SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

Quarterly Report Under Section 13 or 15 (d)
of the Securities Exchange Act of 1934

For Quarter Ended June 30, 2002

Commission File Number 0-13898

Veramark Technologies, Inc.

(Exact name of registrant as specified in its charter)

Delaware

16-1192368

(State or other jurisdiction
of Incorporation or Organization)

(IRS Employer Identification Number)

3750 Monroe Avenue, Pittsford, NY

14534

(Address of principal executive offices)

(Zip Code)

(585) 381-6000

(Registrant's telephone number, including area code)
N.A.

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports) and (2) has been subject to such filing requirement for the past 90 days.

- (4) On March 26, 2001, the Company completed the sale of VeraBill, its billing and customer care product line, to MIND CTI Ltd. of Yokneam, Israel. The net proceeds from the sale were \$941,000, representing cash received at closing of \$1,000,000, less transaction related fees and expenses of \$59,000. After all fees, expenses, and the write-off of remaining capitalized software associated with the VeraBill product line, the Company recognized a net gain on the transaction of \$315,676.

(5) NEW ACCOUNTING PRONOUNCEMENTS

In June 2001, the FASB issued SFAS No. 143, Accounting for Asset Retirement Obligations. SFAS No. 143 requires that obligations associated with the retirement of a tangible long-lived asset be recorded as a liability when those obligations are incurred, with the amount of the liability initially measured at fair value. Upon initially recognizing a liability for an asset retirement obligation, an entity must capitalize the cost by recognizing an increase in the carrying amount of the related long-lived asset. Over time, the liability is accreted to its present value each period and the capitalized cost is depreciated over the useful life of the related asset. Upon settlement of the liability, an entity either settles the obligation for its recorded amount or incurs a gain or loss upon settlement. The provisions of SFAS No. 143 will be required to be adopted by the Company in fiscal 2003. The Company does not currently believe adoption of this statement will have a material effect on its financial position or its results of operations.

In October 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. This statement supercedes SFAS No.121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of. SFAS No. 144 addresses the accounting model for long-lived assets to be disposed of by sale and resulting implementation issues. This statement requires that those long-lived assets be measured at the lower of carrying amount or fair value less cost to sell, whether reported in continuing operations or in discontinued operations. Therefore, discontinued operations will no longer be measured at net realizable value or include amounts for operating losses that have not yet occurred. It also broadens the reporting of discontinued operations to include all components of an entity with operations that can be distinguished from the rest of the entity and that will be eliminated from the ongoing operations of the entity in a disposal transaction. This statement is effective for financial statements issued for fiscal years beginning after December 15, 2001 and was adopted by the Company January 1, 2002. The Company does not believe the adoption of SFAS No. 144 will have a material effect on its financial position or its results of operations.

In May 2002, the FASB No. 145, Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections. SFAS No. 145 eliminates the requirement that gains and losses from the extinguishments of debt be aggregated and, if material, classified as an extraordinary item, net of the related income tax effect. However, an entity is not prohibited from classifying such gains and losses as extraordinary items, so long as they meet the criteria outlined in Accounting Principles Board Opinion No. 30, Reporting the Results of Operations Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions. SFAS No. 145 also eliminates the inconsistency between the accounting for sale-leaseback transactions and certain lease modifications that have economic effects that are similar to sale-leaseback transaction. This statement is effective for financial statements issued for fiscal years beginning after May 15, 2002. The Company will adopt SFAS No. 145 in the fiscal year beginning

Table of Contents

January 1, 2003 and has determined that adoption will not have a material effect on its financial position or its results of operations.

In July 2002, the FASB issued SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. SFAS No. 146 requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. Examples of costs covered by the standard included lease terminations costs and certain employee severance costs that are associated with a restructuring, discontinued operation, plant closing, or other exit or disposal activity. Previous accounting guidance was provided by EITF Issue No. 94-3, Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring). SFAS No. 146 replaces EITF Issue No. 94-3. This statement is to be applied prospectively to exit or disposal activities initiated after December 31, 2002. The company will adopt SFAS No. 146 in the fiscal year beginning January 1, 2003.

