ITEM 2.02	RESULTS OF OPERATIONS AND FINANCIAL CONDITION
-----------	---

Stryker Corporation (the Company) issued a press release on July 19, 2011 announcing its second quarter 2011 operating results. A copy of this press release is attached hereto as Exhibit 99.1.

In its press release, the Company made references to the following financial measures: "constant currency" and "adjusted diluted net earnings per share." These financial measures are an alternative representation of the Company's past and potential future operational performance and do not replace the presentation of the Company's reported financial results under U.S. generally accepted accounting principles (GAAP). The Company has provided these supplemental non-GAAP financial measures because they provide meaningful information regarding the Company's results on a consistent and comparable basis for the periods presented. Management uses these non-GAAP financial measures for reviewing the operating results of its business segments, for analyzing potential future business trends in connection with its budget process and bases certain annual bonus plans on these non-GAAP financial measures. In order to measure the Company's sales performance on a constant currency basis, it is necessary to remove the impact of changes in foreign currency exchange rates which affects the comparability and trend of sales. Constant currency results are calculated by translating current year results at prior year average foreign currency exchange rates. In order to measure the Company's earnings performance on a consistent and comparable basis, the Company excludes acquisition and integration-related charges recorded in 2011, the impairment of property, plant and equipment and gain on sale of certain assets recorded in 2010, income taxes associated with the repatriation of foreign earnings recorded in 2010 and 2009, restructuring charges recorded in 2009 and the gain recorded pursuant to a confidential patent infringement settlement agreement recorded in 2009, each of which affects the comparability of operating results and the trend of earnings. In addition, the Company believes investors will utilize this information to evaluate period-to-period results on a comparable basis and to better understand potential future operating results. The Company encourages investors and other users of these financial statements to review its consolidated financial statements and other publicly filed reports in their entirety and not to rely solely on any single financial measure.

The reconciliation of projected reported diluted net earnings per share to adjusted diluted net earnings per share for the year ended December 31, 2011 is as follows:

Projected results:		Range	
Reported diluted net earnings per share	\$3.30	to	\$3.40
Acquisition and integration-related charges (a)	\$0.35	to	\$0.33
Adjusted diluted net earnings per share	\$3.65	to	\$3.73

(a)	On January 3, 2011, the Company completed the acquisition of the assets of the
	Neurovascular division of Boston Scientific Corporation; on June 27, 2011, the Company completed
	the acquisition of Orthovita, Inc. Accordingly, the Company will incur certain acquisition and
	integration-related charges during 2011.

Edgar Filing: STRYKER CORP - Form 8-K

The reconciliation of reported diluted net earnings per share to adjusted diluted net earnings per share for the quarters ended June 30, 2011 and 2010 is included in the press release attached hereto as Exhibit 99.1.
