STEALTHGAS INC. REPORTS FOURTH QUARTER AND FULL-YEAR

2007 RESULTS AND ANNOUNCES QUARTERLY CASH DIVIDEND OF

\$0.1875 PER COMMON SHARE

ATHENS, GREECE, February 20, 2008. STEALTHGAS INC. (NASDAQ: GASS), a ship-owning company serving the liquefied petroleum gas (LPG) sector of the international shipping industry, announced today its unaudited financial and operating results for the three and twelve months ended December 31, 2007.

Fourth Quarter 2007 Results:

For the fourth quarter of 2007, voyage revenues amounted to \$26.1 million and net income was \$6.2 million, an increase of \$5.7 million, or 27.9%, and an increase of \$1.4 million, or 29.2%, respectively, from voyage revenues of \$20.4 million and net income of \$4.8 million for the fourth quarter of 2006.

Basic and diluted earnings per share calculated on 22,114,105 basic weighted average number of shares and 22,169,235 diluted weighted average number of shares were \$0.28 for the fourth quarter of 2007 as compared to basic and diluted earnings per share of \$0.33, calculated on 14,400,000 basic and diluted weighted average number of shares for the fourth quarter of 2006.

Adjusted EBITDA for the fourth quarter of 2007 was \$12.0 million, an increase of \$1.8 million, or 17.6%, from \$10.2 million for the same period of 2006. A reconciliation of Adjusted EBITDA to Net Income and to Net Cash provided by operating activities is set forth below.

For the fourth quarter of 2007, the Company reported a non-cash expense of \$1.5 million, which includes an unrealized, non-cash loss of approximately \$1.2 million on four previously disclosed interest rate swap arrangements and a provision of approximately \$0.3 million for restricted-stock portion of deferred stock-based compensation for the Company's employees and directors. This compares to an approximately \$0.028 million unrealized non-cash loss on three previously disclosed interest rate swap arrangements for the fourth quarter of 2006. Excluding these non-cash items, net income would have been \$7.7 million, or \$0.35 per share, basic and diluted for the fourth quarter 2007 as compared to \$4.8 million, or \$0.33 per share, basic and diluted for the fourth quarter of 2006.

An average of 37.5 vessels were owned by the Company in the fourth quarter of 2007, earning an average time-charter equivalent rate of approximately \$7,214 per day as compared to 28.0 vessels, earning an average time-charter equivalent rate of \$7,323 per day for the same period of 2006.

Full-Year 2007 Results:

For the twelve months ended December 31, 2007, voyage revenues amounted to \$90.0 million and net income was \$22.5 million, an increase of \$16.7 million, or 22.8%, and an increase of \$4.0 million, or 21.6%, respectively, from voyage revenues of \$73.3 million and net income of \$18.5 million for the twelve months ended December 31, 2006.

Basic and diluted earnings per share calculated on 17,900,576 basic weighted average number of shares and 17,943,346 diluted weighted average number of shares were \$1.26 for the twelve

months ended December 31, 2007 as compared to basic and diluted earnings per share of \$1.31, calculated on 14,161,096 basic and diluted weighted average number of shares for the twelve months ended December 31, 2006.

Adjusted EBITDA for the twelve months ended December 31, 2007 was \$45.7 million, an increase of \$8.9 million, or 24.3%, from \$36.7 million for the same period of 2006. A reconciliation of Adjusted EBITDA to Net Income and to Net Cash provided by operating activities is set forth below.

For the twelve months ended December 31, 2007, the Company reported a non-cash expense of \$3.9 million, which includes an unrealized, non-cash loss of \$2.6 million on four previously disclosed interest rate swap arrangements and approximately \$1.3 million of share-based compensation expense related to restricted share awards granted to the Company's employees and directors during the twelve months ended December 31, 2007 as compared to 2006, where the Company reported a non-cash loss of \$0.2 million on four previously disclosed interest rate swap arrangements. Excluding these non-cash items, net income would have been \$26.4 million, or \$1.47 per share, basic and diluted for the twelve months ended December 31, 2007, as compared to \$18.7 million, or \$1.32 per share, basic and diluted for the twelve months ended December 31, 2006.

