with MATS. Some power plants have state mercury emission limits they must meet now, before all plants must comply with MATS in 2015, and successful demonstrations which lead to supply contracts with such units could provide operating revenues for MEEC in 2013 and 2014. At least one of our currently contracted demonstrations falls into that category.

Revenues in the first quarter of 2013 from our two large customer units were below our expectations because one of the units shut down in February for a long maintenance outage and because our technology was able to achieve their current state mercury emissions limit (approximately 50% removal) using even less of our sorbent material than we had anticipated. The units will be down most of the second quarter but should return to service in the third quarter. In 2015, these units will have to meet the much higher EPA MATS rule limits and we expect revenues to be more typical of large units achieving about 90% removal to meet MATS.

Revenues

Sales - We generated revenues of \$55,000 and \$86,000 for the quarters ended March 31, 2013 and 2012, respectively. The Company generated revenue for both quarters by delivering product to our first commercial customer for use in their system operations. The plant owner has recently idled both units for annual maintenance outages and management believes both units will return to operation this summer. We do not anticipate significant revenue from these units before the third quarter of this year.

Cost and Expenses

Costs and expenses were \$1,048,000 and \$1,187,000 during the quarters ended March 31, 2013 and 2012, respectively. The decrease in costs and expenses from the same period in the prior year is primarily attributable the impairment of fixed assets charge discussed below. This decrease is offset primary by an increase in selling, general and administrative expenses in the quarter ended March 31, 2013.

Cost of goods sold during the quarters ended March 31, 2013 and 2012 was \$28,000 and \$67,000, respectively. The costs in both quarters was for product sold to our first commercial customer.

Operating expenses during the quarters ended March 31, 2013 and 2012, respectively were \$29,000 and \$12,000. These expenses are related to the Company's first commercial customer. .

License Maintenance Fees were \$50,000 and \$50,000 for the quarters ended March 31, 2013 and 2012, respectively. The expenses relate to the amortization of the annual maintenance fee for the respective year.

Marketing and development expenses were \$90,000 and \$63,000 for the quarters ended March 31, 2013 and 2012, respectively. The increase in marketing and development expenses during 2013 is primarily attributed to increased technical services related to customer bidding projects and upcoming customer demonstrations.

Selling, general and administrative expenses were \$631,000 and \$448,000 for the quarters ended March 31, 2013 and 2012, respectively. The increase in selling, general and administrative expenses during 2013 is primarily attributed to the amortization of the Company's commitment to grant employee stock on January 1, 2014, if employees meet their contractual obligations.

Professional fee expenses were \$219,000 and \$146,000 for the quarters ended March 31, 2013 and 2012, respectively. The increase in professional fee expenses is primarily attributed to our increase fees associated with the use and defense of our intellectual property rights.

Impairment of fixed assets were zero and \$400,000 for the quarters ended March 31, 2013 and 2012, respectively. Due to the short-term idling of both power units at the Company's commercial customer, the Company recorded an impairment charge against the value of the equipment during the quarter ended March 31, 2012.

Net Loss

For the quarters ended March 31, 2013 and 2012 we had a net loss from operations of approximately \$1,116,000 and \$1,131,000, respectively. The Company incurred an impairment charge on equipment of \$400,000 recorded in the quarter ended March 31, 2012 Offsetting this decrease from the prior year were increased costs associated with employee stock grant, increased costs associated with intellectual property and increased interest expense associated with increased debt from the prior year.

Other Expense

Given our financial constraints and our reliance on financing activities, interest expense related to the financing of capital was \$123,000 and \$28,000 during the quarters ended March 31, 2013 and 2012, respectively.

Taxes

As of March 31, 2013, our deferred tax asset primarily related to accrued compensation and net operating losses. A 100% valuation allowance has been established due to the uncertainty of the utilization of these assets in future periods. As a result, the deferred tax asset was reduced to zero and no income tax benefit was recorded. The net operating loss carryforward will begin to expire in 2025.

Section 382 of the Internal Code allows post-change corporations to use pre-change net operating losses, but limit the amount of losses that may be used annually to a percentage of the entity value of the corporation at the date of the ownership change. The applicable percentage is the federal long-term tax-exempt rate for the month during which the change in ownership occurs.

