MONMOUTH REAL ESTATE INVESTMENT CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

JUNE 30, 2016

NOTE 1 – ORGANIZATION AND ACCOUNTING POLICIES

Monmouth Real Estate Investment Corporation, a Maryland corporation, together with its consolidated subsidiaries (MREIC, the Company, or we), operates as a real estate investment trust (REIT) deriving its income primarily from real estate rental operations. As of June 30, 2016, the Company owned ninety-seven properties with total square footage of approximately 15,124,000, as compared to ninety-one properties with total square footage of approximately 13,919,000 as of September 30, 2015. These properties are located in thirty states: Alabama, Arizona, Colorado, Connecticut, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, Washington and Wisconsin. The Company also owns a portfolio of REIT investment securities which the Company generally limits to no more than approximately 10% of its undepreciated assets.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in several of the states in which the Company owns property.

The interim Consolidated Financial Statements furnished herein have been prepared in accordance with Accounting Principles Generally Accepted in the United States of America (U.S. GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended June 30, 2016 are not necessarily indicative of the results that may be expected for the year ending September 30, 2016. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in the Company's annual report on Form 10-K for the fiscal year ended September 30, 2015.

Use of Estimates

In preparing the financial statements in accordance with U.S. GAAP, management is required to make certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods and related disclosure of contingent assets and liabilities. Actual results could differ from these estimates and assumptions.

Reclassification

Certain prior period amounts in the accompanying Consolidated Financial Statements have been reclassified to conform to the current period's presentation.

Lease Termination Income

Lease Termination Income is recognized in operating revenues when there is a signed termination agreement, all of the conditions of the agreement have been met, the tenant is no longer occupying the property and the termination consideration is probable of collection. Lease termination amounts are paid by tenants who want to terminate their lease obligations before the end of the contractual term of the lease by agreement with the Company.

Table Of Contents

Of the Company's ninety-seven properties, only three leases contain an early termination provision, which are as follows: the Company's lease with its tenant at its 26,340 square foot location in Ridgeland (Jackson), MS, the Company's lease with its tenant at its 83,000 square foot location in Roanoke, VA and the Company's lease with its tenant at its 102,135 square foot location in O'Fallon (St. Louis), MO.

Stock Compensation Plan

The Company has a Stock Option and Stock Award Plan, adopted in 2007 and amended and restated in 2010 (the 2007 Plan), authorizing the grant to officers and key employees of options to purchase up to 1,500,000 shares of common stock, including up to 100,000 shares of restricted stock awarded to any one participant in any one fiscal year.

The Company accounts for awards of stock options and restricted stock in accordance with ASC 718-10, "Compensation-Stock Compensation". ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the grant date. The amortization of compensation costs for stock option grants and restricted stock are included in General and Administrative Expenses in the accompanying Consolidated Statements of Income and amounted to \$99,760 and \$96,673 for the three months ended June 30, 2016 and 2015, respectively and amounted to \$306,688 and \$283,578 for the nine months ended June 30, 2016 and 2015, respectively.

During the nine months ended June 30, 2016 and 2015, the following stock options were granted under the Company's 2007 Plan:

Date of Grant	Number of Employees	Number of Shares	Option Price	Expiration Date
1/5/16	1	65,000	\$ 10.37	1/5/24
1/5/15	1	65,000	\$ 11.16	1/5/23

Edgar Filing: MONMOUTH REAL ESTATE INVESTMENT CORP - Form 10-Q

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following assumptions used for grants in the fiscal year indicated:

	Fiscal 2016	Fiscal 2015
Dividend yield	6.17 %	5.38 %
Expected volatility	20.20%	19.78 %
Risk-free interest rate	2.09 %	1.97 %
Expected lives (years)	8	8
Estimated forfeitures	-0-	-0-

The fair value of each option granted during the nine months ended June 30, 2016 and 2015 was \$0.74 and \$0.93, respectively.

