Report of Independent Registered Public Accounting Firm

To the Participants and Administrative Committee of
the Baxter Healthcare of Puerto Rico Savings and Investment Plan
Deerfield, Illinois

We have audited the accompanying statement of net assets available for benefits of the Baxter Healthcare of Puerto Rico Savings and Investment Plan (Plan) as of December 31, 2009, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009, and the changes in net assets available for benefits for the year then ended in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2009 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2009 financial statements taken as a whole.

Prior Auditor's Report of Independent Registered Public Accounting Firm

To the Participants and Administrative Committee of the
Baxter Healthcare of Puerto Rico Savings and Investment Plan

In our opinion, the accompanying statement of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Baxter Healthcare of Puerto Rico Savings and Investment Plan (the Plan) at December 31, 2008, and the changes in net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

**Baxter Healthcare of Puerto Rico
Savings and Investment Plan
Notes to Financial Statements
December 31, 2009 and 2008**

1. General Description of the Plan

The following brief description of Baxter Healthcare of Puerto Rico Savings and Investment Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement and summary plan description for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

General

The Plan is a defined contribution plan which became effective on January 1, 1998. The Plan covers substantially all employees of Baxter Healthcare S.A. (Puerto Rico Branch), and Baxter Sales and Distribution Corporation (collectively, the Sponsor or the Company), subsidiaries of Baxter International Inc. (Baxter) as of the first day of the month following the completion of thirty days of employment. The Plan was created for the purpose of providing retirement benefits to employees and to encourage and assist employees in adopting a regular savings program by means of payroll deductions through a plan that qualifies under the applicable laws of the Commonwealth of Puerto Rico and the United States Internal Revenue Code.

Contributions

Plan participants may authorize the Company to make payroll deductions under the Plan ranging from 1% to 10% and 1% to 50% of their pre-tax monthly compensation in 2008 and 2009, respectively, limited to a maximum of \$8,000 and \$9,000 a year in 2008 and 2009, respectively. Newly hired employees are deemed to have elected to contribute 3% of compensation unless they make a contrary election. The Company matches a participant's savings contributions at the rate of 50 cents for each dollar of a participant's pre-tax contribution, up to a maximum of 6% of a participant's compensation. The Company also contributes an additional non-matching 3% of compensation for employees that are not eligible to participate in the Company's Puerto Rico defined benefit pension plan, which includes all new employees hired on or after January 1, 2008. The Company may make additional discretionary contributions in such amounts as the Company may determine.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings, and is charged with his or her withdrawals and an allocation of Plan-related expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The net income of the Plan is posted to the participant's accounts on a daily basis. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions plus actual earnings thereon is based on years of service. The contributions vest in accordance with the following vesting schedule:

Years of Service	Vesting %
1	20%
2	40%
3	60%

4	80%
5 or more	100%
Employees are fully vested in the Company's matching contributions account, regardless of years of service with the Company, upon attaining age 65, upon becoming disabled in accordance with the provisions of the Plan or upon dying while employed by the Company. The Company's additional non-matching contribution becomes fully vested after three years of service. Forfeitures of nonvested accounts are used to reduce future Company contributions.	

**Baxter Healthcare of Puerto Rico
Savings and Investment Plan
Notes to Financial Statements
December 31, 2009 and 2008**

Participant Loans

Participants may borrow from their vested accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate at the last day of the month prior to loan request, plus one percent. Principal and interest are paid through monthly payroll deductions.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions into various investment options: Stable Income Fund, Baxter Common Stock Fund, Composite Fund, General Equity Fund, S&P 500 Flagship Fund, International EAFE Equity Index Fund, Small Cap Fund and ten different Target Retirement Funds. However, non-matching contributions may not be invested in the Baxter Common Stock Fund. In addition, certain participants maintain shares in Edwards Lifesciences Corporation. These shares were placed into the Edwards Lifesciences Common Stock Fund in connection with Baxter's 2000 spin-off of its cardiovascular business. Participants are not able to make contributions or transfer existing account balances to the Edwards Lifesciences Common Stock Fund, but may make transfers out of these funds at any time.

