UMH PROPERTIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2017 (UNAUDITED)

NOTE 1 – ORGANIZATION AND ACCOUNTING POLICIES

UMH Properties, Inc., a Maryland corporation, together with its subsidiaries (“we”, “our”, “us” or “the Company”) operates as a real estate investment trust (“REIT”) deriving its income primarily from real estate rental operations. The Company owns and operates one hundred seven manufactured home communities containing approximately 19,400 developed home sites as of June 30, 2017. These communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana, Michigan and Maryland. The Company, through its wholly-owned taxable subsidiary, UMH Sales and Finance, Inc. (“S&F”), conducts manufactured home sales to residents and prospective residents in its communities. Inherent in the operations of manufactured home communities are site vacancies. S&F was established to fill these vacancies and enhance the value of the communities. The Company also owns a portfolio of REIT securities which the Company generally limits to no more than approximately 20% of its undepreciated assets. The consolidated financial statements of the Company include S&F and all of its other wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the “Code”), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim Consolidated Financial Statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six months ended June 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in the Company’s annual report on Form 10-K for the year ended December 31, 2016.

Use of Estimates

In preparing the consolidated financial statements in accordance with U.S. GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the consolidated balance sheets and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ significantly from these estimates and assumptions.

Reclassifications

Certain amounts in the financial statements for the prior periods have been reclassified to conform to the statement presentation for the current periods.

Derivative Instruments and Hedging Activities

In the normal course of business, the Company is exposed to financial market risks, including interest rate risk on its variable rate debt. The Company attempts to limit these risks by following established risk management policies, procedures and strategies, including the use of derivative financial instruments. The Company's primary strategy in entering into derivative contracts is to minimize the variability that changes in interest rates could have on its future cash flows. The Company generally employs derivative instruments that effectively convert a portion of its variable rate debt to fixed rate debt. The Company does not enter into derivative instruments for speculative purposes. The Company has entered into various interest rate swap agreements that have had the effect of fixing interest rates relative to specific mortgage loans.

As of June 30, 2017, the Company has an interest rate swap agreement that has the effect of fixing interest rates relative to a specific mortgage loan as follows:

Mortgage	Due Date	Mortgage Interest Rate	Effective Fixed Rate	Balance 6/30/17
Various – 11 properties	8/1/2017	LIBOR + 3.00%	3.89	% \$10,215,752

The Company's interest rate swap agreement is based upon 30-day LIBOR. The re-pricing and scheduled maturity dates, payment dates, index and the notional amounts of the interest rate swap agreement coincides with those of the underlying mortgage. The interest rate swap agreement is net settled monthly. The Company has designated this derivative as a cash flow hedge and has recorded the fair value on the balance sheet in accordance with ASC 815, Derivatives and Hedging (See Note 8 for information on the determination of fair value). The effective portion of the gain or loss on this hedge is reported as a component of Accumulated Other Comprehensive Income (Loss) in our Consolidated Balance Sheets. To the extent that the hedging relationship is not effective or does not qualify as a cash flow hedge, the ineffective portion is recorded in Interest Expense. Hedges that received designated hedge accounting treatment are evaluated for effectiveness at the time that they are designated as well as through the hedging period. As of June 30, 2017 and December 31, 2016, the Company has determined that this interest rate swap agreement is highly effective as a cash flow hedge. As a result, the fair value of these derivatives of \$3,164 and \$(3,983), respectively, was recorded as a component of Accumulated Other Comprehensive Income (Loss), with the corresponding asset

(liability) included in Notes and Other Receivables (Accrued Liabilities and Deposits).

Recently Adopted Accounting Pronouncements

In January 2017, the FASB issued ASU 2017-01, “Business Combinations (Topic 805), Clarifying the Definition of a Business.” ASU 2017-01 seeks to clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The definition of a business affects many areas of accounting including acquisitions, disposals, intangible assets and consolidation. The adoption of ASU 2017-01 is effective for annual periods beginning after December 15, 2017, including interim periods within those periods. The amendments should be applied prospectively on or after the effective dates. Early adoption is permitted. The Company adopted this standard effective January 1, 2017, on a prospective basis. The Company evaluated its acquisitions and has determined that its acquisitions of manufactured home communities during 2017 should be accounted for as acquisitions of assets. As such, transaction costs of approximately \$368,000 have been capitalized as part of the cost of the acquisitions, which is then subject to a purchase price allocation based on relative fair value.