Liquidity and Capital Resources

Our principal sources of liquidity have been cash generated from financing activities. As of March 31, 2013 and December 31, 2012, our cash and cash equivalents were \$69,000 and \$189,000, respectively. We had a working capital deficit of approximately \$2.4 million at March 31, 2013 and \$1.8 million at December 31, 2012 and we continue to have recurring losses. Our anticipated cash needs for working capital and capital expenditures for at least the next twelve months is approximately \$3 million. In the past, we have primarily relied upon financing activities and loans from related parties to fund our operations. No assurances can be given that the Company can obtain sufficient working capital through financing activities, borrowings or that the continued implementation of its business plan will generate sufficient revenues in the future to sustain ongoing operations. Success in our fund raising efforts is crucial. We are actively seeking sources of additional financing in order to maintain and expand our operations and to fund our debt repayment obligations. Due to these efforts, we could dilute current shareholders and the dilution could be significant. Even if we are able to obtain funding, there can be no assurance that a sufficient level of sales will be attained to fund such operations or that unbudgeted costs will not be incurred. Our current cash flow needs for general overhead, sales and operations is approximately \$250,000 per month with additional funds often needed for demonstrations of our technology on potential customer units. With our expected gross margins on customer contracts, we anticipate we will be at break-even on a cash flow basis when our revenues reach approximately \$12 million annually. This break-even target is subject to achieving sales at that level with our expected gross margins, no assurance can be made that we will be able to achieve this target.

On March 1, 2013, the Company entered into an agreement with Bedminster Financial Group, Ltd. (“Bedminster”), as its non-exclusive agent to find one or more prospective investors in the Company’s securities and/or prospective mergers, acquirers, acquisitions or other capital transaction opportunities. The Company agreed to pay Bedminster a cash fee equal to seven percent (7%) of the purchase price paid by an investor for the securities value of each successful transaction, except that the cash fees shall be five percent (5%) for any portion of the transaction which is straight debt with no equity conversion rights, warrants or other equity-like components, or four percent (4%) for any portion of the transaction which is purchased with existing securities of the Company by the investor. The Company also agreed to issue Bedminster cashless warrants equal to seven percent (7%) of the purchase price paid by an investor for the securities value of each successful transaction, except that the cash fees shall be five percent (5%) for any portion of the transaction which is straight debt with no equity conversion rights, warrants or other equity-like components, or four percent (4%) for any portion of the transaction which is purchased with existing securities of the Company by the investor. In the event there is a minimum of five million dollars raised by Bedminster, the agreement contains an obligation by the Company to retain Bedminster as agent under the agreement for the next potential transaction.

On May 1, 2013, the Company entered into a letter agreement with ViewTrade Securities Inc. (“ViewTrade”) to act as the Company’s exclusive placement agent in connection with a proposed private placement of equity, debt or equity-linked securities of the Company (“Securities”) as such offering may be amended by the Board of Directors of the Company (the “Private Placement”). The terms of the Securities to be issued pursuant to the Private Placement are to be agreed to by and between the Company and ViewTrade with one or more accredited investors. The gross proceeds of the Private Placement are currently contemplated to be up to six million dollars. Under the agreement, which will remain in effect until November 20, 2013, the Company agreed to pay ViewTrade a non-refundable retainer of \$35,000, and cash commissions and fees totaling 13 percent of the gross proceeds raised in the Private Placement. The Company must also reimburse ViewTrade for out-of-pocket expenses incurred by ViewTrade in connection with the Private Placement. The Company also agreed to issue cashless warrants with an exercise period of five years to ViewTrade entitling ViewTrade to acquire an amount equal to 15% of value of the securities sold under the same terms as the Private Placement. In addition, pursuant to an agreement dated as of March 20, 2013, by and among the Company, John Simonelli and Larry Howell, upon the closing of the Private Placement, the Company is required to issue to each of Mr. Simonelli and Mr. Howell, warrants to purchase 500,000 of the Securities issued in the Private Placement, under the same terms as issued to ViewTrade under the agreement. In the event there is a minimum of four million dollars raised in the Private Placement, the agreement contains an obligation by the Company to grant to ViewTrade the right of participation to act as the lead manager or lead placement agent or co-manager or co-placement agent with a minimum of 50% of the economics with respect to any future public or private sale of any securities of the Company or any of its subsidiaries. The agreement contains customary provisions for agreements of its type, including indemnity obligations on the part of the Company. The Company also agreed to pay \$75,000 if the Company cancels the agreement under certain conditions.

Total assets were \$713,000 at March 31, 2013 versus \$1.2 million at December 31, 2012. The change in total assets is primarily due to the decrease in cash on hand, the collection of accounts receivable balances due, and the depreciation on fixed assets.

Operating activities used \$225,000 of cash during the quarter ended March 31, 2013 compared to \$311,000 during the quarter ended March 31, 2012. The decrease from the prior year is primarily attributable to the increase in operating liabilities as the Company conserved cash due to decreased financing activities during the quarter.

Investing activities used no cash during the quarters ended March 31, 2013 and 2012, respectively.

