PROXY STATEMENT

**ANNUAL MEETING OF STOCKHOLDERS
MAY 25, 2010**

GENERAL INFORMATION

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the Board of Directors or Board) of Atlas Air Worldwide Holdings, Inc., a Delaware corporation (AAWW), for use at the Annual Meeting of Stockholders (the Annual Meeting) to be held on Tuesday, May 25, 2010, at the offices of Ropes & Gray LLP, 1211 Avenue of the Americas, 38th Floor, New York, NY 10036 at 11:00 a.m., local time, and at any adjournments or postponements of the Annual Meeting. It is expected that this Proxy Statement and the accompanying proxy will first be mailed or delivered to stockholders beginning on or about April 19, 2010. Proxies may be solicited in person, by telephone or by mail, and the costs of such solicitation will be borne by AAWW.

AAWW was incorporated in Delaware in 2000. Our principal executive offices are located at 2000 Westchester Avenue, Purchase, New York 10577, and our telephone number is (914) 701-8000. AAWW is the parent company of Atlas Air, Inc. (Atlas) and Titan Aviation Leasing Ltd. and Titan Aviation Leasing Limited Americas, Inc. (collectively referred to as Titan), and is the majority shareholder of Polar Air Cargo Worldwide, Inc. (Polar). Through Atlas and Polar, AAWW operates the world's largest fleet of Boeing 747 freighter aircraft. Except as otherwise noted, AAWW, Atlas, Polar and Titan (along with AAWW's other subsidiaries) are collectively referred to herein as the Company, AAWW, we, us, or our.

The shares represented by your proxy will be voted as indicated on your proxy, if properly executed. If your proxy is properly signed and returned, but no directions are given on the proxy, the shares represented by your proxy will be voted:

FOR the election of the director nominees named herein, to serve until the 2011 Annual Meeting or until their successors are elected and qualified (Proposal No. 1).

FOR ratifying the selection of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Company for the year ending December 31, 2010 (Proposal No. 2).

FOR approving an amendment to AAWW's 2007 Incentive Plan (as amended) (the Incentive Plan or the 2007 Plan) to increase the number of shares that are available for issuance of awards under that plan (Proposal No. 3).

In addition, if any other matters are properly submitted to a vote of stockholders at the Annual Meeting, the accompanying form of proxy gives the proxy holders the discretionary authority to vote your shares in accordance with their best judgment on that matter. Record Date and Voting Securities

All of our stockholders of record at the close of business on March 29, 2010 (the Record Date) are entitled to notice of, and to vote at, the Annual Meeting and any adjournments or postponements thereof. As of the Record Date, there were 25,824,595 shares of Common Stock issued and outstanding. Each outstanding share of Common Stock will be entitled to one vote on each matter considered at the Annual Meeting. A description of certain restrictions on voting by stockholders who are not U.S. citizens, as defined by applicable laws and regulations, can be found in Additional Information Limited Voting by Foreign Owners at the end of this Proxy Statement.

Shares Registered in the Name of a Bank, Broker or Nominee

Brokerage firms and banks holding shares in street name for customers are required to vote such shares in the manner directed by their customers. If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in street name, and these proxy materials are being forwarded to you by your broker, bank or nominee which is considered, with respect to those shares, the stockholder of record. As the beneficial owner, you have the right to direct your broker, bank or other nominee how to vote and are also invited to attend the meeting. Your broker, bank or nominee has enclosed herewith or separately provided a voting instruction form for you to use in directing the broker, bank or nominee how to vote your shares. However, since you are not the stockholder of record, you may not vote these shares in person at the meeting unless you obtain a signed proxy from the record holder giving you the right to vote these shares.

Quorum, Vote Required

A majority of the outstanding shares of Common Stock as of the Record Date must be present, in person or by proxy, at the Annual Meeting in order to have the required quorum for the transaction of business. If the number of shares of Common Stock present in person and by proxy at the Annual Meeting does not constitute the required quorum, the Annual Meeting may be adjourned to a subsequent date for the purpose of obtaining a quorum.

Proposal 1: Election of Directors. Members of the Board (each, a Director and collectively, the Directors) are elected by a plurality of the votes cast at the Annual Meeting. This means that the director nominees with the most votes will be elected.

Proposal 2: Ratification of the selection of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Company for the fiscal year ending December 31, 2010. The affirmative vote of a majority of the shares represented at the Annual Meeting, either in person or by proxy and entitled to vote on this proposal, is required to ratify the selection of PricewaterhouseCoopers LLP.

Proposal 3: Approval of an amendment to AAWW s 2007 Incentive Plan (as amended). The affirmative vote of a majority of the shares represented at the Annual Meeting, either in person or by proxy and entitled to vote on this proposal, is required to approve the amendment to the Incentive Plan that would increase the number of shares available for issuance of awards thereunder.

Shares of Common Stock that are voted FOR, AGAINST, or ABSTAIN are treated as being present at the Annual Meeting for purposes of establishing a quorum. An abstention will have the effect of a negative vote with regard to the proposal ratifying the selection of our independent auditors and amending the Incentive Plan. However, as each nominee to the Board of Directors must receive a plurality of the votes cast at the Annual Meeting in order to be elected as a director, withholding a vote for a nominee, which is tantamount to an abstention, will have no effect on the election of director nominees.

If you hold your shares in street name through a broker, bank or other nominee and you do not vote your shares at the Annual Meeting or provide your proxy, the broker or nominee has the authority to vote your unvoted shares on certain routine matters, which include the ratification of the selection of our independent registered public accounting firm. In a change from prior years, the proposal to elect Directors is a non-routine matter for which a broker, bank or nominee will not have discretionary voting power and for which specific

Table of Contents

instructions from beneficial owners are required. Also, the proposal to approve the amendment to the Incentive Plan to increase the number of shares available for issuance of awards thereunder is a non-routine matter for which specific instructions from beneficial owners are required.

If you hold your shares directly in your own name, they will not be voted if you do not vote them at the Annual Meeting or provide a proxy.

Revocability of Proxies

If you hold your shares registered in your name, you may revoke your proxy at any time before its use by delivering to the Secretary of AAWW a written notice of revocation or a duly executed proxy bearing a later date or by attending the Annual Meeting and voting in person. Attending the Annual Meeting in and of itself will not constitute a revocation of a proxy.

If your shares are held in street name and you wish to revoke your proxy and vote at the Annual Meeting, you must contact your broker, bank or other nominee and follow the requirements set by your broker, bank or nominee. We cannot guarantee you that you will be able to revoke your proxy or attend and vote at the Annual Meeting.

Proxy Solicitation

This proxy solicitation is being made by our Board, and the cost of soliciting proxies will be borne by us. We expect to reimburse brokerage firms, banks, custodians and other persons representing beneficial owners of shares of Common Stock for their reasonable out-of-pocket expenses in forwarding solicitation material to such beneficial owners. Proxies may be solicited by certain of our directors, officers and other employees, without additional compensation, in person or by telephone, e-mail or facsimile. We have retained Morrow & Co., LLC, 470 West Avenue, Stamford, Connecticut 06902, to assist us in the solicitation of proxies and will pay Morrow & Co. a fee estimated not to exceed \$6,000, plus out-of-pocket expenses.

Proxy Tabulation

Proxies and ballots will be received and tabulated by an independent entity that is not affiliated with us. The inspectors of election will also be independent of us. Comments on written proxy cards will be provided to the Secretary of AAWW without disclosing the vote unless the vote is necessary to understand the comment.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended (the Exchange Act) requires certain of our executive officers, as well as our Directors and persons who own more than ten percent (10%) of a registered class of AAWW s equity securities, to file reports of ownership and changes in ownership with the SEC. reason to believe that our 10% stockholders have not complied with their filing requirements under Section 16(a).

Certain Relationships and Related Person Transactions

Our Code of Ethics Applicable to our Chief Executive Officer, Senior Financial Officers and Members of the Board of Directors (the Code of Ethics), which is available on our website at www.atlasair.com, provides that such executive officers and Directors should follow the guidelines outlined in our Code of Conduct & Employee Handbook and communicate any potential or actual conflicts of interest (however immaterial) to the Chairman of the Audit Committee of the Board of Directors, so that an objective, third-party review can be made of the matter. Pursuant to our Audit Committee Charter, which is also available on our website at www.atlasair.com, the Audit Committee reviews reports and disclosures of insider and affiliated party transactions and/or conflicts of interest or potential conflicts of interest involving corporate officers and members of the Board of Directors. The Audit Committee, where appropriate, will also review and approve any involvement of corporate officers and members of the Board of Directors in matters that might constitute a conflict of interest or that may otherwise be required to be disclosed as a related party transaction under SEC regulations. Our Nominating and Governance Committee separately determines Director Independence as summarized in Director Independence below.

PROPOSAL 1

ELECTION OF DIRECTORS

Our By-laws provide for no fewer than one and no more than eleven directors, with the exact number to be fixed by our Board of Directors. Our Board currently consists of seven Directors. The current term of all of our Directors expires at the Annual Meeting.

Our Directors have been recommended for nomination by our Nominating and Governance Committee and nominated by our Board for election at the Annual Meeting. In making its recommendations for nomination, the Nominating and Governance Committee evaluated the size and composition of the Board, performed its biennial review of the Directors continuation on the Board and reviewed each member s skills, characteristics and independence.

Each nominee has consented to be named as a nominee for election as a Director and has agreed to serve if elected. Except as otherwise described below, if any of the nominees is not available for election at the time of the Annual Meeting, discretionary authority will be exercised to vote for substitutes designated by our Board of Directors, unless the Board chooses to reduce further the number of Directors. Management is not aware of any circumstances that would render any nominee unavailable. At the Annual Meeting, Directors will be elected to hold office until the 2011 Annual Meeting or until their successors are elected and qualified, as provided in our By-laws. The Board believes that each of the nominees listed brings strong skills and experience to the Board, giving the Board as a group the appropriate skills to exercise its responsibilities.

