PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS

The accompanying proxy is solicited by the board of directors of AXT, Inc., a Delaware corporation (AXT or the Company), for use at the annual meeting of stockholders to be held May 21, 2002, or any adjournment or postponement thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. The date of this proxy statement is April 22, 2002, the approximate date on which this proxy statement and the accompanying form of proxy card were first sent or given to our stockholders.

GENERAL INFORMATION

Annual Report. Our annual report for the year ended December 31, 2001, is enclosed with this proxy statement.

Voting Securities. Only common stockholders of record as of the close of business on March 25, 2002, will be entitled to vote at the meeting and any adjournment thereof. As of that date, there were 22,432,192 shares of our common stock, par value \$.001 per share, issued and outstanding, all of which are entitled to vote with respect to all matters to be acted upon at the annual meeting. Common stockholders may vote in person or by proxy. Each stockholder of record as of that date is entitled to one vote for each share of common stock held on the proposals presented in this proxy statement. Our bylaws provide that a majority of all of the shares of our capital stock entitled to vote, whether present in person or represented by proxy, shall constitute a quorum for the transaction of business at the meeting. Votes for and against, abstentions and broker non-votes will each be counted as present for purposes of determining the presence of a quorum. Our Series A preferred stock is not entitled to vote on any matter to be voted on by the stockholders, except as otherwise required by law, and is not entitled to vote at this meeting.

Solicitation of Proxies. We will bear the cost of soliciting proxies. We will solicit stockholders by mail through our employees, and will request banks and brokers, and other custodians, nominees and fiduciaries, to solicit their customers who have our stock registered in the names of such persons and will reimburse them for their reasonable, out-of-pocket costs. We may use the services of our officers, directors and others to solicit proxies, personally or by telephone, without additional compensation. In addition, we have retained Regan & Associates, Inc., a proxy solicitation firm, for assistance in connection with the annual meeting at a cost of approximately \$3,500.

Voting of Proxies. All valid proxies received prior to the meeting will be voted. All shares represented by a proxy will be voted, and where a stockholder specifies by means of the proxy a choice with respect to any matter to be acted upon, the shares will be voted in accordance with the specification so made. If no choice is indicated on the proxy, the shares will be voted in favor of the proposal. A stockholder giving a proxy has the power to revoke his or her proxy, at any time prior to the time it is voted, by delivering to the Secretary of the Company at our principal offices located at 4281 Technology Drive, Fremont, California 94538, a written instrument revoking the proxy or a duly executed proxy with a later date, or by attending the meeting and voting in person.

Table of Contents**PROPOSAL NUMBER ONE****ELECTION OF DIRECTORS**

We have a classified board of directors which currently consists of five directors, two of whom are Class I directors, two of whom are Class II directors, and one who is a Class III director. Class I, Class II and Class III directors serve until the annual meeting of stockholders to be held in 2002, 2003 and 2004, respectively. All directors serve until their respective successors are duly elected and qualified. Directors in a class are elected for a term of three years to succeed the directors in that class whose terms expire at such annual meeting.

The terms of each Class I director will expire on the date of the upcoming meeting. Accordingly, two persons are to be elected to serve as Class I directors. Management's nominees for election by the stockholders to Class I of our board of directors are Morris S. Young and David C. Chang, the current Class I members of the board of directors. If elected, the nominees will serve as directors until our annual meeting of stockholders in 2005, and until their successors are elected and qualified. If either nominee declines to serve or becomes unavailable for any reason, or if a vacancy occurs before the election, the proxies may be voted for substitute nominees as the board of directors may designate, although management knows of no reason why this would occur.

Vote Required and Board of Directors Recommendation

If a quorum is present and voting at the annual meeting of stockholders, the nominees for Class I directors receiving the highest number of votes cast will be elected. Abstentions and broker non-votes will have no effect on the outcome of the vote. Shares of Series A Preferred stock are not entitled to vote on this matter.