During the nine months ended June 30, 2016, no shares of restricted stock were granted and one participant forfeited 3,232 shares of restricted stock under the Company's 2007 Plan. During the nine months ended June 30, 2016, five participants exercised options to purchase an aggregate of 180,000 shares of common stock at a weighted average exercise price of \$7.84 per share for total proceeds of \$1,412,050. Recent Accounting Pronouncements

In March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-09, “Compensation – Stock Compensation: Improvements to Employee Share-Based Payment Accounting”, which relates to the accounting for employee share-based payments. ASU 2016-09 addresses several aspects of the accounting for share-based payment award transactions, including: (a) income tax consequences; (b) classification of awards as either equity or liabilities; and (c) classification on the statement of cash flows. This standard will be effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the timing of adoption.

In February 2016, the FASB issued ASU 2016-02, “Leases”. ASU 2016-02 amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. The standard requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. ASU 2016-02 will be effective for annual reporting periods beginning after December 15, 2018. Early adoption is permitted. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the timing of adoption.

In January 2016, the FASB issued ASU 2016-01, “Financial Instruments - Overall: Recognition and Measurement of Financial Assets and Financial Liabilities”. ASU 2016-01 requires equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income, requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes, requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset, and eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost. These changes become effective for the Company’s fiscal year beginning October 1, 2018. The Company is currently in the process of evaluating the impact of the adoption on its consolidated financial statements and has not determined the effects of this update on the Company’s financial position, results of operations or cash flows and disclosures at this time.

In September 2015, the FASB issued ASU 2015-16, “Simplifying the Accounting for Measurement-Period Adjustments”. ASU 2015-16 eliminates the requirement to restate prior period financial statements for measurement period adjustments. The new guidance requires that the cumulative impact of a measurement period adjustment (including the impact on prior periods) be recognized in the reporting period in which the adjustment is identified. ASU 2015-16 is effective for interim and annual periods beginning after December 15, 2015. Early adoption is

permitted. The Company does not expect the adoption of ASU 2015-16 to have a material effect on the Company's consolidated financial statements.

In April 2015, the FASB issued ASU 2015-03, "Interest - Imputation of Interest (Topic 835): Simplifying the Presentation of Debt Issuance Costs". ASU 2015-03 require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this update. The amendments in ASU 2015-03 are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. In August 2015, the FASB issued ASU 2015-15, "Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements", providing guidance regarding the presentation and subsequent measurement of debt issuance costs related to line-of-credit arrangements. Given the absence of authoritative guidance on this matter, the SEC staff would not object to an entity deferring and presenting debt issuance costs as an asset and subsequently amortizing the deferred debt issuance costs ratably over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on that line-of-credit arrangement. The Company is currently in the process of evaluating the impact the adoption of ASU 2015-03 and ASU 2015-15 will have on the Company's financial position or results of operations.

Table Of Contents

In February 2015, the FASB issued ASU 2015-02, “Consolidation (Topic 810): Amendments to the Consolidation Analysis”. ASU 2015-02 focuses to minimize situations under previously existing guidance in which a reporting entity was required to consolidate another legal entity in which that reporting entity did not have: (1) the ability through contractual rights to act primarily on its own behalf; (2) ownership of the majority of the legal entity’s voting rights; or (3) the exposure to a majority of the legal entity’s economic benefits. ASU 2015-02 affects reporting entities that are required to evaluate whether they should consolidate certain legal entities. All legal entities are subject to reevaluation under the revised consolidation model. ASU 2015-02 will be effective for periods beginning after December 15, 2015. Early adoption is permitted, including adoption in an interim period. The Company does not expect the adoption of ASU 2015-02 to have a material effect on the Company’s consolidated financial statements.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying Consolidated Financial Statements.