The following list sets forth the names of our incumbent Directors up for election. Additional biographical information concerning these individuals is provided as of March 31, 2010 in the text following the list.

Board Effectiveness

To ensure that our Board of Directors and its Committees are performing effectively and in the best interest of the Company and its stockholders, the Board performs an annual assessment of itself, its Committees and each of its members. The assessment is done under the oversight of the Nominating and Governance Committee.

A copy of our Corporate Governance Principles can be found on the Corporate Governance page of the Corporate Background portion of our website at www.atlasair.com. Our Corporate Governance Principles are described in greater detail below.

Board Leadership Structure

Pursuant to our Corporate Governance Principles and our By-Laws, the Board of Directors determines the best leadership structure for the Company. The Board has no policy with respect to the separation of the offices of Chairman and Chief Executive Officer. The Board believes that this issue is part of the succession planning process and that it is in the best interest of the Company and its stockholders for the Board to make a determination regarding this matter each time it elects a new Chief Executive Officer. The Company has maintained separate roles for the Chairman of the Board and the Chief Executive Officer since 2001.

Board Oversight of Risk Management Process

The Board of Directors is responsible for oversight of the Company's risk assessment and management process. The Board delegated to the Compensation Committee basic responsibility for oversight of management's compensation risk assessment, and that Committee reports to the Board on its review. The Board also delegated risk management oversight to our Audit Committee, which reports the results of its review process to the Board. The Audit Committee's process includes:

a review, at least annually, of our internal audit process, including the organizational structure and staff qualification, as well as the scope and methodology of the internal audit process; and

a review, at least annually, of our enterprise risk management plan to ensure that appropriate measures and processes are in place, including discussion of the major risk exposures identified by the Company, the key strategic plan assumptions considered during the assessment and steps implemented to monitor and mitigate such exposures on an ongoing basis.

The Audit and Compensation Committees report to the Board, as appropriate, including when a matter rises to the level of a material or enterprise level risk. In addition to the reports from the Audit and

Table of Contents

Compensation Committees, the Board periodically discusses risk oversight, included as part of its annual detailed corporate strategy review.

The Company's management is responsible for day-to-day risk management. Our Internal Audit and Treasury Departments serve as the primary monitoring and testing function for Company-wide policies and procedures, and manage the day-to-day oversight of the risk management strategy for the ongoing business of the Company. This oversight includes identifying, evaluating and addressing potential risks that may exist at the enterprise, strategic, financial, operational and compliance and reporting levels.

We believe that the division of risk management responsibilities as described above is an effective approach for addressing risks facing the Company.

Board Committees

Our Board maintains three standing committees, an Audit Committee, Compensation Committee and Nominating and Governance Committee, each of which has a charter that details the committee's responsibilities. The charters for all the standing committees of the Board of Directors are available in the Corporate Background section of our website located at www.atlasair.com and by clicking on the Corporate Governance link. The charters are also available in print and free of charge to any stockholder who sends a written request to the Secretary at Atlas Air Worldwide Holdings, Inc., 2000 Westchester Avenue, Purchase, NY 10577.

Nominating and Governance Committee

General

The Nominating and Governance Committee consists of Mr. Gilmore (Chairman) and Messrs. Agnew, Bernlohr, Davis and McCorkle, each of whom is an independent director within the meaning of the applicable rules of the NASDAQ Stock Market, Inc. (NASDAQ). The principal functions of the Nominating and Governance Committee are to:

- identify and approve individuals qualified to serve as members of our Board;
- select director nominees for the next annual meeting of stockholders;
- review at least annually the independence of our Board members;
- oversee our Corporate Governance Principles; and
- perform or oversee an annual review of the Chief Executive Officer, the Board and its committees.

The Nominating and Governance Committee held three in person meetings and two telephonic meetings in 2009.

Director Qualifications

Our Nominating and Governance Committee is responsible for reviewing and developing the Board's criteria for evaluating and selecting new directors based on our needs from time to time. Pursuant to the Skills and Characteristics for Directors criteria as set forth in Exhibit A of the Nominating and Governance Committee charter, the Board as a whole should possess core competencies in accounting, finance and disclosure, business judgment, management, crisis response, industry knowledge, international markets, leadership and strategy and vision. New and incumbent Directors

are individually evaluated from a skills and characteristics perspective on several different factors, including having the following traits: high personal standards; the ability to make informed business judgments; literacy in financial and business matters; the ability to be an effective team member; a commitment to active involvement and an ability to give priority to the Company; no affiliations with competitors; achievement of high levels of accountability and success in his or her given fields; no geographical travel restrictions; an ability and willingness to learn the Company's business; preferably experience in the Company's business or in professional fields or in other industries or as a manager of international business so as to have the ability to bring new insight, experience or contacts and

Table of Contents

resources to the Company; preferably a willingness to make a personal substantive investment in the Company; preferably no direct affiliations with major suppliers, customers or contractors; and preferably previous public company board experience with good references. The Nominating and Governance Committee will also consider, in addition to whether such individuals have the aforementioned skills and characteristics, whether such individuals are independent, as defined in applicable rules and regulations of the SEC and NASDAQ. The Board will nominate new directors only from candidates identified, screened and approved by the Nominating and Governance Committee. The Company does not have a formal policy regarding the diversity of its Directors. The Nominating and Governance Committee uses the criteria specified above when considering candidates for a Board seat and then searches for candidates that best meet those criteria without limitations imposed on the basis of race, gender or national origin. The Board will also take into account the nature of and time involved in a Director's service on other boards in evaluating the suitability of individual directors and making its recommendation to AAWW's stockholders. Service on boards of other organizations must be consistent with our conflict of interest policies applicable to Directors and other legal requirements. The Nominating and Governance Committee identifies new Director candidates from a variety of sources, including recommendations submitted by stockholders.

Evaluation of Stockholder Nominees

Our Nominating and Governance Committee will consider stockholder recommendations for candidates to serve on the Board, provided that such recommendations are made in accordance with the procedures required under our By-laws and as described in this Proxy Statement under "Advance Notice Procedures" below. The Nominating and Governance Committee also has adopted a policy on security holder recommendations of Director nominees (the "Stockholder Nominating Policy"), which is subject to a periodic review by the Nominating and Governance Committee. Among other things, the Stockholder Nominating Policy provides that a stockholder recommendation notice must include the stockholder's name, address and the number of shares beneficially owned, as well as the period of time such shares have been held, and should be submitted to: Attention: Secretary, Atlas Air Worldwide Holdings, Inc., 2000 Westchester Avenue, Purchase, New York 10577. A copy of our current Policy on Security Holder Recommendation of Director Nominees is available in the Corporate Background section of our website at www.atlasair.com. In evaluating stockholder nominees, the Board and the Nominating and Governance Committee seek to achieve a balance of knowledge, experience and capability. As a result, the Nominating and Governance Committee evaluates stockholder nominees using the same membership criteria set forth above under "Director Qualifications."

Corporate Governance Principles

We have adopted Corporate Governance Principles, believing that sound corporate governance practices provide an important framework to assist the Board in fulfilling its responsibilities. The business and affairs of AAWW are managed under the direction of our Board, which has responsibility for establishing broad corporate policies, setting strategic direction and overseeing management. An informed, independent and involved Board is essential for ensuring our integrity, transparency and long-term strength, and maximizing stockholder value. The Corporate Governance Principles address such topics as codes of conduct, Director nominations and qualifications, Board committees, Director compensation, conflicts and waivers of compliance, powers and responsibilities of the Board, Board independence, serving on other boards and committees, meetings, Director access to officers and other employees, stockholder communications with the Board, annual Board evaluations, financial statements and disclosure matters, delegation of power and oversight and independent advisors. A copy of our Corporate Governance Principles is available in the Corporate Background section of our website at www.atlasair.com.

Code of Ethics Applicable to the Chief Executive Officer, Senior Financial Officers and Members of the Board of Directors

We have a long standing commitment to conduct our business in accordance with the highest ethical principles. We have adopted a Code of Ethics applicable to the Chief Executive Officer, Senior Financial Officers and Members of the Board of Directors that is monitored by our Audit Committee and that includes

Table of Contents

certain provisions regarding disclosure of violations and waivers of, and amendments to, the Code of Ethics by covered parties. Any person who wishes to obtain a copy of our Code of Ethics may do so by writing to Atlas Air Worldwide Holdings, Inc., Attn: Secretary, 2000 Westchester Avenue, Purchase, NY 10577. A copy of the Code of Ethics is available in the Corporate Background section of our website at www.atlasair.com under the heading Code of Conduct .

Code of Conduct and Employee Handbook

We also have adopted a Code of Conduct and Employee Handbook that sets forth the policies and business practices that apply to all of our employees and Directors. The Code of Conduct and Employee Handbook addresses such topics as compliance with laws, moral and ethical conduct, equal employment opportunity, promoting a work environment free from harassment or discrimination and the protection of intellectual property and proprietary information, among other things.