In March 2016, the FASB issued ASU 2016-09, “Compensation—Stock Compensation.” ASU 2016-09 simplifies several aspects of the accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification in the statement of cash flows. ASU 2016-09 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2016. The Company adopted this standard effective January 1, 2017, and it did not have a material impact on our financial position, results of operations or cash flows.

In July 2015, the FASB issued ASU No. 2015-11, “Simplifying the Measurement of Inventory.” ASU 2015-11 applies to inventory that is measured using first-in, first-out (“FIFO”) or average cost. An entity should measure inventory within the scope of ASU 2015-11 at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonable predictable costs of completion, disposal and transportation. The amendments in ASU 2015-11 more closely align the measurement of inventory in GAAP with the measurement of inventory in International Financial Reporting Standards (“IFRS”). The Company adopted this standard effective January 1, 2017, and it did not have a material impact on our financial position, results of operations or cash flows.

Other Recent Accounting Pronouncements

In May 2017, the FASB issued ASU No. 2017-09, “Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting.” ASU 2017-09 clarifies which changes to the terms or conditions of a share based payment award are subject to the guidance on modification accounting under FASB Accounting Standards Codification Topic 718. Entities would apply the modification accounting guidance unless the value, vesting requirements and classification of a share based payment award are the same immediately before and after a change to the terms or conditions of the award. ASU No. 2017-09 is effective for fiscal years beginning after December 15, 2017, including

interim periods within those fiscal years. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements.

On February 22, 2017, the FASB issued ASU No. 2017-05, “Other Income-Gains and Losses from the Derecognition of Nonfinancial Assets.” ASU 2017-05 provides guidance for recognizing gains and losses from the transfer of nonfinancial assets and in-substance non-financial assets in contracts with non-customers, unless other specific guidance applies. The standard requires a company to derecognize nonfinancial assets once it transfers control of a distinct nonfinancial asset or distinct in substance nonfinancial asset. Additionally, when a company transfers its controlling interest in a nonfinancial asset, but retains a noncontrolling ownership interest, the company is required to measure any non-controlling interest it receives or retains at fair value. The guidance requires companies to recognize a full gain or loss on the transaction. As a result of the new guidance, the guidance specific to real estate sales in ASC 360-20 will be eliminated. As such, sales and partial sales of real estate assets will now be subject to the same derecognition model as all other nonfinancial assets. The guidance is effective for annual periods beginning after December 15, 2017, including interim periods within that reporting period. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-15, “Statement of Cash Flows (Topic 230), Classification of Certain Cash Receipts and Cash Payments.” ASU 2016-15 will make eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2017. Early adoption is permitted. The Company believes that the adoption of this standard will not have a material impact on our financial position, results of operations or cash flows. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements.

In June 2016, the FASB issued ASU No. 2016-13, “Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments.” ASU 2016-13 requires that entities use a new forward looking “expected loss” model that generally will result in the earlier recognition of allowance for credit losses. The measurement of expected credit losses is based upon historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. ASU No. 2016-13 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2019. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, “Leases.” ASU 2016-02 amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. The standard requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. ASU 2016-02 will be effective for annual reporting periods beginning after December 15, 2018. Early adoption is permitted. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the timing of adoption.

In January 2016, the FASB issued ASU 2016-01, “Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities.” ASU 2016-01 requires equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the investee) to be measured at fair

value with changes in fair value recognized in net income, requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes, requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset, and eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost. ASU 2016-01 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2017, and early adoption is permitted. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the timing of adoption.

In May 2014, the FASB issued ASU 2014-09 “Revenue from Contracts with Customers (Topic 606)”. The objective of this amendment is to establish a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most of the existing revenue recognition guidance, including industry-specific guidance. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying this amendment, companies will perform a five-step analysis of transactions to determine when and how revenue is recognized. This amendment applies to all contracts with customers except those that are within the scope of other topics in the FASB ASC. An entity should apply the amendments using either the full retrospective approach or retrospectively with a cumulative effect of initially applying the amendments recognized at the date of initial application. In July 2015, the FASB issued ASU 2015-14 which deferred the effective date of ASU 2014-09 by one year to annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. The Company has not yet selected which transition method it will apply upon adoption. Our primary source of revenue is generated through leasing arrangements, which is specifically excluded from ASU 2014-09. We continue to evaluate and are in the process of quantifying the impact, if any, the adoption of ASU 2014-09 will have on our non-lease revenue streams, including sales of manufactured homes, interest income, dividend income and other income. While our evaluations are ongoing, we do not expect material changes to our accounting policies for these revenue streams.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying Consolidated Financial Statements.