- (3) All options were granted at an exercise price equal to the fair market value of our common stock on the date of grant, as determined by reference to the closing sales price as reported on the Nasdaq National Market on the date of grant.
- (4) Potential realizable values are net of exercise price, but before taxes associated with exercise, and are based upon the assumption that our common stock appreciates at the annual rate shown (compounded annually) from the date of grant until the expiration of the ten-year option term. These amounts represent hypothetical gains that could be achieved for the respective options if exercised at the exercise price and sold at the end of the option term, at the appreciated price. The assumed 5% and 10% rates of stock price appreciation are provided in accordance with rules of the Securities and Exchange Commission and do not represent our estimate or projection of the future common stock price. Actual gains, if any, on stock option exercises are dependent on the future performance of the common stock, overall market conditions and the option holders' continued employment through the vesting period. This table does not take into account any appreciation in the price of the common stock from the date of grant to the current date.
- (5) Options from first grant listed vest 20% on July 26, 2002, 40% over 24 months beginning August 26, 2002 and the remaining 40% over 12 months beginning August 26, 2004. Options from the second grant listed vest 25% over 12 months beginning January 31, 2002 and the remaining 75% over 12 months beginning September 1, 2005.
- (7) Options from first grant listed vest 20% on July 26, 2002, 40% over 24 months beginning August 26, 2002 and the remaining 40% over 12 months beginning August 26, 2004. The following table provides specified information concerning exercises of options to purchase our common stock during fiscal 2001, and unexercised options held at December 31, 2001, by the persons named in the Summary Compensation Table:

Name	Shares Acquired on Exercise	Value Realized	Number of Securities Underlying Unexercised Options at 12/31/01(1)		Value of Unexercised in- the-Money Options at 12/31/01(2)

- (1) We have a right of repurchase as to any unvested shares upon optionee's termination of employment at its original exercise price.
- (2) Calculated on the basis of the fair market value of the underlying securities as of December 31, 2001 of \$14.43 per share, as reported as the closing price of our common stock on the Nasdaq National Market, less the aggregate exercise price.

Shares Acquired on Exercise includes all shares underlying the option, or portion of the option, exercised, without deducting shares withheld to satisfy tax obligations sold to pay the exercise price, or otherwise disposed of. Value Realized is calculated by multiplying the difference between the market value (closing market price) at the exercise date and the exercise price by the number of shares acquired upon exercise. Value of Unexercised in-the-Money Options is calculated by multiplying the difference between the market

value (closing market price) and exercise price at fiscal year end by the number of options held at fiscal year end.

No compensation intended to serve as incentive for performance to occur over a period longer than one fiscal year was paid pursuant to a long-term incentive plan during fiscal 2001 to any persons named in the Summary Compensation Table. We do not have any defined benefit or actuarial plan under which benefits are determined primarily by final compensation or average final compensation and years of service with any of the persons named in the Summary Compensation Table.

Compensation of Non-Employee Directors

Each of our non-employee directors receives \$1,500 per board or committee meeting, and is reimbursed for reasonable expenses. The non-employee directors are eligible to receive option grants pursuant to our 1997 Stock Option Plan.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our executive officers, directors and persons who beneficially own more than 10% of our common stock to file initial reports of ownership and reports of changes in ownership with the Securities and Exchange Commission. These persons are required by Securities and Exchange Commission regulations to furnish us with copies of all Section 16(a) forms that they file.

Based solely on our review of the forms furnished to us and written representations from certain reporting persons, we believe that all filing requirements applicable to our executive officers, directors and persons who beneficially own more than 10% of our common stock were complied with in fiscal 2001.

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

The compensation committee is comprised of David C. Chang, Jesse Chen, and B. J. Moore, each a non-employee member of the board of directors. The compensation committee is responsible for setting and monitoring policies governing compensation of executive officers. The compensation committee reviews the performance and compensation levels for executive officers and sets salary and bonus levels and option grants under our 1997 Stock Option Plan. The objectives of the committee are to correlate executive compensation with our business objectives and performance, and to enable us to attract, retain and reward executive officers who contribute to our long-term success.

