**SUNAIR SERVICES CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**

1. Basis of Consolidated Financial Statement Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of Sunair Services Corporation and its subsidiaries (the Company), required to be consolidated in accordance with U.S. generally accepted accounting principles (GAAP). The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the accounting policies described in the September 30, 2007 Annual Report on Form 10-K except for the accounting policy relating to accounting for uncertainty in income taxes, and should be read in conjunction with the consolidated financial statements and notes thereto.

The unaudited condensed consolidated financial statements for the six and three months ended March 31, 2008 and 2007 included herein have been prepared in accordance with the instructions for Form 10-Q under the Securities Exchange Act of 1934, as amended, and Article 8 of Regulation S-X under the Securities Act of 1933, as amended. Certain information and footnote disclosures normally included in financial statements prepared in conformity with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations relating to interim financial statements.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain only normal recurring adjustments necessary to present fairly the Company's financial position as of March 31, 2008, and the results of its operations and cash flows for the six and three months ended March 31, 2008 and 2007. Operating results for the six months ended March 31, 2008 are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2008.

2. Summary of Significant Accounting Policies

Income taxes

Effective October 1, 2007, the Company adopted Financial Accounting Standards Board (FASB) Interpretation No. (FIN) 48, Accounting for Uncertainty in Income Taxes. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with SFAS No. 109, Accounting for Income Taxes. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 requires that the Company determine whether the benefits of the Company's tax positions are more likely than not of being sustained upon audit based on the technical merits of the tax position. The provisions of FIN 48 also provide guidance on de-recognition, classification, interest and penalties, accounting in interim periods, and disclosure. The Company did not have any unrecognized tax benefits and there was no effect on the financial condition or results of operations as a result of implementing FIN 48. The Company does not have any interest and penalties in the statement of operations for the six and three months ended March 31, 2008. The tax years 2004-2007 remain subject to examination by major tax jurisdictions.

Reclassification

Certain reclassifications of amounts previously reported have been made to the accompanying consolidated financial statements in order to maintain consistency and comparability between periods presented.

In August 2007, the Company sold all the issued and outstanding common stock of Percipia, Inc. (Percipia). For purposes of comparability, the results of these operations have been reclassified from continuing operations to discontinued operations for the six months ended March 31, 2007 presented in the accompanying condensed consolidated statements of operations. See Note 10- Discontinued Operations.

Recent Accounting Pronouncements

In December 2007, the FASB issued SFAS No. 141 (revised 2007) *Business Combinations* (FASB No. 141(R)). FASB No. 141(R) retains the fundamental requirements of the original pronouncement requiring that the purchase method be used for all business combinations. FASB No. 141(R) defines the acquirer as the entity that obtains control of one or more businesses in the business combination, establishes the acquisition date as the date that the acquirer achieves control and requires the acquirer to recognize the assets acquired, liabilities assumed and any non-controlling interest at their fair values as of the acquisition date. FASB No. 141(R) also requires that acquisition-related costs be recognized separately from the acquisition. FASB No. 141(R) is effective for the Company for fiscal 2010. The

Company is currently assessing the impact of FASB No. 141(R) on its consolidated financial position and results of operations.

Table of Contents

In December 2007, the FASB issued Statement No. 160, *Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No. 51 (FASB No. 160)*. The objective of FASB No. 160 is to improve the relevance, comparability, and transparency of the financial information that a reporting entity provides in its consolidated financial statements by establishing accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. This Statement applies to all entities that prepare consolidated financial statements, except not-for-profit organizations. FASB No. 160 amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It also amends certain of ARB 51's consolidation procedures for consistency with the requirements of FASB No. 141 (R). This Statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008 (that is, January 1, 2009, for entities with calendar year-ends). Earlier adoption is prohibited. The effective date of this Statement is the same as that of the related Statement 141(R). FASB No. 160 will be effective for the Company's fiscal year 2010. This Statement shall be applied prospectively as of the beginning of the fiscal year in which this Statement is initially applied, except for the presentation and disclosure requirements. The presentation and disclosure requirements shall be applied retrospectively for all periods presented. The Company is currently assessing the impact of FASB No. 160 on its consolidated financial statements.