NOTE 2 – NET INCOME (LOSS) PER SHARE

Basic Net Income (Loss) per Share is calculated by dividing Net Income (Loss) by the weighted average shares outstanding for the period. Diluted Net Income (Loss) per Share is calculated by dividing Net Income (Loss) by the weighted average number of common shares outstanding plus the weighted average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method. For the three and six months ended June 30, 2017, employee stock options to purchase 1,778,100 shares of common stock were excluded from the computation of Diluted Net Income (Loss) per Share as their effect would be anti-dilutive. For the three and six months ended June 30, 2016, employee stock options to purchase 1,972,000 shares of common stock were excluded from the computation of Diluted Net Income (Loss) per Share as their effect would be anti-dilutive.

In addition to the Company's investments in securities available for sale and interest rate swaps, the Company is required to disclose certain information about the fair values of its other financial instruments, as defined in ASC 825-10, Financial Instruments. Estimates of fair value are made at a specific point in time, based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. All of the Company's Securities Available for Sale have quoted market prices and traded in active markets and are therefore classified in Level 1 of the fair value hierarchy. A quoted market price is indirectly available for our interest rate swap. This price is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows, and reflects the contractual terms of the derivative, including the period to maturity, and uses observable market-based inputs. As such, we have determined that the valuation of this interest rate swap is classified in Level 2 of the fair value hierarchy.

The fair value of Cash and Cash Equivalents and Notes Receivable approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate Mortgages Payable and Loans Payable approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. As of June 30, 2017, the fair value of Fixed Rate Mortgages Payable amounted to \$304,988,671 and the carrying value of Fixed Rate Mortgages Payable amounted to \$304,550,884. The fair value of fixed rate Mortgages Payable is estimated based upon discounted cash flows at current market rates for instruments with similar remaining terms.

NOTE 9 – CONTINGENCIES, COMMITMENTS AND OTHER MATTERS

From time to time, the Company may be subject to claims and litigation in the ordinary course of business. Management does not believe that any such claims or litigation will have a material adverse effect on the financial position or results of operations.

The Company has an agreement with 21st Mortgage Corporation ("21st Mortgage") under which 21st Mortgage can provide financing for home purchasers in the Company's communities. The Company does not receive referral fees or other cash compensation under the agreement. If 21st Mortgage makes loans to purchasers and those purchasers default on their loans and 21st Mortgage repossesses the homes securing such loans, the Company has agreed to purchase from 21st Mortgage each such repossessed home for a price equal to 80% to 95% of the amount under each such loan, subject to certain adjustments. This agreement may be terminated by either party with 30 days written notice. As of June 30, 2017, the total loan balance under this agreement was approximately \$3 million. Additionally, 21st Mortgage previously made loans to purchasers in certain communities we acquired. In conjunction with these acquisitions, the Company has agreed to purchase from 21st Mortgage each repossessed home, if those purchasers default on their loans. The purchase price ranges from 55% to 100% of the amount under each such loan, subject to certain adjustments. As of June 30, 2017, the total loan balance owed to 21st Mortgage with respect to homes in these acquired communities was approximately \$4 million.

The Company entered into a Chattel Loan Origination, Sale and Servicing Agreement (“COP Program”) with Triad Financial Services, effective January 1, 2016. The Company does not receive referral fees or other cash compensation under the agreement. Customer loan applications are initially submitted to Triad for consideration by Triad’s portfolio of outside lenders. If the loan application does not meet the criteria for outside financing, the application is then considered for financing under the COP Program. If the loan is approved under the COP Program, then it is originated by Triad and subsequently purchased by the Company. Included in Notes and Other Receivables is approximately \$5,914,000 of loans that the Company purchased under the COP Program as of June 30, 2017.

NOTE 10 - SUPPLEMENTAL CASH FLOW INFORMATION

Immediately following this amendment, the Company filed with the Maryland SDAT Articles Supplementary setting forth the rights, preferences and terms of the Series C Preferred Stock and reclassifying 5,750,000 shares of Common Stock as shares of Series C Preferred Stock. After the reclassification, the Company's authorized stock consists of 110,000,000 shares of Common Stock, 3,663,800 shares of 8.25% Series A Cumulative Redeemable Preferred Stock, 4,000,000 shares of 8% Series B Cumulative Redeemable Preferred Stock, 5,750,000 shares of 6.75% Series C Cumulative Redeemable Preferred Stock and 3,000,000 shares of excess stock. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and footnotes thereto included elsewhere herein and in the Company's annual report on Form 10-K for the year ended December 31, 2016.