Director Independence

Our Nominating and Governance Committee Charter includes categorical standards to assist the Committee in making its determination of Director independence within the meaning of the rules of the SEC and the Marketplace Rules of NASDAQ. The Nominating and Governance Committee will not consider a Director to be independent if, among other things, he or she was employed by us at any time in the last three years; has an immediate family member who is, or in the past three years was, employed by us as an executive officer; has accepted or has an immediate family member who has accepted any compensation from us in excess of \$120,000 during a period of 12 consecutive months within the three years preceding the determination of independence (other than compensation for Board service, compensation to a family member who is a non-executive employee or benefits under a tax-qualified retirement plan or non-discretionary compensation); is, was or has a family member who is or was a partner, controlling stockholder or executive officer of any organization to which we made or from which we received payments for property or services in the current year or any of the past three fiscal years in an amount that exceeds the greater of \$200,000 or 5% of the recipient's consolidated gross revenues for the year; is or has a family member who is employed as an executive officer of another entity where at any time during the last three years any of the Company's executive officers serve or served on the entity's compensation committee; or is or has a family member who is a current partner of the Company's independent registered public accounting firm or was or has a family member who was a partner or employee of the Company's independent registered public accounting firm who worked on the Company's audit at any time during the last three years.

Pursuant to the Nominating and Governance Committee Charter and as further required by NASDAQ rules, the Nominating and Governance Committee made a subjective determination as to each outside Director that no relationship exists which, in the opinion of the Board, would interfere with such individual's exercise of independent judgment in carrying out his or her responsibilities as a Director. As part of such determination, the Nominating and Governance Committee examined, among other things, whether there were any transactions or relationships between AAWW and an organization of which a Director or director nominee has been a partner, stockholder or officer within the last fiscal year. The purpose of this review was to determine whether any such relationships or transactions were inconsistent with a determination that a Director is independent.

In accordance with its annual review and the policies and procedures outlined above, the Nominating and Governance Committee affirmatively determined that the following Directors nominated for election at the Annual Meeting are independent directors: Messrs. Agnew, Bernlohr, Davis, Gilmore and McCorkle and Ms. Hallett. The Nominating and Governance Committee also determined that Mr. Flynn is not independent pursuant to the NASDAQ rules and the Nominating and Governance Committee Charter because he is our President and Chief Executive Officer.

Audit Committee Report

The Audit Committee of the Board of Directors consists of three outside Directors, Messrs. Agnew (Chairman), Bernlohr, and Davis, each of whom is an independent Director within the meaning of the applicable

rules and regulations of the SEC and NASDAQ (see also *Director Independence* above). The Board has determined that Mr. Davis is an audit committee financial expert as defined under applicable SEC rules. The Audit Committee's primary function, as set forth in its written charter, is to assist the Board in overseeing the:

integrity of the financial statements of the Company;

independent registered public accounting firm's qualifications and independence;

performance of the Company's internal audit function and independent registered public accounting firm; and

Company's compliance with legal and regulatory requirements.

The Audit Committee is also responsible for appointing and approving in advance audit and permitted non-audit services in accordance with the Committee's pre-approval policy, which is described below, and monitoring the Company's Code of Ethics (see also *Code of Ethics* above) and related party transactions. The Audit Committee held four in person meetings and four telephonic meetings in 2009.

The Audit Committee has reviewed and discussed AAWW's audited consolidated financial statements for the fiscal year ended December 31, 2009 with management and with AAWW's independent registered public accounting firm, PricewaterhouseCoopers LLP (PwC). The Audit Committee discussed with the independent registered public accounting firm the matters required to be discussed by U.S Auditing Standard (AU) Section 380 *The Auditor's Communication With Those Charged With Governance* issued by the Auditing Standards Board of the American Institute of Certified Public Accountants, as adopted by the Public Company Accounting Oversight Board in Rule 3200T. The Audit Committee received from the independent registered public accounting firm the written disclosures and letter required by applicable requirements of the Public Company Accounting Oversight Board regarding communications with the Audit Committee concerning independence and satisfied itself as to the independence of the independent registered public accounting firm.

Based upon its reviews and discussions as described above, the Audit Committee recommended, and the Board of Directors approved, that AAWW's audited consolidated financial statements be included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2009, for filing with the SEC.

Compensation Committee

Committee Responsibility. The Compensation Committee of the Board of Directors was established by the Board to assist it in discharging and performing its duties with respect to senior management compensation, equity compensation and succession planning, among other things. In addition, the Compensation Committee is the administrator of our equity award plans. The Compensation Committee consists of three outside Directors, Mr. McCorkle (Chairman), Mr. Davis and Ms. Hallett, each of whom is an independent director within the meaning of applicable NASDAQ rules.

Process and Procedures

The Compensation Committee is responsible for reviewing, evaluating and establishing compensation plans, programs and policies for, and reviewing and approving the total compensation of, our executive officers at the level of senior vice president and above, including our President and Chief Executive Officer. The Compensation Committee also monitors the search for, and approves the proposed compensation for, any executive officers at the level of senior vice president and above, and periodically reviews and makes recommendations to the full Board regarding the compensation of Directors. In addition, the Compensation Committee retains and oversees the outside compensation consultant that provides advice regarding compensation decisions.

The Compensation Committee is required by its charter to meet at least four times annually. During 2009, the Compensation Committee held four in person meetings and five telephonic meetings. The Compensation Committee meets regularly in separate executive sessions with the President and Chief Executive Officer, the General Counsel, who is also the Chief Human Resources Officer, outside counsel, and the outside compensation consultant to discuss any matters that the Compensation Committee or any of these groups believes warrant the Compensation Committee's attention. The Chairman may also request that members of management, legal counsel, or other advisors attend the meetings of the Committee, but any individual whose performance or compensation is to be discussed at a Compensation Committee meeting does not attend such meeting (or the applicable portion of such meeting) unless specifically invited by the Compensation Committee, and the President and Chief Executive Officer is not present during voting or deliberations as to his or her compensation.

Role of Executive Officers in Compensation Process. Except for discussions related to their own levels of compensation, Mr. Flynn and Mr. Kokas participate in portions of the Committee's meetings to make

recommendations to the Committee for salary adjustments to our executive officers at the level of senior vice president and above, and for establishment, and ultimate payment, of annual awards to those officers and long-

Table of Contents

term incentive awards to management, as well as other compensation matters related to senior management. The Committee's final determinations relating to salary and annual and long-term incentive awards, including payments, are made in executive session without any interested members of management present.

Annually, either prior to or during the first quarter of each year, the Committee establishes that year's objectives for our financial, operational and personal goals and objectives for our senior executives upon which payment of that year's annual incentive award for the executives is based, and the annual incentive range for each such executive. Those criteria are recommended by our President and Chief Executive Officer and Chief Human Resources Officer, working together with the Company's compensation consultant (at the request of the Committee), and are reviewed and ultimately established by the Committee. Our President and Chief Executive Officer and Chief Human Resources Officer also make recommendations to the Committee regarding our annual and long-term incentive plans, after review by the Company's compensation consultant.

Role of Compensation Consultants in the Compensation Process. Towers Watson (formerly Watson Wyatt) has served as the outside compensation consultant to the Committee since July 2007. The compensation consultant advises the Committee regarding compensation for our executive officers and reviews and advises on the Company's annual incentive plan for senior executives and long-term incentive compensation plans. The Committee's compensation consultant periodically reviews the salaries and annual and long-term incentive awards levels we pay to our executive officers so that it may advise the Committee whether compensation paid to our executives is competitive with companies and industries with which we compete for executive talent. At the direction of the Committee, the compensation consultant also works with management to develop a framework and performance measures for both the Company's annual and long-term incentive plans. A representative from the Committee's compensation consultant also generally participates in Compensation Committee meetings related to executive compensation.

Towers Watson was engaged exclusively by the Committee during fiscal 2009 and neither Towers Watson nor any affiliate provided any other services on behalf of the Company. In order to ensure Towers Watson's continued independence and to avoid any actual or apparent conflict of interest, neither Towers Watson nor any affiliate is expected to be engaged to perform any services beyond those provided to the Committee. The Committee has the sole authority to retain or replace Towers Watson as the Committee's compensation consultant.

Risk Assessment of Compensation Policies. The Compensation Committee has concluded that the Company's compensation program is balanced and does not motivate imprudent or excessive risk taking. The Company does not use highly leveraged short term incentives that encourage short term, high risk strategies at the expense of long term performance and value. The Compensation Committee and the full board are heavily involved in setting target performance metrics consistent with the Company's business strategy and retains discretion to negatively adjust annual incentive awards. The Company's compensation programs reward consistent, long term performance by heavily weighting long-term performance and equity compensation so that it rewards sustainable stock, financial, and operating performance, especially when combined with the Company's executive share ownership requirements. The Company has also established long term incentive award metrics that test the Company's results against peer companies to ensure that award achievement levels are justified by comparative performance over the long term.

Director Compensation

The process of setting Director compensation generally follows the processes and procedures that the Compensation Committee employs in setting the compensation for our executive officers.

Compensation Discussion and Analysis

2009 Summary

Compensation awarded to our Named Executive Officers (NEOs) is comprised of base salary, annual short term incentives, and long-term incentives, with over 75% of total compensation each year being at-risk.

Table of Contents

2009 reflected our ongoing commitment to a pay-for-performance philosophy, where a substantial portion of executive compensation is linked to both individual and Company performance.

Despite facing continued economic challenges, our overall 2009 financial performance rebounded significantly from 2008.

The challenging annual short-term cash and long-term cash and equity incentive goals, which were established at a time of economic uncertainty, were met or exceeded with year-end award determinations resulting in above target award levels for 2009, in contrast to significantly reduced award levels for all NEOs in 2008.

Improvement in our 2009 financial performance resulted in higher total compensation for our NEOs in comparison to 2008, a year when core business objectives were not achieved due to the worldwide economic recession, demonstrating that our program design responds to our business results.

Equity-based awards will continue to play an important role in this challenging economic environment because they reward NEOs for the achievement of long-term business objectives, help promote retention and provide incentives for the creation of stockholder value.

