CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

June 30, 2017

The financial statements included herein have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. However, in the opinion of management, all adjustments (which include only normal recurring accruals) necessary to present fairly the financial position and results of operations for the periods presented have been made. These financial statements should be read in conjunction with the accompanying notes, and with the historical financial information of the Company.

**REFLECT SCIENTIFIC, INC.**

Notes to the Condensed Consolidated Financial Statements

June 30, 2017

(Unaudited)

NOTE 1 -

BASIS OF FINANCIAL STATEMENT PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company pursuant to accounting principles generally accepted in the United States of America. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted in accordance with rules and regulations of the Securities and Exchange Commission. The information furnished in the interim condensed consolidated financial statements includes normal recurring adjustments and reflects all adjustments, which, in the opinion of management, are necessary for a fair presentation of such financial statements. Although management believes the disclosures and information presented are adequate to make the information not misleading, it is suggested that these interim condensed consolidated financial statements be read in conjunction with the Company's most recent audited consolidated financial statements and notes thereto included in its December 31, 2016 financial statements. Operating results for the three and six months ended June 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017.

NOTE 2 -

ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION AND LINE OF BUSINESS:

Cole, Inc. (the Company) was incorporated under the laws of the State of Utah on November 3, 1999. The Company was organized to engage in any lawful activity for which corporations may be organized under the Utah Revised Business Corporation Act. On December 30, 2003 the Company changed its name to Reflect Scientific, Inc.

Reflect Scientific designs, develops and sells scientific equipment for the Life Science and Manufacturing industries. The Company's business activities include the manufacture and distribution of unique laboratory consumables and

disposables such as filtration and purification products, customized sample handling vials, electronic wiring assemblies, high temperature silicone, graphite and vespel/graphite sealing components for use by original equipment manufacturers ( OEM ) in the chemical analysis industries, primarily in the field of gas/liquid chromatography.

The Company s chemical detector products serve the analytical instrumentation sector of the Life Sciences market. These optically based chemical detection instruments provide a cost-effective, high-performance alternative for original equipment manufacturers (OEM). One major use for these detectors is the analysis of whole blood for metabolic diseases.

**SIGNIFICANT ACCOUNTING POLICIES:**

**PRINCIPLES OF CONSOLIDATION:** The accompanying consolidated financial statements include the accounts of Reflect Scientific, Inc. and its wholly owned subsidiaries, Cryometrix and Julie Martin Scientific Technology. Intercompany transactions and accounts have been eliminated in consolidation.

**USE OF ESTIMATES:** The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from those estimates.

**REVENUE RECOGNITION:** Revenue is only recognized on product sales once the product has been shipped to the customer, persuasive evidence of an agreement exists, the price is fixed or determinable, and collectability is reasonably assured. The Company sells its products in both the US and internationally through direct sales and independent distributors.

**ACCOUNTS RECEIVABLE:** Accounts receivables are presented net of an allowance for doubtful accounts. The Company maintains allowances for doubtful accounts for estimated losses. The Company reviews the accounts receivable on a periodic basis and makes general and specific allowances when there is doubt as to the collectability of individual balances. In evaluating the collectability of individual receivable balances, the Company considers many factors, including the age of the balance, a customer's historical payment history, its current credit-worthiness and current economic trends. Accounts are written off after exhaustive efforts at collection. At June 30, 2017 and December 31, 2016, the Company had accounts receivable of \$156,045 and \$73,424, respectively. At June 30, 2017 and December 31, 2016 the allowance for doubtful accounts was \$4,000 and \$4,000, respectively.

**INVENTORY:**

Inventories are presented net of an allowance for obsolescence and are stated at the lower of cost or market value based upon the average cost inventory method. The Company's inventory consists of parts for scientific vial kits, refrigerant gases, components for detectors and ultra-low temperature freezers which it builds and other scientific items. At June 30, 2017, inventory was made up of \$239,308 of finished goods, less an allowance for obsolescence of \$22,652. At December 31, 2016, inventory was comprised of \$249,619 of finished goods, less an allowance for obsolescence of \$22,652. There were no raw materials or work in progress for either period presented.