The Company is a self-administered, self-managed Real Estate Investment Trust ("REIT") with headquarters in Freehold, New Jersey. The Company's primary business is the ownership and operation of manufactured home communities which includes leasing manufactured home spaces to residential manufactured home owners. The Company also leases homes to residents and, through its taxable REIT subsidiary, UMH Sales and Finance, Inc. ("S&F"), sells and finances the sale of manufactured homes to qualified residents and prospective residents of our communities.

As of June 30, 2017, the Company owned and operated 107 manufactured home communities containing approximately 19,400 developed home sites. These communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana, Michigan and Maryland.

The Company earns income from the leasing of manufactured homesites, the rental of manufactured homes, the sale and finance of manufactured homes, the brokering of home sales, and from appreciation in the values of the manufactured home communities and vacant land owned by the Company. The Company also invests in securities of other REITs which the Company generally limits to no more than approximately 20% of its undepreciated assets.

The Company believes that its capital structure, which allows for the ownership of assets using a balanced combination of equity obtained through the issuance of common stock, preferred stock and debt, will enhance shareholder returns as the properties appreciate over time.

The macro-economic environment and current housing fundamentals continue to favor home rentals. Rental homes in a manufactured home community allow the resident to obtain the efficiencies of factory-built housing and the amenities of community living for less than the cost of other forms of affordable housing. We continue to see strong demand for rental homes. We have added an additional 433 rental homes during the first six months of 2017, including 110 rental homes acquired with our recent community acquisitions. This brings the total number of rental homes to approximately 5,100 rental homes, or 26.5% of total sites. Occupied rental homes represent approximately 30.5% of total occupied sites at quarter end. Occupancy in rental homes continues to be strong and is at 93.6% as of June 30, 2017. We anticipate adding approximately 800 rental homes in 2017, as the market dictates.

The Company intends to continue to increase its real estate investments. Our business plan includes acquiring communities that yield in excess of our cost of funds and then investing in physical improvements, including adding rental homes onto otherwise vacant sites. This has resulted in increased occupancy rates and improved operating results. Community Net Operating Income (“NOI”) increased 15% for the six months ended June 30, 2017 from the prior year period. Same property occupancy, which includes communities owned and operated as of January 1, 2016, increased by 180 basis points to 82.5% over the prior year period and same property NOI increased 11.5% over the prior year period. We have been positioning ourselves for future growth and will continue to seek opportunistic investments. There is no assurance that the Company can continue to buy existing manufactured home communities that meet the requirements of the business plan or that the demand for rental homes will continue in the future.

During the six months ended June 30, 2017, the Company acquired five all-age communities and one age restricted community containing a total of 1,354 homesites on 461 acres for an aggregate purchase price of approximately \$40,510,000. The following is a summary of the communities acquired as of June 30, 2017:

Community	Date of Acquisition	State	Number of Sites	Purchase Price	Number of Acres	Occupancy at Acquisition	
Marysville and Hillcrest	January 20, 2017	OH	532	\$9,588,000	149	57	%
Boardwalk and Parke Place	January 20, 2017	IN	559	24,437,000	155	77	%

See PART I, Item 1 – Business in the Company’s 2016 annual report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

Significant Accounting Policies and Estimates

The discussion and analysis of the Company’s financial condition and results of operations are based upon the Company’s Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The preparation of these Consolidated Financial Statements requires management to make estimates and judgments that affect the reported amounts of Assets and Liabilities, Revenues and Expenses, and related disclosure of contingent Assets and Liabilities at the date of the Company’s Consolidated Financial Statements. Actual results may differ from these estimates under different assumptions or conditions.

On a regular basis, management evaluates our assumptions, judgments and estimates. Management believes there have been no material changes to the items that we disclosed as our significant accounting policies and estimates under Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” in our Annual Report on Form 10-K for the year ended December 31, 2016.

Supplemental Measures

In addition to the results reported in accordance with GAAP, management’s discussion and analysis of financial condition and results of operations include certain non-GAAP financial measures that in management’s view of the business we believe are meaningful as they allow the investor the ability to understand key operating details of our business both with and without regard to certain accounting conventions or items that may not always be indicative of recurring annual cash flow of the portfolio. These non-GAAP financial measures as determined and presented by us may not be comparable to related or similarly titled measures reported by other companies, and include Community NOI, Funds from Operations (“FFO”), Core Funds from Operations (“Core FFO”) and Normalized Funds from Operations (“Normalized FFO”). A discussion of FFO, Core FFO and Normalized FFO, and a reconciliation to net income is included in the presentation of FFO included in Item 2 of this Form 10-Q.