Segment Reporting

The Company’s primary business is the ownership and management of real estate properties. The Company invests in well-located, modern industrial buildings leased primarily to investment grade tenants or their subsidiaries on long-term net leases. The Company reviews operating and financial information for each property on an individual basis and, therefore, each property represents an individual operating segment. The Company evaluates financial performance using Net Operating Income (“NOI”) from property operations. NOI is defined as recurring Rental and Reimbursement Revenue, less Real Estate Taxes and Operating Expenses, such as insurance, utilities and repairs and maintenance. The Company has aggregated the properties into one reportable segment as the properties share similar long-term economic characteristics and have other similarities including the fact that they are operated as industrial properties subject to long-term net leases primarily to investment grade tenants or their subsidiaries.

NOTE 2 – NET INCOME PER SHARE

Basic Net Income per Share is calculated by dividing Net Income Attributable to Common Shareholders by the weighted-average number of common shares outstanding during the period. Diluted Net Income per Common Share is calculated by dividing Net Income Attributable to Common Shareholders by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method.

In addition, common stock equivalents of 125,108 and 97,968 shares are included in the diluted weighted average shares outstanding for the three months ended June 30, 2016 and 2015, respectively, and common stock equivalents of 89,250 and 128,001 shares are included in the diluted weighted average shares outstanding for the nine months ended June 30, 2016 and 2015, respectively. For the diluted weighted average shares outstanding for the three months ended June 30, 2016 and 2015, -0- and 130,000 options to purchase shares of common stock, respectively, were antidilutive and for the nine months ended June 30, 2016 and 2015, 65,000 options to purchase shares of common stock were antidilutive.

The Company's financial assets consist mainly of marketable REIT securities. The fair value of these financial assets was determined using the following inputs at June 30, 2016 and September 30, 2015:

Table Of Contents

In addition to the Company's investments in Securities Available for Sale at Fair Value, the Company is required to disclose certain information about fair values of its other financial instruments. Estimates of fair value are made at a specific point in time based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. For a portion of the Company's other financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties; future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only, and therefore cannot be compared to the historical accounting model. The use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of Cash and Cash Equivalents approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate Loans Payable approximates their current carrying amounts, since such amounts payable are at approximately a weighted-average current market rate of interest. The estimated fair value of fixed rate mortgage notes payable is based on discounting the future cash flows at a year-end risk adjusted borrowing rate currently available to the Company for issuance of debt with similar terms and remaining maturities. These fair value measurements fall within level 2 of the fair value hierarchy. At June 30, 2016, the fixed rate Mortgage Notes Payable fair value (estimated based upon expected cash outflows discounted at current market rates) amounted to approximately \$445,825,000 and the carrying value amounted to \$440,352,826. At June 30, 2016, the fixed rate Loans Payable fair value (estimated based upon expected cash outflows discounted at current market rates) amounted to approximately \$4,866,000 and the carrying value amounted to \$4,854,169. When the Company acquires a property, it is required to fair value all of the assets and liabilities, including intangible assets and liabilities, relating to the properties acquired lease (See Note 3). Those fair value measurements are estimated based on independent third party appraisals and fall within level 3 of the fair value hierarchy.

NOTE 8 – SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for interest during the nine months ended June 30, 2016 and 2015 was approximately \$15,994,000 and \$13,429,000, respectively.

During the nine months ended June 30, 2016 and 2015, the Company had dividend reinvestments of \$6,326,691 and \$6,263,881, respectively, which required no cash transfers.

NOTE 9 – CONTINGENCIES AND COMMITMENTS

From time to time, the Company may be subject to claims and litigation in the ordinary course of business. Management does not believe that any such claim or litigation will have a material adverse effect on the Consolidated Balance Sheets or results of operations.