Financing activities provided \$105,000 during the quarter ended March 31, 2013 primarily due to proceeds from the issuance of convertible promissory notes compared to net cash provided by financing activities of \$214,000 during the quarter ended March 31, 2012 primarily due to proceeds from the issuance of stock.

Off-Balance Sheet Arrangements

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our consolidated financial condition, revenues, results of operations, liquidity or capital expenditures.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial conditions and results of operation are based upon the accompanying consolidated financial statements which have been prepared in accordance with the generally accepted accounting principles in the U.S. The preparation of the consolidated financial statements requires that we make estimates and assumptions that affect the amounts reported in assets, liabilities, revenues and expenses. Management evaluates on an on-going basis our estimates with respect to the valuation allowances for accounts receivable, income taxes, accrued expenses and equity instrument valuation, for example. We base these estimates on various assumptions and

experience that we believe to be reasonable. The following critical accounting policies are those that are important to the presentation of our financial condition and results of operations. These policies require management's most difficult, complex, or subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain.

The following critical accounting policies affect our more significant estimates used in the preparation of our consolidated financial statements. In particular, our most critical accounting policies relate to the recognition of revenue, valuation of goodwill, and the valuation of our stock-based compensation.

Revenue Recognition

The Company records revenue from sales in accordance with ASC 605, Revenue Recognition (“ASC 605”). The criteria for recognition are as follows:

1. Persuasive evidence of an arrangement exists;
2. Delivery has occurred or services have been rendered;
3. The seller’s price to the buyer is fixed or determinable; and
4. Collectability is reasonably assured.

Determination of criteria (3) and (4) will be based on management’s judgments regarding the fixed nature of the selling prices of the products delivered and the collectability of those amounts. Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments will be provided for in the same period the related sales are recorded.

Stock-Based Compensation

We have adopted the provisions of Share-Based Payment, which requires that share-based payments be reflected as an expense based upon the grant-date fair value of those grants. Accordingly, the fair value of each option grant, non-vested stock award and shares issued under our employee stock purchase plan, were estimated on the date of grant. We estimate the fair value of these grants using the Black-Scholes model which requires us to make certain estimates in the assumptions used in this model, including the expected term the award will be held, the volatility of the underlying common stock, the discount rate, dividends and the forfeiture rate. The expected term represents the period of time that grants and awards are expected to be outstanding. Expected volatilities were based on historical volatility of our stock. The risk-free interest rate approximates the U.S. treasury rate corresponding to the expected term of the option. Dividends were assumed to be zero. Forfeiture estimates are based on historical data. These inputs are based on our assumptions, which we believe to be reasonable but that include complex and subjective variables. Other reasonable assumptions could result in different fair values for our stock-based awards. Stock-based compensation expense, as determined using the Black-Scholes option-pricing model, is recognized on a straight-line basis over the service period, net of estimated forfeitures. To the extent that actual results or revised estimates differ from the estimates used, those amounts will be recorded as a cumulative adjustment in the period that estimates are revised.

ITEM 3 – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 4 – CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including the principal executive officer (“PEO”) and principal financial officer (“PFO”), we have evaluated the effectiveness, the design and operations of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Exchange Act) as of the end of the period covered by this report. Based on that evaluation, the PEO and the PFO determined that as of March 31, 2013, the Company’s disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There have been no changes in the Company’s internal control over financial reporting during the quarter ended March 31, 2013 that have materially affected or are reasonably likely to materially affect the Company’s internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1 – LEGAL PROCEEDINGS

MEEC is not currently involved in any litigation.

ITEM 1a – RISK FACTORS

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 2 – UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the quarter ended March 31, 2103, the Company sold convertible notes to unaffiliated accredited investors totaling \$105,045. The notes are convertible into units, where each unit consists of: (i) one share of common stock of the Issuer, par value \$0.001 per share, and (ii) a warrant to purchase 0.25 shares of common stock of the Issuer at an exercise price of \$1.25 per share. The initial conversion ratio shall be equal to \$1.00 per unit. The notes may be converted at any time and from time to time in whole or in part prior to the maturity date thereof. These securities were sold in reliance upon the exemption provided by Section 4(2) of the Securities Act and the safe harbor of Rule 506 under Regulation D promulgated under the Securities Act. No advertising or general solicitation was employed in offering the securities, the sales were made to a limited number of persons, all of whom represented to the Company that they are accredited investors, and transfer of the securities is restricted in accordance with the requirements of the Securities Act.

ITEM 3 – DEFAULT UPON SENIOR SECURITIES

Not applicable.

ITEM 4 – MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5 – OTHER INFORMATION

Not applicable

ITEM 6 – EXHIBITS