In February 2007, the FASB issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities – including an amendment of FASB Statement No. 115 (FASB No. 159)*. FASB No. 159 gives the Company the irrevocable option to carry most financial assets and liabilities at fair value, with changes in fair value recognized in earnings. FASB No. 159 is effective for the Company's 2009 fiscal year, although early adoption is permitted. The Company is currently assessing the impact of FASB No. 159 on its consolidated financial statements.

In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements (FASB No. 157)*. FASB No. 157 provides a common definition of fair value and establishes a framework to make the measurement of fair value in generally accepted accounting principles more consistent and comparable. FASB No. 157 also requires expanded disclosures to provide information about the extent to which fair value is used to measure assets and liabilities, the methods and assumptions used to measure fair value, and the effect of fair value measures on earnings. On December 14, 2007, the FASB issued proposed FASB Staff Position No. FAS 157-b, *Effective Date of FASB No. 157 (Proposed FSP)*. The Proposed FSP would amend FASB No. 157, to delay the effective date of FASB No. 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (that is, at least annually). The Proposed FSP defers the effective date of FASB No. 157 to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years for items within the scope of the Proposed FSP. FASB No. 157 will be effective for the Company's 2010 fiscal year, although early adoption is permitted. The Company is currently assessing the potential effect of FASB No. 157 on its consolidated financial statements.

Fair Value

On January 1, 2006, the Company adopted the provisions of FASB No. 123R which requires the Company to recognize expense related to the fair value of stock-based compensation awards. The Company elected the modified prospective transition method as permitted by FASB No. 123R, under which stock-based compensation for the six and three months ended March 31, 2008 and 2007 is based on grant date fair value estimated in accordance with the provisions of FASB No. 123R and compensation expense for all stock-based compensation awards granted subsequent to January 1, 2006, as well as the unvested portion of previously granted awards that remained outstanding as of January 1, 2006 based on the grant date fair value estimated in accordance with the provisions of FASB No. 123R. In addition, options granted to certain members of the board of directors as payment for Board services recorded in accordance with FASB No. 123R and the issuance of restricted stock awards and stock units are also included in stock-based compensation for the six and three months ended March 31, 2008 and 2007. The Company recognizes compensation expense for restricted stock awards and restricted stock units on a straight-line basis over the requisite service period of the award. The Company recorded \$203,087 and \$61,075 of stock-based compensation expense which has been classified as selling, general and administrative expenses for the six and three months ended March 31, 2008, respectively, and \$240,808 and \$23,824 for the six and three months ended March 31, 2007, respectively.

	For the Six Months Ended March 31,	
	2008	2007
Expected dividend yield		
Expected price volatility	63.76-64.36%	65.21-70.07%
Risk-free interest rate	2.8-3.09%	3.76-4.61%
Expected life of options	4.50-5.25 years	5-8.25 years

The Company's computation of the expected volatility for the six months ended March 31, 2008 and 2007 is based primarily upon historical volatility and the expected term of the option. The Company continues to use the simplified method of determining the expected term provided under SAB 110 as sufficient historical data is not available. The interest rate is based on the U.S. Treasury yield in effect at the time of grant for a period commensurate with the estimated expected life.

As of March 31, 2008, approximately \$811,657 of total unrecognized compensation costs related to non-vested stock options is expected to be recognized over a weighted average period of 2.51 years.

Company Overview

Sunair Services Corporation (the Company we or us) is a Florida corporation organized in 1956. We changed our corporate name from Sunair Electronics, Inc. to Sunair Services Corporation in November of 2005. Previously, we operated through two business segments: Telephone Communications and High Frequency Radio. In June 2005 with the acquisition of Middleton Pest Control, Inc. (Middleton) we embarked on a new strategy to become a leading regional provider of lawn and pest control services focusing mainly on residential customers.

In order to execute our strategy, we shifted our focus to the Lawn and Pest Control Services business segment, which resulted in a series of acquisitions and divestitures planned to enable us to shed our legacy businesses (Telephone Communications and High Frequency Radio) and grow our core business, lawn and pest control. We intend to divest ourselves of our remaining telecommunications subsidiary, Telecom FM Limited (Telecom FM), as soon as is practicable. However, we cannot assure you of the timing of such disposition, or the amount of net proceeds we will receive upon such disposition.
