Independent Auditors Report

To the Trustees and the Savings Plan Committee
of Wackenhut Corrections Corporation
401(k) Retirement Plan:

We have audited the accompanying statements of net assets available for plan benefits of Wackenhut Corrections Corporation 401(k) Retirement Plan (the Plan) as of December 31, 2002 and 2001, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2002. These financial statements and the schedule referred to below are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements and the schedule based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2002 and 2001, and the changes in its net assets available for benefits for the year ended December 31, 2002 in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets Held for Investment Purposes as of December 31, 2002 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

December 31, 2002 and 2001

1. Description of Plan

The following description of the Wackenhut Corrections Corporation 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan provides benefits to all eligible employees of Wackenhut Corrections Corporation and its subsidiaries (the Company). The Plan, as amended, is a defined contribution plan commonly known as an Internal Revenue Code (IRC) section 401(k) profit sharing plan and is subject to the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company is the designated administrator of the Plan.

Although it has expressed no intention to do so, the Company retains the right to terminate the Plan. In the event of Plan termination, all amounts credited to participants' accounts become fully vested subject to the requirements of ERISA. The Company also retains the right to amend the Plan.

Eligibility:

An employee age 18 or older is eligible to participate in the Plan on the first day of the payroll period following the date of employment. The Plan excludes highly compensated employees as defined by the IRC.

Contributions and Allocations:

The Plan permits tax-deferred contributions of 1% to 30% of a participant's annual compensation, subject to certain Internal Revenue Service (IRS) limitations. Amounts contributed by participants are fully vested when made. The Plan allows for rollovers of vested contributions from previous employers' qualified plans.

The Company may contribute to the Plan either annual or monthly matching contributions on behalf of participants who made elective deferrals during such period in an amount which shall be determined each plan year by the Company. The Company may, at its discretion, designate a different matching contribution formula for participants at each separate work site, and/or participants with different job classifications. In order to be entitled to an allocation of the Company's annual matching contribution, participants, as defined under the Plan, must be employed on the last day of the Plan year. Also, the Company, at its option, may make a basic contribution to the Plan each year.

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances as of the date of the allocation.

1. Description of Plan (continued)

Participant Loans:

Participants may borrow from their fund accounts a minimum of \$1,000 not to exceed the lesser of \$50,000, or 50% of their vested account balance. A loan is repayable through payroll deductions over a period of no more than five years, unless it is used to acquire a principal residence, in which case the repayment period may not exceed ten years. The loans are secured by the balance in the participant's vested account. The interest rate on loans outstanding as of December 31, 2002 ranged from 5.25% to 5.75%.

Vesting:

Participants who are employed at the Company's Western Region Detention Facility, Rivers Correctional Institution, Taft Correctional Institution, and South Florida State Hospital facilities vest 100% immediately in the Company's contributions. All other Plan participants vest in the Company's contributions upon completion of three or more years of service.

Additionally, Company contributions become fully vested upon normal retirement age, as defined by the Plan, death or termination of employment as a result of a total or permanent disability.

Payment of benefits:

Eligible participants may elect to receive benefits in a lump-sum payment, a series of payments within one calendar year, a series of annual installments of approximately equal amount to be paid over a period of five to ten years, or may be used by the employee to purchase an immediate or deferred annuity. The amount of benefits paid will be determined by the balance in the employee's Plan account at the date of retirement, termination, death or disability. Benefits are recognized when paid.

2. Summary of Accounting Policies

The following are significant accounting policies followed by the Plan:

Basis of accounting:

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. The Company stock is valued at its quoted market price on the last trading day of the year. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date.

Use of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

4. Collective Trust (continued)

The Capital Preservation Fund is fully benefit-responsive and in accordance with Statement of Position No. 94-4, Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined Contribution Pension Plans is recorded at contract value, which approximates fair value. The crediting interest rate and average effective yield on this account approximates 5% for 2002.

5. Derivatives

Derivative financial instruments may be used by the Plan's Capital Preservation Fund to rebalance the fixed income/equity allocation of the Plan's portfolio and to hedge the currency risk component of the Plan's foreign investments. Certain of the fixed income investment managers are permitted to use certain specified types of derivative instruments as part of their respective strategies. These strategies include the use of futures and options as substitutes for certain types of fixed income securities. Leveraging of the Plan's assets and speculation are prohibited. Currency hedge positions are not permitted to exceed the level of exposure in the related Plan's assets.

8. Forfeitures

Non-vested contributions which have been forfeited by employees due to retirement or termination of employment prior to achieving vested status are used to reduce future contributions by the Company. Forfeitures used to reduce employer contributions for the year ended December 31, 2002 totaled \$28,393.

9. Related Party Transactions

The Plan regularly invests in common trust funds and mutual funds managed by the Trustee. Therefore, these investments represent a party-in-interest to the Plan. These transactions are not considered prohibited transactions by statutory exemptions under ERISA regulations.