We define Community NOI as rental and related income less community operating expenses such as real estate taxes, repairs and maintenance, community salaries, utilities, insurance and other expenses. We believe that Community NOI is helpful to investors and analysts as a direct measure of the actual operating results of our manufactured home communities, rather than our Company overall. Community NOI should not be considered a substitute for the reported results prepared in accordance with GAAP. Community NOI should not be considered as an alternative to net income

(loss) as an indicator of our financial performance, or to cash flows as a measure of liquidity; nor is it indicative of funds available for our cash needs, including our ability to make cash distributions.

The Company's Community NOI for the three and six months ended June 30, 2017 and 2016 is calculated as follows:

	Three Months Ended		Six Months Ended	
	6/30/17	6/30/16	6/30/17	6/30/16
Rental and Related Income	\$25,293,961	\$22,423,876	\$49,824,316	\$44,210,056
Less: Community Operating Expenses	11,871,578	10,718,738	23,351,937	21,274,676
Community NOI	\$13,422,383	\$11,705,138	\$26,472,379	\$22,935,380

Changes In Results Of Operations

Rental and Related Income increased 13% from \$22,423,876 for the three months ended June 30, 2016 to \$25,293,961 for the three months ended June 30, 2017. Rental and Related Income increased 13% from \$44,210,056 for the six months ended June 30, 2016 to \$49,824,316 for the six months ended June 30, 2017. These increases were primarily due to the acquisitions made during 2016 and 2017, as well as increases in rental rates, same property occupancy and additional rental homes. The Company has been raising rental rates by approximately 3% to 5% annually at most communities. Same property occupancy has increased 180 basis points from 80.7% as of June 30, 2016 to 82.5% at quarter-end. Total number of rental homes increased 23% from approximately 4,100 homes at June 30, 2016 to approximately 5,100 homes at June 30, 2017.

Community Operating Expenses increased 11% from \$10,718,738 for the three months ended June 30, 2016 to \$11,871,578 for the three months ended June 30, 2017. Community Operating Expenses increased 10% from \$21,274,676 for the six months ended June 30, 2016 to \$23,351,937 for the six months ended June 30, 2017. These increases were primarily due to the acquisitions made during 2016 and 2017.

Community NOI increased 15% from \$11,705,138 for the three months ended June 30, 2016 to \$13,422,383 for the three months ended June 30, 2017. Community NOI increased 15% from \$22,935,380 for the six months ended June 30, 2016 to \$26,472,379 for the six months ended June 30, 2017. These increases were primarily due to the acquisitions during 2016 and 2017 and increases in rental rates, occupancy and rental homes. The Company has also been reducing its Operating Expense Ratio (defined as Community Operating Expenses divided by Rental and Related Income). The Operating Expense Ratio was 46.9% and 47.8% for the three months ended June 30, 2017 and 2016, respectively. The Operating Expense Ratio was 46.9% and 48.1% for the six months ended June 30, 2017 and 2016, respectively. Many recently acquired communities have deferred maintenance requiring higher than normal expenditures in the first few years of ownership. Because most of the community expenses consist of fixed costs, as occupancy rates increase, these expense ratios are expected to continue to improve. Since the Company has the ability to increase its rental rates annually, increasing costs due to inflation and changing prices have generally not had a material effect on revenues and income from continuing operations.