Overview and Objectives

We have a philosophy of performance-based compensation, aligning a greater proportion of senior executive officers compensation with the Company's performance as responsibilities and position increase. The fundamental objectives of our senior executive compensation policies are to:

link compensation to enhancement of stockholder value;

provide a performance-oriented environment that motivates senior executive officers to achieve collectively a high level of earnings;

reward strong individual performance by linking incentive-based compensation to the performance of each senior executive officer's annual individual performance objectives; and

enhance our ability to attract and retain top quality management.

Total Compensation

Total compensation is delivered through a combination of three primary elements:

base salary;

performance-based annual incentive cash compensation; and

long-term service (time) vesting and performance-based equity-based compensation.

In addition to benefits provided to the broader employee population, certain of our senior executives receive certain enhanced change of control benefits and limited perquisites.

Since 2007, the Committee has granted long-term equity incentive awards on an annual basis. These consisted of a blend of non-qualified stock options and performance shares for 2007 and time-based restricted stock units and performance share units for 2008. In considering the 2009 long-term incentive awards, the Compensation Committee considered that the price of the Company's Common Stock had declined materially during 2008 and into 2009 as part of the broader general equity market decline during the same period. While the Compensation Committee decided to maintain the same level of long-term incentive award opportunities in connection with 2009 grants as provided in 2008, the Committee considered the fact that such award opportunities would require a materially larger number of award shares. As a result, the Compensation Committee determined that for 2009 the performance portion of long-term incentive awards (performance share units in 2008) should be made as cash awards rather than stock-based awards. These cash-based, long-term incentive awards are intended to reward Company performance in the same manner as performance share units. Assuming that the stockholders approve the amendment to increase the number of shares available for

issuance under the Plan from 1,728,331 to 2,228,331, the Committee currently expects to continue to make long-term awards in the form of equity grants in the future. For additional information concerning awards made in respect of 2009 see *Determination of 2009 Compensation Long-Term Equity Incentive Compensation* below.

In making compensation decisions with respect to each of the primary compensation components, our Compensation Committee periodically takes measure of the competitive market for senior executives by looking at compensation levels provided by comparable companies and industries.

To reward strong performance with strong compensation possibilities, the Committee's philosophy is to set long-term incentive awards at the 75th percentile of comparable companies. For 2009, the 75th percentile was determined by reference to competitive long-term incentive data from the Watson Wyatt Data Services Report on Long-Term Incentives, Policies and Practices, with such data adjusted to reflect the Company's revenue size.

Base Salary

Base salary is designed to compensate senior executives for their responsibility, experience, sustained performance and contribution to our success. The amount of any senior executive salary increase is determined by the Compensation Committee based on a number of factors, including but not limited to: the nature and responsibilities of the position; the expertise of the individual; market competitiveness for the senior executive's position; and recommendations of the President and Chief Executive Officer and Chief Human Resources Officer. Salary levels for senior executives are generally reviewed annually by the President and Chief Executive Officer and the Compensation Committee as part of the performance review process, as well as on a promotion or material change in job responsibility for any senior executive.

Performance Based Incentive Compensation

Annual cash incentive compensation awards and long-term equity incentive awards (partly cash-based for 2009) are made under the Incentive Plan, which was approved by our stockholders in May 2007. The Compensation Committee believes that a significant portion of a senior executive's compensation should be based upon the Company's financial and operating performance. Performance-based compensation aligns senior executive compensation with our goals for corporate financial and operating performance and encourages a high level of individual performance. Annual cash incentive compensation awards to our senior executive officers are made under an annual cash incentive sub-plan that is part of the Incentive Plan (the Annual Incentive Plan or the 2007 Plan). Annual cash incentive awards under the 2007 Plan are intended to qualify as performance based compensation as defined in Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code). For 2009, Mr. Flynn had a target bonus opportunity of 80% and a maximum bonus opportunity of 160% of base salary. For 2009, Mr. Dietrich had a target bonus opportunity of 60% of annual base salary, with a maximum bonus opportunity of 120%. Target bonus and maximum bonus opportunities under the 2007 Plan for 2009 for Messrs. Grant, Steen and Kokas were 50% and 100%, respectively. To achieve any annual incentive payments under the 2007 Plan, a minimum level of Company financial performance must be achieved.

Long-Term Equity Incentive Compensation

We believe that long-term incentive opportunity should be an important element of total compensation for our executive officers. Long-term incentives are intended to assist in retaining and motivating executives and to encourage a strong link between management objectives and stockholder long-term interests. We also believe that a significant portion of our senior executives' total compensation should be equity based, providing a strong linkage between the senior executive's compensation and the return to stockholders.

Under our Incentive Plan, the Compensation Committee may grant participants shares of common stock, restricted stock, share units, stock options, stock appreciation rights, performance units and/or performance bonuses. In granting these awards, the Compensation Committee may establish any conditions or restrictions, consistent with the Incentive Plan, it deems appropriate. The Committee elected to use a blend of service or time vested restricted stock units and performance-based cash awards for long-term incentive plan purposes

Table of Contents

for 2009. The cash-based, long-term incentive awards are intended to reward Company performance in the same manner as performance share units granted in prior years. The utilization of cash in 2009 was an effort to reduce the depletion of the share reserve under the 2007 Plan. Assuming that the stockholders approve the amendment to increase the number of shares available for issuance under the 2007 Plan from 1,728,331 to 2,228,331, the Committee currently expects to continue to make long-term awards in the form of equity grants in the future.

Time vested restricted stock units are paid in AAWW common shares over a three or four year vesting period, as applicable. Performance-based restricted shares and units, as well as performance-based cash awards, vest only if the Company achieves, over a three-year period, preset financial targets measured against a designated group of companies. The designated group consisted of the following companies: ABX Air Inc., Airtran Holdings Inc., Alexander & Baldwin Inc., American Commercial Lines, Arkansas Best Corp., Bristow Group Inc. (Offshore Logistics), GATX Corp., Hunt (JB) Transport Services Inc., JetBlue Airways Corp., Kansas City Southern, Kirby Corp., Laidlaw International Inc., Prologis, Quality Distribution Inc., SAIA Inc., Swift Transportation Co. Inc., Tidewater Inc., and US Express Enterprise Inc. CLA. Each year, the Committee establishes the performance metrics for the following three-year award period. The rewards for achieving results under these overlapping periods can vary for each three-year period and for each participating executive.

See *Determination of 2009 Compensation* and *Long-Term Equity Incentive Compensation* for further information regarding equity awards made in fiscal 2009.

Other Elements of Compensation

Other than standard benefits, such as health insurance, uniform severance benefits commensurate with position, medical insurance, annual physical and 401(k) plan participation, the Compensation Committee believes that perquisites should be limited and not broad-based. For senior executives, new hires, retirees, and senior executives requested to relocate, we also provide housing relocation expenses. In 2009, the perquisites that we provided to our Named Executive Officers were limited to Company-paid life insurance, certain financial counseling services and certain travel-related expenses. Details concerning these perquisites can be found in the footnotes to the Summary Compensation Table for Fiscal 2009 below.

Our Compensation Committee may also grant sign-on payments in connection with the commencement of employment, which generally reflect remuneration for any compensation or benefits forfeited by the commencing employee upon leaving his or her previous employment. No such sign-on payments were made in 2009.

Determination of 2009 Compensation

Base Salary

As described above, base salary is designed to compensate senior executives for their responsibility, experience, sustained performance and contribution to our success. We emphasize performance-based compensation for Executive Officers. Since none of the Named Executive Officers had received a merit increase in at least 12 months, the annual base salaries of Messrs. Flynn, Dietrich, Grant, Steen and Kokas were increased in 2009 (at rates ranging from 5% to 10%) in recognition of their exceptional performance during a period of economic stress and, in the case of Mr. Grant and Mr. Kokas, to take into account their increased job responsibilities.

Performance Based Annual Incentive Compensation

As described above, a significant portion of our senior executives' compensation is based upon the Company's financial and operating performance to align senior executive compensation with our goals for corporate financial and operating

performance and to encourage a high level of individual performance. Based

Table of Contents

on directions from the Compensation Committee and on the business plan reviewed by the Board, management and Towers Watson recommended an annual incentive plan for 2009 based on achievement of our pre-tax profit (40% weighting), service reliability (10% weighting, 25% for Mr. Dietrich given his operations responsibility) and individual management business objectives (50% weighting, 35% for Mr. Dietrich). In order to be eligible to receive any bonus under the annual incentive plan in 2009, the Company had to achieve an adjusted pre-tax income level of at least \$90 million.

Individual management business objectives for the Named Executive Officers are reviewed with and approved by the Compensation Committee at the beginning of each year. For 2009, Mr. Flynn's individual management business objectives related to a number of aspects of the Company's strategic and operating plan. Mr. Dietrich's individual management business objectives were focused primarily on continuous improvement of Company operating processes and organizational development. Mr. Grant's individual management business objectives related chiefly to capital and liquidity objectives, organization development and continuous improvement with respect to systems and the finance function, development of business continuity planning and implementation of business development initiatives. For Mr. Steen, his individual management business objectives focused primarily on enhancing existing customer relationships and developing new business opportunities. As General Counsel and head of our Human Resources function, Mr. Kokas' individual management business objectives were to provide legal advice and strategy in support of certain of the short and long-term objectives of the other Named Executive Officers and to assume responsibility for overall organization development and continued support of communications plans.

The bonuses awarded to the Named Executive Officers for 2009 were determined as follows: Performance for the fiscal year on the pre-tax and service reliability measures was compared to the performance range for each of those measures established by the Committee at the beginning of the fiscal year. Achievement of each of the actual pre-tax profit measure and the service reliability measure was multiplied by the weight described below, together with the weighted achievement of individual management bonus objectives, and the three weighted multiples were added to arrive at an aggregate bonus amount. Targets are set under our annual incentive plan at aggressive levels each year to motivate high business performance. These targets, individually or collectively, are designed to be challenging to attain.

