## Item 8.01 Other Events

As previously announced, effective May 2, 2005, Cummins Inc. (the "Company" or "we") made certain leadership changes within its management team. In connection with these changes, certain modifications were made to its internal reporting. These modifications are summarized below:

* The Filtration and Other Segment was renamed the Components Segment and includes operating results of the Fuel Systems business which were previously included in the Engine Segment. Historically, the Fuel Systems business primarily transferred product within the Engine Segment at cost and those costs were eliminated from segment results. As a result, this change does not materially impact Engine segment revenues or EBIT. Revenues of the Components Segment were increased to reflect transfers to the Engine Segment and eliminations were increased by a corresponding amount.
* The North American Distribution business was combined with the International Distribution Segment and renamed the Distribution Segment. Previously, the North American business was reported in the Engine and Power Generation Segments as equity from investees and also include the results of a partially owned distributor we are required to consolidate. As a result, revenues of the Engine Segment were increased to reflect sales to the consolidated distributor that were previously eliminated and decreased for the revenues of the consolidated distributor which are now included in the Distribution Segment. In addition, earnings from equity investees in the Engine and Power Generation Segments decreased while equity from investees in the Distribution Segment increased by a corresponding amount.

Due to the extent of intersegment activity and certain seasonality in inventory levels during the year, the Company elected to present the elimination of intercompany profit in inventory resulting from intersegment activity in the eliminations column of its segment reporting. This presentation better aligns segment revenues with segment costs and portrays each operating segment as if it were an independent, stand-alone entity.

## Item 9.01. Financial Statements and Exhibits.

Exhibit 99.1 attached below presents the unaudited restated operating segment data reflecting the changes described above.