The Company has entered into agreements to purchase eight new build-to-suit, industrial buildings that are currently being developed in Florida, Kansas, Michigan, New York, North Carolina and South Carolina, totaling approximately 2,417,000 square feet with net-leased terms ranging from ten to fifteen years resulting in a weighted average lease maturity of 14.6 years. The aggregate purchase price for the eight properties is approximately \$256,589,000. Seven of the eight purchase commitments are being leased to investment grade tenants or their subsidiaries. Subject to satisfactory due diligence, we anticipate closing these eight transactions during the remainder of fiscal 2016 and fiscal 2017. In connection with seven of the eight properties, the Company has entered into commitments to obtain seven mortgages totaling approximately \$147,370,000 at fixed rates ranging from 3.72% to 4.22%, with a weighted average interest rate of 3.90%. All seven of these mortgages are fifteen year, self-amortizing loans.

In addition to the three property expansions completed subsequent to quarter end (see Note 10), the Company currently has a building expansion in progress on a property that is being leased to FedEx Ground Package System, Inc. located in Texas. The expansion costs are expected to be approximately \$4,988,000 and will add approximately 50,700 additional rentable square feet. Upon completion, annualized rent will be increased by approximately \$499,000 from approximately \$598,000, or \$5.27 per square foot, to approximately \$1,097,000 or \$6.68 per square foot and will provide for a new lease extension of ten years from the date of completion.

Approximately 87% of the additional square feet from the eight purchase commitments and the one building committed to be expanded are from properties leased to FedEx Ground Package System, Inc.

The Company entered into a sale agreement to sell its only vacant building, consisting of 59,425 square feet situated on 4.78 acres located in White Bear Lake, MN for approximately \$4,272,000, which is the Company's approximate U.S. GAAP net book carrying value. Rental Revenue increased \$3,533,783, or 20%, for the three months ended June 30, 2016 as compared to the three months ended June 30, 2015. Rental Revenue increased \$10,573,831, or 22%, for the nine months ended June 30, 2016 as compared to the nine months ended June 30, 2015. The increase was primarily due to the acquisition of two properties purchased during the last quarter of fiscal 2015 and the six properties purchased during the first nine months of fiscal 2016 as well as the 200 basis point increase in the Company's occupancy rate from 97.6% as of June 30, 2015 to 99.6% as of June 30, 2016.

Our single-tenant properties are subject to net-leases which require the tenants to reimburse the Company for the cost of Real Estate Taxes as well as certain Operating Expenses such as insurance and the majority of repairs and maintenance. For the three months ended June 30, 2016 compared to the three months ended June 30, 2015, Reimbursement Revenue decreased \$92,066, or 3%, Real Estate Tax Expense increased \$4,601, or less than 1%, and Operating Expenses decreased \$101,510, or 9%. The slight decrease in Operating Expenses was primarily due to the prior year three month period incurring more repair and maintenance type expenses than the current year three month period. Reimbursement Revenue increased \$1,557,960, or 19%, for the nine months ended June 30, 2016 compared to the nine months ended June 30, 2015. Real Estate Tax Expense increased \$1,112,220, or 17%, for the nine months ended June 30, 2016 as compared to the nine months ended June 30, 2015. Operating Expenses increased \$231,351, or 7%, for the nine months ended June 30, 2016 as compared to the nine months ended June 30, 2015. The increase in Reimbursement Revenue, Real Estate Taxes and Operating Expenses for the nine months ended June 30, 2016 was primarily due to our newly acquired properties.

Lease Termination Income amounted to \$-0- and \$238,625 for the nine months ended June 30, 2016 and 2015, respectively. The income for the nine months ended June 30, 2015 represents the payment from a former tenant at our Hanahan, SC property terminating its lease obligations before the end of the contractual term of the lease by agreement with the Company in accordance with the terms of the Lease. In conjunction with the lease termination, the Company simultaneously entered into a lease agreement from February 2015 through April 30, 2019 with the former tenant's sub-tenant.