One of the performance factors used to determine 2009 annual cash bonuses was our pre-tax profits, with a performance range from \$90 million (the threshold amount and the amount required to be achieved in order for any bonus to be payable under the plan) to \$120 million (representing maximum achievement), which was weighted on a 40% basis. For 2009, our adjusted pre-tax profits performance for cash bonus calculation purposes totaled \$124.3 million, resulting in a 200% performance factor that was weighted on a 40% basis.

In addition to pre-tax profits, the other performance metric that was employed to determine 2009 annual cash bonus payments was our service reliability for our main business segments, which was weighted on a 10% basis (25% for Mr. Dietrich). With respect to service reliability, we set our target levels to be best in class, to meet or exceed our customers' anticipated expectations and to exceed our contractual requirements. In 2009, we exceeded our target level and achieved maximum performance with regard to this performance measure. In addition, all of our Named Executive Officers met or exceeded the maximum achievement on their individual business objectives resulting in a 200% performance factor, or double the targeted amount. This metric was weighted at 50% (35% for Mr. Dietrich).

Actual bonus amounts paid to Messrs. Flynn, Dietrich, Grant, Steen and Kokas under the 2007 Plan are included in the Summary Compensation Table for Fiscal 2009 under "Non-Equity Incentive Plan Compensation".

Long-Term Equity Incentive Compensation

During 2009, the Compensation Committee made long-term equity incentive grants for fiscal 2009 to our Named Executive Officers pursuant to the 2007 Incentive Plan described above. This resulted in the award of time-based restricted stock units and performance-based cash awards for fiscal 2009 as set forth in the Grants of Plan Based Awards table. In order to provide incentive to achieve the Company's aggressive 2009 operating plan, the Committee elected to maintain performance award opportunity levels at the same level as those

Table of Contents

employed in 2008. To determine the level of 2008 equity incentive grants, Towers Watson reviewed data on long-term equity incentive grants for general industry and for transportation industry companies in its proprietary database, as well as at the reference group companies referred to above. The Committee established target awards at the 75th percentile, based on the Towers Watson database, to reward strong performance with competitive, effective levels of compensation. Such long-term incentive multiple as a percentage of base salary was then applied to average base salary for participants at each executive level and translated into an aggregate award based on the AAWW closing common stock price on the grant date. For 2009, the Committee determined that 50% of such award would continue to be in the form of time vested restricted stock units and 50% in the form of a performance-based cash award (in lieu of performance share units that were awarded in 2008).

For the three-year performance period (covering fiscal 2009-2011), the Committee determined that the performance-based cash awards would continue to be based upon (i) average growth in earnings before taxes (EBT), and (ii) return on invested capital (cumulative net income divided by average capital) (ROIC), both as measured against a select group of transportation-related companies. In view of the fact that the Company's strategic plan involves a significant investment program in its aircraft fleet over the 2010-2012 period that results in a lag between investment (capital) in assets and revenue production from the assets deployed with that investment, the Committee determined that it is appropriate to exclude capital invested from the ROIC metric calculation until the related assets are placed in service and earning a return for the Company. At the end of the three-year period, the cash awards vest based on a performance matrix ranging from no vesting if the Company's performance is in the bottom quartile of both EBT and ROIC metrics to 200% vesting if performance on both metrics is in the top quartile. Target vesting (100% of the cash award) is achieved if the Company's performance is in the 45-55th percentile of each metric.

Policies Regarding Executive Stock Ownership

In support of the Board philosophy that performance and equity incentives provide the best incentives for management and promote increases in stockholder value, the Board adopted Stock Ownership Guidelines (the Guidelines) in September 2005 for all Board members and officer level executives, including the Chief Executive Officer, Chief Operating Officer, Senior Vice Presidents and Vice Presidents. The Guidelines encourage executives to achieve certain levels of share ownership over a three-to-five year period based on the lesser of a percentage of annual base salary or a fixed number of shares. The recommended amount of retained shares increases under the Guidelines with the level of the executive's position. For example, at the applicable time, the Chief Executive Officer will be expected to own shares with a value equal to the lesser of (i) four times his annual base salary or (ii) 50,000 shares.

Tax and Accounting Considerations

Section 162(m) of the Code limits the deductibility of compensation in excess of \$1 million paid to the Company's CEO and to each of the other four highest-paid executive officers unless this compensation qualifies as performance-based. Based on the applicable tax regulations, the Company intended for any taxable compensation derived from the exercise of stock options and the payment of performance-based shares and units by senior executives under the Company's 2009 Annual Incentive Plan for Senior Executives to qualify as performance-based. The Company's stockholders have previously approved terms under which the Company's annual and long-term performance incentive awards should qualify as performance-based, as required by the Internal Revenue Service. These terms do not preclude the Compensation Committee from making any payments or granting any awards, whether or not such payments or awards qualify for tax deductibility under section 162(m), which payments or grants may be appropriate to retain and motivate key executives.

We adopted the provisions of ASC 718 for the year commencing January 1, 2006, the date the standard became effective. In general, we and the Compensation Committee seek to have all of the equity awards qualify for fixed grant date accounting, rather than variable accounting.

Employment Agreements

William J. Flynn. Mr. Flynn's employment agreement was entered into on April 21, 2006, became effective on June 22, 2006 and was amended at year-end 2008. Pursuant to Mr. Flynn's employment agreement, he receives an annual base annual salary at a rate that is reviewed at least annually and adjusted from time to time by our Compensation Committee. Mr. Flynn also received a sign-on payment of \$200,000 and a grant of 18,000 shares of AAWW restricted stock with a value of \$900,000 under the agreement. Such shares vest one-quarter on each of the first four anniversaries of June 22, 2006. In addition, Mr. Flynn received a grant of 50,000 stock options, vesting in four equal parts on the first four anniversaries of the commencement of his employment, and 25,000 shares of performance-based restricted stock, vesting if our Common Stock reaches a specified value for a specified period of time prior to the fourth anniversary of the date of grant.

If Mr. Flynn is terminated by the Company for cause, or if he resigns, he is entitled to receive salary earned up to date of termination or resignation. If Mr. Flynn is terminated by the Company without cause, or

Table of Contents

if he resigns for good reason (as defined in the agreement and discussed in the section headed *Payments Upon a Change of Control and Termination of Employment* below), he is entitled to (i) an amount equal to one and one-half times his then-current annual base salary; (ii) accrued but unused vacation pay; (iii) all vested rights and benefits pursuant to other Company plans and programs; and (iv) health and welfare benefits coverage for 12 months (provided that such coverage will cease if Mr. Flynn receives comparable coverage from subsequent employment). Substantially equivalent benefits are payable in the event of Mr. Flynn's permanent disability (as defined) or his death (in the event of Mr. Flynn's death, his estate would be entitled to a payment equal to 24 months of his base salary). If, within 12 months immediately following a change of control (as defined in the agreement and discussed in the section headed *Payments Upon a Change of Control and Termination of Employment* below), Mr. Flynn's employment is terminated not for cause or if he resigns for good reason, Mr. Flynn is entitled to the same benefits as described above with the exception that the amount of the payment to which he would be entitled would be increased from one and one-half to two times his then-current annual base salary.

Under the terms of his employment agreement, Mr. Flynn is prevented from soliciting or interfering with any of our contracts, client relationships, independent contractors, suppliers, customers, employees or directors for a period of two years following termination of his employment with us. Additionally, for a period of one year following termination of his employment, Mr. Flynn may not accept employment with, or give advice to, any air cargo carrier carrying on a business substantially similar to Atlas.

John W. Dietrich. Mr. Dietrich's employment agreement was amended and restated effective September 15, 2006 and was further amended at year-end 2008. Pursuant to Mr. Dietrich's employment agreement, he receives an annual base salary at a rate that is reviewed and adjusted from time to time by our Compensation Committee. Under the agreement, if Mr. Dietrich is terminated by the Company, or if he resigns, he is entitled to receive salary earned up to the date of termination or resignation. If Mr. Dietrich's employment is terminated without cause, or if Mr. Dietrich resigns for good reason (as defined in his agreement), he is entitled to 18 months base salary, payable in a single lump sum, which amount increases to 24 months base salary if his employment is terminated or he resigns for good reason within 12 months immediately following a change of control. Substantially equivalent benefits are payable in the event of Mr. Dietrich's permanent disability (as defined) or his death. Mr. Dietrich's employment agreement also provides that he will not, for a period of one year following the termination of his employment with us, solicit or interfere with any of our contracts, client relationships, independent contractors, suppliers, customers, employees or directors. Additionally, for a period of one year following termination of his employment, Mr. Dietrich may not accept employment in a non-attorney capacity with, or give non-legal advice to, certain of our major competitors.

Potential Payments Upon Termination or Change of Control

We have several plans that govern payments to our Named Executive Officers in the event of a change of control of the Company, a change in the Named Executive Officer's responsibilities, or a termination of any Named Executive Officer. Each of our Annual Incentive Plans for Senior Executives, 2007 Incentive Plan (as amended), 2004 LTIP (or the related equity agreements) and long-term incentive plans and awards includes provisions regarding payments to the Named Executive Officers upon termination of employment or a change of control of the Company. In addition, we have entered into employment agreements with Mr. Flynn and Mr. Dietrich that contain provisions regarding such payments. These employment agreements are summarized in the section headed *Employment Agreements* appearing above. Lastly, our Benefits Program for Executive Vice Presidents and Senior Vice Presidents (the *Benefits Program*) includes provisions for payments upon termination of employment or a change in control to the extent these items are not covered by an employment agreement or otherwise.