Payments of Benefits

Plan participants can not request withdrawals from the Plan unless they are at least 59½ years old or incur a financial hardship. On termination of service due to retirement or other reasons, a participant may elect to receive either a lump sum amount equal to their entire vested account balance or installment payments. In the case of a participant termination because of death or disability, the entire vested amount is paid to the person or persons legally entitled thereto.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. Accordingly, investment income is recognized when earned and expenses are recognized when incurred.

Issued But Not Yet Effective Accounting Standard

In January 2010, the Financial Accounting Standards Board (FASB) issued a new accounting standard to improve disclosures with respect to fair value measurements, primarily related to the levels within the fair value hierarchy. An entity will be required to disclose significant transfers in and out of Levels 1 and 2 of the fair value hierarchy, and separately present information related to purchases, sales, issuances and settlements in the reconciliation of fair value measurements classified as Level 3. This standard will be effective for reporting periods beginning after December 15, 2009, except for the disclosures related to purchases, sales, issuances and settlements for Level 3 fair value measurements, which are effective for reporting periods beginning after December 15, 2010. The disclosures required by this standard will be included in the notes to the Plan's financial statements effective January 1, 2010, except for the disclosures related to Level 3 fair value measurements, which will be included in the notes to the Plan's financial statements effective January 1, 2011.

New Accounting Standard

In April 2009, the FASB issued a new accounting standard related to estimating fair value when the volume and level of activity for an investment has significantly decreased. This standard also requires enhanced disclosures

regarding the major security types of equity and debt securities and was effective for the Plan reporting period ending December 31, 2009. The Plan's adoption of this standard did not have an impact on the net assets available for benefits. Refer to Note 4 for disclosures related to this standard.

**Baxter Healthcare of Puerto Rico
Savings and Investment Plan
Notes to Financial Statements
December 31, 2009 and 2008**

In September 2009, the FASB issued a new accounting standard related to the valuation of investments in certain entities that calculate net asset value per share. This standard provides a practical expedient for measuring the fair values of Plan investments in entities that calculate a net asset value per share (such as commingled investments). This standard also requires enhanced disclosures regarding the attributes of certain investments, including the nature of any restrictions and the investment objectives, and was effective for the Plan reporting period ending December 31, 2009. The Plan's adoption of this standard did not have an impact on the net assets available for benefits. Refer to valuation of investments and collateral below for disclosures related to this standard.

Valuation of Investments and Collateral

The fair value of Plan investments and collateral is determined as follows:

Cash and cash equivalents	These largely consist of a short-term investment fund and a money market fund, the fair value of which is based on the net asset value. The investment objectives for these funds are to provide safety for principal, daily liquidity and a competitive yield by investing in high quality instruments.
Common stock	Value based on closing prices on the valuation date in an active market on national and international securities exchanges.
U.S. government and government agency issues	Value based on reputable pricing vendors that typically use pricing matrices or models.
Corporate and other obligations	Value based on reputable pricing vendors that typically use pricing matrices or models.
Commingled funds	Value based on net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. The investment objectives of these funds are to track the performances of the S&P 500 (S&P 500 Flagship Fund); Europe, Australasia and the Far East (EAFE) (International EAFE Equity Index Fund); or Russell 2000 (Small Cap Fund) indexes. The underlying investments vary, with some holding diversified portfolios of domestic stocks and government and government agency bonds, and others holding collective investment funds. Each fund provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement. Refer to Note 5 for amounts invested in each of these funds.

Edgar Filing: BAXTER INTERNATIONAL INC - Form 11-K

Registered investment companies

Value based on the last reported sale price from a national security exchange on the valuation date.

Participant loans

Value based on outstanding principal balance plus accrued interest, which approximates fair value.