General and Administrative Expense decreased \$64,071, or 4%, for the three months ended June 30, 2016 as compared to the three months ended June 30, 2015. General and Administrative Expense increased \$685,028, or 16%, for the nine months ended June 30, 2016 as compared to the nine months ended June 30, 2015. The increase in General and Administrative Expense for the nine months ended June 30, 2016 was partially due to the President and Chief Executive Officer's amended employment agreement one-time \$400,000 cash signing bonus and a one-time \$100,000 severance payment made to a former employee. The remaining increase was primarily due to an increase in salary and employee benefit expenses resulting from a combination of an increase in the number of employees and an increase in employees' wage rates.

Acquisition Costs amounted to \$135,358 and \$440,705 for the three months ended June 30, 2016 and 2015, respectively. Acquisition Costs amounted to \$545,955 and \$1,303,389 for the nine months ended June 30, 2016 and 2015, respectively. There were six acquisitions during the nine months ended June 30, 2016 with a cost of approximately \$141,230,000, of which three were acquired during the three months ended June 30, 2016 with a cost of approximately \$70,812,000. There were eight acquisitions during the nine months ended June 30, 2015 with a cost of approximately \$149,885,000, of which one was acquired during the three months ended June 30, 2015 with a cost of approximately \$37,485,000. The Acquisition Costs for the three months ended June 30, 2015 were higher than the Acquisition Costs for the three months ended June 30, 2016 primarily due to a broker fee of approximately \$373,600 incurred for the purchase of one acquisition purchased during the prior year quarter. The decrease in Acquisition Costs during the nine months ended June 30, 2016 was primarily due to this broker fee of approximately \$373,600 incurred for the purchase of the one acquisition purchased during the prior year quarter and also due to the lower total cost of the properties acquired in the first nine months of fiscal 2016 compared to the total cost of properties acquired during the first nine months of fiscal 2015.

The increase is due to a higher average carrying value of the REIT securities portfolio during the current three and nine month periods compared to prior three and nine month periods. Interest Expense increased \$2,564,933, or 19%, for the nine months ended June 30, 2016 as compared to the nine months ended June 30, 2015. This increase is primarily due to an increase in the average balance of Mortgage Notes Payable due to the newly acquired properties in fiscal 2015 and 2016 and an increase in Loans Payable due to an increase in the amount drawn down on the Company's line of credit facility, which was offset by a decrease in the weighted average interest rate. The Company uses a variety of sources to fund its cash needs in addition to cash generated through operations. The Company may sell marketable securities from its investment portfolio, borrow on its unsecured line of credit facility or securities margin loans, refinance debt, or raise capital through the DRIP or capital markets.

The Company has been raising capital through its DRIP, mortgages, draws on its unsecured line of credit, sale of marketable securities and funds generated from its investments in net-leased industrial properties. The Company may raise capital through registered direct placements and public offerings of common and preferred stock. The Company believes that funds generated from operations and from the DRIP, together with the ability to finance and refinance its properties, will provide sufficient funds to adequately meet its obligations over the next year.

The Company has a concentration of FDX and FDX subsidiary-leased properties, consisting of fifty-one separate stand-alone leases covering approximately 6,944,000 square feet as of June 30, 2016 and forty-six separate stand-alone leases covering approximately 5,611,000 square feet as of June 30, 2015. Annualized Rental and Reimbursement Revenue from FDX and its subsidiaries is estimated to be approximately 56% (7% to FDX and 49% to FDX subsidiaries) of total Rental and Reimbursement Revenue for fiscal 2016 and was 56% (9% to FDX and 47% to FDX subsidiaries) for fiscal 2015. In addition to real estate property holdings, the Company held \$82,638,519 in marketable REIT securities at quarter end, representing 6.7% of its undepreciated assets. These liquid real estate holdings are not included in calculating the tenant concentration ratios above and therefore further enhance the Company's diversification.