Table of Contents

Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

Except for the historical information contained herein, the matters discussed in this report are forward-looking statements, which involve risks and uncertainties including, but not limited to, economic, competitive, governmental and technological factors, affecting the Company's operations, markets, products, services and prices, as well as other factors discussed in the Company's filings with the Securities and Exchange Commission.

Results of Operations

Sales of \$3,068,105 for the three months ended June 30, 2002, increased 16% from sales of \$2,638,840 for the three months ended March 31, 2002, and compared with sales of \$3,297,719 for the same three month period of 2001. Sales for the six months ended June 30, 2002 of \$5,706,945 compare with sales of \$6,622,034 for the six months ended June 30, 2001.

The net loss for the three months ended June 30, 2002, was \$334,093, or \$0.04 per diluted share, an improvement of \$157,608 from the net loss of \$491,701, or \$0.06 per diluted share for the three months ended June 30, 2001. For the six months ended June 30, 2002, the Company incurred a net loss of \$967,222, or \$0.12 per diluted share, versus a net loss of \$874,174, or \$0.11 per diluted share, for the first six months of 2001. Results for 2001 include a one-time gain on the sale of the Company's former VeraBill product line, in March of 2001. Excluding this gain for comparative purposes, the Company's net loss for the first six months of 2002 was reduced by \$222,628 from the loss incurred for the first six months of 2001.

For the second consecutive quarter, the Company continued to recognize growth in the sales of its core call accounting products. For the three months ended June 30, 2002, sales of call accounting products increased 22% over the three months ended June 30, 2001. For the six months ended June 30, 2002, call accounting sales increased 14% from sales recognized for the first six months ended June 30, 2001. The increase in call accounting sales is attributable to the fourth quarter 2001 release of eCAS, the company's new web-based call accounting platform. eCAS has quickly gained wide customer acceptance among the Company's current client base and has been instrumental in allowing the Company to aggressively pursue new channels of distribution.

Sales of enterprise level products, which primarily consist of the Company's Quantum product line, continue to be effected by industry conditions and the general economy. The Company sees a continuation of a trend, dating back to 2001, of customers delaying major capital projects due to concerns regarding the state of the economy. For the three and six months ended June 30, 2002, the Company has experienced decreases of 17% and 25%, respectively, in Quantum product sales from the same three and six month period of 2001. Second quarter 2002 sales of Quantum, however, did increase 21% from the level recognized in the first quarter of 2002 and included an order from McChord Air Force Base valued at approximately \$450,000. This order included a number of Quantum product modules including cable management, call accounting, directory assistance, consolidated billing, phone bill reconciliation, work order/trouble ticket and inventory. Approximately \$190,000 attributable to this order is included in second quarter sales, with the balance to be recognized over the subsequent three quarters as the installation requirements and associated services are provided.

For the three months ended June 30, 2002, sales generated from service activities, which include training, installation, maintenance and customization, accounted for 56% total sales, and for the six months

Table of Contents

ended June 30, 2002, accounted for 59% of total sales. For the three and six months ended June 30, 2001, service activities accounted for 49% and 48% respectively, of total Company sales.

Gross profit margins for the three and six months ended June 30, 2002 of \$2,443,566 and \$4,542,546, representing 80% of sales, compared with gross profit margins \$2,779,645 and \$5,558,265, representing 84% of sales for the three and six months ended June 30, 2001. The lower percentage gross margins reflect an increase in the amortization of development costs associated with eCAS, now being amortized and charged to cost of sales.