**INTANGIBLE ASSETS:** Costs to obtain or develop patents are capitalized and amortized over the life of the patents. Patents are amortized from the date the Company acquires or is awarded the patent over their estimated useful lives, which range from 5 to 15 years. An impairment charge is recognized if the carrying amount is not recoverable and the carrying amount exceeds the fair value of the intangible assets as determined by projected discounted net future cash flows. The Company's analysis did not indicate any impairment of intangible assets as of June 30, 2017.

**GOODWILL:** Goodwill represents the excess of the Company's acquisition cost over the fair value of net assets of the acquisition. Goodwill is not amortized, but is tested for impairment annually, or when a triggering event occurs. As described in ACS 360, the Company has adopted the two step goodwill impairment analysis that includes quantitative factors to determine whether it is more likely than not that

the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. A fair-value-based test is applied at the overall Company level. The test compares the estimated fair value of the Company at the date of the analysis to the carrying value of its net assets. The analysis also requires various judgments and estimates, including general and macroeconomic conditions, industry and the Company's targeted market conditions, as well as relevant entity-specific events, such as a change in the market for the Company's products and services. After considering the qualitative factors that would indicate a need for interim impairment of goodwill and applying the two-step process described in ASC 360, management has determined that the value of Company's assets is not more likely than not less than the carrying value of the Company including goodwill, and that no impairment charge needs be recognized during the reporting periods.

**RESEARCH AND DEVELOPMENT EXPENSE** - The Company accounts for research and development costs in accordance with the Financial Accounting Standards Board's Accounting Standard Codification Topic 730 "Research and Development". Under ASC 730, all research and development costs must be charged to expense as incurred. Accordingly, internal research and development costs are expensed as incurred. Third-party research and developments costs are expensed when the contracted work has been performed or as milestone results have been achieved. Company-sponsored research and development costs related to both present and future products are expensed in the period incurred.

**EARNINGS PER SHARE:** The computation of basic earnings per share of common stock is based on the weighted average number of shares outstanding during the period. Diluted EPS is computed by dividing net earnings by the weighted-average number of common shares and dilutive common stock equivalents during the period. Common stock equivalents are not used in calculating dilutive EPS when their inclusion would be anti-dilutive. At June 30, 2017 and 2016, the Company had no common stock equivalents.

**RECENT ACCOUNTING PRONOUNCEMENTS:** In May 2017, the Financial Accounting Standards Board ("FASB") issued ASU No. 2017-09, "Stock Compensation - Scope of Modification Accounting". This ASU requires all modifications to be accounted for as a modification unless the fair value, vesting conditions and classification of the award as equity or liability are the same as the classification of the original award immediately before the original award is modified. The amendments in this ASU are effective for fiscal years beginning after December 15, 2017 and for interim periods therein. The Company does not believe this ASU will have a material impact on its consolidated financial position, results of operation or cash flows.

The Company has reviewed all other recently issued, but not yet adopted, accounting standards in order to determine their effects, if any, on its consolidated results of operation, financial position and cash flows. Based on that review, the Company believes that none of these pronouncements will have a significant effect on its current or future earnings or operations.

NOTE 3 GOING CONCERN

The Company continues to accumulate significant operating losses and has an accumulated deficit of \$19,638,285 at June 30, 2017. These factors raise substantial doubt about the Company's ability to

continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

Management has taken a number of actions to reduce expenses. Management is seeking additional funding through the capital markets to facilitate the settlement of the remaining debentures, as well as to provide operating capital for its operations. However, there is no assurance that additional funding will be available on acceptable terms, if at all.

#### NOTE 4 SUBSEQUENT EVENTS

In accordance with ASC 855-10 management reviewed all material events through the date of this report. There are no material subsequent events to report.

## **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

### Special Note Regarding Forward-Looking Statements

The Private Securities Litigation Reform Act of 1995 (the Act) provides a safe harbor for forward-looking statements made by or on behalf of our Company. Our Company and our representatives may from time to time make written or oral statements that are forward-looking, including statements contained in this Annual Report and other filings with the Securities and Exchange Commission and in reports to our Company's stockholders. Management believes that all statements that express expectations and projections with respect to future matters, as well as from developments beyond our Company's control including changes in global economic conditions are forward-looking statements within the meaning of the Act. These statements are made on the basis of management's views and assumptions, as of the time the statements are made, regarding future events and business performance. There can be no assurance however, that management's expectations will necessarily come to pass. Factors that may affect forward-looking statements include a wide range of factors that could materially affect future developments and performance, including the following:

Changes in Company-wide strategies, which may result in changes in the types or mix of businesses in which our Company is involved or chooses to invest;

·  
Changes in U.S., global or regional economic conditions;

·  
Changes in U.S. and global financial and equity markets, including significant interest rate fluctuations, which may impede our Company's access to, or increase the cost of, external financing for our operations and investments;

·  
Increased competitive pressures, both domestically and internationally;

·  
Legal and regulatory developments, such as regulatory actions affecting environmental activities;

·  
The imposition by foreign countries of trade restrictions and changes in international tax laws or currency controls;

·  
Adverse weather conditions or natural disasters, such as hurricanes and earthquakes, labor disputes, which may lead to increased costs or disruption of operations.

This list of factors that may affect future performance and the accuracy of forward-looking statements are illustrative, but by no means exhaustive. Accordingly, all forward-looking statements should be evaluated with the understanding of their inherent uncertainty.

### Critical Accounting Policies and Estimates

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the unaudited Financial Statements and accompanying notes. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results could differ from these estimates under different assumptions or conditions. The Company believes there have been no significant changes during the six month period ended June 30, 2017, to the items disclosed as significant accounting policies in management's Notes to the Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

### Plan of Operation and Business Growth

Our efforts continue to be focused on increasing the sales of our life science consumables and detectors while, at the same time, working to commercialize our liquid nitrogen refrigeration products. Of those liquid nitrogen refrigeration products, the ultra-low temperature freezer is receiving highest priority. We also continue work on the refrigerated trailer, or reefer. We have our first manufactured unit operational, have conducted a number of road tests and are working to develop alliances with contract manufacturers for those products.

We also continue to focus on the expansion of our detector. We believe that the enhanced functionality of our new detector, coupled with its low cost, provides us with a competitive edge over products currently being sold in that specialized market.

Concurrent with the development and commercialization of the above products, we have completed our on-line catalog and are making progress in enrolling new distributors for our consumable products.

Our revenues during the three month reporting periods decreased 32% during 2017 compared to 2016 revenues.

### Results of Operations

#### Three Months Ended June 30, 2017 and 2016

		For the three months ended June 30,		
		2017	2016	Change
Revenues	\$	298,287\$	387,393\$	(89,106)
Cost of goods sold		119,080	105,184	13,896
Gross profit		179,207	282,209	(103,002)
Operating expenses		166,108	200,312	(34,204)
Other expense		-	(102)	102
Net profit (loss)	\$	13,099\$	81,795\$	(68,696)

Revenues decreased during the quarter ended June 30, 2017, to \$298,267 from \$387,393 for the quarter ended June 30, 2016, a decrease of \$89,106. The decrease results primarily from the sale of ultra-low

temperature freezers which generated revenue of \$115,670 in 2016 but only \$36,512 in 2017. We are continuing work to increase our market penetration in the ultra-low temperature freezer market.

Cost of goods increased in the quarter ending June 30, 2017, as compared to June 30, 2016, to \$119,080 from \$105,184, an increase of \$13,896. The increase was the result of lower ultra-low temperature freezer sales, which carry higher margins than the specialty laboratory products. We realized a gross profit percentage of 60% for the three months ended June 30, 2017, compared to 73% for the three months ended June 30, 2016. The gross profit percentage is dependent on the mix of product sales, which varies from quarter to quarter. We continue to actively work to obtain more favorable pricing from our vendors in order to increase the margins realized on all product lines.

Operating expenses decreased to \$166,108 in the three months ended June 30, 2017, a decrease of \$34,204 over the expenses of \$200,312 incurred in the three month period ended June 30, 2016. The largest contributor to the reduction was a \$17,967 decrease in expenditures for research and development. While we continue to monitor and minimize operating costs, we also realize that certain levels of expenditures are required in order to commercialize the products and achieve market penetration.

The net profit for the three month period ended June 30, 2017 was \$13,099, a decrease of \$68,696 from the \$81,795 profit for the three month period ended June 30, 2016. Management continues to look for opportunities to increase sales, improve gross margins and control ongoing operating expenses.

The net profit of \$13,099 for the three month period ended June 30, 2017 represents a profit of \$0.00 per share. This compares to the net profit of \$81,795, or \$0.00 per share for the three months ended June 30, 2016.

