RF Industries' Third Quarter Net Income Jumps 34%  
to \$0.07 Per Share On 17% Sales Gain

Nine Months Net Income More Than Doubles On 17% Increase in Sales

SAN DIEGO, CALIFORNIA, September 1, 2004 . . . RF INDUSTRIES, LTD., (NASDAQ:RFIL) today announced that net income for the third quarter of fiscal 2004 ended July 31, 2004 increased 34% to \$266,116, or \$0.07 per diluted share, compared to \$198,278, or 0.06 per diluted share, in the same quarter last year. Sales increased 17% to \$2,727,000 from \$2,337,000 in the same quarter last year.

For the nine months ended July 31, 2004, net income increased 108% to \$851,437, or \$0.23 per diluted share, compared to \$409,590, or \$0.11 per diluted share, in same period last year. Sales increased 17% to \$7,998,000 compared to \$6,830,000 in the same period last year.

"Continuing strong demand for Wi-Fi related connectors and cable products contributed to RFI's 17% sales gains for the quarter and year-to-date. Connector sales of nearly \$8,000,000 for the nine months-to-date benefited from Bioconnect product sales, which increased to \$371,000 during the same period. The acquisition of Aviel Electronics, in the fourth quarter of fiscal 2004, combined with higher Bioconnect, coaxial connector and cable product sales, should lead to record revenue in the current fiscal year," said Howard Hill, president of RF Industries.

Hill noted that the Company's recently announced acquisition of Aviel Electronics, a privately held Las Vegas, Nevada-based manufacturer and marketer of microwave and radio frequency (RF) connectors, is expected to enhance RFI's growing line of custom RF coaxial connectors. Aviel's annual sales of connector and RF products are approximately \$1,000,000.

"Neulink continues to meet with and demonstrate its NL6000 narrow-band high-speed wireless modems to customers with industrial data collection and national defense applications. Despite lower sales at Neulink, we believe this product, designed to meet new FCC regulations in the coming year, will contribute to increasing sales at Neulink in fiscal 2005," he said.

At July 31, 2004, RFI reported cash and cash equivalents of \$4,518,012, working capital of \$9,470,818, a 22 to 1 current ratio, no long-term debt and stockholders' equity of \$9,905,238, or \$3.31 per share.

About RF Industries

RF Industries' Connector division designs and distributes radio frequency (RF) coaxial connectors and cable assemblies used for Wi-Fi, PCS, radio, test instruments, computer networks and antenna devices. Connector's Bioconnect Medical cable operation designs, manufactures and distributes specialized electrical cabling and interconnect products to the medical monitoring market. The Company's Neulink business designs and markets wireless digital data transmission products for industrial monitoring, wide area networks, GPS tracking and locations systems.