Sales of manufactured homes increased 26% from \$2,786,831 for the three months ended June 30, 2016 to \$3,523,887 for the three months ended June 30, 2017. Sales of manufactured homes increased 21% from \$4,505,025 for the six months ended June 30, 2016 to \$5,442,081 for the six months ended June 30, 2017. The Company has seen a 20% increase in the number of homes sold from 90 homes sold for the six months ended June 30, 2016 to 108 homes sold for the six months ended June 30, 2017. Cost of sales of manufactured homes amounted to \$2,746,689 and \$2,161,344 for the three months ended June 30, 2017 and 2016, respectively. Cost of sales of manufactured homes amounted to \$4,249,898 and \$3,475,272 for the six months ended June 30, 2017 and 2016, respectively. The gross profit percentage was 22% for both the three months ended June 30, 2017 and 2016. The gross profit percentage was 22% and 23% for the six months ended June 30, 2017 and 2016, respectively. Selling expenses, which includes salaries, commissions, advertising and other miscellaneous expenses, amounted to \$865,462 and \$674,717 for the three months ended June 30, 2017 and 2016, respectively. Selling expenses amounted to \$1,624,841 and \$1,458,469 for the six months ended June 30, 2017 and 2016, respectively. Loss from the sales operations (defined as sales of manufactured homes less cost of sales of manufactured homes less selling expenses less interest on the financing of inventory) amounted to \$280,677 or 8% of total sales and \$275,670 or 10% of total sales for the three months ended June 30, 2017 and 2016, respectively. Loss from the sales operations amounted to \$726,989 or 13% of total sales and \$793,045 or 18% of total sales for the six months ended June 30, 2017 and 2016, respectively. Although sales of manufactured homes increased 21% over the prior year period, they have not yet returned to pre-recession levels. Many of the costs associated with sales, such as salaries, and to an extent, advertising and promotion, are fixed. The Company continues to be confident about increasing future sales and rental prospects given the fundamental need for affordable housing in its markets.

The U.S. homeownership rate was 63.7% in the second quarter of 2017, according to the U.S. Census. This is down from 69.2% at its peak at the end of 2004. The conventional single-family housing market is gradually strengthening. However, our sales continue to be negatively impacted as a result of the inability of our customers to sell their current homes, limited wage growth, stringent licensing laws and government regulations. The real estate sector and consumer spending are contributing to economic growth, which will benefit our industry. As single family residential pricing edges higher, the inherent affordability of our homes becomes more apparent. The Company continues to be optimistic about future sales and rental prospects given the fundamental need for affordable housing.

General and Administrative Expenses increased 36% from \$1,943,011 for the three months ended June 30, 2016 to \$2,634,309 for the three months ended June 30, 2017. General and Administrative Expenses increased 33% from \$3,639,933 for the six months ended June 30, 2016 to \$4,836,611 for the six months ended June 30, 2017. These increases were primarily due to an increase in personnel and personnel costs and an increase in stock compensation expense. Stock compensation expense increased from \$319,029 for the three months ended June 30, 2016 to \$500,680 for the three months ended June 30, 2017, and from \$476,773 for the six months ended June 30, 2016 to \$670,057 for the six months ended June 30, 2017. These increases were primarily due to the increase in our stock price, which increased the fair value of the options granted, and to the issuance of stock options to one employee of retirement age. The weighted-average fair value of options granted increased from \$0.81 per share for the six months ended June 30, 2016 to \$1.81 for the six months ended June 30, 2017. Additionally, the entire compensation cost of \$184,000 for the employee of retirement age was recognized at the time of grant. General and Administrative expenses as a percentage of gross revenue (Total Income plus Interest, Dividend and Other Income) remains in line at 8.4% and 8.0% for the three and six months ended June 30, 2017, respectively, compared and 7.1% and 6.9% for the three and six months ended June 30, 2016, respectively.

Depreciation Expense increased 19% from \$5,679,167 for the three months ended June 30, 2016 to \$6,740,205 for the three months ended June 30, 2017. Depreciation Expense increased 19% from \$11,205,009 for the six months ended June 30, 2016 to \$13,280,443 for the six months ended June 30, 2017. These increases were primarily due to the acquisitions and the increase in rental homes during 2016 and 2017.

Interest Income increased 25% from \$397,083 for the three months ended June 30, 2016 to \$495,778 for the three months ended June 30, 2017. Interest Income increased 20% from \$805,959 for the six months ended June 30, 2016 to \$969,137 for the six months ended June 30, 2017. These increases were primarily due to an increase in the average balance of notes receivable. The average balance at June 30, 2017 and 2016 was approximately \$20.4 million and \$18.4 million, respectively.

Dividend Income increased 11% from \$1,623,844 for the three months ended June 30, 2016 to \$1,795,600 for the three months ended June 30, 2017. Dividend Income increased 18% from \$3,079,379 for the six months ended June 30, 2016 to \$3,646,840 for the six months ended June 30, 2017. These increases were primarily due to the increase in the average balance of Securities Available for Sale from \$89.5 million at June 30, 2016 to \$108.9 million at June 30, 2017. The dividends received from our securities investments were at a weighted average yield of approximately 6.8% and continue to meet our expectations. It is the Company's intent to hold these securities long-term.

