**CVRD and Baosteel agreement on 2005 iron ore prices**

Rio de Janeiro, February 28, 2005 – Companhia Vale do Rio Doce (CVRD), the world's largest iron ore producer, concluded the iron ore price negotiations for 2005 with Shanghai Baosteel Group Corporation (Baosteel), the largest Chinese steel maker. As an outcome of these negotiations, iron ore prices for Carajás (SFCJ) and Southern System (SSF) fines, FOB Ponta da Madeira and Tubarão, respectively, increased by 71.5% relatively to 2004.

Baosteel negotiates representing the Chinese Iron and Steel Association, composed by 13 Chinese steel producers. Agreements between CVRD and those companies involve an amount of iron ore fines of approximately 35,4 million tons for the 2005 Japanese fiscal year (from April 05 to March 06).

The magnitude of the price increase for 2005 reflects an unprecedented situation characterized by the disequilibria in the global metals and maritime freight markets, which led to substantial price increases for these products and services during the last couple of years.

CVRD reinforces its long-term commitment with clients by investing a significant amount of resources, in spite of rising investment costs, in the production and logistics of iron ore. For 2005, CVRD capex budget allocated US\$ 1.7 billion for investments in ferrous minerals. Currently, CVRD is developing six projects for iron ore production capacity expansion, which will come on stream between 2005 and 2007.

This press release may contain statements that express management's expectations about future events or results rather than historical facts. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements, and CVRD cannot give assurance that such statements will prove correct. These risks and uncertainties include factors: relating to the Brazilian economy and securities markets, which exhibit volatility and can be adversely affected by developments in other countries; relating to the iron ore business and its dependence on the global steel industry, which is cyclical in nature; and relating to the highly competitive industries in which CVRD operates. For additional information on factors that could cause CVRD's actual results to differ from expectations reflected in forward-looking statements, please see CVRD's reports filed with the Brazilian Comissão de Valores Mobiliários and the U.S. Securities and Exchange Commission.