An average of 32.8 vessels were owned by the Company in the twelve months ended December 31, 2007, earning an average time-charter equivalent rate of approximately \$7,129 per day as compared to 25.9 vessels earning an average time-charter equivalent rate of \$7,174 per day for 2006.

CEO Harry Vafias commented

We are very pleased to report another very solid quarter in terms of financial performance and to highlight once again the sound financial base upon which the Company is being developed.

The fourth quarter saw us continue to expand our fleet of handy size LPG carriers thus continuing our policy of being the market leader in this sector which continues to have extremely strong fundamentals over the next two to three years. We also took the decision to deploy a limited amount of the capital we raised last July in the accretive acquisition of two new product carriers which are being deployed on long term secure bare boat charters thus ensuring their steady contribution to earnings over the next seven years. However as can be evidenced by our ongoing financial structure this limited use of equity in these two vessels in no way hinders our ability to continue to expand our presence in our core sector something I am confident we will continue to achieve during 2008 and beyond.

Overall I am pleased to report continued increases in revenue, EBITDA and net income both in the fourth quarter and for 2007 as a whole, where revenues grew by 22.8%, operating profit was up by 28.8% and net income increased from \$18.5 million to \$22.5 million.

Finally with some 90% of our fleet fixed on period charter for the remainder of 2008, several of which vessels we announced during last year would commence or recommence much improved charter rates during this year, we look forward with confidence not only to continuing to expand the business during 2008, but we expect to achieve further attractive growth in our financial performance during this time.

CFO Andrew Simmons commented.

We remain well placed financially to continue upon the growth path embarked upon by the Company when it went public in October 2005. With our existing cash resources, as well as the expected improved cash generation by the Company in 2008, along with our low level of gearing, with net debt to capitalization standing at just 23.3% at the end of last year, we are well positioned to facilitate the expansion of the business we expect to achieve during 2008 and beyond, something to date we have more than adequately demonstrated we are able to achieve while at the same time

maintaining a very sound financial structure, backed up by a secure and transparent earnings stream.

Quarterly Dividend:

At today's meeting, the Company's Board of Directors declared a quarterly cash dividend of \$0.1875 per common share, payable on March 6, 2008 to shareholders of record on February 29, 2008.

This is the ninth consecutive quarterly dividend since the company went public in October 2005. Since then, the Company has declared quarterly dividends aggregating \$1.6875 per common share.

Fleet Developments:

During the fourth quarter of 2007, the Company took delivery of two LPG Carriers it had previously agreed to acquire, the M/V Gas Sophie on October 15, 2007, and the M/V Gas Haralambos on October 30, 2007, expanding its fleet to 38 vessels, with an aggregate carrying capacity of 164,429 cubic meters (cbm).

The M/V Gas Sophie is a 1995 built, 3,500 cbm Fully Pressurized (F.P.) LPG carrier. Upon its delivery, it was deployed on time charter for 12 months to an international gas trader.

The M/V Gas Haralambos is a 2007 built, 7,000 cbm Fully Pressurized (F.P.) LPG carrier. Upon its delivery, it was deployed on a 2 year time charter to a major international commodity trader.

As previously announced, the Company has an agreement to acquire an additional LPG carrier, the M/V Gas Premiership, a 2001 built, 7,200 cbm, Fully Pressurized (F.P) vessel with expected delivery in February 2008. Once this acquisition is complete, and following the sales of the three vessels described below, the Company's fleet will be composed of 36 LPG carriers with an aggregate carrying capacity of 160,286 cbm.

On November 19, 2007, the Company announced that it reached an agreement to sell to an unaffiliated entity on an en bloc basis the M/V Gas Oracle, the M/V Gas Renovatio and the M/V Gas Nemesis. The aggregate sale price of these vessels was \$27.3 million. On January 28, 2008 the Gas Oracle was delivered to her new owners and on January 29, 2008, the Gas Nemesis was delivered to her new owners. Delivery of the Gas Renovatio to her new owners is expected by the end of February 2008.

On December 6, 2007, the Company announced that it had agreed to acquire from an unaffiliated entity two new 47,000 deadweight M.R. type product tankers ex- yard for delivery in 2008. The first of these vessels the Navig8 Fidelity was delivered to the Company on January 9, 2008 while the second the Navig8 Faith is scheduled for delivery on February 21, 2008.

