Notes to Consolidated Financial Statements
(Unaudited)

1. Interim Financial Statements

The accompanying unaudited consolidated financial statements of Charlotte Russe Holding, Inc. (the Company) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and footnote disclosures required by accounting principles generally accepted in the United States for complete financial statements have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the accompanying unaudited financial statements contain all material adjustments, consisting of normal recurring accruals, necessary to present fairly the Company's financial position, results of operations and cash flows for the periods indicated, and have been prepared in a manner consistent with the audited financial statements as of September 29, 2001.

Due to the seasonal nature of the Company's business, the results of operations for the six month period ended March 30, 2002 are not necessarily indicative of the results of a full fiscal year.

These financial statements should be read in conjunction with the audited financial statements and the footnotes for the fiscal year ended September 29, 2001 included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Forward-Looking Statements**

We have made statements in this Quarterly Report that are forward-looking statements. In some cases you can identify these statements by forward-looking words such as may, will, should, expects, plans, anticipates, believes, estimates, intends, predicts, future, the negative of these terms and other comparable terminology. These forward-looking statements, which are subject to risks, uncertainties, and assumptions about us, may include, among other things, projections of our future financial performance, our anticipated growth strategies, anticipated trends in our business and consumer preferences especially with respect to the impact of economic weakness on consumer spending, as well as projections relating to our anticipated rate of new store openings, anticipated store opening costs, capital expenditures, inventory turnover rates and vendor delivery times. These statements are only predictions based on our current expectations and projections about future events. Because these forward-looking statements involve risks and uncertainties, there are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by the forward-looking statements, including those factors discussed in the Company's Annual Report on Form 10-K, filed with the Securities and Exchange Commission on December 13, 2001.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this Quarterly Report might not occur.

Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Financial Statements and Notes thereto of the Company included elsewhere in this Form 10-Q. The following table sets forth our operating results, expressed as a percentage of net sales, and store information for the periods indicated. These operating results are not necessarily indicative of the results that may be expected for any future period.

Three Months Ended March 30, 2002 Compared to the Three Months Ended March 31, 2001

Edgar Filing: CHARLOTTE RUSSE HOLDING INC - Form 10-Q

Net Sales. Our net sales increased to \$86.1 million from \$64.0 million, an increase of \$22.1 million, or 34.4%, over the prior fiscal year. This increase reflects \$23.8 million of additional net sales from the 12 new stores opened during the three months ended March 30, 2002, as well as other stores opened in prior fiscal periods that did not qualify as comparable stores. This increase was partially offset by a 2.8% decrease in our comparable store sales, which resulted in decreased sales of \$1.7 million compared to the same period last year. Net sales during the three months ended March 30, 2002 were positively affected by Easter occurring two weeks earlier than in the prior fiscal year.

Table of Contents

Gross Profit. Gross profit represents net sales less cost of goods sold, which includes buying, distribution and occupancy costs. Our gross profit increased to \$22.8 million from \$18.6 million, an increase of \$4.2 million, or 22.5%, over the same period last year. This increase was the result of higher net sales, offset in part by decreased gross profit margins. As a percentage of net sales, gross profit decreased to 26.5% from 29.1%. The decrease as a percentage of net sales was principally due to higher occupancy expenses, higher markdown expenses and partially offset by lower freight costs and higher initial markups. Although the opening of the Ontario, California distribution center did not impact gross profit during the three months ended March 30, 2002, gross profits during the balance of fiscal 2002 will be offset by increased expenses related to the operation of the distribution center.

Selling, General and Administrative Expenses. Our selling, general and administrative expenses increased to \$17.2 million from \$13.2 million, an increase of \$4.0 million, or 30.6%, over the same period last year. This increase was attributable to new store expansion and increased corporate expenses. As a percentage of net sales, selling, general and administrative expenses decreased to 19.9% from 20.6%, primarily due to the impact of leveraging corporate expenses over a higher sales base.

Amortization of Goodwill. Our amortization of goodwill was discontinued as of the first quarter of fiscal 2002; therefore, this expense decreased \$0.2 million compared to the same period last year.

Income Taxes. Our effective tax rate of 37.9% compares to an effective tax rate of 37.0% for the same period of the prior fiscal year.

Net Income. Our net income increased to \$3.5 million from \$3.4 million, an increase of \$0.1 million, or 4.2%, from the same period last year. This increase was primarily due to the increase in gross profit being partially offset by an increase in selling, general and administrative expenses.

Six Months Ended March 30, 2002 Compared to the Six Months Ended March 31, 2001

Net Sales. Our net sales increased to \$198.0 million from \$157.0 million, an increase of \$41.0 million, or 26.1%, over the same period last year. This increase reflects \$52.7 million of additional net sales from the 36 new stores opened during the six months ended March 30, 2002, as well as other stores opened in prior fiscal years that did not qualify as comparable stores. This increase was partially offset by an 8.1% decrease in our comparable store sales, which resulted in decreased sales of \$11.7 million compared to the prior fiscal year. Net sales during the six months ended March 30, 2002 were positively affected by Easter occurring two weeks earlier than in the prior fiscal year.

Gross Profit. Gross profit represents net sales less cost of goods sold, which includes buying, distribution and occupancy costs. Our gross profit increased to \$55.1 million from \$50.0 million, an increase of \$5.1 million, or 10.3%, over the same period last year. This increase was the result of higher net sales, offset in part by decreased gross profit margins. As a percentage of net sales, gross profit decreased to 27.8% from 31.8%. The decrease as a percentage of net sales was principally due to higher occupancy expenses and markdown expenses. Although the opening of the Ontario, California distribution center did not impact gross profit during the six months ended March 30, 2002, gross profits during the balance of fiscal 2002 will be offset by increased expenses related to the operation of the distribution center.