Net engineering and development expenses increased 1% for the three months ended June 30, 2002, but decreased 3% for the six months ended June 30, 2002, from the respective three and six month periods ended June 30, 2001. The table below details gross engineering and developments costs, amounts capitalized and the resulting net engineering and development costs included in the Company's Condensed Consolidated Statement of Operations for the three and six months ended June 30, 2002 and 2001.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2002	2001	2002	2001
Gross engineering and development expense	\$ 718,907	\$ 1,064,695	\$ 1,443,338	\$ 2,263,933
Less: Development cost capitalized				
(-) (351,260) (-) (778,281)				
Net engineering and development expense	\$718,907	\$713,435	\$1,443,338	\$1,485,652

Selling, general and administrative expense of \$2,048,781 incurred for the three months ended June 30, 2002, decreased 20% from \$2,568,810 incurred for the three months ended June 30, 2001. For the six months ended June 30, 2002, selling, general, and administrative expense decreased 23% from \$5,302,301 for the six months ended June 30, 2001 to \$4,067,766. The reduction in expense incurred reflects a significant reduction in the Company's employment level and the consolidation of certain functions undertaken as a result of the decline in the Company's sales levels. As of June 30, 2002, the Company employs 115 full-time employees versus 148 full-time employees as of June 30, 2001.

Liquidity and Capital Resources

Edgar Filing: VERAMARK TECHNOLOGIES INC - Form 10-Q

Despite the net operating losses incurred for the three and six months ended June 30, 2002, total cash and investments of \$1,323,074 have increased from \$1,112,372 at March 31, 2002, and \$1,250,787 at December 31, 2001. The cash and investment balances referenced above do not include the cash surrender value of company-owned life insurance policies of approximately \$1.3 million available to fund operations should it become necessary. As of June 30, 2002, the Company remains free of debt and does not foresee the need to incur debt to support current operations.

Accounts receivable have declined from the December 31, 2001 balance of \$1,622,846, net of an allowance for doubtful accounts of \$139,000 to \$1,411,016, net of an allowance for doubtful accounts of \$172,000 at June 30, 2002. There have been no significant write-offs of uncollectible accounts during the first six months of 2002.

Table of Contents

Net inventories have remained stable throughout the year and are valued at \$150,606 at June 30, 2002, versus \$155,159 at December 31, 2001. The Company expects no significant changes in inventory levels for the balance of the year.

Prepaid expenses increased from \$76,175 at December 31, 2001 to \$295,733 at June 30, 2002. The increase reflects the renewal of several business insurance policies during the second quarter of 2002. The prepaid balance will decrease throughout the third and fourth quarters of 2002 as the associated insurance expense is recorded for the appropriate periods covered by the policies.

The Company continues to monitor its capital expenditures closely. Through the first six months of 2002, the Company has made capital additions of \$12,109. It is expected that the level of capital expenditures will increase during the second half of 2002 due to equipment upgrades required, primarily for engineering, development, and test equipment.

The net value of software development costs capitalized has declined from \$2,505,156 at December 31, 2001 to \$2,047,605 at June 30, 2002, reflecting the amortization of \$457,551 of previously capitalized development costs. There have been no development costs capitalized during the first six months of 2002.

Total current liabilities of \$5,237,919 at June 30, 2002, have increased 5% from the December 31, 2001 total of \$4,991,391. The largest increases are accounts payable, which have increased \$136,706 since December 31, 2001, accrued compensation, which has increased \$69,005, and deferred revenues, which have increased \$130,269. Deferred revenues, the largest single component of current liabilities, consist of services for which the Company has billed customers, but has not yet performed the service, and accordingly has not recorded the associated revenue as of June 30, 2002. These services typically include maintenance, training, installation, and consulting services.

Total stockholders equity at June 30, 2002 is \$713,954 versus \$1,651,065 at December 31, 2001, primarily reflecting the net loss of \$967,222 incurred for the first six months of 2002.

The company maintains a private equity line of credit agreement with a single institutional investor. Under the equity line, the Company has the right to sell, to the investor, shares of the Company's common stock at a price equal to 94% of the average bid price of the stock for the prior ten trading days. During the term of the agreement, the Company may sell up to \$6 million of common stock to this investor with no more than \$500,000 in any single month. The term of this agreement extends through August 31, 2004.

Despite the operating loss incurred for the six months ended June 30, 2002, the Company generated an increase its cash position, and believes that at its current reduced operating expense levels, and access to the cash surrender value of current insurance policies, that sufficient resources are available to meet the Company's financial obligations for the next twelve months.