1) Average number of vessels is the number of vessels that constituted our fleet for the relevant period, as measured by the sum of the number of days each vessel was a part of our fleet during the period divided by the number of calendar days in that period.

2) Total calendar days are the total days the vessels were in our possession for the relevant period including off-hire days associated with major repairs, drydockings or special or intermediate surveys.

3) Total voyage days for fleet reflect the total days the vessels were in our possession for the relevant period net of off-hire days associated with major repairs, drydockings or special or intermediate surveys.

4) Fleet utilization is the percentage of time that our vessels were available for revenue generating voyage days, and is determined by dividing voyage days by fleet calendar days for the relevant period.

5) Total time charter days for fleet are the number of voyage days the vessels in our fleet operated on time charters for the relevant period.

6) Total spot market charter days for fleet are the number of voyage days the vessels in our fleet operated on spot market charters for the relevant period.

7) Time charter equivalent, or TCE, is a measure of the average daily revenue performance of a vessel on a per voyage basis. Our method of calculating TCE is consistent with industry standards and is determined by dividing voyage revenues (net of voyage expenses) by voyage days for the relevant time period. Voyage expenses primarily consist of port, canal and fuel costs that are unique to a particular voyage, which would otherwise be paid by the charterer under a time charter contract, as well as commissions. TCE is a standard shipping industry performance measure used primarily to compare period-to-period changes in a shipping company's performance despite changes in the mix of charter types (i.e., spot charters, time charters and bareboat charters) under which the vessels may be employed between the periods.

8) Vessel operating expenses, which include crew costs, provisions, deck and engine stores, lubricating oil, insurance, maintenance and repairs is calculated by dividing vessel operating expenses by fleet calendar days for the relevant time period.

9) Total operating expenses, or TOE, is a measurement of our total expenses associated with operating our vessels. TOE is the sum of vessel operating expenses and general and administrative expenses. Daily TOE is calculated by dividing TOE by fleet calendar days for the relevant time period.

Adjusted EBITDA Reconciliation:

Adjusted EBITDA represents net earnings before interest, taxes, depreciation, amortization and amortization of fair value of acquired time charters. Adjusted EBITDA does not represent and should not be considered as an alternative to net income or cash flow from operations, as determined by the United States generally accepted accounting principles, and our calculation of Adjusted EBITDA may not be comparable to that reported by other companies in the shipping or other industries.

Adjusted EBITDA is included herein because it is a basis upon which we assess our financial performance and liquidity position and because we believe that it presents useful information to investors regarding a company's ability to service and/or incur indebtedness.

About STEALTHGAS INC.

Headquartered in Athens, Greece, STEALTHGAS INC. is a ship-owning company principally serving the liquefied petroleum gas (LPG) sector of the international shipping industry. STEALTHGAS INC. currently has a fleet of 36 LPG carriers with a total capacity of 156,399 cubic meters (cbm). Upon the completion of one scheduled disposal by the end of February 2008 and the acquisition and the acquisition of an additional second-hand LPG carrier expected to be delivered in February 2008, STEALTHGAS INC. s fleet will be composed of 36 LPG carriers with a total capacity of 160,286 cbm. In addition, STEALTHGAS INC has entered into agreements to acquire two new M.R. type Product Carrier vessels of 47,000 tons deadweight each. One of these has already been delivered to the Company on January 2008 while the other is to be delivered to the Company at the end of February 2008.

STEALTHGAS Inc. s shares are listed on NASDAQ and trade under the symbol GASS.

Forward-Looking Statements

Matters discussed in this release may constitute forward-looking statements. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management s examination of historical operating trends, data contained in our records and other data available from third parties. Although STEALTHGAS INC. believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, STEALTHGAS INC. cannot assure you that it will achieve or accomplish these expectations, beliefs or projections. Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and currencies, general market conditions, including changes in charterhire rates and vessel values, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled drydocking, changes in STEALTHGAS INC. s operating expenses, including bunker prices, dry-docking and insurance costs, or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists.

Risks and uncertainties are further described in reports filed by STEALTHGAS INC. with the US Securities and Exchange Commission.