Payments Upon Termination of Employment

Mr. Grant, Mr. Steen and Mr. Kokas participate in the Benefits Program pursuant to which they are entitled to accrued but unpaid base salary as of the date of termination in the event of a termination of employment for cause (as defined) or resignation. Payments due to Mr. Flynn and Mr. Dietrich upon

Table of Contents

termination by the Company, other than for cause or upon resignation for good reason, are described under the section headed "Employment Agreements" above. If Mr. Grant, Mr. Steen or Mr. Kokas is terminated by the Company without cause (as defined) or if either resigns for good reasons (as defined), he will be entitled to (i) 12 months base salary (payable in accordance with the Company's normal pay schedule) and (ii) health and welfare benefits coverage for 12 months (provided that such coverage will cease if comparable coverage is obtained as a result of subsequent employment) under the Benefits Program.

Performance shares and performance share unit awards granted under the 2007 Plan provide that, in the event of a termination of employment by the Company for a reason other than cause during the three-year performance period of the awards, a pro rata portion of the award that will vest although the shares will not be paid until the completion of the performance period and will be based on actual performance for the three-year performance period.

Payments Upon Death or Disability

Benefits payable in the event of Mr. Flynn's or Mr. Dietrich's permanent disability (as defined) or death are described under "Employment and Other Agreements" above. Benefits payable in the event of Mr. Grant's, Mr. Steen's or Mr. Kokas' death or permanent disability (as defined) are governed by the Benefits Program. Upon occurrence of either event, the affected executive or his estate would receive (i) all accrued but unpaid base salary as of the date of termination, (ii) health and welfare benefits coverage for 12 months, and (iii) an additional cash amount equal to 12 months of the executive's monthly base salary payable in accordance with the Company's normal pay schedule.

Performance shares and performance share unit awards granted under the Incentive Plan provide that, in the event of a termination of employment as a result of death or disability during the three-year performance period of the awards, a pro rata portion of the award that will vest although the shares will not be paid until the completion of the performance period and will be based on actual performance for the three-year performance period.

Payments Upon a Change of Control (without termination of employment)

2009 Annual Incentive Plan

In the event of a change in control of the Company during the plan year, annual incentive awards made under our 2009 Annual Incentive Plan for Senior Executives will be determined and paid based on the assumption that the performance metrics have been achieved at a level of 100% of target for the plan year in which the change of control takes place; provided, that, if upon completion of the plan year it is determined that the financial metric was achieved at a level higher than 100% of target, awards are adjusted upward to reflect actual performance. If a participant's employment with the Company terminates prior to the change in control, the participant forfeits the award, unless the termination is due to death, disability, normal retirement under a retirement program of the Company, by the Company without cause, or by the participant for good reason. A change of control is defined as when another party (acting alone or with affiliates) beneficially owns 40% or more of our issued and outstanding voting stock.

2007 Incentive Plan (as amended)

All agreements in respect of awards made under the Incentive Plan provide for full and immediate vesting in the event of a change in control of the Company. All performance units and shares would vest immediately and would be paid out at the maximum rate.

2004 Long-Term Incentive and Share Award Plan

The 2004 LTIP, which applies to grants of equity made prior to May 23, 2007, includes change of control provisions which are triggered by a merger or consolidation, the sale of a majority of our assets, or

Table of Contents

stockholders approving a plan of complete liquidation. If one of these change of control events occurs, it would result in the following under the 2004 LTIP:

all stock options become fully vested and exercisable;

all restrictions and other conditions on any restricted stock, units, performance shares or other awards lapse, and such awards become free of all restrictions and fully vested;

all outstanding options, restricted shares and other share based awards will be cashed out for the per share price paid to holders of Common Stock in connection with the change of control (or, if no consideration is paid, the fair market value of the stock immediately prior to the change of control), except for incentive stock options, which will be cashed out based on the transactions reported for the date of the change of control; and

subject to Compensation Committee discretion, any awards of performance shares or units relating to a period in which the change of control occurs become immediately payable in cash, to be paid pro rata based on achievement of the maximum performance targets.

Payments Upon a Change of Control and Termination of Employment

We have agreements with certain of our Named Executive Officers which provide for severance benefits in the event of certain terminations of employment following a change of control. These benefits are summarized below. Pursuant to such agreements, a change of control is defined to occur upon the acquisition by any person or group of beneficial ownership of more than 50% of the outstanding voting securities of the Company.

The change of control provisions of the employment agreements with certain of our Named Executive Officers are double-trigger agreements. Mr. Flynn's agreement provides that if, within 12 months immediately following a change of control, we terminate his employment (other than for cause) or he resigns for good reason (as defined below), then Mr. Flynn will receive the following benefits: (i) a cash payment equal to two times his then-current annual base salary; (ii) vesting of all rights under plans and (iii) health and welfare benefits for 12 months. Mr. Dietrich's agreement provides that if, within 12 months immediately following a change of control, the Company terminates his employment (other than for cause) or he resigns for good reason, then Mr. Dietrich will receive: (i) the payment of 24 months base salary; (ii) relocation expenses back to Chicago, IL; and (iii) health and welfare benefits for 12 months. Messrs. Grant, Steen and Kokas are not entitled to any incremental compensation in the event of a change of control followed by termination or resignation for good reason but remain entitled to the payments owed to them upon termination without cause or resignation for good reason.

The term "cause" as used in the agreements means (i) any act of material dishonesty, (ii) failure to comply with the material obligations set out in the employment agreement, (iii) a material violation of the Company's corporate policies, or (iv) the conviction of plea of no contest to any misdemeanor of moral turpitude or any felony.

The term "good reason" means, for Mr. Flynn (i) a reduction in compensation, (ii) a material reduction in title or job responsibilities (including any reduction following a change of control), or (iii) a requirement to relocate the executive's primary residence. For Mr. Dietrich, it includes (i) a reduction in base salary or bonus eligibility, or (ii) reduction in job title or responsibilities. For Messrs. Grant, Steen and Kokas, it includes (i) a reduction in base salary, (ii) ceasing to hold the title of Senior Vice President, other than through promotion or through reassignment to another job title of comparable responsibility or (iii) any reduction in job responsibilities that diminishes the opportunity to earn the same annual incentive bonus for which he was previously eligible.

Set forth below is the amount of compensation that Messrs. Flynn, Dietrich, Grant, Steen and Kokas would receive in the event of termination of such executive's employment or a change of control that is incremental to amounts previously earned and accrued by the executive for performance of his duties to the date of termination. The amounts shown assume that such termination or change of control was effective as of

Table of Contents

December 31, 2009, and are estimates of the amounts which would be paid to the executives upon their termination or upon a change of control. For the equity component of such compensation, the Company used the closing price of AAWW common stock as of December 31, 2009. The actual amounts to be paid can only be determined at the time of such events.

* We used the following assumptions to calculate these payments:

We valued stock options using the closing price of our Common Stock on the NASDAQ Global Market on December 31, 2009, which was \$37.25 per share, by multiplying the difference between the Market Price and the Exercise Price by the number of Accelerated Shares.

We assumed in each case that termination is not for cause, the executive does not violate his non-competition or non-solicitation agreements or any other restrictive covenants with us following termination, the executive does not receive medical and life insurance coverage from another employer within 12 months of the termination of his employment, the executive does not have any unused vacation time, and the executive does not incur legal fees or relocation expenses requiring reimbursement from us.

We valued estimated payments based on the closing price of our Common Stock on the NASDAQ Global Market on December 31, 2009, which was \$37.25 per share, multiplied by the number of shares of stock and other equity awards that are accelerated upon a termination of employment or termination of employment and change of control. See the table entitled Outstanding Equity Awards at Fiscal Year-End 2009 for information regarding unvested equity awards.

** Represents the amount payable to Mr. Flynn estate in the event of his disability. In the event of his death, the amount to be paid to Mr. Flynn's estate would be \$4,046,062.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2010**

The Audit Committee has selected PricewaterhouseCoopers LLP (PwC) as the Company s independent registered public accounting firm for the year ending December 31, 2010 and has directed that management submit the selection of that firm to the stockholders for ratification at the Annual Meeting. Representatives from PwC are expected to be present at the Annual Meeting, will have an opportunity to make a statement if they desire to do so, and will be available to respond to appropriate questions.

Stockholder ratification of the selection of PwC as the Company s independent registered public accounting firm is not required by the Company s By-Laws or otherwise. However, we are submitting the selection of PwC to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the Audit Committee will reconsider whether or not to retain PwC. Even if the selection is ratified, the Audit Committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it is determined that such a change would be in the best interests of the Company and its stockholders.

PROPOSAL 3

APPROVAL OF AN AMENDMENT TO THE ATLAS AIR WORLDWIDE HOLDINGS, INC. 2007 INCENTIVE PLAN (AS AMENDED)

The 2007 Atlas Air Worldwide Holdings, Inc. 2007 Incentive Plan (as amended) (the Plan) was approved by the stockholders at the 2007 Annual Meeting. The purpose of the Plan is to advance the interests of the Company by providing for the grant to eligible participants of stock-based and other incentive awards. The Plan is intended to accomplish these goals by enabling the Company to grant awards in the form of options, stock appreciation rights, restricted stock, unrestricted stock, performance awards, cash awards and stock units, including restricted stock units or combinations thereof, all as more fully described below.

The Plan replaced the 2004 LTIP (prior plan) on May 23, 2007, and no new awards have been granted under the prior plan since that time. Awards outstanding under the prior plan continue to be governed by the terms of that plan and the agreements under which they were granted.

