FOR IMMEDIATE RELEASE

INCUMBENT OPERATOR TELECOM NAMIBIA PLACES FOLLOW-ON ORDER FOR ALVARION SYSTEMS

VALUED AT OVER \$1M

Already Deployed Successfully in 15 Sites, National Carrier Extends
Alvarion Network to 3 Additional Sites

TEL - AVIV, ISRAEL, JANUARY 27, 2004 - ALVARION LTD. (NASDAQ: ALVR), the global leader in wireless broadband solutions, announced today that Telecom Namibia has placed a follow-on order worth over \$1M for Alvarion MGW systems operating in the 3.5GHz band. Telecom Namibia first chose MGW in 2000 to bring affordable Toll Quality Voice and Voice-Band Data to many of its service areas. Delighted with its performance throughout Namibia's capital city, Windhoek, Mariental, and other urban and rural areas, it is now expanding the deployment to 3 additional sites in Northern Namibia.

Established in 1992, Telecom Namibia Ltd. is wholly owned by the Government of the Republic of Namibia and is the country's leading supplier of voice, text, data, and video solutions.

Commenting on the news, Mr. Heinrich Bader, General Manager, Network Development, Implementation & Technology Operations of Telecom Namibia said, "Our choice of Alvarion's excellent technology was based on three factors: its suitability for supporting both telephony and data services, its attractive performance, and Alvarion's reputation for excellent professional services. Our experience over the last two years has exceeded our expectations in each of these realms. The network has proven to be quick and affordable to set up, performs flawlessly, and the dedicated support has made all the difference. As we extend our toll-quality services to new regions, we have also begun to investigate Alvarion's entire product portfolio with an eye towards bringing wireless broadband access services to Namibia."

3

Tzvika Friedman, President and COO of Alvarion, added, "We are pleased that our products have delivered such value to Telecom Namibia, and look forward to continued cooperation with this important incumbent operator. Our growing relationship with Telecom Namibia demonstrates that our combination voice-and-data offerings are winning solutions for developing regions like Africa. With the broadest portfolio of broadband wireless solutions available, we give telco's an unparalleled variety of options for establishing new