7

**Baxter Healthcare of Puerto Rico
Savings and Investment Plan
Notes to Financial Statements
December 31, 2009 and 2008**

Synthetic guaranteed investment contracts

Value based on the fair value of the underlying securities in the contract on the valuation date plus the fair value of wrapper contracts, which is calculated using a replacement cost approach. See below for more information.

Collateral held on loaned securities

Value based upon the net asset value per unit of the short-term investment fund (Quality D Short-Term Investment Fund) where the collateral is invested. This fund primarily invests in cash and cash equivalents and asset-backed securities, and is utilized for the investment of cash collateral generated by the securities lending program in which the Plan and Custodian participate. At December 31, 2009, the maturity dates of these securities were less than 90 days. Refer to Note 6 for more information on the securities lending program.

Collateral to be paid on loaned securities

Value based on the fair value of the underlying securities loaned on the valuation date, plus an incremental margin.

Income Recognition

Plan investment return includes dividend and interest income, gains and losses on sales of investments and unrealized appreciation or depreciation of investments. Purchases and sales of investments are recorded on a trade date basis. Dividends are recorded on the ex-dividend date.

The financial statements reflect the net appreciation or depreciation in the fair value of the Plan's investments. This net appreciation or depreciation consists of realized gains and losses calculated as the difference between proceeds from a sales transaction and cost determined on a moving average basis, and unrealized gains and losses calculated as the change in the fair value between beginning of the year (or purchase date if later) and the end of the year.

Synthetic Guaranteed Investment Contracts

The Plan holds synthetic guaranteed investment contracts (GICs) as part of the Stable Income Fund. The synthetic GICs provide for a fixed return on principal over a specified time through fully benefit-responsive contracts issued by Aegon Institutional Markets and Bank of America N.A. The portfolio of assets, overall of investment grade, underlying the synthetic GICs primarily includes cash and cash equivalents, U.S. government and government agency issues, corporate and other obligations, and registered investment companies.

The fair value of the synthetic GICs equals the total of the fair value of the underlying assets plus the fair value of the wrapper contracts. The fair value of the wrapper contracts is computed using a replacement cost approach that incorporates a comparison of the current fee rate on similar wrapper contracts to the fee being paid by the Plan. Using this approach, the fair value of the wrapper contracts were \$37,348 and \$30,386 at December 31, 2009 and

2008, respectively.

While Plan investments are presented at fair value in the Statement of Net Assets Available for Benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the Statement of Net Assets Available for Benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions, plus earnings, less participant withdrawals and administrative expenses. The wrapper contracts used by the Plan are fully benefit-responsive because the wrapper contract issuers are contractually obligated to make up any shortfall in the event that the underlying asset portfolio has been liquidated and is inadequate to cover participant withdrawals and transfers at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or any other risk. The contract value for the synthetic GICs was \$14,669,770 and \$13,017,344 at December 31, 2009 and 2008, respectively.

**Baxter Healthcare of Puerto Rico
Savings and Investment Plan
Notes to Financial Statements
December 31, 2009 and 2008**

The crediting interest rate, which is reset quarterly, can never fall below zero. The crediting rate formula smoothes the impact of interest rate changes on participant returns by amortizing any difference between market value and book value over a period of years equal to the duration of the portfolio benchmark. The average yield on the synthetic GICs was approximately 4.2% and (0.18)% at December 31, 2009 and 2008, respectively. The average interest rate credited to participants on the synthetic GICs was approximately 4.1% and 4.82%, respectively, for the years ended December 31, 2009 and 2008. The credit ratings for Aegon Institutional Markets were AA- and AA at December 31, 2009 and December 31, 2008, respectively, and the credit ratings for Bank of America N.A. were A+ and AA- at December 31, 2009 and December 31, 2008, respectively.