The company has entered into agreements to purchase eight new build-to-suit, industrial buildings that are currently being developed in Florida, Kansas, Michigan, New York, North Carolina and South Carolina, totaling approximately 2,417,000 square feet with net-leased terms ranging from ten to fifteen years resulting in a weighted average lease maturity of 14.6 years. The aggregate purchase price for the eight properties is approximately \$256,589,000. Seven of the eight purchase commitments are being leased to investment grade tenants or their subsidiaries. Subject to satisfactory due diligence, we anticipate closing these eight transactions during the remainder of fiscal 2016 and fiscal 2017. In connection with seven of the eight properties, the Company has entered into commitments to obtain seven mortgages totaling approximately \$147,370,000 at fixed rates ranging from 3.72% to 4.22%, with a weighted average interest rate of 3.90%. In addition to the three property expansions completed subsequent to quarter end, the Company currently has a building expansion in progress on a property that is being leased to FedEx Ground Package System, Inc. located in Texas. The expansion costs are expected to be approximately \$4,988,000 and will add approximately 50,700 additional rentable square feet. Upon completion, annualized rent will be increased by approximately \$499,000 from approximately \$598,000, or \$5.27 per square foot, to approximately \$1,097,000 or \$6.68 per square foot and will provide for a new lease extension of ten years from the date of completion.

Approximately 87% of the additional square feet from the eight purchase commitments and the one building committed to be expanded are from properties leased to FedEx Ground Package System, Inc.

The Company entered into a sale agreement to sell its only vacant building, consisting of 59,425 square feet situated on 4.78 acres located in White Bear Lake, MN for approximately \$4,272,000, which is the Company's approximate U.S. GAAP net book carrying value. The closing of the sale is subject to the purchaser's satisfactory due diligence.

The Company intends to acquire additional net-leased industrial properties on long-term leases, primarily to investment grade tenants or their subsidiaries, and when needed, expand its current properties. The funds may come from free cash flow from operations, mortgages, draws on our unsecured line of credit, cash on hand, sale of marketable securities, other bank borrowings, proceeds from the DRIP, private placements and public offerings of additional common or preferred stock or other securities. To the extent that funds or appropriate properties are not available, fewer acquisitions will be made.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Funds From Operations and Core Funds From Operations

We assess and measure our overall operating results based upon an industry performance measure referred to as Funds From Operations (FFO), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by

the National Association of Real Estate Investment Trusts (NAREIT), represents net income (loss) attributable to common shareholders, as defined by accounting principles generally accepted in the United States of America (U.S. GAAP), excluding extraordinary items, as defined under U.S. GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-U.S. GAAP supplemental measure of REIT operating performance. We define Core Funds From Operations (Core FFO) as FFO, excluding acquisition costs. We define Adjusted Funds from Operations (AFFO) as Core FFO, excluding stock compensation expense, depreciation of corporate office tenant improvements, amortization of financing costs, lease termination income, net gain or loss on sale of securities transactions, U.S. GAAP straight-line rent adjustments, non-recurring other expenses and less recurring capital expenditures. We define recurring capital expenditures as all capital expenditures, excluding capital expenditures related to expansions at our current locations or capital expenditures that are incurred in conjunction with obtaining a new lease or a lease renewal. We believe that, as widely recognized measures of performance used by other REITs, FFO, Core FFO and AFFO may be considered by investors as supplemental measures to compare our operating performance to those of other REITs. FFO, Core FFO and AFFO exclude historical cost depreciation as an expense and may facilitate the comparison of REITs which have a different cost basis. However, other REITs may use different methodologies to calculate FFO, Core FFO and AFFO and, accordingly, our FFO, Core FFO and AFFO may not be comparable to all other REITs. The items excluded from FFO, Core FFO and AFFO are significant components in understanding the Company's financial performance.

FFO, Core FFO and AFFO (i) do not represent Cash Flow from Operations as defined by U.S. GAAP; (ii) should not be considered as an alternative to Net Income as a measure of operating performance or to Cash Flows from Operating, Investing and Financing Activities; and (iii) are not an alternative to cash flow as a measure of liquidity. FFO, Core FFO and AFFO, as calculated by the Company, may not be comparable to similarly titled measures reported by other REITs.