New Accounting Pronouncements

In June 2001, the FASB issued SFAS No. 143, Accounting for Asset Retirement Obligations. SFAS No. 143 requires that obligations associated with the retirement of a tangible long-lived asset be recorded as a liability when those obligations are incurred, with the amount of the liability initially measured at fair value. Upon initially recognizing a liability for an asset retirement obligation, an entity must capitalize the cost by recognizing an increase in the carrying amount of the related long-lived asset. Over time, the liability is

Table of Contents

accreted to its present value each period and the capitalized cost is depreciated over the useful life of the related asset. Upon settlement of the liability, an entity either settles the obligation for its recorded amount or incurs a gain or loss upon settlement. The provisions of SFAS No. 143 will be required to be adopted by the Company in fiscal 2003. The Company does not currently believe adoption of this statement will have a material effect on its financial position or its results of operations.

In October 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. This statement supersedes SFAS No. 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of. SFAS No. 144 addresses the accounting model for long-lived assets to be disposed of by sale and resulting implementation issues. This statement requires that those long-lived assets be measured at the lower of carrying amount or fair value less cost to sell, whether reported in continuing operations or in discontinued operations. Therefore, discontinued operations will no longer be measured at net realizable value or include amounts for operating losses that have not yet occurred. It also broadens the reporting of discontinued operations to include all components of an entity with operations that can be distinguished from the rest of the entity and that will be eliminated from the ongoing operations of the entity in a disposal transaction. This statement is effective for financial statements issued for fiscal years beginning after December 15, 2001 and was adopted by the Company January 1, 2002. The Company does not believe the adoption of SFAS No. 144 will have a material effect on its financial position or its results of operations.

In May 2002, the FASB issued SFAS No. 145, Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections. SFAS No. 145 eliminates the requirement that gains and losses from the extinguishments of debt be aggregated and, if material, classified as an extraordinary item, net of the related income tax effect. However, an entity is not prohibited from classifying such gains and losses as extraordinary items, so long as they meet the criteria outlined in Accounting Principles Board Opinion No. 30, Reporting the Results of Operations Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions. SFAS No. 145 also eliminates the inconsistency between the accounting for sale-leaseback transactions and certain lease modifications that have economic effects that are similar to sale-leaseback transaction. This statement is effective for financial statements issued for fiscal years beginning after May 15, 2002. The Company will adopt SFAS No. 145 in the fiscal year beginning January 1, 2003 and has determined that adoption will not have a material effect on its financial position or its results of operations.

In July 2002, the FASB issued SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. SFAS No. 146 requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. Examples of costs covered by the standard included lease terminations costs and certain employee severance costs that are associated with a restructuring, discontinued operation, plant closing, or other exit or disposal activity. Previous accounting guidance was provided by EITF Issue No. 94-3, Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring). SFAS No. 146 replaces EITF Issue No. 94-3. This statement is to be applied prospectively to exit or disposal activities initiated after December 31, 2002. The company will adopt SFAS No. 146 in the fiscal year beginning January 1, 2003.

PART II OTHER INFORMATION

Item 6: Exhibits and Reports on Form 8-K

- (1) Registrant's Condensed Consolidated Financial Statements for the three and six months ended June 30, 2002 and 2001 are set forth in Part I, Item 1 of this Quarterly Report on Form 10-Q.
- (2) Calculation of loss per share for the three and six months ended June 30, 2002 and 2001, as set forth as Exhibit A .
- (3) On June 4, 2002, the Company filed a report on Form 8-K with the Securities and Exchange Commission announcing that The Nasdaq Stock Market had denied the Company's request for continued listing on the Nasdaq SmallCap Market. As a result, the Common Stock of the Company was delisted from the Nasdaq SmallCap Market with the opening of business on June 6, 2002. The Company had previously been notified by Nasdaq that they did not comply with the minimum net tangible assets or minimum stockholder equity requirement for continued listing set forth in Nasdaq Marketplace rule 4310 (c)(2)(b). The Company's Common Stock will remain eligible for trading on the Nasdaq OTC Bulletin Board.
- (4) Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, as set forth in Exhibit B .
- (5) Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, as set forth in Exhibit C .