Events that lead to market value withdrawals that exceed 20 percent of the contract value would limit the ability of the Plan to transact at contract value with participants. These events include restructurings, early retirement plans, divestitures, bankruptcies, or legal, tax or regulatory changes. The Plan sponsor believes that the occurrence of any such event is remote.

The wrapper providers can only terminate at a value different than contract value under an event of default (that was not remedied) such as failure to follow the terms of the contract. If a wrapper provider would like to exit the contract for another reason, the Plan can maintain the contract through an extended termination process designed to ensure continued benefit-responsive treatment for withdrawals.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes to the financial statements. Changes in such estimates may affect amounts reported in future periods.

Other

Due from or due to brokers for securities sold or purchased, respectively, represent the net cash value of security trades initiated but not yet settled at each respective year-end.

Risks and Uncertainties

The Plan provides for various investment options which invest in any combination of registered investment companies, U.S. government and government agency issues, corporate and other obligations, common stock, commingled funds, synthetic guaranteed investment contracts and short-term investments. Investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits. Individual participants' accounts bear the risk of loss resulting from fluctuations in investment values.

**Baxter Healthcare of Puerto Rico
Savings and Investment Plan
Notes to Financial Statements
December 31, 2009 and 2008**

Investments underlying the Plan's synthetic GICs include securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies and/or defaults, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

3. Administration of the Plan

Banco Popular de Puerto Rico (the Trustee) and State Street Bank and Trust Company (the Custodian) serve as trustee and custodian, respectively, for the Plan. ING Institutional Plan Services, LLC serves as recordkeeper for the Plan.

The Administrative Committee is responsible for the general administration of the Plan and for carrying out the provisions thereof. The Investment Committee has authority, responsibility and control over the management of the assets of the Plan. Members of both committees are appointed by the Board of Directors of Baxter.

Substantially all investment manager, trustee and administrative fees incurred in the administration of the Plan were paid from the assets of the Plan.

4. Fair Value of Measurements

The fair value hierarchy under the accounting standard for fair value measurements consists of the following three levels:

Level 1 Quoted prices in active markets that the Plan has the ability to access for identical assets or liabilities;

Level 2 Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuations in which all significant inputs are observable in the market; and

Level 3 Valuations using significant inputs that are unobservable in the market and include the use of judgment by the Plan's management about the assumptions market participants would use in pricing the asset or liability.

See Valuation of Investments and Collateral in Note 2 above for a discussion of the methodologies used to determine the fair values of the Plan's investments and collateral. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Adjustment from fair value to contract value for Stable Income Fund	(116,408)	(534,566)
Total investments	\$ 40,521,220	\$ 34,128,408

Baxter Healthcare of Puerto Rico
Savings and Investment Plan
Notes to Financial Statements
December 31, 2009 and 2008

During 2009 and 2008, the Plan's investments, including gains and losses on investments bought and sold as well as held during the year, appreciated (depreciated) in value as follows:

	2009	2008
Baxter common stock	\$ 548,403	\$ (581,293)
Other common stock	625,968	(1,557,508)
U.S. government and government agency issues	1,193	4,641
Corporate and other obligations	89,302	(148,133)
Commingled funds	1,317,282	(3,466,969)
Registered investment companies	63,901	(23,180)
Collateral held on loaned securities	83,903	(156,026)
	\$ 2,729,952	\$ (5,928,468)

6. Securities Lending Transactions

The Plan participates in a securities lending program with the Custodian. The program allows the Custodian to loan securities, which are assets of the Plan, to approved brokers (the Borrowers).

The Custodian requires the Borrowers, pursuant to a security loan agreement, to deliver collateral to secure each loan in an amount that is at least equal to the fair value of the securities loaned. The Plan bears the risk of loss with respect to any unfavorable change in fair value of the invested cash collateral. However, the Borrower bears the risk of loss related to the decrease in the fair value of the non-cash collateral and, therefore, would have to deliver additional securities to maintain the required collateral. In the event of default by the Borrower, the Custodian shall indemnify the Plan by purchasing replacement securities equal to the number of unreturned loaned securities, or, if replacement securities are not able to be purchased, the Custodian shall credit the Plan for the market value of the unreturned securities. In each case, the Custodian would apply the proceeds from the collateral for such a loan to make the Plan whole.