Proposed Amendment

The stockholders approved an amendment to the Plan at the 2008 Annual Meeting of Stockholders to increase the number of shares available for issuance under the Plan from 628,331 shares to 1,728,331 shares. Of the amount currently available for issuance under the Plan, as of March 31, 2010, 350,939 shares remain available for issuance of future awards (assuming maximum payout of all outstanding equity awards). We do not believe that these remaining shares are sufficient to continue implementing the Company s long-term incentive program over the next several years. Accordingly, the Board of Directors has approved an amendment to Section IV A of the Plan to increase the shares available for awards from 1,728,331 to 2,228,331, subject to stockholder approval of this amendment. No other amendments or revisions to the Plan are being submitted to the stockholders for their consideration at this time.

To the extent that any outstanding stock option or other equity-based award granted under the Plan (or under the prior plan) is cancelled, expires or is otherwise forfeited, the shares underlying that award will be available for issuance under the Plan. In addition, shares underlying awards issued in assumption of, or substitution for, awards issued by a company acquired by the Company will not reduce the number of shares remaining available for issuance under the Plan.

If this amendment is not approved by the stockholders, the proposed additional 500,000 shares will not become available for issuance under the Plan, but the Plan will otherwise remain in effect.

Why You Should Vote for the Amendment of the Plan

We believe that the Plan is important to our continued growth and success. The purpose of the Plan is to attract, motivate and retain highly qualified officers, directors, key employees and other key individuals. We believe that providing these individuals with an opportunity to acquire a direct proprietary interest in the operations and future success of AAWW will motivate these individuals to serve the Company and its stockholders by expending the maximum effort to improve our business and results of operations. We believe that equity award grants under the Plan are a valuable incentive to participants and benefit stockholders by aligning more closely the interests of Plan participants with those of our stockholders.

A combination of factors, including among other things, increased reliance upon restricted stock units and performance units for equity compensation, have driven increased share usage under the Plan, thereby reducing the

shares remaining available for future issuance under the Plan. We ask stockholders to consider the following factors and to vote for the proposed amendment of the Plan:

Equity incentive awards are an important part of our overall compensation philosophy. The Plan is critical to our ongoing effort to build stockholder value. Equity incentive awards have historically been and remain a critically important component of our compensation program. Our Compensation Committee believes that our ability to grant equity incentive awards to employees is an important factor in our ability to attract,

Table of Contents

retain and motivate key employees. Our Compensation Committee believes that equity compensation provides a strong incentive for employees to work to grow the business and build stockholder value.

Share exhaustion under the Plan would harm the competitiveness of our compensation offering. We believe that the remaining shares in the Plan are insufficient to meet our future compensation requirements beyond next year. We believe we must continue to offer a competitive equity compensation plan to attract and motivate our workforce. If the Plan were to run out of shares available for grant, we would not be able to issue additional equity awards. While we could consider increasing cash compensation if we are unable to grant equity incentives, we believe it would be more prudent to conserve our cash reserves, given the Company's substantial capital requirements anticipated over the next several years. We also believe that our inability to award equity compensation will result in difficulty in attracting, retaining, and motivating our employees. Equity-based awards are a more effective compensation vehicle than cash at a growth-oriented company because they align employee and stockholder interests with a smaller impact on current income and cash flow. Therefore, we are asking our stockholders to approve the proposed amendment of the Plan.

We manage our equity incentive award use carefully. The Compensation Committee carefully monitors our total dilution, burn rate and equity expense to ensure that we maximize stockholder value by granting only the appropriate number of equity awards necessary to attract, reward and retain employees.

Overview

The following is a summary of the material features of the Plan.

Administration. The Plan is administered by the Compensation Committee. The term administrator is used in this proxy statement to refer to the person (the Compensation Committee and its delegates) charged with administering the Plan. Under the Plan, the administrator may grant stock options, stock appreciation rights, restricted stock, unrestricted stock, performance awards (in cash or stock), cash awards and stock units, including restricted stock units, or combinations thereof, and may waive terms and conditions of any award.

The administrator may provide for the payment of amounts in lieu of cash dividends or other cash distributions with respect to shares of stock subject to an award.

Eligibility and Participation. Employees of the Company, including executive officers, directors and other persons providing services to the Company or its subsidiaries who are in a position to make a significant contribution to the success of the Company are eligible to receive awards under the Plan. As of March 31, 2010, there were approximately 210 of such employees participating in the Plan. Six non-employee Directors of the Company are also participating in the Plan.

Limitations on Awards. Section 162(m) of the Code places annual limitations on the deductibility, for tax return purposes, by public companies of compensation in excess of \$1,000,000 paid to each of the Chief Executive Officer and the other four Named Executive Officers ranked by pay, unless, among other things, the compensation is performance-based. For compensation attributable to stock options and stock appreciation rights to qualify as performance-based, the plan under which they are granted must state a maximum number of shares with respect to which options and rights may be granted to an individual during a specified period and must be approved by the Company's stockholders. To comply with these requirements, the Plan provides that the maximum number of shares as to which options may be granted and the maximum number of shares as to which stock appreciation rights may be granted to any participant during any fiscal year will each be 200,000. The Plan provides that the maximum number of shares as to which other awards may be granted to any participant during any fiscal year will be 100,000 and the maximum amount payable as cash awards to any person in any fiscal year will be \$3,000,000.

Adjustments. In the event of a stock dividend, stock split or other change in our capital structure, the administrator will make appropriate adjustments to the limits described above and will also make appropriate adjustments to the number and kind of shares of stock or securities subject to awards, and to the exercise prices of awards affected by the change. The administrator may also make similar adjustments to take into account other distributions to stockholders or any other event, if the administrator determines that adjustments are appropriate to avoid distortion in the operation of the Plan and to preserve the value of awards.

Table of Contents

Stock Options. The exercise price of a stock option granted under the Plan shall not be less than 100% of the fair market value of the Common Stock at the time of grant. Fair market value shall be determined in accordance with the requirements of Section 422 and Section 409A of the Code. Subject to the foregoing, the administrator will determine the exercise price of each option granted under the Plan on the basis of the closing price of the stock on the date of grant of the option.

Two types of stock options may be granted under the Plan: incentive stock options, or ISOs, which are subject to special tax treatment as described below, and nonstatutory stock options, or NSOs. Eligibility for ISOs is limited to employees of the Company and its subsidiaries. The expiration date of options cannot be more than ten years after the date of the original grant. The administrator may determine other terms and conditions related to the exercise of an option, including the time at which options may be exercised and conditions relating to the exercise of options. No stock options may be granted under the Plan after March 20, 2017, but stock options previously granted may extend beyond that date in accordance with their terms. The exercise price may be paid in cash, by check payable to the order of the Company or by any combination thereof.

Stock Appreciation Rights (SARs). Although none have been issued to date, the administrator may grant SARs under the Plan. An SAR entitles the holder upon exercise to receive Common Stock equal in value to the excess of the fair market value of the shares of stock subject to the right over the fair market value of such shares on the date of grant. SARs granted under the Plan may not be repriced other than in accordance with the applicable stockholder approval requirements of NASDAQ.

Stock Awards; Stock Units. The Plan provides for awards of nontransferable shares of restricted common stock, as well as unrestricted shares of Common Stock. Generally, awards of restricted stock are subject to the requirement that the shares be forfeited or resold to us unless specific conditions are met. The administrator may provide that any recipient of an award of restricted stock will have all the rights of a Company stockholder, including the right to vote the shares and to receive dividends. Other awards under the Plan may also be settled with restricted stock. The Plan provides also for the grant of stock units, including restricted stock units, entitling the recipient to receive shares of Common Stock (or cash measured by the value of the Common Stock) in the future on such conditions as the administrator may specify.

Performance Awards. The Plan provides for performance awards entitling the recipient to receive cash or common stock following the attainment of performance goals determined by the administrator. Performance conditions may also be attached to other awards under the Plan. In the case of any performance award intended to qualify for the performance-based remuneration exception described in Section 162(m) of the Code, the administrator will use one or more objectively determinable measures of performance relating to any or any combination of the following (measured either absolutely or by reference to an index or indices and determined either on a consolidated basis or, as the context permits, on a divisional, subsidiary, line of business, project or geographical basis or in combinations thereof): sales; revenues; assets; expenses; earnings before or after deduction for all or any portion of interest, taxes, depreciation, or amortization, whether or not on a continuing operations or an aggregate or per share basis (basic or fully diluted); return on equity, investment, capital or assets; one or more operating ratios such as earnings before interest, taxes and/or depreciation and amortization; borrowing levels, leverage ratios or credit rating; market share; capital expenditures; cash flow; free cash flow, cash flow, return on investment (discounted or otherwise), net cash provided by operations, or cash flow in excess of cost of capital; stock price; stockholder return; sales of particular products or services; customer acquisition or retention; acquisitions and divestitures (in whole or in part); economic value added; strategic business criteria, consisting of one or more objectives based on meeting specific market penetration, geographic business expansion goals, facility construction or completion goals, geographic facility relocation or completion goals, cost targets, customer satisfaction, supervision of litigation or information technology; joint ventures and strategic alliances; spin-offs, split-ups and the like; reorganizations; or recapitalizations, restructurings, financings (issuance of debt or equity) or refinancings (each, a Performance Criterion). A Performance

Criterion and any targets with respect thereto determined by the Administrator need not be based upon an increase, a positive or improved result or avoidance of loss. To the extent consistent with the requirements for satisfying the performance-based compensation exception under Section 162(m), the administrator may provide in the case of any Award intended to qualify for such exception

Table of Contents

that one or more of the Performance Criteria applicable to such Award will be adjusted in an objectively determinable manner to reflect events (for example, but without limitation, acquisitions or dispositions) occurring during the performance period that affect the applicable Performance Criterion or Criteria.