The Company recognized a Gain on Sales of Securities of \$1,019,877 and \$782,373 for the three months ended June 30, 2017 and 2016, respectively. The Company recognized a Gain on Sales of Securities of \$1,051,768 and \$1,014,378 for the six months ended June 30, 2017 and 2016, respectively. In addition, the Company's unrealized holding gains on its investment in securities decreased from an unrealized gain of \$16,717,171 as of December 31, 2016 to an unrealized gain of \$10,811,874 as of June 30, 2017, resulting in a decrease for the six months ended June 30, 2017 of \$5,905,297.

Interest Expense, including Amortization of Financing Costs, increased 6% from \$3,896,305 for the three months ended June 30, 2016 to \$4,112,214 for the three months ended June 30, 2017. Interest Expense increased 4% from \$7,829,782 for the six months ended June 30, 2016 to \$8,169,944 for the six months ended June 30, 2017. These increases were primarily due to an increase in the average balance of mortgages and loans payable due to the new community acquisitions in 2016 and 2017, as well as additional community financings/re-financings in 2016 and 2017. The average balance of mortgages payable at June 30, 2017 and 2016 was approximately \$302.2 million and \$284.8 million, respectively. The weighted average interest rate on our mortgage debt was 4.3% and 4.5% at June 30, 2017 and 2016, respectively.

Changes in Financial Condition

Total Investment Property and Equipment increased 10% or \$64,534,400 during the six months ended June 30, 2017. The Company purchased six communities and added 433 rental homes to its communities. The Company's occupancy rate on its rental homes portfolio increased 210 basis points and was 93.6% at June 30, 2017 as compared to 91.5% at December 31, 2016.

Mortgages Payable increased 6% or \$18,278,184 during the six months ended June 30, 2017. This increase was due to new mortgages of approximately \$31.0 million, partially offset by principal repayments of approximately \$12.7 million.

Loans Payable increased 10% or \$5,892,488 during the six months ended June 30, 2017. This increase was mainly due to the drawdown of \$15 million on our unsecured line of credit and an increase of \$7 million on our revolving credit facilities for the purchase of inventory and other loans payable, offset by a decrease of \$16 million on our margin loan. The proceeds from these loans were used for community acquisitions.

Liquidity and Capital Resources

The Company's focus is on real estate investments, including investment in rental homes. Additionally, the Company invests in marketable debt and equity securities of other REITs. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real estate when more favorable risk adjusted returns are not available. The Company generally limits its marketable securities investments to no more than approximately 20% of its undepreciated assets.

The Company's principal liquidity demands have historically been, and are expected to continue to be, distributions to the Company's stockholders, acquisitions, capital improvements, development and expansions of properties, debt service, purchases of manufactured home inventory and rental homes, investment in marketable securities of other REITs, financing of manufactured home sales and payments of expenses relating to real estate operations. We anticipate that the liquidity demands of the recent properties acquired will be met by the operations of these acquisitions. The Company's ability to generate cash adequate to meet these demands is dependent primarily on income from its real estate investments and securities portfolio, the sale of real estate investments and securities, refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, lines of credit, proceeds from the DRIP, and access to the capital markets.

In addition to cash generated through operations, the Company uses a variety of sources to fund its cash needs, including acquisitions. The Company intends to continue to increase its real estate investments. Our business plan includes acquiring communities that yield in excess of our cost of funds and then investing in physical improvements, including adding rental homes onto otherwise vacant sites. There is no guarantee that any of these additional opportunities will materialize or that the Company will be able to take advantage of such opportunities. The growth of our real estate portfolio depends on the availability of suitable properties which meet the Company's investment criteria and appropriate financing. Competition in the market areas in which the Company operates is significant. To fund these acquisitions, the Company may sell marketable securities, borrow on its lines of credit, finance and refinance its properties, and/or raise capital through the DRIP and capital markets. To the extent that funds or appropriate communities are not available, fewer acquisitions will be made.

On May 31, 2017, the Company issued and sold 1,400,000 shares of its Common Stock in a registered direct placement, and received net proceeds from the offering after expenses of approximately \$22.5 million. The Company also raised \$11,116,863 from the issuance of common stock in the DRIP during the six months ended June 30, 2017, which included Dividend Reinvestments of \$1,386,320. Dividends paid on the common stock for the six months ended June 30, 2017 were \$30,045,558, of which \$1,386,320 were reinvested. Dividends paid on the Series A Preferred shares and the Series B Preferred shares for the six months ended June 30, 2017 totaled \$7,579,494.