Selling, General and Administrative Expenses. Our selling, general and administrative expenses increased to \$37.2 million from \$30.7 million, an increase of \$6.5 million, or 21.1%, over the same period last year. This increase was attributable to new store expansion, increased corporate expenses and higher marketing expenses. As a percentage of net sales, selling, general and administrative expenses decreased to 18.8% from 19.6%, primarily due to the impact of leveraging corporate expenses over a higher sales base.

Amortization of Goodwill. Our amortization of goodwill was discontinued as of the first quarter of fiscal 2002; therefore, this expense decreased \$0.4 million compared to the same period last year.

Table of Contents

Income Taxes. Our effective tax rate of 39.0% approximates our statutory income tax rates.

Net Income. Our net income decreased to \$10.9 million from \$11.4 million, a decrease of \$0.5 million, or 4.6%, over the same period last year. This decrease was primarily due to the increase in gross profit being more than offset by an increase in selling, general and administrative expenses.

Liquidity and Capital Resources

Our capital requirements result primarily from capital expenditures related to new store openings. We have historically satisfied our cash requirements principally through cash flow from operations, although we have also used borrowings under our unsecured credit facility. Due to rapid turnover of inventory, we generate trade payables and other accrued liabilities sufficient to offset our working capital requirements, and this allows us to generally operate with negative working capital. As of March 30, 2002, we had net working capital of approximately \$3.8 million which included cash and cash equivalents of \$11.5 million.

Net cash provided by operations was \$19.8 million for the six months ended March 30, 2002 compared with \$17.2 million during the six months ended March 31, 2001. Cash flows from operating activities for the period were primarily generated by income from operations and changes in working capital account balances.

Net cash used in investing activities was \$19.1 million for the six months ended March 30, 2002 compared with \$9.9 million during the six months ended March 31, 2001. Cash used in investing activities related to new store openings, the upgrade of our information systems and other corporate expenditures, including \$9.8 million for the build-out of our Ontario, California distribution center during the six months ended March 30, 2002.

In the six months ended March 30, 2002 and March 31, 2001, we opened 36 and 22 new stores, respectively. During fiscal 2002, we plan to open at least 55 new Charlotte Russe and Rampage stores. We also continue to test our Charlotte's Room concept, and we opened two additional stores during the first quarter of fiscal 2002. We anticipate that total capital expenditures during fiscal 2002 will approximate \$33.0 million. We plan to fund these expenditures with cash flows from operations and from borrowings under the \$15.0 million revolving credit facility, as may be required.

Net cash provided by financing activities was \$0.8 million for the six months ended March 30, 2002 compared with \$2.4 million during the six months ended March 31, 2001. Financing activities primarily represent the proceeds of stock option exercises.

We believe that cash flows from operations, our current cash balance and funds available under our revolving credit facility will be sufficient to meet our working capital needs and contemplated capital expenditure requirements for the next 12 months.

Inflation

We do not believe that inflation has had a material adverse impact on our business or operating results during the periods presented. There can be no assurance, however, that our business will not be affected by inflation in the future.

Critical Accounting Policies and Estimates

Management Discussion and Analysis of Financial Condition and Results of Operations discusses our consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles. The preparation of these financial statements requires management to make estimates

Table of Contents

and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, as well as revenues and expenses during the reported periods.

On an on-going basis, management evaluates its estimates and judgments regarding inventories, receivables, fixed assets, intangible assets, accrued liabilities, income taxes and contingencies and litigation. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances. The results from this evaluation form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Under different assumptions or conditions, alternative estimates and judgments could be derived which would differ from the estimates being used by management. Actual results could differ from any or all of these estimates.

As a retailer of women's apparel and accessories, our financial statements are affected by several critical accounting policies, many of which affect management's use of estimates and judgments, as described in the Notes to the Consolidated Financial Statements. We sell merchandise directly to retail customers and recognize revenue at the point of sale. Customers have the right to return merchandise to us, and we maintain a reserve for the financial impact of returns, which occur subsequent to the current reporting period.

Our merchandise is initially offered for sale at a regular price, but is often marked down prior to the ultimate sale of all such units. We utilize the retail method of accounting for our inventory valuation that inherently reduces the inventories' carrying value as markdowns are initiated. In addition, we maintain a reserve for the financial impact of markdowns that we believe are likely to be encountered in the future. If actual demand or market conditions are more or less favorable than those projected by management, the level of the reserve for future markdowns would be subject to change in subsequent reporting periods.

We have recorded a goodwill asset that arose from the acquisition of the business in September 1996. This asset is tested for possible impairment on at least an annual basis in accordance with SFAS No. 142, *Goodwill and Other Intangibles*. The carrying value of investments in our stores and other operations is reviewed for impairment on at least an annual basis in accordance with SFAS No. 121, *Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed of*. In prior years, we established reserves for stores which have been closed, and no other stores are contemplated for closure at this time. Should the business prospects for our company or its stores deteriorate, or if we decide not to continue to develop our Charlotte's Room concept, write downs of these assets might be required.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our market risks relate primarily to changes in interest rates. We borrow money, when necessary, on a revolving basis under our \$15.0 million revolving credit facility to fund capital expenditures and other working capital needs. Our revolving credit facility carries a variable interest rate pegged to market indices and, therefore, our statements of income and our cash flows may be impacted by changes in interest rates. As of March 30, 2002, there was no amount outstanding under the revolving credit facility.

Another component of interest rate risk involves the short-term investment of excess cash in short-term, investment-grade interest-bearing securities. These are considered to be cash equivalents and are shown that way on our balance sheets. Changes in interest rates affect the investment income we earn on our investments and, therefore, impact our cash flows and results of operations.
