Item 2.02. Results of Operations and Financial Condition.

On November 4, 2010, Alimera Sciences, Inc. (the Company) issued a press release and held a conference call regarding its results of operations and financial condition for the third quarter ended September 30, 2010. The full text of the press release is furnished as Exhibit 99.1 to this Current Report on Form 8-K.

Various statements made during the conference call are forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, regarding, among other things, the Company's future results of operations and financial position, business strategy and plans and objectives of management for the Company's future operations. Words such as anticipate, believe, estimate, expect, intend, may, plan, predict, project, could, and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. The events and circumstances reflected in the Company's forward-looking statements may not occur and actual results could differ materially from those projected in the Company's forward-looking statements. Meaningful factors which could cause actual results to differ include, but are not limited to, delay in or failure to obtain regulatory approval of the Company's product candidates, uncertainty as to the Company's ability to commercialize, and market acceptance of, the Company's product candidates, the extent of government regulations, uncertainty as to the relationship between the benefits of the Company's product candidates and the risks of their side-effect profiles, dependence on third-party manufacturers to manufacture the Company's product candidates in sufficient quantities and quality, uncertainty of clinical trial results, limited sales and marketing infrastructure, and the Company's ability to operate its business in compliance with the covenants and restrictions that it is subject to under its credit facility, as well as other factors discussed in the Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations sections of the Company's quarterly reports on Form 10-Q for the fiscal quarters ended March 31, 2010 and June 30, 2010, which are on file with the Securities and Exchange Commission (SEC). Additional factors may also be set forth in those sections of the Company's quarterly report on Form 10-Q for the fiscal quarter ended September 30, 2010 to be filed with the SEC.

All forward-looking statements made during the conference call are expressly qualified by the above paragraph in their entirety. These forward-looking statements speak only as of the date of the conference call (unless another date is indicated). The Company undertakes no obligation, and specifically declines any obligation, to publicly update or revise any forward-looking statements which are made during the conference call, whether as a result of new information, future events or otherwise.

The information in Item 2.02 of this Current Report on Form 8-K and the press release attached hereto as Exhibit 99.1 shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such a filing.