Subsequent to quarter-end, on July 26, 2017, the Company issued 5,000,000 shares of its new 6.75% Series C Cumulative Redeemable Preferred Stock at an offering price of \$25.00 per share in an underwritten public offering, for net proceeds, after deducting the underwriting discount and other estimated offering expenses, of approximately \$120,800,000. On August 2, 2017, the Company issued an additional 750,000 shares of Series C Preferred Stock pursuant to the underwriters' exercise of their overallotment option and received additional net proceeds of approximately \$18,200,000. The Company intends to use a portion of the net proceeds to redeem all of the 3,663,800 outstanding shares of our Series A Preferred Stock. The balance of the proceeds will be used for general corporate purposes, which may include purchase of manufactured homes for sale or lease to customers, expansion of our existing communities, potential acquisitions of additional properties and possible repayment of indebtedness on a short-term basis.

On July 31, 2017, the Company announced that it will redeem all 3,663,800 issued and outstanding shares of its 8.25% Series A Preferred Stock on August 31, 2017 at a redemption price of \$25.00 per share.

Net Cash provided by Operating Activities amounted to \$16,645,904 and \$11,688,823 for the six months ended June 30, 2017 and 2016, respectively. As of June 30, 2017, the Company had Cash and Cash Equivalents of \$8.2 million, Securities Available for Sale of \$109.1 million, encumbered by \$6.2 million in margin loans, \$6.0 million available on its revolving line of credit for the financing of home sales and approximately \$15 million available on its revolving credit facilities for the financing of inventory purchases.

In March 2017, the Company entered into an amended and restated credit agreement to renew and expand its existing unsecured revolving credit facility. The Facility provides for an increase from \$35 million in available borrowings to \$50 million in available borrowings with a \$75 million accordion feature, bringing the total potential availability up to \$125 million, subject to certain conditions. As of June 30, 2017, the amount outstanding under the Facility was \$35 million.

The Company owns 107 communities, of which 29 are unencumbered. As of June 30, 2017, the Company had one mortgage with a balance of approximately \$10.2 million, which has been extended through August 31, 2017. We are currently in the process of refinancing this mortgage. These marketable securities, non-mortgaged properties, and lines of credit provide the Company with additional liquidity. The Company has been raising capital through its DRIP and through public offerings and registered direct placements of its common and preferred stock.

As of June 30, 2017, the Company had total assets of \$746,221,437 and total liabilities of \$389,229,804. The Company's net debt (net of unamortized debt issuance costs and cash and cash equivalents) to total market capitalization as of June 30, 2017 was approximately 32% and the Company's net debt, less securities to total market capitalization as of June 30, 2017 was approximately 23%. The Company believes that it has the ability to meet its obligations and to generate funds for new investments.

Funds from Operations

We also assess and measure our overall operating results based upon an industry performance measure referred to as Funds from Operations ("FFO"), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by The National Association of Real Estate Investment Trusts ("NAREIT"), represents net income (loss) attributable to common shareholders, as defined by accounting principles generally accepted in the United States of America ("U.S. GAAP"), excluding extraordinary items, as defined under U.S. GAAP, gains or losses from sales of previously depreciated real estate assets, and impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-U.S. GAAP supplemental measure of REIT operating performance. We define Core Funds from Operations ("Core FFO"), as FFO plus acquisition costs and cost of early extinguishment of debt. We define Normalized Funds from Operations ("Normalized FFO"), as Core FFO excluding gains and losses realized on securities investments and certain one-time charges. FFO, Core FFO and Normalized FFO should be considered as supplemental measures of operating performance used by REITs. FFO, Core FFO and Normalized FFO exclude historical cost depreciation as an expense and may facilitate the comparison of REITs which have a different cost basis. However, other REITs may use different methodologies to calculate FFO, Core FFO and Normalized FFO and, accordingly, our FFO, Core FFO and Normalized FFO may not be comparable to all other REITs. The items excluded from FFO, Core FFO and Normalized FFO are significant components in understanding the Company's financial performance.

FFO, Core FFO and Normalized FFO (i) do not represent Cash Flow from Operations as defined by U.S. GAAP; (ii) should not be considered as alternatives to net income (loss) as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) are not alternatives to cash flow as a measure of liquidity.

The reconciliation of the Company's U.S. GAAP Net Income (Loss) to the Company's FFO, Core FFO and Normalized FFO for the three and six months ended June 30, 2017 and 2016 are calculated as follows:

	Three Months Ended		Six Months Ended