Stock Price. The closing price of the Company's Common Stock as reported on NASDAQ on March 31, 2010 was \$53.05 per share. Stock options granted under the Plan may not be repriced other than in accordance with the applicable stockholder approval requirements of NASDAQ.

Transferability. Neither ISOs nor, except for gratuitous transfers to the extent permitted by the administrator, other awards may be transferred other than by will or by the laws of descent and distribution. During a recipient's lifetime an ISO and, except as the administrator may provide, other non-transferable awards requiring exercise may be exercised only by the recipient.

Termination. The Plan sets forth how awards may be treated in the event that a participant's employment terminates. The administrator, however, may provide for different default treatment, dependent upon the type of award granted. Upon termination of a participant's employment, all awards requiring exercise will cease to be exercisable and will terminate, and all other awards, to the extent not vested, will be forfeited unless the administrator provides otherwise. Notwithstanding the above, unless the administrator provides otherwise, if a participant dies or terminates employment by reason of disability, options and SARs exercisable immediately prior to death or disability may be exercised by the participant's executor, administrator or transferee during a period of one year following such death or termination by reason of disability (or for the remainder of their original term, if less). In the case of termination of the participant's employment for reasons other than death or disability, options and SARs remain exercisable, to the extent they were exercisable immediately prior to termination, for three months (or for the remainder of their original term, if less); provided that if in the administrator's judgment the reason for the award holder's termination casts discredit on the participant sufficient to justify immediate termination of the award, then such award will immediately terminate.

Change of Control. In the case of certain mergers, consolidations or other transactions in which the Company is acquired or is liquidated and there is a surviving or acquiring corporation, the Plan permits the administrator to arrange for the assumption of awards outstanding under the Plan or the grant to participants of replacement awards by that corporation. If the merger, consolidation or other transaction is one in which holders of common stock will receive a payment upon consummation of the transaction, the administrator may provide for a cash-out payment with respect to some or all awards outstanding. All outstanding awards not assumed by the surviving or acquiring corporation or cashed-out shall become exercisable immediately prior to the consummation of such merger, consolidation or other transaction and upon such consummation all outstanding awards that have not been assumed or replaced will terminate. The administrator may provide for different or additional terms relating to a change of control of the Company in the awards. In the case of any such merger, consolidation or other transaction, awards subject to and intended to satisfy the requirements of Section 409A of the Code shall be construed and administered consistent with such intent.

Amendment. The administrator may amend the Plan or any outstanding award at any time, provided that except as otherwise expressly provided in the Plan the administrator may not, without the participant's consent, alter the terms of an award so as to affect materially and adversely the participant's rights under the award, unless the administrator expressly reserved the right to do so at the time of the award. No such amendment will, without the approval of the stockholders of the Company, effectuate a change for which stockholder approval is required by law (including the Code and applicable stock exchange requirements).

Federal Tax Effects

The following discussion summarizes certain U.S. federal income tax consequences of the issuance and receipt of awards under the Plan. The summary does not purport to cover federal employment tax or other U.S. federal tax consequences that may be associated with the Plan, nor does it cover state, local or non-U.S. taxes.

Table of Contents

Incentive Stock Options. In general, an optionee realizes no taxable income upon the grant or exercise of an ISO. However, the exercise of an ISO may result in an alternative minimum tax liability to the optionee. With certain exceptions, a disposition of shares purchased under an ISO within two years from the date of grant or within one year after exercise produces ordinary income to the optionee (and a deduction to the Company) equal to the value of the shares at the time of exercise less the exercise price. Any additional gain recognized in the disposition is treated as a capital gain for which the Company is not entitled to a deduction. If the optionee does not dispose of the shares until after the expiration of these one- and two-year holding periods, any gain or loss recognized upon a subsequent sale is treated as a long-term capital gain or loss for which the Company is not entitled to a deduction.

Nonstatutory Options. In general, in the case of a NSO, the optionee has no taxable income at the time of grant but realizes income in connection with exercise of the option in an amount equal to the excess (at the time of exercise) of the fair market value of the shares acquired upon exercise over the exercise price. A corresponding deduction is available to the Company. Upon a subsequent sale or exchange of the shares, appreciation or depreciation after the date of exercise is treated as capital gain or loss for which the Company is not entitled to a deduction.

In general, an ISO that is exercised more than three months after termination of employment (other than termination by reason of death or permanent and total disability) is treated as a NSO. ISOs are also treated as non-ISOs to the extent they first become exercisable by an individual in any calendar year for shares having a fair market value (determined as of the date of grant) in excess of \$100,000. Under the so-called golden parachute provisions of the Code, the vesting or accelerated exercisability of awards in connection with a change in control of the Company may be required to be valued and taken into account in determining whether participants have received compensatory payments, contingent on the change in control, in excess of certain limits. If these limits are exceeded, a substantial portion of amounts payable to the participant, including income recognized by reason of the grant, vesting or exercise of awards under the Plan, may be subject to an additional 20% U.S. federal tax and may not be deductible to the Company.

Section 409A. Awards under the Plan are intended either to be exempt from the rules of Section 409A of the Code or to satisfy those rules and shall be construed accordingly. However, the Company will not be liable to any participant or other holder of an award with respect to any award-related adverse tax consequences arising under Section 409A or any other provision of the Code.

Plan Benefits

The future benefits or amounts that would be received under the Plan by executive officers, non-executive directors and non-executive officer employees are discretionary and are therefore not determinable at this time. Details concerning award grants made in respect of the fiscal year ended December 31, 2010 appear in the tables below.

The following table sets forth information regarding time-based restricted stock units and performance-based stock units granted under the Plan in the first quarter of 2010.

To the extent these awards are earned, they will be paid out in 2013. The maximum payout is 200% of the target amount.

The table below sets forth the estimated threshold target and maximum bonus amounts that might be distributed as annual cash incentive performance awards under the Plan for the fiscal year 2010, based on current salary. The Plan limits the maximum cash amount payable to any participant under the Plan in any fiscal year to \$3,000,000. Cash incentive performance awards under the Plan will not be paid unless certain pre-determined performance goals and objectives set by the Compensation Committee for the 2010 fiscal year are met.

ADDITIONAL INFORMATION

Separate Voting Materials

Some banks, brokers and other record holders have begun the practice of "householding" proxy statements and annual reports. "Householding" is the term used to describe the practice of delivering a single set of proxy statements and annual reports to a household at which two or more stockholders reside if a company reasonably believes the stockholders are members of the same family. This procedure reduces the volume of duplicate information stockholders receive and also reduces printing and mailing costs. If you participate in "householding" and wish to continue receiving individual copies of our proxy statement and annual report, please write or call us at the following address or phone number: the Secretary, Atlas Air Worldwide Holdings, Inc., 2000 Westchester Avenue, Purchase, New York, 10577, (914) 701-8000. We will promptly deliver an additional copy of the proxy and/or the annual report to any stockholder who so requests.

List of Stockholders

At the Annual Meeting and for 10 days prior to the meeting, the names of stockholders entitled to vote at the Annual Meeting will be available for inspection at for any purpose germane to the meeting, between the hours of 9 a.m. and 5 p.m., at our principal executive offices at 2000 Westchester Avenue, Purchase, New York 10577, by contacting the Secretary of AAWW.

Limited Voting by Foreign Owners

To comply with restrictions imposed by federal aviation law on foreign ownership of U.S. airlines, our Certificate of Incorporation and By-laws restrict foreign ownership of shares of our Common Stock. The restrictions imposed by federal aviation law (49 U.S.C. §41102) currently include a requirement that no more than 25% of our voting stock be owned or controlled, directly or indirectly, by persons who are not Citizens of the United States. There is a separate requirement that we be under the actual control of Citizens of the United States.

Pursuant to our By-laws, there is a separate stock record, designated the Foreign Stock Record for the registration of Voting Stock that is Beneficially Owned by aliens. Voting Stock means all outstanding shares of our capital stock that we may issue from time to time which, by their terms, may vote. Beneficially Owned refers to owners of our securities who, directly or indirectly, have or share voting power and/or investment power.

At no time will ownership of our shares of Common Stock representing more than the Maximum Percentage be registered in the Foreign Stock Record. Maximum Percentage refers to the maximum percentage of voting power of Voting Stock which may be voted by, or at the direction of, aliens without violating applicable statutory, regulatory or interpretative restrictions or adversely affecting our, Atlas's or Polar's operating certificates or authorities. If we find that the combined voting power of Voting Stock then registered in the Foreign Stock Record exceeds the Maximum Percentage, the registration of such shares will be removed from the Foreign Stock Record sufficient to reduce the combined voting power of the shares so registered to an amount not in excess of the Maximum Percentage.

The enclosed proxy card contains a certification that by signing the proxy card the stockholder certifies that such stockholder is a Citizen of the United States as defined by 49 U.S.C. §40102(a)(15) or that the shares represented by the proxy card have been registered on our Foreign Stock Record.

We will promptly deliver a copy of our By-laws to any stockholder who writes or calls us at the following address or phone number: Attention: the Secretary, Atlas Air Worldwide Holdings, Inc., 2000 Westchester Avenue, Purchase, New York, 10577, (914) 701-8000.

Extent of Incorporation by Reference of Certain Materials

The Audit Committee Report and the Compensation Committee Report on Executive Compensation included in this Proxy Statement do not constitute soliciting materials and should not be deemed filed or incorporated by reference into any other filing made by us under or subject to Regulation 14A or 14C (other than Item 7 to Regulation 14A), or to the liabilities of Section 18 of the Exchange Act, except to the extent we specifically incorporate such report or performance graph by reference therein.