#### Six Months Ended June 30, 2017 and 2016

		For the six months ended June 30,		
		2017	2016	Change
Revenues	\$	554,202\$	761,357\$	(207,155)
Cost of goods sold		209,108	212,365	(3,257)
Gross profit		345,094	548,992	(203,898)
Operating expenses		338,384	431,063	(96,679)
Other expense		-	(245)	245
Net profit (loss)	\$	10,710\$	117,684\$	(106,974)

Revenues decreased during the quarter ended June 30, 2017, to \$554,202 from \$761,357 for the quarter ended June 30, 2016, a decrease of \$207,155. The decrease results primarily from the sale of ultra-low temperature freezers which generated revenue of \$231,340 in 2016 compared to \$63,853 in 2017. We are continuing work to increase our market penetration in the ultra-low temperature freezer market.

With lower sales during the reporting period, cost of goods decreased in the quarter ending June 30, 2017, as compared to June 30, 2016, to \$209,108 from \$212,365, a decrease of \$3,257. We realized a gross profit percentage of 62% for the six months ended June 30, 2017, compared to 72% for the six months ended June 30, 2016. The gross profit percentage is dependent on the mix of product sales, which varies

from quarter to quarter. The ultra-low temperature freezers provide higher gross margins than do our laboratory supplies. We continue to actively work to obtain more favorable pricing from our vendors in order to increase the margins realized on all product lines.

Operating expenses decreased to \$334,384 in the six months ended June 30, 2017, a decrease of \$96,679 over the expenses of \$431,063 incurred in the six month period ended June 30, 2016. The reduction was primarily the result of lower expenditures for research and development of \$28,626, commission expense of \$8,933, licenses of \$5,540 and promotion expense of \$3,313. While we continue to monitor and minimize operating costs, we also realize that certain levels of expenditures are required in order to commercialize the products and achieve market penetration.

The net profit for the six month period ended June 30, 2017 was \$10,710, a decrease of \$106,974 from the \$117,684 profit for the six month period ended June 30, 2016. Management continues to look for opportunities to increase sales, improve gross margins and control ongoing operating expenses.

The net profit of \$10,710 for the six month period ended June 30, 2017 represents a profit of \$0.00 per share. This compares to the net profit of \$117,684, or \$0.00 per share for the six months ended June 30, 2016.

#### Seasonality and Cyclicity

We do not believe our business is cyclical.

#### Liquidity and Capital Resources

Our cash resources at June 30, 2017, were \$175,517, with accounts receivable of \$156,045, net of allowance, and inventory of \$216,656, net of allowance. Our working capital on June 30, 2017, was \$519,097. Working capital on December 31, 2016 was \$508,387.

For the six month period ended June 30, 2017, net cash used by operating activities was \$88,447 which compares to \$48,588 net cash used by operating activities for the six month period ended June 30, 2016.

**Off-Balance Sheet Arrangements**

We lease office and warehouse space under a non-cancelable operating lease in Utah which runs through November 30, 2017. Future minimum lease payments under the operating lease at June 30, 2017, are \$15,500 for that facility. In addition, on May 9, 2014, the Company entered into an automobile lease. Future minimum lease payments under this lease are \$624 at June 30, 2017. The lease has an expiration date of August 8, 2017.

**Item 3. Quantitative and Qualitative Disclosure about Market Risk**

Not required.

#### **Item 4. Controls and Procedures**

**(a)**

##### **Evaluation of Disclosure Controls and Procedures.**

As of the end of the period covered by this Quarterly Report, we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon this evaluation, our Chief Executive Officer and Principal Financial Officer concluded that information required to be disclosed is recorded, processed, summarized and reported within the specified periods, and is accumulated and communicated to management, including our Chief Executive Officer and Principal Financial Officer, to allow for timely decisions regarding required disclosure of material information required to be included in our periodic Securities and Exchange Commission reports. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives and our Chief Executive Officer and Principal Financial Officer have concluded that our disclosure controls and procedures are not effective at that reasonable assurance level as of the end of the period covered by this report based upon our current level of transactions and staff. However, it should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote

**(b)**

##### **Changes in Internal Control Over Financial Reporting.**

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act. Management reviewed our internal controls over financial reporting, and there have been no changes in our internal controls over financial reporting for the six month period ended June 30, 2017 that have materially affected, or are like to affect, our internal controls over financial reporting.
