Item 2. ACQUISITION OR DISPOSITION OF ASSETS.

We are filing this amendment to our Current Report on Form 8-K filed March 6, 2002 to announce that on June 11, 2002, we completed the final transactions between us and Cambior Inc. The transactions consisted of the sale of Cambior's interests to us in the Yaou, Dorlin and Bois Canon properties in French Guiana, which was completed on June 11, 2002 as well as the sale of our interests in the Gross Rosebel, Headleys and Thunder Mountain properties in Suriname, and our interest in Omai Gold Mines Limited, or OGML in Guyana, to Cambior Inc.

For the sale of the Gross Rosebel property, Golden Star received a total of \$5 million by the closing date and will receive deferred payments totaling \$3 million by the fourth anniversary of closing. In addition, Cambior will pay Golden Star a royalty equal to 10% of the excess of the average quarterly market price above a gold price hurdle on the first 7 million ounces of gold production from Gross Rosebel. For soft and transitional rock the gold price hurdle is \$300 per ounce and for hard rock the hurdle is \$350 per ounce.

The total consideration for the Headleys and Thunder Mountain properties comprises a deferred consideration of \$1 million, to be paid to Golden Star in the event that Cambior commences commercial mining from these properties.

Under the terms of the sale of its 30% equity interest and preferred shares in OGML, Cambior assumed the unpaid portion of the non-interest bearing loan made to Golden Star in December 1998. In addition, Golden Star received a release and waiver from OGML, Cambior and the Guyana Government in respect of all liabilities, of any nature, related to the Omai Gold Mine.

Notes to Pro Forma Consolidated Financial Statements

As at and for the three months ending March 31, 2002 and as at and for the year ending December 31, 2001 (unaudited)

1. Basis of Presentation

Throughout 2002, Golden Star Resources Ltd. (Golden Star) disposed of and acquired a number of interests in a series of transactions with Cambior Inc. (Cambior) as disclosed in Note 2.

The accompanying unaudited pro forma consolidated balance sheets and pro forma consolidated statements of operations (pro forma consolidated financial statements) have been prepared based on the unaudited financial statements of Golden Star as at and for the three months ended March 31, 2002 and the audited financial statements of Golden Star as at and for the year ended December 31, 2001.

The financial statements of Golden Star are prepared in accordance with Canadian GAAP which differs in certain respects from U.S. GAAP. A reconciliation of these pro forma financial statements to U.S. GAAP is provided in Note 3.

The pro forma consolidated balance sheets give effect to the transactions described in Note 2 as if they occurred on the balance sheet date while the pro forma consolidated statements of income give effect to these transactions as if they had occurred at the beginning of the period.

These pro forma consolidated financial statements may not be indicative either of the results that actually would have occurred if the events reflected herein had been in effect on the dates indicated or of the results which may be obtained in the future.

Accounting policies used in the preparation of the pro forma consolidated financial statements are consistent with those used in the audited financial statements of Golden Star prepared for the year ended December 31, 2001.

This financial information should be read in conjunction with Golden Star's Reports on Form 10-K as at and for the year ended December 31, 2001 and Form 10-Q as at and for the three months ended March 31, 2002.

2. Transaction with Cambior Inc.

On June 11, 2002, Golden Star completed the final transactions between Golden Star and Cambior Inc. The transactions consisted of the sale of Cambior's interests to Golden Star in the Yaou, Dorlin and Bois Canon properties in French Guiana, which was completed on June 11, 2002 as well as the sale of Golden Star's interests in the Gross Rosebel,

Table of Contents

Headleys and Thunder Mountain properties in Suriname, and Golden Star's interest in Omai Gold Mines Limited (OGML) in Guyana, to Cambior Inc.

For the sale of the Gross Rosebel property, Golden Star received a total of \$5 million by the closing date and will receive deferred payments totalling \$3 million by the fourth anniversary of closing. In addition, Cambior will pay Golden Star a royalty equal to 10% of the excess of the average quarterly market price above a gold price hurdle on the first 7 million ounces of gold production from Gross Rosebel. For soft and transitional rock the gold price hurdle is \$300 per ounce and for hard rock the hurdle is \$350 per ounce.

The total consideration for the Headleys and Thunder Mountain properties comprises a deferred consideration of \$1 million, to be paid to Golden Star in the event that Cambior commences commercial mining from these properties. No consideration has been recorded in the pro forma financial statements for this deferred consideration.

Under the terms of the sale of its 30% equity interest and preferred shares in OGML, Cambior assumed the unpaid portion of the non-interest bearing loan made to Golden Star in December 1998. In addition, Golden Star received a release and waiver from OGML, Cambior and the Guyana Government in respect of all liabilities, of any nature, related to the Omai Gold Mine.

3. Reconciliation to U.S. GAAP

The adjustments to the pro forma consolidated financial statements under U.S. GAAP would differ from those under Canadian GAAP. The adjustments under U.S. GAAP would differ as described below. For a complete reconciliation of the consolidated financial statements, refer to Form 10-K as at and for the year ended December 31, 2001 and Form 10-Q as at and for the three months ended March 31, 2002.

Under U.S. GAAP, acquisition costs, exploration costs and general and administrative costs related to projects are charged to expense as incurred. As such, the acquisition, deferred exploration and development cost balance sheet item would be nil under reported and pro forma presentation for both periods. The \$8,067,000 adjustment would be reflected as a gain on sale and would be an adjustment to the deficit on the balance sheets and gain on sale of assets on the statements of operations for both periods.

Under U.S. GAAP, the preferred share investment in OGML would have a carrying value of nil. Therefore, the entire Omai preferred share redemption premium would have been included in income. For the year ended December 31, 2001, the \$141,000 adjustment to the investment in OGML and the \$583,000 adjustment to the Omai preferred share redemption premium would not have been recorded and the gain on sale would have been adjusted by \$1,358,000. For the period ended March 31, 2002, the \$169,000 adjustment to the Omai preferred share redemption premium would not have been recorded and the gain on sale would have been adjusted by \$310,000.
