Edgar Filing: TELEFONOS DE MEXICO S A DE C V - Form 6-K

Costs and expenses in the first quarter totaled 28,756 million pesos, 1.5% lower than the same period of the previous year, mainly due to the decrease of interconnection costs as a result of the 10% reduction in the calling party pays rate and lower costs related to depreciation and amortization, international settlement, and prepaid cards.

EBITDA (1) totaled 18,822 million pesos in the first quarter, a decrease of 2.8% compared with the same period of 2005. Comprehensive financing cost

: Comprehensive financing cost was 984 million pesos in the quarter compared with 1,008 million pesos in the first quarter of 2005. This result was due to: (i) a decrease of 13% in net interest because of a lower cost of debt, (ii) a higher exchange loss from the impact of the first-quarter's exchange rate variation of 0.24 pesos per dollar; partially offset by the gain that hedges produced; and (iii) a gain in the monetary position of 599 million pesos during the quarter.

S 87 OTHERS

In this item there are included the inventories for construction that at March 2006 and 2005 rose \$2,217,305 and \$2,464,041, respectively. They are used for the operation of the telephone plant and are valued by the average cost method and are updated based on the specific index method, without exceeding their market value.

S 84 ACTIVOS INTANGIBLES POR OBLIGACIONES LABORALES

In this item it is included the projected net asset accordingly with Bulletin D-3 Labor Obligations issued by the Mexican Institute of Public Accountants.

PROJECTED NET ASSETS (D-3)

At March 31, 2006 and 2005, the market value of the established pensions and seniority premium fund was greater than the Accumulated Benefit Obligation (ABO) in Mexico, and pursuant to Bulletin D-3 Labor Obligations issued by the Mexican Institute of Public Accountants, it is not recognized neither any additional liability nor the related intangible asset and effect of labor obligation on stockholders' equity. As a result of the foregoing, the balance sheet presents a projected net asset.

S 23 AND S 28 BANK LOANS

In this item, supplier's credits are included in bank credits. The supplier's credits are reclassified to bank loans because in the Balance Sheet of the Mexican Stock Exchange's System "EMISNET", long-term opening to supplier's does not exist.

On October 20, 2005, TELMEX signed an agreement to restructure the syndicated bank loan issued on July 15, 2004 for 2.425 billion dollars to improve the credit conditions and increase the total amount to 2.5 billion dollars in two tranches, the first one for 1.5 billion dollars due in four years and the second one for 1 billion dollars due in six years.

S 24 AND S 29 STOCK MARKET LOANS

During 2001, TELMEX issued senior notes for U.S.\$1.5 billion, maturing in 2006 and bearing 8.25% annual; interest payable semi-annually. From January to December, 2005, TELMEX repurchased in the market a portion of these senior notes in the amount of U.S. \$431.6 million (nominal value). The difference between the repurchase price and the nominal value of the bonds is U.S.\$ 15.6 million. On January 26, 2006, Telmex paid the outstanding balance that amounted U.S.\$1,068.4 million.

On November 19, 2003 TELMEX issued a bond for U.S.\$ 1.0 billion due 2008, with an annual; interest of 4.5%. Interest will be paid every six months.

On January 27, 2005 TELMEX placed senior notes in aggregate principal amount of U.S.\$1.3 billion in two issuances of U.S.\$650 million each, the first one maturing in 2010 and bearing interest at 4.75% annual and the second one maturing in 2015 and bearing interest at 5.50% annual. Interest will be paid every six months. On February 22, 2005 there was a reopening of this transaction and the amounts of such issuances increased to U.S. \$950 and U.S. \$800 million, respectively.

On January 31, 2006, TELMEX placed abroad a senior note in the amount of Ps. 4.5 billion, maturing in 2016 and bearing interest at 8.75%. Interest will be paid every six months.

TRANSACTIONS IN FOREIGN CURRENCY AND EXCHANGE OF FINANCIAL STATEMENTS FROM
FOREIGN OPERATIONS

Consolidated

Basis of translation of financial statements of foreign subsidiaries

The financial statements of the subsidiaries located abroad were translated into Mexican pesos, as follows:

The financial statements as reported by the subsidiaries abroad were adjusted to conform to accounting principles generally accepted in Mexico.

All balance sheet amounts, except for stockholders' equity, were translated at the prevailing exchange rate at year-end; stockholders' equity accounts were translated at the prevailing exchange rate at the time capital contributions were made and earnings were generated. The statement of income amounts were translated at the prevailing exchange rate at the end of the reporting period. The translation into Mexican pesos is carried out after the related balances or transactions have been restated based on the inflation rate of the country in which the subsidiary operates.

Exchange differences and the monetary position effect derived from intercompany monetary items were not eliminated from the consolidated statements of income.

Translation differences are included in the caption *Effect of translation of foreign entities* and are included in stockholders' equity as part of the caption *Other comprehensive income items*.