As the industry in which the Company operates can be extremely competitive, the compensation committee believes that the compensation programs for executive officers should be designed to retain and motivate talented executives responsible for the success of the Company, and should be determined within the competitive environment within which the Company is situated and based on the achievement of business objectives, individual contribution, and financial performance. The committee's goals are to provide a total compensation package that considers the compensation practices of companies with which the Company competes for executive officers, provides variable compensation that is linked to achievement of financial, division, and individual performance goals, and aligns the interests of the executive officers with those of the company by providing them with an equity stake in the Company. The components of the Company's compensation policies for executive officers consists of base salary and benefits, bonuses and long-term stock option incentives.

Salary

The compensation committee annually assesses the performance and sets the salary of the Company's president and chief executive officer, Morris S. Young, and the other executive officers. At the beginning of the fiscal year, base salaries were established by the board of directors based on competitive compensation data, top executive's job responsibilities, experience, individual performance and contributions to the business. No specific formula was applied to determine the weight of each factor.

Table of Contents

The board's decision with regard to Dr. Young's compensation as president and chief executive officer was based on compensation paid to presidents and chief executive officers of comparably sized companies. In addition, the compensation committee considers certain incentive objectives based on the Company's performance as it relates to revenue levels and earnings per share levels.

In determining executive officer salaries, the compensation committee reviews recommendations from Dr. Young, which includes information from salary surveys, performance evaluations and the financial condition of the Company. The compensation committee also establishes both financial and operational-based objectives and goals in determining executive officer salaries. These goals and objectives include sales and spending forecasts for the upcoming year and published executive compensation literature for comparably sized companies.

For more information regarding the compensation and employment arrangements of Dr. Young and other executive officers, see EXECUTIVE COMPENSATION AND OTHER MATTERS.

Bonuses

Incentive bonuses are intended to reflect the board's belief that a significant portion of the compensation of each executive officer should be contingent on the performance of the Company, as well as the individual contribution of each executive officer. In consultation with the chief executive officer, the compensation committee annually determines the total amount of cash bonuses available for executive officers and certain other management employees. For fiscal 2001, bonus awards were contingent on the Company's attainment of revenue and operating profit targets, set by the compensation committee in consultation with the chief executive officer. Additionally, awards may be weighted so that executives would receive proportionately higher awards when performance targets are met and proportionately smaller awards when performance targets are not met.

Stock Options

The compensation committee believes that employee equity ownership provides significant motivation to executive officers to maximize value for our stockholders and, therefore, periodically grants stock options under our stock option plan. Stock options are granted at the current market price and will only have value if our stock price increases over the exercise price. It is the belief of the board that stock options directly motivate an executive to maximize long-term stockholder value.

The compensation committee determines the size and frequency of option grants for executive officers, after consideration of recommendations from the chief executive officer. Recommendations for options are based upon the relative position and responsibilities of each executive officer, previous and expected contributions of each officer to the Company and previous option grants to each executive officer.

Compensation of Chief Executive Officer

Morris S. Young has served as the Company's president and chief executive officer since 1989. Early in 2001, the compensation committee reviewed Dr. Young's performance with regard to performance objectives set by the board of directors in 2000, weighted among specific personal and corporate objectives, in determining his eligibility for bonus compensation. Dr. Young's bonus compensation for fiscal 2001 was \$14,000. In addition, the board of directors granted Dr. Young options to purchase 120,000 shares of AXT's common stock based on attainment of predetermined financial and other corporate goals.

Section 162(m) of the Internal Revenue Code

The Company has considered the provisions of Section 162(m) of the Internal Revenue Code and related Treasury Department regulations which restrict deductibility of executive compensation paid to the Company's chief executive officer and each of the four other most highly compensated executive officers holding office at the end of any year to the extent such compensation exceeds \$1,000,000 for any of such officers in any year and does not qualify for an exception under the statute or regulations. Income from options granted under

Table of Contents

the 1997 Option Plan would generally qualify for an exemption from these restrictions so long as the options are granted by a committee whose members are non-employee directors. The Company expects that the compensation committee will generally be comprised of non-employee directors, and that to the extent such committee is not so constituted for any period of time, the options granted during such period will not be likely to result in compensation exceeding \$1,000,000 in any year.
