The Aristotle Corporation Announces Fourth Quarter and Calendar 2008 Results

Stamford, CT, March 20, 2009 - The Aristotle Corporation (NASDAQ: ARTL; ARTLP) announced today the following:

Results for Quarter and Calendar Year ended December 31, 2008

For the calendar year ended December 31, 2008, net sales were \$212.8 million compared to \$211.6 million for the calendar year ended December 31, 2007, and earnings from operations were \$34.6 million compared to \$35.0 million.

For the quarter ended December 31, 2008, net sales were \$40.6 million versus \$43.6 million for the quarter ended December 31, 2007, and earnings from operations were \$4.3 million versus \$5.7 million.

For the calendar year ended December 31, 2008, there were net earnings applicable to common stockholders of \$15 thousand, or \$.00 per diluted common share, compared to net earnings of \$14.9 million, or \$.84 per diluted common share, for the calendar year ended December 31, 2007. For the quarter ended December 31, 2008, there was a net loss applicable to common stockholders of \$12.0 million, or (\$.67) per diluted common share, versus net earnings of \$3.1 million, or \$.17 per diluted common share, for the quarter ended December 31, 2007. The net results applicable to

common stockholders for the quarter and calendar year ended December 31, 2008 reflect the unfavorable impact of a \$12.4 million after-tax loss related to certain externally managed investments.

Steven B. Lapin, Aristotle's President and Chief Operating Officer, stated, "In the face of severely deteriorating general economic conditions during the latter part of 2008, the Company nevertheless successfully produced substantial revenues and earnings from operations during the fourth quarter and full calendar year. The K-12 school markets, as well as the commercial markets served by the Company, are dependent on the vitality of state and local economies. Management is cautiously hopeful that the recently enacted American Recovery and Reinvestment Act of 2009 will help combat recessionary trends and unlock meaningful educational spending for the new budget year that begins in July 2009.

Dean Johnson, Aristotle's Chief Financial Officer, stated, "While management is disappointed by the investment related losses which impacted the results for the 2008 fourth quarter and calendar year, the Company's financial condition is strong. With a net worth of \$110.9 million, borrowing capacity of \$40 million, and substantial Company liquidity, the loss of asset value will not interfere with on-going business activities, including unsurpassed service to customers.

To the extent that any of the statements contained in this release are forward-looking, such statements are based on current expectations that involve a number of uncertainties and risks that could cause actual results to differ materially from those projected or suggested in such forward-looking statements. Aristotle cautions investors that there can be no assurance that actual results or business conditions will not differ materially from those projected or suggested in such forward-looking statements as a result of various factors, including, but not limited to, the following: (i) the ability of Aristotle to obtain financing and additional capital to fund its business strategy on acceptable terms, if at all; (ii) the ability of Aristotle on a timely basis to find, prudently negotiate and consummate additional acquisitions; (iii) the ability of Aristotle to manage any to-be acquired businesses; (iv) there is not an active trading market for the Company's securities and the stock prices thereof are highly volatile, due in part to the relatively small percentage of the Company's securities which is not held by the Company's majority stockholder and members of the Company's Board of Directors and management; (v) the ability of Aristotle to retain and utilize its deferred tax positions; and (vi) other factors identified in Item 1A, Risk Factors, contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2007. As a result, Aristotle's future development efforts involve a high degree of risk.
