**Non-Represented Hourly Active Employees and Retirees**

On July 23, 2007, Delphi and GM agreed to the treatment of certain non-represented hourly individuals, and on August 3, 2007, this agreement was formalized in the Non-Represented Term Sheet. On August 16, 2007, the Court granted Delphi's motion pursuant to 11 U.S.C. § 363, modifying retiree welfare benefits for certain non-represented hourly active employees and retirees of Delphi and its affiliated debtors and approving the Non-Represented Term Sheet.

A complete copy of the Non-Represented Term Sheet and the approval order of the Court are attached as Exhibit 99(b) to this Form 8-K. The following summary of certain terms of the Non-Represented Term Sheet does not purport to be complete and is qualified in its entirety by reference to Exhibit 99(b), which is hereby incorporated by reference and capitalized terms used and not otherwise defined in the summary have the meanings ascribed to them in the Non-Represented Term Sheet.

Upon the effective date of the Non-Represented Term Sheet:

GM will provide post-retirement medical benefits to certain of the non-represented hourly active employees and retirees in accordance with all the ongoing terms, conditions, and eligibility requirements of the GM Health Care Program for Hourly Employees and GM will provide the applicable level of post retirement medical benefits consistent with the terms of the Modified Plan, as defined in the settlement agreement approved by the court in the case IUE, et al. v. General Motors Corporation (case number 2:06-cv-12151), on the same basis as such benefits are provided to GM-IUE-CWA hourly employees who retired from GM with eligibility to participate in the GM Health Care Program;

GM will provide all employer-paid post-retirement Basic Life Insurance benefits to certain of the non-represented hourly active employees and retirees in accordance with all the ongoing terms, conditions, and eligibility requirements of the GM Life and Disability Benefits Program for Hourly Employees and at the level provided for non-represented hourly retirees on the date immediately preceding GM's provision of such benefits, provided, however, that GM will not be required to provide life insurance benefits at a level and scope that exceeds that being provided for similarly situated IBEW or IAM-represented hourly retirees of GM; and

Delphi has agreed to reimburse GM for the actuarial present value of GM's actual liability with respect to the provision of OPEB to certain of Delphi's non-represented hourly active employees and retirees.

**ITEM 8.01 OTHER EVENTS**

On August 17, 2007, Delphi announced it had reached a tentative agreement and signed a Memorandum of Understanding with the USWA and GM representing certain U.S. hourly employees covering workforce transition, legacy pension items as well as other comprehensive transformational matters. The agreement is subject to union ratification and approval by the Court. A copy of the press release is attached as exhibit 99(c) hereto.

**FORWARD-LOOKING STATEMENTS**

This Current Report on Form 8-K, including the exhibits being filed as part of this report, as well as other statements made by Delphi may contain forward-looking statements that reflect, when made, the Company's current views with respect to current events and financial performance. Such forward-looking statements are and will be, as the case may be, subject to many risks, uncertainties and factors relating to the Company's operations and business environment which may cause the actual results of the Company to be materially different from any future results, express or implied, by such forward-looking statements. In some cases, you can identify these statements by forward-looking words such as may, might, will, should, expects, plans, anticipates, believes, estimates, predicts, the negative of these terms and other comparable terminology. Factors that could cause actual results to differ materially from these forward-looking statements include, but are not limited to, the following: the ability of the Company to continue as a going concern; the ability of the Company to operate pursuant to the terms of the debtor-in-possession financing facility; the terms of any reorganization plan ultimately confirmed; the Company's

ability to obtain Court approval with respect to motions in the chapter 11 cases prosecuted by it from time to time; the ability of the Company to develop, prosecute, confirm and consummate one or more plans of reorganization with respect to the chapter 11 cases; the Company's ability to satisfy the terms and conditions of the new Equity Purchase and Commitment Agreement; risks associated with third parties seeking and obtaining Court approval to terminate or shorten the exclusivity period for the Company to propose and confirm one or more plans of reorganization, for the appointment of a chapter 11 trustee or to convert the cases to chapter 7 cases; the ability of the Company to obtain and maintain normal terms with vendors and service providers; the Company's ability to maintain contracts that are critical to its operations; the potential adverse impact of the chapter 11 cases on the Company's liquidity or results of operations; the

ability of the Company to fund and execute its business plan (including the transformation plan described in Item 1. Business Potential Divestitures, Consolidations and Wind-Downs of the Annual Report on Form 10-K for the year ended December 31, 2006 filed with the SEC) and to do so in a timely manner; the ability of the Company to attract, motivate and/or retain key executives and associates; the ability of the Company to avoid or continue to operate during a strike, or partial work stoppage or slow down by any of its unionized employees and the ability of the Company to attract and retain customers. Additional factors that could affect future results are identified in the Company's Annual Report on Form 10-K for the year ended December 31, 2006, including the risk factors in Part I. Item 1A. Risk Factors, contained therein and the Company's quarterly periodic reports for the subsequent periods, including the risk factors in Part II. Item 1A. Risk Factors, contained therein, filed with the SEC. Delphi disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events and/or otherwise. Similarly, these and other factors, including the terms of any reorganization plan ultimately confirmed, can affect the value of the Company's various prepetition liabilities, common stock and/or other equity securities. Additionally, no assurance can be given as to what values, if any, will be ascribed in the bankruptcy cases to each of these constituencies. A plan of reorganization could result in holders of Delphi's common stock receiving no distribution on account of their interest and cancellation of their interests. In addition, under certain conditions specified in the U.S. Bankruptcy Code, a plan of reorganization may be confirmed notwithstanding its rejection by an impaired class of creditors or equity holders and notwithstanding the fact that equity holders do not receive or retain property on account of their equity interests under the plan. In light of the foregoing, the Company considers the value of the common stock to be highly speculative and cautions equity holders that the stock may ultimately be determined to have no value. Accordingly, the Company urges that appropriate caution be exercised with respect to existing and future investments in Delphi's common stock or other equity interests or any claims relating to prepetition liabilities.
