Edison International has no obligation to publicly update any forward-looking statements, whether due to new information, future events, or otherwise.

Section 8 - Other Events

Item 8.01 Other Events

Edison Mission Energy (EME), a subsidiary of Edison International, previously owned and operated a 1,100 MW combined cycle, natural gas-fired power plant located in the United Kingdom, known as the Lake Vyrnwy. The ownership of the project was held through EME's indirect subsidiary, Lakeland Power Ltd., which generated from the plant pursuant to a power sales agreement with Norweb Energi Ltd., a subsidiary of TXU Holdings Limited (TXU UK) and an indirect subsidiary of TXU Europe Group plc (TXU Europe). EME ceased operations by consolidating the activities of Lakeland Power Ltd. in 2002, when an administrative receiver was appointed following a default by Norweb Energi Ltd. under the power sales agreement.

As previously disclosed, the administrative receiver of Lakeland Power Ltd. filed a claim against Norweb Energi Ltd. for termination of the power sales agreement. On November 19, 2002, TXU UK and TXU Europe, along with a related entity, TXU Europe Energy Trading Limited (TXU Energy), entered into formal administrative proceedings of their own in the United Kingdom (similar to bankruptcy proceedings in the United States). On March 31, 2005, Lakeland Power Ltd. received 112 million pounds (approximately \$210 million) from Norweb Energi Ltd. administrators, representing an interim payment of 97% of its accepted claim of 116 million pounds (approximately \$217 million).

From the amount received, Lakeland Power Ltd., now controlled by a liquidator in the United Kingdom, will make payments due to EME under a secured loan which EME purchased from Lakeland Power Ltd.'s administrators in 2004 (approximately \$12 million as of April 6, 2005). Additionally, Lakeland Power Ltd. is EME's subsidiary that owns the equity interest in Lakeland Power Ltd. the amount remaining after payment of any remaining secured and unsecured creditor claims and payment of or provision for tax liabilities and expenses associated with Lakeland Power Ltd.'s liquidation.

EME estimates that the net proceeds after tax (including taxes due in the United States) from the above payments will be approximately \$100 million and the increase in net income will be approximately \$100 million. These proceeds may be received throughout 2005, and possibly 2006, as Lakeland Power Ltd. liquidation progresses. Because the amounts required to settle outstanding claims and UK taxes have not been determined, cannot be estimated precisely in the context of the liquidation, the actual amount of net proceeds from the liquidation in net income may vary materially from the above estimate.