The fair value of the investment of cash collateral received pursuant to securities lending transactions is reflected on the Statements of Net Assets Available for Benefits as an asset and the obligation to return the amount received is reflected as a liability.

As of December 31, 2009 and 2008, the Plan had securities on loan with a fair market value of \$4,442,242 and \$1,975,004, respectively, with cash collateral received of \$4,550,430 and \$2,028,951, respectively. Cash collateral was invested in a short-term commingled investment fund as of December 31, 2009 and 2008. While as of December 31, 2009 and December 31, 2008 this fund was transacting on a dollar-for-dollar basis, the net asset value of the fund's underlying securities was \$0.9842 and \$0.9231, respectively, per unit. As a result of this increase, an unrealized gain of \$83,903 is reflected in the 2009 Statement of Changes in Net Assets Available for Benefits compared with an unrealized loss of \$156,026 reported in 2008. As of December 31, 2009 and 2008, the cash collateral received is reflected at its fair value of \$4,478,307 and \$1,872,925, respectively, in the 2009 and 2008 Statements of Net Assets Available for Benefits.

Non-cash collateral of \$139,702 received for securities on loan at December 31, 2009 consisted of U.S. government and government agency issues held by the Custodian on behalf of the Plan. The Plan did not hold any non-cash collateral at December 31, 2008. Non-cash collateral is not included with the collateral balance on the 2009 Statement of Net Assets Available for Benefits because it may not be sold or repledged. A portion of the income generated upon investment of cash collateral is remitted to the Borrowers, and the remainder is allocated between the Plan and the Custodian in its capacity as a security agent. Securities lending income allocated to the Plan amounted to \$732 and \$21,335 for 2009 and 2008, respectively. Securities lending income is classified as interest income in the Statements of Changes in Net Assets Available for Benefits.

Savings and Investment Plan
Notes to Financial Statements
December 31, 2009 and 2008**

7. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to reduce, suspend or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the interest of each participating employee in the Plan shall become fully vested and such termination of the Plan would not reduce the interest of any participating employee or their beneficiaries accrued under the Plan up to the date of such termination.

8. Tax Status of the Plan

The Puerto Rico Treasury Department has determined and informed the Plan sponsor that the Plan and the related trust are designed in accordance with applicable sections entitling exemption from income taxes. The Plan sponsor has also obtained a favorable determination letter dated October 1, 2003, from the Internal Revenue Service (IRS) stating that the Plan is in compliance with IRS regulations. The Plan has been amended since receiving the determination letter. The Plan Sponsor believes that the Plan is currently designed and being operated in compliance with the applicable tax requirements. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. Related Parties

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

At December 31, 2009 and 2008, the Plan held shares of common stock and bonds of Baxter, the Plan sponsor's parent; units of participation in certain commingled funds and short-term investment funds of State Street Bank and Trust Company, the Plan's Custodian; loans with participants; shares of common stock, bonds, and interest rate wrapper contracts of Bank of America, issuer of the Plan's fully benefit-responsive contracts; interest rate wrapper contracts of Aegon Institutional Markets, issuer of the Plan's fully benefit-responsive contracts; and units of registered investment companies managed by Pacific Investment Management Company, an investment manager for the Plan. These transactions are allowable party-in-interest transactions under ERISA and the regulations promulgated thereunder.

Fees paid by the Plan for investment management, recordkeeping and consulting services, also qualify as party-in-interest transactions and are included in Plan-related expenses in the accompanying financial statements. The Company pays certain expenses for the administration of the Plan. These transactions are exempt from the party-in interest transaction prohibitions of ERISA.
